Subject: RE: Race Track C Plant--response to Angle Borings to detect pond leakage

Pamela,

Thank you for looking into this for me. I have a copy of the letter you referenced dated 24 May 1996 in our files, so no need to make a copy of it. It appears that our agency did not provide a technical response letter to the "Drilling and Data Acquisition Report, Race Track Hill District," dated 22 May 1996.

Thank you,

Ryan K. West

Subject: Race Track C Plant--response to Angle Borings to detect pond leakage

Hi Ryan,

The last correspondence I found in our Race Track District File is a letter from Larry Bright to Mr. William Pfister at your office, dated May 24, 1996. It is regarding the Drilling and Acquisition Report dated May 22, 1996. Please advise if you need a copy of this letter.

No response from your office dated May 23rd or later is found in this file, which is where it should be located.

I will speak with Larry about this tomorrow when he is back in the office.

Best regards,

Pamela Ashby
