FYI to All,

Sept 10th , late afternoon , I had people come into my office complaining heavily about the odor coming from Morning Star. Their main complaint was with this year's ponds and asked if they were putting anything in the new ponds to neutralize the odors. The smell occurs mid-afternoon and carries into the evening when everyone would like to enjoy outdoor activities but not now due to the smells. Said it will stop for a few days but would return again and the winds make smells worse. These complaints were from families living on Crawford road. They understood there will be odors due to the nature of the plant and had high regards for Morning Star but this year seemed excessive.

Thanks,

Debbie

Good afternoon everyone,

I received an odor complaint for the Valley Ranch area on 9/21/2015 during the evening time.

I received another odor complaint today (9/22/2015) noting a smell this morning and also stated there is typically a smell in the evening time. The complaint came from Husted Road. This complaint also said there is a huge amount of flies which are not allowing them to go outside. When asked when the fly issue started I was told about two weeks sense start-up of the plant.

Thank You,
