The primary responsibility of the Water Board is to protect the quality of the surface and groundwater within the Region for beneficial uses. The duty is carried out by formulating and adopting water quality plans for specific ground or surface water bodies; by prescribing and enforcing requirements on domestic and industrial waste dischargers, and by requiring cleanup of water contamination and pollution. Specific responsibilities and procedures of the Board are outlined in the Porter-Cologne Water Quality Control Act.

Regular meetings of the Board are normally held on the second Wednesday and Thursday of each month. Meeting locations vary but generally alternate between the north and south basins of the region.

The purpose of the monthly meeting is to provide the Board with testimony and information from concerned and affected parties and make decisions after considering the evidence presented. A public forum is held at each regular meeting where any person may address the Board on any matter within the jurisdiction of the Board, but may not be related to any item on the agenda.

The Board welcomes information on pertinent problems, but comments at the meeting should be brief and directed to specifics of the case to enable the Board to take appropriate action. Whenever possible, lengthy testimony should be presented to the Board in writing and only a summary of pertinent points presented verbally. Written material should be submitted no later than the Monday, ten days prior to the Board meeting.

Recordings are made of each Board meeting and these tapes/ CDs are retained in the Board's office for two years. Anyone desiring copies should contact Laurie Applegate at (530) 542-5414, for the current fee schedule for copies.
