Why is there an extension ? So that Pg&e can have more time? For what? Is this another stall tactic? Pg&e has had years to prepare, clean up, destroy evidence, poison, deny, etc

Time is running out. What are they doing with all this time. NO MORE EXTENTIONS!!!!!!!

.... Buy us out or give us replacement water...

I just received the Aug 2011 addition of "Readers Digest" The cover says "how safe if our water?" on page 110 it reads "Three Towns where the water isn't safe to DRINK!!!! HINKLEY, CALIFORNIA is one of the 3 towns in the USA not safe to drink. This is sad to think that we made "Readers Digest" I am sick to my stomach.

And yet PG&E continues to make excuses and wanting more extensions!!!!!!!!!!!!!!!!!!!! NO MORE EXTENTIONS!!!!!!!!!!!!!!!!!!!!

Do whats right.....
