CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
COLORADO RIVER BASIN REGION

ORDER NO. 80-28

WASTE DISCHARGE REQUIREMENTS
FOR
PALM SPRINGS BOWLING CENTER
Palm Springs - Riverside County

The California Regional Water Quality Control Board, Colorado River Basin Region, finds that:

1. Martin Levy (hereinafter also referred to as the discharger), 2315 E. Tahquitz Drive, Palm Springs, CA 92262, submitted a Report of Waste Discharge dated January 24, 1980.
2. The discharger proposes to discharge a design flow of 6,000 gallons-per-day of domestic sewage from a bowling and raquetball complex. The wastewater is to be discharged into septic tank/seepage pit disposal systems located in the SE $\frac{1}{4}$, SE $\frac{1}{4}$, SE $\frac{1}{4}$, SE $\frac{1}{4}$ of Section 17, T4S, R5E, SBB&M.
3. The discharger informs that dry sewers are to be installed, along with the systems described in Finding No. 2 (above), to facilitate eventual connection to the proposed Coachella Valley Water District sewer line on Ramon Road when available, which is to be adjacent to the project.
4. The discharger is reserving areas of sufficient size for possible future 100 percent replacement of the seepage pits.
5. There are no domestic wells within 200 feet of the proposed discharge facilities described in Findings No. 2 and 4 (above).
7. The Water Quality Control Plan for the West Colorado River Basin was adopted by the Board on April 10, 1975. The Basin Plan contains water quality objectives for the Coachella Hydrologic Subunit.
8. The beneficial uses of the groundwater of the Coachella Hydrologic Subunit are:
 - a. Municipal supply
 - b. Industrial supply
 - c. Agricultural supply

*Rescinded
1/26/83
by 83-3*

9. The Board has notified the discharger and interested agencies and persons of its intent to prescribe waste discharge requirements for the proposed discharge.
10. The Board in a public meeting heard and considered all comments pertaining to the proposed discharge.
11. The land for this project was zoned for commercial use prior to April 5, 1973, and therefore it constitutes an ongoing project in accordance with the provisions of the California Environmental Quality Act (Public Resources Code Section 21000 et seq.) and Title 23, California Administrative Code, Chapter 3, Subchapter 17, Section 2715, because the governmental approvals on or after April 5, 1973, do not involve a greater degree of responsibility or control over such (activity) than the governmental approvals received prior to that date.

IT IS HEREBY ORDERED, the discharger shall comply with the following:

A. Discharge Specifications

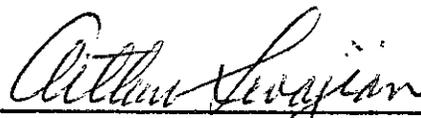

1. Neither the treatment nor the discharge of wastewater shall create a pollution or a nuisance as defined in Division 7 of the California Water Code.
2. No wastewater other than domestic sewage shall be discharged at this location.
3. Wastewater discharged subsurface shall be retained underground with no surfacing.
4. Adequate measures shall be taken to assure that flood or surface drainage waters do not erode or otherwise render portions of the discharge facilities inoperable.
5. Septic tank cleanings shall be discharged only by a duly authorized service.

B. Provisions

1. Sufficient land area shall be reserved for possible future 100 percent replacement of the seepage pits until such time as this complex is connected to a municipal sewerage system.
2. The subsurface sewerage system should be designed and constructed to facilitate connection to the local municipal sewerage system when available.

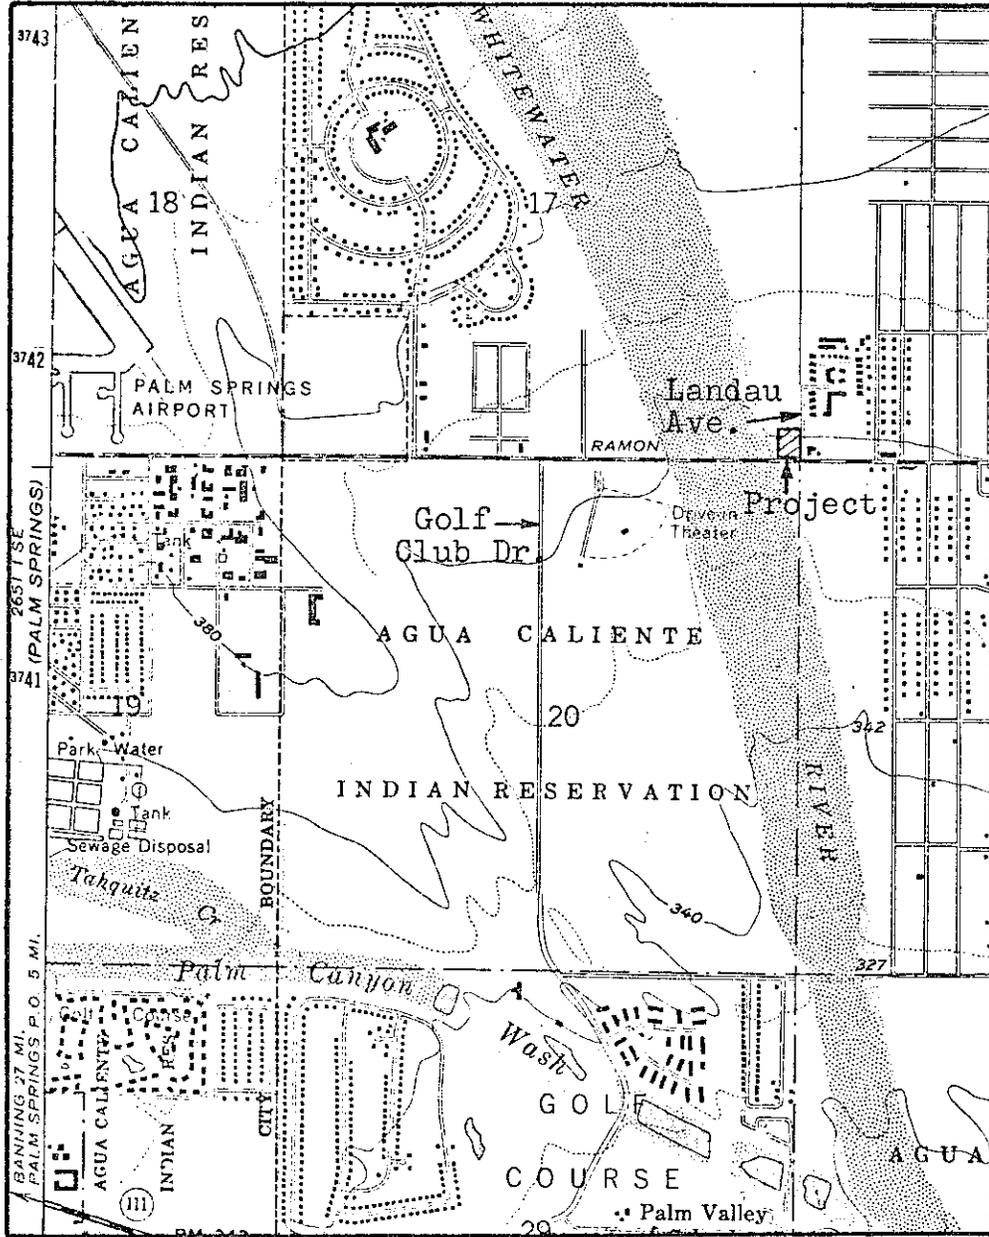

3. Upon request from this Board's Executive Officer the discharger shall furnish technical and/or monitoring reports on the treatment and discharge of waste.
4. Prior to any modifications in this facility which would result in material change in the quality or quantity of wastewater discharge, or any material change in location of discharge, the discharger shall report in writing to the Regional Board.
5. Prior to any change of ownership of this complex, the discharger shall:
 - a. Specify as a condition of transfer that the area specified in Provision B.1. (above) remain servient to the development for the purpose of providing additional subsurface sewage disposal capacity, until such time as this complex is connected to a municipal sewerage system.
 - b. Notify the succeeding owner, in writing of the existence of this Order, and forward a copy of said correspondence to the Regional Board.

I, Arthur Swajian, Executive Officer, do hereby certify that the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, Colorado River Basin Region, on March 26, 1980.

Executive Officer
