

**CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
COLORADO RIVER BASIN REGION**

ORDER NO. 86-64

**WASTE DISCHARGE REQUIREMENTS
FOR
MASSEY SAND AND ROCK
North of Palm Springs - Riverside County**

The California Regional Water Quality Control Board, Colorado River Basin Region, finds that:

1. Massey Sand and Rock Company (hereinafter also referred to as the discharger), P.O. Box 1767, Indio, California, 92202, verified the below updated information on the discharge of wastes on April 3, 1986.
2. The discharger is discharging a total of 19,000 gallons-per-day of wastewater from facilities consisting of a washer at a sand processing plant, and a washer at an asphalt-sand processing plant. The wastewater from both plants is discharged into a lined basin which overflows into two (2) unlined basins. The wastewater is recirculated for use in the washing operations, and is also spread on on-site roads for dust control. The basins are located in the NW $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 23, T3S, R4E, SBB&M.
3. The discharges from these industrial facilities have been subject to waste discharge requirements adopted in Board Order No. 81-13.
4. The Water Quality Control Plan for the Colorado River Basin Region of California was adopted by the Regional Board on November 14, 1984.
5. The beneficial uses of the ground waters of the Coachella Hydrologic Subunit as stated in said Plan are:
 - a. Municipal supply
 - b. Industrial supply
 - c. Agricultural supply
6. The Board has notified the discharger and interested agencies and persons of its intent to update waste discharge requirements for the discharge.
7. The Board in a public meeting heard and considered all comments pertaining to the discharge.
8. These waste discharge requirements govern an existing facility, which the discharger is currently operating, and therefore is exempt from the provisions of the California Environmental Quality Act in accordance with Section 15301 of Title 14, Chapter 3 of the California Administrative Code.

SUPERSEDED BY
BOARD ORDER NO. R7-2006-0018
3-23-06

IT IS HEREBY ORDERED, the discharger shall comply with the following:

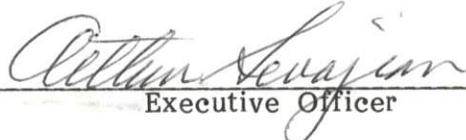

A. Discharge Specifications

1. Neither the treatment nor the discharge of wastewater shall create a pollution or nuisance as defined in Division 7 of the California Water Code.
2. Infiltrating wastewaters shall not contain a total dissolved solids content in excess of 300 mg/l over that contained in the water supply to the plant.
3. Wastewater with a TDS in excess of the limit prescribed in Discharge Specification No. 2 (above) shall be retained in impervious basins with ultimate discharge at a location approved by the Regional Board, except that there is no prohibition against using this water for on-site dust control.
4. There shall be no surface flow of wastewater away from the designated disposal area.
5. Adequate protective works shall be provided to assure that flood or surface drainage waters do not erode or otherwise render portions of the disposal facilities inoperable.

B. Provisions

1. Prior to any material change in the quality or quantity of wastewater discharged, or any material change in the location of discharge, the discharger shall report thereon to the Board.
2. In the event of any change in control or ownership of land or waste disposal facilities owned or controlled by the discharger, the discharger shall:
 - a. Notify the Board of such change; and
 - b. Transmit a copy of this Order to the succeeding owner or operator, and file a copy of the transmittal letter with this Board.
3. The discharger shall comply with "Monitoring and Reporting Program No. 86-64", and future revisions thereto, as specified by the Executive Officer.
4. This Order supersedes Board Order No. 81-13.

I, Arthur Swajian, Executive Officer, do hereby certify the foregoing is a full, true and correct copy of an Order adopted by the California Regional Water Quality Control Board, Colorado River Basin Region, on November 19, 1986.

Executive Officer

**CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
COLORADO RIVER BASIN REGION**

MONITORING AND REPORTING PROGRAM NO. 86-64
FOR
MASSEY SAND AND ROCK COMPANY
North of Palm Springs - Riverside County

Location of Waste Discharge: NW $\frac{1}{4}$, SW $\frac{1}{4}$ of Section 23, T3S, R4E, SBB&M

MONITORING

The monitoring program shall be as follows:

1. Samples shall be taken of wastewater contained in the infiltration basins and monitored for the following:

| <u>Constituents</u> | <u>Units</u> | <u>Type of Sample</u> | <u>Sampling Frequency</u> |
|------------------------|--------------|-----------------------|---------------------------|
| Total Dissolved Solids | mg/l | Grab | Quarterly |

2. The water supply to the plant shall be monitored for the following:

| <u>Constituents</u> | <u>Units</u> | <u>Type of Sample</u> | <u>Sampling Frequency</u> |
|------------------------|--------------|-----------------------|---------------------------|
| Total Dissolved Solids | mg/l | Grab | Quarterly |

REPORTING

Quarterly monitoring reports shall be submitted to the Regional Board by April 15, July 15, October 15 and January 15 of each year.

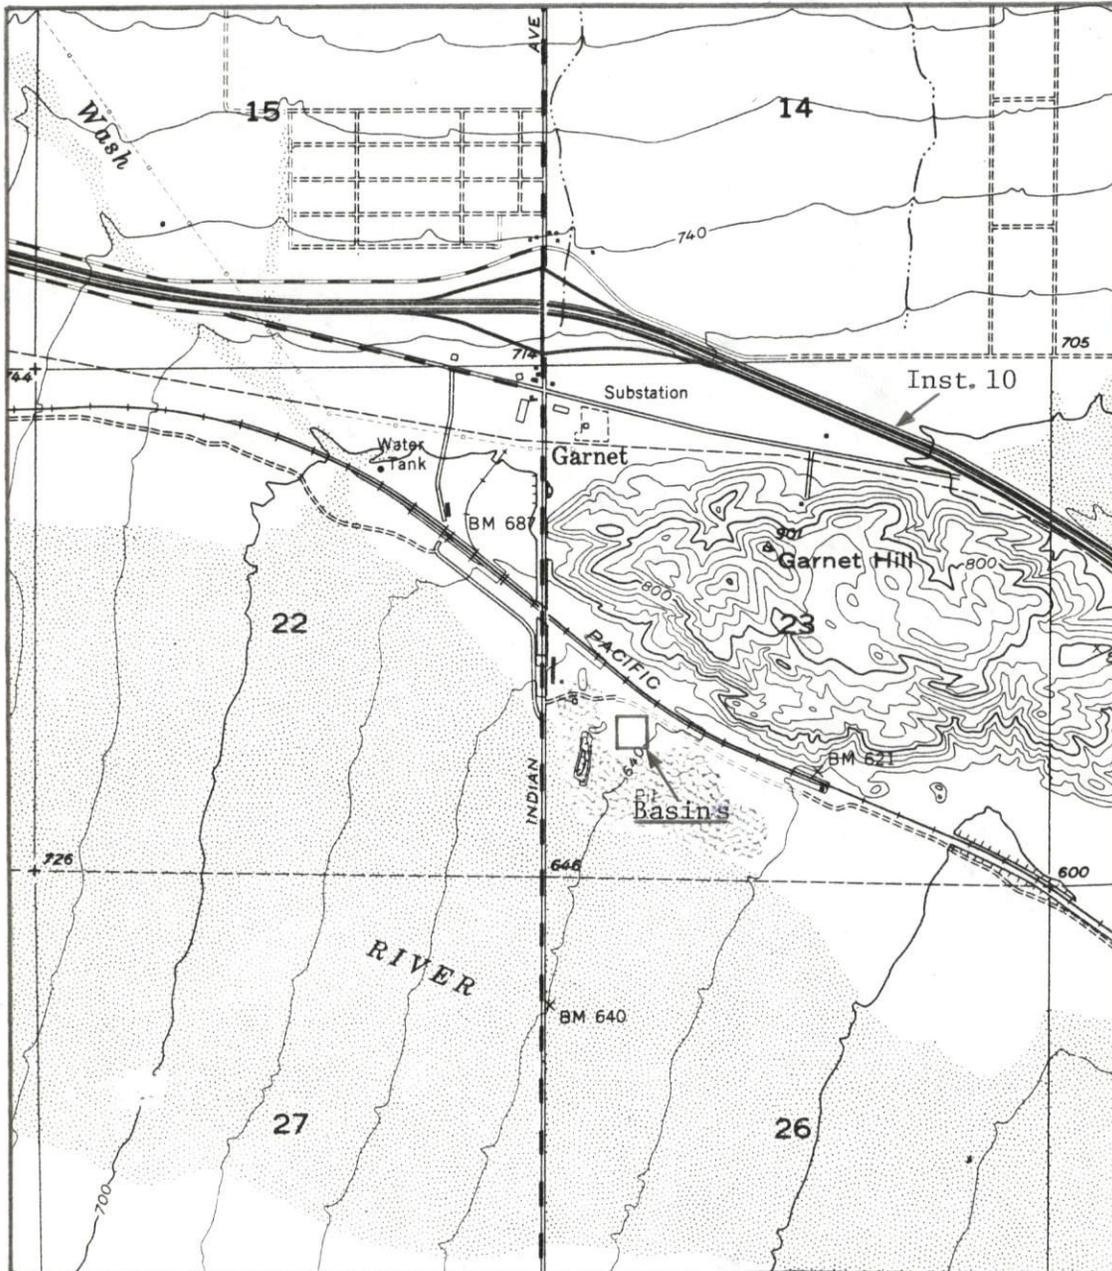

Forward monitoring reports to:
