At a hearing on June 17, 2010, the Colorado River Basin Regional Water Quality Control Board adopted Resolution No. R7-2010-0028, an amendment to the Water Quality Control Plan for the Colorado River Basin Region (Basin Plan). This Basin Plan amendment adds section 3968 to title 23 of the California Code of Regulations, and this new section establishes a Total Maximum Daily Load (TMDL) for bacterial indicators in the Coachella Valley Stormwater Channel. The amendment also establishes a two-phase TMDL implementation plan, and describes the timeline of the plan as well as enforcement actions that may be taken against TMDL violators.

OAL approves this regulatory action pursuant to section 11353 of the Government Code.
