3. California Water Code (CWC) Section 13385 requires that a mandatory minimum penalty (MMP) of \$3,000 be imposed for each serious violation. CWC Section 13385 subdivision (h)(2) defines a 'serious' violation, as any waste discharge that violates an effluent limitation contained in waste discharge requirements (applying to surface water discharges) for a Group I pollutant by 40 percent or more or for a Group II pollutant by 20 percent or more.
4. CWC Section 13385 subdivision (i) also requires that a MMP of \$3,000 be imposed for each violation (i.e. incomplete reports and any waste discharge that violates an effluent limitation contained in waste discharge requirements and applies to surface water discharges) beginning with the fourth violation in any six-month period.
5. On July 16, 2008, the Regional Board sent Conditional Early Settlement Offer No. R9-2008-0076 to the City to resolve the 23 violations of Order No. R9-2003-0050 in Table 1 in the amount of sixty nine thousand dollars (\$69,000). The Offer notified the City that the 23 violations were subject to MMPs. The offer was sent in lieu of an Administrative Civil Liability Complaint to promote early resolution of administrative enforcement actions for the 23 violations.
6. On August 13, 2008, the City accepted the "Offer to Participate in Expedited Payment Program" and waived the right to a hearing before the Regional Board to dispute the allegations of violations described in Offer No. R9-2008-0076. Thus, the City has agreed to pay the MMPs in full.
7. CEQA COMPLIANCE: Issuance of this Order is an enforcement action taken by a regulatory agency and is exempt from the provisions of the California Environmental Quality Act (CEQA) (Public Resources Code section 21000 et seq.) pursuant to section 15321(a)(2), Chapter 3, Title 14 of the California Code of Regulations. This action is also exempt from the provisions of CEQA in accordance with section 15061(b)(3) of Chapter 3, Title 14 of the California Code of Regulations because it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.
8. The Regional Board incurred costs of \$6,500 to prosecute the enforcement action; the costs include investigation, preparation of enforcement documents, communicating with the City and preparation of materials for public review and hearing.

**IT IS HEREBY ORDERED** that pursuant to Section 13385 of the California Water Code, civil liability is imposed on the City in the amount of sixty nine thousand dollars (\$69,000).

1. The City shall make a payment of \$69,000 to the State Water Resources Control Board for deposit into the Cleanup and Abatement Account within 30 days of adoption of this Order.
2. Fulfillment of the City's obligations under this Order constitutes full and final satisfaction of any and all liability for each allegation in Offer R9-2008-0076.
3. The Executive Officer is authorized to refer this matter to the Office of the Attorney General for collection or other enforcement if the City of San Diego fails to comply with paragraph 1.

I, John H. Robertus, Executive Officer, do hereby certify the foregoing is a full, true and correct copy of an Order imposing civil liability assessed by the California Regional Water Quality Control Board, San Diego Region, on November 12, 2008.
