**NOTICE OF OPPORTUNITY TO REVIEW AND COMMENT AND
NOTICE OF PUBLIC HEARING**

Proposed Issuance of Tentative Resolution No. R9-2017-0106: A Resolution Designating Marine Corps Recruit Depot San Diego In The San Diego Region As a Regulated Small Municipal Separate Storm Sewer System, Subject to State Water Resources Control Board Order No. 2013-0001-DWQ, National Pollutant Discharge Elimination System Permit No. CAS000004

The California Regional Water Quality Control Board, San Diego Region (San Diego Water Board) is releasing, for public review and comment Tentative Resolution No. R9-2017-0106, *A Resolution Designating Marine Corps Recruit Depot (MCRD) San Diego as a Regulated Small Municipal Separate Storm Sewer System (MS4) Subject to State Water Resources Control Board Order No. 2013-0001-DWQ, National Pollutant Discharge Elimination System Permit No. CAS000004* (Tentative Resolution). Notice is hereby given that the San Diego Water Board will receive written comments on the Tentative Resolution in accordance with this notice. Notice is also given that the San Diego Water Board intends to consider adoption of the Tentative Resolution after a public hearing at its scheduled meeting on Wednesday, October 11, 2017.

If adopted, the Executive Director of the State Water Resources Control Board (State Water Board) will consider amendment of Attachment B of the Phase II General Permit to include MCRD San Diego. The State Water Board will circulate this Tentative Resolution and the proposed amendment to Attachment B of the Phase II General Permit concurrently with the San Diego Water Board public comment period. The public notice and opportunity to comment provided for this Tentative Resolution also functions as the notice and comment period for the decision by the Executive Director of the State Water Board. The State Water Board will not provide a separate public comment period prior to making its determination, but will review the proceedings before the San Diego Water Board, including any written comments.

Background

In 2013, the State Water Board adopted Water Quality Order No. 2013-0001-DWQ General Permit No. CAS000004, *Waste Discharge Requirements for Storm Water Discharges from Small MS4s* (Phase II General Permit). The Phase II General Permit regulates storm water runoff from small municipalities and other "Non-traditional" facilities, including universities, prisons, hospitals, military bases, and transit districts. Attachment B of the Phase II General Permit lists Non-traditional MS4s regulated under the Phase II General Permit. During the permit term, Regional Water Boards may designate, on a case by case basis, additional small MS4s that should be regulated under the Phase II General Permit. Designations must be based on the potential for the small MS4's discharges to result in exceedances of water quality standards.

This Tentative Resolution seeks to designate MCRD San Diego as a Small MS4 regulated under the Phase II General Permit based on the potential of discharges from MCRD San Diego's operations to result in exceedances of water quality standards. If the Tentative Resolution is adopted, the Executive Director of the State Water Board will consider amendment of Attachment B of the Phase II General Permit to include MCRD San Diego, thereby requiring MCRD San Diego to obtain coverage under the Phase II General Permit.
