Amanda, please add the following text to the front page of the March 26 redline version and resend it to us:

"This March 26, 2009 redline version reflects minor revisions to chapters 5 and 6 of the March 9, 2009 Flow, Entrainment and Impingement Minimization Plan. There were no revisions to attachments 1-6 and 8. Attachments 7 and 9 are new."

Since Poseidon will be submitting another version of the Plan addressing the deletion of technologies previously determined to be feasible in chapter 4, and explaining the rationale for using the existing mitigation for the newly-identified impingement impacts based on habitat, rather than productivity, it doesn't make sense to us for the March 26, 2009 version to also show all changes from the March 6, 2008 version. The final version, which we hope to receive as soon as possible, needs to be accompanied by three redline versions that show revisions from March 6, 2008, March 9, 2009, and March 26, 2009 version. It also needs to have Peter's signature.

Thanks,
Phil
