Subject: ACLC No. R9-2015-0110, Requirement for Amended Technical Analysis

Mr. Rosenbaum and Ms. Drabandt:

The Chair of the San Diego Water Board directs the Prosecution Team to prepare and submit an amended Technical Analysis showing in redline references to the specific supplemental evidence within the Prosecution Team's Exhibits 32 through 41 on which it relies to support each of the thirteen types of alleged violations discussed in Section II of the Technical Analysis. References to specific supplemental evidence, if any, should be inserted as applicable to each alleged violation in section II of the Technical Analysis beginning on page 6. For example, if the Prosecution Team relies on specific supplemental evidence for Violation No. 1, references should be inserted in the paragraph after the phrase: "The violations were noted in the following documents:" on page 7. References shall be to specific photographs identified by date and image number or to documents by page number/other locator within specific Exhibits. The Prosecution Team may not otherwise amend the Technical Analysis by adding new evidence (not previously submitted before close of hearing), explanatory text, authentication, argument or any other commentary. The amended Technical Analysis shall be submitted by **5 p.m. on March 18, 2016**.

San Altos-Lemon Grove, LLC may submit a written response to the amended Technical Analysis. Any response shall not exceed ten pages in length and shall be submitted by 5 p.m. on **March 23, 2016**.

The documents should be provided by email to Catherine Hagan, with a copy to the other designated party.

Sincerely,

Catherine George Hagan
