FOCUSED MEETING AGENDA

Administrative Draft of
Tentative Order No. R9-2012-0011, NPDES No. CAS0109266
Municipal Separate Storm Sewer Systems (MS4s) Draining the Watersheds within the
San Diego Region

Wednesday, July 25, 2012
9:30 a.m. - 3:30 p.m.

9:30 a.m. - 9:40 a.m.  Introductions,
Table Participants

9:40 a.m. - 9:50 a.m.  Meeting Recap & Feedback,
Lewis Michaelson, Katz & Associates

9:50 a.m. - 10:00 a.m.  Focused Meeting Highlights,
David Barker, San Diego Water Board

10:00 a.m. - 10:10 a.m.  Monitoring Requirements Intro,
Eric Becker, San Diego Water Board

10:10 a.m. - 11:30 a.m.  Stakeholder Monitoring Presentations,
Table Participants

11:30 a.m. - 12:30 p.m.  Lunch

12:30 p.m. - 1:30 p.m.  Discussion on Monitoring Proposals
Related to Permit Requirements,
Table Participants

1:30 p.m. - 1:45 p.m.  Break

1:45 p.m. - 3:00 p.m.  Discussion on Monitoring Proposals
Related to Permit Requirements,
Table Participants

3:00 p.m. - 3:30 p.m.  Parking Lot Discussion
Comments & Questions
All
ELECTRONIC MAIL LIST SUBSCRIPTION
The San Diego Water Board has established an electronic mail list specifically for information and notices on the development of a Regional MS4 Storm Water Permit. The San Diego Water Board will use the email list to notify interested persons of upcoming important events and the availability of online documents. Persons interested in receiving future notices and information on this specific project can subscribe to one (1) of the electronic mail lists titled “Orange County MS4 Permit,” “Riverside County MS4 Permit,” or “San Diego MS4 Permit,” located on the San Diego Water Board website at:

http://www.waterboards.ca.gov/resources/email_subscriptions/reg9_subscribe.shtml

<tr>
<td>June 27, 2012</td>
<td><strong>ASSESSMENT/PLANNING</strong>&lt;br&gt;1. In what ways can the proposed provisions of the administrative draft permit be modified to better assess if the Copermittees’ jurisdictional runoff management programs are effectively prohibiting non-storm water discharges to their MS4s?&lt;br&gt;2. In what ways can the proposed provisions of the administrative draft permit be modified to better assess if the Copermittees’ jurisdictional runoff management programs are reducing pollutants in storm water to the maximum extent practicable (MEP)?&lt;br&gt;3. In what ways can the proposed provisions of the administrative draft permit be modified to better assess that improvements are being achieved in the physical, chemical, and biological conditions of receiving waters as a result of implementing the Copermittees’ Water Quality Improvement Plans?&lt;br&gt;4. How can adaptive management or the “iterative process” be incorporated into the proposed provisions of the administrative draft permit better?&lt;br&gt;5. How can the proposed provisions of the administrative draft permit be modified to support a Copermittee’s ability to plan and/or procure resources for its jurisdictional runoff management program?&lt;br&gt;6. How can the proposed provisions of the administrative draft permit be modified to reduce or eliminate any conflicts with other requirements (e.g. TMDLs, ASBS) or programs (e.g. flood management, vector control, water supply, recycled water, groundwater recharge)?</td>
<td>II.A. Prohibitions and Limitations (includes WQBELs for TMDLs in Attachment E)&lt;br&gt;II.B. Water Quality Improvement Plans&lt;br&gt;II.C. Action Levels&lt;br&gt;II.D.4.a. MS4 Discharges Assessments&lt;br&gt;II.D.4.b. Receiving Waters Assessments&lt;br&gt;II.D.4.c. Water Quality Improvement Assessments&lt;br&gt;II.F.1. Water Quality Improvement Plans&lt;br&gt;II.F.2.c.
