

Tentative Order No. R9-2015-0001

Modification of the Regional MS4 Permit to include the Orange County Copermittees

California Regional Water Quality Control Board
San Diego Region

San Diego Water Board Practical Vision

Healthy Waters, Healthy People

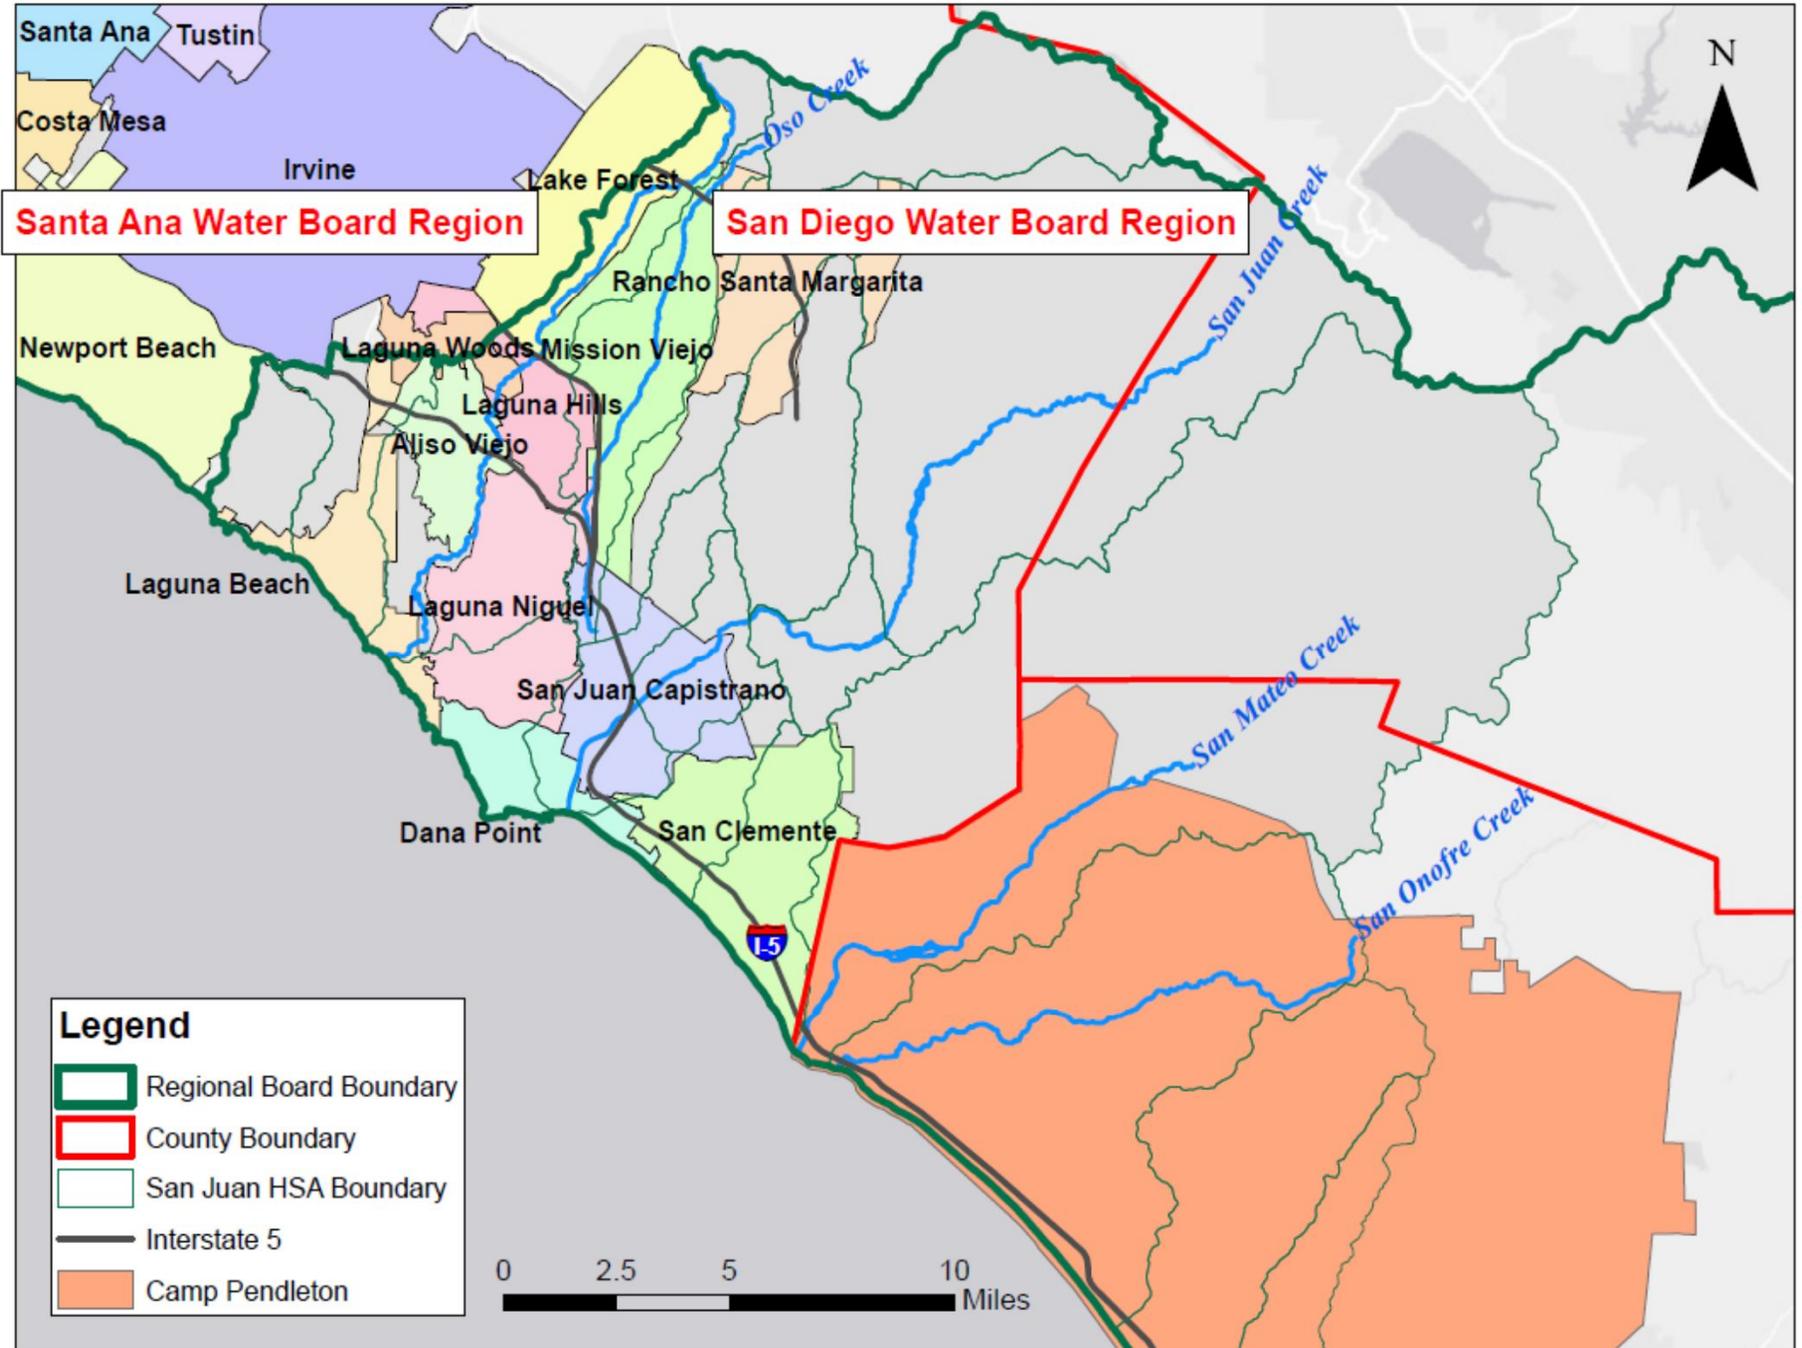

A sustainable future for future generations

San Juan HU (901)

Tentative Order R9-2015-0001

Proposed Modifications to the Regional MS4 Permit

3. Include the Unified Approach for Beach Water Quality Monitoring
 - Consolidates and replaces fecal indicator bacteria monitoring
4. Add Los Peñasquitos Lagoon Sediment TMDL
 - TMDL became effective July 14, 2014
5. Correct typographical error
 - State Water Board Order - Exception to the Ocean Plan for MS4 Discharges to ASBS's
6. Land Development Requirements
 - Interim hydromodification exemptions

Hydromodification Management

Changes in natural flow regime caused by land development

Water Quality Improvement Plan

- 2-Year Development Process
- Consultation Panel and Stakeholder Input
- Accepted by San Diego Water Board
- Evaluate Retrofit/Restoration Opportunities

Exemptions

Apply to projects where risk of erosion is minimal

- Concrete-lined channels
- Underground storm drains

Interim Exemption -- Engineered Channel

Channel engineered and maintained to convey the flow generated by 10-year storm, from point of discharge to lake, bay, or Pacific Ocean

Interim Exemption -- Large River

- Floodplain > 100 sq mi
- 100-year storm flow > 20,000 cubic ft/sec

Tentative Order R9-2015-0001
