PUBLIC WORKS DEPARTMENT

September 14, 2012

Mr. Bruce Wolfe, Executive Officer
San Francisco Bay Regional Water Quality Control Board
1515 Clay Street
Oakland, CA 94612

Attention: Ms. Jolanta Uchman, Water Resources Control Engineer

Reference: Fairfield-Suisun Urban Runoff Management Program
FY 2011-2012 Annual Report

Dear Mr. Wolfe and Ms. Uchman:

The attached FY2011-2012 Annual Report represents the City of Fairfield's responses to the items requested per Provision C.16 of NPDES Permit No. CA S612008 (Permit) as adopted on October 14, 2009 via Order No. R2-2009-0074.

I certify under penalty of law that this document was prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Sincerely,

for GEORGE R. HICKS
Public Works Director

Section 1 – Permittee Information

Background Information					
Permittee Name:	City of Fairfield				
Population:	106,400				
NPDES Permit No.:	CAS612008				
Order Number:	R2-2009-0074R				
Reporting Time Period (month/year):	July 1, 2011 through June 30, 2012				
Name of the Responsible Authority:	George R. Hicks			Title:	Public Works Director
Mailing Address:	1000 Webster Street				
City: Fairfield		Zip Code:	94533	County:	Solano
Telephone Number:	707-428-7494		Fax Number:		707-428-7607
E-mail Address:	ghicks@fairfield.ca.gov				
Name of the Designated Stormwater Management Program Contact (if different from above):	James J. Paluck			Title:	Senior Civil Engineer
Department:	Public Works				
Mailing Address:	1000 Webster Street				
City: Fairfield		Zip Code:	94533	County:	Solano
Telephone Number:	707-428-7479		Fax Number:		707-428-7607
E-mail Address:	jpaluck@fairfield.ca.gov				

Section 2 - Provision C.2 Reporting Municipal Operations

Program Highlights and Evaluation

Highlight/summarize activities for reporting year:

Summary:

See FSURMP Program's Annual Report and BASMAA's Regional Annual Report for FY 2011-2012 for a summary of activities conducted program-wide and regionally on the City's behalf.

C.2.a. ►Street and Road Repair and Maintenance

Place an **X** in the boxes next to implemented BMPs to indicate that these BMPs were implemented in applicable instances. If not applicable, type **NA** in the box. If one or more of these BMPs were not adequately implemented during the reporting fiscal year then indicate so and provide explanation in the comments section below:

X	Control of debris and waste materials during road and parking lot installation, repaving or repair maintenance activities from polluting stormwater
X	Control of concrete slurry and wastewater, asphalt, pavement cutting, and other street and road maintenance materials and wastewater from discharging to storm drains from work sites.
X	Sweeping and/or vacuuming and other dry methods to remove debris, concrete, or sediment residues from work sites upon completion of work.

Comments:

NONE

C.2.b. ►Sidewalk/Plaza Maintenance and Pavement Washing

Place an **X** in the boxes next to implemented BMPs to indicate that these BMPs were implemented in applicable instances. If not applicable, type **NA** in the box. If one or more of these BMPs were not adequately implemented during the reporting fiscal year then indicate so and explain in the comments section below:

X	Control of wash water from pavement washing, mobile cleaning, pressure wash operations at parking lots, garages, trash areas, gas station fueling areas, and sidewalk and plaza cleaning activities from polluting stormwater
X	Implementation of the BASMAA Mobile Surface Cleaner Program BMPs

Comments:

NONE

C.2.c. ►Bridge and Structure Maintenance and Graffiti Removal

Place an **X** in the boxes next to implemented BMPs to indicate that these BMPs were implemented in applicable instances. If not applicable, type **NA** in the box. If one or more of these BMPs were not adequately implemented during the reporting fiscal year then indicate so and explain in the comments section below:

NA	Control of discharges from bridge and structural maintenance activities directly over water or into storm drains
X	Control of discharges from graffiti removal activities
X	Proper disposal for wastes generated from bridge and structure maintenance and graffiti removal activities
X	Implementation of the BASMAA Mobile Surface Cleaner Program BMPs for graffiti removal
X	Employee training on proper capture and disposal methods for wastes generated from bridge and structural maintenance and graffiti removal activities.
NA	Contract specifications requiring proper capture and disposal methods for wastes generated from bridge and structural maintenance and graffiti removal activities.

Comments:
NONE

C.2.d. ▶Stormwater Pump Stations

Does your municipality own stormwater pump stations: [X] **Yes** [ ] **No**

If your answer is **No** then skip to **C.2.e.**

Complete the following table for dry weather DO monitoring and inspection data for pump stations[1] (add more rows for additional pump stations). If a pump station is exempt from DO monitoring, explain why it is exempt.

Pump Station Name and Location	**First inspection Dry Weather DO Data**		**Second inspection Dry Weather DO Data**	
	Date	**mg/L**	**Date**	**mg/L**
Stormwater Pump Stations are owned by the City of Fairfield, but are operated and maintained by the Fairfield-Suisun Sewer District. See Program Annual Report for monitoring information.	NA	NA	NA	NA

Summarize corrective actions as needed for DO monitoring at or below 3 mg/L. Attach inspection records of additional DO monitoring for corrective actions:

NA

Summary:

NA

Attachments:

NA

Complete the following table for wet weather inspection data for pump stations (add more rows for additional pump stations):

Pump Station Name and Location	**Date** (2x/year required)	**Presence of Trash** (Cubic Yards)	**Presence of Odor** (Yes or No)	**Presence of Color** (Yes or No)	**Presence of Turbidity** (Yes or No)	**Presence of Floating Hydrocarbons** (Yes or No)
Stormwater Pump Stations are owned by the City of Fairfield, but are operated and maintained by the Fairfield-Suisun Sewer District. See Program Annual Report for monitoring information.	NA	NA	NA	NA	NA	NA

[1] DO monitoring is exempted where all discharge from a pump station remains in a stormwater collection system or infiltrates into a dry creek immediately downstream.

C.2.e. ▶Rural Public Works Construction and Maintenance

Does your municipality own/maintain rural[2] roads:		Yes	X	No

If your answer is **No** then skip to **C.2.f.**

Place an **X** in the boxes next to implemented BMPs to indicate that these BMPs were implemented in applicable instances. If one or more of the BMPs were not adequately implemented during the reporting fiscal year then indicate so and explain in the comments section below:

	Control of road-related erosion and sediment transport from road design, construction, maintenance, and repairs in rural areas
	Identification and prioritization of rural road maintenance based on soil erosion potential, slope steepness, and stream habitat resources
	No impact to creek functions including migratory fish passage during construction of roads and culverts
	Inspection of rural roads for structural integrity and prevention of impact on water quality
	Maintenance of rural roads adjacent to streams and riparian habitat to reduce erosion, replace damaging shotgun culverts and excessive erosion
	Re-grading of unpaved rural roads to slope outward where consistent with road engineering safety standards, and installation of water bars as appropriate
	Inclusion of measures to reduce erosion, provide fish passage, and maintain natural stream geomorphology when replacing culverts or design of new culverts or bridge crossings

Comments including listing increased maintenance in priority areas:
NA

[2] Rural means any watershed or portion thereof that is developed with large lot home-sites, such as one acre or larger, or with primarily agricultural, grazing or open space uses.

C.2.f. ►Corporation Yard BMP Implementation

Place an **X** in the boxes below that apply to your corporations yard(s):

	We do not have a corporation yard
X	Our corporation yard is a filed NOI facility and regulated by the California State Industrial Stormwater NPDES General Permit
X	We have a current **Stormwater Pollution Prevention Plan (SWPPP)** for the Corporation Yard(s)

Place an **X** in the boxes below next to implemented SWPPP BMPs to indicate that these BMPs were implemented in applicable instances. If not applicable, type **NA** in the box. If one or more of the BMPs were not adequately implemented during the reporting fiscal year then indicate so and explain in the comments section below:

X	Control of pollutant discharges to storm drains such as wash waters from cleaning vehicles and equipment
X	Routine inspection prior to the rainy seasons of corporation yard(s) to ensure non-stormwater discharges have not entered the storm drain system
X	Containment of all vehicle and equipment wash areas through plumbing to sanitary or another collection method
X	Use of dry cleanup methods when cleaning debris and spills from corporation yard(s) or collection of all wash water and disposing of wash water to sanitary or other location where it does not impact surface or groundwater when wet cleanup methods are used
X	Cover and/or berm outdoor storage areas containing waste pollutants

Comments:
None

If you have a corporation yard(s) that is not an NOI facility , complete the following table for inspection results for your corporation yard(s) or attach a summary including the following information:

Corporation Yard Name	**Inspection Date** (1x/year required)	**Inspection Findings/Results**	**Follow-up Actions**
NA	NA	NA	NA

Section 3 - Provision C.3 Reporting New Development and Redevelopment

C.3.b. ►Green Streets Status Report

(All projects to be completed by December 1, 2014)

On an annual basis (if applicable), report on the status of any pilot green street projects within your jurisdiction. For each completed project, report the capital costs, operation and maintenance costs, legal and procedural arrangements in place to address operation and maintenance and its associated costs, and the sustainable landscape measures incorporated in the project including, if relevant, the score from the Bay-Friendly Landscape Scorecard.

Summary:

As part of the City of Fairfield's involvement in the New Development Subcommittee, the City is aware that the other co-permittees are proposing projects to construct the minimum ten (10) pilot Green Street projects that are required as part of the MRP. The City will continue to work with the other co-permittees as part of the New Development Subcommittee to ensure that these 10 pilot Green Street projects are constructed.

The City of Fairfield continues to look at the possibility of implementing Green Streets into future projects.

C.3.b.v.(1) ►Regulated Projects Reporting Table

Fill in attached table **C.3.b.v.(1)** or attach your own table including the same information.

C.3.iii(3)Low Impact Development Reporting

(For FY 11-12 Annual Report only) Report the method(s) of implementation of Provision C.3.c.i in the 2012 Annual Report. For specific tasks listed in Provision C.3.c.i. that are reported using the reporting tables required for Provision C.3.b.v, a reference to those tables is adequate.

The City of Fairfield has modified local procedures (including revised Conditions of Approval) and the C.3. Data Form to require all regulated projects approved after December 1, 2011 to implement LID source control, site design and stormwater treatment requirements. We are using the following Program and BASMAA products to ensure LID implementation: (a) LID Feasibility Worksheets; (b) Biotreatment Soil Specifications; and (c) Green Roof Specifications. Please see Table C.3.b.v.(1) for specific information on regulated projects approved during FY 11-12.

C.3.e.v. ►Alternative or In-Lieu Compliance with Provision C.3.c.

(For FY 11-12 Annual Report only) Did your agency make any ordinance/legal authority and procedural changes to implement Provision C.3.e.?		**Yes.**	X	**No**
If yes, attach a copy of the ordinance/legal authority changes or provide a link to the document(s). Discuss any procedural changes made.				
(For FY 11-12 Annual Report and each Annual Report thereafter) Is your agency choosing to require 100% LID treatment onsite for all Regulated Projects and not allow alternative compliance under Provision C.3.e.?	X(1)	**Yes**		**No**
Comments (optional): (1) **The City of Fairfield may look into allowing alternative compliance under Provision C.3.e in the future.**				

C.3.e.vi ► Special Projects Reporting

1. Has your agency received, but not yet granted final discretionary approval of, a development permit application for a project that has been identified as a potential Special Project based on criteria listed in MRP Provision C.3.e.ii(2) for any of the three categories of Special Projects (Categories A, B or C)?		**Yes**	X	**No**
2. Has your agency granted final discretionary approval of a project identified as a Special Project in the March 15, 2012 report? If yes, include the project in both the C.3.b.v.(1) Table, and the C.3.e.vi. Table.		**Yes**	X	**No**
If you answered "Yes" to either question, 1) Complete Table C.3.e.vi . below. 2) Attach narrative discussion of 100% LID Feasibility or Infeasibility for each project. **NA**				

C.3.h.iv. ► Installed Stormwater Treatment Systems Operation and Maintenance Verification Inspection Program Reporting

(1) Fill in attached table **C.3.h.iv.(1)** or attach your own table including the same information.

(2) On an annual basis, provide a discussion of the inspection findings for the year and any common problems encountered with various types of treatment systems and/or HM controls. This discussion should include a general comparison to the inspection findings from the previous year.

Summary: **The majority of the Stormwater Treatment Systems that have been installed, including the ones this past year, have been vegetated/bio-swales, along with a few Hydrodynamic Separators (previously approved for use). Field inspections of all of the systems showed minor problems, if any, with all of them continuing to work effectively.**

(3) On an annual basis, provide a discussion of the effectiveness of the O&M Program and any proposed changes to improve the O&M Program (e.g., changes in prioritization plan or frequency of O&M inspections, other changes to improve effectiveness program).

Summary: **The Operations & Maintenance (O&M) Program continues to work effectively. As stated above, field inspections have shown little if any maintenance problems with the systems. No suggested changes are proposed at this time.**

(4) During the reporting year, did your agency:

• Inspect all newly installed stormwater treatment systems and HM controls within 45 days of installation?	X	**Yes**		**No**
• Inspect at least 20 percent of the total number of installed stormwater treatment systems or HM controls?	X	**Yes**		**No**
• Inspect at least 20 percent of the total number of installed vault-based systems?	X	**Yes**		**No**

If you answered "No" to any of the questions above, please explain:
NA

C.3.b.v.(1) ►Regulated Projects Reporting Table (part 1) – Projects Approved During the Fiscal Year Reporting Period

Project Name Project No.	Project Location[9], Street Address	Name of Developer	Project Phase No.[10]	Project Type & Description[11]	Project Watershed[12]	Total Site Area (Acres)	Total Area of Land Disturbed (Acres)	Total New Impervious Surface Area (ft^2)[13]	Total Replaced Impervious Surface Area (ft^2)[14]	Total Pre-Project Impervious Surface Area[15] (ft^2)	Total Post-Project Impervious Surface Area[16] (ft^2)
Private Projects											
Walgreens	2590 North Texas Street, Fairfield, CA 94533	Bencor/ Cement Hill L.P.	N/A	Commercial- 13,556 SF Drugstore	Laurel Creek	0.99	1.13	15,664	18,059	18,059	33,723
Gold Hill Villages	Southeast corner of Lopes Road and Gold Hill Road, Fairfield, CA 94533	Seeno Homes	N/A	Residential 88 single-family residential units	Cordelia Slough/ Suisun Marsh	11.5	11.5	333,282	0	27,800	333,282
Public Projects											
NO PUBLIC PROJECTS WITHIN THE CITY OF FAIRFIELD TO REPORT											
Comments: NA											

[9] Include cross streets
[10] If a project is being constructed in phases, indicate the phase number and use a separate row entry for each phase. If not, enter "NA".
[11] Project Type is the type of development (i.e., new and/or redevelopment). Example descriptions of development are: 5-story office building, residential with 160 single-family homes with five 4-story buildings to contain 200 condominiums, 100 unit 2-story shopping mall, mixed use retail and residential development (apartments), industrial warehouse.
[12] State the watershed(s) in which the Regulated Project is located. Optional but recommended: Also state the downstream watershed(s).
[13] All impervious surfaces added to any area of the site that was previously existing pervious surface.
[14] All impervious surfaces added to any area of the site that was previously existing impervious surface.
[15] For redevelopment projects, state the pre-project impervious surface area.
[16] For redevelopment projects, state the post-project impervious surface area.

C.3.b.v.(1) ►Regulated Projects Reporting Table (part 2) – Projects Approved During the Fiscal Year Reporting Period

Project Name Project No.	Application Deemed Complete Date[17]	Application Final Approval Date[17]	Source Control Measures[18]	Site Design Measures[19]	Treatment Systems Approved[20]	Operation & Maintenance Responsibility Mechanism[21]	Hydraulic Sizing Criteria[22]	Alternative Compliance Measures[23/24]	Alternative Certification[25]	HM Controls[26/27]
Private Projects										
Walgreens	3-14-12	6-19-12	Covered dumpster area; Beneficial landscaping; Outdoor material storage protection; Storm drain signage	Minimize land disturbance	Bio-retention	O&M Agreement with private landowner	1a	N/A	N/A	Drains to MS4 and not located downstream of a watershed that requires HM
Gold Hill Villages	1-11-12	6-19-12	Pool/Fountain drain to sanitary sewer; Beneficial landscaping; Maintenance; storm drain signage	Disconnect downspouts	Bio-retention	O&M Agreement with HOA	1a	N/A	N/A	Drains to MS4 and not located downstream of a watershed that requires HM
Comments: NONE										

[17] For private projects, state project application deemed complete date and final discretionary approval date. If the project did not go through discretionary review, report the building permit issuance date.
[18] List source control measures approved for the project. Examples include: properly designed trash storage areas; storm drain stenciling or signage; efficient landscape irrigation systems; etc.
[19] List site design measures approved for the project. Examples include: minimize impervious surfaces; conserve natural areas, including existing trees or other vegetation, and soils; construct sidewalks, walkways, and/or patios with permeable surfaces, etc.
[20] List all approved stormwater treatment system(s) to be installed onsite or at a joint stormwater treatment facility (e.g., flow through planter, bioretention facility, infiltration basin, etc.).
[21] List the legal mechanism(s) (e.g., O&M agreement with private landowner; O&M agreement with homeowners' association; O&M by public entity, etc...) that have been or will be used to assign responsibility for the maintenance of the post-construction stormwater treatment systems.
[22] See Provision C.3.d.i. "Numeric Sizing Criteria for Stormwater Treatment Systems" for list of hydraulic sizing design criteria. Enter the corresponding provision number of the appropriate criterion (i.e., 1.a., 1.b., 2.a., 2.b., 2.c., or 3).
[23] For Alternative Compliance at an offsite location in accordance with Provision C.3.e.i.(1), on a separate page, give a discussion of the alternative compliance site including the information specified in Provision C.3.b.v.(1)(m)(i) for the offsite project.
[24] For Alternative Compliance by paying in-lieu fees in accordance with Provision C.3.e.i.(2), on a separate page, provide the information specified in Provision C.3.b.v.(1)(m)(ii) for the Regional Project.
[25] Note whether a third party was used to certify the project design complies with Provision C.3.d.
[26] If HM control is not required, state why not.
[27] If HM control is required, state control method used (e.g., method to design and size device(s) or method(s) used to meet the HM Standard, and description of device(s) or method(s) used, such as detention basin(s), biodetention unit(s), regional detention basin, or in-stream control).

C.3.b.v.(1) ► Regulated Projects Reporting Table (part 2) – Projects Approved During the Fiscal Year Reporting Period

Project Name Project No.	Approval Date[28]	Date Construction Scheduled to Begin	Source Control Measures[29]	Site Design Measures[30]	Treatment Systems Approved[31]	Operation & Maintenance Responsibility Mechanism[32]	Hydraulic Sizing Criteria[33]	Alternative Compliance Measures[34/35]	Alternative Certification[36]	HM Controls[37/38]
Public Projects										
NO PUBLIC PROJECTS WITHIN THE CITY OF FAIRFIELD TO REPORT										
Comments: NA										

[28] For public projects, enter the plans and specifications approval date.
[29] List source control measures approved for the project. Examples include: properly designed trash storage areas; storm drain stenciling or signage; efficient landscape irrigation systems; etc.
[30] List site design measures approved for the project. Examples include: minimize impervious surfaces; conserve natural areas, including existing trees or other vegetation, and soils; construct sidewalks, walkways, and/or patios with permeable surfaces, etc.
[31] List all approved stormwater treatment system(s) to be installed onsite or at a joint stormwater treatment facility (e.g., flow through planter, bioretention facility, infiltration basin, etc.).
[32] List the legal mechanism(s) (e.g., O&M agreement with private landowner; O&M agreement with homeowners' association; O&M by public entity, etc...) that have been or will be used to assign responsibility for the maintenance of the post-construction stormwater treatment systems.
[33] See Provision C.3.d.i. "Numeric Sizing Criteria for Stormwater Treatment Systems" for list of hydraulic sizing design criteria. Enter the corresponding provision number of the appropriate criterion (i.e., 1.a., 1.b., 2.a., 2.b., 2.c., or 3).
[34] For Alternative Compliance at an offsite location in accordance with Provision C.3.e.i.(1), on a separate page, give a discussion of the alternative compliance site including the information specified in Provision C.3.b.v.(1)(m)(i) for the offsite project.
[35] For Alternative Compliance by paying in-lieu fees in accordance with Provision C.3.e.i.(2), on a separate page, provide the information specified in Provision C.3.b.v.(1)(m)(ii) for the Regional Project.
[36] Note whether a third party was used to certify the project design complies with Provision C.3.d.
[37] If HM control is not required, state why not.
[38] If HM control is required, state control method used (e.g., method to design and size device(s) or method(s) used to meet the HM Standard, and description of device(s) or method(s) used, such as detention basin(s), biodetention unit(s), regional detention basin, or in-stream control).

C.3.h.iv. ►Installed Stormwater Treatment Systems Operation and Maintenance Verification Inspection Program Reporting

Fill in table below or attach your own table including the same information.

Name of Facility/Site Inspected	Address of Facility/Site Inspected	Newly Installed? (YES/NO)[39]	Party Responsible[40] For Maintenance	Date of Inspection	Type of Inspection[41]	Type of Treatment/HM Control(s) Inspected[42]	Inspection Findings or Results[43]	Enforcement Action Taken[44]	Comments/Follow-up
Arco AM/PM	3650 Nelson Road	NO	J&B Associates	5/17/12	Scheduled (annual)	Contech Media Filter	Contech Unit in appeared to still be in good condition	N/A	Fairly new project (less than one year old).
Fairfield Police Training facility	1717 Rex Clift Lane	NO	City of Fairfield	5/17/12	Scheduled (annual)	Vegetated Swale	Vegetated Swale was well maintained, and in good, clean condition	N/A	None
Homewood Suites	4755 Business Center Drive	NO	Dennis Olson	5/17/12	Scheduled (annual)	Vegetated Swale	All of the vegetated swales were very well maintained. No trash or debris was observed in the swales or any of the onsite landscaped areas.	N/A	None
Staybridge Suites	4775 Business Center Drive	NO	Dennis Olson	5/17/12	Scheduled (annual)	Vegetated Swale	All of the vegetated swales were very well maintained. No trash or debris was observed in the swales or any of the onsite landscaped areas.	N/A	None
JSJ Electrical Supply	167 Grobric Court	NO	Brian Schneider	5/17/12	Scheduled (annual)	Vegetated Swale	The vegetated swales were in fair to good condition. Minimal debris was observed in the swales. Appeared to be functioning properly.	N/A	Portion of parking lot has pervious pavers installed.
Lowe's Home Improvement Warehouse	3400 North Texas Street	YES	Lowe's HIW, Inc.	2/1/12	45-day	Hydrodynamic Separator, Vegetated Swale	Vegetated swales just installed. Looked great.	N/A	New project.
Mercedes Benz Auto Dealership	2950 Auto Mall Parkway	YES	Price Simms MB Fairfield, LLC	2/1/12	45-day	Vegetated Swale	Vegetated swales just installed. Looked great.	N/A	New project.
Pony Express Business Park	4610 West America Drive	NO	Headwater Development	5/17/12	Scheduled (annual)	Jensen Stormwater Interceptor Vault	Vault appeared to be in good condition, located in a well-maintained landscaped area.	N/A	None
Tri-City Towing	2910 Industrial Court	NO	Don Stewart	5/17/12	Scheduled (annual)	Porous lot, trench drain with filter	Large gravel parking lot in rear still in good condition. Trench Drain with filters in front were very clean- no obstructions.	N/A	Project revised to replace a vegetated swale with the trench drain with filter.

[39] Indicate "YES" if the facility was installed within the reporting period, or "NO" if installed during a previous fiscal year.
[40] State the responsible operator for installed stormwater treatment systems and HM controls.
[41] State the type of inspection (e.g., 45-day, routine or scheduled, follow-up, etc.).
[42] State the type(s) of treatment systems inspected (e.g., bioretention facility, flow-through planter, infiltration basin, etc...) and the type(s) of HM controls inspected, and indicate whether the treatment system is an onsite, joint, or offsite system.
[43] State the inspection findings or results (e.g., proper installation, improper installation, proper O&M, immediate maintenance needed, etc.).
[44] State the enforcement action(s) taken, if any, as appropriate and consistent with your municipality's Enforcement Response Plan.

C.3.e.vi.Special Projects Reporting Table

Reporting Period – December 1, 2011 – June 30, 2012

Project Name & No.	Permittee	Address	Application Submittal Date[45]	Status[46]	Description[47]	Site Total Acreage	Density DU/Acre	Density FAR	Special Project Category[48]	LID Treatment Reduction Credit Available[49]	List of LID Stormwater Treatment Systems[50]	List of Non-LID Stormwater Treatment Systems[51]
									Category A: Category B: Category C: Location: Density: Parking:	Category A: Category B: Category C: Location: Density: Parking:	Indicate each type of LID treatment system and the percentage of total runoff treated	Indicate each type of non-LID treatment system and the percentage of total runoff treated. Indicate whether minimum design criteria met or certification received

NO PROJECTS WITHIN THE CITY OF FAIRFIELD TO REPORT

[45] Date that a planning application for the Special Project was submitted. If a planning application has not been submitted, include a projected application date.
[46] Indicate whether final discretionary approval is still pending or has been granted, and provide the date or version of the project plans upon which reporting is based.
[47] Type of project (commercial, mixed-use, residential), number of floors, number of units, type of parking, and other relevant information.
[48] For each applicable Special Project Category, list the specific criteria applied to determine applicability. For each non-applicable Special Project Category, indicate n/a.
[49] For each applicable Special Project Category, state the maximum total LID Treatment Reduction Credit available. For Category C Special Projects also list the individual Location, Density, and Minimized Surface Parking Credits available.
[50]: List all LID stormwater treatment systems proposed. For each type, indicate the percentage of the total amount of runoff identified in Provision C.3.d. for the Special Project's drainage area.
[51] List all non-LID stormwater treatment systems proposed. For each type of non-LID treatment system, indicate: (1) the percentage of the total amount of runoff identified in Provision C.3.d. for the Special Project's drainage area, and (2) whether the treatment system either meets minimum design criteria published by a government agency or received certification issued by a government agency, and reference the applicable criteria or certification.

Section 4 – Provision C.4 Industrial and Commercial Site Controls

Program Highlights

Provide background information, highlights, trends, etc.

The Program contracts with the Solano County Department of Resource Management to conduct stormwater inspections of industrial, commercial and food handling businesses within the Program area. The Program updates the Business Inspection Plan as necessary to keep the document current. Changes are made to facilities lists upon observations of facilities closing or a change in compliance status resulting in a reduction or increase in inspection frequency. Specific information on the number of facilities inspected, types of violations incurred and resolution of violations within reasonable time periods is included later in this section of the 2011/2012 Annual Report as required by the Water Board.

Training of Health Inspectors was performed on March 19, 2012. The focus of the training was consistency in enforcement levels, enforcement authority; city stormwater ordinances, high-priority facilities needed to be inspected during the fiscal year and enforcement levels associated with illegal discharges . All facilities on the Facilities to be Inspected list were inspected during FY 2011- 2012.

The Program, during FY 2011-12, renegotiated a five-year contract with Solano County Department of Resource Management (Health Department). The new contract will enhance the Program's ability to conform with the requirements of the MRP.

The Program Management team meets on a monthly basis to discuss important Program issues including commercial, industrial and restaurant inspections. The Program also participates in the Municipal Operations Committee meeting on a regional level.

C.4.b.i. ► Business Inspection Plan

Do you have a Business Inspection Plan?	x	Yes		No

If No, explain:

C.4.b.iii.(1) ► Potential Facilities List

List below or attach your list of industrial and commercial facilities in your Inspection Plan to inspect that could reasonably be considered to cause or contribute to pollution of stormwater runoff.

The Potential Facilities List was generated at the Program level and distributed to the cities for submittal in their Annual Report. See the attached Potential Facilities List.

C.4.b.iii.(2) ►Facilities Scheduled for Inspection

List below or attach your list of facilities scheduled for inspection during the current fiscal year.

The facilities scheduled for inspection was generated at the Program level and distributed to the cities for submittal in their Annual Report. See the attached Facilities Scheduled for Inspection List.

C.4.c.iii.(1) ►Facility Inspections

Fill out the following table or attach a summary of the following information. Indicate your violation reporting methodology below.

	Permittee reports multiple discrete violations on a site as one violation.
x	Permittee reports the total number of discrete violations on each site.

	Number	Percent
Number of businesses inspected	297	
Total number of inspections conducted	328	
Number of violations (excluding verbal warnings)	58	
Sites inspected in violation	30	4
Violations resolved within 10 working days or otherwise deemed resolved in a longer but still timely manner	54	93

Comments:

1. Violation Explanation:

The Program industrial-commercial and restaurant inspection forms have been designed so that when a facility is seen as being free of violations and without threat to the environment, all of the inspection form line items are checked "yes" and the "In Compliance With Pollution Control Requirements?" box is also checked "yes".

Facilities that need to be directed to pursue certain activities which are occurring on-site (ie. oil spots in the parking lot) and are given a "no", under: A.2: Exterior Surfaces, Storm Drains, Loading Dock Drains, Manholes, and Sanitary Sewer Cleanouts Free of Chemical Stains and Oil Stains. When the facility is given a yes for "In Compliance With Pollution Control Requirements?", this does not result in a violation for the facility.

All inspection reports where the "no" box is marked in the checklist area and the facility is seen as not being "In Compliance With Pollution Control Requirements?" are incorporated into the "Number of violations" totaled above. The level of enforcement of the offense is delineated in an annual training given to the inspectors as described in the Program ERP.

2. Violations not resolved within 10 days or otherwise deemed resolved in a longer but still timely manner:

A single industrial site is responsible for all unresolved violations. This facility has four potential discharges which are currently being resolved with assistance from the County's Department of Resource Management and Solano County District Attorney's office. The facility is currently on a compliance schedule in which the unresolved violations are addressed.

C.4.c.iii.(2) ►Frequency and Types/Categories of Violations Observed

Fill out the following table or attach a summary of the following information.

Type/Category of Violations Observed	Number of Violations
Actual discharge (e.g. active non-stormwater discharge or clear evidence of a recent discharge)	15
Potential discharge and other	43
Comments: The Program counts one discharge per source of discharge per inspection per site.	

C.4.c.iii.(2) ►Frequency and Type of Enforcement Conducted

Fill out the following table or attach a summary of the following information.

	Enforcement Action (as listed in ERP)[46]	Number of Enforcement Actions Taken	% of Enforcement Actions Taken[47]
Level 1	Warning	30	94
Level 2	Minor Violation	1	3
Level 3	Major Violation	1	3
Level 4	Legal Action	0	0
Total		32	100

[46] Agencies to list specific enforcement actions as defined in their ERPs.
[47] Percentage calculated as number of each type of enforcement action divided by the total number of enforcement actions.

C.4.c.iii.(3) ►Types of Violations Noted by Business Category

Fill out the following table or attach a summary of the following information.

Business Category[48]	Number of Actual Discharge Violations	Number of Potential/Other Discharge Violations
Manufacturing	3	8
Transportation	0	0
Retail Trade - Grocery	1	6
Eating and Drinking Places	8	21
Liquor Stores	0	1
Automotive Services	0	4
Amusement and Recreation	3	3

C.4.c.iii.(4) ►Non-Filers

List below or attach a list of the facilities required to have coverage under the Industrial General Permit but have not filed for coverage:

None discovered.

C.4.d.iii ►Staff Training Summary

Training Name	Training Dates	Topics Covered	No. of Inspectors in Attendance	Percent of Inspectors in Attendance
Fairfield Suisun Urban Runoff Program Commercial, Industrial, and Food Handling Annual Refresher Training	March 19, 2012	Enforcement authority; city stormwater ordinances; high-priority facilities needed to be inspected this fiscal year; enforcement levels associated with illegal discharges.	8	87%

[48] List your Program's standard business categories.

Section 5 – Provision C.5 Illicit Discharge Detection and Elimination

Program Highlights

Provide background information, highlights, trends, etc.

The City of Fairfield continues to enforce the recently adopted Stormwater Ordinance (Ordinance No. 2010-04, Article 22B) to regulate non-stormwater discharges into the public storm drain system, and to protect the system from spills, dumping or disposal of materials other than clean stormwater. The City continues to use the door hanger notification (similar in appearance to a traffic citation) for illicit discharges.

C.5.c.iii ►Complaint and Spill Response Phone Number and Spill Contact List

List below or attach your complaint and spill response phone number and spill contact list.

Contact	Description	Phone Number
Michael Gray	Public Works Manager	707-428-7404
Gary Sponsler	Public Works Supervisor	707-428-7416

C.5.d.iii ►Evaluation of Mobile Business Program

Describe implementation of minimum standards and BMPs for mobile businesses and your enforcement strategy. This may include participation in the BASMAA Mobile Surface Cleaners regional program or local activities.

Description:

See FSURMP Program's Annual Report and BASMAA's Regional Annual Report for FY 2011-2012 on the mobile surface cleaners program.

C.5.e.iii ►Evaluation of Collection System Screening Program

Provide a summary or attach a summary of your collection screening program, a summary of problems found during collection system screening and any changes to the screening program this FY.

Description: The Program has developed and implemented a screening program which utilizes the US EPA/Center for Watershed Protection publication, "Illicit Discharge Detection and Elimination: A Guidance Manual for Program Development and Technical Assistance."

Per the MRP, the City is required to perform surveys at "strategic collection system check points (one screening point per square mile of Permittee urban and suburban jurisdiction area, less open space) including some key major outfalls draining industrial areas once each year in dry weather conditions meaning no significant rainfall within the past 3 weeks". The MRP allows: "Routine surveys that occur on an ongoing basis during regular conveyance system inspections may be credited toward this requirement."

The City of Fairfield encumbers 38 square miles of land, and is required to perform 38 screening point inspections on an annual basis. As stated above these inspections occurred with a minimum of three weeks antecedent dry weather. These inspections primarily occurred during September through October of 2011.

In FY 2011-2012, City staff conducted 42 inspections, which is well over the minimum number of inspections required. In neighborhoods or at a commercial site, staff looked for hoses that lead to a storm drain or body of water. Staff looked for stains, suds, unusual odors, structural damage to streets or gutters, and abnormal vegetative growth in local channels and streams.

The City performs routine inspections of the collection system throughout the year. No major problems were encountered throughout the inspection process. Only minor amounts of sediment, leaves and trash were collected.

C.5.f.iii.(1), (2), (3) ►Spill and Discharge Complaint Tracking

Spill and Discharge Complaint Tracking (fill out the following table or include an attachment of the following information)

	Number	Percentage
Discharges reported (C.5.f.iii.(1))	12	
Discharges reaching storm drains and/or receiving waters (C.5.f.iii.(2))	1	8.3 %
Discharges resolved in a timely manner (C.5.f.iii.(3))	12	100 %

Comments:

The City of Fairfield responds to all complaints of illicit discharges. Information is received from the general public, public safety agencies, and from city employees. The City makes every effort to personally contact responsible parties in an effort to allow them to clean up the discharge and to prevent it from happening in the future. If immediate contact with the responsible individual is not possible, the City will contain, and if necessary, clean up the discharge immediately. In those instances where there is a potential discharge to the storm drain system, the responsible party is given a "door hanger" that explains the nature of the violation and gives them 10 days to rectify the situation. The door hanger also contains information for them to contact the City. The City will follow up within the 10 day period to ensure the situation is rectified.

C.5.f.iii.(4) ►Summary of major types of discharges and complaints

Provide a narrative or attach a table and/or graph.

The majority of the complaints involve fluids leaking from vehicles, and containers of unknown fluids left on the side of the road. There are also a small number of complaints regarding stockpiles of landscape materials (bark, etc.) being placed within the street.

Section 6 – Provision C.6 Construction Site Controls

C.6.e.iii.1.a, b, c ►Site/Inspection Totals

Number of sites disturbing < 1 acre of soil requiring storm water runoff quality inspection (i.e. High Priority) (C.6.e.iii.1.a)	Number of sites disturbing ≥ 1 acre of soil (C.6.e.iii.1.b)	Total number of storm water runoff quality inspections conducted (C.6.e.iii.1.c)
0	14	86

Comments:

Inspections were also performed by Public Works staff for projects that disturbed 1 acre or less (5 total projects). Four of these projects were City Capital Improvement Projects, and one was a private development project. There were over 100 inspections performed for all of the projects within the past year. In summary, the problems encountered during the site inspections were minor in nature, and all violations were corrected in a timely manner (within 10 days).

C.6.e.iii.1.d ►Construction Activities Storm Water Violations

BMP Category	Number of Violations[49]	% of Total Violations[50]
Erosion Control	0	0
Run-on and Run-off Control	0	0
Sediment Control	5	62.5 %
Active Treatment Systems	0	0
Good Site Management	3	37.5 %
Non Stormwater Management	0	0
Total	**8**	**100 %**

[49] Count one violation in a category for each site and inspection regardless of how many violations/problems occurred in the BMP category.
[50] Percentage calculated as number of violations in each category divided by total number of violations in all six categories.

C.6.e.iii.1.e ►Construction Related Storm Water Enforcement Actions

	Enforcement Action (as listed in ERP)[51]	Number Enforcement Actions Taken	% Enforcement Actions Taken[52]
Level 1	Verbal Notice/Warning	**7**	**87.5 %**
Level 2	Notice to Comply	**1**	**12.5 %**
Level 3	Notice of Violation	0	0
Level 4	Stop Work/Administrative Fine (Legal action)	0	0
Total		**8**	**100 %**

C.6.e.iii.1.f, g ►Illicit Discharges

	Number
Number of illicit discharges, actual and those inferred through evidence (C.6.e.iii.1.f)	**0**
Number of sites with discharges, actual and those inferred through evidence (C.6.e.iii.1.g)	**0**

C.6.e.iii.1.h, i ►Violation Correction Times

	Number	Percent
Violations fully corrected within 10 business days after violations are discovered or otherwise considered corrected in a timely period (C.6.e.iii.1.h)	**8**	**100 %**[53]
Violations not fully corrected within 30 days after violations are discovered (C.6.e.iii.1.i)	**0**	**0 %**[54]
Total number of violations for the reporting year[55]	**8**	**100 %**

Comments:
All violations were corrected in a timely manner, within 10 days of identifying the problem.

[51] Agencies should list the specific enforcement actions as defined in their ERPs.
[52] Percentage calculated as number of each type of enforcement action divided by the total number of enforcement actions.
[53] Calculated as number of violations fully corrected in a timely period after the violations are discovered divided by the total number of violations for the reporting year.
[54] Calculated as number of violations not fully corrected within 30 days after the violations are discovered divided by the total number of violations for the reporting year.
[55] Total number of violations equals the number of initial enforcement actions (i.e. one violation issued for several problems during an inspection at a site). It does not equal the total number of enforcement actions because one violation issued at a site may have a second enforcement action for the same violation at the next inspection if it is not corrected.

C.6.e.iii.(2) ►Evaluation of Inspection Data

Describe your evaluation of the tracking data and data summaries and provide information on the evaluation results (e.g., data trends, typical BMP performance issues, comparisons to previous years, etc.).

Description:

The amount of problems encountered in field is down from the past year (8 total violations this past year as compared to 35 the previous year). This is probably due to the fact that contractors are more aware of the stormwater quality requirements, and the measures that are needed onsite to be in compliance with the City's permit. All violations were either a Level 1 or 2 enforcement action.

C.6.e.iii.(2) ►Evaluation of Inspection Program Effectiveness

Describe what appear to be your program's strengths and weaknesses, and identify needed improvements, including education and outreach.

Description:

The City had a total of 14 projects that disturbed 1 acre or more this past year, including several other projects less than one acre. In April, 2012, a training session was held with all of the Building and Public Works inspectors and their managers to go over the inspection forms and discuss stormwater quality inspections in general (see Section C.6.f). The training session was very informative and helped to make sure that all of the inspectors were consistently looking at the same issues in the field and completing the inspection forms correctly.

C.6.f ►Staff Training Summary

Training Name	Training Dates	Topics Covered	No. of Inspectors in Attendance	Percent of Inspectors in Attendance
Post-Development Inspection Training for City inspectors	April 26, 2012	Things to look for in the field during inspections; filling out the inspection forms; follow-up	11 (incl. Building & Public Works Inspectors)	100 %

Section 7 – Provision C.7. Public Information and Outreach

C.7.b.ii.1 ►Advertising Campaign

Summarize advertising efforts. Include details such as messages, creative developed, and outreach media used. The detailed advertising report may be included as an attachment. If advertising is being done by participation in a countywide or regional program, refer to the separate countywide or regional Annual Report.

Summary: **The Program is participating in the BASMAA Regional Litter Ad Campaign. BASMAA is also working with a consultant on a Five-Year Strategic Advertising Plan "Our Water, Our World" Pesticides Program. Please see BASMAA FY 2011/2012 MRP Regional Supplement for Training and Outreach Annual Report for more details relating to these outreach efforts.**

C.7.b.iii.1 ►Pre-Campaign Survey

(For the Annual Report following the precampaign survey) Summarize survey information such as sample size, type of survey (telephone survey, interviews etc.). Attach a survey report that includes the following information. If survey was done regionally, refer to a regional submittal that contains the following information:

The following separate report developed by BASMAA summarizes the pre-campaign survey conducted in FY 2011-2012:

• BASMAA Youth Litter Campaign Report

Place an **X** in the appropriate box below:

	Survey report attached
X	Reference to regional submittal:

C.7.c ►Media Relations

Summarize the media relations effort. Include the following details for each media pitch in the space below, AND/OR refer to a regional report that includes these details:

- Topic and content of pitch
- Medium (TV, radio, print, online)
- Date of publication/broadcast

Summary: **The following separate report developed by BASMAA summarizes media relations efforts conducted during FY 2011-2012:**

• BASMAA Media Relations Final Report FY 11-12

Please see BASMAA FY 2011/2012 MRP Regional Supplement for Training and Outreach, Annual Report for more details relating to these outreach efforts conducted during FY 2011/2012.

In FY 2011/2012, the Program has also participated in the 95.3 KUIC Hometown Green Environmental Campaign. Program members on a regular basis have recorded segments which are played daily on KUIC and focus on environmental messages. Messages include: the connectedness of our streets to our local creeks; recycling mercury containing products; trash; proper car washing; recycling; and the reduction of waste by using reusable items.

C.7.d ►Stormwater Point of Contact

Summary of any changes made during FY 2011/12: **The Program promoted its Point of Contacts through the distribution of outreach materials: *You Are the Solution to Water Pollution / Creek and Marsh Watch*. This catchy trifold piece provides contact information to report illegal discharges and spills. These materials are given out at nearly every public event that the Program participates in. Contact information is also provided on each of the cities websites. No other changes.**

C.7.e ►Public Outreach Events

Describe general approach to event selection. Provide a list of outreach materials and giveaways distributed.
Use the following table for reporting and evaluating public outreach events

Event Details	**Description** (messages, audience)	**Evaluation of Effectiveness**
Provide event name, date, and location. Indicate if event is local, countywide or regional.	Identify type of event (e.g., school fair, farmers market etc.), type of audience (school children, gardeners, homeowners etc.) and outreach messages (e.g., Enviroscape presentation, pesticides, stormwater awareness)	Provide general staff feedback on the event (e.g., success at reaching a broad spectrum of the community, well attended, good opportunity to talk to gardeners etc.). Provide other details such as: • Estimated overall attendance at the event. • Number of people that visited the booth, comparison with previous years • Number of brochures and giveaways distributed • Results of any spot surveys conducted
The Leaven Event; July 20, 2011; Fairfield-Suisun Regional Wastewater Treatment Plant; this is a Program event	Leaven's mission is to increase academic achievement, self-esteem, and life opportunities for children living in low-income, urban communities. Together over 50 Leaven children with city Council Members and Mayors of both Fairfield and Suisun City, learned about what happens to water when it runs off of the street to our local creeks or goes down the drain inside our homes, through the sewers, and to the wastewater treatment plant.	39 children and 9 adults from The Leaven visited the FSSD treatment plant to learn about what happens to water when it runs off of the street to our local creeks or goes down the drain, through the sewers, and to the wastewater treatment plant. Founded in 2005 through collaboration with the City of Fairfield, Fairfield-Suisun Unified School District, and the church community, The Leaven's mission is to increase academic achievement, self-esteem, and life opportunities for children living in low-income, urban communities.
Fairfield Suisun Pesticide Applicators Outreach; April 4, 2012; approximately 19 flyers were sent throughout the Fairfield Suisun jurisdictional area; this is a Program event.	The Program contacted all pest control operators, through a mailer, in the Fairfield and Suisun city area to promote the Professional Association of Pesticide Applicators (PAPA).	As directed by Jan O'Hara (Water Board) approximately 19 flyers were distributed throughout the Fairfield Suisun area; several calls were received back from the pest control operators with the majority of the callers needing clarification as to why the Program was supporting the Association; one caller was adamantly opposed to the Program supporting what he felt was a private association.

Solano Community College Environmental Science treatment plant tour and lecture; March 1, 2012; this event was held at the Fairfield Suisun Wastewater Treatment Plant; this was a Program event.	The Program provided a tour to college students At the Fairfield Suisun Wastewater Treatment Plant. Messages delivered to students included the connectedness of our streets to our local creeks and the importance of eliminating litter from our environment.	31 people were in attendance including teachers. Students indicated that they were very interested in the subject matter and were potentially going to become treatment plant operators and environmental stewards of some kind.
Northern California Home Depot Garden Workshop; Home Depot in Fairfield; this is a Program activity	IPM Consultant Annie Joseph along with Program manager, provided IPM training for Northern California Home Depot employees, who in turn instruct the general public on safe gardening practices at their local Home Depot store and events throughout the Northern California. Program representative on hand to describe connectivity of the streets to our local creeks; the difference between storm water and wastewater; the wastewater treatment process; how pesticides can impact the process.	Approximately 67 Home Depot employees from throughout Northern California attended the event. The employees were very interested in utilizing less toxic alternatives to pesticides. The regional manager for Northern California Home Depots was encouraging employees to push less toxic alternatives when appropriate. This was an excellent opportunity to meet local employees and sell the concepts included in Our Water Our World.
North Bay Engineers Club Presentation; October 10, 2012; this was a Program event.	The Program presented The North Bay Engineers Club information on the requirements for construction site management in the Fairfield Suisun area. With the main theme focusing on only clean water is allowed to go down the storm drain and that illegal discharges will not be tolerated in the communities of Fairfield and Suisun city.	21 participants were in the audience. Many questions were raised and answered. Based on the engagement of the participants in the audience, the presentation was well received and understood.

C.7.f. ▶Watershed Stewardship Collaborative Efforts

Summarize watershed stewardship collaborative efforts and/or refer to a regional report that provides details. Describe the level of effort and support given (e.g., funding only, active participation etc.). State efforts undertaken and the results of these efforts. If this activity is done regionally refer to a regional report.

Evaluate effectiveness by describing the following:

- Efforts undertaken
- Major accomplishments

Summary:

The Program conducts an array of activities which qualify for watershed stewardship collaborative efforts. These efforts are also mentioned in other portions of this Annual Report. Efforts directed toward Coast and Creek Cleanup result in watershed stewardship collaboration. Presentations were made to schools and clubs in the Fairfield-Suisun Unified School District which resulted in an increased number of participants in our creek cleanup events. Creek Captain meetings are also used encourage public involvement in watershed volunteer efforts. Increasing numbers of our coast and Creek cleanup events indicate an increase in collaborative activities.

C.7.g. ►Citizen Involvement Events

List the types of events conducted (e.g., creek clean up, storm drain inlet marking, native gardening etc.). Use the following table for reporting and evaluating citizen involvement events.

Event Details	Description	Evaluation of effectiveness
Provide event name, date, and location. Indicate if event is local, countywide or regional	Describe activity (e.g., creek clean-up, storm drain marking etc.)	Provide general staff feedback on the event. Provide other evaluation details such as: • Number of participants. Any change in participation from previous years. • Distance of creek or water body cleaned • Quantity of trash/recyclables collected (weight or volume). • Number of inlets marked. • Data trends
Coast and Creek Cleanup; September 17, 2011; 12 cleanup sites throughout Fairfield and Suisun City; this is a Program event.	The Program lead volunteer cleanup of local creeks, marsh and open space areas.	625 volunteers picked up 6,291 pounds of trash and recyclables along 23.8 miles of waterway. This was an increase of 300 people from the previous year. It is thought that the increase is due to the fact that the previous year had several events occurring on the same day including two Boy Scout jamboree's and a large event at Travis Air Force Base. It is also thought that the increase is due to additional effort expended toward reaching out to local high schools.
Armijo Super Band, Kohl's and Program Cleanup of upper Laurel Creek; April 14, 2012; Manual Campos Boulevard to Cement Hill Road on Laurel Creek; this is a Program event.	The Program lead volunteer cleanup of Laurel Creek and adjacent open space areas.	49 Participants, 345 pounds or gallons of trash and 1.1 miles of creek cleaned. An extremely encouraging survey showed 100% of participants knew the difference between the final destination of wastewater and stormwater. This was a reduction in participants this year in part due to a declining enrollment in the Armijo Super Band. There is also a significant reduction in the number of pounds removed which can be seen as an improvement in the local creek conditions.

Earth Day - April 21, 2012; The Program assisted Mission Solano during this event in downtown Suisun city and Fairfield. The event included a cleanup of 10 sites throughout the cities, a tree planting and earth friendly vendors.	The Program assisted in volunteer cleanup of local creeks, marsh and open space areas.	Approximately 100 adults and 60 children participated in the cleanup of 10 sites in Suisun city and the city of Fairfield. Proper disposal of household wastes was emphasized through a beanbag toss game at the Program booth, 42 boxes of crayons, 17 filled reusable bags, 53 folded bags, 75 bookmarks, 75 Earth care, 75 control it guides and 100 drug take back announcements were distributed.

C.7.h. ▶School-Age Children Outreach

Summarize school-age children outreach programs implemented. A detailed report may be included as an attachment.
Use the following table for reporting school-age children outreach efforts.

Program Details	Focus & Short Description	Number of Students/Teachers reached	Evaluation of Effectiveness
Provide the following information: Name Grade or level (elementary/ middle/ high)	Brief description, messages, methods of outreach used	Provide number or participants	Provide agency staff feedback. Report any other evaluation methods used (quiz, teacher feedback etc.). Attach evaluation summary if applicable.
School Water Education Program (SWEP); this program is available for Kindergarten through 12th grade, and is a Program element.	SWEP provides free water education resources to teach water awareness and conservation to students, teachers and parents in our service areas of Dixon, Vacaville, Fairfield, Suisun City and Travis Air Force Base. The in-class education programs as well as the resource materials and assembly programs are multi-discipline and aligned to the content standards for California public schools. The programs encourage students and adults to develop a healthy attitude of personal responsibility towards our environment and develop skills needed to contribute meaningfully to decision-making process on issues involving our resources and particularly conserving our most precious resource, water.	5,372 students and 184 teachers were reached throughout the County of Solano.	See attached Annual Summary Report from SWEP.

The Watershed Explorers Program; Solano County third-graders. This is a Program element.	This program is held at Lynch Canyon open space and Hanns Park. The program utilizes science and placed base learning to build awareness and understanding of local creeks and watersheds, their unique ecosystems and ways in which we care for them. In the field discussions and activities teach children about the fragile habitats of birds and other wildlife. Students learn the importance of water quality in a watershed and discover that can be negatively impacted by urban runoff and its complements: trash, oil, household chemicals and other human and domestic animal waste and discards. Please go to : http://www.solanorcd.org/ for videos of the program.	1,198 people and approximately 40 teachers in every city in the county participated in the 2011/12 program.	See attached Annual Summary Report from The Watershed Explorers Program.
Clean Water Outreach Program; secondary school age youth in the Fairfield and Suisun school district area. This is a Program element.	This program is a CWEA 2011 Public Outreach and Education Award winner for Large Agencies. It consists of three distinct elements: Sewer Science High School Program introduces students to how Fairfield and Suisun City collect, treat and release wastewater. The unit revolves around a straightforward lab that simulates the wastewater treatment process, accompanied by water quality testing. Curb2Creek High School Program is a high school environmental science curriculum focused on studying urban runoff from school sites to local streams, followed by a student designed action projects. The goals of the program are to help young adults understand the consequences of stormwater pollution and to support behavior changes in those students and their peers. Wastewater Science Middle School Program features an engaging explanation of local water systems and includes modified versions of activities from the high school curricula to introduce middle schoolers to the biology and physics of wastewater treatment and stormwater systems engineering.	450 students participated in the clean water outreach program for a total of 2,995 student hours.	See attached Clean Water Outreach Program 2011 - 2012 Year End Report
Suisun Marsh Watershed and Wetland Education Program; the classes available to middle schools throughout Solano County.	The program provides place-based environmental education for underserved middle school students in Solano County. The central program themes include: watersheds, wetlands, marsh functions, native and non-native plants, storm runoff, endangered and threatened species, and watershed connections between their residential communities, Suisun marsh, the San Francisco Bay, and the Pacific Ocean.	33 classes of approx. 1,129 students from the Crystal Middle school in Suisun city, Grange Middle school in Fairfield, Vaca Pena and Orchard elementary schools in Vacaville and Solano middle school in Vallejo participated in the program. 29 classes of sixth grade level and four were seventh grade level.	See attached Suisun Marsh Watershed and Wetland Education Program 2011 - 2012 Year End Report

Section 8 - Provision C.8 Water Quality Monitoring

C.8 ▶Water Quality Monitoring

State below if information is reported in a separate regional report. Municipalities can also describe below any Water Quality Monitoring activities in which they participate directly, e.g. participation in RMP workgroups, fieldwork within their jurisdictions, etc.

Summary

During FY 2011-2012, the City of Fairfield contributed to the BASMAA Regional Monitoring Coalition (RMC). In addition, the City of Fairfield contributed financially to the Regional Monitoring Program for Water Quality in the San Francisco Estuary (RMP) and were represented at RMP committees and work groups. For additional information on monitoring activities conducted by the Program, BASMAA RMC and the RMP, see the C.8 Water Quality Monitoring section of the Program's FY 2011-2012 Annual Report.

Section 9 – Provision C.9 Pesticides Toxicity Controls

C.9.b ►Implement IPM Policy or Ordinance

Report implementation of IPM BMPs by showing trends in quantities and types of pesticides used, and suggest reasons for increases in use of pesticides that threaten water quality, specifically organophosphates, pyrethroids, carbaryl, and fipronil. A separate report can be attached as evidence of your implementation.

Trends in Quantities and Types of Pesticides Used[56]

Pesticide Category and Specific Pesticide Used	Amount[57]				
	FY 09-10	FY 10-11	FY 11-12	FY 12-13	FY 13-14
Organophosphates	0	0	0		
Product or Pesticide Type A					
Product or Pesticide Type B					
Pyrethroids	0	0	0		
Product or Pesticide Type X					
Product or Pesticide Type Y					
Carbaryl	0	0	0		
Fipronil	0	0	0		

C.9.c ►Train Municipal Employees

Enter the number of employees that applied or used pesticides (including herbicides) within the scope of their duties this reporting year.	**6**
Enter the number of these employees who received training on your IPM policy and IPM standard operating procedures within the last 3 years.	**6**
Enter the percentage of municipal employees who apply pesticides who have received training in the IPM policy and IPM standard operating procedures within the last three years.	**100 %**

[56] Includes all municipal structural and landscape pesticide usage by employees and contractors.
[57] Weight or volume of the product or preferably its active ingredient, using same units for the product each year.

C.9.d ►Require Contractors to Implement IPM

Did your municipality contract with any pesticide service provider in the reporting year?	X	Yes		No

If yes, attach one of the following:

X	Contract specifications that require adherence to your IPM policy and standard operating procedures, OR
	Copy(ies) of the contractors' IPM certification(s) or equivalent, OR
	Equivalent documentation.

If **Not attached**, explain: NA

C.9.e ►Track and Participate in Relevant Regulatory Processes

Summarize participation efforts, information submitted, and how regulatory actions were affected **OR** reference a regional report that summarizes regional participation efforts, information submitted, and how regulatory actions were affected.

Summary:

During FY 11-12, we participated in regulatory processes related to pesticides through contributions to the countywide Program, BASMAA and CASQA. For additional information, see the Regional Pollutants of Concern Report submitted by BASMAA on behalf of all MRP Permittees.

C.9.f ►Interface with County Agricultural Commissioners

Did your municipal staff observe any improper pesticide usage or evidence of improper usage (e.g., pesticides in storm drain systems, along street curbs, or in receiving waters) during this fiscal year?		Yes	X	No

If yes, provide a summary of improper pesticide usage reported to the County Agricultural Commissioner and follow-up actions taken to correct any violations. A separate report can be attached as your summary.

NA

C.9.h.ii ►Public Outreach: Point of Purchase

Provide a summary of public outreach at point of purchase, and any measurable awareness and behavior changes resulting from outreach (here or in a separate report); **OR** reference a report of a regional effort for public outreach in which your agency participates.

Summary:

See the C.9 Pesticides Toxicity Control section of Program's FY 2011-2012 Annual Report for information on point of purchase public outreach conducted countywide and regionally.

C.9.h.vi ▶Public Outreach: Pest Control Operators

Provide a summary of public outreach to pest control operators and landscapers and reduced pesticide use (here or in a separate report); **OR** reference a report of a regional effort for outreach to pest control operators and landscapers in which your agency participates.

Summary:

See the C.9 Pesticides Toxicity Control section of Program's FY 2011-2012 Annual Report for a summary of the City of Fairfield's participation in and contributions towards regional public outreach to pest control operators and landscapers to reduce pesticide use.

Response to Water Board Staff Comments on Section 9, Provision C.9, of FY 10-11 Annual Report

In response to comments received from Water Board staff on Section C.9 of the City's FY2010-2011 Annual Report, the City of Fairfield is modifying its existing IPM policy, prior to March of 2013, to include a specific hierarchy decision-making process before pesticide applications are made.

The City will review purchasing contracts with pest control operators to ensure IPM implementation. The City will also review employee IPM practices and training which need to be made on an annual basis.

The County will continue their routine inspections of City pesticide applicators on an ongoing basis.

Section 10 - Provision C.10 Trash Load Reduction

C.10.a.i ►Short-Term Trash Loading Reduction Plan

(For FY 10-11 Annual Report only) Provide description of actions/tasks initiated/conducted/completed in developing a Short-Term Trash Loading Reduction Plan (due February 1, 2012).

Description:

The Short–Term Trash Loading Reduction Plan was submitted to the Water Board on February 1, 2012. See the C.10 Trash Load Reduction section of Program's FY 2011-2012 Annual Report for information on countywide and regional activities conducted on behalf of co-permittees.

C.10.a.ii ►Baseline Trash Load and Trash Load Reduction Tracking Method

(For FY 10-11 Annual Report only) Provide description of actions/tasks initiated/conducted/completed to gather trash loading data and in developing a Baseline Trash Load and Trash Load Reduction Tracking Method (due February 1, 2012).

Description:

The Baseline Trash Load and Trash Load Reduction Tracking Method was submitted to the Water Board on February 1, 2012. See the C.10 Trash Load Reduction section of Program's FY 2011-2012 Annual Report for information on countywide and regional activities conducted on behalf of co-permittees.

C.10.a.iii ►Minimum Full Trash Capture

(For FY 10-11 Annual Report and Each Annual Report Thereafter) Provide description of actions/tasks initiated/conducted/completed in implementing Minimum Full Trash Capture Devices (due July 1, 2014) within individual jurisdictions. Include information on Full Trash Capture Devices installed under the Bay-area Wide Trash Capture Demonstration Project administered by San Francisco Estuary Partnership and an estimate of the total land area that is planned for treatment by July 1, 2014.

Description:

See the C.10 Trash Load Reduction section of Program's FY 2011-2012 Annual Report for information on countywide and regional activities conducted on behalf of co-permittees." The Cities of Fairfield and Suisun City jointly installed one full trash capture device this past summer. It is located within the City of Suisun City, just upstream of a ditch that is maintained by the City of Fairfield. It treats approximately 270 acres of land within the City of Fairfield.

C.10.b.iii ►Trash Hot Spot Assessment

(For FY 10-11 Annual Report and Each Annual Report Thereafter) Provide volume of material removed from each Trash Hot Spot cleanup, and the dominant types of trash (e.g., glass, plastics, paper) removed and their sources to the extent possible.

Fill out the following table or attach a summary of the following information.

Trash Hot Spot	Cleanup Date	Volume of Material Removed	Dominant Type of Trash	Trash Sources (where possible)
Dan Wilson Creek	June 5-6, 2012	200 gallons	Fast food wrappers, glass bottles, convenience food wrappers and cups, paper	Various fast food restaurants located immediately upstream of creek, illegal dumping
Woolner Ditch	June 5-6, 2012	300 gallons	Food wrappers, glass bottles, paper, Styrofoam cups, plastic bottles, bicycles	Public park and elementary school, pedestrian litter, neighbors
Acacia Ditch	June 5-6, 2012	250 gallons	Food wrappers, metal cans, plastic bottles, clothing, plastic bags, household garbage, cardboard	Pedestrian litter, vehicle litter, and homeless encampments
Laurel Creek	June 5-6, 2012	150 gallons	Fast food wrappers, household-type debris, shopping cart, bicycles, glass bottles, paper	Public school, public linear path, illegal dumping

C.10.d ►Summary of Trash Reduction Actions and Loads Reduced

Provide a summary of trash load reduction actions (i.e., control measures and best management practices) implemented within your jurisdictional boundaries during the reporting period to achieve a 40% trash load reduction goal by July 1, 2014. For those actions implemented in FY 2011-12, include brief descriptions of levels of implementation and the total trash loads and dominant types of trash removed from each action.

New or Enhanced Trash Load Reduction Action	Description of New or Enhanced Action Implemented in FY 11-12	Estimated Trash Load Removed in FY 11-12 (Gallons)[58]	Estimated Percent Reduction as of FY 11-12 [58]	Estimated Dominant Types of Trash Removed in FY 11-12
Public Education and Outreach Programs	**Advertising Campaigns:** **Be the Street: Please see BASMAA FY 2011/2012 Regional Supplement for Training and Outreach, Annual Report for details relating to these outreach efforts conducted during FY 2011/2012. No credit was taken for this campaign during 11/12 as local implementation was minimal.** **Public Information and Participation:** **See Section C.7 of the Program Annual Report for more detailed information on enhanced Program efforts to reduce trash through:** **1. Outreach to school-aged children** **2. Media relations** **3. Community outreach events** **Contact Kevin Cullen at KCullen@fssd.com for further information relating to the Program's public education and outreach efforts on trash.**	**229**	**5**	**Public education and outreach does not focus on any specific type of trash to be removed. All trash types are included in this trash load reduction action.**
Activities to Reduce Trash from Uncovered Loads	**During the City's recent negotiation of a franchise agreement for solid waste hauling, the City developed and included language and a hauling service contract that requires contracted trash and construction debris haulers to cover loads when transporting trash and debris to the local landfill and transfer stations.**	**46**	**1**	**Hauled municipal, commercial and residential solid waste.**
Anti-littering and Illegal Dumping Enforcement Activities	**Thorough investigations of complaints received from an illegal dumping hotline. Implementation of enforcement procedures including citations. The collection of evidence from illegal dump sites in an attempt to identify offenders. No credit was taken for this action during 11/12.**	**0**	**0**	**Various large and small trash items typically found illegally dumped along roadsides.**

[58] The estimated load removed and percent reduction in FY 11-12 is consistent with assumptions described in the Trash Load Reduction Tracking Method Technical Report (version 1.0) submitted to the Water Board on February 1, 2012. In the future, load reductions reported in Annual Reports may be adjusted based on revisions to the tracking methodology.

C.10.d ▶Summary of Trash Reduction Actions and Loads Reduced

Provide a summary of trash load reduction actions (i.e., control measures and best management practices) implemented within your jurisdictional boundaries during the reporting period to achieve a 40% trash load reduction goal by July 1, 2014. For those actions implemented in FY 2011-12, include brief descriptions of levels of implementation and the total trash loads and dominant types of trash removed from each action.

New or Enhanced Trash Load Reduction Action	Description of New or Enhanced Action Implemented in FY 11-12	Estimated Trash Load Removed in FY 11-12 (Gallons)[58]	Estimated Percent Reduction as of FY 11-12 [58]	Estimated Dominant Types of Trash Removed in FY 11-12
On-land Trash Cleanups	**The City of Fairfield has in the past performed on-land trash cleanup efforts throughout the city, however minimal documentation was recorded on quantities of trash collected. Enhanced efforts for the upcoming year(s) will include thorough and complete documentation of on-land trash cleanup activities, including:** **1. Location and dates of cleanup efforts** **2. Quantities of trash collected** **3. Types of trash collected**	**0**	**0**	**Various large and small trash items typically found illegally dumped along roadsides.**
Full-Capture Treatment Devices	**The Cities of Fairfield and Suisun City jointly installed a large full trash capture device (Continuous Deflection System, manufactured by Contech). The device captures 270 acres of a combined land use of commercial and residential properties. The contributing area is approximately 100 acres larger than is required for both cities, as shown in attachment J of the MRP (146 acres for Fairfield, and 22 acres for Suisun City). The responsibility for maintenance of the full capture device will be shared by both cities, as well as the credit for installation. The maintenance and credit will be distributed on a population basis, at a rate of 4 to 1 (Fairfield to Suisun City).** **The device is located in the City of Suisun City, just upstream from their hotspot area (Suisun City Marina) while the contributing area is located completely within the City of Fairfield. The parcel is owned by the City of Fairfield. Based on the above explanation, Fairfield has treated 216 acres for full trash capture while Suisun City has treated 54 acres.**	**161**	**3.5**	**Trash typically conveyed through the MS4**

C.10.d ►Summary of Trash Reduction Actions and Loads Reduced

Provide a summary of trash load reduction actions (i.e., control measures and best management practices) implemented within your jurisdictional boundaries during the reporting period to achieve a 40% trash load reduction goal by July 1, 2014. For those actions implemented in FY 2011-12, include brief descriptions of levels of implementation and the total trash loads and dominant types of trash removed from each action.

New or Enhanced Trash Load Reduction Action	Description of New or Enhanced Action Implemented in FY 11-12	Estimated Trash Load Removed in FY 11-12 (Gallons)[58]	Estimated Percent Reduction as of FY 11-12 [58]	Estimated Dominant Types of Trash Removed in FY 11-12
Creek/Channel /Shoreline Cleanups	**The City of Fairfield has performed creek cleanup efforts in the past, however minimal documentation was recorded of quantities of material picked up. The only events where quantities were recorded have been Coast and Creek Cleanup. Enhanced efforts for this event included nearly twice the number of participants from the previous year. A total of 6,291 pounds was collected throughout the entire program area, and only 40% of the trash collected from sites located in the City of Fairfield is being credited towards our trash load reduction efforts. Enhanced efforts for future creek cleanup events will include:** • **Thorough and complete documentation, including quantities and dates of cleanup efforts** • **Quantities and types of trash picked up** • **Increased public outreach in an effort to increase the number of events and participants at cleanup events.**	**844**	**18.5**	**Fast food containers, homeless encampments, illegal dumps, plastic bags.**
Preliminary Estimate of Trash Load Removed (Gallons) in FY 2011-12		**1,279**		
Preliminary Baseline Trash Load Estimate (Gallons)		**4,572**		
Total Percentage Reduction in FY 2011-12 (Compared to Baseline Trash Load)		**28.0 %**		

Section 11 - Provision C.11 Mercury Controls

C.11.a.i ▶Mercury Recycling Efforts

List below or attach lists of efforts to promote, facilitate, and/or participate in collection and recycling of mercury containing devices and equipment at the consumer level (e.g., thermometers, thermostats, switches, bulbs).

1) Promotion (i.e., media advertising, providing information on your agency's website, etc.) of:
   a) Household Hazardous Waste (HHW) programs, including promotion of HHW drop-off events and local businesses that provide residents and small businesses the opportunity to drop-off mercury-containing devices and equipment (e.g., bulbs, thermostats, thermometers and/or switches). Solano Garbage Company (Republic Services) at 2901 Industrial Court runs the household hazardous waste collection facility that serves the City of Fairfield, Suisun City and Solano County unincorporated areas. They operate twice monthly on the second and fourth Saturday from 9 AM to 12 noon. Household hazardous waste drop-off is offered free to residents for a small fee and to Fairfield businesses that qualify as small quantity generators. Other items can be dropped off at local businesses such as: Home Depot, Lowe's, and Orchard Supply Hardware, DND Plumbing, Slinky Brothers Fairfield, and Solano Garbage Company.

      Promotional events include websites information on cities of Fairfield, Suisun City and Solano County and Solano garbage company's website; printed/published materials include countywide recycling guide household hazardous waste/used oil brochures, flyers and handouts; mailers included in billing by Solano garbage company; community events such as weekly farmers market, Earth Day, tomato Festival, coast and Creek cleanup and radio ads on the local station, KUIC.

   b) The Thermostat Recycling Corporation, is an organization developed on behalf of the thermostat manufacturers, that recycles mercury-containing thermostats and switches generated by residents and small businesses. The HVAC industry is the largest generator of these waste streams and is the targeted audience to inform of this recycling option.
2) Facilitation/Organization : Solano Garbage Company (Republic Services) at 2901 Industrial Court runs the household hazardous waste collection facility that serves the City of Fairfield, Suisun City and Solano County unincorporated areas. They operate twice monthly on the second and fourth Saturday from 9 AM to 12 noon. Household hazardous waste drop-off is offered free to residents for a small fee and to Fairfield businesses that qualify as small quantity generators. Other items can be dropped off at local businesses such as: Home Depot, Lowe's, and Orchard Supply Hardware, DND Plumbing, Slinky Brothers Fairfield, and Solano Garbage Company.
3) Collection of:
   a) Mercury-containing devices and equipment at designated drop-off points or HHW drop-off events is organized and conducted by Solano garbage company. Twice a month on the second and fourth Saturdays from 9 to 12 noon. Household hazardous waste drop-off events are offered to residents and small businesses within the Fairfield and Suisun city area.
   b) Currently, there are no curbside programs offered in the City of Fairfield and City of Suisun City.

C.11.a.ii ►Mercury Collection

Provide an estimate of the mass of mercury collected through these efforts, or provide a reference to a report containing this estimate.

The City utilized the 303 (a) report provided by their contract HHW operator to arrive at the estimates.

Mercury Containing Device/Equipment	Total Amount of Devices Collected	Estimated Mass of Mercury Collected
Fluorescent Lamps[59] (linear feet)	**7126**	**.015 kg**
CFLs[60] (each)	**567**	**.0026 kg**
Thermostats[61] (each)		
Thermostats (lbs)		
Thermometers (each)	**872 thermometers**	**.53 kg**
Switches (lbs)		
Total Mass of Mercury Collected During FY 2011-2012:		**.55 kg**

[59] Only linear fluorescent lamps should be included

[60] Only compact fluorescent lamps should be included

[61] Thermostats can be reported by quantity or by pounds. Whichever unit is used, please avoid double-counting.

C.11.b ►Monitor Methylmercury **C.11.c ►Pilot Projects to Investigate and Abate Mercury Sources in Drainages** **C.11.d ►Pilot Projects to Evaluate and Enhance Municipal Sediment Removal and Management Practices** **C.11.e ►Conduct Pilot Projects to Evaluate On-Site Stormwater Treatment via Retrofit** **C.11.f ►Diversion of Dry Weather and First Flush Flows to POTWs** **C.11.g ►Monitor Stormwater Mercury Pollutant Loads and Loads Reduced** **C.11.h ►Fate and Transport Study of Mercury In Urban Runoff** **C.11.i ►Development of a Risk Reduction Program Implemented Throughout the Region** **C.11.j ►Develop Allocation Sharing Scheme with Caltrans**
State below if information is reported in a separate regional report. Municipalities that participate directly in regional activities to can provide descriptions below.
Summary **See the Program's Annual Report and the BASMAA Regional POC Report for FY 2011-2012 for a summary of regional accomplishments for these sub-provisions.**

Section 12 - Provision C.12 PCBs Controls

C.12.a.ii,iii ►Ongoing Training

(For FY 10-11 Annual Report and Each Annual Report Thereafter) List below or attach description of ongoing training development and inspections for PCB identification, including documentation and referral to appropriate regulatory agencies (e.g. county health departments, Department of Toxic Substances Control, California Department of Public Health, and the Water Board) as necessary.

Description:

See the Program's Annual Report and the BASMAA Regional POC Report for FY 2011-2012 for a description of training provided regionally.

C.12.b ►Conduct Pilot Projects to Evaluate Managing PCB-Containing Materials and Wastes during Building Demolition and Renovation Activities
C.12.c ►Pilot Projects to Investigate and Abate On-land Locations with Elevated PCB Concentrations
C.12.d ►Conduct Pilot Projects to Evaluate and Enhance Municipal Sediment Removal and Management Practices
C.12.e ►Conduct Pilot Projects to Evaluate On-Site Stormwater Treatment via Retrofit
C.12.f ►Diversion of Dry Weather and First Flush Flows to POTWs
C.12.g ►Monitor Stormwater PCB Pollutant Loads and Loads Reduced
C.12.h ►Fate and Transport Study of PCBs in Urban Runoff
C.12.i ►Development of a Risk Reduction Program Implemented Throughout the Region

State below if information is reported in a separate regional report. Municipalities that participate directly in regional activities to can provide descriptions below.

Summary

A summary of the Program's and regional accomplishments for these sub-provisions are included within the C.12 PCB Controls section of the Program's FY 2011-2012 Annual Report and/or the BASMAA Regional POC Report.

Section 13 - Provision C.13 Copper Controls

C.13.a. iii.(1) ► Legal Authority: Architectural Copper

(For FY 10-11 Annual Report only) Do you have adequate legal authority to prohibit discharge of wastewater to storm drains generated from the installation, cleaning, treating, and washing of the surface of copper architectural features, including copper roofs to storm drains?	**X**	**Yes**		**No**

If **No**, explain and provide schedule for obtaining authority within 1 year.
NA

C.13.a.iii.(2) ►Training, Permitting and Enforcement Activities

(FY 11-12 Annual Report and each Annual Report thereafter) Provide summaries of activities implemented to manage waste generated from cleaning and treating of copper architectural features, including copper roofs, during construction and post-construction including. :

- Development of BMPs on how to manage the water during and post construction
- Requiring the use of appropriate BMPs when issuing building permits
- Educating installers and operators on appropriate BMPs
- Enforcement actions taken again noncompliance

See the Program's Annual Report and the BASMAA Regional POC Report for FY 2011-2012 for a description of training provided regionally.

C.13.b. iii. ► Legal Authority: Pools, Spas, and Fountains

(For FY10-11 Annual Report only) Do you have adequate legal authority to prohibit discharges to storm drains from pools, spas, and fountains that contain copper-based chemicals?	**X**	**Yes**		**No**

If **No**, explain and provide schedule for obtaining authority within 1 year:
NA

C.13.c ►Vehicle Brake Pads

Reported in a separate regional report.

A summary of the Program's participation with the Brake Pad Partnership (BPP) is included within the C.13 Copper Controls section of the BASMAA Regional POC FY 2011-2012 Annual Report.

C.13.d.iii ►Industrial Sources Copper Reduction Results

Based upon inspection activities conducted under Provision C.4, highlight copper reduction results achieved among the facilities identified as potential users or sources of copper, facilities inspected, and BMPs addressed.

Summary

A summary of the inspections conducted at facilities identified as potential users or sources of copper that resulted in the use of copper reduction BMPs is included within the Program's FY 11-12 Annual Report.

C.13.e ►Studies to Reduce Copper Pollutant Impact Uncertainties

Report on progress of studies being conducted countywide or regionally to reduce copper pollutant impact uncertainties. State below if information is reported in a separate regional report.

Summary

A summary of the Program and/or regional efforts to develop regional studies to reduce copper pollutant impact uncertainties is included within the C.13 Copper Controls section of the BASMAA Regional POC FY 11-12 Annual Report.

Section 14 - Provision C.14 PBDE, Legacy Pesticides and Selenium Controls

C.14.a ▶Control Programs for PBDEs, Legacy Pesticides and Selenium Controls

Report on progress of studies being conducted countywide or regionally to characterize the distribution and pathways of PBDEs, legacy pesticides, and selenium. State below if information is reported in a separate regional report.

Summary

A summary of the Program and regional efforts related to the Control Program for PBDEs, Legacy Pesticides and Selenium is included within the C.14 PBDE, Legacy Pesticides and Selenium section of the BASMAA Regional POC FY 2011-2012 Annual Report.

Section 15 - Provision C.15 Exempted and Conditionally Exempted Discharges

C.15.b.iii.(1), C.15.b.iii.(2) ► Planned and Unplanned Discharges of Potable Water

Is your agency a water purveyor?	X	Yes		No
If **No**, skip to C.15.b.vi.(2):				
If **Yes**, Complete the attached reporting tables or attach your own table with the same information. Provide any clarifying comments below.				
Comments: None				

C.15.b.vi.(2) ► Irrigation Water, Landscape Irrigation, and Lawn or Garden Watering

Provide implementation summaries of the required BMPs to promote measures that minimize runoff and pollutant loading from excess irrigation. Generally the categories are:

- Promote conservation programs
- Promote outreach for less toxic pest control and landscape management
- Promote use of drought tolerant and native vegetation
- Promote outreach messages to encourage appropriate watering/irrigation practices
- Implement Illicit Discharge Enforcement Response Plan for ongoing, large volume landscape irrigation runoff.

Summary:

The City of Fairfield continues to engage in various activities to reduce storm drain runoff in connection with the City's water conservation efforts.

At the community planning and design level, the City has adopted and enforces the state Water Efficient Landscape Ordinance. The Ordinance focuses on new development design to improve irrigation water efficiency and to help eliminate irrigation runoff. The Ordinance applies to large developments and re-landscaping within the City of Fairfield.

The City of Fairfield continues to have an aggressive program to visit and correct high water-use properties. Running a county-wide program to audit single-family homes, the City has marketed to the top water users in Solano County. Between **500 to 1500** water audits are performed annually. Approximately **45%** of these visits were because of overwatering landscaping, resulting in irrigation runoff from the properties. Another **20%** were because of leaks in the irrigation system. An estimated **35,000 gallons per day** of water have been saved in the cities of Fairfield and Suisun City due to these water audits. County-wide efforts have saved approximately **110,000 gallons per day**, mostly from excessive irrigation and leaks.

C.15.b.iii.(1) ▶ Planned Discharges of the Potable Water System

Site/ Location	Discharge Type	Receiving Waterbody(ies)	Date of Discharge	Duration of Discharge (military time)	Estimated Volume (gallons)	Estimated Flow Rate (gallons/day)	Chlorine Residual (mg/L)	pH (standard units)	Discharge Turbidity[62] (NTU)	Implemented BMPs & Corrective Actions

[62] Monitor the receiving water for turbidity if necessary and feasible. Include data in this column if available.

Site / Location	Type of Discharge	Receiving Water Body	Date, Discharge	Duration of Discharge (military time)	Estimated Volume (gallons)	Estimated Flow Rate (GPD)	Chlorine Residual (mg/L)	pH	Receiving Water Turbidity (NTU)	Point of Discharge Turbidity (NTU)	BMPs implemented

C.15.b.iii.(2) ►Unplanned Discharges of the Potable Water System[63]

Site/ Location	Discharge Type	Receiving Waterbody(ies)	Date of Discharge	Discharge Duration (military time)	Estimated Volume (gallons)	Estimated Flow Rate (gallons/day)	Chlorine Residual (mg/L)[64]	pH (standard units)[52]	Discharge Turbidity (Visual)[52]	Implemented BMPs & Corrective Actions	Time of discharge discovery	Regulatory Agency Notification Time[65]	Inspector arrival time	Responding crew arrival time

[63] This table contains all of the unplanned discharges that occurred in this FY.
[64] Monitoring data is only required for 10% of the unplanned discharges. If you monitored more than 10% of your unplanned discharges, report all of the data collected.
[65]. Notification to Water Board staff is required for unplanned discharges where the chlorine residual is >0.05 mg/L and total volume is ≥ 50,000 gallons. Notification to State Office of Emergency Services is required after becoming aware of aquatic impacts as a result of unplanned discharge or when the discharge might endanger or compromise public health and safety.

Site / Location	Type of Discharge	Receiving Water Body	Date, Discharge	Duration of Discharge (military time)	Estimated Volume (gallons)	Estimated Flow Rate (GPD)	Chlorine Residual (mg/L)	pH	Receiving Water Turbidity (NTU)	Point of Discharge Turbidity (NTU)	BMPs implemented	Time of discharge discovery	Regulatory Agency Notification Time	Inspector arrival time	Responding crew arrival time
MADISON ST. AT MISSOURI ST	EMERGENCY MAIN REPAIR	PENN CREEK	6/8/2012	4 HOURS 36 MINUTES	2,660	2660	0.06	7.22		0.02	Dechlorinated at point of discharge/Used silt bags in gutter/Cleaned gutter	12:24	N/A	12:34	16:30

During this reporting period, "Unplanned Discharge" data stored electronically prior to June 8, 2012 was lost.

Field personnel now complete paper forms to circumvent this in the future.
