September 12, 2014

Mr. Bruce Wolfe  
Executive Officer  
California Regional Water Quality Control Board,  
San Francisco Bay Region  
1515 Clay St., Suite 1400  
Oakland, CA 94612

RE: 2013-14 Municipal Storm Water Annual Report

Dear Mr. Wolfe,

The attached represents the City of San Leandro's submission of the fiscal year 2013-14 Municipal Storm Water Annual Report as required by the Municipal Regional Permit Order Number R2-2009-0074.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Very truly yours,

Debbie Pollart  
Public Works Director

Stephen H. Cassidy, Mayor

City Council:

Pauline Russo Cutter

Michael J. Gregory

Benny Lee

Jim Prola

Ursula Reed

Diana M. Souza

**Section 2 - Provision C.2 Reporting Municipal Operations**

**Program Highlights and Evaluation**

Highlight/summarize activities for reporting year:

Summary: See Section C.2 - Municipal Operations - of the Alameda Countywide Clean Water Program's (ACCWP) FY 13-14 Annual Report for a summary of Program activities.

**C.2.a. ► Street and Road Repair and Maintenance**

Place a **Y** in the boxes next to activities where applicable BMPs were implemented. If not applicable, type **NA** in the box and provide an explanation in the comments section below. Place an **N** in the boxes next to activities where applicable BMPs were not implemented for one or more of these activities during the reporting fiscal year, then in the comments section below provide an explanation of when BMPs were not implemented and the corrective actions taken.

<b>Y</b>	Control of debris and waste materials during road and parking lot installation, repaving or repair maintenance activities from polluting stormwater
<b>Y</b>	Control of concrete slurry and wastewater, asphalt, pavement cutting, and other street and road maintenance materials and wastewater from discharging to storm drains from work sites.
<b>Y</b>	Sweeping and/or vacuuming and other dry methods to remove debris, concrete, or sediment residues from work sites upon completion of work.

Comments: Street maintenance employees have been trained on stormwater BMPs for all minor repair work. Maintenance employees perform pavement cutting on a very limited basis.

**C.2.b. ► Sidewalk/Plaza Maintenance and Pavement Washing**

Place a **Y** in the boxes next to activities where applicable BMPs were implemented. If not applicable, type **NA** in the box and provide an explanation in the comments section below. Place an **N** in the boxes next to activities where applicable BMPs were not implemented for one or more of these activities during the reporting fiscal year, then in the comments section below provide an explanation of when BMPs were not implemented and the corrective actions taken.

<b>Y</b>	Control of wash water from pavement washing, mobile cleaning, pressure wash operations at parking lots, garages, trash areas, gas station fueling areas, and sidewalk and plaza cleaning activities from polluting stormwater
<b>Y</b>	Implementation of the BASMAA Mobile Surface Cleaner Program BMPs

Comments: Maintenance staff and contractors perform BMPs on all pressure washing activities. The City requires BASMAA certification for all contractors that conduct mobile cleaning and pressure washing operations. Contractors are provided BMP's from the Alameda County Clean Water website.

**C.2.c. ► Bridge and Structure Maintenance and Graffiti Removal**

Place a **Y** in the boxes next to activities where applicable BMPs were implemented. If not applicable, type **NA** in the box and provide an explanation in the comments section below. Place an **N** in the boxes next to activities where applicable BMPs were not implemented for one or more of these activities during the reporting fiscal year, then in the comments section below provide an explanation of when BMPs were not implemented and the corrective actions taken.

<b>Y</b>	Control of discharges from bridge and structural maintenance activities directly over water or into storm drains
<b>Y</b>	Control of discharges from graffiti removal activities
<b>Y</b>	Proper disposal for wastes generated from bridge and structure maintenance and graffiti removal activities
<b>Y</b>	Implementation of the BASMAA Mobile Surface Cleaner Program BMPs for graffiti removal
<b>Y</b>	Employee training on proper capture and disposal methods for wastes generated from bridge and structural maintenance and graffiti removal activities.
<b>Y</b>	Contract specifications requiring proper capture and disposal methods for wastes generated from bridge and structural maintenance and graffiti removal activities.

Comments: Proper capture and disposal methods are written into contractor specifications for bridge and structural maintenance. Graffiti removal activities were conducted by Public Works employees and not by contract. Staff was trained on the BMP for Over Water Activities in March. In addition, the graffiti abatement section purchased supplies to prevent non-stormwater discharges for abatement activities near SWI's.

**C.2.d. ► Stormwater Pump Stations**

Does your municipality own stormwater pump stations:  **Yes**  **No**

If your answer is **No** then skip to **C.2.e.**

Complete the following table for dry weather DO monitoring and inspection data for pump stations<sup>1</sup> (add more rows for additional pump stations). If a pump station is exempt from DO monitoring, explain why it is exempt.

Pump Station Name and Location	First inspection Dry Weather DO Data		Second inspection Dry Weather DO Data	
	Date	mg/L	Date	mg/L
Wicks storm station	7/15/13	4.41	9/28/13	4.26
Washington storm station	7/15/13	8.22	9/28/13	7.98

<sup>1</sup> DO monitoring is exempted where all discharge from a pump station remains in a stormwater collection system or infiltrates into a dry creek immediately downstream.

Summarize corrective actions as needed for DO monitoring at or below 3 mg/L. Attach inspection records of additional DO monitoring for corrective actions:

Summary: N/A

Attachments:

Complete the following table for wet weather inspection data for pump stations (add more rows for additional pump stations)

<b>Pump Station Name and Location</b>	<b>Date</b> (2x/year required)	<b>Presence of Trash</b> (Cubic Yards)	<b>Presence of Odor</b> (Yes or No)	<b>Presence of Color</b> (Yes or No)	<b>Presence of Turbidity</b> (Yes or No)	<b>Presence of Floating Hydrocarbons</b> (Yes or No)
Wicks storm	1/13/14	.5	no	no	no	no
Wicks storm	3/21/14	.1	no	no	no	no
Washington storm	9/3/13	Under .1	no	no	no	no
Washington storm	3/21/14	Under .1	no	no	no	no

C.2.e. ► Rural Public Works Construction and Maintenance			
Does your municipality own/maintain rural <sup>2</sup> roads:		<input type="checkbox"/>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
If your answer is <b>No</b> then skip to <b>C.2.f.</b>			
Place a <b>Y</b> in the boxes next to activities where applicable BMPs were implemented. If not applicable, type <b>NA</b> in the box and provide an explanation in the comments section below. Place an <b>N</b> in the boxes next to activities where applicable BMPs were not implemented for one or more of these activities during the reporting fiscal year, then in the comments section below provide an explanation of when BMPs were not implemented and the corrective actions taken.			
<input type="checkbox"/>	Control of road-related erosion and sediment transport from road design, construction, maintenance, and repairs in rural areas		
<input type="checkbox"/>	Identification and prioritization of rural road maintenance based on soil erosion potential, slope steepness, and stream habitat resources		
<input type="checkbox"/>	No impact to creek functions including migratory fish passage during construction of roads and culverts		
<input type="checkbox"/>	Inspection of rural roads for structural integrity and prevention of impact on water quality		
<input type="checkbox"/>	Maintenance of rural roads adjacent to streams and riparian habitat to reduce erosion, replace damaging shotgun culverts and excessive erosion		
<input type="checkbox"/>	Re-grading of unpaved rural roads to slope outward where consistent with road engineering safety standards, and installation of water bars as appropriate		
<input type="checkbox"/>	Inclusion of measures to reduce erosion, provide fish passage, and maintain natural stream geomorphology when replacing culverts or design of new culverts or bridge crossings		
Comments including listing increased maintenance in priority areas:			

<sup>2</sup> Rural means any watershed or portion thereof that is developed with large lot home-sites, such as one acre or larger, or with primarily agricultural, grazing or open space uses.

C.2.f. ► Corporation Yard BMP Implementation			
Place an <b>X</b> in the boxes below that apply to your corporations yard(s):			
<input type="checkbox"/>	We do not have a corporation yard		
<input type="checkbox"/>	Our corporation yard is a filed NOI facility and regulated by the California State Industrial Stormwater NPDES General Permit		
<input checked="" type="checkbox"/>	We have a <b>Stormwater Pollution Prevention Plan (SWPPP)</b> for the Corporation Yard(s)		
Place an <b>X</b> in the boxes below next to implemented SWPPP BMPs to indicate that these BMPs were implemented in applicable instances. If not applicable, type <b>NA</b> in the box. If one or more of the BMPs were not adequately implemented during the reporting fiscal year then indicate so and explain in the comments section below:			
<input checked="" type="checkbox"/>	Control of pollutant discharges to storm drains such as wash waters from cleaning vehicles and equipment		
<input checked="" type="checkbox"/>	Routine inspection prior to the rainy seasons of corporation yard(s) to ensure non-stormwater discharges have not entered the storm drain system		
<input checked="" type="checkbox"/>	Containment of all vehicle and equipment wash areas through plumbing to sanitary or another collection method		
<input checked="" type="checkbox"/>	Use of dry cleanup methods when cleaning debris and spills from corporation yard(s) or collection of all wash water and disposing of wash water to sanitary or other location where it does not impact surface or groundwater when wet cleanup methods are used		
<input checked="" type="checkbox"/>	Cover and/or berm outdoor storage areas containing waste pollutants		
Comments: Staff continues to conduct increased inspections at the corporation yard with the focus of keeping the site clean and reducing or eliminating the potential for debris and non-stormwater discharges into the SWI's onsite. Staff has implemented a number of strategies including the use of berms, SWI covers (dry season) and SWI filter inserts (rainy season). SWI inserts are regularly inspected and cleaned. The inserts work exceptionally well at capturing debris (rock, dirt, sand) from operations and the neighboring railroad property.			
If you have a corporation yard(s) that is not an NOI facility, complete the following table for inspection results for your corporation yard(s) or attach a summary including the following information:			
Corporation Yard Name	Inspection Date (1x/year required)	Inspection Findings/Results	Follow-up Actions
Public Works Service Center	9/20/13	Leaf debris along curblines, a couple of inlets not stenciled (recent paving); mulch pile not covered, socks around drains need to be replaced. Leaf debris needs to be cleaned out of inlet in SW corner of property.	Yard was swept, inlets stenciled, inlet in corner vacuumed out, and socks replaced around inlets. Sent out reminder about covering mulch and gravel piles.
Public Works Service Center	1/24/14	Debris around wash rack, and stump pile; leaves along back fenceline; leaky vehicle; paint outside by hazmat	Cleaned up debris around yard, logged paint into shed;

		shed; large metal items to dispose.	reported leaky vehicle to fleet supervisor; and had staff put metal items in recycling box.
Public Works Service Center	3/21/14	Debris boxes (stumps, metals) full and need to be serviced; uncovered pile of sand near park storage area; Gravel tarp old and needs to be replaced; storage areas could be cleaned and reorganized.	Scheduled pickup of bins, removed sand pile, replaced tarps and sent requests to supervisors to clean storage areas.

**Section 3 - Provision C.3 Reporting New Development and Redevelopment**

**C.3.b.v.(2)(a) ► Green Streets Status Report**

(All projects to be completed by December 1, 2014)

On an annual basis (if applicable), report on the status of any pilot green street projects within your jurisdiction. For each completed project, report the capital costs, operation and maintenance costs, legal and procedural arrangements in place to address operation and maintenance and its associated costs, and the sustainable landscape measures incorporated in the project including, if relevant, the score from the Bay-Friendly Landscape Scorecard.

Summary:

**The C.3 New Development and Redevelopment section of the Countywide program's FY 13-14 Annual Report includes a description of activities conducted at the countywide or regional level.**

**C.3.b.v.(1) ► Regulated Projects Reporting**

Fill in attached table **C.3.b.v.(1)** or attach your own table including the same information.

**C.3.e.v. ► Alternative or In-Lieu Compliance with Provision C.3.c.**

*(For FY 11-12 Annual Report and each Annual Report thereafter)*

Is your agency choosing to require 100% LID treatment onsite for all Regulated Projects and not allow alternative compliance under Provision C.3.e.?

	<b>Yes</b>	<b>No</b>
	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Comments (optional):

**C.3.e.vi ► Special Projects Reporting**

1. Has your agency received, but not yet granted final discretionary approval of, a development permit application for a project that has been identified as a potential Special Project based on criteria listed in MRP Provision C.3.e.ii(2) for any of the three categories of Special Projects (Categories A, B or C)?		<b>Yes</b>	X	<b>No</b>
2. Has your agency granted final discretionary approval of a project identified as a Special Project in the March 15, 2014 report? If yes, include the project in both the C.3.b.v.(1) Table, and the C.3.e.vi. Table.		<b>Yes</b>	X	<b>No</b>
If you answered "Yes" to either question, 1) Complete Table C.3.e.vi . below. 2) Attach narrative discussion of 100% LID Feasibility or Infeasibility for each project.				

**C.3.h.iv. ► Installed Stormwater Treatment Systems Operation and Maintenance Verification Inspection Program Reporting**

<p><b>(1) Fill in attached table C.3.h.iv.(1) or attach your own table including the same information.</b></p>
<p><b>(2)</b> On an annual basis, provide a discussion of the inspection findings for the year and any common problems encountered with various types of treatment systems and/or HM controls. This discussion should include a general comparison to the inspection findings from the previous year.</p>
<p>Summary:                  During this reporting period a total of 65 structural treatment BMPs were inspected; 13 bio-swales, 4 storm filter vaults, 3 CDS units, 41 inlet filter units, 1 detention basin, 1 pervious surface area and 2 bio-retention areas. Of the 16 surface BMPs all were found to be properly installed and being maintained in good working order by the owner/facility. Of the 48 vault / sub-surface BMPs all were found being properly maintained and operated also. To date the only common issues noted across BMPs is vegetation loss or die off, usually in the initial establishment phase, in some of the above ground planted BMPs although none was noted in this year's inspection results.</p>
<p><b>(3)</b> On an annual basis, provide a discussion of the effectiveness of the O&amp;M Program and any proposed changes to improve the O&amp;M Program (e.g., changes in prioritization plan or frequency of O&amp;M inspections, other changes to improve effectiveness program).</p>
<p>Summary:                  As of the end of this reporting period, 100% of projects finished through the construction process have been inspected along with additional sites on routine re-inspection. The number of C3.H sites inspected stands currently at 24 with 5 sites under construction and two in the planning stage. Of those sites completed and inspected the installed structural treatment BMPs are being maintained and serviced by the respective owners.                  No problems have been encountered with regard to tracking sites or scheduling O&amp;M inspections. The facility database allows tracking of C3.H sites; including each treatment BMP installed and scheduling inspections. There are currently no changes planned for continued</p>

implementation of the O&M verification program.					
<b>(4)</b> During the reporting year, did your agency:					
• Inspect all newly installed stormwater treatment systems and HM controls within 45 days of installation?	X	Yes		No	Not applicable. No new facilities were installed.
• Inspect at least 20 percent of the total number of installed stormwater treatment systems or HM controls? <sup>3</sup>	X	Yes		No	Not applicable. No treatment measures
• Inspect at least 20 percent of the total number of installed vault-based systems?	X	Yes		No	Not applicable. No vault systems.
If you answered "No" to any of the questions above, please explain:					

**C.3.i. ► Required Site Design Measures for Small Projects and Detached Single Family Home Projects**

On an annual basis, discuss the implementation of the requirements of Provision C.3.i, including ordinance revisions, permit conditions, development of standard specifications and/or guidance materials, and staff training.

Summary:

BASMAA prepared standard specifications in four fact sheets regarding the site design measures listed in Provision C.3.i, as a resource for Permittees. We have modified local ordinances/policies/procedures and forms/checklists to require all applicable projects approved after December 1, 2012 to implement at least one of the site design measures listed in Provision C.3.i. We are using the following products for C.3.i implementation:

- BASMAA's site design fact sheets
- Stormwater checklist [Stormwater Requirements Checklist - MRP]
- C.3.i guidance (Site design requirements for small projects)

<sup>3</sup> If there is only 1 treatment measure in the jurisdiction, the agency must inspect it every year.

**C.3.b.v.(1) ► Regulated Projects Reporting Table (part 1) – Projects Approved During the Fiscal Year Reporting Period**

Project Name Project No.	Project Location <sup>10</sup> , Street Address	Name of Developer	Project Phase No. <sup>11</sup>	Project Type & Description <sup>12</sup>	Project Watershed <sup>13</sup>	Total Site Area (Acres)	Total Area of Land Disturbed (Acres)	Total New Impervious Surface Area (ft <sup>2</sup> ) <sup>14</sup>	Total Replaced Impervious Surface Area (ft <sup>2</sup> ) <sup>15</sup>	Total Pre- Project Impervious Surface Area <sup>16</sup> (ft <sup>2</sup> )	Total Post- Project Impervious Surface Area <sup>17</sup> (ft <sup>2</sup> )
<b>Private Projects</b>

<b>Public Projects</b>											

Comments:  
**There were no Public Projects.**

<sup>10</sup> Include cross streets

<sup>11</sup> If a project is being constructed in phases, indicate the phase number and use a separate row entry for each phase. If not, enter "NA".

<sup>12</sup> Project Type is the type of development (i.e., new and/or redevelopment). Example descriptions of development are: 5-story office building, residential with 160 single-family homes with five 4-story buildings to contain 200 condominiums, 100 unit 2-story shopping mall, mixed use retail and residential development (apartments), industrial warehouse.

<sup>13</sup> State the watershed(s) in which the Regulated Project is located. Downstream watershed(s) may be included, but this is optional.

<sup>14</sup> All impervious surfaces added to any area of the site that was previously existing pervious surface.

<sup>15</sup> All impervious surfaces added to any area of the site that was previously existing impervious surface.

<sup>16</sup> For redevelopment projects, state the pre-project impervious surface area.

<sup>17</sup> For redevelopment projects, state the post-project impervious surface area.

**C.3.b.v.(1) ► Regulated Projects Reporting Table (part 2) – Projects Approved During the Fiscal Year Reporting Period (private projects)**

Project Name Project No.	Application Deemed Complete Date <sup>18</sup>	Application Final Approval Date <sup>19</sup>	Source Control Measures <sup>20</sup>	Site Design Measures <sup>21</sup>	Treatment Systems Approved <sup>22</sup>	Type of Operation & Maintenance Responsibility Mechanism <sup>23</sup>	Hydraulic Sizing Criteria <sup>24</sup>	Alternative Compliance Measures <sup>25/26</sup>	Alternative Certification <sup>27</sup>	HM Controls <sup>28/29</sup>
<b>Private Projects</b>										
Safeway Milk Plant	7/25/13	9/9/13	Storm drain stenciling	vegetation	Flow thru planter	O&M Agreement with private owner	2(c): i=0.2"/hr	None	NA	NA
Preferred Freezer	9/3/13	9/17/13	Trash storage area, storm drainage stenciling, efficient landscape irrigation system	vegetation	Bioretention	O&M Agreement with private owner	2(c): i=0.2"/hr	None	NA	NA
Aurora Cottages	8/12/13	9/20/13	Trash storage area, storm drainage stenciling, efficient	Permeable walkway surface, minimize impervious	bioretention	O&M Agreement with private owner	2(c): i=0.2"/hr	None	NA	NA

<sup>18</sup> For private projects, state project application deemed complete date. If the project did not go through discretionary review, report the building permit issuance date.

<sup>19</sup> For private projects, state project application final discretionary approval date. If the project did not go through discretionary review, report the building permit issuance date.

<sup>20</sup> List source control measures approved for the project. Examples include: properly designed trash storage areas; storm drain stenciling or signage; efficient landscape irrigation systems; etc.

<sup>21</sup> List site design measures approved for the project. Examples include: minimize impervious surfaces; conserve natural areas, including existing trees or other vegetation, and soils; construct sidewalks, walkways, and/or patios with permeable surfaces, etc.

<sup>22</sup> List all approved stormwater treatment system(s) to be installed onsite or at a joint stormwater treatment facility (e.g., flow through planter, bioretention facility, infiltration basin, etc.).

<sup>23</sup> List the legal mechanism(s) (e.g., O&M agreement with private landowner; O&M agreement with homeowners' association; O&M by public entity, etc...) that have been or will be used to assign responsibility for the maintenance of the post-construction stormwater treatment systems.

<sup>24</sup> See Provision C.3.d.i. "Numeric Sizing Criteria for Stormwater Treatment Systems" for list of hydraulic sizing design criteria. Enter the corresponding provision number of the appropriate criterion (i.e., 1.a., 1.b., 2.a., 2.b., 2.c., or 3).

<sup>25</sup> For Alternative Compliance at an offsite location in accordance with Provision C.3.e.i.(1), on a separate page, give a discussion of the alternative compliance site including the information specified in Provision C.3.b.v.(1)(m)(i) for the offsite project.

<sup>26</sup> For Alternative Compliance by paying in-lieu fees in accordance with Provision C.3.e.i.(2), on a separate page, provide the information specified in Provision C.3.b.v.(1)(m)(ii) for the Regional Project.

<sup>27</sup> Note whether a third party was used to certify the project design complies with Provision C.3.d.

<sup>28</sup> If HM control is not required, state why not.

<sup>29</sup> If HM control is required, state control method used (e.g., method to design and size device(s) or method(s) used to meet the HM Standard, and description of device(s) or method(s) used, such as detention basin(s), bioretention unit(s), regional detention basin, or in-stream control).

<sup>30</sup> For public projects, enter the plans and specifications approval date.

<sup>31</sup> List source control measures approved for the project. Examples include: properly designed trash storage areas; storm drain stenciling or signage; efficient landscape irrigation systems; etc.

<sup>32</sup> List site design measures approved for the project. Examples include: minimize impervious surfaces; conserve natural areas, including existing trees or other vegetation, and soils; construct sidewalks, walkways, and/or patios with permeable surfaces, etc.

<sup>33</sup> List all approved stormwater treatment system(s) to be installed onsite or at a joint stormwater treatment facility (e.g., flow through planter, bioretention facility, infiltration basin, etc.).

<sup>34</sup> List the legal mechanism(s) (e.g., maintenance plan for O&M by public entity, etc...) that have been or will be used to assign responsibility for the maintenance of the post-construction stormwater treatment systems.

<sup>35</sup> See Provision C.3.d.i. "Numeric Sizing Criteria for Stormwater Treatment Systems" for list of hydraulic sizing design criteria. Enter the corresponding provision number of the appropriate criterion (i.e., 1.a., 1.b., 2.a., 2.b., 2.c., or 3).

<sup>36</sup> For Alternative Compliance at an offsite location in accordance with Provision C.3.e.i.(1), on a separate page, give a discussion of the alternative compliance site including the information specified in Provision C.3.b.v.(1)(m)(i) for the offsite project.

<sup>37</sup> For Alternative Compliance by paying in-lieu fees in accordance with Provision C.3.e.i.(2), on a separate page, provide the information specified in Provision C.3.b.v.(1)(m)(ii) for the Regional Project.

<sup>38</sup> Note whether a third party was used to certify the project design complies with Provision C.3.d.

<sup>39</sup> If HM control is not required, state why not.

<sup>40</sup> If HM control is required, state control method used (e.g., method to design and size device(s) or method(s) used to meet the HM Standard, and description of device(s) or method(s) used, such as detention basin(s), bioretention unit(s), regional detention basin, or in-stream control).

**C.3.h.iv. ► Table of Installed Stormwater Treatment Systems Operation and Maintenance Verification Inspection Program Reporting**

Fill in table below or attach your own table including the same information.

Name of Facility/Site Inspected	Address of Facility/Site Inspected	Newly Installed? (YES/NO) <sup>41</sup>	Party Responsible <sup>42</sup> For Maintenance	Date of Inspection	Type of Inspection <sup>43</sup>	Type of Treatment/HM Control(s) Inspected <sup>44</sup>	Inspection Findings or Results <sup>45</sup>	Enforcement Action Taken <sup>46</sup>	Comments/Follow-up
Davis Street Transfer Station	2615 Davis St	No	Davon Ward, EH&S Manager,	7/23/2013	Routine	13 bio-swales, 4 storm filter vaults, 3 CDS units, 41 inlet filter units, 1 detention basin and 1 pervious surface area	Facility maintaining proper operation and maintenance	none	none
Rosalinde & Arthur Gilbert Foundation	2013 Farallon Dr	Yes	Danielle Padilla, Landscape Contractor	11/31/13	45 Day Grading Permit Final	2 Bio-Retention Areas	installed per plans		
Preferred Freezer	400 Polar Way	Yes	Owner			Bioretention	Proper installation	NA	Proper O&M
Kaiser Hospital Campus	2500 Merced Street	Yes	Owner			Bioretention	Proper installation	NA	Proper O&M
Kaiser Offsite Improvements	Merced St & Fairway Dr	Yes	City of San Leandro			Stormfilter Vaults	Proper installation	NA	Proper O&M

<sup>41</sup> Indicate "YES" if the facility was installed within the reporting period, or "NO" if installed during a previous fiscal year.

<sup>42</sup> State the responsible operator for installed stormwater treatment systems and HM controls.

<sup>43</sup> State the type of inspection (e.g., 45-day, routine or scheduled, follow-up, etc.).

<sup>44</sup> State the type(s) of treatment systems inspected (e.g., bioretention facility, flow-through planter, infiltration basin, etc...) and the type(s) of HM controls inspected, and indicate whether the treatment system is an onsite, joint, or offsite system.

<sup>45</sup> State the inspection findings or results (e.g., proper installation, improper installation, proper O&M, immediate maintenance needed, etc.).

<sup>46</sup> State the enforcement action(s) taken, if any.

C.3.e.vi.Special Projects Reporting Table												
Reporting Period – January 1 – June 30, 2014												
Project Name & No.	Permittee	Address	Application Submittal Date <sup>47</sup>	Status <sup>48</sup>	Description <sup>49</sup>	Site Total Acreage	Density DU/Acre	Density FAR	Special Project Category <sup>50</sup>	LID Treatment Reduction Credit Available <sup>51</sup>	List of LID Stormwater Treatment Systems <sup>52</sup>	List of Non-LID Stormwater Treatment Systems <sup>53</sup>
NA	NA	NA	NA	NA	NA	NA	NA	NA	Category A: Category B: Category C: Location: Density: Parking:  NA	Category A: Category B: Category C: Location: Density: Parking:  NA	Indicate each type of LID treatment system and the percentage of total runoff treated  NA	Indicate each type of non-LID treatment system and the percentage of total runoff treated. Indicate whether minimum design criteria met or certification received  NA

<sup>47</sup> Date that a planning application for the Special Project was submitted.

<sup>48</sup> Indicate whether final discretionary approval is still pending or has been granted, and provide the date or version of the project plans upon which reporting is based.

<sup>49</sup> Type of project (commercial, mixed-use, residential), number of floors, number of units, type of parking, and other relevant information.

<sup>50</sup> For each applicable Special Project Category, list the specific criteria applied to determine applicability. For each non-applicable Special Project Category, indicate n/a.

<sup>51</sup> For each applicable Special Project Category, state the maximum total LID Treatment Reduction Credit available. For Category C Special Projects also list the individual Location, Density, and Minimized Surface Parking Credits available.

<sup>52</sup> List all LID stormwater treatment systems proposed. For each type, indicate the percentage of the total amount of runoff identified in Provision C.3.d. for the Special Project's drainage area.

<sup>53</sup> List all non-LID stormwater treatment systems proposed. For each type of non-LID treatment system, indicate: (1) the percentage of the total amount of runoff identified in Provision C.3.d. for the Special Project's drainage area, and (2) whether the treatment system either meets minimum design criteria published by a government agency or received certification issued by a government agency, and reference the applicable criteria or certification.

**Section 4 – Provision C.4 Industrial and Commercial Site Controls**

**Program Highlights**

Provide background information, highlights, trends, etc.

The C.4 component of the City's stormwater program and facility implementation of BMPs and controls to eliminate or minimize potential for pollutant discharges to storm water is over two decades into implementation. The Environmental Services Section strives to combine and coordinate multiple mandated regulatory programs directed towards businesses located or operating within the City jurisdiction. These programs are comprised of the C4 industrial business and C3.H O&M verification Inspection components of the MRP; the hazardous materials management plan, hazardous waste generators program, underground storage tanks program, aboveground petroleum storage act/storage tank program, toxic/hazardous substances accidental release prevention program and hazardous waste treatment program components of the Certified Unified Program Agency (CUPA programs); the California fire code and the pretreatment/pollution prevention programs . With this breadth of program consolidation the City continues as a leader in applying multi-media oversight and environmental protection.

Through the active inspection component, existing businesses continue making great strides in incorporating and implementing BMPs to offset what are design deficiencies and space limitations. By active involvement in the planning and building permit review process new business developments continue to expand on engineered controls and designing adequate space to eliminate stormwater pollution potential from the outset. Reviewing the inspection data; stormwater pollution prevention and BMPs implementation continues to improve over all. During this reporting period no actual discharges were discovered and documented via the Industrial inspection program. Potential discharges identified and corrected through enforcement included outdoor storage of containerized chemicals / waste and in frequent housekeeping BMPs around loading dock apron and trash compactors.

Environmental Services Section (ESS) staff continues to actively participate and coordinate with the Alameda Countywide Clean Water Program and BASMAA through several committees and attendance in IIDC trainings as referenced in the FY13-14 countywide annual report. ESS also continues to participate in County / Regional CUPA forums; Underground Storage Tank / Hazardous Waste Technical Advisory Groups (TAGs); County Environmental Task Force and BACWA Bay Area Pollution Prevention Group.

See Section C.4 – Industrial and Commercial Site Control – of the ACCWP FY 13-14 Annual Report for a summary of Program activities.

**C.4.b.i. ► Business Inspection Plan**

Do you have a Business Inspection Plan?  Yes  No

If No, explain:

**C.4.b.iii.(1) ► Potential Facilities List**

List below or attach your list of industrial and commercial facilities in your Inspection Plan to inspect that could reasonably be considered to cause or contribute to pollution of stormwater runoff.

Facility	Address	ZIP	Business Description	SIC Code

**C.4.c.iii.(1) ► Facility Inspections**

Fill out the following table or attach a summary of the following information. Indicate your violation reporting methodology below.

<input type="checkbox"/>	Permittee reports multiple discrete violations on a site as one violation.
<input checked="" type="checkbox"/>	Permittee reports the total number of discrete violations on each site.

	Number	Percent
Number of businesses inspected	216	
Total number of inspections conducted	221	
Number of violations (excluding verbal warnings)	8	
Sites inspected in violation	8	4%
Violations resolved within 10 working days or otherwise deemed resolved in a longer but still timely manner	8	100%

Comments:

Sites inspected in violation are counted one time. Each violation is counted individually so corrective actions and return to compliance can be tracked and verified for that specific violation.

**C.4.c.iii.(2) ► Frequency and Types/Categories of Violations Observed**

Fill out the following table or attach a summary of the following information.

Type/Category of Violations Observed	Number of Violations
Actual discharge (e.g. active non-stormwater discharge or clear evidence of a recent discharge)	0
Potential discharge and other	8

Comments:

Each violation is counted individually so corrective actions and return to compliance can be tracked and verified for that specific violation.

**C.4.c.iii.(2) ► Frequency and Type of Enforcement Conducted**

Fill out the following table or attach a summary of the following information.

	<b>Enforcement Action</b> (as listed in ERP) <sup>48</sup>	<b>Number of Enforcement Actions Taken</b>	<b>% of Enforcement Actions Taken<sup>49</sup></b>
Level 1	Warnings / Notices of Violation (NOV)	8	100%
Level 2	Administrative Actions – Clean & Abatement (CAO)/Cease & Desist (CAO) Orders	0	0
Level 3	Administrative Actions w/ Penalty Collection	0	0
Level 4	Civil / Criminal Actions	0	0
<b>Total</b>		8	100%

**C.4.c.iii.(3) ► Types of Violations Noted by Business Category**

Fill out the following table or attach a summary of the following information.

<b>Business Category<sup>50</sup></b>	<b>Number of Actual Discharge Violations</b>	<b>Number of Potential/Other Discharge Violations</b>
Auto Repair	0	1
Supermarket	0	2
Department Store	0	2
Food Manufacturer	0	1
Paint Manufacturer	0	1
Metal Fabricator	0	1

**C.4.c.iii.(4) ► Non-Filers**

List below or attach a list of the facilities required to have coverage under the Industrial General Permit but have not filed for coverage:

There are no non-filers to report during this reporting period.

<sup>48</sup> Agencies to list specific enforcement actions as defined in their ERPs.

<sup>49</sup> Percentage calculated as number of each type of enforcement action divided by the total number of enforcement actions.

<sup>50</sup> List your Program's standard business categories.

<b>C.4.d.iii ► Staff Training Summary</b>				
<b>Training Name</b>	<b>Training Dates</b>	<b>Topics Covered</b>	<b>No. of Inspectors in Attendance</b>	<b>Percent of Inspectors in Attendance</b>
Ethanol Safety Seminar, Emergency Response Coalition/Transcaer/DoT	7/10/2013	Transportation, storage, dispensing, fire fighting, health and safety, tank farm/bulk storage issues for ethanol and ethanol-blend fuels.	1	25%
Regional Monitoring Program, San Francisco Estuary Institute	10/30/2013	State of the San Francisco Estuary, monitoring program update, pollutant trends, contaminants of emerging concern, nutrients.	1	25%
ACCWP Stormwater Business Inspectors Workshop: Enforcement Tools	11/14/2013	Using the Enforcement Response Plan, Enforcement Case Scenarios, BMPs for Businesses, Controlling Pre-production Plastics	4	100%
Interpreting Lab Results	2/4/2014	Environmental sampling affects on lab results and interpreting contract lab results.	1	25%
Hazardous Waste Operations & Emergency Response	2/24/14	Certification for spill / illicit discharge response; hazard recognition; personnel safety; containment and abatement	1	25%
Fee Studies & Accountability	2/5/2014	Case studies in fee accountability and fee structure and public oversight of agency fees	1	25%
Inspection, Violation, And Enforcement Activities In CERS	2/6/2014	Integrating compliance, monitoring and enforcement data gathering into local database and implementing electronic data transfer to CERS. Utilization of field based electronic data gathering tools for data logging.	1	25%
Ammonium Nitrate Hazards / Safety Seminar	2/4/2014	Evaluating the West Texas explosion, hazards and safety analysis. Present findings and recommendations of the Chemical Safety and Hazard Investigation Board.	1	25%
Hazardous Waste Operations & Emergency Response	3/19/14	Certification for spill / illicit discharge response; hazard recognition; personnel safety; containment and abatement	1	25%
Hazardous Waste Operations & Emergency Response	4/4/2014	Certification for spill / illicit discharge response; hazard recognition; personnel safety; containment and abatement	1	25%

Hazardous Materials Spill & Release Reporting	4/16/14	California and Federal hazardous materials / substance spill and release reporting requirements	2	50%
Emergency Response & Clandestine Drug Labs	6/11/14	Emergency response and investigation of drug labs or abandoned waste. Chemistry and chemicals for manufacturing methods encountered.	2	50%

**Section 5 – Provision C.5 Illicit Discharge Detection and Elimination**

**Program Highlights**

Provide background information, highlights, trends, etc.

The Environmental Services Section continues active participation in the countywide program's IIDC subcommittee in development of BMPs, outreach and education materials and inspector training. Reviewing the illicit discharge data collected for the past thirteen years, the forty-eight complaints logged this year is in mid-range of 30 to 61 complaints annually. The overall trend still appears to be going down but more importantly the severity of actual discharges appears decreased. Close to 90% of the complaints are isolated to surface areas and are mitigated. The collection system screening program is still active with 183 points surveyed this reporting period for illicit discharges. Collection systems staff continues to participate in the BACWA collection systems committee, ACCWP maintenance sub-committee and BASMAA Municipal Operations committee and is working on the City's Full Trash Capture project. Refer to the C.5 Illicit Discharge Detection and Elimination section of the countywide program's FY 13-14 Annual Report for description of activities at the countywide and regional levels. Formal enforcement was taken for three incidents and \$2,539 in administrative penalties levied on the responsible parties.

**C.5.c.iii ► Complaint and Spill Response Phone Number and Spill Contact List**

List below or attach your complaint and spill response phone number and spill contact list.

Contact	Description	Phone Number
See attachment C.5.c.iii contact lists		

**C.5.d.iii ► Evaluation of Mobile Business Program**

Describe implementation of minimum standards and BMPs for mobile businesses and your enforcement strategy. This may include participation in the BASMAA Mobile Surface Cleaners regional program or local activities.

Description:

Mobile businesses operating from a fixed site within the City jurisdiction are reviewed and conditioned to have appropriate procedures, equipment and approvals for stormwater BMP implementation and waste storage/disposal. The review process is part of the planning/zoning approvals, business license and tenant improvement permits processes. Businesses or residents requiring mobile cleaning services are educated about the BASMAA mobile cleaners program and advised to only hire from the current list. In recent years the list of Alameda based certified mobile cleaners has reduced and cleaners from the valley predominates east bay available companies. Surface cleaners identified working for local businesses who are not BASMAA Certified are referred to the Certification Website and recommended to become certified.

Mobile businesses originating outside the City jurisdiction but found operating in town creating an illegal discharge are held responsible along with the Company/Person contracting their services. Ultimately the customer is responsible for all required mitigation actions and associated costs. In addition, referral of the mobile business, along with all investigation findings, photos and samples, is provided to the Environmental Crimes Investigator of the County District Attorney for investigation, surveillance and enforcement.

City staff utilizes BASMAA certified mobile businesses whenever possible for city contract operations and maintenance activities. The use of BASMAA certified mobile surface cleaners is also written into project specifications, contracts, and agreements. See Section C.5 Illicit Discharge Detection and Elimination of the Countywide Program's FY 12/13 Annual Report for a summary of Program activities. Refer to BASMAA FY 2012/13 report on mobile surface cleaners program for description of regional efforts for mobile sources BMP development, outreach, education and certification activities.

**C.5.e.iii ► Evaluation of Collection System Screening Program**

Provide a summary or attach a summary of your collection screening program, a summary of problems found during collection system screening and any changes to the screening program this FY.

**Description:**

The screening point programs purpose is to survey the collection system for signs of illicit discharge during the dry season and during any maintenance activities performed within the system. To achieve this goal, the screening program has three components. 1) The high priority screening point survey; 2) the remainder of the collection system survey and 3) Inlet maintenance inspection/cleaning program.

Screening points can be summarized as all manholes and direct outfalls in the City of San Leandro stormwater collection system, branch connections where the City system connects to a County system, and major branch points on the County system for land areas not served by a City collection system totaling 510 screening points. High Priority (HP) screening points, 92 in total and covering the whole city, are inspected on an annual basis. These HP screening points are comprised of direct outfalls, City system connections to a County system, and major branch points on the County system. General screening points, 418 access points, are surveyed at least once during each five-year cycle by concentrated effort in each of the five sectors the city has been subdivided into. In addition, 2,240 storm water inlets are cleaned and/or inspected annually across all five sectors, with any illicit discharge evidence reported for further investigation. Since the summer of 2011 there have been 294 trash capture screens installed in SWIs in the City that are cleaned annually and also serve as screening points during maintenance activities. Another 32 trash capture screens are pending installation and will also be added to the annual cleaning & screening inspection list. Identified potential illicit discharges from either screening point surveys or maintenance activities are logged into the electronic complaint/spill tracking and case follow up system required by MRP Provision C.5.f.

Screening point surveys in 2013 did not find any potential illicit discharges. While screening point surveys account for a small percentage of spill and discharge complaints logged; it is a valuable tool and serves to document the effectiveness of the illicit discharge control program.

Both the MRP and the USEPA/Center for Watershed Protection publication referenced recommend at least one screening point per square mile of land area excluding open space. Being a small City with a developed land area of 12 square miles the current HP screening points exceed the minimum standard by a factor of 8. Due to the patchwork nature of the collection system and connections/outfalls reducing the screening points would not adequately survey the system. In addition, when trying to identify intermittent or infrequent evidence of illicit discharges, the closer to the source the stronger the evidence should be. Therefore, no changes to the number or layout of the survey screening points are planned. The current HP screening points per the recommendation of USEPA already encompass key major outfalls and drainage areas served by the industrial areas.

**C.5.f.iii.(1), (2), (3) ► Spill and Discharge Complaint Tracking**

Spill and Discharge Complaint Tracking (fill out the following table or include an attachment of the following information)

	Number	Percentage
Discharges reported (C.5.f.iii.(1))	29	
Discharges reaching storm drains and/or receiving waters (C.5.f.iii.(2))	2	7%
Discharges resolved in a timely manner (C.5.f.iii.(3))	29	100%

Comments:  
 The Environmental Services section's illicit discharge tracking is a sub-component of the complaint/spill response program encompassing the six CUPA, pretreatment and stormwater programs. Complaint response and investigation is placed on high priority with illicit discharge investigation placed in the same category as an emergency response when information indicates an active on-going incident. When complaint or subsequent investigation information indicates an actual or potential stormwater impact component then the complaint is logged in the database as storm water related. The data maintained via the electronic database allows differentiation of complaints substantiated and unsubstantiated. Unsubstantiated records are maintained as an initial record should future information determine the initial complaint was accurate.

The total number of complaints received in this reporting period was 48; with 29 of the complaints being spills, illicit discharges or found to have a potential for creating stormwater pollution. Data is maintained for discharges that reach storm drains/receiving waters and whether the discharge was abated before or caused a water quality threat. Discharges that cause a water quality threat would be reported as any other spill or release to appropriate State/Federal response and oversight agencies. Of the total reported, two discharges were un-abatable. A water main break, that cross connected with a below ground storm drain line, flowed into the dry San Leandro Creek bed and percolated into the ground. An industrial facility drained an aluminum casting quench tank into a wet weather detention pond. The discharge was profiled and discussed with Waterboard Staff who determined no further action was warranted for the discharge. Enforcement was taken against the facility at the local level. None of the remaining complaints in this reporting period were determined by first responders to pose a threat to water quality. Three other discharges that reached storm drains (private or public below grade structures) were cleaned and abated before they could reach outfalls to the environment. They were from a molasses spill during silo dismantling and improper spill clean-up; residential concrete installation and a non-PCB utility company transformer failure. A fourth incident from a broken irrigation main was un-recoverable but the majority of the waster evaporated on the surface.

**C.5.f.iii.(4) ► Summary of major types of discharges and complaints**

Provide a narrative or attach a table and/or graph.

*List the number of times the following materials were identified.*

<u>2</u>	Paint	<u>1</u>	Concrete Cutting Slurry/Washwaters
<u>1</u>	Concrete	<u>0</u>	Vehicle Cleaning Washwaters
<u>0</u>	Construction Debris	<u>0</u>	Building/Sidewalk Washwaters
<u>0</u>	Sediment, mud	<u>2</u>	Other Washwaters
<u>1</u>	Food Wastes	<u>3</u>	Sewage
<u>0</u>	Yard Wastes	<u>8</u>	Automotive Fluids (antifreeze, used motor oil, fuels, etc.)
<u>3</u>	Industrial Wastes (solvents, metals, corrosives, cooling tower blowdown, etc.)	<u>8</u>	Other (describe): Clear condensate, 2 - water main breaks, 2 - haz waste dumping, PCB solid lubricant, Irrigation line break, molasses spill washwater.

Section 6 – Provision C.6 Construction Site Controls

<b>C.6.e.iii.1.a, b, c ▶ Site/Inspection Totals</b>		
<b>Number of High Priority Sites (sites disturbing &lt; 1 acre of soil requiring storm water runoff quality inspection) (C.6.e.iii.1.a)</b>	<b>Number of sites disturbing ≥ 1 acre of soil (C.6.e.iii.1.b)</b>	<b>Total number of storm water runoff quality inspections conducted (include only High Priority Site and sites disturbing 1 acre or more) (C.6.e.iii.1.c)</b>
0	2	10
Comments:		

<b>C.6.e.iii.1.d ▶ Construction Activities Storm Water Violations</b>		
<b>BMP Category</b>	<b>Number of Violations<sup>51</sup> excluding Verbal Warnings</b>	<b>% of Total Violations<sup>52</sup></b>
Erosion Control	0	0
Run-on and Run-off Control	0	0
Sediment Control	0	0
Active Treatment Systems	0	0
Good Site Management	0	0
Non Stormwater Management	0	0
<b>Total<sup>53</sup></b>	<b>0</b>	<b>100%</b>

<sup>51</sup> Count one violation in a category for each site and inspection regardless of how many violations/problems occurred in the BMP category. For example, if during one inspection at a site, there are 2 erosion control violations, only 1 violation would be counted for this table.

<sup>52</sup> Percentage calculated as number of violations in each category divided by total number of violations in all six categories.

<sup>53</sup> The total number of violations may count more than one violation per inspection, since some inspections may result in violations in more than one category. For example, during one inspection of a site, there may have been both an erosion control violation and a sediment control violation. For this reason, the total number of violations in this table may not match the total number of enforcement actions reported in Table C6.e.iii.1.e.

**C.6.e.iii.1.e ► Construction Related Storm Water Enforcement Actions**

	<b>Enforcement Action</b> (as listed in ERP) <sup>54</sup>	<b>Number Enforcement Actions Issued</b>	<b>% Enforcement Actions Issued<sup>55</sup></b>
Level 1 <sup>56</sup>	Verbal Warning	0	0
Level 2	Written Warning / Notice of Violation	0	0
Level 3	Notice to Comply / Stop Work Order	0	0
Level 4	Notice to Comply with Monetary Penalty	0	0
<b>Total</b>	Legal Action	<b>0</b>	<b>100%</b>

**C.6.e.iii.1.f, g ► Illicit Discharges**

	<b>Number</b>
Number of illicit discharges, actual and those inferred through evidence at high priority sites and sites that disturb 1 acre or more of land (C.6.e.iii.1.f)	0
Number of sites with discharges, actual and those inferred through evidence at high priority sites and sites that disturb 1 acre or more of land (C.6.e.iii.1.g)	0

<sup>54</sup> Agencies should list the specific enforcement actions as defined in their ERPs.

<sup>55</sup> Percentage calculated as number of each type of enforcement action divided by the total number of enforcement actions.

<sup>56</sup> For example, Enforcement Level 1 may be Verbal Warning.

<b>C.6.e.iii.1.h, i ► Violation Correction Times</b>		
	<b>Number</b>	<b>Percent</b>
<b>Violations (excluding verbal warnings) fully corrected within 10 business days after violations are discovered or otherwise considered corrected in a timely period (C.6.e.iii.1.h)</b>	0	0%
<b>Violations (excluding verbal warnings) not fully corrected within 30 days after violations are discovered (C.6.e.iii.1.i)</b>	0	0%
<b>Total number of violations (excluding verbal warnings) for the reporting year<sup>57</sup></b>	0	100%
<b>Comments:</b>		

<b>C.6.e.iii.(2) ► Evaluation of Inspection Data</b>
Describe your evaluation of the tracking data and data summaries and provide information on the evaluation results (e.g., data trends, typical BMP performance issues, comparisons to previous years, etc.).
Description: There is more awareness on the part of the contractors to clean water program requirements as they relate to construction sites. The contractors show more diligence to complying with the program requirements and associated BMPs.

<b>C.6.e.iii.(2) ► Evaluation of Inspection Program Effectiveness</b>
Describe what appear to be your program's strengths and weaknesses, and identify needed improvements, including education and outreach.
Description: Our inspectors have been sent to every available training related to clean water compliance, which has helped in strengthening their skills related to compliance inspection. Both City inspectors and other City staff, who perform clean water-related tasks have participated in all countywide training, including regular attendance of the bimonthly New Development Subcommittee meetings and workshops.

<b>C.6.f ► Staff Training Summary</b>				
<b>Training Name</b>	<b>Training Dates</b>	<b>Topics Covered</b>	<b>No. of Inspectors in Attendance</b>	<b>Percent of Inspectors in Attendance</b>
Training is required to be conducted every other year. ACCWP C.6 Training	TBD	TBD	3	75%

<sup>57</sup> The total number of violations reported in the table of Violation Correction Times equals the number of initial enforcement actions. I.e., This assumes one violation is issued for several problems during an inspection at a site. The total number of violations in the table of Violation Correction Times may not equal the total number of enforcement actions because one violation issued at a site may have a second enforcement action for the same violation at the next inspection if it is not corrected.

Workshop conducted in June 2013. Additional ACCWP C.6 Training planned for FY 14-15.				

**Section 7 – Provision C.7. Public Information and Outreach**

**C.7.b.ii.1 ▶ Advertising Campaign**

Summarize advertising efforts. Include details such as messages, creative developed, and outreach media used. The detailed advertising report may be included as an attachment. If advertising is being done by participation in a countywide or regional program, refer to the separate countywide or regional Annual Report.

**Summary: See Section C.7 – Public Information and Outreach – of the ACCWP FY 13-14 Annual Report and the BASMAA FY 2013-2014 Regional Supplement for Training and Outreach for a summary of related Program and BASMAA activities.**

**C.7.b.iii.1 ▶ Pre-Campaign Survey**

*(For the Annual Report following the pre-campaign survey)* Summarize survey information such as sample size, type of survey (telephone survey, interviews etc.). Attach a survey report that includes the following information. If survey was done regionally, refer to a regional submittal that contains the following information:

**Information on the pre-campaign surveys was included in previous annual reports.**

Place an **X** in the appropriate box below: N/A

<input type="checkbox"/>	Survey report attached
<input type="checkbox"/>	Reference to regional submittal:

**C.7.b.iii.2 ▶ Post-Campaign Survey**

*(For the Annual Report following the post-campaign survey)* Discuss the campaigns and the measureable changes in awareness and behavior achieved. Provide an update of outreach strategies based on the survey results. If survey was done regionally, refer to a regional submittal that contains the following information:

Information on the post-campaign survey for the BASMAA Regional Youth Litter Campaign was provided in the BASMAA FY 13-14 Annual Report.

Place an **X** in the appropriate box below:

<input type="checkbox"/>	Survey report attached
<input checked="" type="checkbox"/>	Reference to regional submittal: <b>Regional Youth Litter Campaign report in the BASMAA FY 2013-2014 Regional Supplement for Training and Outreach</b>

**C.7.c ► Media Relations**

Summarize the media relations effort. Include the following details for each media pitch in the space below, AND/OR refer to a regional report that includes these details:

- Topic and content of pitch
- Medium (TV, radio, print, online)
- Date of publication/broadcast

Summary:

**The separate report developed by BASMAA summarizes media relations efforts conducted during FY 13-14: BASMAA FY 2013-2014 Regional Supplement for Training and Outreach**

**Other media relations efforts conducted countywide are included within the C.7 Public Information and Outreach section of the ACCWP FY 13-14 Annual Report.**

**C.7.d ► Stormwater Point of Contact**

Summary of any changes made during FY 13-14:

**No Change.**

**C.7.e ► Public Outreach Events**

Describe general approach to event selection. Provide a list of outreach materials and giveaways distributed.

Use the following table for reporting and evaluating public outreach events

Event Details	Description (messages, audience)	Evaluation of Effectiveness
Provide event name, date, and location. Indicate if event is local, countywide or regional.	Identify type of event (e.g., school fair, farmers market etc.), type of audience (school children, gardeners, homeowners etc.) and outreach messages (e.g., Enviroscene presentation, pesticides, stormwater awareness)	Provide general staff feedback on the event (e.g., success at reaching a broad spectrum of the community, well attended, good opportunity to talk to gardeners etc.). Provide other details such as: <ul style="list-style-type: none"> <li>• Estimated overall attendance at the event.</li> <li>• Number of people that visited the booth, comparison with previous years</li> <li>• Number of brochures and giveaways distributed</li> <li>• Results of any spot surveys conducted</li> </ul>

**FY 2013-2014 Annual Report**

**Permittee Name: City of San Leandro**

**C.7 – Public Information and Outreach**

<p>Stormwater Exhibit at the Alameda County Fair: July 1 through July 7, 2013 and June 18 through June 30, 2014. Setting up the exhibit and producing the outreach materials are Countywide Program efforts. Staffing the exhibit is an effort conducted by individual Permittees.</p>	<p>The County Fair is attended by a wide range of residents from throughout the County. The primary message of the exhibit and outreach materials is to encourage residents to reduce their use of pesticides or when necessary use less-toxic pesticides. The exhibit also illustrates the basic watershed awareness/stormwater pollution message.</p>	<p>Several hundred thousand residents attend the fair each year. A more detailed description of the exhibit is included in Section C.7 Public Information and Outreach of the ACCWP FY 13/14 Annual Report.</p>
<p>America Recycles Day – November 20, 2013</p>	<p>The America Recycles Day event targets hard to recycle universal waste (mercury containing devices, household batteries, and lamps), and medicines. The event is also intended to educate the public on the potential impacts of these types of products on fresh water sources. Attendees were provided information on how to recycle these items on a regular basis and a variety of clean water outreach materials.</p>	<p>Approximately 200 residents dropped off medicines and universal waste and received clean water outreach. Staff collected 189 lbs. of medicines, 364 lbs. of fluorescent lights, 17 mercury-containing thermometers, 784 lbs. of batteries and 1,150 lbs. of discs and tapes.</p>
<p>Senior Resource Fair – September 13, 2013</p>	<p>The senior resource fair is an opportunity to provide direct outreach to seniors who are more likely to have mercury thermometers and medicines and not know how to properly manage them. Attendees are provided information on how to recycle these items on a regular basis and a variety of clean water outreach materials.</p>	<p>The event was attended by approximately 500 seniors with at least 100 attendees visiting our booth to drop off universal waste and medicines. Staff collected 30 lbs. of medicines, 2 mercury-containing thermometers, 27 lbs. of CFL's and Fluorescent lights, 116 lbs. of batteries and 35 lbs. of discs and tapes.</p>
<p>Compost Giveaway – April 25-26, 2014</p>	<p>The City hosted a free compost giveaway for residents to promote organics recycling and the use of compost to reduce pesticide, herbicide, and water use.</p>	<p>Approximately 3,236 bags of compost were distributed to 1,618 residents over a two-day period. In addition, staff distributed food scrap recycling, bay-friendly gardening, and clean water outreach to participants.</p>
<p>Downtown Farmer's Market – Information Booth 2nd Wednesday of the Month – Green Market Days</p>	<p>Staffed an information kiosk on Green Market Days (July, August, September, October 2013, and April, May and June 2014) to promote waste reduction (i.e. trash reduction); bay friendly gardening practices; proper management of batteries, fluorescent lights and other</p>	<p><b>Attended 7 events total.</b> Distributed outreach to approximately 100 attendees per event (similar to previous years). Attendees were interested in home composting, less toxic pest control methods, and bay friendly gardening. In addition, attendees were given the Bee-lieve It or Not quiz, Fact or Frog-Tale, and the True or</p>

	hazardous materials; and other clean water activities. Staff distributed outreach developed by the ACCWP to participants.	Rubbish Quizes.
--	---	-----------------

**C.7.f. ► Watershed Stewardship Collaborative Efforts**

Summarize watershed stewardship collaborative efforts and/or refer to a regional report that provides details. Describe the level of effort and support given (e.g., funding only, active participation etc.). State efforts undertaken and the results of these efforts. If this activity is done regionally refer to a regional report.

Evaluate effectiveness by describing the following:

- Efforts undertaken
- Major accomplishments

Summary: See Section C.7 (Public Outreach and Involvement) of the ACCWP FY 13-14 Annual Report for a summary of the *Bringing Back the Natives Garden* Tours that is sponsored by the Program.

**C.7.g. ► Citizen Involvement Events**

List the types of events conducted (e.g., creek clean up, storm drain inlet marking, native gardening etc.). Use the following table for reporting and evaluating citizen involvement events.

Event Details	Description	Evaluation of effectiveness
Provide event name, date, and location. Indicate if event is local, countywide or regional	Describe activity (e.g., creek clean-up, storm drain marking etc.)	Provide general staff feedback on the event. Provide other evaluation details such as: <ul style="list-style-type: none"> <li>• Number of participants. Any change in participation from previous years.</li> <li>• Distance of creek or water body cleaned</li> <li>• Quantity of trash/recyclables collected (weight or volume).</li> <li>• Number of inlets marked.</li> <li>• Data trends</li> </ul>
Community Stewardship Grants Program	The Countywide Program sponsors the Community Stewardship Grants (CSG) Program. The CSG Program provides approximately \$20,000 annually in \$1,000 to \$5,000 increments to individuals and community groups to support stormwater	See Section C.7 of the ACCWP FY13/14 Annual Report for a summary.

Permittee Name: City of San Leandro

	improvement/outreach projects throughout the County.	
Coastal Cleanup – San Leandro Recreational Shoreline, September 21, 2013	Volunteers cleaned the rip rap along the Marina Par Course, the Bay Trail, and the Long Beach area.	Over 125 volunteers participated mostly from community groups, and schools. Approximately 12 c.y. of garbage/recyclables and bulky items were collected.
Creek/Root Park Clean Up	Volunteers held several events picking up trash along the San Leandro Creek and in the Park	A total of 80 volunteers participated in the events, collecting over 24 c.y/ of garbage/recyclables and bulky items

**C.7.h. ► School-Age Children Outreach**

Summarize school-age children outreach programs implemented. A detailed report may be included as an attachment. Use the following table for reporting school-age children outreach efforts.

Program Details	Focus & Short Description	Number of Students/Teachers reached	Evaluation of Effectiveness
Provide the following information: Name Grade or level (elementary/ middle/ high)	Brief description, messages, methods of outreach used	Provide number or participants	Provide agency staff feedback. Report any other evaluation methods used (quiz, teacher feedback etc.). Attach evaluation summary if applicable.
See the Section C.7 of the ACCWP FY 13/14 Annual Report for a summary of the Program's School-Age Outreach Program			

**Section 8 - Provision C.8 Water Quality Monitoring**

**C.8 ► Water Quality Monitoring**

State below if information is reported in a separate regional report. Municipalities can also describe below any Water Quality Monitoring activities in which they participate directly, e.g. participation in RMP workgroups, fieldwork within their jurisdictions, etc.

Summary

During FY 13-14, we contributed through ACCWP to the BASMAA Regional Monitoring Coalition (RMC). In addition, we contributed financially to the Regional Monitoring Program for Water Quality in the San Francisco Estuary (RMP) and were represented at RMP committees and work groups. Monitoring efforts and results are documented in a separate report submitted March 15<sup>th</sup> of each year, as required in Provision C.8. For additional information on monitoring activities conducted by the Program, BASMAA RMC and the RMP, see the C.8 Water Quality Monitoring section of the Program's FY 13-14 Annual Report and the Integrated Monitoring Report.

Section 9 – Provision C.9 Pesticides Toxicity Controls

**C.9.b ► Implement IPM Policy or Ordinance**

Report implementation of IPM BMPs by showing trends in quantities and types of pesticides used, and suggest reasons for increases in use of pesticides that threaten water quality, specifically organophosphates, pyrethroids, carbaryl, and fipronil. A separate report can be attached as evidence of your implementation.

**Note: The City of San Leandro hired a new pest control operator in year 2012-13. No chemicals were used in and around buildings July-January. New contractor employed different types of chemicals February – June.**

**Trends in Quantities and Types of Pesticides Used<sup>58</sup>**

Pesticide Category and Specific Pesticide Used	Amount <sup>59</sup>				
	FY 09-10	FY 10-11	FY 11-12	FY 12-13	FY 13-14
<b>Organophosphates</b>					
Glyphosate (Ranger Pro/Round Up)	92.9 gal	62.24 gal	58.8 gal	55.34 gal	50.47 gal
<b>Pyrethroids</b>					
Demand CS ( <a href="#">Lambda-cyhalothrin</a> )	4.8 oz	4.2 ounces	4.3 ounces	4.3 ounces	0
Masterline Bifenthrin 7.9%	1.3 gal	1.18 gal	1.2 gal	1.2 gal	0
Suspend SC (Deltamethrin 4.75%)	0	0	0	0	.75 ounces
<b>Carbaryl</b>					
<b>Fipronil</b>					
Termidor SC (9.1%)	0	0	0	0	1.6 ounces

<sup>58</sup> Includes all municipal structural and landscape pesticide usage by employees and contractors.

<sup>59</sup> Weight or volume of the product or preferably its active ingredient, using same units for the product each year. The active ingredients in any pesticide are listed on the label. The list of active ingredients that need to be reported in the pyrethroids class includes: allethrin, bifenthrin, beta-cyfluthrin, bioallethrin, cyfluthrin, cypermethrin, cyphenothrin, deltamethrin, esfenvalerate, etofenprox, fenpropathrin, gamma-cyhalothrin, imiprothrin, lambda-cyhalothrin, metofluthrin, permethrin, phenothrin, prallethrin, resmethrin, sumithrin (d-phenothrin), tau-fluvalinate, tefluthrin, tetramethrin, tralomethrin, cis-permethrin, and zeta-cypermethrin.

**C.9.c ▶ Train Municipal Employees**

Enter the number of employees that applied or used pesticides (including herbicides) within the scope of their duties this reporting year.	11
Enter the number of these employees who received training on your IPM policy and IPM standard operating procedures within the last 3 years.	11
Enter the percentage of municipal employees who apply pesticides who have received training in the IPM policy and IPM standard operating procedures within the last three years.	100

**C.9.d ▶ Require Contractors to Implement IPM**

Did your municipality contract with any pesticide service provider in the reporting year?		<input checked="" type="checkbox"/>	Yes	<input type="checkbox"/>	No
If yes, attach one of the following:					
<input checked="" type="checkbox"/>	Contract specifications that require adherence to your IPM policy and standard operating procedures, OR				
<input type="checkbox"/>	Copy(ies) of the contractors' IPM certification(s) or equivalent, OR				
<input type="checkbox"/>	Equivalent documentation.				
If <b>Not attached</b> , explain:					

**C.9.e ▶ Track and Participate in Relevant Regulatory Processes**

Summarize participation efforts, information submitted, and how regulatory actions were affected <b>OR</b> reference a regional report that summarizes regional participation efforts, information submitted, and how regulatory actions were affected.
Summary:  During FY 13-14, we participated in regulatory processes related to pesticides through contributions to the countywide Program, BASMAA and CASQA. See the CASQA Pesticides Subcommittee Annual Report 2013-14: Preventing Urban Pesticide Pollution in Stormwater for a summary of CASQA activities.

C.9.f ▶ Interface with County Agricultural Commissioners				
Did your municipal staff observe any improper pesticide usage or evidence of improper usage (e.g., pesticides in storm drain systems, along street curbs, or in receiving waters) during this fiscal year?	<input type="checkbox"/>	<b>Yes</b>	<input checked="" type="checkbox"/>	<b>No</b>
If yes, provide a summary of improper pesticide usage reported to the County Agricultural Commissioner and follow-up actions taken to correct any violations. A separate report can be attached as your summary.				

C.9.h.ii ▶ Public Outreach: Point of Purchase
Provide a summary of public outreach at point of purchase, and any measurable awareness and behavior changes resulting from outreach (here or in a separate report); <b>OR</b> reference a report of a regional effort for public outreach in which your agency participates.
Summary: See the C.9 Pesticides Toxicity Control section of the ACCWP FY 13-14 Annual Report and the BASMAA FY 2013-2014 Regional Supplement for Training and Outreach for information on point of purchase public outreach conducted countywide and regionally.

C.9.h.vi ▶ Public Outreach: Pest Control Operators
Provide a summary of public outreach to pest control operators and landscapers and reduced pesticide use (here or in a separate report); <b>OR</b> reference a report of a regional effort for outreach to pest control operators and landscapers in which your agency participates.
Summary: See the C.9 Pesticides Toxicity Control section of Program's FY 13-14 Annual Report for a summary of outreach to pest control operators and landscapers to reduce pesticide use.

**Section 10 - Provision C.10 Trash Load Reduction**

**C.10.a.iii ► Minimum Full Trash Capture**

Provide the following:

- 1) Descriptions of actions/tasks completed towards achieving the Minimum Full Trash Capture requirement in provision C.10.a.iii. Include the:
  - Total number and types of full capture devices (publicly and privately-owned) installed to-date;
  - Total land area (acres) and land areas within each trash generation category (i.e., very high, high, moderate and low) treated by full capture devices (or other types of devices for non-population based Permittees), in comparison to the MRP-required full capture requirements in Attachment J to the MRP; and,
  - Percentage of jurisdictional land areas with very high, high, moderate and low trash generation rates treated by full capture devices.
- 2) A narrative summary of maintenance activities implemented for each device, group of devices, or device type, including descriptions of typical maintenance frequencies and issues associated with maintaining these devices.

**Descriptions of Actions/Tasks (Conducted or Planned):**

The City of San Leandro received a grant from the Bay-area Wide Trash Capture Demonstration Project for \$109,588. This grant allowed San Leandro to install 250 trash capture devices. San Leandro also participated with EOA and had another 4 trash capture devices installed for a total of 254 units. These units were concentrated in commercial retail areas where higher concentrations of trash are generated. The devices have fixed screens with 5 mm openings, and were provided and installed by West Coast Storm. These devices meet the Municipal Regional Stormwater permit requirements for full trash capture. The City has also received another \$13,253 in re-allocated funds that allowed for the purchase of another 30 trash capture devices that were purchased in November 2012. These units are intended to all be installed prior to 2017. The City has continued to install full capture devices and currently has 273 installed. The total estimated land area treated in advance of the 2014 requirements is 1,000 acres. The MRP attachment J required minimum is 216.

Total Number of Devices Installed	Connector Pipe Screens or Filters	Netting Devices	HDS Units	Gross Solid Removal Devices	LID Facilities	Other	TOTAL
	273	0	0	0	0	0	273

Full Capture Treatment Area	Low	Moderate	High	Very High	TOTAL	Minimum Treatment Area Required (Attachment J)

Acres (All TMAs)	323	472	198	4	997	216
% (All TMAs)	11%	12%	25%	6%	12.9%	

**Descriptions of Maintenance Activities:**

City of San Leandro staff annually vacuum and clean each full trash capture device, and log collected quantities on Excel spreadsheets that are totalized at the end of each year.

**C.10.b.iii ► Trash Hot Spot Assessment**

Provide the volume of material removed during each MRP-required Trash Hot Spot cleanup during each fiscal year, and the dominant types of trash (e.g., glass, plastics, paper) removed and their sources in FY 2013-14 to the extent possible.

Trash Hot Spot	FY 13-14 Cleanup Date	Volume of Trash Removed (cubic yards)				Dominant Type(s) of Trash in FY 2013-14	Trash Sources in FY 2013-14 (where possible)
		FY 2010-11	FY 2011-12	FY 2012-13	FY 2013-14		
Shoreline Trail – 1 mile stretch south from San Leandro Marina. <b>CSL SFB 2</b>	9/21/13	6	1.5	4.5	5.25	plastic products, plastic bottles, convenience food packaging (wrappers), glass, old clothing, wood and tires.	Litter from users, windblown, and tide driven from across the bay. Bulky items are illegally dumped.
Par Course at San Leandro Marina.	9/21/13	4	4.5	4.25	2.5	plastic products, plastic bottles, convenience food packaging	Litter from users, windblown, and tide driven from

<b>CSL SFB 1</b>						(wrappers), glass, old clothing, some wood, and minimal larger debris.	across the bay. Bulky items are illegally dumped.
Long Beach at south-end of San Leandro Recreational Shoreline. <b>CSL SFB 3 &amp; 4</b>	9/21/13	5	11	3	4.25	plastic products, plastic bottles, convenience food packaging (wrappers), glass, old clothing, some wood, and minimal larger debris.	Litter from users, windblown, and tide driven from across the bay. Bulky items are illegally dumped.

**C.10.c ► Long-Term Trash Load Reduction Plan**

Provide descriptions of significant revisions made to your Long-term Trash Load Reduction Plan submitted to the Water Board in February 2014. Describe significant changes made to primary or secondary trash management areas (TMA), trash generation maps, control measures, or time schedules identified in your plan.  
**No Significant Changes**

Description of Significant Revision	Associated TMA
The City of San Leandro has no revisions to their long-term trash reduction plan at this time.	

<b>C.10.d ► PART A - Trash Control Measure Implementation and Assessment (Jurisdictional-wide Actions)</b>				
Provide a description of each jurisdictional-wide trash control measure implemented to-date. Identify the dominant trash source(s) and dominant type(s) of trash addressed by each control measure. For each jurisdictional-wide measure, identify the trash assessment method(s) used to demonstrate on-going reductions, summarize the results of the assessment(s), and estimate the associated reduction of trash within your jurisdictional area.				
<b>Control Measure</b>	<b>Summary Description of Control Measure &amp; Dominant Trash Sources and Types</b>	<b>Assessment Method(s)</b>	<b>Summary of Assessment Results To-date</b>	<b>Estimated % Trash Reduced</b>
Single-use Plastic Bag Ordinance or Policy	The Alameda County Waste Management Authority adopted the Single-Use Bag Ban. As of January 1, 2013, all grocery stores, supermarkets, mini-marts, convenience stores, liquor stores, pharmacies, drug stores or other entities that sell milk, bread, soda and snack foods (all four items) and/or alcohol (Type 20 or 21 license) in Alameda County must comply with the Single-Use Bag Ban Ordinance. Affected stores may no longer provide customers with single-use bags at check-out. A copy of the Ordinance is available on the Alameda County Waste Management Authority's website: <a href="http://reusablebagsac.org/ordinancetext.html">http://reusablebagsac.org/ordinancetext.html</a>	See Section C.10 of the ACCWP FY 13-14 Annual Report.	See Section C.10 of the ACCWP FY 13-14 Annual Report.	8%
Expanded Polystyrene Food Service Ware Ordinance or Policy	The City of San Leandro adopted a Polystyrene Foam Food Service Ware Ordinance in October 2011. The Polystyrene Foam Food Service Ware Ordinance became effective on November 1, 2012. Food establishments using polystyrene foam food service ware were issued warning notices after November 1, 2012 for noncompliance. The City identified approximately 10% of the businesses out of compliance. Non-compliance issues have been resolved with all of those businesses.	See Section C.10 of the ACCWP FY 13-14 Annual Report.	See Section C.10 of the ACCWP FY 13-14 Annual Report	6%
Public Education and Outreach Programs Targeted at Trash Reduction and Implemented post-MRP Adoption	See the C.10 Jurisdiction-wide Trash Load Reduction section of the Countywide Program's FY 13/14 Annual Report for a summary of related outreach activities.	See Section C.10 of the ACCWP FY 13-14 Annual Report.	See Section C.10 of the ACCWP FY 13-14 Annual Report	1%

**C.10.d ► PART B - Trash Control Measure Implementation and Assessment (TMA Specific Actions)**

**Complete the following trash control measure implementation and assessment summary for each primary trash management area (TMA) identified in your Long-term Plan. Include the following information:**

- Identify the total jurisdictional area and the % of that area that generates very high (VH), high (H), moderate (M), or low (L) levels of trash;
- Identify the dominant trash source(s) and dominant type(s) of trash addressed or to-be addressed in the TMA;
- Include the area currently treated by full capture devices, the quantity and type of devices installed to-date, and the % of jurisdictional area that generates very high (VH), high (H), moderate (M), and low (L) levels of trash after accounting for reductions via full capture devices;
- Summarize control measures other than full capture devices implemented to-date, distinguishing between implementation that began pre- and post-MRP effective date. If not implemented in the entire TMA, describe generation category targeted and % of TMA addressed;
- Provide the % of the jurisdictional area that generates very VH, H, M or L levels of trash after accounting for all control measures implemented to-date;
- Describe the methods used to evaluate the effectiveness of control measures other than full capture devices, and any assessment results to-date. If the method was not implemented in the entire TMA, describe generation category targeted and % of TMA addressed; and
- Provide an estimate of the % of trash reduced in the TMA and jurisdiction-wide.

C.10.d ► PART B - Trash Control Measure Implementation and Assessment (TMA Specific Actions)								
TMA ID	TMA Area (Acres)	Dominant Sources	Dominant Types		% TMA in Each Trash Generation Category			
					VH	H	M	L
1	952	Vehicles, pedestrian litter, commercial establishments	Convenience wrappers/food containers, cigarettes, recyclables, household items	Baseline Generation (Pre-MRP)	0	19	47	34
Trash Full Capture Devices		Summary Descriptions of Full Trash Capture Devices (Quantity and Type)		After taking into account Full Capture Devices				
Total Area (Acres)	952	254 connector pipe screens						100
% of TMA	100

Assessment Methods for Control Measures Other than Full Capture Devices								100
Summary of Assessment Results To-date								
Estimated % Trash Reduction in TMA due to New or Enhanced Post-MRP actions					100			
Estimated % Trash Reduction Jurisdiction-wide due to New or Enhanced Post-MRP actions					15			

TMA ID	TMA Area (Acres)	Dominant Sources	Dominant Types		% TMA in Each Trash Generation Category				
					VH	H	M	L	
2	675	Retail food establishments, convenience stores, multi-housing units	Convenience wrappers/food containers, cigarettes, recyclables, household items	Baseline Generation (Pre-MRP)	6	44	44	5	
<b>Trash Full Capture Devices</b>		<b>Summary Descriptions of Full Trash Capture Devices (Quantity and Type)</b>		<b>After taking into account Full Capture Devices</b>	6	43	43	8	
Total Area (Acres)	17	6 connector pipe screens							
% of TMA	3								
% of VH/H/M	3								
<b>Summary Descriptions of Control Measures Implemented Since MRP Adoption, Other than Full Capture Devices</b>					<b>After taking into account all New or Enhanced (post-MRP) Control Measures</b>	4	32	32	32
<p>City of San Leandro has actively sought partners in cleaning trash from various areas in the City. There have been four events along the creek/Root Park in this TMA, This has netted 4,000 gallons of trash removed from this TMA or 26% of the total generated in this area</p> <p>City staff conducts weekly garbage hauler route audits and reports full litter cans and litter spills.</p>									
<b>Assessment Methods for Control Measures Other than Full Capture Devices</b>									
Visual assessments of physical trash volume									
<b>Summary of Assessment Results To-date</b>									
					<b>Estimated % Trash Reduction in TMA due to New or Enhanced Post-MRP actions</b>				29
					<b>Estimated % Trash Reduction Jurisdiction-wide due to New or Enhanced Post-MRP actions</b>				1

TMA ID	TMA Area (Acres)	Dominant Sources	Dominant Types		% TMA in Each Trash Generation Category				
					VH	H	M	L	
3	1908	Some retail food establishments, Conveniences stores, and commercial shipping debris and illegal dumping	Food packaging, commercial packaging	Baseline Generation (Pre-MRP)	0	4	84	13	
<b>Trash Full Capture Devices</b>		<b>Summary Descriptions of Full Trash Capture Devices (Quantity and Type)</b>		<b>After taking into account Full Capture Devices</b>	0	4	84	13	
Total Area (Acres)	8	13 connector pipe screens							
% of TMA	0								
% of VH/H/M	1								
<b>Summary Descriptions of Control Measures Implemented Since MRP Adoption, Other than Full Capture Devices</b>					<b>After taking into account all New or Enhanced (post-MRP) Control Measures</b>	0	4	81	15
<p>City of San Leandro has actively sought partners in cleaning trash from various areas in the City. There have been three events along the shoreline in this TMA, This has netted 600 gallons of trash removed from this TMA or 4% of the total generated in this area</p> <p>The City also installed SyberTech in-ground garbage cans in the Shoreline area. The containers are buried into the ground, have an odor flange and a double-locking system to prevent vandalism. There is less residential waste going in; it cannot be disturbed by wind, vandals or animals. This reduces staff time in emptying and servicing the cans, and reduces the trash coming out of the can during heavy volume picnic days.</p>

**C.10.d ► PART C – Estimated Overall Trash Load Reduction**

For Population-based Permittees, provide an estimate of the overall trash reduction percentage achieved to-date within the jurisdictional area of your municipality that generates problematic trash levels (i.e., Very High, High or Moderate trash generation). Base the estimate on the information presented in C.10.d – Parts A and B and creek/shoreline cleanups not reported in C.10.b.iii. Provide a statement regarding the confidence in the estimate and challenges and/or successes in measuring progress towards the 40% trash reduction target described in provision C.10.

We had several all volunteer-led clean up events in San Leandro. Some were conducted quarterly, and others were one-time events. There were City personnel at the location after the event, and visual assessments of trash collected were performed for each event and results recorded. We intend to continue to encourage local organizations in the San Leandro area to conduct cleanups, and plan to get downtown businesses involved in a downtown area cleanup, especially since there has been such an effort to redevelop the downtown area and make it an inviting area for shoppers and pedestrians. The City can provide tools and supplies and monitor trash collected. In the future, there will also be photos taken before and after the cleanups.

**Discussion of Trash Reduction Estimate:**

The Jurisdictional-wide assessments are reported in C.10 of the ACCWP 13-14 Annual Report. The Trash Reduction due to Other Control Measures is a predicted value with an unknown level of confidence.

Estimated % Trash Reduction due to Jurisdictional-wide Actions	15
Estimated % Trash Reduction due to Trash Full Capture Devices (All TMAs)	16
Estimated % Trash Reduction due to Other Control Measures (All TMAs)	7
<b>SubTotal for Above Actions</b>	<b>38</b>
Estimated % Trash Reduction due to Creek/Shoreline Cleanups (All TMAs)	3
<b>Total Estimated % Trash Reduction in FY 13-14</b>	<b>41</b>

**Section 11 - Provision C.11 Mercury Controls**

**C.11.a.i ► Mercury Recycling Efforts**

List below or attach lists of efforts to promote, facilitate, and/or participate in collection and recycling of mercury containing devices and equipment at the consumer level (e.g., thermometers, thermostats, switches, bulbs).

See Section C.11 of the ACCWP FY 13-14 Annual Report for a summary of countywide recycling efforts.

The City of San Leandro encourages mercury recycling by promoting various recycling opportunities to consumers. The City regularly promotes the county Household Hazardous Waste Facilities as drop-off locations for mercury-containing devices such as thermostats and thermometers. HHW schedules are distributed to consumers at City facilities, at City events and are periodically sent to homeowners groups, individual homeowners and other interested parties. The county (i.e. StopWaste.org) is also promoting a CFL take back program in conjunction with PG&E. The “Bring ‘Em Back” campaign is also promoted at City facilities and City events. Consumers are encouraged to take their CFL’s back to Orchard Supply Hardware in San Leandro or a number of other locations throughout the county. In addition to promoting the countywide efforts, the City hosts several annual events to recover mercury containing thermometers, thermostats, and fluorescent lights.

**C.11.a.ii ► Mercury Collection**

Provide an estimate of the mass of mercury collected through these efforts, or provide a reference to a report containing this estimate.

Please refer to the ACCWP FY 13-14 Annual Report for an estimate of the mass of mercury collected through collection and recycling efforts in the Countywide Program area.

Mercury Containing Device/Equipment	Total Amount of Devices Collected	Estimated Mass of Mercury Collected
Fluorescent Lamps <sup>60</sup> (linear feet)	5,104	0.0105908
CFLs <sup>61</sup> (each)	1,232	0.005544
Thermostats <sup>62</sup> (each)		
Thermostats (lbs)	19	0.01159
Thermometers (each)		
Switches (lbs)		
<b>Total Mass of Mercury Collected During FY 2013-2014:</b>		<b>0.0277248</b>

<sup>60</sup> Only linear fluorescent lamps should be included

<sup>61</sup> Only compact fluorescent lamps should be included

<sup>62</sup> Thermostats can be reported by quantity or by pounds. Whichever unit is used, please avoid double-counting.

- C.11.b ▶ Monitor Methylmercury**
- C.11.c ▶ Pilot Projects to Investigate and Abate Mercury Sources in Drainages**
- C.11.d ▶ Pilot Projects to Evaluate and Enhance Municipal Sediment Removal and Management Practices**
- C.11.e ▶ Conduct Pilot Projects to Evaluate On-Site Stormwater Treatment via Retrofit**
- C.11.f ▶ Diversion of Dry Weather and First Flush Flows to POTWs**
- C.11.g ▶ Monitor Stormwater Mercury Pollutant Loads and Loads Reduced**
- C.11.h ▶ Fate and Transport Study of Mercury In Urban Runoff**
- C.11.i ▶ Development of a Risk Reduction Program Implemented Throughout the Region**
- C.11.j ▶ Develop Allocation Sharing Scheme with Caltrans**

State below if information is reported in a separate regional report. Municipalities that participate directly in regional activities to can provide descriptions below.

Summary

A summary of ACCWP and regional accomplishments for these sub-provisions are included within the C.11 Mercury Controls section of Program's FY 13-14 Annual Report, and the March 2014 Integrated Monitoring Report.

**Section 12 - Provision C.12 PCBs Controls**

**C.12.a.ii,iii ▶ Ongoing Training**

*(For FY 10-11 Annual Report and Each Annual Report Thereafter)* List below or attach description of ongoing training development and inspections for PCB identification, including documentation and referral to appropriate regulatory agencies (e.g. county health departments, Department of Toxic Substances Control, California Department of Public Health, and the Water Board) as necessary.

Description:

See the FY 13-14 ACCWP Annual Report for a description of PCB related training.

**C.12.b ▶ Conduct Pilot Projects to Evaluate Managing PCB-Containing Materials and Wastes during Building Demolition and Renovation Activities**

**C.12.c ▶ Pilot Projects to Investigate and Abate On-land Locations with Elevated PCB Concentrations**

**C.12.d ▶ Conduct Pilot Projects to Evaluate and Enhance Municipal Sediment Removal and Management Practices**

**C.12.e ▶ Conduct Pilot Projects to Evaluate On-Site Stormwater Treatment via Retrofit**

**C.12.f ▶ Diversion of Dry Weather and First Flush Flows to POTWs**

**C.12.g ▶ Monitor Stormwater PCB Pollutant Loads and Loads Reduced**

**C.12.h ▶ Fate and Transport Study of PCBs In Urban Runoff**

**C.12.i ▶ Development of a Risk Reduction Program Implemented Throughout the Region**

State below if information is reported in a separate regional report. Municipalities that participate directly in regional activities to can provide descriptions below.

Summary

A summary of countywide Program and regional accomplishments for these sub-provisions are included within the C.12 PCB Controls section of Program's FY 13-14 Annual Report, and the March 2014 Integrated Monitoring Report.

### Section 13 - Provision C.13 Copper Controls

#### C.13.a.iii.(2) ► Training, Permitting and Enforcement Activities

(FY 11-12 Annual Report and each Annual Report thereafter) Provide summaries of activities implemented to manage waste generated from cleaning and treating of copper architectural features, including copper roofs, during construction and post-construction including. :

- Development of BMPs on how to manage the water during and post construction
- Requiring the use of appropriate BMPs when issuing building permits
- Educating installers and operators on appropriate BMPs
- Enforcement actions taken again noncompliance

Although architectural copper is allowed, it is not commonly used or proposed for use in projects in San Leandro. Staff has been trained regarding the BMPs and is instructed to provide the booklet to permit applicants if they propose architectural copper in their projects. No enforcement actions have been necessary.

#### C.13.c ► Vehicle Brake Pads

Based upon inspection activities conducted under Provision C.4, highlight copper reduction results achieved among the facilities identified as potential users or sources of copper, facilities inspected, and BMPs addressed.

##### Summary

During FY 13-14, we participated in implementation of the California Brake Friction Material Law through contributions to the countywide Program, BASMAA and CASQA. For additional information, see the C.13 Copper Controls section of Program's FY 13-14 Annual Report.

#### C.13.d.iii ► Industrial Sources Copper Reduction Results

Based upon inspection activities conducted under Provision C.4, highlight copper reduction results achieved among the facilities identified as potential users or sources of copper, facilities inspected, and BMPs addressed.

##### Summary

The potential copper sources Identified from the C.4 facilities list include automotive repair facilities, transportation facilities with fleet maintenance, radiator repair facilities, auto dismantlers, metal finishers and scrap metal recyclers. There are currently no plating facilities, copper forming facilities or copper supply facilities with hot spots of outdoor storage in quantity. Of the current facility types all are identified for stormwater inspection and evaluation of implementation of appropriate BMPS. Three of the categories present are mandatory Industrial General Permit NOI and are required to implement full SWPP plans and conduct monitoring. Review of the Metal recycling facilities monitoring data during inspections shows copper not to be a POC to date. General automotive facilities have been provided with BMPs specific to their industry. All

brake work must be completed indoors. Metal turnings are required to be controlled, collected and recycled or it becomes a hazardous waste. Improper handling or disposal is punishable under CA hazardous waste codes. Current stormwater inspection criteria include review of potential copper contributing industries and processes and implementation of BMPs to reduce sources of pollutants of concern including copper.

**Section 14 - Provision C.14 PBDE, Legacy Pesticides and Selenium Controls**

Note: There are no reporting requirements in the FY 13-14 Annual Report for Section C.14.

**Section 15 - Provision C.15 Exempted and Conditionally Exempted Discharges**

**C.15.b.iii.(1), C.15.b.iii.(2) ► Planned and Unplanned Discharges of Potable Water**

Is your agency a water purveyor?	<input type="checkbox"/>	<b>Yes</b>	<input checked="" type="checkbox"/>	<b>No</b>
If <b>No</b> , skip to C.15.b.vi.(2):				
If <b>Yes</b> , Complete the attached reporting tables or attach your own table with the same information. Provide any clarifying comments below.				
Comments:				

**C.15.b.vi.(2) ► Irrigation Water, Landscape Irrigation, and Lawn or Garden Watering**

<p>Provide implementation summaries of the required BMPs to promote measures that minimize runoff and pollutant loading from excess irrigation. Generally the categories are:</p> <ul style="list-style-type: none"> <li>• Promote conservation programs</li> <li>• Promote outreach for less toxic pest control and landscape management</li> <li>• Promote use of drought tolerant and native vegetation</li> <li>• Promote outreach messages to encourage appropriate watering/irrigation practices</li> <li>• Implement Illicit Discharge Enforcement Response Plan for ongoing, large volume landscape irrigation runoff.</li> </ul>
<p>Summary:</p> <p>A summary of the Countywide Program's effort to promote the use of less-toxic pest management and the use of drought tolerant and native vegetation is included with the C.7 Public Information and Outreach section of the countywide Program's FY13-14 Annual Report.</p> <p>The City continues to promote conservation, integrated pest management, and native species preference to the residential audience through participation in the regional Our Water/Our World, Bringing Back the natives and Healthy Homes and Gardens programs. In addition, the regionally developed outreach materials are distributed at farmers markets and other events. Outreach to the Commercial and Development target audience is accomplished mainly through the Community Development Department planners as part of the requirements for frontage site landscaping on new or modified parcels. In addition, Engineering review of C3H structural vegetated treatment controls provides the opportunity to further incorporate appropriate measures into site development. Overly excess irrigation from what appears to be a properly functioning system is referred to the EBMUD Water Conservation Department for follow-up through their conservation program. Sites found through the ID screening program or during maintenance activities with broken or malfunctioning landscape irrigation systems are identified and addressed as part of the C.5 Illicit Discharge component. Flushing and disinfection discharges from potable water main installations by the area water purveyor and private fire mains are being taken into the sanitary sewer system rather than attempting to apply BMPs for storm system discharge within the City's sewers.</p>

The PG&E hydrostatic testing program continued into this reporting period, and the City accepted the testing water for discharge to the sanitary sewer for disposal.

**C.15.b.iii.(2) ► Unplanned Discharges of the Potable Water System<sup>64</sup>**

Site/ Location	Discharge Type	Receiving Waterbody(ies)	Date of Discharge	Discharge Duration (military time)	Estimated Volume (gallons)	Estimated Flow Rate (gallons/day)	Chlorine Residual (mg/L) <sup>65</sup>	pH (standard units) <sup>52</sup>	Discharge Turbidity (Visual) <sup>52,</sup>	Implemented BMPs & Corrective Actions	Time of discharge discovery	Regulatory Agency Notification Time <sup>66</sup>	Inspector arrival time	Responding crew arrival time

<sup>64</sup> This table contains all of the unplanned discharges that occurred in this FY.

<sup>65</sup> Monitoring data is only required for 10% of the unplanned discharges. If you monitored more than 10% of your unplanned discharges, report all of the data collected.

<sup>66</sup> Notification to Water Board staff is required for unplanned discharges where the chlorine residual is >0.05 mg/L and total volume is ≥ 50,000 gallons. Notification to State Office of Emergency Services is required after becoming aware of aquatic impacts as a result of unplanned discharge or when the discharge might endanger or compromise public health and safety.

Attachment C.5.c.iii

Spill Response Call Lists

Employee Home listings are confidential and not subject to public disclosure. Information is being submitted as required by the MRP to state and federal regulatory agencies.

# SEWER / STORM WATER EMERGENCY CALL-OUT PROCEDURES AND STANDBY/CALLOUT SCHEDULE

In all cases, make contact with a Collections crew or WPCD staff member, **Do Not Leave A Message.**

M-F 7:00-3:30 Ext. 3434

**After hours/weekends:**

Call the collections crew staff member on duty that day, as listed in the Call-Out/Standby calendar below.

Collections crew responds to events such as; plugged sewage lines; sewage spills; storm water blockages; water leaks of unknown origin; missing or offset manholes and other WPCD issues.

## EMERGENCY CALL-OUT LIST

**August 2014**

<b>PARKS</b>		<b>Ext. 3444</b>
<i>M—F 7:00 A.M.—3:30 P.M.</i>		
1. Ron Lambert	925-413-4500	
2. Jorge Carvalho	557-1139	
3. Doug Potestio	276-2363	
4. David Gonzales	483-3179 or 258-2188	
5. David O'Donnell	750-7959	
6. Winston McKee (Supervisor)	421-3014 or 209-892-0639	
**Part-time Parks employees (Evenings & Weekends)	421-1929	

<b>VEHICLES &amp; EQUIPMENT</b>		<b>Ext. 3447</b>
<i>M—F 6:30 A.M.—3:00 P.M.</i>		
1. Brad Scarlett	825-1676	
2. Carlos Farias	677-1983	
3. Andy Wright (Supervisor)	925-784-9005	

<b>FACILITIES MAINTENANCE</b>		<b>Ext. 6014</b>
<i>M—F 6:30 A.M.—3:00 P.M.</i>		
1. Larry Ornellas	894-2589	
2. Gary Sclafani	299-3336	
3. Frank Cabrera	755-6612	
4. Robert Sullivan	925-963-5098	
5. Chris Heintl	925-240-0835	
6. Adam Benigno	786-7231	
7. Glen Contreras (Supervisor)	421-2066	
<i>M—F 2:00 P.M.—10:30 P.M.</i>		
Larry Ornellas	421-2116	

<b>MARINA HARBOR/SHORELINE</b>		<b>Ext. 3488</b>
<i>M—F 8:00 A.M.—4:00 P.M.</i>		
<i>Sat 9:00 A.M.—3:30 P.M.</i>		
1. Jebin Olberg	421-2166	
2. Delmarie Snodgrass (Supervisor)	421-2109	

<b>ENVIRONMENTAL SVCS—HAZMAT</b>		<b>Ext. 6029</b>
<i>M—F 8:30 A.M.—5:00 P.M.</i>		
1. John Camp (Supervisor)	357-3417	
2. Dave Denis	343-4851	
3. Tiffany Treece	301-7515	
4. Lisa Maffei	813-1540	

**ALL STREET-RELATED CALLS:**

Trees / Traffic Signals / Street Lights / Graffiti / Traffic Signs / Pot & Sink Holes / Debris Spills:

***M—F 7:00 A.M.—3:30 P.M.***

**Ext. 3440 / Message Line Ext. 3400**

**On Standby July 28—Aug 3:**

George Garcia: 421-2136 or 755-7287

**On Standby Aug 4—Aug 10:**

Greg Shiflett: 460-0353 or 828-3727

**On Standby Aug 11—Aug 17:**

Dave Perry: 828-0170 or 582-2799

**On Standby Aug 18—Aug 24:**

Patrick Grajeda: 421-2175 or 366-5435

**On Standby Aug 25—Aug 31:**

David O'Connor: 421-7883 or 755-7345

\*Leave a message for the **employee designated for weekly Standby** if there is no immediate answer. Next, call the second number for the same employee. You may also call the supervisors in charge of Standby:

Steve Lombardi: 925-979-0225

Don O'Connor: 612-7030

**\*\*NOTE: SLPD—Please use the **Water Pollution Control Plant Calendar** for Sewer/Storm Water Emergency contact information and procedures. (Sent separately).**

## EMERGENCY CALL-OUT PROCEDURES

### For Public Works Administrative Staff

1. Use the Call-Out List to contact the appropriate section. **If the issue requires immediate attention, make sure that you speak with someone *in person*.** You may leave a message for the employee on Standby, but also contact his/her Supervisor. Next, go down the Call-Out List until you reach someone in person. Do not leave an email or work order. **Do not transfer callers to another line unless you have already reached someone on that line.**
2. If the issue requires immediate response from a local utility, use the following contacts:

#### **Water Breaks or Hydrant Problems**

Call East Bay MUD at 510-287-0600

#### **Electrical Wires Down, Outages, or Gas Leaks**

Call PG&E at 1-800-743-5000

\*Notify the Traffic Maintenance Division if it involves street lights or traffic signals.

#### **Cable Wires Down** (large black wires, typically closer to the ground)

Call Comcast at 1-800-945-2288

3. For major incidents, such as: large spills, media attention, etc.
  - a.) Call the **Public Works Director**—Debbie Pollart—at 510-290-3990
  - b.) For sanitary sewer overflows: **Water Pollution Control**—Dean Wilson at 510-421-1995
  - c.) For hazardous material spills: **Environmental Services**—510-577-3401 or John Camp at 510-421-2065
  - d.) If you receive calls from the press, or if you think that the issue may involve the press, call the **City Manager's Office** at extension x3351.

**Make sure that you reach someone in the CMO before you transfer a call from the press. Do not make statements to the press. Always refer the press to PW Director, or to the CMO.**

**Attachment C.9.d**  
**Integrated Pest Management**  
**Contract Specifications**

The City of San Leandro seeks to control pests without harming non-target organisms, or negatively affecting air and water quality and public health. The Contractor shall give preference to reasonably available nonpesticide alternatives when conducting pest management activities on City property and public right-of-ways. Chemical controls should only be applied when monitoring indicates that preventative and non-chemical methods are not keeping pests below acceptable levels. When pesticides are required, the least toxic and the least persistent pesticide that will provide adequate pest control is applied. Pesticides should not be applied on a prescheduled basis.

The Contractor may employ Integrated Pest Management (IPM) practices when controlling pests. IPM uses cultural, mechanical, physical, and biological control methods before using pesticides. The Contractor shall comply with the City's IPM policy as part of the implementation of this agreement.
