Enclosed is a certified copy of Administrative Civil Liability Complaint No. R8-2009-0068 (hereinafter the "Complaint"). The Complaint alleges that the City of Beaumont violated State Water Resources Control Board Order No. 2006-0003-DWQ by discharging untreated wastewater (sewage) to waters of the State, for which a penalty may be imposed under Section 13350 of the California Water Code. The Complaint proposes that administrative civil liability in the amount of ninety-nine thousand nine hundred dollars (\$99,900) be imposed as authorized under Water Code Section 13350(e)(2). Also enclosed are a Waiver Form and a Hearing Procedure that sets forth important requirements and deadlines for participation in the hearing. Additionally, a Fact Sheet describing the Complaint process is available at:
http://www.waterboards.ca.gov/santaana/public_notices/enforcement_actions.shtml

REGIONAL WATER QUALITY CONTROL BOARD
SANTA ANA REGION

In the Matter of:

City of Beaumont)	Complaint No. R8-2009-0068
550 E. 6 th Street)	for
Beaumont, CA 92223)	Administrative Civil Liability
)	
Attn: Alan C. Kapanicas)	

YOU ARE HEREBY GIVEN NOTICE THAT:

1. The City of Beaumont (hereinafter "Beaumont") is alleged to have violated provisions of law for which the California Regional Water Quality Control Board, Santa Ana Region (hereinafter "Regional Board"), may impose administrative civil liability under California Water Code (hereinafter "CWC") §13350.
2. A hearing concerning this Complaint will be held before the Board within ninety days of the date of issuance of this Complaint, unless pursuant to CWC Section 13323, Beaumont waives its right to a hearing. The waiver procedures are specified in the attached Waiver Form. The hearing in this matter is scheduled for the Regional Board's regular meeting on January 29, 2010, at the City Council Chambers, 25541 Barton Road, City of Loma Linda, California. Beaumont, or its designated representative, will have an opportunity to appear and be heard, and to contest the allegations in this Complaint and the imposition of civil liability by the Regional Board. An agenda for the meeting and the staff report relating to this item will be mailed to you not less than 10 days prior to the hearing date.
3. If a hearing is held on this matter, the Regional Board will consider whether to affirm, reject, or modify the proposed administrative civil liability or whether to refer the matter to the Attorney General for recovery of judicial civil liability. If this matter proceeds to hearing, the Prosecution Team reserves the right to seek an increase in the civil liability amount to cover the costs of enforcement incurred subsequent to the issuance of this Complaint through hearing.

THE COMPLAINT IS BASED ON THE FOLLOWING FACTORS:

4. Beaumont owns and operates one hundred thirty five (135) miles of gravity sanitary sewer main and fifteen (15) miles of sanitary sewer force main within its service boundary. The operation and maintenance of sanitary sewer systems are regulated under the State's General Waste Discharge Requirements for Sanitary Sewer

Systems, Water Quality Order No. 2006-0003 (hereinafter "SSO Order"). On November 2, 2006, Beaumont obtained coverage under the SSO Order.

5. Beaumont's sanitary sewer system normally contains wastewater from residential, commercial and industrial establishments. Untreated sanitary wastewater (sewage) generally contains high levels of bacteria, metals, nutrients and other pollutants.
6. A series of eight separate sanitary sewer overflow (SSO) incidents occurred between March and September 2009 from Beaumont's sanitary sewer system. This resulted in an estimated aggregate volume of 132,000 gallons of sewage being discharged (60,000 gallons of the spilled sewage were recovered) either into wetlands tributary to San Timoteo Creek or to un-named, ephemeral drainage courses tributary to San Timoteo Creek. Each of these incidents resulted in a discharge of sewage to waters of the United States. Sewage discharged to these un-named tributaries mostly percolated into the soils before reaching San Timoteo Creek. The overflow incidents were as follows:
 - a) On March 12, 2009, 30,000 gallons of raw sewage were spilled from the Western Knolls force main¹ located at 1400 Western Knolls Avenue. Approximately 10,000 gallons were recovered. The reported cause of the spill was a break in a force main.
 - b) On March 29, 2009, 50,000 gallons of raw sewage were spilled from the Western Knolls force main. Approximately 30,000 gallons were recovered. The reported cause of the spill was another failure in the same force main, as the March 12th break.
 - c) On April 2, 2009, 30,000 gallons of raw sewage were spilled from the Western Knolls force main from a third force main failure incident. Approximately 20,000 gallons were recovered.
 - d) On July 22, 2009, 5,000 gallons of sewage overflowed from the Western Knolls lift station as a result of a pipe failure within the dry well of the lift station that shorted out electrical service to the pumps. None of the sewage was recovered.
 - e) On August 18, 2009, 2,000 gallons of sewage overflowed from the Upper Oak lift station as a result of a failure from a pressure relief valve. None of the sewage was recovered.
 - f) On August 20, 2009, 2,000 gallons of sewage overflowed from the Upper Oak lift station as a result of a failure from a pressure relief valve. None of the sewage was recovered.
 - g) On September 2, 2009, 3,000 gallons of sewage overflowed from a manhole at Little Lower Oak lift station as a result of a blockage within the sewer line and discharged into a storm drain. None of the sewage was recovered.
 - h) On September 23, 2009, 10,000 gallons of sewage overflowed from a manhole just up gradient of Little Lower Oak lift station. The overflow was the result of a failure of the sewage lift station. All of the sewage was discharged to wetlands tributary to San Timoteo Creek. In both this spill incident and the September 2nd incident at the Little Lower light station, all of the sewage was discharged to waters of the United

¹ Force mains are pipelines that convey wastewater under pressure.

States due to the close proximity of a storm drain inlet that was tributary to the wetlands.

7. The discharges were either into wetlands tributary to San Timoteo Creek or to ephemeral, un-named tributaries of San Timoteo Creek, a water of the United States. The Basin Plan designates the following beneficial uses for the Creek: groundwater recharge, water contact recreation, non-contact water recreation, warm fresh water habitat and wildlife habitat.
8. Provision C. 1 of the SSO Order states, "Any SSO that results in a discharge of untreated or partially treated wastewater to waters of the United States is prohibited." The above discharges were in violation of this provision of the SSO Order.
9. Provision D.1 of the SSO Order states, "The Enrollee must comply with all conditions of this Order. Any noncompliance with this Order constitutes a violation of the California Water Code and is grounds for enforcement action." Beaumont is alleged to have violated Provision C.1 of the SSO Order.
10. Pursuant to CWC §13350(e), the Regional Board may impose civil liability administratively either on a daily basis [per CWC §13350(e)(1)] or on a per gallon basis [per CWC §13350(e)(2)], but not both. The Assistant Executive Officer proposes to impose civil liability per CWC §13350 (e)(2).
11. CWC §13350(e)(2) states that administrative civil liability on a per gallon basis may not exceed ten dollars (\$10) for each gallon of waste discharged. For the eight incidents described above, the total volume discharged and not recovered was 72,000 gallons. The maximum liability for the violations cited above on a per gallon basis is \$720,000 (72,000 gallons X \$10 per gallon = \$720,000).
12. CWC §13327 specifies factors that the Regional Board shall consider in establishing the amount of civil liability. Consideration of these factors is addressed in the following table.

Factor	Comment
A. Nature, Circumstances, Extent and Gravity of Violation	<p>Beaumont discharged an estimated 72,000 gallons of untreated wastewater (sewage) from its sanitary sewer system to either wetlands tributary to San Timoteo Creek or to ephemeral, un-named, tributaries to San Timoteo Creek. The discharge of sewage was from eight separate sanitary sewer overflows that occurred within a six month span of time.</p> <p>The sewage discharged to tributaries of San Timoteo Creek has</p>

	<p>the potential to impact the designated beneficial uses of the Creek by the introduction of bacteria, nutrients, and other pollutants. For incidents involving discharges to ephemeral tributaries, the nature of the soils allowed sewage to be absorbed before reaching San Timoteo Creek. However, the nutrients and some of the other pollutants in sewage, once deposited in the soil, have the potential to migrate through the soil column into the ground water or carried by storm water into other surface waterbodies. The discharge of sewage also causes a nuisance and is a threat to public health.</p> <p>Beaumont responded to the spill in a timely manner and was able to mobilize needed equipment and personnel to swiftly clear the blockages, repair the pump stations, etc. Moreover, Beaumont has accelerated its construction activities to replace the problematic 8" force main and accelerated its schedule for bringing on-line a new lift station (Mesa Lift Station) to address the problematic lift station.</p>
B. Culpability	<p>Beaumont has failed to develop and implement a comprehensive Sanitary Sewer Management Plan (hereinafter "SSMP") in compliance with the SSO Order. Regional Board staff has been working with Beaumont staff to bring the City into compliance with the SSO Order. Beaumont's failure to develop this plan as required by the SSO Order and its failure to take proactive steps to prevent SSOs may have contributed to failures of the force main and the lift stations. Repeated failures of the force main and the pump stations could have been prevented, or at least minimized, by proper operation and maintenance of the systems through development and implementation of a SSMP. Also, the number of sanitary sewer overflows, some of them from the same location, from March to September 2009 indicates a lack of responsiveness from the City.</p>
C. Economic Benefit or Savings	<p>The Regional Board staff has insufficient information to assess economic benefit. It appears that Beaumont delayed some of the capital improvement projects and benefitted monetarily from it. The exact cost benefit from this delay could not be ascertained.</p>

<p>D. Prior History of Violations</p>	<p>Beaumont reported two SSO incidents that were violations of the SSO Order prior to January 2009.</p> <p>Beaumont has also violated provisions of the Riverside County municipal storm water permit (of which they are a co-permittee). The Regional Board issued an administrative civil liability complaint for these violations.</p>
<p>E. Staff Costs</p>	<p>Regional Board staff spent approximately 126 hours investigating this incident. The total cost for staff time is \$18,900 (126 hrsX\$150/hr=\$18,900).</p>
<p>F. Ability to pay</p>	<p>Beaumont is a city of more than 30,000 citizens. Pursuant to Water Code section 13385(k) it is not considered a small community with financial hardship and, therefore, it appears that Beaumont has the ability to pay the proposed administrative civil liability. The Prosecution Team is not in the possession of any information that Beaumont is unable to pay the proposed liability amount.</p>

13. After consideration of the above factors, the Assistant Executive Officer proposes that civil liability be imposed administratively on Beaumont in the amount of \$99,900 for the violations cited above.

14. This penalty assessment is based on a consideration of the potential for harm from the SSO events listed above. Based on the potential harm from the discharge and the characteristics of the discharge, the Assistant Executive Officer determined that an assessment of \$1.50 per gallon is appropriate. The total assessment based on flow is \$108,000 (72,000 gallonsX\$1.50/gallon=\$108,000). This amount is then adjusted based on Beaumont's culpability, cleanup effort and cooperation, and history of violations. As indicated in the table above, Beaumont appears to have had an inordinate number of overflow incidents that suggest a lack of proper operation and maintenance. A 0.75 adjustment factor is recommended based on consideration of Beaumont's prompt response activities, the fact that none of the discharges reached any flowing body of water, and the absence of any observable impacts on the beneficial uses from the discharges. Based on the foregoing, the 0.75 factor was used to adjust the amount calculated above resulting in an adjusted assessment of \$81,000 (\$108,000X0.75=\$81,000). CWC §13327 also requires consideration of economic benefit or savings, if any, resulting from the violation, and other matters as justice may require. These costs are added to the final liability to determine the assessed civil liability for the alleged violation(s). No economic benefit has been assessed for Beaumont's eight overflow incidents. The costs of investigation and enforcement are considered as one of the "other factors

as justice may require". The staff costs (\$18,900) are added to the amount in the above paragraph, for a total assessment of \$99,900 (\$81,000+\$18,900=\$99,900).

WAIVER OF HEARING

Beaumont may waive its right to a hearing. If you choose to do so, please sign the attached waiver form and return it, together with a check for \$99,900 payable to the State Water Resources Control Board-WDPF in the enclosed preprinted envelope. If you waive your right to a hearing and pay the assessed amount, the Regional Board may not hold a hearing regarding this complaint.

If you have any questions, please contact Stephen D. Mayville at (951) 782-4992 or Chuck Griffin at (951) 782-4996.

Communications among one or more designated parties and interested persons themselves are not ex parte contacts.

Hearing Time Limits

To ensure that all participants have an opportunity to participate in the hearing, the following time limits shall apply: Each designated party shall have a combined 20 minutes to present evidence, cross-examine witnesses (if warranted), and provide a closing statement; and each interested person shall have 3 minutes to present a non-evidentiary policy statement. Participants with similar interests or comments are requested to make joint presentations, and participants are requested to avoid redundant comments. Participants who would like additional time must submit their

request to the Advisory Team so that it is received no later than January 14, 2010. Additional time may be provided at the discretion of the Advisory Team (prior to the hearing) or the Regional Board Chair (at the hearing) upon a showing that additional time is necessary.

Submission of Evidence and Policy Statements

The following information must be submitted in advance of the hearing:

1. All evidence (other than witness testimony to be presented orally at the hearing) that the Designated Party would like the Regional Board to consider. Evidence and exhibits already in the public files of the Regional Board may be submitted by reference as long as the exhibits and their location are clearly identified in accordance with Title 23, CCR, Section 648.3.
2. All legal and technical arguments or analysis.
3. The name of each witness, if any, whom the designated party intends to call at the hearing, the subject of each witness' proposed testimony, and the estimated time required by each witness to present direct testimony.
4. The qualifications of each expert witness, if any.
5. If the Discharger intends to argue an inability to pay the civil liability proposed in the Complaint (or an increased or decreased amount as may be imposed by the Regional Board), the Discharger should submit supporting evidence as set forth in the "ACL Fact Sheet" under "Factors that must be considered by the Board."

The Prosecution Team shall submit 15 hard copies of its information and one electronic copy of the information to Advisory Team Attorney David Rice so that it is received by 5 p.m. on December 21, 2009.

The remaining designated parties shall submit 15 hard copies of their information and one electronic copy of the information to Advisory Team Attorney David Rice so that they are received by 5 p.m. on January 5, 2010.

Any designated party that would like to submit information that rebuts the information previously submitted by other designated parties shall submit 15 hard copies of their rebuttal information and one electronic copy of the information to Advisory Team Attorney David Rice so that they are received by 5 p.m. on January 14, 2010. Rebuttal information shall be limited to the scope of the information previously submitted by the other designated parties. Rebuttal information that is not responsive to information previously submitted by other designated parties may be excluded.

If the total amount of information submitted by any party is less than 15 pages, that party may submit the information by email, rather than in writing. In addition to the foregoing, each designated party shall submit (1) one copy of the above information to

each of the other designated parties so that it is received by 5 p.m. on the deadline specified above.

Interested persons who would like to submit written non-evidentiary policy statements are encouraged to submit them to the Advisory Team as early as possible, but no later than January 13, 2010. Interested persons do not need to submit written non-evidentiary policy statements in order to speak at the hearing.

In accordance with Title 23, California Code of Regulations, Section 648.4, the Regional Board endeavors to avoid surprise testimony or evidence. Absent a showing of good cause and lack of prejudice to the parties, the Regional Board may exclude evidence and testimony that is not submitted in accordance with this hearing procedure. Excluded evidence and testimony will not be considered by the Regional Board and will not be included in the administrative record for this proceeding. Power Point and other visual presentations may be used at the hearing, but their content may not exceed the scope of other submitted written material. A copy of such material intended to be presented at the hearing must be submitted to the Advisory Team by January 13, 2010 for inclusion in the administrative record. Additionally, any witness who has submitted written testimony for the hearing shall appear at the hearing and affirm that the written testimony is true and correct, and shall be available for cross-examination.

Request for Pre-hearing Conference

A designated party may request that a pre-hearing conference be held before the hearing in accordance with Water Code Section 13228.15. A pre-hearing conference may address any of the matters described in subdivision (b) of Government Code Section 11511.5. Requests must contain a description of the issues proposed to be discussed during that conference, and must be submitted to the Advisory Team, with a copy to all other designated parties, as early as practicable.

Evidentiary Objections

Any designated party objecting to written evidence or exhibits submitted by another designated party must submit a written objection to the Advisory Team and all other designated parties so that it is received by 5 p.m. on January 14, 2010. The Advisory Team will notify the parties about further action to be taken on such objections and when that action will be taken.
