

California Water Quality Control Board
Santa Ana Region

June 29, 2007

ITEM: 24

SUBJECT: San Diego Creek/Newport Bay Watershed Selenium Update

Board staff will provide to the Regional Board a status report on selenium-related regulatory issues in the watershed, including an update on the activities of the Nitrogen and Selenium Management Program (NSMP), progress on the development of a Site-Specific Objective (SSO) for selenium, and the relationship of these activities to the selenium TMDLs (Information Item).
