**NOTICE OF AVAILABILITY FOR PUBLIC COMMENT
(Revised on September 30, 2014 to extend the public review period.)**

**Mitigated Negative Declaration / Initial Study for the
U.S. Department of Transportation's proposed Los Padres Road Maintenance Project
(I.D. SB14004IN; USACE SPL-2014-00281-BAH)**

NOTICE IS HEREBY GIVEN that the State Water Resources Control Board (State Water Board), as the lead agency pursuant to the California Environmental Quality Act (CEQA), is presenting for public review the Proposed Mitigated Negative Declaration (MND), including the Initial Study (IS), for the U.S. Department of Transportation's proposed Emergency Relief for Federally Owned Roads-funded projects referred to by USDOT as CA ERFO 5N6N7N11N and CA ERFO 20S05 (for convenience, "Los Padres Road Repair Project," or "Project"). These documents will be submitted to the State Clearinghouse on September 23, 2014. No SCH number is yet assigned.

The State Water Board also intends to issue a Clean Water Act section 401 Water Quality Certification in association with this MND.

The public review and comment period for the MND has been extended. The public review and comment period for the MND will extend from September 25, 2014 through 12:00 noon on October ~~27~~28, 2014.

Background: The Federal Highway Administration (FHWA), Central Federal Lands Highway Division (CFLHD), in cooperation with United States Forest Service (USFS), Los Padres National Forest (LPNF) is proposing to repair storm damage that occurred during the winter of 2011-2012. Nineteen sites located on various forest roads within the LPNF are proposed for repairs. The projects are planned for portions of LPNF that lie within Monterey, Santa Barbara, and Ventura Counties.

Repairs entail culvert replacements and one low-water crossing structure. Most of the proposed construction activities will occur within previously disturbed areas, which include the existing road prism itself, areas scoured from the flooding, and areas impacted during the immediate response efforts to re-establish the road and embankments.

The project is eligible to receive funds for improvement and construction under the Emergency Relief for Federally Owned Roads (ERFO) program. The intent of the ERFO program is to repair and reconstruct Federal roads that have been damaged by a natural disaster over a wide area or by a catastrophic failure from any external cause. The ERFO program provides emergency funds when it severely impacts the safety, capacity, or usefulness of the roadway. Prompt attention is needed to restore safety and functionality of these roads. The overall purpose of this project is to restore the capacity and functionality to these roadways.

These roadways provide important access for wildfire access, recreation, camping, and sightseeing activities, and some private residences. Numerous secondary Forest Service roads lead off of Squaw Flat Road, Figueroa Road, North Coast Ridge Road, Central Coast Road, South Coast Road, Big Caliente Road, Rose Lake Road, Mutau Road, Bates Canyon Road, Miranda Pines Road, and Colson Canyon Road providing access to hundreds of acres of the LPNF.

NOTICE OF AVAILABILITY FOR PUBLIC COMMENT (REVISED)

Draft Mitigated Negative Declaration/Initial Study for the U.S. Department of Transportation's proposed Los Padres Road Repair Project (I.D. SB14004IN; USACE SPL-2014-00281-BAH)

Roadway repairs are needed at nineteen different sites under the U.S. Federal Highways approved ERFO program across the LPNF (See Table 1 below). The proposed work is needed to provide safe passage along affected roads and to repair the roads to their originally designed and constructed condition (roadway width and storm runoff conveyance).

Determination: The MND describes and evaluates potential environmental impacts associated with the Project. The MND establishes that there is no substantial evidence, in light of the whole record before the State Water Board, that the project may have a significant effect on the environment, with incorporated mitigation measures to avoid or mitigate potential significant impacts. All of the mitigation measures needed to avoid or minimize potentially significant impacts are set out in the MND.

Document Availability: Electronic copies and hard copies of these documents may be requested from the State Water Board or may be viewed at the State Water Board offices at the address listed in the next section below. Please contact Clifford Harvey at (916) 558-1709 to make arrangements.

Submission of Written Comments: Interested persons may submit their comments, evidence, and other material by email, fax, or hard copy. In order to be fully considered, written materials must be received by **12:00 noon on October 28~~27~~, 2014**.

Email comments are encouraged, but must be less than 15 MB total size. To ensure proper routing, all comment letters, regardless of the method of delivery, must have the following in the subject line: "**Comment Letter: Los Padres Roads**".

Please send comment letters to Clifford Harvey

- by email: clifford.harvey@waterboards.ca.gov
- by fax: (916) 341-5808
- or by U.S. mail or other delivery service, addressed to:
Clifford Harvey
State Water Resources Control Board
Division of Water Quality / 401 Certification and Wetlands
1001 I Street, 15th Floor
P.O. Box 100
Sacramento, CA 95814

Comments may also be hand delivered. Couriers delivering comment letters must check in with lobby security personnel on the first floor of the Cal-EPA Building at the address shown above. Questions on comments may be directed to Mr. Harvey at (916) 558-1709.

Parking and Accessibility: The Joe Serna Jr./Cal-EPA Building is accessible to persons with disabilities. All visitors to the Joe Serna Jr./Cal-EPA Building are required to sign in and obtain a building pass at the Visitor Services office located just inside the main entrance. Valid photo identification may be required. Please allow up to 15 minutes for receiving security clearance.

Future Notices: Staff intends to submit the MND for adoption in September 25, 2014. Notices will be posted on the State Water Board's website at:

http://www.waterboards.ca.gov/water_issues/programs/cwa401/notices/2014.shtml

(http://www.waterboards.ca.gov/resources/email_subscriptions/swrcb_subscribe.shtml)

An interested party that does not have access to e-mail must contact the staff member listed below to request paper copies of future notices.

Contact Information: Please direct questions to Clifford Harvey at (916) 558-1709, or at clifford.harvey@waterboards.ca.gov

Date: September 25, 2014.

Note: No regulatory decision on the application is implied or intended in this public notice.

KEEP INFORMED OF PROJECT MILESTONES

To be informed of milestones in the development of this proposed Water Quality Certification, any interested persons should enroll in the State Water Board's 401 Program e-mail notification service. Click the SUBSCRIBE button under the "Quick Links" section of the 401 Program Webpage at:

http://www.waterboards.ca.gov/water_issues/programs/cwa401/index.shtml

By enrolling in this list, you will receive notices for all current 401 project applications, including the project announced in this notice. You will need a valid e-mail address to use this service. If you do not have internet access or do not wish to participate in the Lyris list, contact the staff person named in the notice to express your interest in receiving notices by other means.

You can enroll or un-enroll at any time. The State Water Board will not disclose your name or e-mail information to any outside parties, and will not use this information for any other purpose.
