Dear Ms. Townsend and State Water Resource Control Board Members:

Thank you for the opportunity to comment on the final draft of AB 885. I am forwarding the following comment on behalf of Armando Alegria, Supervising Environmental Health Specialist with Marin County Environmental Health Services:

**Section 9.3**

1
---

Concerning the Watershed based monitoring of ground water and surface water quality for QWTS impacts done by local agency.

We recommend that the counties propose what they are currently doing regarding watershed monitoring and that additional water quality monitoring be phased in order lessen the financial burden that local agencies will have to absorb.

Thank you,

.....

**Jock Smith, R.E.H.S.**
