**Subject:** RE: Wholesale Supply Information for San Juan Water District

My apologies again, Kathy. I neglected to include the City of Roseville as a retail water supplier in my contact information. 4,000 AF of water is available to them in non-drought years if they elect to receive it. This water would only be available to them in 2017.

**Subject:** FW: Wholesale Supply Information for San Juan Water District

Hello Kathy,  
San Juan Water District Wholesale has had to revise its water supply availability due to changes received from the Placer County Water Agency. The website has been updated to reflect these changes and the retail agencies have been notified.

Thank you and I apologize for the revisions!  
Lisa
