Since the Authority does not operate or maintain a website, the attached Wholesaler Supply Information was posted on the Inland Empire Utilities Agency (IEUA) website. The Authority receives its imported water supply from Metropolitan Water District of Southern California through IEUA. The webpage address is: <https://www.ieua.org/use-water-wisely/emergency-drought-water-supply-data/> It is understood that this information will also be posted by the State Water Board on their site.

For additional information and/or further clarification, please feel free to contact me.
