

A. Project Impacts (Temporary Only):

1. Temporary impacts for the Vacaville Dixon – Birds Landing 230 kV Reconductoring Project are summarized below:

Table 1: Vacaville Dixon – Birds Landing 230 kV Reconductoring Project Temporary Impacts

Hydrologic Unit Code (HUC)	Water Body Type	Temporary Project Impact Area (acres)	Description of Impact/Project Activity
Suisun Bay - 18050001	Seasonal Wetland (VP07)	0.010	Pull Site 12 – Possible placement of rock over geotextile fabric
Suisun Bay - 18050001	Seasonal Wetland (VP08)	0.037	Pull Site 12 – Possible placement of rock over geotextile fabric
Suisun Bay - 18050001	Seasonal Wetland (C-65)	0.011	Possible placement of rock over geotextile fabric to allow overland vehicle access to guard structure installation area
Suisun Bay - 18050001	Seasonal Wetland (SW05)	0.168	Pull Site 12 – Possible placement of rock over geotextile fabric
Lower Sacramento - 18020109	Seasonal Wetland (RS01)	0.005	Possible placement of rock over geotextile fabric to allow overland vehicle access to Pull Sites P-1 and P-2
Suisun Bay - 18050001	Vernal Pool (C-134)	0.004	Possible pick-up truck and workers driving over or walking on during the dry season (summer months)
Suisun Bay - 18050001	Vernal Pool (p-6.g.a)	0.004	Pool located ~60 ft of work zone
Lower Sacramento - 18020109	Vernal Pool (p-12.g.c)	0.002	Pool located ~83 ft of work zone
Lower Sacramento - 18020109	Vernal Pool (p-12.g.b)	0.028	Pool located ~66 ft of work zone
Total		0.269
