

State Water Resources Control Board

May 1, 2013

WATER DIVERSION CURTAILMENT NOTICE **WATER RIGHT Permit 10477 (APPLICATION NO. A012842)**

North San Joaquin Water
Conservation District
PO Box 428
Clements, CA 95227

Your Permit 10477 A012842 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit 10477 A012842 FROM MAY 7, 2013 THROUGH AUGUST 31, 2013, UNLESS NOTIFIED EARLIER.

If release of supplemental Project water continues into September, a Notice of Continued Curtailment of Water Diversion will be sent to you at the end of August. If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

PLEASE NOTE: By no later than May 23, 2013 you must complete the enclosed 2012 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water sources; (2) cease diversion under the specified appropriate water right but will use water from your alternate water source(s); or (3) continue diversion under the specified appropriate water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion. In this regard, State Water Board staff may inspect your point of diversion to determine compliance with this Notice.

FELICIA MARCUS, CHAIR | THOMAS HOWARD, EXECUTIVE OFFICER

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

Craig M. Wilson

Bear Springs Water Co.
c/o Robert Brennan
4670 St. Charles Dr.
Redding, CA 96002

Your Permit 15304 A022189 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit 15304 A022189 FROM MAY 7, 2013 THROUGH AUGUST 31, 2013, UNLESS NOTIFIED EARLIER.

If release of supplemental Project water continues into September, a Notice of Continued Curtailment of Water Diversion will be sent to you at the end of August. If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

PLEASE NOTE: By no later than May 23, 2013 you must complete the enclosed 2012 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water sources; (2) cease diversion under the specified appropriate water right but will use water from your alternate water source(s); or (3) continue diversion under the specified appropriate water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion. In this regard, State Water Board staff may inspect your point of diversion to determine compliance with this Notice.

WATER DIVERSION CURTAILMENT NOTICE **WATER RIGHT License 12368 (APPLICATION NO. A022219)**

Edward S. Wineman
PO Box 109
Santa Maria, CA 93456

Your License 12368 A022219 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER License 12368 A022219 FROM MAY 7, 2013 THROUGH AUGUST 31, 2013, UNLESS NOTIFIED EARLIER.

If release of supplemental Project water continues into September, a Notice of Continued Curtailment of Water Diversion will be sent to you at the end of August. If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

PLEASE NOTE: By no later than May 23, 2013 you must complete the enclosed 2012 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water sources; (2) cease diversion under the specified appropriate water right but will use water from your alternate water source(s); or (3) continue diversion under the specified appropriate water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion. In this regard, State Water Board staff may inspect your point of diversion to determine compliance with this Notice.

FELICIA MARCUS, CHAIR | THOMAS HOWARD, EXECUTIVE OFFICER

Edward S. Wineman

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

Craig M. Wilson
Delta Watermaster

WATER DIVERSION CURTAILMENT NOTICE **WATER RIGHT License 13610 (APPLICATION NO. A023757)**

Browns Valley Irrigation District
c/o MBK Engineers
1771 Tribute Rd Ste A
Sacramento, CA 95815

Your License 13610 A023757 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER License 13610 A023757 FROM MAY 7, 2013 THROUGH AUGUST 31, 2013, UNLESS NOTIFIED EARLIER.

If release of supplemental Project water continues into September, a Notice of Continued Curtailment of Water Diversion will be sent to you at the end of August. If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

PLEASE NOTE: By no later than May 23, 2013 you must complete the enclosed 2012 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water sources; (2) cease diversion under the specified appropriate water right but will use water from your alternate water source(s); or (3) continue diversion under the specified appropriate water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion. In this regard, State Water Board staff may inspect your point of diversion to determine compliance with this Notice.

FELICIA MARCUS, CHAIR | THOMAS HOWARD, EXECUTIVE OFFICER

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

Craig M. Wilson

WATER DIVERSION CURTAILMENT NOTICE **WATER RIGHT License 12152 (APPLICATION NO. A024523)**

Larry Lawrence and
Balbina A. Lawrence
11318 Franklin Blvd.
Elk Grove, CA 95757

Your License 12152 A024523 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER License 12152 A024523 FROM MAY 7, 2013 THROUGH AUGUST 31, 2013, UNLESS NOTIFIED EARLIER.

If release of supplemental Project water continues into September, a Notice of Continued Curtailment of Water Diversion will be sent to you at the end of August. If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

PLEASE NOTE: By no later than May 23, 2013 you must complete the enclosed 2012 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water sources; (2) cease diversion under the specified appropriate water right but will use water from your alternate water source(s); or (3) continue diversion under the specified appropriate water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion. In this regard, State Water Board staff may inspect your point of diversion to determine compliance with this Notice.

FELICIA MARCUS, CHAIR | THOMAS HOWARD, EXECUTIVE OFFICER

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

Craig M. Wilson

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

Craig M. Wilson

WATER DIVERSION CURTAILMENT NOTICE **WATER RIGHT License 11934 (APPLICATION NO. A024897)**

William Jaeger
Patricia Jaeger
990 Orange St
Yuba City, CA 95991

Your License 11934 A024897 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER License 11934 A024897 FROM MAY 7, 2013 THROUGH AUGUST 31, 2013, UNLESS NOTIFIED EARLIER.

If release of supplemental Project water continues into September, a Notice of Continued Curtailment of Water Diversion will be sent to you at the end of August. If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

PLEASE NOTE: By no later than May 23, 2013 you must complete the enclosed 2012 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water sources; (2) cease diversion under the specified appropriate water right but will use water from your alternate water source(s); or (3) continue diversion under the specified appropriate water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion. In this regard, State Water Board staff may inspect your point of diversion to determine compliance with this Notice.

FELICIA MARCUS, CHAIR | THOMAS HOWARD, EXECUTIVE OFFICER

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

Craig M. Wilson

WATER DIVERSION CURTAILMENT NOTICE **WATER RIGHT Permit 19420 (APPLICATION NO. A025793)**

Wallace Brothers
PO Box 580
Arbuckle, CA 95912

Your Permit 19420 A025793 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit 19420 A025793 FROM MAY 7, 2013 THROUGH AUGUST 31, 2013, UNLESS NOTIFIED EARLIER.

If release of supplemental Project water continues into September, a Notice of Continued Curtailment of Water Diversion will be sent to you at the end of August. If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

PLEASE NOTE: By no later than May 23, 2013 you must complete the enclosed 2012 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water sources; (2) cease diversion under the specified appropriative water right but will use water from your alternate water source(s); or (3) continue diversion under the specified appropriative water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion. In this regard, State Water Board staff may inspect your point of diversion to determine compliance with this Notice.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

Craig M. Wilson

WATER DIVERSION CURTAILMENT NOTICE **WATER RIGHT Permit 18771 (APPLICATION NO. A026594)**

Carol Chaffin Albrecht
606 Coal Canyon Rd
Oroville, CA 95965

Your Permit 18771 A026594 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit 18771 A026594 FROM MAY 7, 2013 THROUGH AUGUST 31, 2013, UNLESS NOTIFIED EARLIER.

If release of supplemental Project water continues into September, a Notice of Continued Curtailment of Water Diversion will be sent to you at the end of August. If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

PLEASE NOTE: By no later than May 23, 2013 you must complete the enclosed 2012 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water sources; (2) cease diversion under the specified appropriative water right but will use water from your alternate water source(s); or (3) continue diversion under the specified appropriative water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion. In this regard, State Water Board staff may inspect your point of diversion to determine compliance with this Notice.

Senator Outing Duck Club, Inc
c/o Charles J. Oken
52 Peacock Dr
San Rafael, CA 94901

Your License 12517 A026931 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER License 12517 A026931 FROM MAY 7, 2013 THROUGH AUGUST 31, 2013, UNLESS NOTIFIED EARLIER.

If release of supplemental Project water continues into September, a Notice of Continued Curtailment of Water Diversion will be sent to you at the end of August. If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

PLEASE NOTE: By no later than May 23, 2013 you must complete the enclosed 2012 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water sources; (2) cease diversion under the specified appropriate water right but will use water from your alternate water source(s); or (3) continue diversion under the specified appropriate water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion. In this regard, State Water Board staff may inspect your point of diversion to determine compliance with this Notice.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

Craig M. Wilson

WATER DIVERSION CURTAILMENT NOTICE **WATER RIGHT Permit 19301 (APPLICATION NO. A027007)**

Woodbridge Irrigation District
P.O. Box 580
Woodbridge, CA 95258

Your Permit 19301 A027007 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit 19301 A027007 FROM MAY 7, 2013 THROUGH AUGUST 31, 2013, UNLESS NOTIFIED EARLIER.

If release of supplemental Project water continues into September, a Notice of Continued Curtailment of Water Diversion will be sent to you at the end of August. If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

PLEASE NOTE: By no later than May 23, 2013 you must complete the enclosed 2012 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water sources; (2) cease diversion under the specified appropriate water right but will use water from your alternate water source(s); or (3) continue diversion under the specified appropriate water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion. In this regard, State Water Board staff may inspect your point of diversion to determine compliance with this Notice.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit 19473 A027586 FROM MAY 7, 2013 THROUGH AUGUST 31, 2013, UNLESS NOTIFIED EARLIER.

If release of supplemental Project water continues into September, a Notice of Continued Curtailment of Water Diversion will be sent to you at the end of August. If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

PLEASE NOTE: By no later than May 23, 2013 you must complete the enclosed 2012 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water sources; (2) cease diversion under the specified appropriate water right but will use water from your alternate water source(s); or (3) continue diversion under the specified appropriate water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion. In this regard, State Water Board staff may inspect your point of diversion to determine compliance with this Notice.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

Craig M. Wilson

WATER DIVERSION CURTAILMENT NOTICE **WATER RIGHT Permit 19599 (APPLICATION NO. A027647)**

U.S. Modoc National Forest
800 West 12th Street
Alturas, CA 96101-3132

Your Permit 19599 A027647 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit 19599 A027647 FROM MAY 7, 2013 THROUGH AUGUST 31, 2013, UNLESS NOTIFIED EARLIER.

If release of supplemental Project water continues into September, a Notice of Continued Curtailment of Water Diversion will be sent to you at the end of August. If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

PLEASE NOTE: By no later than May 23, 2013 you must complete the enclosed 2012 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water sources; (2) cease diversion under the specified appropriative water right but will use water from your alternate water source(s); or (3) continue diversion under the specified appropriative water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion. In this regard, State Water Board staff may inspect your point of diversion to determine compliance with this Notice.

These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER License 13034 A028539 FROM MAY 7, 2013 THROUGH AUGUST 31, 2013, UNLESS NOTIFIED EARLIER.

If release of supplemental Project water continues into September, a Notice of Continued Curtailment of Water Diversion will be sent to you at the end of August. If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

PLEASE NOTE: By no later than May 23, 2013 you must complete the enclosed 2012 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water sources; (2) cease diversion under the specified appropriate water right but will use water from your alternate water source(s); or (3) continue diversion under the specified appropriate water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion. In this regard, State Water Board staff may inspect your point of diversion to determine compliance with this Notice.

Armelim De Sousa, et al

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

Craig M. Wilson

WATER DIVERSION CURTAILMENT NOTICE **WATER RIGHT Permit 20874 (APPLICATION NO. A028616)**

Steve Mehalakis
c/o Virginia Kambanis
Sunset Management
533 'G' St #2
Lincoln, CA 95648

Your Permit 20874 A028616 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit 20874 A028616 FROM MAY 7, 2013 THROUGH AUGUST 31, 2013, UNLESS NOTIFIED EARLIER.

If release of supplemental Project water continues into September, a Notice of Continued Curtailment of Water Diversion will be sent to you at the end of August. If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

PLEASE NOTE: By no later than May 23, 2013 you must complete the enclosed 2012 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water sources; (2) cease diversion under the specified appropriative water right but will use water from your alternate water source(s); or (3) continue diversion under the specified appropriative water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion. In this regard, State Water Board staff may inspect your point of diversion to determine compliance with this Notice.

San Francisco, CA 94133-0214

Your Permit 20793 A030008 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit 20793 A030008 FROM MAY 7, 2013 THROUGH AUGUST 31, 2013, UNLESS NOTIFIED EARLIER.

If release of supplemental Project water continues into September, a Notice of Continued Curtailment of Water Diversion will be sent to you at the end of August. If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

PLEASE NOTE: By no later than May 23, 2013 you must complete the enclosed 2012 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water sources; (2) cease diversion under the specified appropriate water right but will use water from your alternate water source(s); or (3) continue diversion under the specified appropriate water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion. In this regard, State Water Board staff may inspect your point of diversion to determine compliance with this Notice.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

Craig M. Wilson

Oakdale, CA 95361-8438

Your Permit 21156 A030613 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit 21156 A030613 FROM MAY 7, 2013 THROUGH AUGUST 31, 2013, UNLESS NOTIFIED EARLIER.

If release of supplemental Project water continues into September, a Notice of Continued Curtailment of Water Diversion will be sent to you at the end of August. If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

PLEASE NOTE: By no later than May 23, 2013 you must complete the enclosed 2012 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water sources; (2) cease diversion under the specified appropriate water right but will use water from your alternate water source(s); or (3) continue diversion under the specified appropriate water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion. In this regard, State Water Board staff may inspect your point of diversion to determine compliance with this Notice.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961.

Sacramento, CA 95825-1898

Your A99995 IP contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER A99995 IP FROM MAY 7, 2013 THROUGH AUGUST 31, 2013, UNLESS NOTIFIED EARLIER.

If release of supplemental Project water continues into September, a Notice of Continued Curtailment of Water Diversion will be sent to you at the end of August. If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

PLEASE NOTE: By no later than May 23, 2013 you must complete the enclosed 2012 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water sources; (2) cease diversion under the specified appropriate water right but will use water from your alternate water source(s); or (3) continue diversion under the specified appropriate water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion. In this regard, State Water Board staff may inspect your point of diversion to determine compliance with this Notice.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

Craig M. Wilson
