PO Box 556
Gonzales, CA 93921

Dear Marvin and Alan Rianda:

ORDER REVOKING LICENSE 11705 (APPLICATIONS 25937), UNNAMED STREAM IN MONTEREY COUNTY

The State Water Resources Control Board (State Water Board), Division of Water Rights (Division) has received Marvin Rianda's request for revocation of License 11705, dated December 14, 2015. By requesting revocation of License 11705 you waive your right to the hearing and notice requirements set forth in California Water Code sections 1675 and 1675.1. Accordingly, enclosed is an Order revoking License 11705.

It is your responsibility to remove or modify diversion works and impoundments to ensure that water subject to this revocation is not diverted and used. Unauthorized diversion and use of water is considered a trespass and is subject to enforcement action under California Water Code sections 1052 and 1831. Pursuant to California Water Code section 1052, any diversion of water from the point of diversion identified in this license may be subject to Administrative Civil Liability of up to \$500 per day without further notice. The State Water Board also may issue a Cease and Desist Order in response to an unauthorized diversion or threatened unauthorized diversion, pursuant to California Water Code section 1831.

Before initiating any work in a stream channel, you should consult with the Department of Fish and Wildlife and the Regional Water Quality Control Board to ensure that removal of project facilities does not adversely affect a fishery or result in unregulated sediment discharge to a waterway. These agencies may require a permit or other approval prior to any construction activity.

Some diverters claim rights to divert independent of a permit, license, registration, or certification issued by the State Water Board, such as diversions under riparian or pre-1914 rights. With limited exceptions, California Water Code section 5101 requires that a Statement of Water Diversion and Use (Statement) be filed for these diversions. California Water Code section 5107 (c)(1) provides that the State Water Board may impose a civil liability of \$1,000, plus \$500 per day for each additional day on which the violation continues if the person fails to file a Statement within 30 days after the State Water Board has called the violation to the attention of that person.

FELICIA MARCUS, CHAIR | THOMAS HOWARD, EXECUTIVE DIRECTOR

1001 I Street, Sacramento, CA 95814 | Mailing Address: P.O. Box 100, Sacramento, CA 95812-0100 | www.waterboards.ca.gov

Marvin and Alan Rianda

- 2 -

These penalties are in addition to any penalties that may be imposed if the diverter does not hold a valid right or diverts in excess of what is authorized under that right. This letter serves as your notice of the Statement requirement and potential penalty.

If you have any questions, please contact Mr. Chuck Arnold, who is currently assigned to process your revocation, at (916) 341-5634 or by e-mail at Chuck.Arnold@waterboards.ca.gov. Written requests for reinstatement should be mailed to: State Water Resources Control Board, Division of Water Rights, Attn: Chuck Arnold P.O. Box 2000 Sacramento, CA 95812-2000.

Sincerely,

Brian Coats, Supervisor
Watershed Use Evaluation Unit
Division of Water Rights

CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY
STATE WATER RESOURCES CONTROL BOARD

DIVISION OF WATER RIGHTS

In the Matter of License 11705 (Application A025937)

Marvin R. Rianda and Alan J. Rianda

ORDER REVOKING LICENSE

SOURCE: Unnamed Stream

COUNTY: Monterey

WHEREAS:

1. License 11705 was issued to Marvin R. Rianda and Alan J. Rianda on March 8, 1985 pursuant to Application 25937, and was filed with the County Recorder of Monterey County on March 18, 1985.
2. Marvin Rianda requested on December 14, 2015, that the license be revoked by the State Water Resources Control Board (State Water Board), Division of Water Rights (Division).
3. The Division interprets the licensee's request for revocation as a waiver of the notice and hearing requirements set forth in California Water Code sections 1675 through 1675.1.
4. The State Water Board has delegated the authority to revoke water rights to the Deputy Director for the Division, pursuant to Resolution No. 2012-0029. The Deputy Director has redelegated this authority to the Assistant Deputy Directors, Program Managers, and Unit Seniors, pursuant to redelegation Order dated July 6, 2012.

Therefore, it is ordered that License 11705 is hereby revoked by the State Water Board, and the water is declared to be subject to appropriation. This revocation may not result in additional water being available for new appropriations if there are applicable restrictions due to past State Water Board decisions regarding water availability.

STATE WATER RESOURCES CONTROL BOARD

License for Diversion and Use of Water

APPLICATION 25937
Page 1 of 2

PERMIT 17763

LICENSE **11705**

THIS IS TO CERTIFY, That Marvin R. Rianda and Alan J. Rianda
P. O. Box 556
Gonzales, California 93926

have made proof as of July 16, 1984 *(the date of inspection)*
to the satisfaction of the State Water Resources Control Board of a right to the use of the water of
An Unnamed Stream in Monterey County

tributary to Salinas River

for the purpose of Stockwatering use

under Permit 17763 of the Board and that the right to the use of this water has been perfected
in accordance with the laws of California, the Regulations of the Board and the permit terms; that the
priority of this right dates from March 9, 1979 and that the amount of water to which
this right is entitled and hereby confirmed is limited to the amount actually beneficially used for the stated
purposes and shall not exceed six hundred (600) gallons per day to be diverted from
December 1 of each year to August 31 of the succeeding year. The maximum
amount diverted under this license shall not exceed 0.5 acre-foot per year.
The equivalent of such continuous flow allowance for any 30-day period may be
diverted in a shorter time provided there be no interference with other vested
rights and instream beneficial uses; and provided further that all terms or
conditions protecting instream beneficial uses be observed.

THE POINT OF DIVERSION OF SUCH WATER IS LOCATED:

North 1,900 feet and East 1,900 feet from SW corner of Section 4, T17S, R4E,
MDB&M, being within NE $\frac{1}{4}$ of SW $\frac{1}{4}$ of said Section 4.

**A DESCRIPTION OF THE LANDS OR THE PLACE WHERE
SUCH WATER IS PUT TO BENEFICIAL USE IS AS FOLLOWS:**

At two stockwatering troughs located within SW $\frac{1}{4}$ of SW $\frac{1}{4}$ and SE $\frac{1}{4}$ of NW $\frac{1}{4}$ of
Section 3, T17S, R4E, MDB&M, as shown on map on file with State Water Resources
Control Board.

Licensee shall allow representatives of the Board and other parties, as may be authorized from time to time by the Board, reasonable access to project works to determine compliance with the terms of this license.

The quantity of water diverted under this license is subject to modification by the State Water Resources Control Board if, after notice to the licensee and an opportunity for hearing, the Board finds that such modification is necessary to meet water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to Division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the Board finds that (1) adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2) the water quality objectives cannot be achieved solely through the control of waste discharges.

Pursuant to California Water Code Sections 100 and 275 and the public trust doctrine, all rights and privileges under this license, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to protect public trust uses, prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

This continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this license with a view to minimizing waste of water and to meeting the reasonable water requirements of licensee without unreasonable draft on the source. Licensee may be required to implement such programs as (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this license and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

The continuing authority of the board also may be exercised by imposing further limitations on the diversion and use of water by the licensee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the board determines, after notice to affected parties and opportunity for hearing, that such action takes into account the public interest and is necessary to protect public trust uses. All such actions shall conform to the standard of reasonableness contained in Article X, Section 2 of the California Constitution.

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time to time by the Board.

The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion herein specified and to the lands or place of use herein described.

This license is granted and licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the Board.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property cannot agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.
