GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, water previously stored by others, return flows from use of groundwater, or other "foreign" water to the natural stream system.

An appropriative right is required for use of water on non-riparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. After the formation of the California Water Commission back on December 19, 1914, new appropriators have been required to obtain a permit and license from the State. Appropriative rights can be granted to waters "foreign" to the natural stream system.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users as set forth in Water Code section 5100 with specific exceptions. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversions, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include: (1) Statements of Water Diversion and Use, (2) Information Pertaining to Water Rights in California, and (3) Appropriation of Water in California.

### STATEMENT OF WATER DIVERSION AND USE NO. S015481 FOR DIVERSION FROM INDIAN CREEK TRIBUTARY TO TRINITY RIVER IN TRINITY COUNTY

A recent review of the Division of Water Right's (Division) records indicates that you might not have received acknowledgement of your Statement of Water Diversion and Use (Statement) filed on July 2, 2003. Your Statement has been assigned identification number S015481. This number should be referenced in all correspondence with the Division regarding the Statement. Please notify the Division of any change in ownership or mailing address.

A Supplemental Statement of Water Diversion and Use (Supplemental Statement) will be mailed to you every three years, and must be filed with the Division prior to July 1 of that year. There is no fee for filing a Supplemental Statement. The submittal of a Supplemental Statement is a record of your water use. It is used by the Division to verify existing data and to notify you of water right matters related to your [riparian, pre-1914] claim.

If you have questions or concerns regarding this matter, please contact me at (916) 341-5376 or at [brigby@waterboards.ca.gov](mailto:brigby@waterboards.ca.gov).

Re: Your Statement No. SO 15481

Dear Mr. Herrera:

A few weeks ago I received Statement No. SO 15481 that asks for diversion information for the years 2003, 2004, and 2005. The form also says it should be returned by July 1, 2005. A copy of is enclose.

On March 30, 2005 you sent me a Water Rights Order that approved a change in diversion and purpose of use for pre-1914 appropriative right on Indian Creek, Trinity County. That Water Rights Order was the culmination of a multi-year project I initiated with the Department of Fish and Game whereby I dedicated a substantial portion of my water right to the environment under Water Code 1707. My project with DF & G bore their contract number PO1 10320. James Thompson was the DF & G representative who was the project manager. The details of that project are in your file concerning the Water Rights Order issued in March of 2005.

I do not know how to fill out the Statement No. SO 15481. It does not seem to be designed to fit my situation. Could you please have one of your staff look into this and advise me.

Thank you for your assistance.

Very truly yours,

## TO ALL WATER USERS FILING SUPPLEMENTAL STATEMENTS OF WATER DIVERSION AND USE MARCH 2006

Enclosed is your Supplemental Statement of Water Diversion and Use Form (Statement) for years 2003, 2004, and 2005. All Statements should be completed and postmarked no later than **JULY 1, 2006** for delivery to the State Water Resources Control Board (State Water Board). If you do not file a Statement for six consecutive years, your use will be considered inactive, and the State Water Board will no longer mail you Statements to record your diversion and use of water. If you wish to reactivate an inactive Statement, please contact our office.

We ask for your assistance in correcting any errors that may be shown on the enclosed Statement(s) so that we can update our database. Please review the information in the upper half of the form and make any corrections or additions in red ink or pencil (e.g., corrections to current ownership, address, phone number, agent, etc.).

A separate Statement is required for each point of diversion. Please complete to the best of your knowledge each enclosed Statement for the specific point of diversion identified on the form. If the location of the existing point of diversion has changed, please identify the new location. However, if you have developed a new point of diversion, in addition to the existing point of diversion, please contact us, and we will supply you with a separate form to record the new diversion.

Please contact Susan Wilson at (916) 341-5315 if you have any questions or need assistance.
