

2010 Cleanup and Abatement Projects

SWRCB DIVISION OR REGION	TITLE	DESCRIPTION	AMOUNT APPROVED	START DATE
3	San Jerado Wastewater Improvement Project	Temporary drinking water treatment system for the small disadvantage community of San Jerardo. Monterey County is installing a new drinking water well and decommissioning the older well and treatment system. CAA is paying for the operation and maintenance for the treatment system to continue until the new well is operational.	\$222,600.00	3/16/2010
4	Colorado Lagoon Dredging and Restoration	The Lagoon is listed as an impaired water body as a result of multiple contaminants in the sediment resulting in sediment toxicity, and also elevated contaminants in fish and mussel tissue. Bacterial contamination is also a continuing problem. The project will dredge and dispose of the contaminated sediments, re-contour, and replant the banks with native vegetation.	\$1,799,803.00	3/16/2010
5	The Bonzi Landfill Groundwater Corrective Action Emergency Fund	Hire a consultant to oversee the groundwater treatment system at Bonzi Landfill	\$100,000.00	2/25/2010
5	Glennville Shopping Center	To construct a community water supply system to replace individual private water wells	\$98,000.00	4/17/2010
5	Barstow Street/El Monte Triangle	Investigation & cleanup of contaminated soil and groundwater impacted by VOCs (primarily TCE) in a blighted area of Sacramento County	\$794,324.00	5/4/2010,
5	Walker Mine Acid Mine Drainage Abatement Project	To continue the inspection, maintenance, and repairs to the 700-Level Adit in Walker Mine; the mine seal, stainless steel piping, and valves were installed in 1987 and these need to be inspected and physically tested	\$600,000.00	5/18/2010
5	ERMAC -Emergency Coordination Staff Oversight	ERMAC -Emergency Coordination Staff Oversight	\$27,000.00	6/21/2010
5	Central Valley Salt and Nutrient Plan - Additional Funds	The Development of a Salinity and Nutrient Management Plan	\$3,800,000.00	9/7/2010
6	Asian Clam Pilot Program Expansion (Additional Funding)	To implement three Asian Clam control projects to be conducted in the 2010, 2011, and 2012 field seasons	\$588,720.00	6/15/2010
6	Barstow Well Contamination Project	Barstow Well Contamination Cleanup	\$11,000.00	11/22/2010
8	Illegal Dumping at Vander Eyk Dairy (Heifer Ranch)	Illegal dumping activities were taking place at the Heifer Ranch. The funds are being used to pay for lab costs associated with analyzing soil, sludge and/or water samples collected during the execution of a search warrant at the facility.	\$10,000.00	10/5/2010
DFA	New River Improvement Project	Conduct a study to fill data gaps regarding current and projected New River water quality and further identify parties in Imperial County with legal responsibility for New River cleanup. Collection and analyses of data will be part of a Strategic Plan to guide implementation of the New River Improvement Project required under AB 1079.	\$400,000.00	4/20/2010
DFA	Calexico WWTP Emergency Repair Project	Repair of the 36-inch gravity sewer trunk line that was damaged in the April 4, 2010 earthquake.	\$100,000.00	6/1/2010
DFA	Abandoned Vessel Cleanup Project	Removal of abandoned vessels, trash, and various items on old docks that are leaking contamination into the Sacramento-San Joaquin Delta.	\$100,000.00	2/24/2010
DWQ	Mercury Listing and Cleanup Tool Development and Demonstration Cleanup Project	Develop a tool for evaluating mercury cleanups and identifying mercury-impaired water bodies; evaluate effectiveness of the tool with a cleanup demonstration project to stabilize mercury-contaminated hydraulic mining debris.	\$702,000.00	7/6/2010
TOTAL \$			9,353,447
