EXECUTIVE DIRECTOR APPROVAL OF THE PROPOSITION 84 STORMWATER GRANT PROGRAM (SWGP) ROUND 2 IMPLEMENTATION RECOMMENDED FUNDING LIST (RECOMMENDED FUNDING LIST)

BACKGROUND

Proposition 84, the Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Bond Act of 2006, was approved by California voters in the general election on November 7, 2006. Proposition 84 provided the State Water Resources Control Board (State Water Board) with $90 million for matching grants to local public agencies for the reduction and prevention of stormwater contamination of rivers, lakes, and streams (PRC § 75050[m]). After bond and program administration costs, approximately $82 million was available for projects. Additional funding for the SWGP was available from remaining Proposition 40 funds. The State Water Board has existing appropriations of Propositions 84 and 40 funds. The remaining Proposition 84 and Proposition 40 funds will be available for the SWGP if the fiscal year (FY) 14-15 Budget provides the authority.

The State Water Board adopted Guidelines for administering the SWGP on August 20, 2013 (Resolution 2013-0024). The Recommended Funding List (Attachment 1) was developed in accordance with the Guidelines. A solicitation for concept proposals was released on September 19, 2013 with approximately $38 million available for Round 2 Implementation projects. Applicants submitted a total of 117 concept proposals that were subsequently reviewed and scored by Water Board staff. Based on the concept proposal reviews, 41 applicants were invited to submit Full Proposals (FPs) in December 2013. FPs were reviewed, scored and ranked using the criteria and process in the Guidelines to develop the Recommended Funding List. The Recommended Funding List identifies projects that are 1) recommended for funding as proposed, or 2) conditionally recommended pending submittal of additional or clarifying information.

APPROVAL

I, Thomas Howard, Executive Director of the State Water Board, approve the Recommended Funding List (Attachment 1) and the respective project ranking, contingent upon enactment of the FY 14-15 Budget Act. A total of 27 projects are approved; 23 projects are approved as submitted, and four projects are approved pending acceptable and timely revisions to their scopes of work and/or budgets. The Recommended Funding List was developed in accordance with the SWGP Guidelines. The total funding for the recommended projects is $38,773,008, although the budgets for several projects are yet to be finalized.

Projects may be removed from the Recommended Funding List by the Deputy Director of the Division of Financial Assistance (Division) if applicants do not respond to requests for changes to the scopes of work and budgets in a timely and appropriate manner. The Deputy Director of the Division is authorized to utilize existing appropriations to execute grant agreements prior to enactment of the FY 14-15 Budget Act.

Approved: Thomas Howard Date: 5/15/14

Thomas Howard
Executive Director
State Water Resources Control Board
