

#31

Dear members of the board,

30.1

I write to you as a concerned veteran and student living in Northern California. I have never thought of myself as an environmentalist but the recent turn of events that have and are taking place in our state and globally has caused me to reconsider. Although I may not fully understand the implications that an active enforcement of regulating negligent water use may have, it seems that no enforcement has much graver results. I am in full support of these regulations. It is better that we all suffer a little, then a few of us suffer a lot.

Thank you for your time and consideration,

Sincerely,
Shane Wachlin
