

Your Board meets Friday - Orange County CA just alerted us here is Silverado CA that our creek is impaired and some kind of kockamammie septic tier system is being voted on.

- 1 → There is not enough time to react to this issue - there is NO Plan in place - no options - I do not believe a BROAD should be able to vote on something us citizens had no say about from the beginning.
- 2 → I understand about the EPA Czar (on the verge of socialism/communism) told the states which told the counties which dragged their feet because they don't know where to find the money to implement let alone how to tell us (2.5 days before the vote)
- 3 → There could be many other ways besides the tiered program - and from what I have heard of this matter - our county officials do not know ANYTHING.

I would say only 1% of our canyon knows what you're up to and would be outrage at this tactics.

- 4 → Please postpone this vote until all involved have been notified - do not just do what the Feds say without thinking it through.
