Introduction

The [Industrial General Permit \(Order 2014-0057-DWQ\)](#), referred to as the IGP for the purposes of this document, regulates storm water discharges associated with industrial activities. Dischargers are required to certify and submit all permit-related compliance documents via the Storm Water Multiple Application and Report Tracking System ([SMARTS](#)). Dischargers shall certify and submit these documents which include, but are not limited to, Permit Registration Documents (PRDs) including Notices of Intent (NOIs), No Exposure Certifications (NECs), and Storm Water Pollution Prevention Plans (SWPPPs), as well as Annual Reports, Notices of Termination (NOTs), Level 1 ERA Reports, and Level 2 ERA Technical Reports.

This guide was developed to assist Dischargers in submitting their NOIs, NECs, NOTs, and Annual Reports, as well as, viewing/printing Receipt Letters, monitoring the status of submitted documents, and viewing their application/renewal fee statements through SMARTS. This guide contains general guidance, detailed information on how to access SMARTS, how to complete the required applications, a list of acronyms, frequently asked questions, and a glossary. This guidance document is a “living document” and will be updated as necessary.
