In re:
State Water Resources Control Board

**NOTICE OF APPROVAL OF REGULATORY
ACTION**

Regulatory Action:

Government Code Section 11353

Title 23, California Code of Regulations

OAL File No. 2015-0403-01 S

Adopt sections:
Amend sections: 2916
Repeal sections:

At a hearing on February 3, 2015, the State Water Resources Control Board adopted Resolution No. 2015-0005, amending the Water Quality Control Policy for Developing California's Clean Water Act Section 303(d) List. This amendment, which is summarized in section 2916 of title 23 of the California Code of Regulations, updates the process by which the 303(d) List is compiled, streamlines the public participation and review processes, and includes new information regarding the use of sediment quality objectives.

OAL approves this regulatory action pursuant to section 11353 of the Government Code.

Date: 5/15/2015

Eric Partington
Attorney

For: DEBRA M. CORNEZ
Director

Concise Summary of Regulatory Provisions

Title 23. Waters

Division 3. State Water Resources Control Board and Regional Water Quality Control Boards

Chapter 22. State Policy for Water Quality Control

23 CCR § 2916

§ 2916. Water Quality Control Policy for Developing California's Clean Water Act Section 303(d) List.

On September 30, 2004, the State Water Resources Control Board (SWRCB State Water Board) adopted Resolution No. 2004-0063 adopting the Water Quality Control Policy for Developing California's Clean Water Act Section 303(d) List(Policy) in accordance with California Water Code section 13191.3(a).

The Policy describes the process by which SWRCB State Water Board and the Regional Water Quality Control Boards (RWQCBs Regional Water Board) will comply with the listing requirements of section 303(d) of the federal Clean Water Act. The objective of the Policy is to establish a standardized approach for developing California's section 303(d) list in order to achieve the overall goal of achieving water quality standards and maintaining beneficial uses in all of California's surface waters. Total Maximum Daily Loads (TMDLs) will be developed as needed for the waters identified under the provisions of the Policy.

The Policy outlines a weight of evidence approach that provides the decision rules for different kinds of data; an approach for analyzing data statistically; and requirements for data quality, data quantity, and administration of the listing process. Decision rules for listing and delisting are provided for: chemical-specific water quality standards; bacterial water quality standards; health advisories; bioaccumulation of chemicals in aquatic life tissues; nuisance such as trash, odor, and foam; nutrients; water and sediment toxicity; adverse biological response; and degradation of aquatic life populations and communities. The Policy also requires that situation-specific weight of evidence listing or delisting factors be used if available information indicates water quality standards are not attained or attained and the other decision rules do not support listing or delisting. The Policy requires schedules for TMDL development.

The Policy also provides direction related to:

1. The definition of readily available data and information.
2. Administration of the listing process including data solicitation and fact sheet preparation.
3. Interpretation of narrative water quality objectives using numeric evaluation guidelines.
4. Data quality assessments.
