> Subject: Pathogens in Tomales Bay - Attn. Ms. Song-Her, Clerk to the board
> Date: Thu, 4 May 2006 13:36:15 -0700
>
> Dear Ms. Song-Her:
>
> On behalf of the Marin Horse Council, I am stating our position on the
> above subject and future plans for Tomales Bay.
>
> It has always been the position of the MHC that the waters of the Bay
> absolutely must be tested for DNA identification
> before any plans are made or implemented to clean up the waters.
>
> DNA testing has been successfully used in other areas of California
> (Bodega Bay, Morro Bay) and is routinely used in Europe.
>
> To NOT avail yourselves of the latest scientific techniques to positively
> identify pathogen sources of Tomales Bay borders on the irresponsible.
> There can be no certitude without such pinpoint tests.
>
> Yours sincerely, Connie Berto, Director, Marin Horse Council
