SEPTEMBER 2009 FINAL STAFF REPORT

APPENDIX A
PROPOSED CHANGES TO THE 303(d) LIST

CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

THIS PAGE IS INTENTIONALLY BLANK

This Appendix shows the proposed additions to and deletions from the 303(d) list for the Central Valley Region. Additions (new waterbody segment-pollutant combinations) are shown in **bold** and deletions (de-listings of waterbody segment-pollutant combinations already on the list) are shown in ~~strike through~~. Both waterbody segments - pollutant combinations requiring TMDLs and those for which TMDLs have been completed are shown. This Appendix is provided as a reference only. The category 4 and 5 water body segment lists show the complete proposed updated 303(d) list. The data, information and assessment supporting each proposed change are contained in the fact sheets in Appendix F. In addition to the changes shown below, some water body segments' names and/or geographic delineations have been revised. Changes to water body segment names and delineations are all documented in "Miscellaneous Changes" fact sheets in Appendix G. The potential sources listed are based on preliminary assessments and do not include all potential sources.
