Subject: Laguna Beach 303(d) Data and Information

Good afternoon,

The City of Laguna Beach is submitting comments to the Region 9 Water Quality Control Board pursuant to the request issued in a letter dated 12/4/2006. The information is compiled in a report authored by Weston Solutions using data from the Orange County Health Care Agency and South Orange County Wastewater Authority. The raw data used in the report may be found at: <http://www.ocbeachinfo.com/downloads/data/index.htm>

Due to the size of the files associated with the report, I have posted all of the documents for download from the City's website in the following location:

http://www.lagunabeachcity.net/government/departments/waterquality/303d_docs/

To download, simply right-click the link to each document and choose to save or open the document. All are .pdf files.

Please contact me with any questions or problems.

Thank you,
Will Holoman
