Hi Alan,

S14 is a South Orange County Wastewater Authority (SOCWA) station monitored for their outfall permit. I have the location listed as "Victoria Beach". When I map the location it is located at the end of Dumond Dr. Our department also has a station at the end of Dumond Dr. called DUMOND. S14 and DUMOND appear to be essentially the same location but based upon the fact sheets only data from S14 was used for the decision. The 2006 list referred to Lagunita Place as at Lagunita Place/Blue Lagoon which would make it station S13 which I have as simply "Blue Lagoon". Attached are two Google Earth layers to assist in addressing our comments and discussions as to station locations. One is the 2006 303(d) listed segments for South Orange County created from the State Board GIS layer. The second is a layer showing the location of all the stations regularly monitored for indicator bacteria. Hopefully you have access to Google Earth? Let me know if you have any questions.

Thanks,

Kacen

Subject: Laguna Beach HSA question

Hey Kacen

I got a question for you on a Station name. This is in regards to your comment letter, table 1, Laguna HSA section, last question on station

S14. Looking at the Weston Report for the City of Laguna Beach (Feb 2007) I see S14 referred to as Lagunita Place (see pg 7, Figure 1) but in Table 3 its Dumond Drive (Victoria Beach at Dumond dr).

I just wanted to confirm with you the proper name for S14 is Dumond Dr, not Lagunita Place.

Thanks

Alan
