## NOTICE OF TWO PUBLIC CEQA SCOPING MEETINGS

### PROPOSED STATE WATER QUALITY CONTROL POLICY FOR CONTROLLING TRASH IN WATERS OF THE STATE

**October 7, 2010**

**10:00 a.m.**

Central Valley Water Quality Control Board  
11020 Sun Center Drive, #200  
Rancho Cordova, CA 95670

**October 14, 2010**

**2:00 p.m.**

Inland Empire Utility Agency  
6075 Kimball Avenue  
Chino, CA 91708

**NOTICE IS HEREBY GIVEN** that the State Water Resources Control Board (State Water Board) staff will hold a California Environmental Quality Act (CEQA) scoping meetings to seek input on the scope and content of the environmental information that should be considered in developing a Statewide Policy for Controlling Trash in Waters of the State (Trash Policy). The proposed Policy could contain policy statements, water quality objectives and/or implementation provisions.

The scoping meetings will provide a forum for early public consultation on the proposed amendment of the Policy and the environmental impacts thereof. This consultation will assist the State Water Board and its staff to determine the scope and content of the environmental review, and to consider input from Responsible and Trustee Agencies, as well as other interested parties. A quorum of State Water Board members may be present; however, the State Water Board will not take any action at these meetings.

Scoping is helpful to the State Water Board in identifying the range of actions, alternatives, mitigation measures, and significant environmental effects that must be analyzed before it makes a decision regarding the policy. Scoping is an effective way to bring together and resolve the concerns of affected federal, state, and local agencies, the proponent of the action, and other interested persons, including those who might not agree with the proposed action on environmental or other grounds.
