County of Sacramento

December 27, 2013

Mr. Andrew Cooper
State Water Resources Control Board
1001 I Street, 16th Floor
Sacramento, CA 95814

Dear Mr. Cooper:

**SUBJECT: COMMENT LETTER
P&P BUILDING WRECKING, INC. COMPANY CASE CLOSURE SUMMARY**

The Environmental Compliance Division (ECD) has received the *Notice of Opportunity for Public Comment*, dated November 4, 2013 prepared by the State Water Resources Control Board, for the subject property. The ECD stands by our previous determination that additional historical data concerning this site must be provided before a Conceptual Site Model can be developed to satisfy the Low-Threat Closure Policy. This historical data includes the results of samples collected during tank removal, the extent of the over-excavation and the location of over-excavation samples with analytical results and hydropunch sampling results.

You may contact me by telephone at (916) 876-7560 or by e-mail at bellanj@sacccounty.net if you wish to discuss the above comments or any aspect of the site.

Sincerely,

Jack Bellan
