

Photo taken 4/20/09. Unnamed creek downstream of the current point of discharge. This is upstream of monitoring location RSW-002 in the Waste Discharge Requirements Order R5-2007-0016. This flow is expected to continue, minus the domestic wastewater component which will be diverted to the Artificial Wetlands project.

Photo taken 4/20/09. Unnamed creek and surrounding vegetation downstream of the current point of discharge. This is upstream of monitoring location RSW-002 in the Waste Discharge Requirements Order R5-2007-0016. This flow is expected to continue, minus the domestic wastewater component which will be diverted to the Artificial Wetlands project.
