BDCP/CA Water Fix staff,

For the official record, please find attached two documents for our comments on the BDCP/CA WaterFix RDEIR/SDEIS. **These are our final documents for our opposition letters.** We sent one previously yesterday and one via postal mail.

Attached:

- 1) Our letter and added comments by signees (.PDF file)
- 2) Our sheet with all names of signees (Current total: 11,230) (.Excel file)

Our letter was signed and sent by 11,230 individuals via Change.org, in addition to added custom comments by signees. To see our petition, visit this URL: <https://www.change.org/p/take-action-oppose-the-delta-tunnels>

Sincerely,

Barbara Barrigan-Parrilla

Restore the Delta

Recipient: BDCP/California WaterFix and Gov. Jerry Brown

Letter: Greetings,

Subject: Oppose the Delta Tunnels/California Water Fix (Alternative 4A)

I am writing to express my strong opposition to the Delta Tunnels plan.

The Delta Reform Act of 2009, in which the California State Legislature committed to the “coequal goals” of providing a more reliable water supply for California AND protecting and restoring the cultural, recreational, natural resource, and agricultural values of the Delta, cannot be upheld if the Delta Tunnels come to pass.

The California Water Fix does not meet the restoration goals of the Delta Reform Act; it is simply a plan to export more water out of the San Francisco Bay-Delta estuary. The Delta Tunnels will also fail to provide more reliable water because the Delta watershed is already oversubscribed by five times in normal water years.

My objections to the tunnels are threefold:

The California Water Fix does not address the environmental, public health or economic impacts of the proposed Delta tunnels project. Also, the plan ignores alternatives that would save California tax and ratepayers billions of dollars, while investing in the jobs and local water sources that build sustainability.

My environmental concerns with the plan are:

- The impact on wildlife and plant species in the Delta that depend on freshwater include the Delta smelt, chinook salmon, steelhead, San Joaquin kit fox, and tricolored blackbird, protected species already on the brink that will face decimation due to a diminishing food-web.
- At sea, even the ESA-listed South Pacific Puget Sound Orca Whales depend on migrating Delta species that will be harmed by less water flowing through the Delta.
- The tunnels plan seems to ignore Section 7 of the Endangered Species Act which prohibits federal agency actions that are likely to jeopardize the continued

existence of any endangered species or that “result in the destruction or adverse modification of [critical] habitat of [listed] species.”

My public health concerns with the plan are:

- The tunnels will cause increased contamination of municipal water and wells for the millions of rural and urban residents living in the five Delta counties.
- The tunnels plan fails to model for potential increases of carcinogens and other formation of byproducts that would cause cancer and other serious health effects.
- Environmental justice communities, who depend on subsistence fishing, will also face food and health insecurities as a result of increased contaminants, specifically mercury contamination, in fish and wildlife populations.

My economic concerns with the plan are:

- For large metropolitan cities such as Los Angeles and San Jose that depend on export water, water rates and/or property taxes will go up, but they will get no additional water.
- No analysis has been done on how the lack of fresh water flows will impact San Francisco Bay tourism and recreation. These industries depend on Delta fresh water flows for their crab and salmon fisheries, wildlife sighting, boating, and their restaurant economy. This industry is worth billions annually.
- Salinity intrusion is already impacting the western Delta farms and removing Sacramento River freshwater from the system will make matters worse. Delta farmers cannot irrigate crops with salt water and they certainly cannot plant crops in contaminated soils. The Delta Ag economy, which consists of generations of family farms and farm workers, generates \$5.2 billion for the California economy, annually.
- California coastal fishing communities depend on thriving wildlife. This historic industry is worth billions annually, with the salmon industry worth \$1.5 billion annually alone. Thousands of jobs and livelihoods are tied to these industries.
- The operation and construction of the tunnels will obstruct and disable navigable waterways for boating, marinas and other types of leisure activities, in addition to creating conditions of low water flow that will foster invasive aquatic species, such as water hyacinth. Poor water quality also creates unsafe recreation. Recreation and tourism in the Delta generate \$750 million annually.

Alternatives to Water Exports Ignored

Far far less expensive and less environmentally destructive alternatives to the Delta Tunnels were largely ignored. The plan does not seriously consider any alternatives other than new, upstream conveyance. The decision-making process (from the outset) has tilted in favor of increasing water exports from the Delta.

Our tax and ratepayer dollars would be much better spent on:

- More aggressive water efficiency program statewide that would apply to both urban and agricultural users.
- Funding water recycling and groundwater recharging projects statewide that would be billions of dollars less expensive for rate payers than constructing a new version of the Peripheral Canal or major new surface storage dams. Meanwhile, these projects move communities towards water sustainability.
- Retiring thousands of acres of impaired and pollution generating farmlands in the southern San Joaquin Valley and using those lands for more sustainable and profitable uses, such as solar energy generation.
- Improving Delta levees in order to address potential earthquake, flooding, and future sea level rise concerns at a cost between \$2 to \$4 billion and is orders of-magnitude less expensive than major conveyance projects that are currently being contemplated.
- Increasing freshwater flows through the Delta to reduce pollutants so ecosystems and wildlife can be restored.
- Installing fish screens at the south Delta pumps to reduce the current salvage of marine life.

In Summary

The Delta has problems that need to be addressed, but the CA Water Fix tunnels are a 20th century idea that won't fix them. It won't produce more water, more reliable supplies, or improved conditions for the environment in the Delta.

The new EIR/EIS has not adequately addressed my above stated concerns. That is why I oppose the Delta Tunnels/California Water Fix (Alternative 4A).

Reclamation and DWR should prepare and circulate a new Draft EIR/EIS that will include alternatives that reduce water exports and increase Delta flows for consideration by the public and decision-makers. Such alternatives have a far

better chance of complying with the Delta Reform Act and the federal Endangered Species and Clean Water Acts.

Comments

| Name | Location | Date | Comment |
|---------------------------|-------------------|------------|---|
| Rae Bordua | San Francisco, CA | 2015-08-25 | This is a bad deal for everyone in the State except Brown's corporate farm campaign contributors. |
| Pamela Luiz | Antioch, CA | 2015-08-25 | The Delta Tunnels are not a solution to California's water woes and nor were the peripheral canal boondoggle. We need to look at other countries and within ourselves to find water saving and collection methods that ranchers, farmers and urban folk can use. |
| John Posthauer | Pleasant Hill, CA | 2015-08-25 | This is an insane use of money. Boondoggle! |
| Grant Fisk | Rio Vista, CA | 2015-08-25 | I grew up on the Delta, and these tunnels will destroy it. They only benefit SoCal. |
| Barbara Barrigan-Parrilla | Stockton, CA | 2015-08-25 | I am signing because the Delta tunnels will kill the most magnificent estuary on the west coast of the Americas and the future of California! |
| Joseph let | Sacramento, CA | 2015-08-25 | Because I care about our Delta's future ! |
| Michael Bouler | Sacramento, CA | 2015-08-25 | A huge waste of taxpayers dollars! |
| Michael Greggans | Discovery Bay, CA | 2015-08-25 | the tunnel plan is Governor Browns 40 year wet dream. It will destroy the Sacramento/San Francisco Delta and we need a higher authority to stop Brown since the tunnels are not a ballot issue in Northern California where the affected region exists. |
| hask Krebs | Rio Vista, CA | 2015-08-25 | This is Jerry wanting to complete what his papa started so many years ago. I hope it is political suicide for the idiots in Sacramento, but people in So Cal don't give any thought to the fact that if this happens, they will be the losers eventually also. Face it they have more votes than we do! |
| Doug Dutra | Turlock, CA | 2015-08-25 | Politicians are money Grabin unprofessional people I have met Jerry Brown needs to go in the Tunnels need to stop now |
| Monica Hopwood | Antioch, CA | 2015-08-25 | I am signing this petition because the tunnels are a bad idea. Your just draining the water from the reservoirs we currently have, as well as the delta, which many peoples livelihoods count on. The state needs to look into creating more water storages and ways to create water (desalination plants). |
| Anthony teitsworth | Fair Oaks, CA | 2015-08-25 | Because this is a water grab that will not benefit California's future. |
| Lisa Kovaleski | San Jose, CA | 2015-08-25 | The tunnels are an ill thought out water grab by big ag who are growing water thirsty crops in the desert. No responsibility, no sustainability, no plan for California's future water needs. Just flat out selfishishness and greed to grow the bottom line by big Ag. |
| Susan Harman | Oakland, CA | 2015-08-26 | I trust Restore the Delta and they say NO TUNNELS. |
| Ed Kingen | Walnut Grove, CA | 2015-08-26 | I'm signing because between technology, conservation and additional storage this is what will resolve this issue for future generations. Building aqueducts was a Roman invention 3000 years ago, California with silicon valley following in the Roman's foot steps is more of a governmental trait and not entrepreneurial and we Californian's expect more from our leaders today or we need to find new leadership. |
| jeff justh | stockton, CA | 2015-08-26 | This is the most irresponsible Socal water grab imagineable. Let them start desalination projects immediately and leave our Delta ALONE!!!! |

Petition 1 - Restore the Delta (Form 5 generator)

| Name | Location | Date | Comment |
|-----------------------|--------------------|------------|---|
| Gia Moreno | Sacramento, CA | 2015-08-26 | I do not want the Delta to be ruined. I don't want my grandparents, aunts, uncles, cousins, and friends evicted from their homes. I don't want my friends to lose their businesses. I'm not willing to let the people I love suffer because of tunnels that California doesn't need. The tunnels are not a solution to our water problems. |
| Wendi Maxwell | Stockton, CA | 2015-08-26 | We need PRACTICAL water policy for the 21st century, not a pie-in-the-sky plan to prolong our 19th century water rights wars. |
| Guy Nesbitt | Elk Grove, CA | 2015-08-26 | I oppose the tunnels |
| Jeff van Loben Sels | Sacramento, CA | 2015-08-26 | I believe this is a colossal mistake on so many levels for our state—financial, environmental. There are simpler ways to solve our water problems. |
| Kim Carone | Knightsen, CA | 2015-08-26 | I support our local farms and the Delta. Keep the water here in our local area. It isn't our fault that Southern CA is so irresponsible. |
| Kelley Graupensperger | Rio Vista, CA | 2015-08-26 | I live in the Delta and want to protect my business, my family and my way of life! |
| Colleen Beatty | Orangevale, CA | 2015-08-26 | The plan is wrong |
| Nicolaus Seppi | Hood, CA | 2015-08-26 | The current plan calls for bulldozing my family home, destroying half of my hometown, and ruining thousands of acres of fertile farmland, as well as threatening the entire Delta with salt water intrusion. All for a gift from the governor to Big Ag in the Central Valley so they can keep wasting it. In the middle of the worst drought in our history. |
| Kenneth Shaw | Turlock, CA | 2015-08-26 | I am a delta boater & am concerned that the tunnels will ruin the environment. Wildlife will be displaced for the benefit of big time ag interests. |
| Susie Weller | Isleton, CA | 2015-08-26 | I am opposed to the Delta tunnels |
| Patrick Tully | Sacramento, CA | 2015-08-26 | I'm signing because the California Delta is a unique place which must be preserved. As the largest estuary on the West Coast it supports a diversity of life which will be irreversibly damaged by the reduction of fresh water into the natural balance of the ecosystem. |
| katie cook | antioch, CA | 2015-08-26 | I live on the Delta. I care about our ecosystem. Once destroyed, it will never be the same again. Please make reservoirs, or other ways to have water. Save our Delta for future generations! |
| Kathleen Coles | San Jose, CA | 2015-08-26 | I want to protect the Sacramento Delta ecosystem for fish & wildlife, local agriculture, and recreation enjoyment! |
| Sally Kulik | Stockton, CA | 2015-08-26 | I am 100% opposed to the tunnels. We need to preserve our Delta which is a treasure. It is also such a waste of money that could be used elsewhere so much more effectively. |
| Felix Lopez | Stockton, CA | 2015-08-26 | I am signing this petition because I love the Delta and want to help preserve it. |
| Michael Cendejas Jr. | Antioch, CA | 2015-08-26 | NO tunnels, makes NO sense, creates NO water!!! |
| Rae Bordua | San Francisco, CA | 2015-08-26 | I'm signing because this is an outrageous ripoff of the CA taxpayers to transfer senior water rights to Jerry Brown's corporate farm campaign contributors, with no benefits to or financial protection for the public who is expected to pay for this. |
| Joyce Bower | Citrus Heights, CA | 2015-08-26 | The delta is a priceless wetland, and its destruction via the tunnels would be deadly to wildlife already in crisis. Such a move would be extremely short-sighted and would not solve water issues long term. I believe we should control the urge to just do something even if it's wrong, and resolve to be wise and wonderful instead. |
| Anne Whitehurst | San Jose, CA | 2015-08-26 | I love the Delta and support the people who live there. |

| Name | Location | Date | Comment |
|--------------------------|-------------------|------------|--|
| j prola | Roseville, CA | 2015-08-26 | the governor will devastate the delta with his plan for tunnels and ruin northern ca by sending our water south |
| Kay Nelson | Vacaville, CA | 2015-08-26 | These tunnels are a boondoggle that will stick Calif. taxpayers with huge tax burden for decades to come! NO TUNNELS! There are better ideas. |
| Jeanine Journeaux | Walnut Grove, CA | 2015-08-26 | I love on the delta and want. My children to enjoy it as I have. |
| Sean Matthews | San Francisco, CA | 2015-08-26 | We need to be cutting back on water used for agriculture used in the state and growing water wise crops in low evaporation regions as well as regulating ground water use. Keep ecosystems healthy and in-tact, don't put them and the wildlife that are a part of them at risk by sending water to southern California. |
| Julie Damron | Lodi, CA | 2015-08-26 | the tunnels will destroy the delta |
| Susan Thompson | Modesto, CA | 2015-08-26 | These tunnels will destroy, not help. |
| Jeannie Guttenberg | Rodeo, CA | 2015-08-26 | The Delta will be ruined!! These tunnels will help big business in SoCal. The state is going to use eminent domain to steal land from 300 farms. This has got to be stopped. |
| Ronda Howard | Ryde, CA | 2015-08-26 | We raised our kids on the Delta, we have boated, camped, held family events, and even had a wedding or two. Not too mention that my grandson is now a master fisher kid. The tunnels will ruin the Delta period!! And, I am pretty sure you all know it. Please reconsider this terrible idea and build much needed reservoirs, and de-salinization plants. But, don't kill the look, history, wildlife, fish and turn this place into a waste land. We beg you! |
| Ed Stetson | Stockton, CA | 2015-08-26 | I believe the tunnel project will, ultimately result in major harm to agriculture , the ecology, boating, the economic health of the region, and the end of the delta as we know it . Instead we need to spend the \$ on ways to increase the water available to the State. |
| Donna Brown | Stockton, CA | 2015-08-26 | If water is diverted from the Delta it will cause stagnation and allow the intrusion of salt water from the bay. That would be deadly for fish, crops and our water supply. |
| Sam Ruiz | Stockton, CA | 2015-08-26 | I'm signing because we need more water storage and because the tunnels will not produce a single drop of new water, they just move it from one place to another. |
| Michelle Coles | Burlingame, CA | 2015-08-26 | It is a destructive idea! |
| Terrill Leavitt | Oakley, CA | 2015-08-26 | One single man Jerry Brown should not try to for fill his father's legacy X! One man should not dictate to the entire state, put it to a vote relation mark |
| JoAnne And George mcGill | Stockton, CA | 2015-08-26 | it is wrong and will ruin everything from farming to fishing....let Los Angeles use there Ocean for their water, they already take Colorados water...fill your swimming pools with the ocean water, and build your salt stations for your drinking water, we need to be able to farm so you my friends can have food, where the hell do you think it comes from !!!!! |
| Jennifer Mossor | Discovery Bay, CA | 2015-08-26 | I'm signing because the tunnels will ruin where I live in Discovery Bay. Take away water from us and put a disgusting dump pile by my house. |
| Sherry Tankersley | Stockton, CA | 2015-08-26 | We do not need these tunnels. We have prime farming ground here that we need to continue to utilize. These tunnels will take vital farming land from families as well as harm the farming industry in the valley, which in turn will affect us all. |
| Paul Hopwood | Antioch, CA | 2015-08-26 | I'm signing because I want to protect the Delta's ecosystem |

| Name | Location | Date | Comment |
|-----------------|--------------------|------------|--|
| Janet Brown | Knightsen, CA | 2015-08-26 | it should be criminal to do what the governor is pushing. How can you possibly consider displacing 300 or more families - many of whom are farmers - along with displacement of thousands of yards of dirt and sending water to southern California who does nothing to preserve it. We were fools to vote him back in the office aren't his trains enough??? DO NOT DO THIS !!!! Janet E. Brown |
| kevin cave | stockton, CA | 2015-08-26 | To stop the tunnels |
| Jon Weber | San Jose, CA | 2015-08-26 | The Delta is already under attack by previous water exports. This will not fix Californians water problems by stealing land and more water for big ag and So. California. The money needs to be spent on current problems and future water conservation measures. Hell, start by requiring all new housing to have cisterns for outdoor irrigation and emergency drinking water for after a disaster. NO TUNNELS. NO KILLING OF THE DELTA. |
| Tasha Marroquin | Rio Vista, CA | 2015-08-26 | You can't water crops with salt water! |
| Gregg Scott | Lacey, WA | 2015-08-26 | I don't want money spent on tunnels when we should be converting sea water to drinking water. |
| Gale Silveira | Woodbridge, CA | 2015-08-26 | I strongly oppose the tunnels as they will destroy our beautiful delta and all it's many benefits to so many forms of life. |
| Sue Tipp | Saint Helena, CA | 2015-08-26 | I have a business and home in the delta and it very wrong to destroy the habitat with the infiltration of salt water to the area |
| Mary McKinney | Concord, CA | 2015-08-26 | I'm tired of southern Ca being given preferential treatment. I'm tired of seeing what is notably desert with communities of green yards. I've lived in both northern and southern parts of the state. I still have relatives living in the south. They fully understand the significance of the water grab and feel it's immoral, especially when it will destroy an unusual and important environmental area. |
| Cynthia Belasco | Stockton, CA | 2015-08-26 | It is harmful to the Delta and area where I live and a waste of Money. Our farmers need our water |
| Belinda Bittner | Bethel Island, CA | 2015-08-26 | Stop this water grab |
| Linda Lopez | Antioch, CA | 2015-08-26 | I love our region. Let's put pressure on Southern Cal to implement desalination plants. No tunnels I our Delta. |
| John Morelli | Woodland, CA | 2015-08-26 | I value what California has to offer and if these tunnels are built with preposterous thought, our Delta will be destroyed and so will the lives of many hard working farmers whose families date back over a hundred years. |
| Timothy Stewart | Citrus Heights, CA | 2015-08-26 | One word 'desalination' |
| Macie Maghoney | Citrus Heights, CA | 2015-08-26 | The delta is my home and it would break my heart to see it destroyed |
| Vicki Flores | Manteca, CA | 2015-08-26 | These tunnels are a bad idea. Save our Delta and our water! |
| Janet Wilson | Sacramento, CA | 2015-08-26 | I'm signing because the tunnels will negatively impact 150+ year old family farms in the Delta. |
| Lisa Molls | Discovery Bay, CA | 2015-08-26 | I live on the water & want to preserve our resources |
| Steve Komure | Stockton, CA | 2015-08-26 | I have lived in Stockton for the most of my life. My father was a farmer and my mother was raised in the delta. I know how important the delta is to California and the nation. Farmers can not raise food crops using salt water unless they farm seaweed. |

| Name | Location | Date | Comment |
|----------------------|----------------|------------|---|
| Dora Wilson | Stockton, CA | 2015-08-26 | I feel we need to protect the Delta water ways for our farmers, environment, and our tourism. If we let Governor Brown succeeded in getting the tunnels built hundreds of multi generational family farms will be destroyed for them. These are sustainable unlike the desert farming that the Delta will be drained to water. It's not a good plan to spend millions to destroy a stable environment for one that cannot be made into a sustainable one. |
| Ron Fletcher | Antioch, CA | 2015-08-26 | I am signing because we need to save our Delta waters not destroy it. We do not need to support almond farmers that export more than 75% of the almonds out of our country. SAVE THE DELTA NOT THE ALMOND FARMERS THAT ARE GETTING RICH OFF OF OUR WATER |
| Leonard Lloyd | OAKLEY, CA | 2015-08-26 | The San Joaquin Delta is California's single most essential resource. Priority #1. |
| Kim ray | Stockton, CA | 2015-08-26 | I am signing because the tunnels will decimate a vital ecosystem and economy. |
| Susan Krinberg | Stockton, CA | 2015-08-26 | It would be devastating to California and the Eco system of the Delta...it would harm wild life. |
| Linda Looney | Modesto, CA | 2015-08-26 | It is a waste of taxpayers money. |
| Lester Kite | Hood, CA | 2015-08-26 | I am signing this petition because Me and My Wife will be one of the many that will loose our HOME to these tunnels. Stop the Tunnels so we can live the rest of our life in peace. |
| Julieanne Hinrichsen | Sacramento, CA | 2015-08-26 | It is the right thing to do! |
| Natalie Eck | Sacramento, CA | 2015-08-26 | The state should find other means of distributing water. Tunnels will destroy the habitat and community. |
| Susan von Sosten | Stockton, CA | 2015-08-26 | Taking water from an estuary that supports an ecosystem of flora, fauna, and PEOPLE is wrong. Robbing an entire community of their water to support farmers who chose to farm arid areas is wrong. Spending billions on a plan that is destructive on every level is wrong! Do the right thing protecting the Bay/Delta estuary by opposing the tunnel project. This is our home. |
| Larry Nevills | Sacramento, CA | 2015-08-26 | I objected these Tunnels from the beginning. We were not told the truth. We are killing California. I have watched this slowly sucking our state dry for my whole life. At what point do we stop the greed for more water? |
| Marisa Meier | Dublin, CA | 2015-08-26 | I cherish the delta and lifestyle. All must show that they can ration and manage water before they are handed more. Jerry Brown, this is your father's issue. Please grow balls and stop selling northern California out to Southern California. |
| Jennifer Carli | Stockton, CA | 2015-08-26 | We need water Storage not these money wasting, land grabbing tunnels! |
| Timothy Curtin | Modesto, CA | 2015-08-26 | I Live on the Delta and have seen it become more poluted from algae and lack of out flow |
| Tama Briabane | Stockton, CA | 2015-08-26 | The Delta is too important to play games with... |
| Alejandro Nevarez | Stockton, CA | 2015-08-26 | I don't believe diverting water from the delta is the best thing to do for the preservation of the delta !!! |
| Peggy Court | Antioch, CA | 2015-08-26 | I fundamentally against shipping our water to Southern California due to the lack of conservation effort on their part. When I see people washing down their driveways when I am conserving like crazy, it does not inspire me to give them more to waste. They need to learn how to take care of their natural resources and fend for themselves. |

| Name | Location | Date | Comment |
|-------------------|---------------------|------------|--|
| Janet Martinez | Oroville, CA | 2015-08-26 | I grew up in the delta, thornton and fairfield cal and I believe removing more water from the delta would be detrimental to not only the wildlife that depend on fresh, clean water but to the quality of life of all of us living in nocal. |
| Cindy Meritt | Stockton, CA | 2015-08-26 | I'm signing this petition because I believe it would be a costly,senseless mistake that would ruin our Delta and adversely affect us all ! I would protest in person but unfortunately I can't afford to take time off from work! |
| Rob Taylor | Stockton, CA | 2015-08-26 | Our governor is out of control. Tunnels , bullet trains. Are you kidding me! |
| Claudette Gartner | Rio Vista, CA | 2015-08-26 | The Delta needs to be saved!!!! |
| Donald Webster | THORNTON, CA | 2015-08-26 | I'm against this power grab for water that works to the detriment of farmers and creates unprofitable labor expense at its source. |
| Michael Batt | Spokane, WA | 2015-08-26 | From Walnut Creek back when salmon used to come up Walnut Creek and lay their eggs and re produce, look what has happen since the late forties. The creek has been cemented over wiping out any chance of a come back for all the fish species and turtles lived in and around the creek. What would happen to the delta if more water is drawn away from this jewel of California. Countless birds,geese and water fowl depend upon this for their live or does this not matter think again unless you want Walnut Creek repeated again? The NW depends u ponds this region as is too!!!! |
| Valerie Krummer | Rio Vista, CA | 2015-08-26 | They have gotten rain, We have NOT! |
| Dolores Phifer | Rio Vista, CA | 2015-08-26 | The tunnels are a huge mistake by a Governor who has "TUNNEL VISION". We need dams and reservoirs and a plan for the wet years. |
| Dennis Schardt | Rio Vista, CA | 2015-08-26 | The tunnels will destroy the Delta and devastate the farmlands |
| vena allmond | Rio Linda, CA | 2015-08-26 | Nena marie allmond |
| Barbara Winter | West Sacramento, CA | 2015-08-26 | The tunnels will irreversibly damage the Delta Wetlands. Use the money to build/expand dams. |
| David Lichtenhan | Rio Vista, CA | 2015-08-26 | Stop taking our precious water. We don't even have enough for ourselves. |
| Jeff Turpin | Stockton, CA | 2015-08-26 | These tunnels will not fix the problem. Dredge the delta then reinforce the levees instead |
| Megan Covarrubias | Stockton, CA | 2015-08-26 | It's not right! |
| jim ruiz | Stockton, CA | 2015-08-26 | I don't agree with destroying the delta for tunnels |
| carrie calay | Fair Oaks, CA | 2015-08-26 | water theft has always been a terrible crime with heavy penalties. Once again the greedy Ag and Southern CA interests are trying to devastate the ecology and economy of our PRECIOUS San Francisco Bay and Northern California RIVER DELTA system. Shame. Look to population control and conservation first-- use your own resources first, NOT OURS! |
| Matthew Clowry | Castro Valley, CA | 2015-08-26 | I opposed the Peripheral Canal and I think the tunnels will decimate the Delta! |
| Pam Bulahan | Isleton, CA | 2015-08-26 | soCal can sip from the pacific. Why take from norCal? We've been through this before with the peripheral canal crap decades earlier. |
| Barbara Pinkston | Antioch, CA | 2015-08-26 | I want to save our Delta ! |
| John Duesbury | Sacramento, CA | 2015-08-26 | The Sacramento Delta is a vital natural resource and should not be destroyed to provide cheap drinking water for people hundreds of miles away. It is time to build more storage capacity, rather than transport capacity! |

| Name | Location | Date | Comment |
|---------------------|--------------------|------------|--|
| Chief Caleen Sisk | Redding, CA | 2015-08-26 | I believe that the Delta should stay the same for future generations of salmon and people. The tunnels will kill the Delta by diverting all the Sacramento River, the tunnels are being build large enough to divert the entire river. This will be a irreversible water tragedy affecting our air and food sources and clean waters! |
| Valarie Robinson | Stockton, CA | 2015-08-26 | I Believe this would pose a threat to public health. |
| Elsa Schafer | Belmont, CA | 2015-08-26 | I'm blown away that a 70 year old idea proven disastrous for the Delta, the SF Bay, and the San Joaquin Valley gets so much traction based on having been a Pat Brown idea. We have new accurate information and know better!! Let's axe this expensive, debilitating project now, and restore the Delta for less \$ with fruitful benefits for farmers, fishermen, all of us who drink water and eat food, and the wildlife in the Delta. Time we wake up to 2015!! Elsa |
| susan Tatsui-D'Arcy | Santa Cruz, CA | 2015-08-26 | Keep the water in northern California. |
| Irma Barbosa | Sacramento, CA | 2015-08-26 | NorCal water needed for our mountains, forests and wetland. Our wildlife depends on natural tributaries carrying water through the State. SoCal has insufficient storage capacity. SoCal is taking too much water. NorCal is being sucked dry & set up to be tinder for wildfires by the Tunnels. Stop the Tunnels SAVE OUR DELTA now! |
| Hope Cohn | Concord, CA | 2015-08-26 | It is important to keep the fresh water in our rivers and bay. |
| Rob Stinman | Discovery Bay, CA | 2015-08-26 | #1 Its MORONIC to dig under the fragile Delta. #2 Idiotic move to take more water away when "they" already have put one ROCK barrier above Antioch. Salt water is already here! |
| David Robson | Sacramento, CA | 2015-08-26 | The Tunnels Project is bad for the Delta and bad for California. I have yet to see how this could possibly help any of the concerns Governor Brown claims it addresses. #notunnels #restorethedelta #iamrestorethedelta |
| Barbara Downs | Rio Vista, CA | 2015-08-26 | Messing with the Delta life and thus, the water, is wrong. Too many things that are great about the Bay Area depend on leaving the Delta as it is. Please...no tunnels. |
| Mark Lassagne | San Ramon, CA | 2015-08-26 | I oppose the Delta tunnels and can't believe they are still moving forward after all the negative research. Weren't they turned down by voters years ago? |
| Frank Topping | Rancho Cordova, CA | 2015-08-26 | It means *LIFE* for our Delta! NO TUNNELS! |
| Danica Noceti | French Camp, CA | 2015-08-26 | I am signing because this will hurt many farmers & will not be beneficial to our state. It will ruin our land |
| Toby Swope | Sacramento, CA | 2015-08-26 | The tunnels are more of the same exploitive actions that contributed to turning California from a mediterranean sanctuary into a desert. Except these tunnels are cannibalizing on an already depleted environment and resource and for an obscene amount of money. There are other options! Look at Sun Valley, CA! don't centralize, localize! Focus on the micro instead of the macro! Permaculture outlines these methods perfectly and for a fraction of the cost. Get with the times this isn't the gold rush era. It's pathetic I met an environmental scientist from Edmonton, Canada, an area with flat wetlands similar to ours. She said they're studying California for what NOT to do. The tunnels are another fine example of just that, what not to do. |
| Nancy Schrott | Dixon, CA | 2015-08-26 | Even if the Delta were not the recreational site it is, I would oppose any plan that diverts water from an area of severe drought to any other area, whether is is experiencing drought or not. It's the ecological equivalent of robbing Peter to pay Paul. |

| Name | Location | Date | Comment |
|------------------|-----------------|------------|--|
| Estella Drake | Sacramento, CA | 2015-08-26 | We Citizens Opose the Tunnels. Respect our voice of NO and respect our delta ecology . |
| Karen Uhlin | San Jose, CA | 2015-08-26 | The Delta is a very special ecosystem and I don't want to see it destroyed. |
| Kawika Melendy | Sacramento, CA | 2015-08-26 | Im in support of mother nature and I sign this petition as a Native Hawaian Kanaka Maoli in the name of Mauna A Wakea. |
| Andrea Fontana | Antioch, CA | 2015-08-26 | I live on the Delta. There is too much at stake with this project. Our delta ecosystem is important and already strained. Protecting this environment is important. |
| Sharon Kaminskas | Elk Grove, CA | 2015-08-26 | The Delta is a precious water resource. We enjoy it recreationally and rely on the food production. Why any sane person would want to steal land and affect the lively hood of so many for a few political interests is beyond me. How would the Governor and cronies feel if they had to give up their front lawns so some in the north could expand their lawns. It is so unfair and so against the American way. This is robinhood in reverse. The rich are stealing from the poor....oh yes that has been going on for some time hasn't it? Its time to stop. big business is not the only business that matters. I also worry about what is being done to the ecosystem. This will do irreparable damage. |
| Gordon Flinders | Corning, CA | 2015-08-26 | There is no coming back from an irresponsible action such as this, and the proof lies in the same area where these tunnels will deliver the precious water needed for the Delta. If they had built dams in the canyons instead of million dollar homes they would have water. |
| Brenda Barton | San Diego, CA | 2015-08-26 | YOU'RE AN IDIOT |
| Thomas Costa | Gilroy, CA | 2015-08-26 | I'm signing because I believe the tunnel system is not the right way to handle the water crises down south. We NEED water here as well! Don't take what is ours! |
| William Wilson | Lame Deer, MT | 2015-08-26 | I support clean and protected waters. For Environmental, public health and economic concerns . |
| Kathleen Brunck | Knightsen, CA | 2015-08-26 | I oppose sending our water elsewhere. We need it for our environment. Our eco-system, our farmers, our well drinking water. Why do you need to put in jeopardy. This only creates more problems. |
| dave graham | Stockton, CA | 2015-08-26 | We need more water storage and secondary water systems for nonpotable irrigation. We don't need more water sent south. |
| Kelly Sloan | Vacaville, CA | 2015-08-26 | The Delta and it's Habitat has to be preserved! It can't be destroyed. |
| Phil Simmons | Hercules, CA | 2015-08-26 | The salt water intrusion into the Delta is already bad for the environment and the local agriculture. The tunnels will destroy what is left. |
| donald grover | suisun city, CA | 2015-08-26 | This is just another Socal water grab.Lets get busy storing water and not shipping it across the state |
| Robin Blanchard | Los Angeles, CA | 2015-08-26 | Signing because we need to manage and conserve our water not steal from each other |
| mark stebbins | stockton, CA | 2015-08-26 | WE NEED TO STOP THE TUNNELS |
| Nick Barse | Modesto, CA | 2015-08-26 | I want to live in a healthy state, and for my children to have the same outdoor opportunities as I have had. |
| John Buckley | Rio Vista, CA | 2015-08-26 | The tunnel does not benefit the Delta. We can do better in developing a water delivery plan for the entire state! |
| Patricia Coles | Cupertino, CA | 2015-08-26 | Save the Sacramento River |

| Name | Location | Date | Comment |
|---------------------|-------------------|------------|---|
| Caroline Henry | Stockton, CA | 2015-08-26 | I worry about salt water intrusion. I think that it is outrageous to take some of California's best farmland to build it. Nature has built a complex ecosystem that we should leave in good health. Cost benefits are not there. |
| dave richardson | Brentwood, CA | 2015-08-26 | You are heading down a path that is not in synch with the regions requirements for a sustainable delta that will serve all of CA, not just the giant corporate agribusiness interests. No more water will flow south after you spend billions of dollars and further upset the balance of nature. STOP the tunnels now. |
| Correia Christopher | Rio Vista, CA | 2015-08-26 | Not one thing about the tunnels creates any more water, we can't trust our state officials to keep their promise not to over pump the Delta |
| John Aleck | Rio Vista, CA | 2015-08-26 | Johnny Aleck |
| JAMES HENDERSON | DISCOVERY BAY, CA | 2015-08-26 | L.A. has grown so large and needs water. If they move forward with this plan it will decimate a way of life. Another way must be found. |
| Brent Cohn | Rio Vista, CA | 2015-08-26 | Worried about the habitat and salt intrusion problems. |
| Darlene Solden | Sacramento, CA | 2015-08-26 | My son and his family live in Hood, California. This (putting in tunnels) would devastate the town and many parts of the beautiful Delta. |
| Jessica vella | Galt, CA | 2015-08-26 | I grew up here and my family live here. I don't want to see them have to leave their homes because of this |
| Charlie Toledo | Napa, CA | 2015-08-26 | All the headwaters are going dry! it will kill northern rivers to keep sucking water out to transport south. This is end game. Must create new water plan. conserve, reuse recycle. Water the new gold! |
| Harriet Lister | Santa Clara, CA | 2015-08-26 | I can't figure out who this plan benefits other than large-scale farms with water intensive crops. No locals or environmental groups think they're a good idea. I support the people who live there and are opposed, they have a greater right to keep their environment protected over farms that really should have considered our state's drought history before investing so much money. |
| Alexandria Chacon | Sacramento, CA | 2015-08-26 | Hood, CALIFORNIA is my hometown and my family lives there. It is a wonderful place to grow up. |
| Amber Veselka | Galt, CA | 2015-08-26 | Tunnels will doom the California Delta |
| Kathleen Liddle | Oakley, CA | 2015-08-26 | It's not right for the Delta!!! Save the Delta!! |
| Robert Lopez | Brentwood, CA | 2015-08-26 | NO!!!! |
| Barry McCoy | Castro Valley, CA | 2015-08-26 | I'm signing because this is a poorly planned waste of money as was the failed peripheral canal. |
| don lyles | oakley, CA | 2015-08-26 | It is just wrong! for less money you can build desalination plants in the south-land without turning NorCal into a desert and bring salt water into my drinking water. |
| Kathryn Barnard | Redwood City, CA | 2015-08-26 | My family has been farming in the Delta for close to 150 years. The tunnels would ruin their ability to farm on fertile land, and send the water to expand farming on unsustainable desert land. It's taking water from farmers with a higher legal priority to the water, and giving it to those with a lower priority, while at the same time putting a huge financial burden on all of California. To me, this is clearly wrong. |
| James Cottom | Novato, CA | 2015-08-26 | I am an angler who fishes the Delta on a regular basis. The planned destructive tunnels would cause irreparable harm to the vast ecosystem that is the Sacramento-San Joaquin Delta (aka the California Delta). |
| John Hennecke | Sacramento, CA | 2015-08-26 | The tunnels are a horrible idea that do nothing to fix California 's water issues while destroying one of our greatest natural resources. |
| Alisa Ortlieb | Antioch, CA | 2015-08-26 | This is bullshit...your ruining the delta for money |

| Name | Location | Date | Comment |
|-------------------|--------------------|------------|--|
| Brian Smith | Emeryville, CA | 2015-08-26 | As a life-long resident of the San Francisco Bay-Delta Estuary, I believe there are far better ways to conserve and build sustainability in the California water supply than building massive tunnels that will destroy the Delta. |
| Kalee Gershon | Carmichael, CA | 2015-08-26 | I do not want to see families me pries stripped nor the businesses lost. |
| Robert Matzke | Williams, CA | 2015-08-26 | There is not enough Water in the Sacramento now let alone taking more for Central Valley Agriculture. |
| Zac Guerinoni | Santa Rosa, CA | 2015-08-26 | Im signing because the delta tunnel project will ruin the delta and not solve our long term water issues. It will only line the pockets of governer Davis and his cronies |
| george bingen | CITRUS HEIGHTS, CA | 2015-08-26 | I want to preserve our delta as it is. |
| John Johle | Modesto, CA | 2015-08-26 | It's all wrong! It's going to suck us dry! Will be catching stingray from rio vista! |
| ROBERT CAMERON | Bethel Island, CA | 2015-08-26 | We oppose the tunnels. |
| Karen Lincoln | Stockton, CA | 2015-08-26 | I want to save our delta |
| John Chiarpotti | Sonora, CA | 2015-08-26 | I oppose them |
| Christine Morelli | Portland, OR | 2015-08-26 | I don't want to see the beautiful environment and surrounding ecosystems of the delta ruined by the tunnels. We have to take value in what makes our area a special place to live and protect it. |
| Scott Jett | Oakley, CA | 2015-08-26 | These tunnels will have the capacity to completely stop the flow of the Sacramento River just south of Freeport. So Cal interests have already stopped the San Joaquin River and destroyed one of the world's best salmon hatcheries. We won't let them do the same to the Sacramento River and the downstream environment!! |
| Robert Stone | Reno, NV | 2015-08-26 | This will destroy the livelihood of many families. It will not produce more water, it will just add to the pockets of Resnick, Brown and Feinstein |
| Sabrina Compagno | Sonoma, CA | 2015-08-26 | This is too important to sit on the sidelines. The power grab here is ridiculous!! Everyone but the governor and his crooney's have acknowledged what a bad idea this is. This must be stopped!!!! It is a waste of resources on many levels. |
| Linda Taylor | Discovery Bay, CA | 2015-08-26 | I believe that they are detrimental to the California Delta and my property values. We need to find a better solution. You are hurting some for the benefit of others. Not good. |
| james gualco | Elk Grove, CA | 2015-08-26 | The whole project is a boondoggle, both economically and environmentally, and will literally destroy the Sacramento River Delta as we know it. I lived in Walnut Grove fopr 44 years and still have f armiong property there. Brown's whole idea is a 'pipedream', if you will excue the punt. It really is a joke. How it has got this far is beyond most Deltans. It must not get permitted. The end cost would be astronomical with all the inevitable over-runs. |
| Gregory lincoln | Spring Valley, CA | 2015-08-26 | I signed because I live our deltas! And it would be a sham and heart breaking to have this happen ! |
| Alexander Maxwell | Atwater, CA | 2015-08-26 | The process is corrupt. Interests are being served that don't reflect what the people want, or even what people need. |
| Robert Montgomery | Pine Grove, CA | 2015-08-26 | I'm a Northern Californian who loves the Delta and want to see it protected. |
| Barbara Weymouth | Sacramento, CA | 2015-08-26 | The Sacramento River Delta has been producing fruits,veggies and more for more than 150 years it is necessary to sustain our food supply plus boating recreation. We must preserve our Sacramento Delta. Also more than 300 farms would be taken through imminent domain by the state of California that have been in operation for more than 150 yes. It is rich with natural resources and California history. STOP THE TUNNELS NOW! |

| Name | Location | Date | Comment |
|---------------------|-------------------|------------|---|
| Karena Costa | tracy, CA | 2015-08-26 | i am signing this petition because i believe in the preservation of the delta and the farming communities that have been here for decades, contributing greatly to the bay-delta culture and lifestyle. as well, we do not want our northern california water utilized for big agri-business south of us and for the purposes of dangerous natural gas extraction activities. words cannot express how disappointed i am in governor brown. |
| Billie Brenk | Castle Rock, CO | 2015-08-26 | This is just madness. A stupid idea that will hurt many for future generations. |
| Peter Kaprielian | Concord, CA | 2015-08-26 | I oppose the continues decimation of the local environment. The amout of salt water intrusion is beyond accepcable. This impacts our local Delta farmers, small towns, and local induatries. |
| Susan Webb | Clayton, CA | 2015-08-26 | Our family has grow up fishing and boating on the delta. We do not want to see this beautiful area and wildlife destroyed. |
| Jackie Schultz | Sacramento, CA | 2015-08-26 | Grave concern. This cannot happen |
| Steve Josue | isleton, CA | 2015-08-26 | This will be an ecological DISASTER! (For Northern Ca/Delta), not Browns fat cat farmers in Central and SoCAL |
| mary-francis Chacon | Sacramento, CA | 2015-08-26 | My family lives here. Every holiday, whether its Christmas, thanksgiving, or even Superbowl Sunday, we gather together as a FAMILY. |
| Ann Garside | Santa Cruz, CA | 2015-08-26 | A tunnel is a narrow minded, regressive and environmentally destructive non-solution to an issue that looms over the State for the rest of its existence. Removing water from a point which already deals with less than optimum flows during drought years is not a solution. |
| mike otto | Wilmington, DE | 2015-08-26 | the project is inappropriate waste of water money time and harms what should be nurtured and purportedly aids what doesn't deserve at their expense. it's a boondoggle to nowhere. gov brown tried this in a previous administration. please stop it cold. it has no merit and many minuses. |
| steve svetlik | Discovery Bay, CA | 2015-08-26 | we live on the delta and they need to leave the environment there the way it is without further damage |
| Will Wiltz | Rio Vista, CA | 2015-08-27 | I Moved from Tahoe to the Delta in 1998 .I live On Sherman Is. I know the Outcome. Figure something else out. "We Have only one Life ,Don't Blow It". |
| Fred Hammond | Stockton, CA | 2015-08-27 | Tunnels will destroy our Delta and farming! |
| jeffery chacon | Sacramento, CA | 2015-08-27 | im signing because this is my hometown an land where i grew up ,lots of family an friends,that will all be affected by this project ,figure out another plan ,with all the smartsyou all have an money ,there is got to be another way,an pray for rain ,cause if you do it ,it may been done for nothing without no water, figure it out |
| Judith Shipley | Galt, CA | 2015-08-27 | I am admittedly opposed to the Delta Tunnels. What it would do the area would be devastating, not to mention how it would interfere with the annual migration of several species of birds. Leave the Delta alone. Find another means to repair the current water flows to the farmers and So. Cal. |
| faith boucher | carmichael, CA | 2015-08-27 | The Over-priced, Under-publicized project will sink more political careers than LA developers, we hope. |
| Gabriela Chacon | Sacramento, CA | 2015-08-27 | I have have family that live there and it would be devastating to see all of my childhood memories be gone! |

| Name | Location | Date | Comment |
|----------------------------|--------------------|------------|---|
| Catherine Seymour-Grossjan | Sacramento, CA | 2015-08-27 | I agree with "Restore the Delta, stop the tunnels!" This is a water grab for the rich! It makes no sense to send our water from a fragile Delta inland estuary to Southern Calif for water guzzling nut trees, planted in the last decade..knowing fully well they were going to need our Delta water!! These same Mega farmers are sucking our aquifers dry, causing permanent damage to future underground water storage! It's insanity! Taking water from a natural perfectly suited growing area, which is North Central CA and sending it to be wasted in a polluted Southern CA desert! |
| Cazbar Saelao | Sacramento, CA | 2015-08-27 | I care about preserving the delta ecosystem as a fishery and believe that the water should serve regional agriculture and not diverted to big AG desert watering or residential growth in areas where it cannot be reasonably supported by local resources. |
| Peter Cooke | Vallejo, CA | 2015-08-27 | LA as a biome was never meant to support so many people |
| george wight | Antioch, CA | 2015-08-27 | these tunnels will not produce any more water. all you are doing is catering to the big water grabbers who continue to plant in a dessert. |
| Dawn Hampton | Antioch, CA | 2015-08-27 | We need to protect are our farm land, waterfowl fish ect... not to mention the beauty of this area our Delta |
| elvy oates | Visalia, CA | 2015-08-27 | This measure will adversely affect our immediate future, and the future of our children and grandchildren !!! Please stop Brown special interests madness!!!! |
| Bob & Orley Philcox | Pleasanton, CA | 2015-08-27 | It's a crazy idea, just like the bullet train |
| Michael gallagher | Lincoln, CA | 2015-08-27 | Bad expensive plan that will exploit the delta for its water. Really is just a water grab for big business. Don't ruin Nor Cals Delta for profit off taxpayer money. |
| John Sr O'Connor | antioch, CA | 2015-08-27 | The tunnels are in conflict with the natural order. We are concerned with Global warming yet we want to send water to a desert! Make Southern California build more resivoirs! |
| Bob Williams | Rio Vista, CA | 2015-08-27 | It is a stupid idea! |
| Marty Moore | Lancaster, CA | 2015-08-27 | I dont not agree with the Tunnel plan. It is not good for the Delta. |
| Paula Breen | Lodi, CA | 2015-08-27 | the tunnels do nothing to improve the environmental needs of the Delta. |
| Leslie Jones | Davis, CA | 2015-08-27 | I believe that this project is an incredible waste of resources of all kinds and will do extensive damage to the environment. |
| Dick Cleeves | Morro Bay, CA | 2015-08-27 | I am from a fifth generation farming family raised in the Delta. I oppose Gov. Brown's Tunnel Project. |
| Janet Suzio | San Francisco, CA | 2015-08-27 | Let Southern California save water and get their water somewhere else. |
| Kelly Stephens | Live Oak, CA | 2015-08-27 | Will ruin the Delta. |
| George Esquivel | Brentwood, CA | 2015-08-27 | I think this very wrong . This water grab is BS. Thank you |
| Sandra Martinez | Discovery Bay, CA | 2015-08-27 | I live and love the delta- and corrupt money guzzling losers want to steal it from us! |
| Zukie Bartel | Manteca, CA | 2015-08-27 | I want our farmers to.have water for their fields. This will not solve our water problem. We need it here! |
| kristyl galli-berg | valley springs, CA | 2015-08-27 | My family is 5th generation farmers in the delta. Putting in these tunnels would ruin our livelihood, not just our land!! |
| Kristy Tavai | Stockton, CA | 2015-08-27 | I am completely opposed to the tunnels, I think it is destructive and reckless. I support Restore the Delta and their fight to stop the tunnels!!! |
| Wendy Tico | Berkeley, CA | 2015-08-27 | healthy ecology is required for long term healthy economy |
| Richard Dangles | Sacramento, CA | 2015-08-27 | I am writing to express my strong opposition to the Delta Tunnels plan. |

| Name | Location | Date | Comment |
|-----------------------|-----------------|------------|--|
| Mary Luckey | Oakland, CA | 2015-08-27 | We need an overhaul of water policy to focus efforts on conservation. Sending more water south does not serve conservation efforts and could do great environmental harm. |
| Noelle Gomes | Rio Vista, CA | 2015-08-27 | I'm signing because it is not right to destroy another ecosystem, family livelihoods, and local economy and still not solve any water problems for anybody. Find water somewhere else. |
| Carrie Riley | lone, CA | 2015-08-27 | I believe these tunnels will not bring anything positive to the locals. I love this area and drive it because of its beauty. How does taking land from these locals and using it for your own purposes that are not proven to help them okay? It is not! |
| Joan Stelma | Rio Vista, CA | 2015-08-27 | Let Southern C a. build its own reservoirs,They have enough money. Our ground is already sinking.A lot of resorts depend on the river and fishing to make a living just say NO.Don't fool with Mother Nature |
| James Smith | El Sobrante, CA | 2015-08-27 | Save the delta! No tunnel! |
| Matthew Hergert | Livermore, CA | 2015-08-27 | I am against the tunnels being built. |
| Denise Callahan | Modesto, CA | 2015-08-27 | Denise Callahan |
| Marcy Rossi | Rio Vista, CA | 2015-08-27 | The Delta exosystem is beautiful and delicate. Please don't ruin it. |
| Steve Verduzco | Antioch, CA | 2015-08-27 | I grew up going to the Delta, please save out Delta. |
| GARY BYROM | Sacramento, CA | 2015-08-27 | I'm tired of all these money grabs labeled something else at everybody's expense. STOP THIS NOW!!!! |
| Lorelei Grenon | Galt, CA | 2015-08-27 | I love the Delta! I love the way of life that exists there and want it to continue to be fruitful! |
| Michelle Garibaldi | Stockton, CA | 2015-08-27 | Instead of building tunnels to transport water, we should build reservoirs to store the water we have. That's like trying to deposit a paycheck in a bank account before you actually receive the paycheck. |
| Kate Lenox | Sacramento, CA | 2015-08-27 | Taking more water from the Delta won't heal restore the Delta. I have concerns about who will actually pay for the tunnels. I don't want taxpayers like myself holding the bag for billions. |
| Gay Lawson | San Jose, CA | 2015-08-27 | This tunnel is so expensive and worthless to Californians. I say take that money that is to be spent on the tunnels to build a desalination plant! |
| Linda Morse-Robertson | Knightsen, CA | 2015-08-27 | <p>Having spent most of my life visiting the Delta as a child with my grandparents and parents, I distinctly remember being told by my grandfather to "throw back"the 30 lb, striped bass that were easy and VERY common to catch, as they were "too small" and needed to go back and "grow up and make "baby fish" for "later". When in the last 10 years has that been a common statement? And ALL of us that live in and around the Delta know why!!! When the 5th pump went on, to feed the ridiculous "desert" trees that were NEVER supposed to be planted, we here KNEW that the Delta was going to crash. And IT HAS crashed! To FURTHER decimate our unique eco-system, one of VERY few in the world by these STUPID proposed tunnels is unforgivable when REAL science, NOT political paybacks, show that these tunnels will destroy what is left! Both for fisherman, which support SO many small businesses, but OUR FARMERS in the Delta as well.</p> <p>This is beyond deplorable and CANNOT happen.</p> |

| Name | Location | Date | Comment |
|------------------|------------------|------------|---|
| Jack Saunders | Stockton, CA | 2015-08-27 | The "Water Fix" will destroy the Delta and it's farming, Fish migrations, Recreation, and the economic engine that supports our region. You are asking to destroy our region so greedy corporate interests can profit. Governor, you are speaking out of both sides of the mouth when you hold yourself as champion of the environment. |
| Brandon Saysette | Novato, CA | 2015-08-27 | I love the delta. The lack of water flow to the bay and ocean will have a tremendous impact on the ecosystem. No tunnels! None! |
| Denise Burroughs | Elk Grove, CA | 2015-08-27 | I believe this is the wrong approach to solving California's water problems....It will have a huge negative impact to northern California. Please stop this insane water grab from big money so. cal interests like Stuart Resnick and his cronies. Let's work together to find a better solution that works for everyone. |
| Laura Britto | Antioch, CA | 2015-08-27 | the delta waters are our life's blood out here. the tunnels will destroy the delicate eco system. |
| Tim Rudder | Petaluma, CA | 2015-08-27 | I fish and these fools don't |
| Mike Nicholson | Stockton, CA | 2015-08-27 | I'm signing because the BDCP tunnels would be costly and have disastrous effects to our delta estuary. How much money is enough for mega growers in the southern Central Valley whom only will profit from the tunnels? |
| Yeshe Dorje | Sacramento, CA | 2015-08-27 | Because Northern California needs our water. For farmers, and fish. For making sure seawater doesn't encroach into the delta. For making sure our aquifers don't collapse. For the salmon, and trout, for the redwoods and the last stand of old growth timber in California. If SoCal needs water, I suggest desalination and greywater reclamation. There are many things they can do, without robbing us more than they already do. Northern California is more important than a legacy project for Jerry Brown to slap his name on. |
| Diane Dyer | Nevada City, CA | 2015-08-27 | I love the Delta, and it needs to stay the way it is for the farmer the fish the people the birds all the wildlife. The tunnels are a very bad idea. |
| sandra torres | Rio Vista, CA | 2015-08-27 | I want to save what we have...i want to save the delta |
| David Schumacher | Auberry, CA | 2015-08-27 | I do not want any tunnels built to divert water. |
| John McGee | Vacaville, CA | 2015-08-27 | The tunnels will ruin the ecosystem of the Delta |
| Jill Parris | Stockton, CA | 2015-08-27 | I oppose the tunnels in California. |
| jon simonian | soulsbyville, CA | 2015-08-27 | Fish and delta farms not oranges in the desert |
| Loretta Abbott | Rio Vista, CA | 2015-08-27 | i am signing because I love the Sacramento River delta, I know many of the family farmers in this area. I see how this plan will devastate the delta. I am also from Southern California and visit family there often and must pass through hundreds of miles of irrigated fields and groves which grow in arid land artificially made fertile with chemicals and imported water. I also see that most places in Southern California continue to use water waste fully by over watering yards, spraying down hardscapes and allowing water to rush down the gutters. It is unfair and downright criminal to make us the taxpayers finance a water system which will destroy our ecosystem, ruin local family farms and provide cheap water to large wasteful factory farms. |
| Annie Beaman | Oakland, CA | 2015-08-27 | We need sustainable water solutions, NOT another continuation of 19th century ideas. It is past time to upgrade our water policies and infrastructure to be more in tune with the needs of ecosystems and the realities of the water cycle. This is particularly important in the era of climate change. |
| Jeff Belunza | Oakley, CA | 2015-08-27 | Stop the Delta tunnels |

| Name | Location | Date | Comment |
|-------------------|----------------------|------------|--|
| Ryan Camero | Stockton, CA | 2015-08-27 | I don't want to see a world where water is only for the rich and corporate, and the sixth mass extinction includes California's contribution of 750 plant and animal species along the largest set of waterways along the West Coast of the Americas, if the tunnels are built. I want to see a world where we protect and steward these precious life-giving places. In the middle of this drought, we need to care about the rivers that sustain us- and stop them from being ravaged for profit. |
| Shelly Lichlyter | Discovery Bay, CA | 2015-08-27 | I live in Discovery Bay - I know the value of the water to our community, our recreational waterways, agriculture, and I've seen the damage pumping our water out is doing....it belongs here- it is vital environmentally more over everything that you do not build these tunnels |
| Angela Fistes | Discovery Bay, CA | 2015-08-27 | I STRONGLY oppose this tunnel going through (basically our home). Just so he can benefit, that some bs. This is our home, our community, families, our children would be greatly affected. DO NOT PUT A TUNNEL THROUGH OUR COMMUNITY!!!! |
| Lisa Sanchez | Oakley, CA | 2015-08-27 | This would be a disaster to the Eco system & our community. Southern Californians need to better resource water & not waste it. |
| Patricia James | Brentwood, CA | 2015-08-27 | I live here and this is not a good idea. We need the water here up in NorCal for our crops. We are basically the produce capitol of California. Wildlife and marine life depend on the water here without interruption. STOP! There are also way too many people in SoCal, as witnessed when I was there last week. The traffic was unbearable. Stop bringing in refugees and illegal immigrants! We are on 35% water cutbacks yet you keep letting people come in who are not here legally. Stop the tunnels! Find another way! |
| Greg Alves | San Bruno, CA | 2015-08-27 | the tunnels will forever ruin the Delta |
| Dolores Johnson | Antioch, CA | 2015-08-27 | I'm signing because I believe this project is aimed at increasing new home building in southern California at the expense of northern California. |
| Debra Brunmeier | Linden, CA | 2015-08-27 | Debra brunmeier |
| Jennifer Magan | Antique, Philippines | 2015-08-27 | this tunnel project does not only destroy the land but it's like taking the life of the people there. We are all equal and access to clean water is for all. |
| Deborah Attoinese | Los Angeles, CA | 2015-08-27 | I care |
| Kathy Slightam | Discovery Bay, CA | 2015-08-27 | This is NOT ok!!! Stop the tunnels! |
| Meredith Kaplan | Lafayette, CA | 2015-08-27 | I am signing because I want to protect the Delta |
| Robert Anderson | Stockton, CA | 2015-08-27 | Forgot the delta |
| mason shy | Sacramento, CA | 2015-08-27 | My family lives in the delta and I have many numerous holiday celebrations there. Its something I want my kids to experience to. My aunts and uncles will be displaced from there homes. |
| Rogene Reynolds | Stockton, CA | 2015-08-27 | Real alternatives to the tunnels exist, but have not been given serious study. A project this large demands more transparent and complete discussion. |
| Mark Johnson | GIBSONTON, FL | 2015-08-27 | IMPEACH MOON BEAM!!! |
| Cheryl Anderson | Mad River, CA | 2015-08-27 | Cheryl I Anderson |
| sheri Moriarty | Isleton, CA | 2015-08-27 | I have lived in Isleton my whole life. The farmers need the water here we have resorts. If the tunnels come then so will the salt water an that will be the end for us an our farmers. |

| Name | Location | Date | Comment |
|--------------------------|-------------------|------------|---|
| Andrew Leonard | Santa Clara, CA | 2015-08-27 | Fuck your tunnels. The project will take too much time and require too many resources to actually accomplish. If I remember correctly, the current plan is to create and trench two twin 17 foot diameter pipes for over 600 miles down California from the Sacramento River to LA, requiring somewhere in the \$30 billion to do so. Residents of the delta are basically paying money to give away our resources, while harming our environment for both ourselves and the wildlife. Where will this water go? Straight into an overpopulated city in the middle of the god damned desert. And Jerry Brown calls this the "California Water Fix"? |
| Bob Setliff | Stockton, CA | 2015-08-27 | I'm signing because the tunnels will finish the destruction of the Delta that was started by the two canals! |
| tracy holcombe | Isleton, CA | 2015-08-27 | This would probably put my kayak rental business in the red. |
| John Harrison | El Sobrante, CA | 2015-08-27 | The tunnels will destroy the Delta as we know it |
| Kimberly Krohn | Tracy, CA | 2015-08-27 | I'm signing because the delta is my home. |
| Pamela Brown | Isleton, CA | 2015-08-27 | This will ruin how we live |
| Marc Johnston | Palm Springs, CA | 2015-08-27 | I want the beautiful delta to be left alone to support the wildlife and wilderness that is so vitally important to that ecosystem. We as people need to stop destroying the natural environments that surround us. Haven't we learned yet that wilderness areas are critical to the health and wellness of our planet!? |
| Mario Rodriguez | Bethel Island, CA | 2015-08-27 | The Delta tunnels are a bad idea. I live in Bethel Island and I will see the impact it will have on our ecosystems. Please do not mess with our natural habitat. |
| brandon stree | Turlock, CA | 2015-08-27 | I'm signing because I am opposed to put in two tunnels to divert more of our northern California water to southern California. Also to use eminent domain on as many as 300 farms in order to accomplish this project. No farms equals no food, newflash food doesn't magically appear in the grocery store it has to come from somewhere. Unless we are planning on importing all of our food which will only make prices go up. Plus the longterm environment effect on the delta. Governor brown doesn't care as long as he gets his bullet train and his tunnels |
| peggy petty | Isleton, CA | 2015-08-27 | stop the tunnels |
| Diann Quesada-cacciaroni | Antioch, CA | 2015-08-27 | Our preservation of the Delta, it's communities, agriculture, wildlife and ecosystem are important to me and the generations beyond. The delta is important to us please don't TAKE whats ours! |
| Susan Lautz | Brentwood, CA | 2015-08-27 | The tunnels are a bad idea that does not help the people of CA! |
| Amy Smith | Stockton, CA | 2015-08-27 | This will be an environmental disaster! And an economic one, for the Central Valley. Big money pushing around an already hard hit area. |
| Marjorie Brown | Woodland, CA | 2015-08-27 | i am signing because I oppose the tunnels on environmental, fiscal, and economic reasons. I also am opposed to eliminating the many small family farms who will lose their farm land via eminent domain. |
| Jennifer Gowans | Modesto, CA | 2015-08-27 | I oppose the tunnels. Leave the Delta alone. |
| Priscilla Sulamo | Stockton, CA | 2015-08-27 | The Delta is the Life of Our Valley! I have seen so many areas drying up! THIS IS A DROUGHT NOT COMPETITION FOR MONEY OR POWER! Where Water Flowed are Now Mud Puddles! Down South they Have a Desalt Factory... USE IT...What can't Brown n the Rest of Money Hungry Thugs Understand!! The Delta is Not the same...We Are in a Drought! We WILL BE LEFT DRY....ALL FISHERY n WILDLIFE WILL DEplete! Thank You! |
| Alain Kelder | Livermore, CA | 2015-08-27 | The current plan focuses too much on diverting water, and too little on the health of the habitat. |

| Name | Location | Date | Comment |
|-------------------|-----------------|------------|--|
| Margaret Edwards | Tracy, CA | 2015-08-27 | Our farmers - the agricultural capital of the world - need this water! Hollywood doesn't! |
| Nick Delgado | Santa Clara, CA | 2015-08-27 | As an outdoorsman, conservationist and resident of the Bay Area of Northern California, I oppose the short sighted and irresponsible plan of the delta tunnels. The Sacramento Delta is one of Americas biggest deltas. It is a habitat for many fish, birds, waterfowl, plants and other wildlife. Funneling more water out of it will destroy its salinity and other abilities to be balanced and sustaining. Instead of our water going to Southern California, maybe the governor needs to focus more on desalinization plants for water. They are expensive, but big picture, wil pay for themselves in the long run. Thank you for your time and consideration. |
| Viki Bird | Sunnyvale, CA | 2015-08-27 | I am strongly Opposed to the building of the Delta Tunnels. |
| Erica Lozano | Oakley, CA | 2015-08-27 | It should be a crime to destroy the habitat that supports so many different species. The delta is a sacred place that my children and I enjoy being a part of. And I will support any movement to protect our precious Calicornia Delta #notunnels |
| Caprice Epps | La Grange, CA | 2015-08-27 | The damage the tunnels will do will devastate our beautiful water habitat forever. |
| Keith Lorah | Clarksburg, CA | 2015-08-27 | This is the most detrimental option to supply Southern California with water, environmentally, and financially. You could build a number of de-salination plants for the same cost or capture existing water runoff in underground cisterns. |
| Mary Knight | Lodi, CA | 2015-08-27 | Not only is it a waste of tax dollars, it would devastate our delta and surrounding areas. |
| Joshua Sadorra | Brentwood, CA | 2015-08-27 | Tunnels would ruin the entire Delta area. |
| Raul Freitas | San Rafael, CA | 2015-08-27 | I'm signing this because of the environmental damage this project would to to the San Francisco Bay. |
| Colleen Batman | Dunsmuir, CA | 2015-08-27 | The tunnels well destroy California! |
| Michael Siconolfi | San Jose, CA | 2015-08-27 | i am signing as the state should spend the money on creating new water, like new reservoirs or desalination plants |
| Nicole Phillips | Isleton, CA | 2015-08-27 | Our way of life can't be sustained with salt water. How are we supposed to grow crops with salt water? How do we export crops that we can't grow? |
| Jon Welch | Tracy, CA | 2015-08-27 | Due to recent drought years, California needs to look into building many more reservoirs in various locations not transport water from one area to another. |
| Shelley Culloty | Rio Vista, CA | 2015-08-27 | This is soooooo wrong. We chose to live here in Rio Vista to be close to the delta. I raised my boys here. I worked hard and bought a home here. I drive 1 hour to Oakland every day...and love coming home to my Delta.... |
| Dan Sturges | Sacramento, CA | 2015-08-27 | You only have one chance to save the SF Bay Delta. |

| Name | Location | Date | Comment |
|---------------------|---------------------|------------|--|
| Victoria Tatum | Santa Cruz, CA | 2015-08-27 | <p>The tunnels are a mistake, both financially and environmentally. Protecting the Delta will have its rewards for all of us, not just Delta farmers, although they deserve all the protection they can get. The fact that we are in a drought is no reason to ignore all of the environmental sanctions in place to protect endangered species. We need to find permeant solutions to our existence in an arid West, solutions that benefit farmers, salmon fishermen, and wildlife, not just South of Delta agribusiness (translation, water contractors) who are the complaining about "losing" some of their millions in annual profits.</p> <p>I have read the long Delta Tunnels Alternatives Plan, and do not see one mention of the environmentally sound plans proposed by scientists who are experts in their field. I know about all the money that has been wasted so far, and say Enough Already.</p> |
| Monte Self | Stockton, CA | 2015-08-27 | this is not a solution to a "fix", what needs to be fixed is getting our government to stop making matters worse, sorry I voted for you this time around Jerry. |
| dave romo | Oakley, CA | 2015-08-27 | i live on the delta |
| Diane Hoffman | Oakley, CA | 2015-08-27 | I'm against the tunnels taking Northern Calif water. Please preserve our beautiful Delta, full of wild life, birds, fish, long time farms & so much history. Southern Ca needs to build reservoirs & figure out were to obtain their own water. Don't plant or build in places were there is no water. |
| Christine lubner | Isleton, CA | 2015-08-27 | I love my town and river running through it. |
| Hunter Reid | Campbell, CA | 2015-08-27 | I'm a fisherman! |
| Evelyn Eklund | Ocean View, HI | 2015-08-27 | The tunnel is insane..... |
| Daphne Moyer | Antioch, CA | 2015-08-27 | Leave our water ways alone. |
| Justin Misenhimer | Concord, CA | 2015-08-27 | I fish the delta and the tunnels will turn the delta into salt just like this year with not a lot of fresh water flowing in. |
| Scott Henkin | West Sacramento, CA | 2015-08-27 | I oppose the crazy tunnels! |
| Gary Patton | Santa Cruz, CA | 2015-08-27 | This is a TERRIBLE plan. Costly and destructive. |
| Lauri McKindley | Stockton, CA | 2015-08-27 | We give enough water to South California. |
| Leslie Mowen Miller | Sacramento, CA | 2015-08-27 | The imbalance of natural resources for California's agriculture and wildlife--both flora and fauna--just not be terminally imperiled as a short term solution to over-population of the Bay Area. Options within the State's financial reach are being implemented elsewhere in the State. In permanently drought stricken areas such as Australia, cost-effective options are employed daily, ones that haven't even been brought to the table in Sacramento. The tunnels may once have seemed a viable option. Now they are worse than wrong-headed. Let's put the Alaska pipeline to logical application and drain some of the melting glaciers to our reservoirs and ground table. |
| Alyson Moore | Isleton, CA | 2015-08-27 | The tunnels are Bullshit. |
| Steffanie Adams | Fair Oaks, CA | 2015-08-27 | Stop the water grab! |

| Martha Rogers | Brentwood, CA | 2015-08-27 | I think that this project would damage the San Francisco Bay estuary. |
| angela wilson | Elk Grove, CA | 2015-08-27 | my family lives in hood |
| Joe Labash | Palo Alto, CA | 2015-08-27 | Fish need water too |
| Linda Lantz | Antioch, CA | 2015-08-27 | Please please no tunnels.. |

| Name | Location | Date | Comment |
|-----------------------|-------------------|------------|---|
| Mark Alcorn | Oakley, CA | 2015-08-27 | I don't want the Delta destroyed, or our farmers to lose their family owned farms. Fresh, clean, water supports the largest nursery for California fisheries, the largest Pacific Coast fly over stop for migrating waterfowl, more than 500,000 acres of California prime farmland, and an urban community that is home to over 4 million people. |
| Jeff Krieger | Simi Valley, CA | 2015-08-27 | The tunnels are a very bad idea. We need more desalinization, improved existing storage, and more reclamation of grey water. The tunnels do nothing but satisfy a few, and hurt the Delta ecosystem. Please stop the Tunnels! |
| VALERIE SCHMIDT | Pleasant Hill, CA | 2015-08-27 | I do not believe the tunnel are an effective way to help California's water situation. I believe the tunnels would have horrible environmental impacts as well. Step out of the box and find a real solution! |
| David & Martha Swarts | Sacramento, CA | 2015-08-27 | The Delta is a unique place for boating and fishing. There is no way to assure that the tunnels will not adversely affect it. It makes sense that less water in the Delta will be very bad for it. |
| Michelle Okazaki | Stockton, CA | 2015-08-27 | I have lived and appreciate the San Joaquin Valley all my life. Our valley feeds so many in various ways and needs to remain vital to all of us |
| Lin Taylor | Linden, CA | 2015-08-27 | Tunnels are the worst possible solution to the water problem. |
| STEPHANIE FLORES | Stockton, CA | 2015-08-27 | I OPPOSE THE DELTA TUNNELS!!! I WANT TO SAVE & RESTORE THE DELTA! I WANT TO PROTECT THE WILDLIFE! I WANT TO SAVE THE DELTA FARMS! |
| Greg Mariano | Blue Lake, CA | 2015-08-27 | Our resources are for all the people not nuts in the desert or for political gain |
| Bryan Bobrosky | Palmdale, CA | 2015-08-27 | I enjoy the natural beauty of the Delta. It is naturally sustainable farming and Eco-system. Almonds in the desert on dry land is not. Paramount took a gamble buying land that could go dry in a drought. Well, guess what Mr. Resnick, wait for water like the rest of us. Jerry Brown please stop selling California's resources to high bidders. |
| Ethan Clark | Elk Grove, CA | 2015-08-27 | I love my delta! |
| Susan Arnett | Stockton, CA | 2015-08-27 | I'm signing because I love our Delta and want it preserved and I don't want billions spent on destroying our precious estuary!!! |
| Rick Newman | Stockton, CA | 2015-08-27 | I'm signing because this is one of the most environmentally ignorant plans the uneducated governor has supported. For them to think this was a smart and viable option shows their corruption and/or intelligence. |
| Barbara Ackerman | Clayton, CA | 2015-08-27 | I strongly oppose building the tunnels to southern California. I want to restore the delta, preserve our fishing, continue farming in our area and quit spending taxes on things that don't help my area. |
| Leslie Hutchings | San Jose, CA | 2015-08-27 | I'm signing this because the tunnels will be the death of the Delta. |
| Donna Nowell | Dublin, CA | 2015-08-27 | I'm signing because the tunnels will be devastating to the ecology and economy of the San Francisco Bay-Delta region. Many wildlife migrations depend upon a healthily delta. The tunnels will undermine multi-generational, sustainable delta farming to support high water intensity agriculture on unsustainable land. The people have voted this down before. Why do we need to keep fighting these insane tunnel projects? |
| Mirna Juarez | Stockton, CA | 2015-08-27 | I am signing because I see a day possible when we grow food sustainably, without chemicals to pollute the water, and with respect to the water that is available. I believe that when we live in harmony with the earth and restore the delta, abundant natural resources will eepleniah ans revitalize the local economy along the water ways and the cities they connect. Win win! |

| Name | Location | Date | Comment |
|------------|-------------|------------|---|
| Mary Smith | Antioch, CA | 2015-08-27 | Gov Brown must hate Northern Calif every water issue is marked to destroy our water resources. Get some of Southern Calif,s money and build water refinement plants that suck the water from the ocean or is waterfront homes more important. Guess we know what that answer is. I was against the canal and I am against the tunnels |

| Name | Location | Date | Comment |
|----------------|---------------|------------|---|
| robert gaughan | fairfield, CA | 2015-08-27 | <p>Subject: Oppose the Delta Tunnels/California Water Fix (Alternative 4A)</p> <p>I am writing to express my strong opposition to the Delta Tunnels plan.</p> <p>The Delta Reform Act of 2009, in which the California State Legislature committed to the "coequal goals" of providing a more reliable water supply for California AND protecting and restoring the cultural, recreational, natural resource, and agricultural values of the Delta, cannot be upheld if the Delta Tunnels come to pass.</p> <p>The California Water Fix does not meet the restoration goals of the Delta Reform Act; it is simply a plan to export more water out of the San Francisco Bay-Delta estuary. The Delta Tunnels will also fail to provide more reliable water because the Delta watershed is already oversubscribed by five times in normal water years.</p> <p>My objections to the tunnels are threefold:</p> <p>The California Water Fix does not address the environmental, public health or economic impacts of the proposed Delta tunnels project. Also, the plan ignores alternatives that would save California tax and ratepayers billions of dollars, while investing in the jobs and local water sources that build sustainability.</p> <p>My environmental concerns with the plan are:</p> <ul style="list-style-type: none"> • The impact on wildlife and plant species in the Delta that depend on freshwater include the Delta smelt, chinook salmon, steelhead, San Joaquin kit fox, and tricolored blackbird, protected species already on the brink that will face decimation due to a diminishing food-web. • At sea, even the ESA-listed South Pacific Puget Sound Orca Whales depend on migrating Delta species that will be harmed by less water flowing through the Delta. • The tunnels plan seems to ignore Section 7 of the Endangered Species Act which prohibits federal agency actions that are likely to jeopardize the continued existence of any endangered species or that "result in the destruction or adverse modification of [critical] habitat of [listed] species." <p>My public health concerns with the plan are:</p> <ul style="list-style-type: none"> • The tunnels will cause increased contamination of municipal water and wells for the millions of rural and urban residents living in the five Delta counties. • The tunnels plan fails to model for potential increases of carcinogens and other formation of byproducts that would cause cancer and other serious health effects. • Environmental justice communities, who depend on subsistence fishing, will also face food and health insecurities as a result of increased contaminants, specifically mercury contamination, in fish and wildlife populations. <p>My economic concerns with the plan are:</p> <ul style="list-style-type: none"> • For large metropolitan cities such as Los Angeles and San Jose that depend on export water, water rates and/or property taxes will go up, but they will get no additional water. • No analysis has been done on how the lack of fresh water flows will impact San Francisco Bay tourism and recreation. These industries depend on Delta fresh water flows for their crab and salmon fisheries, wildlife sighting, boating, and their restaurant economy. This industry is worth billions annually. • Salinity intrusion is already impacting the western Delta farms and removing Sacramento River freshwater from the system will make matters worse. Delta farmers cannot irrigate crops with salt water and they certainly cannot plant crops in contaminated soils. The Delta Ag economy, which consists of generations of family farms and farm workers, generates \$5.2 billion for the California economy, annually. • California coastal fishing communities depend on thriving wildlife. This historic industry is worth billions annually, with the salmon industry worth \$1.5 billion annually alone. Thousands of jobs and livelihoods are tied to these industries. • The operation and construction of the tunnels will obstruct and disable navigable waterways for boating, marinas and other types of leisure activities, in addition to creating conditions of low water flow that will foster invasive aquatic species, such as water hyacinth. Poor water quality also creates unsafe recreation. Recreation and tourism in the Delta generate \$750 million annually. <p>Alternatives to Water Exports Ignored</p> <p>Far far less expensive and less environmentally destructive alternatives to the Delta Tunnels were largely ignored. The plan does not seriously consider any alternatives other than new, upstream conveyance. The decision-making process (from the outset) has tilted in favor of increasing water exports from the Delta.</p> <p>Our tax and ratepayer dollars would be much better spent on:</p> <ul style="list-style-type: none"> • More aggressive water efficiency program statewide that would apply to both urban and agricultural users. |

| Mark Capra | Fremont, CA | 2015-08-27 | It will ruin the Delta.it will cost 30 -50 BILLION and for some reason they dropped the promised environmental remediation of the Delta |
| Janna Schofield | Brentwood, CA | 2015-08-27 | Because I care! |
| Rachel Rockholt | Davis, CA | 2015-08-28 | I want the water to stay and keep the delta healthy. And the CA ag down south shouldn't be there. We should not subsidize it while we have a drought. or ever. |
| Teresa Taresh | Shingle Springs, CA | 2015-08-28 | Because water is our most precious resource and southern CA need to figure out how to make their water stretch. They are like greedy stepchildren that just keep grabbing for the goods without making adjustments in their behavior! Who is going to replace our water when we need it? Come up with some alternatives here, like more water storage for example! |
| Steve Moore | Davis, CA | 2015-08-28 | Northern California needs that water for people, farming, fish and wildlife |
| Kenneth Burrows | Las Vegas, NV | 2015-08-28 | Big business at the expense of small business is BAD business! |
| Ernest Chaney | Garden Valley, CA | 2015-08-28 | Tunnels are a very bad idea for Norcal |
| Cheryl Niceley | Valley Springs, CA | 2015-08-28 | This would be devastating to the local economy and environment. |
| Eric Driever | Cameron Park, CA | 2015-08-28 | I oppose the tunnels. There are other options to resolve the water issues in Southern California. Salination plants and growth restrictions in the natural desert areas are two such examples. |
| Michelle MacKenzie | San Carlos, CA | 2015-08-28 | We need to protect the Delta and restore it for the benefit of migrating birds, fish and nearby farmers. |
| Eric Gough | Rio Vista, CA | 2015-08-28 | I've been living on the delta for 46 years (all my life) I fish and use the delta for recreational use all the time but mainly fish it. The schools and the roads here in California need more attention they are horrible. I'm tired of sending southern California our water so they can water their lawns. They can spend this money on our schools and roads not central California thank you Eric |
| Paul Anders | Citrus Heights, CA | 2015-08-28 | This is a destructive plan. |
| Paula siebold | Pittsburg, CA | 2015-08-28 | We need our Delta! |
| Christine Cantrall | Sacramento, CA | 2015-08-28 | I love boating |
| Dorothy Smith | Antioch, CA | 2015-08-28 | The damage the tunnels will do to t Delta! |
| Tawnya Miller | Orangevale, CA | 2015-08-28 | I'm singing this because you are trying to deplete the largest estuary in the western United States... Listen to the people ... We don't want the tunnels The whole ecosystem will be ruined |
| Steven Karsten | Suisun City, CA | 2015-08-28 | Because we told Gov. Moonbeam NO to his Peripheral Canal 1.0 plan back in the 80s. This is just his sneaky way to get around those voters. He will not give up, trying to ship our Northern water to Southern Calif, where they just WASTE, WASTE, WASTE, and I say>>NO>>NO>>NO!!!!!! |
| Chris James | Brentwood, CA | 2015-08-28 | So they don't ruin the Delta! |
| Tiffani Sterbentz | Foresthill, CA | 2015-08-28 | It's the right thing to do. |
| rebecca martin | calgary, Canada | 2015-08-28 | I'm disgusted with your lack of reasoning for this plan. It simply does not work to take water out of its natural environment. Stop piping our water away! Stop fracking for that matter! Millions of gallons of water wasted on fracking and you think piping it will help anyone? |

| Name | Location | Date | Comment |
|---------------------|-----------------------|------------|--|
| Charles Jensen | Walnut Grove, CA | 2015-08-28 | I am a from a 7th generation involved in Delta Ag. Delta Ag was here before Jerry Brown and his father as well as the Stewart Resnik's, Dianne Feinstein/Dick Blum's and Nancy and Paul Palosi's investments.....the greed they impose is more than unethical and immoral....may their heirs reap their immortality. |
| Christopher Ballard | Ponte Vedra Beach, FL | 2015-08-28 | I am signing because i want to. K ?? |
| james marich | Penn Valley, CA | 2015-08-28 | I have a boat in the delta and i fish a lot their.The tunnels would destroy fishing for ever. |
| Connie Stoneking | Antelope, CA | 2015-08-28 | I'm signing because of the negative chain effect it will have on our environment & economy. Why would we destroy farms which have been proven naturally productive, some for over a 100 years to attempt to farm in a dessert. This will make the ground water salty (nearly to Sacramento). Imagine all of the agriculture this will kill off. In turn thousands of jobs will be lost and revenue gone and over 300 productive farms put out of business including vineyards, Blue berries, peaches, pears, asparagus and tomato's just to name a few. |
| Angie Marulo | Modesto, CA | 2015-08-28 | Destroying farmland, disrupting nesting for waterfowl and fish is not the solution. |
| Anita Peters | Courtland, CA | 2015-08-28 | These tunnels will harm the Delta and a whole regions way of life. Build desalination plants in southern California. |
| Sierra Daniels | Oakley, CA | 2015-08-28 | I opposed the tunnel. I grew up in the area and am a wildlife biologist and ecologist by degree. This is an important area of ecology for the entire state and any changes made would destroy it beyond repair. |
| justine little | vacaville, CA | 2015-08-28 | Because i fish and play in the delta. Build desalination tanks not bullet trains |
| Julia Simpson | Stockton, CA | 2015-08-28 | The Delta is a wonderful estuary, that many people, and animals enjoy. The tunnel will destroy it. Southern California needs to find another source of water, taking ours is not the answer. |
| James Sanchez | Ceres, CA | 2015-08-28 | I wanna help save the delta and all that thrives in it and keep it for my kids to enjoy one day the way that I have. |
| Weisker Jason | galt, CA | 2015-08-28 | Jason weisker |
| Gene Asai | Sacramento, CA | 2015-08-28 | The tunnels will do irreparable harm to the delta |
| Monica Misquez | Antioch, CA | 2015-08-28 | I am signing this because I strongly oppose the Delta Tunnels. |
| Kristina Gutilla | Antioch, CA | 2015-08-28 | I'm signing because the Delta is a crucial part of my life. As someone who has grown up on the Delta, it pains me to think that I may not be able to share this gem with future generations. Passing on our family traditions of boating, fishing, and hunting are crucial. Our environment here is unique and beautiful, and deserves to be protected. Let's remember that this drought happens once every twenty years, but this delta is part of our lives environmentally and economically every single day. I am definitely opposed to these tunnels. |
| Renate Johnson | Dublin, CA | 2015-08-28 | I am concerned about environmental impact. We don't need any more construction in So. California! |
| kandice paulk | Oakley, CA | 2015-08-28 | To stop the tunnles |
| Lisa Stivers | Santa Cruz, CA | 2015-08-28 | I'm signing this because I don't believe all of the water in the delta should be piped south at the cost of the state's largest estuary. This is an environmental disaster waiting to happen. Please scrap this project. |
| Rebecca Rojas | Stockton, CA | 2015-08-28 | For our Future |
| scott duncan | Santa Cruz, CA | 2015-08-28 | Please stop the tunnel project. The delta and fisheries are already being crushed by pumping too much water out of the estuary. Restore California's commitment to the environment and halt this project! |

| Name | Location | Date | Comment |
|--------------------|----------------|------------|---|
| Joe Stokley | Brentwood, CA | 2015-08-28 | I think this is a very bad idea - could destroy our states most valuable source of water. Spend the money on more storage. |
| Dawn Plantz | Roseville, CA | 2015-08-28 | I am an Environmental Scientist, I see the tunnels as a political issue not something that will help with water storage. There are better ways to handle the water situation than jacking up the delta. |
| Teri Macias | Cloverdale, CA | 2015-08-28 | I oppose the tunnels and the water grab that will degrade the Delta ecosystems and drive extinctions. |
| Donna Beard | Waterford, CA | 2015-08-28 | California needs more water storage instead of this plan. |
| Mark Koenig | Sunnyvale, CA | 2015-08-28 | These tunnels will devastate our states major fisheries. |
| Lourdes Caravantes | Napa, CA | 2015-08-28 | I grew up in the Delta... I am saddened and deeply concerned about the negative environmental impact that these will have on the Delta region. |
| Roxanne Emmons | Oakley, CA | 2015-08-28 | These Tunnels will destroy the Delta Rivers & streams & kill the delta smelt a protected fish, kill Salmon breeding grounds & change or lively hood in the Delta forever #Shame on you Gov Brown you will ruin our lives in No. California |
| Mark Hughes | Dunsmuir, CA | 2015-08-28 | I'm signing this because this is NOT good for the river, the Delta, California, or the environment. This is CLEARLY a Land and Water grab. This is only good for Huge Corporations, say NO to this bad Plan! |
| Steve Siegel | Stockton, CA | 2015-08-28 | I live in the Delta area and presently enjoy the water quality and farm land. We will lose all of this if the tunnels are constructed. |
| Amie Diller | Davis, CA | 2015-08-28 | The new EIR/EIS has not adequately addressed my concerns. That is why I oppose the Delta Tunnels/California Water Fix (Alternative 4A). Reclamation and DWR should prepare and circulate a new Draft EIR/EIS that will include alternatives that reduce water exports and increase Delta flows for consideration by the public and decision-makers. Such alternatives have a far better chance of complying with the Delta Reform Act and the federal Endangered Species and Clean Water Acts. |
| Sandra Clancy | San Rafael, CA | 2015-08-28 | I am signing this petition because I am very concerned about our waters health and how it effects the health of all living things around it. |
| tracy magee | el cerrito, CA | 2015-08-28 | I oppose any tunnels in the Delta. |
| Roxanne Moger | Sacramento, CA | 2015-08-28 | The needs of the delta and delta residents as well as water users in Northern CA and the Bay Area have been minimized or disregarded. The tunnel plan also fails to address how the tunnel projects will mitigate salinity, toxic run off and contaminant disturbance during construction and after. It defers to an unknown time estuary restoration. This is bad engineering. Please stop pursuing it. |
| Charles Swann | Manteca, CA | 2015-08-28 | I love the Delta (avid sportsman) and have watched it being destroyed for years by the pumps already installed. This will kill it for sure and a death sentence for our fisheries. It should be criminal to pass this tunnel project!! |
| Ralph Waller | Oakley, CA | 2015-08-29 | I appose the delta tunnels |
| Wrenda Sabino | Brentwood, CA | 2015-08-29 | I have boated in the bay and delta for 35 years and I DO NOT want the tunnels "SAVE OUR BAY AND DELTA WATERS" |
| Barby Ulmer | Saratoga, CA | 2015-08-29 | Tunnels at the time of Pat Brown's governorship or even Jerry Brown's first governorship might have looked like a good idea, but with so much new information it's time for our governor to stand up like the intelligent man he is to say:"I've made a mistake. There are too many dangers that would result from the tunnels. I'm withdrawing my plan." |

| Name | Location | Date | Comment |
|----------------------|---------------------|------------|---|
| Sara Hartesveldt | Monterey, CA | 2015-08-29 | I'm signing because I care about our wildlife! |
| Elizabeth Zainasheff | Elk Grove, CA | 2015-08-29 | I oppose the tunnels and the BDCP. |
| Laura Wilson | Antioch, CA | 2015-08-29 | I don't want the Delta destroyed! This will be a catastrophe to the No CA region that depends so much on the Delta and local farmers! |
| Debbie Rogers | Woodland, CA | 2015-08-29 | I oppose the tunnels in the Delta. |
| Joel Panzer | San Francisco, CA | 2015-08-29 | I am worried about the future of the Bay and Delta. I am worried for my children and grandchildren. |
| Brad Furr | Stockton, CA | 2015-08-29 | I know the consequences of what these tunnels will do. Please think of the environment instead of money when making the decision. |
| Joanne Dringenberg | El Dorado Hills, CA | 2015-08-29 | Water needs to stay in Northern California |
| craig breschi | Rocklin, CA | 2015-08-29 | the tunnels project doubles down on a failed policy of taking water from the north and sending it to wealthy agri business barons in the south! It will not create any additional water and will ultimately cause the destruction of the fisheries, the delta farmers and the overall water quality of the bay delta estuary! |
| donald zeissler | Carmichael, CA | 2015-08-29 | I abhor, the thought of repercussions, resulting from this major loss of water to our fisheries. And the damage it will also do to our delta, in all respects, including flora and fauna. |
| Antonio White | San Francisco, CA | 2015-08-29 | I support the resident of the Delta. |
| John Tucker | San Pablo, CA | 2015-08-29 | These tunnels are disasters:Financially, ecologically and in the survival of the Delta |
| Robert Johannes | Tracy, CA | 2015-08-29 | I'm signing because the twin tunnel project is dumb, making as much sense as the "High Speed ChooChoo". Inadequate water supply in N.Cal and he wants to send it south |
| Louie Marques | Sutter, CA | 2015-08-29 | It's not fair for the people down in Southern California to take our water and destroy our ecosystem. |
| Caroline Yacoub | Sunnyvale, CA | 2015-08-29 | The tunnels are insane. |
| Chad Irvine | Campbell, CA | 2015-08-29 | WE must save our wetlands! |
| Cynthia Petersen | Sonoma, CA | 2015-08-29 | The health of the Delta and the Bay depend on the regular flows of fresh water from the Sacramento River. Diverting it away from its historic flows will irreparably impact the health and well being of the eco system there. |
| Ryan Azevedo | Modesto, CA | 2015-08-29 | If they build the tunnels they would be ruining the most important delta west of the Mississippi! |
| Kimberly Korth | Isleton, CA | 2015-08-29 | I'm signing because these tunnels would divert needed water from the Delta Estuary that is needed to protect and keep the Delta healthy for farming, fishing and wildlife and it would only go to Southern California Big Ag Corporate farming operations who have pumped their own ground water supplies so empty that they need to steal water from others who need it more extremely than they do. These Southern Ag corporations were always aware they were trying to grow crops on poor soil without a quarantined water source. They knew the risks but ignored them. Now they are playing dumb in an attempt to steal water from the Delta area that has always needed its own water desperately to control salinity intrusion and to keep the Delta Ag community and fishing and wildlife healthy too. You cannot steal from one and give to another if the one you steal from suffers dire consequences which would occur from this huge amount of water that southern California Ag Corporations want to divert. The Delta is the David to their Goliath. Please help us! |

| Name | Location | Date | Comment |
|-------------------|----------------------|------------|---|
| David McCabe | Watsonville, CA | 2015-08-29 | This hair-brained scheme will cause irreparable harm to San Francisco Bay and Delta habitat. |
| Bernard Wallace | Discovery Bay, CA | 2015-08-29 | I am signing because this is the is worst idea that will not give California more water and will severely damage the delta and the environment ! |
| laura san nicolas | Sacramento, CA | 2015-08-29 | It's corporate greed |
| Edwina White | Sacramento, CA | 2015-08-29 | The Delta functions for many uses -- to provide water and food for humans and other species. Don't ruin it. |
| Gail Zavala | Rio Vista, CA | 2015-08-29 | Taking homes and farming away away from so many people is unacceptable,. Leaving farmers with only saltwater will destroy so many people and fish. |
| james ensslin | walnut grove, CA | 2015-08-29 | I don't want you to destroy OUR delta |
| Kathleen Gapusan | Stockton, CA | 2015-08-29 | It won't work. Simple. A waste of billions of dollars and threatens ecosystem, wildlife, farming that provides food nationwide, will cause more salinity problems as well as provide many cities with drinking water. We have vehemently objected to this project since 1982. |
| Robert Gibson | Stockton, CA | 2015-08-29 | I'm signing this petition because nature takes care of us so we need to take care of it, or loose it |
| bonnie dash | Antioch, CA | 2015-08-29 | I care about the environment and our local Delta farmers over the greed of mega agribusiness. |
| carolyn ellis | Placerville, CA | 2015-08-29 | Stop destroying a sacred, beautiful, and natural estuary just to politically satisfy closed door deals that you probably made to get the top seat in California. Put conscience over politics. |
| William Dutra | Danville, CA | 2015-08-29 | I oppose the tunnels! |
| Mary Eisenhart | decline to state, CA | 2015-08-29 | Northern California's water is not there to be pillaged. |
| Vicki Rayner | Antioch, CA | 2015-08-29 | Plain and simple, it won't work! To many vital things will be destroyed, forever, in the building process. Completely a bad idea for California and it's Delta. Critical thinking leads to the conclusion, it's wrong and a very bad idea. |
| Ciera Wilbur | Elk Grove, CA | 2015-08-29 | MAYBE YOU SHOULD PUT ALL THIS MONEY TOWARDS DESALINATION IN THE SOUTH INSTEAD OF STEALING WATER FROM THE NATURAL ENVIRONMENT IT IS SUPPOSED TO BE IN. |
| Charles R. Cowan | Rancho Cordova, CA | 2015-08-29 | I oppose the tunnels because I believe it will have a negative impact on the delta. Farms that have been in families for years will be taken by imminent domain. These families will be impacted financially. |
| Melva Gambrel | East Bernstadt, KY | 2015-08-29 | I grew up in the Delta, it needs to be free of dirty politicians hands |
| Stacey Joslin | Granite Bay, CA | 2015-08-29 | We cannot destroy this amazing ecosystem more that we already have |
| Victor Reyes | Stockton, CA | 2015-08-29 | I care about our Farmers of The Valley |
| Sean O'Malley | San Leandro, CA | 2015-08-29 | The tunnels will kill wildlife. |
| Dave Houck | Acampo, CA | 2015-08-29 | I'm signing because it's not right to make half the state pay because of Westlands It is all about big business and money Gov Brown you should be ashamed |
| lucie luu | Elk Grove, CA | 2015-08-29 | Opposing the delta tunnels!!! |
| Kara Stein | Santa Cruz, CA | 2015-08-29 | I have lived on the delta my entire life. This is my home and sanctuary and needs to be protected. This is a limited resource and is not the solution to provide water to farms created in the desert! |
| Heather Gautier | Oakley, CA | 2015-08-29 | I live near the delta, and tunnels are not the solution we need for our water crisis. |

| Name | Location | Date | Comment |
|------------------------------|---------------------|------------|---|
| Douglas vieira | Rio Vista, CA | 2015-08-29 | i oppose give Browns tunnel plan, |
| Debbie Bond | Stockton, CA | 2015-08-29 | Pleas don't change what Mother Nature created. |
| Fred Sypolt | Santa Rosa, CA | 2015-08-29 | The tunnels will destroy the Delta as we know it. The wild life and fishery will never be the same. Water vital to the farms and those living in Northern California being shipped south is just not right. |
| William badding | Sonoma, CA | 2015-08-29 | I am a fisherman and believe in conservation of our waterways and the wildlife within them, the tunnels will do nothing but make things worse not better for anybody or anything |
| Gabriela Cervantes Cervantes | Goleta, CA | 2015-08-29 | I'm signing because the Delta area is my home. The Delta area is my families work area, without it we are left with no source of income, no home, and nowhere to go. I'm signing this because California's economy will suffer without the San Joaquin- Delta economy. |
| will mcelroy | auburn, CA | 2015-08-29 | I'm trying to keep the world healthy. Bring on the sustainability. |
| Thomas Dias | Castro Valley, CA | 2015-08-29 | I have been enjoying the delta since I was 10, and I don't want it turned into a barren salt marsh...no good can come from these tunnels except to line the pockets of the water sellers... |
| Paul Yearley | West Sacramento, CA | 2015-08-29 | The Delta shouldn't be destroyed so that people in LA can keep watering their lawns. |
| Jeffrey Altman | Discovery Bay, CA | 2015-08-29 | I don't want to see a fragile ecosystem destroyed! |
| eric crow | Citrus Heights, CA | 2015-08-29 | I love the delta. There is already a saltwater intrusion issue without the tunnels |
| Kenneth McDonnell | Modesto, CA | 2015-08-29 | It's just the same as taking water out of your toilet tank while there is something in the bowl. It won't flush. |
| Sonya Herrera | Hayward, CA | 2015-08-29 | I'm signing because I want to protect the San Joaquin-Sacramento river delta and the wildlife that depend on it. |
| Rick Farinias | Sacramento, CA | 2015-08-29 | I'm signing because I care for the delta & the fishing enviornment. These tunnels that you are Tryn to build will destroy all farms, animal habitats and fishery's that I love. You money hungry politians don't care what mother nature created & you buildings these tunnels for southern Cali Cuz they so called need water is all bs.please don't build these tunnels Cuz your money politians need to fill your pockets n destroy what we love here in the delta for money |
| Margaret M Fairbrook | Stockton, CA | 2015-08-29 | i appose the tunnel idea - |
| Mary Ann Courville | Dixon, CA | 2015-08-29 | Our Delta is a freshwater haven for many species....especially the human species. Taking Delta water will cause its death, due to salt water invasion from the Bay. |
| Marina Schmidt | Elk Grove, CA | 2015-08-29 | I care about our environment. |
| Shelley Griffin | Martinez, CA | 2015-08-29 | I don't want Northern California water to be sent south. |
| Christina Macsems | Sacramento, CA | 2015-08-29 | I want the delta to stay how it is. With farmers and wild life that will be destroyed if the tunnel is built . |
| Nadia Rains | Sacramento, CA | 2015-08-29 | I'm signing because water is precious to Northern California for wildlife, the Delta, and agriculture. |
| Jack Lanier | Janesville, CA | 2015-08-29 | This is a power grab by Gov. Brown to negate the will of the People, and to appease his Progressive Liberal base. The people have spoken in1982. That said, Gov. Brown must take this to the People for a VOTE... |
| Bridgett Walker | Stockton, CA | 2015-08-29 | I dont want the delta ruined. |
| Sarah Hammontree | Sacramento, CA | 2015-08-29 | The destruction of the environmental is no longer excusable by ignorance. These tunnels are not an environmental, economic or practical solution to the Delta Bay's water woes. |

| Name | Location | Date | Comment |
|-------------------|-------------------|------------|--|
| Peter Hine | Stockton, CA | 2015-08-29 | I live in Stockton, and am an avid boater and am afraid the tunnels will further degrade the ecology of the Delta, and my ability to use this wonderful resource for my own recreation, and with Stockton's new potable Water source from the Delta, I am afraid of degradation of that. |
| Kirby A. Smith | Sacramento, CA | 2015-08-29 | I do not like the Idea! |
| Robert Martinez | Antioch, CA | 2015-08-29 | I'm signing this to help save the delta! |
| Jennifer Trotter | Stockton, CA | 2015-08-29 | They are creating a bigger problem. Stop the tunnels!!! |
| Brett Scarlett | Orangevale, CA | 2015-08-29 | The tunnels are bad for the people of California |
| Michael Luttig | Elk Grove, CA | 2015-08-29 | I want to save the purity of the delta. |
| Tove Walsh | Tacoma, WA | 2015-08-29 | I grew up there. |
| adrienne wood | stockton, CA | 2015-08-30 | I love the delta! We have five boat and enjoy every bit of the wildlife the delta has to offer. The tunnels will destroy a beautiful piece of CA for ever |
| Judy Gomes | Galt, CA | 2015-08-30 | I love the Sac SanJoaquin Delta waterways. Our rich agricultural lands require good water to grow the food that feeds all of us. So California is wasteful of our No California's precious resource WATER |
| Michelle Marsh | Granite Bay, CA | 2015-08-30 | I want to save the delta. |
| sean Biggs | Ripon, CA | 2015-08-30 | L.A. needs to store it's own snow pack and run off. Build more water shad down south. Bypass all the political BS and start building Dams now ! |
| Andy Stock | San Francisco, CA | 2015-08-30 | We would rather pay higher prices For food and keep the water flowing where it would naturally would. |
| Katherine Padilla | Roseville, CA | 2015-08-30 | Because it is what's right! We should not allow Brown or any other Politician to deepen their pockets any further with greed and destroy the beautiful Delta |
| Gena Kraft | San Jose, CA | 2015-08-30 | I've been boating on the delta for 40 years. Removing fresh water where the rivers deliver it to the delta will be catastrophic. That will forever alter the ecosystem and the billions who count on it. Don't f up here. Tunnels are the beginning of the end for many. Desalination you guys. Get it together. |
| Jody Mattison | Antioch, CA | 2015-08-30 | Conservation, not water theft! Dont destroy the delta! |
| Kerin Gould PhD | elverta, CA | 2015-08-30 | California has done a spectacularly bad job of managing water, selling obscene amounts to wasteful industries and even to Nestle who bottles it and sells it back to us, surely laughing hysterically about the profit made at our expense. Our aquifers are turning salty, collapsing and polluting with fracking waste. Not one more project should be undertaken by this administration or with any influence from industry, including mega-ag. Stop everything. First, tell all industries that their access to water will hinge on eliminating wastefulness and waste. Fracking must be banned in California for a list of reasons too long for this space. And southern california should realize that it is meant to be dry most of the year. If they want water, conserve and recycle rather than sucking northern california dry. No tunnels from where the water is from and where it is appreciated to the land of swimming pools and golf courses to keep their lifestyle up while wrecking ours. ALL efforts and funding should go into conserving and cleaning water! Tunnels are a ridiculous non-solution to our water problems. |
| Jose Martinez | Elk Grove, CA | 2015-08-30 | It will cause environmental harm. |
| carla dimondstein | fort bragg, CA | 2015-08-30 | This project, in every sense, on every level, is a reckless and organized criminal endeavor. The state of California and Jerry Brown look to steal from us again, holding all living creatures hostage, for profit. They seek profit, caring nothing for process, honesty or environmental concerns. It's wrong and it's a psychopathic plan that needs to be halted. |

| Name | Location | Date | Comment |
|--------------------|---------------------|------------|--|
| m s | Hayward, CA | 2015-08-30 | Because the delta is home to farms growing food, many kinds of plants and animals, and stores the carbon, cutting down on global warming. |
| Edie Morales | San Rafael, CA | 2015-08-30 | The delta is the lifeline for northern California agriculture. It has its own ecosystem. Very bad consequences will come if that water is removed, death will come to this natural water source area. |
| Gordon Moore | Goodyear, AZ | 2015-08-30 | These farmers in the desert can live with the water that they have already. There's been too much destruction |
| Tom Brosna | Palo Alto, CA | 2015-08-30 | Dont agree |
| Dawn abrao | Lodi, CA | 2015-08-30 | I boat and fish in the Delta. Leave water for the fish! Majority don't want tunnels, Gov Brown! |
| Carol Rexroth | Stockton, CA | 2015-08-30 | I am signing this petition because this is not a viable solution to the water crisis. We voted down the peripheral canal years ago and Gov. Brown is trying to sell this again as tunnels this time. It is not what needs to be done. |
| diane shoff | shingle springs, CA | 2015-08-30 | The delta is truly one of California's most beautiful areas. I don't want to see it ruined |
| Janet Bolenbaugh | Antioch, CA | 2015-08-30 | The tunnels are a terrible idea. They will cause irreparable harm to the environment |
| Daniel Armstrong | Hood, CA | 2015-08-30 | Because Jerry Brown can eat a sack of dicks. Seriously, |
| Jerry Cordy | Sacramento, CA | 2015-08-30 | The tunnel project is a poorly designed project that simply amounts to a water theft by Westside opportunists and So Cal Developers, taking water from those with legitimate prior rights to the water. The cost estimate is hugely underestimated and the project does nothing to enhance the State's water supply, nor does it enhance any needed environmental restoration. It will create more salt water intrusion into an already fragile and damaged delta. |
| tom freund | mendocino, CA | 2015-08-30 | major changes in either water or land always turn out to result in major changes in the environment. the approval needs to be slowly, deliberately , and wisely considered. this is not happening thus my disapproval. |
| Kathi Kammerdiener | Prunedale, CA | 2015-08-30 | This idea is ridiculous and insane... Money and water will both be wasted on implementation, and California can't afford any more loss of either! |
| Pamela Forster | Sacramento, CA | 2015-08-30 | Don't kill our beautiful Delta, stop this madness. I feel for farmers, but they only generate about 3% of California's economy. Water is scares and I'm not into taking water from the Delta and family farmers along the Delta, onky to give it to million dollor corporate agribusiness. Govenor Brown, I consider you a sellout, and a traitor to the people of California. |
| chance ledsworth | Antioch, CA | 2015-08-30 | I use the water ways |
| Babette Adkins | Stockton, CA | 2015-08-30 | we need the delta and the biodiversity it provides |
| CA Lonergan | Oakland, CA | 2015-08-30 | We need our water for _people_ to drink, before unsustainable food crops! |
| Cole Taylor | Stockton, CA | 2015-08-30 | I'm signing because I grew up fishing the delta and I don't want to see it destrobey pointless tunnels! |

| Name | Location | Date | Comment |
|-------------------------|--------------------|------------|--|
| Sean McVey | Citrus Heights, CA | 2015-08-30 | Im signing this because i use those waterways year around fishing and enjoying the water. Its my duty to protect whats in my beat intrests. The delta is a precious resource to many fish protected by the state (salmon,sturgeon(green & white),steelhead) and many other species of fish and birds. The farmers already get regulated amount for farming i dont see why we need to give anymore. They've got around fine with their already regulated share of delta water. Especially in a 4 year drought. Water is a precious resource i dont see why we would be pumping more water in a drought. It doesnt seem logical. I feel their are better options like desalination plants. |
| Kathryn Dunning | Colfax, CA | 2015-08-30 | I care about our natural environment |
| Nicole farrar | Brentwood, CA | 2015-08-30 | I live in the Delta and this is important!!! |
| Theresa Echeverria | Eugene, OR | 2015-08-30 | My Azoren family helped to build the levees in the Natomas area of Sacramento so they could farm. Some of us are still farming on Georgiana Slough, farming the same land for 3 generations, hopefully 4 |
| Karl Goeking | San Carlos, CA | 2015-08-30 | This idea will ruin the Delta Find another source |
| Antoinette panico | Sacramento, CA | 2015-08-30 | Retain the delicate balance of northern California eco systems |
| Al Bernal | Campbell, CA | 2015-08-30 | The tunnels are not needed and destroy precious land. Please stop with this foolish move!! |
| Kerry Klocke | Stockton, CA | 2015-08-30 | I feel Southern California residents need to show a greater concern for the fragility of our water ecosystem. The deplorable conservation efforts of many Southern Californian cities during this drought prove they do not respect the fragile water system we have in California. Before the state is allowed to build twin tunnels to rob from the Delta, more storage areas should be build to hold surplus water during the rainy years. |
| john Van Eyck | Berkeley, CA | 2015-08-30 | This is so wrong! More and more of the same old boondoggle |
| amanda witkowski | Simi Valley, CA | 2015-08-30 | i grew up on the delta and know how this will affect the land, the people there, and affect the food source for many people. |
| Alan Anderson | Folsom, CA | 2015-08-30 | Logic tells me that this will be a financial and environmental disaster. |
| Shelly Morris | Brentwood, CA | 2015-08-30 | Our Delta is important to the ecosystem of the entire coast, the farmers who live and work there and the health of our economy. Current water policies are destroying it and endangering CA. |
| Dianne Hamilton England | Stockton, CA | 2015-08-30 | I'm tired of rehashing this issue for 20 years! |
| Todd Siegfried | Brentwood, CA | 2015-08-30 | It's a reckless idea that I believe will destroy the ecosystem in the Delta. |
| Tamberly Eccles | Modesto, CA | 2015-08-30 | We have bigger problems that should be dealt with... This DROUGHT being one!!! A tunnel is stupid!!! |
| April Watrous | Stockton, CA | 2015-08-30 | I'm signing this because I don't want our Delta ruined!!!! |
| Vanessa Freeman | Brentwood, CA | 2015-08-30 | The delta is my playground and I refuse for it to be destroyed. Building tunnels will create havock for home owners in Discovery Bay and could Damage the environment and ecosystems. |
| Linda Hays | Sacramento, CA | 2015-08-30 | The delta is a beautiful place, it needs to remain as it is for the animals and plants which require it to live. It's a place for humans to relax with a nice Sunday drive, a place to teach children about nature. Please don't take our Delta from us! |
| Thomas Vue | Sacramento, CA | 2015-08-30 | I support the conservation of the Delta |

Petition 1 - Restore the Delta (Form 5 generator)

| Name | Location | Date | Comment |
|--------------------|---------------------|------------|---|
| COREY CHAN | Antioch, CA | 2015-08-30 | There are other, less costly, less harmful, solutions. The Delta has a special ecosystem (that is nutrient dense and full of life) unique to the west coast of the Americas, we must do what we can to let it thrive. Stop the tunnels, save the delta! |
| Susan Stagnaro | Stockton, CA | 2015-08-30 | Stop the tunnels! |
| Jack Aiello | Antioch, CA | 2015-08-30 | I have grown up on the Delta swimming boating and fishing I am now raising my granddaughter in and around the Delta waterways construction of the Tunnel would effect water quality and species. please don't ruin OUR waterways |
| Cecil Smitherman | Sacramento, CA | 2015-08-30 | The water in the delta should not be used in mass quantities to irrigate almond and pistachio trees that are planted on unsustainable grounds for export. |
| Andrew Daniels | Antioch, CA | 2015-08-30 | This is wrong on so very many levels, will cost hundreds of millions of dollars and could break a billion when simply restoring our waterways and researching shrooms costs mere 10's of millions of that and because there is ABSOLUTELY no reason for them other than a way for Mr Brown to spend precious tax dollars. |
| Kathleen Guintu | Elk Grove, CA | 2015-08-30 | I oppose the building of the tunnels due to the ecological and environmental impact it will have on the Delta, as well as the destruction of prime farmland. |
| Denise Jones | Antioch, CA | 2015-08-30 | I oppose the Delta Tunnels. The delta is necessary and precious to those depending on it, farmlands, recreation, wildlife, communities--water sustainability, etc. It has been clearly opposed by residents and ratepayers, yet politicians continue to find a way to STEAL it despite the fact there will be devastating environmental, public health and economic consequences. |
| Janelle LaFleur | Roseville, CA | 2015-08-30 | I'm signing because we should be destroying Northern CA |
| Katie Heringer | West Sacramento, CA | 2015-08-30 | I grew up on the delta. I am a farmer's daughter. These tunnels would destroy my family's land and history. Tunnels are not the answer to any question. |
| Robert Bellin | Stockton, CA | 2015-08-30 | Govenor brown is killing my quality of life by allowing salt water to intrude into my ground water . |
| Natalie Ellison | Santa Cruz, CA | 2015-08-30 | I'm signing because my friend's farm, which has been in her family four three generations, would be destroyed by this, without any monetary compensation. This is theft. It is immoral. |
| Scott Nixon | Brentwood, CA | 2015-08-30 | It won't work and it will destroy the delta ecosystem. You can't irrigate with salt water. |
| Sandra Perea | Murrieta, CA | 2015-08-30 | The delta needs to be saved. ENOUGH IS ENOUGH!!! |
| bayleigh Pettigrew | Los Angeles, CA | 2015-08-30 | There are other solutions that would leave less of a footprint and do less damage. |
| Robert Lusk | San Leandro, CA | 2015-08-30 | This is a waste of money and displacing the farmers that feed us. |
| Karen Kundrak | Sacramento, CA | 2015-08-30 | I refuse to let Brown disrupt an Eco system to turn NorCal into a desert while giving even MORE water (aqueduct) to SoCal, an actual natural desert. It's just plain idiocracy!! NO TUNNELS !!! |
| natalie king | discovery bay, CA | 2015-08-30 | Against delta tunnels, STOP THE TUNNELS |
| Bob Sparre | Fair Oaks, CA | 2015-08-30 | The Tunnels will finish off the Delta. |
| Jacqueline Turney | Discovery Bay, CA | 2015-08-30 | Not only should we sent our water to the desert for crops of almonds that are mainly being sent to Aisa, building tunnels are extremely costly and much of the "precious" Water will be lost in evaporation! Isn't our country in debt enough? And waisting water is stupid!!! |

| Name | Location | Date | Comment |
|-------------------|------------------|------------|---|
| Janeane Armstrong | Sacramento, CA | 2015-08-30 | because our valley farmers need to have access to water and not be rationed to the point that they can't plant their fields. California feeds the nation! |
| Rebekah Armstrong | Sacramento, CA | 2015-08-30 | It is a horrible idea |
| Anna Pavao Zinn | Galt, CA | 2015-08-30 | To preserve the estuary, Bay and protect wildlife and the unique and longstanding Delta economy and ecosystem. We wholeheartedly reject this plan which, last we heard, has no financial gain for California and only serves to support agriculture in a blighted area for a few megafarmers in middle California at the expense of a mature agricultural area full of families and local businesses. |
| Amber McDowell | Walnut Grove, CA | 2015-08-30 | It will lead to the destruction of our family farm. |
| Mark Zanfardino | Sacramento, CA | 2015-08-30 | We need to continue the conservation efforts already set out in stead of just relocating water in a time of drought from an already over used source. |
| Kathy Boyd | Antioch, CA | 2015-08-30 | There is a big ocean off the coast they could use instead of spending the money to take the water our area needs. |
| Christopher Long | Stockton, CA | 2015-08-30 | It's not right! |
| Sabrina Young | Pittsburg, CA | 2015-08-30 | The Delta needs to remain intact as it is for the fish and wildlife that depend on it! |
| Moria Peters | Patagonia, AZ | 2015-08-30 | i oppose this environmental nightmare. |
| Rebecca Kirtlan | Clarksburg, CA | 2015-08-31 | I'm signing because my family has owned and farmed this very same land that is being threatened for over 100 years. Support your local farmers and generations of families that would be affected by this government bullying |
| Tim Clark | San Pablo, CA | 2015-08-31 | Its wrong to take more water from the California Delta - You can count on more droughts, and many waste full people taking advantage of the tunnels. We live next to one of the largest body's of water anywhere on earth, yet we cannot syphon from there because is to expensive. --- But its ok to spend Two Million to rename a mountain. Should be against the law to spend any tax payers funds with out a vote ! |
| Brandie StJohn | Elk Grove, CA | 2015-08-31 | I grew up on the Delta my whole life. It's truly a part of me. I know several farming families who count on the Delta for watering their crops. They need to find another way. |
| Katie Manetti | Courtland, CA | 2015-08-31 | My family has been farming on the delta for over 150 years. We have just started raising our 7 generation on the ranch. How dare you take our heritage and way of life away to support farming in a desert or having swimming pools and lush golf courses in the vast waste of space that is So Cal. |
| Tess Keehn | Orangevale, CA | 2015-08-31 | How will we ever recharge NorCal aquifers if we ship all that water south? |
| Lorena aguilar | Brentwood, CA | 2015-08-31 | i think its a terrible project... |
| sheila andres | Berkeley, CA | 2015-08-31 | This is a huge risk to the economy, public health and the environment of the San Francisco Bay Delta region |
| thomas kurth | saacramento, CA | 2015-08-31 | i oppose the tunnel construction and the destruction of the delta! |
| Kevin Sloan | Manteca, CA | 2015-08-31 | Do not want the delta destroyed |
| Allan Chan | Oakley, CA | 2015-08-31 | I am an outdoorsman I fish and Hunt and I believe these Delta Tunnels will threaten our fishing and hunting. I want my children enjoy the outdoors as much as I did growing up. Some of my family and friends are farmers seeing how their water has been cut and then looking at all the irrigation used in the South I feel we to the North need the water more. |

| Name | Location | Date | Comment |
|-------------------|-------------------|------------|---|
| Miles Cochran | Sacramento, CA | 2015-08-31 | This doesn't solve California's water issues, it adds infrastructure to support a long term bad model that continues to feed the state's issues with ag after and doesn't help anyone long term. |
| James Rios | Brentwood, CA | 2015-08-31 | This project has been a joke from the beginning. Nothing more than a political watergrab for the rich south valley water cartels. The biological opinions alone(there have been several) tell it all.This project will doom the bay, the delta, delta farmers,the fish, and potentially water supplies of the bay area. NO ON THE TUNNELS ONCE AND FOR ALL!!! |
| KATHERINE BURNS | Stockton, CA | 2015-08-31 | I want to protect the environment for future generations. |
| Georange Williams | Santa Cruz, CA | 2015-08-31 | The delta is too precious a resource to spoil in a miss guided attempt to "fix" nature. |
| steve schmalz | San Carlos, CA | 2015-08-31 | Im against the tunnels or any other plan that will change the current delta waterway. |
| Stacey Kuhr | Phoenix, AZ | 2015-08-31 | I'm 3rd generation Bay Area born and raised, my family still lives on the delta. This plan is destruction on so many levels I can't believe any sane person who wasn't motivated entirely by self interest could support it |
| Arne Simonsen | Antioch, CA | 2015-08-31 | As the former Chair of the Delta Protection Commission, taking fresh water from the northern portion of the Delta will result in increased salt water intrusion into the Delta to satisfy the thirst of Westlands and Metro Water Districts at the expense of the five Delta Counties. |
| Heather Friedland | San Francisco, CA | 2015-08-31 | Keep the deltas intact! |
| John Sims | San Francisco, CA | 2015-08-31 | The tunnels are destructive to the delta and taxpayer money |
| Terri Smith | Carmichael, CA | 2015-08-31 | My ancestors founded the town of Walnut Grove, CA- in the heart of the Delta. My great grandfather was a river boat captain from the delta to San Francisco. I grew up there... It is my home, my roots. It should not be destroyed by these tunnels. They are not the solution! |
| Wayne Reeves | Concord, CA | 2015-08-31 | We not not need these, we need more storage. |
| JOHN ROLLERI | Stockton, CA | 2015-08-31 | To save the Delta! |
| Justin Towers | Tracy, CA | 2015-08-31 | The delta needs the sac river water |
| Sandra Mizel | Vacaville, CA | 2015-08-31 | I'm sick and tired of northern Ca stealing all our water. We have Brown lawns and take 5 min showers but so cal is too cool for that. Let them start living off what they get and not reward them. |
| Suzanne Andrews | Lenexa, KS | 2015-08-31 | I'm signing this petition because I'm from California, and I think this would destroy the delta for wildlife and for Californians. |
| Nicole Stephenson | San Francisco, CA | 2015-08-31 | Once we make changes like this proposed change to nature there is no undoing it - and we need nature intact in the long run. Let's be guided by long term thinking guide that is in harmony with the ecosystems that ultimately sustain us. |
| Sara Minor | Sacramento, CA | 2015-08-31 | Oppose the destruction of the Sacramento Delta with these tunnels |
| Sheila St pierre | Antioch, CA | 2015-08-31 | This will negatively impact the delta and is a huge waste of money. |
| Ponchi Dee | Stockton, CA | 2015-08-31 | Because Los Angeles is a desert and it should stay that way. |
| Marie Wirth | Bethel Island, CA | 2015-08-31 | We have lived on the Delta for 32 years, with the river out our back door. The environmental impact these ridiculous tunnels will have on our beautiful Delta are beyond comprehension. PLEASE leave our Delta alone. |

| Name | Location | Date | Comment |
|-------------------|------------------|------------|--|
| Teresa Hernandez | Oakley, CA | 2015-08-31 | I live in the Delta and have all my life. It does not require much thought to realize over the years that the Delta will never recover without fresh water flowing through the lower basin. If the tunnels are completed our way of life will be diminished and our natural resource will decline. Please find water another way for the Los Angeles region. |
| Diane Ortega | Tracy, CA | 2015-08-31 | Bad for farmers bad for the delta |
| Kathy Ronning | Brentwood, CA | 2015-08-31 | Environmental concerns and loss on our own community's be half |
| James Wade | Oakley, CA | 2015-08-31 | Save the Delta there's other ways too get Water and then destroy my natural habitat |
| Shon Shrontz | Vacaville, CA | 2015-08-31 | We don't need more northern CA water going south. Money should be spent on better projects like desalination plants. |
| Zachariah Koppers | Barstow, CA | 2015-08-31 | I am signing because this sort of huge engineering project will not solve the water problem. Water cannot be made with money; money can only work to help preserve existing supply. The underlying problem is one of conservation. |
| Bernard Hahn | Sacramento, CA | 2015-08-31 | Because I love the delta |
| Jill Callis | Courtland, CA | 2015-08-31 | I'm signing because I am vehemently opposed to the tunnel project!!! |
| Angel Nunez | Sacramento, CA | 2015-08-31 | I want to protect the environment not destroy it for financial gain. I'm a logical person who lives in reality, there just isn't enough water, conservation, preservation, not devastation! |
| Keith McNeal | San Jose, CA | 2015-08-31 | We need to preserve the fresh water into the Delta. |
| E Ledesma | eLK GROVE, CA | 2015-08-31 | I grew up in the Delta. Would hate to see this beautiful area be destroyed by these tunnels. |
| Linz Lee | El Sobrante, CA | 2015-08-31 | Do not lose pear ranches and people homes. |
| Susie Ellis | Orland, CA | 2015-08-31 | Because ...I Care.... |
| Clayton Pleyte | Sacramento, CA | 2015-08-31 | I'm a conservationist, fisherman, hunter, outdoorsmen. I care deeply for the delta and what it means to our environment and economy. |
| Emily Pappalardo | Walnut Grove, CA | 2015-08-31 | The tunnels will not solve the problem of water supply reliability since they won't be able to be operated in a drought. They will only be an enormous cost to the State and will ruin the Delta ecosystem and community. |
| Erik Amos | Felton, CA | 2015-08-31 | I have a place on the delta butting up against the Clifton Fore-bay. We have reviewed the proposal and feel that the tunnels would destroy the delta as we know it. We are against the tunnel project. |
| Lorie Jensen-Reed | Topsham, ME | 2015-08-31 | Love the place |
| Tracey Edwards | ELK GROVE, CA | 2015-08-31 | This does nothing to capture and contain more water. This is about sending more water south. I'm against it! |
| carolyn winchell | Bangor, CA | 2015-08-31 | I want the Delta to remain a haven for people and animals...not a barren wasteland....the repercussions of these tunnels are beyond horrifying |
| Marcia Salive | Clover, SC | 2015-08-31 | Southern Ca needs to support its own water needs by investing in reservoirs and other technologies, not be stealing it from the northern part of the state. Stop letting the water that comes down in the south run off into the ocean!! |
| james lapp | Pittsburg, CA | 2015-08-31 | this project will kill the delta and the peoples way of life also farmers cant grow with salt water |

| Name | Location | Date | Comment |
|-------------------|-------------------|------------|---|
| christy Lapp | Bethel Island, CA | 2015-08-31 | this is wrong what our Governor Brown is doing help save our delta be4 it is too late!The Tunnels plan would be devastating to the ecology and economy of the Bay-Delta region Fresh, clean, water supports the largest nursery for California fisheries, the largest Pacific Coast fly over stop for migrating waterfowl, more than 500,000 acres of California prime farmland, and an urban community that is home to over 4 million people |
| andy d | Oakley, CA | 2015-08-31 | I want to save the Delta and stop the Tunnels |
| Darren Butler | Orangevale, CA | 2015-08-31 | The Governors plan does not solve any issues of water storage, address the environmental impact or have the people of California's best interest in mind. This is nothing more than a legacy issue and a pissing contest because the crybaby governor didn't get his canals on the 70's so now he comes back with a vengeance bypassing voters like a 5 year old trying to get the last word. This state has had 40+ years since the last drought to address water storage and delivery and it has, like everything else it does, failed the people by doing nothing. This is not a viable solution |
| Les Togami | Angwin, CA | 2015-08-31 | Northern California is reducing water consumption pumping our water to Southern California is a bad idea destroying the delta that would destroy its needed existence!!! |
| Ron Davis | Forest Knolls, CA | 2015-08-31 | As a founding member of the Golden Gate Salmon Association, I'm concerned that the tunnels will be the end of the chinook salmon fishery in Ca. |
| Frank Emerson | Monterey, CA | 2015-08-31 | Protect our fisheries, stop the water grab by BigAg. Our Delta is the West Coast's largest estuary supporting thousands of jobs. |
| Frostie Dichiaro | Placerville, CA | 2015-08-31 | I lived in Clarksburg for 20 years and fully appreciate the fertile farmland and what it produces. To infringe on this prime farmland and rob it's farming families and the rest of us of what it produces is so wrong and can NEVER be replaced. Please consider people before politics. |
| Michael Bothe | Concord, CA | 2015-09-01 | We cant lose more water to a desert in southern Ca. we already have saltwater in the Antioch area of the delta,The delta will continue to die to support a desert that should be dry and barren like it was before the US entered Ca. |
| Dennis Sheil | Fairfield, CA | 2015-09-01 | I'm signing because I strongly believe the tunnels plan would be devastating to the ecology and economy of the Delta region. |
| James Stone | Sutter, CA | 2015-09-01 | Enough with water leaving Nor Cal. Fish need water and farmers up here too |
| tisha Slabaugh | Dickinson, TX | 2015-09-01 | We must all make a concerted effort to protect all of our wetlands. Nursery's like those of the Delta watershed are not luxuries, they are MUST haves. |
| Patricia Snook | Loomis, CA | 2015-09-01 | The Delta is much too valuable. People's livelihood depends on it. There has to be another solution. |
| Susan Foster | Lodi, CA | 2015-09-01 | The tunnels will destroy the delta and California, not solving the problem but making it worse. |
| Hillary Brambila | Napa, CA | 2015-09-01 | The delta is the only place I will ever call home. |
| Melissa Ratkovich | San Andreas, CA | 2015-09-01 | I agree and support Agriculture and farmers first. |
| Jeff Kritsky | Marysville, CA | 2015-09-01 | I want Jerry Brown to SHUT HIS MOUTH. The delta tunnels will destroy the delta and it's wrong. He needs to remember his job is for the people and our tax dollars pay his salary. |
| David Kamminga | Clarksburg, CA | 2015-09-01 | I am opposed to the tunnels. |
| kashmeer singh | Sacramento, CA | 2015-09-01 | kash singj |
| Dennis Shew | San Mateo, CA | 2015-09-01 | Diverting water from the California Delta to feed the interests of deep pocket agricultural businesses will kill the estuary and undoubtedly harm the SF Bay itself. It only takes common sense to know this project is a bad idea. |

| Name | Location | Date | Comment |
|--------------------|----------------------|------------|--|
| Sommer Bidou | Rio Vista, CA | 2015-09-01 | The Delta has been my home for over 30 years. My family has grown multiple crops in the area. If this project goes through we will lose one of the most irreplaceable resources this area has. Our water supply is what makes The Delta such a unique and lustrous area. |
| Harlin Duvall | Vacaville, CA | 2015-09-01 | I love our delta, and this will destroy it |
| Karen Medders | Walnut Grove, CA | 2015-09-01 | Because this entire process is a fraud it is an illegal land and water grab. There are other proven ways to mitigate water exports that simply do not 100% destroy one area to 100% benefit another area hundreds of miles south. |
| Danielle Gerhardt | Sacramento, CA | 2015-09-01 | I'm signing to save the wildlife and delta community's I grew up in! |
| Cynthia Gonzalez | Sacramento, CA | 2015-09-01 | I am signing because I grew up on the Delta! |
| Toby Ramos | Thornton, CA | 2015-09-01 | Brown's tunnels are the wrong choice for the state of California, and the state of our wellbeing. |
| Vincent Borges | Riverbank, CA | 2015-09-01 | I make a living on the California Delta. Its a beautiful Estuary that is set to ruined by Governor Brown by a NON Reversible Fatal Blow if the tunnels are approved!! |
| Valerie Glass | Huntington Beach, CA | 2015-09-01 | I'm signing because I love the Delta as a place. I don't want to see it sacrificed. The California Water Fix will costs billions of dollars and it's benefits accrue only Central Valley and SoCal water users not the Delta. |
| Manuel Soto | Sacramento, CA | 2015-09-01 | My grandparents, parents, cousins, and aunts have all worked on these farms for the farmers losing their land. They have helped the community and families like myself, with work. |
| Jodie Gough | Rio Vista, CA | 2015-09-01 | It's the right thing to do |
| Eric Mourelatos | Discovery Bay, CA | 2015-09-01 | I don't want the tunnels to destroy the Delta that I live with! |
| jan mcdermott | San Francisco, CA | 2015-09-01 | I strongly oppose the delta tunnels. I want experts, not special interests (money) to be at the table. |
| Colleen Houk | Sacramento, CA | 2015-09-01 | I love our Delta...I do not want anyone to screw up nature & drill tunnels for God's sake..leave it alone!!! Our farmers & native fish cannot survive with tunnels. |
| Aaron Lee | Napa, CA | 2015-09-01 | I am signing this petition because I believe it will ruin the integrity of our delta salmon/sturgeon/split tail/etc.. |
| Laura Becker | Sacramento, CA | 2015-09-01 | I completely oppose the tunnels |
| Steve Swadley | Salinas, CA | 2015-09-01 | The Delta needs to be saved |
| Devin Wickstrom | Stockton, CA | 2015-09-01 | I'm signing because I've been lucky enough to experience the beauty of the delta firsthand and I can't allow anyone to destroy an important landscape. |
| Michael Fong | Sacramento, CA | 2015-09-01 | I love the delta and never want to see it be drastically changed. |
| tim morlan | Anaheim, CA | 2015-09-01 | We don't need to mess with a good thing. |
| IRENE CARDONI | Lodi, CA | 2015-09-01 | I think it should be stopped before it goes any farther. |
| Kyle Young | Meridian, CA | 2015-09-01 | We barely have enough water now, those tunnels will take peoples property and ruin the delta |
| Hilary McGahey | Rio Vista, CA | 2015-09-01 | I'm a delta resident. |
| Linda Dotson | `Fresno, CA | 2015-09-01 | This wrong.. You can't take farms and ranches away from families who have been there for more than one hundred years that feed the country. It is bad enough that properties were taken for the "High Speed Rail" which does the same as Amtrak. |
| Stan Koenigsberger | Brentwood, CA | 2015-09-01 | I depend on the Delta for my charter business. |

| Name | Location | Date | Comment |
|--------------------|---------------------|------------|---|
| Kristen Hutson | Walnut Grove, CA | 2015-09-01 | We have to stop the tunnels. They will destroy the delta!!! |
| Harvey Grant | Napa, CA | 2015-09-01 | The tunnels will destroy the delta. Take the water on the west side past Rio vista. Keep the flow north east to west. |
| Chris Kottke | Dublin, CA | 2015-09-01 | I grew up on the delta |
| Jaime Castillo | Forest City, IA | 2015-09-01 | I do not agree with the Governor when it comes to the way he has handled the states issues relating to our water. There are many conflicts of interest in the decisions that he makes. He is yet to convince me on how it is that all of us will benefit from this. Because it seems to me like the Governor is more concerned with getting water to the people in the Southern part of California and he is willing to sacrifice the Delta to do so. |
| Gary Egan | Orangevale, CA | 2015-09-01 | this plan will devastate the Delta and it's fisheries. Farmers have gone too far with permanent crops instead of annual crops and are wiping out the water resource of the state. So. CA needs to further develop it's resource for water and reduce use from No. CA |
| Brayden Smith | Carmichael, CA | 2015-09-01 | To save our delta! |
| John Maxson | Long Beach, CA | 2015-09-01 | We rejected this in 1982. |
| Sherry Schlup | Discovery Bay, CA | 2015-09-01 | Sherry schlup |
| Theodore Bliss | Chico, CA | 2015-09-01 | The water should stay up here |
| Rebecca McWilliams | Suisun City, CA | 2015-09-01 | The delta has been my hm for 36.... |
| nick deferrari | san mateo, CA | 2015-09-01 | I'm Signing because I want my grandchildren to experiences the fisheries that I have experienced in my lifetime. |
| andy vierra | West Sacramento, CA | 2015-09-01 | The delta is a northern CA feature not something to be destroyed and robbed from to support an area that should NEVER been allowed to sprawl so badly. Additionally it will KILL the farming that has been here for generations! |
| Jeff Bradshaw | Oakley, CA | 2015-09-01 | The tunnels would devastate the delta, funds should be allocated for development of other alternative water sources. |
| Carl Copeland | Groveland, CA | 2015-09-01 | I love the delta the way it is. Vote for no change |
| Steve Vargas | Pine Grove, CA | 2015-09-01 | I'm signing because I'm a fisherman and enjoy fishing the Sacramento River. |
| Matthew Coleman | Orinda, CA | 2015-09-01 | The tunnels ruin the fishing |
| Leanne Leith | Oakland, CA | 2015-09-01 | you are further robbing from an already compromised natural resource that's sensitive ecology (and the humans who live and work within it) will suffer from as a result. We can't have a more saline estuary. Our local flora and fauna deserve the water that is naturally theirs. |
| Candace Tyler | Rio Vista, CA | 2015-09-01 | The Delta is my home and the tunnels will devastate the land and hurt our farmers and businesses. Southern California needs to build some desalination plants. |
| Justin Blackmore | Culver, OR | 2015-09-01 | I am an avid angler and hate to see wonderful fisheries destroyed for senseless reasons |
| Marion Yajko | Oakley, CA | 2015-09-01 | my family has spent the last 20 years on the Delta. It is a beautiful and important part of our lives. It will be forever changed in a very damaging way. |
| Margie defremery | Oakley, CA | 2015-09-01 | You can't farm with salt water. |
| Nanette Spyksma | Salida, CA | 2015-09-01 | It will ruin our economy system. Southern California needs to find alternatives such as sea water desalination. These tunnels will ruin central California fish and effect our farmers which provide more food to the US and the world than any other place in our nation |
| Leslie Wellman | Oakley, CA | 2015-09-01 | I dont want the tunnels! |

| Name | Location | Date | Comment |
|-------------------|-------------------|------------|--|
| Ricardo Perez | Sacramento, CA | 2015-09-01 | Taking water from delta will damage fish species that are native to ca |
| patsy schultz | Placerville, CA | 2015-09-01 | I'm signing because I don't want to lose my family home it is right in the path of destruction!!! |
| Kim Zorro | Rocklin, CA | 2015-09-01 | I do not support the tunnels because we need to protect our delta watershed. How about you big brains in the capital figure out how to catch and store water in So Cal. |
| wendy eisenbeisz | SACRAMENTO, CA | 2015-09-01 | Wendy Eisenbeisz |
| Ryan Hinkle | Discovery Bay, CA | 2015-09-01 | I'm signing because I love the delta and do not want to see it ruined for a plan that won't work. |
| Pat Tighe | Stockton, CA | 2015-09-01 | It's wrong to ruin the Delta. |
| Kristopher Kent | Pleasant Hill, CA | 2015-09-01 | I'm signing because I want the delta to be as special a place for my son as it has been to me. |
| Gail Yahne | Placerville, CA | 2015-09-01 | I grew up on the delta and raised my family on the delta. These tunnels will destroy the eco system and life as we have known it forever. |
| Michael Coelho | Modesto, CA | 2015-09-01 | Michael Coelho |
| edmund armbrister | Fresno, CA | 2015-09-01 | We need to do all we can to keep the Delta as pristine as possible. |
| Mcguyer Lao | Sacramento, CA | 2015-09-01 | I'm signing because building or making the tunnel will affect the water system. Perhaps polluting it more. Fisherman makes a living by fishing throughout the delta to bring home fish onto the table as food for their families. By building the tunnel, it'll affect the fish and having the fishes to relocate in the delta or river. As the result to that, fishermens will not be able to catch any fish to bring home. In the early 2015, most famous bass pros around the world or states would come by and fish in the delta during the tournament. These bass pro will have difficulties if the tunnel is built. There are ups and downs to the idea of building or making that tunnel. Bring more water down to the Southern California. But it will make the Northern California, or to say, Sacramento or other cities to go into a more troublesome drought. Farmers won't have water to grow crops. No fish in the meat market except fishes from the sea.. Let's just say that, it's going to be a huge change if the tunnel is built. Best if their is no tunnel. After all, the delta or Sacramento River is connected to the bay area. |
| Stefanie Vasquez | Courtland, CA | 2015-09-01 | I live on the Delta and do not want it disrupted, nor do I think it is smart to ship our water anywhere!!! Catch a clue! |
| Darin Nakamura | Stockton, CA | 2015-09-01 | The Delta is in bad enough shape as it is. The tunnel project could be the last nail in the coffin. |
| Harrison Chang | Newman, CA | 2015-09-01 | I make a living on the California delta, I grew up fishing the delta, my dad grew up fishing the delta. Built tunnels would ruin hundreds or thousands of people lives. |
| Elizabeth Foreman | Richmond, CA | 2015-09-01 | I'm signing because its ridiculous. I say cut of all water being taken out of it already. They are killing the delta, a vital source for many, and this will make it worse! |
| Derek Yamamoto | Boulder City, NV | 2015-09-01 | The Delta as a fishery and boating area is one of a kind. |
| John Amen | Petaluma, CA | 2015-09-01 | I'm signing because we already defeated this monster years ago. I deplore you to stop this madness. NO TUNNELS just like no peripheral canal years ago! |

| Name | Location | Date | Comment |
|------------------|--------------------|------------|--|
| Kenneth Streeby | Jackson, CA | 2015-09-01 | These tunnels will ultimately mean the destruction of the Delta . When the Central Valley Project was originally conceived protections were put in place to protect the Delta from removing too much water from this ecosystem . Over the years lawmakers have diluted these protections for their own political purposes . There is no "Extra" water to be squeezed from the Delta without additional damage from salt water intrusion occurring . Do the right thing and vote "NO" on this tunnel project . Gov. Brown's father began the systematic destruction of the Delta ecosystem and now he wants to finish it off . |
| julie buswell | Round Mountain, NV | 2015-09-01 | I grew up on the Delta. It is a beautiful place! |
| Randy Baranek | Courtland, CA | 2015-09-01 | The tunnels, will affect my 5th generation family farm, we are in the middle of the path of the tunnels. We farm grapes and other crops and they cannot be irrigated with saltwater. Plus the government already owns too much land and can't take care of what they own. They are going to ruin the delta like the have ruined everything else that was once good that they took over. |
| Ryan Austin | Elverta, CA | 2015-09-01 | The tunnels will destroy the place I love. |
| Karen Vernon | Pittsburg, CA | 2015-09-01 | The Delta supports the livelihood of many of my close friends including my fiancée. If we lose this incredible body of water 1000's upon 1000's of lives will be devastated not to mention the horrible effect it will have on the environment! |
| Brian Shirk | Stockton, CA | 2015-09-01 | I'm an avid fisherman. Sport and Food. There is too much science to support a complete ecological change following the outflow of water from the delta. Please do not go through with this foolish plan. |
| Janet Muff | Auburn, CA | 2015-09-01 | I'm signing because I would hate to see the delta destroyed, including wildlife and farms that have existed for generations. The Central Valley and southern ca need to learn to conserve. On a recent trip I saw water running in the gutters as people watered their huge green lawns. |
| james steele | Alamo, CA | 2015-09-01 | destroying our environment for a quick fix is incompetent. this is america, we should do better. |
| Jill Culbertson | Alameda, CA | 2015-09-01 | My family has been in the Delta for generations. We have history and homes. |
| Richard Kendrick | Sacramento, CA | 2015-09-01 | I want to stop the tunnels |
| cody nugent | Surprise, AZ | 2015-09-01 | I am signing cause this is wrong. And Eli enjoy fishing this and bringing big events to the west coast because of it!!!! Which brings revenue to you city ! |
| Dustin Keen | Fair Oaks, CA | 2015-09-01 | The tunnels need to be stopped. The Delta needs to be saved. |
| Samuel Dominguez | La Grange, CA | 2015-09-01 | I love the delta just the way it is! |
| Clayton Eslick | Mapleton, IA | 2015-09-01 | This will ruin the home of many plants and animals |
| Tyler Bounds | Roseville, CA | 2015-09-01 | I fish and grew up on the delta and would hate to see that go away |
| Tony Franceschi | Livermore, CA | 2015-09-01 | The Delta is one of the very few natural resources left in the Bay Area and it draws people all year long for recreational activities. The tunnels will ruin the natural state of this waterway and effect the latest cal economy for the worse. |
| Bobby Barrack | Oakley, CA | 2015-09-01 | I not only make my living on the Delta, but it runs through my backyard, as well as through the fabric of my family and who we are. Please join me in helping them to get the required signatures. |
| William Heger | Valley Springs, CA | 2015-09-01 | stop the tunnels |
| Jon Levenson | Livermore, CA | 2015-09-01 | this is a very bad idea. |
| Richard Waters | San Jose, CA | 2015-09-01 | . |
| TimothyO Oliver | Fremont, CA | 2015-09-01 | I love to fish The Delta. Been fishing there since the 70's |

| Name | Location | Date | Comment |
|-------------------|---------------------|------------|---|
| joe van trease | Pittsburg, CA | 2015-09-01 | I fish these delta waters and don't want gov Brown to ruin this beautiful treasure |
| Eric Daniel | Clovis, CA | 2015-09-01 | I love the Delta and enjoy the recreational activities that I can do there. |
| amanda dove | Discovery Bay, CA | 2015-09-01 | Save the Delta! |
| Brian Gustafson | Eureka, CA | 2015-09-01 | More water for more growth is not the answer |
| Caleb Smith | Acampo, CA | 2015-09-01 | I'm a fisherman and a delta rat. |
| Mary Hopper | Eagle, ID | 2015-09-01 | I lived in the Delta and want to preserve it |
| Ana Harris | Courtland, CA | 2015-09-01 | I grew up in the Delta and it's an important place to maintain for future generations! |
| Linda Hardy | Sacramento, CA | 2015-09-01 | There is no mitigation to undo the horrific damage to the Deltas Watershed if this plan goes through 100 s of family farms taken by eminent domain ...species decimated ... All Bad Stop playing Creat or Gov Brown. |
| r ruger | Oakdale, CA | 2015-09-01 | I'm doing my part to help save the delta from paid off political hacks |
| Jim Moulton | Merced, CA | 2015-09-01 | These tunnels are a bad idea. Save our Delta save our water! |
| Ronney Richard jr | Mountain View, CA | 2015-09-01 | It's wrong to destroy our water ways and it will mess up our ecosystem. |
| Scott Task | Pleasanton, CA | 2015-09-01 | I am signing because Jerry Brown is a dumb ass and doesn't care about California....he is all about votes and to old to make decisions for us anymore.. and I like to fish in the delta often |
| Steven Abella | Little Neck, NY | 2015-09-01 | SAVE THE DELTA!!! |
| Sean Sipe | Bend, OR | 2015-09-01 | Protect the delta, and the ability to use it. |
| Glenn Abuelhaj | Manteca, CA | 2015-09-01 | I oppose the "tunnels" and other "conveyance" systems that will take away or divert any water from the Cal Delta. |
| Matt Hale | Antioch, CA | 2015-09-01 | I grew up on the delta fished it my whole life my family also an now my kids too.but the tunnels an the dams they put up already have drastically impacted the delta low tide all of big break an surrounding area weeds an the bottom if this continues less then 2 years delta is gone an it breaks my heart the tunnels r gonna turn us into a desert while everybody takes our water destroying environments all around so when it dries they can build houses I'm fighting this till the end it's not a good movement the tunnels r a man made disaster. |
| Jason Stephens | Shingle Springs, CA | 2015-09-01 | Save the CA Delta & Nor Cal's water! |
| Emerson Drake | Modesto, CA | 2015-09-01 | Building these tunnels is the wrong thing to do. |
| Roger Tarin | Redwood Valley, CA | 2015-09-01 | I want to perseve the wild life and fresh water fish we have in this area .. This also includes the natural land scape in the valley. |
| Doyle Ketcherside | Sacramento, CA | 2015-09-01 | I truely believe the tunnels would cause more harm than good for California. |
| David Langendorff | Livermore, CA | 2015-09-01 | I am signing because the tunnels will ruin the delta habitat and lots of recreational opportunities |
| Steve Marino | Manteca, CA | 2015-09-01 | I am an avid fisherman and former tournament director. I am extremely interested in the health of the Delta for all species, including humans! The "Tunnels" are NOT a solution and will decimate the environment. Stop them NOW!! |

| Name | Location | Date | Comment |
|-----------------------|--------------------|------------|--|
| Julie Whiting | Lodi, CA | 2015-09-01 | I am signing this petition because I am extremely concerned about the impact on the environment and ecosystem of the Delta where we work and play. In addition, I have major concerns on the negative impact these tunnels will have on the agricultural production in my community. No tunnels- we need to focus on conservation, smarter development plans and projects that will enhance our state's water sustainability for the future! |
| Sheena Nadeau | walnut creek, CA | 2015-09-01 | WE NEED WATER CONDENSORS. DO NOT TOUCH THE LAND |
| Kim Adkins | Roseville, CA | 2015-09-01 | Southern ca should not take our water and decimate our beautiful fishing estuary. This is going to affect many businesses and homeowners. |
| Richard Brown | Clearlake Oaks, CA | 2015-09-01 | This water belong to the people, not the politicians! We the people have the right to decide what and where OUR water goes, not some floundering libtarded democrap! |
| chad edwards | Napa, CA | 2015-09-01 | To protect the delta salmonids and other fish species, as well as water quality and overall ecological health, by preventing these runnels from being built. |
| Tyler Short | Sacramento, CA | 2015-09-01 | Well im sitting in a waiting room and watching nick jr. I couldn't think of a better time to help out the environment. |
| Justin VonSpreckelsen | Roseville, CA | 2015-09-01 | Protect the CA delta fresh water fishery. |
| Scott George | Chowchilla, CA | 2015-09-01 | I'm tired of the BS and Mother Nature paying the price for our stupidity-what do we do when we have completely killed her off? What then? |
| Mike Bugliarello | Orangevale, CA | 2015-09-01 | Brown is out of touch with N.Cal |
| joshua wise | Sacramento, CA | 2015-09-01 | It will hurt the delta's resident species of fish as well as the other living creatures that call it home. Stop hurting the environment and start doing it some good. |
| Tai Au | Glendale, AZ | 2015-09-01 | You'll destroy the delta by building tunnels. |
| Lucas Lee | Alameda, CA | 2015-09-01 | I love the delta and destroying natural waterways is WRONG and once it's done it CANNOT BE REVERSED. We have a right as human beings to preserve what existed far before we did. |
| Ryan Wong | Hayward, CA | 2015-09-01 | Ridiculously ignorant. |
| Pete Pete DeFroscia | Martinez, CA | 2015-09-01 | The tunnels are bad |
| Bryce Yearman | Sparks, NV | 2015-09-01 | I am a sportsman and believe that the farmers and people around the California delta deserve this water as much as anyone else. Destroying the environment and taking water from had working Americans is bullshit |
| Craig Shiraishi | San Jose, CA | 2015-09-01 | Don't want our tunnels affecting our environment!!!! |
| Linda Segal | Escalon, CA | 2015-09-01 | Spend the money on DESALINATION PLANTS!!!!!!!!!!!!!! We don't need more salt in our water. This won't fix the water problem. The L.A. area has already taken more than it should have, and they use water like it's going out of style!!!! |
| Wayne Miller | Bethel Island, CA | 2015-09-01 | It will ruin the recreation atmosphere of the delta. Salt water will take over and change the environment. |
| Sean Kinnick | Brentwood, CA | 2015-09-01 | The Delta is my home |

| Name | Location | Date | Comment |
|-----------------------|---------------------|------------|--|
| Sandra Ketchpel | Discovery Bat, CA | 2015-09-01 | <p>The tunnels do nothing to create more usable and potable water fro the state; it merely moves it around. The estimated \$60B would be better spent on reservoirs in the watersheds in Northern California, or on desal plants.</p> <p>The sludge that will be removed from the river under this plan is filled with toxic chemicals and pesticides, and the plan to locate the sludge within miles of communities that depend on the aquifers and well water is highly problematic.</p> <p>It's a bad plan. Don't approve it.</p> |
| Frances Newcross | Sacramento, CA | 2015-09-01 | <p>I'm signing because I have to since my elected representatives are endangering my community for me, my children, and my future descendants. This is a vastly disappointing situation, the tunnels and the proposed acceptance of this danger to our health and environment.</p> |
| Martin Nicholls | Watsonville, CA | 2015-09-01 | I love the delta |
| Jeff Welsh | Gilroy, CA | 2015-09-01 | The tunnels are bad idea for numerous reasons. |
| Travis Averill | Livermore, CA | 2015-09-01 | I oppose the tunnels, and believe if they're built the Dents will perish |
| Ed Christo | Fremont, CA | 2015-09-01 | Tunnels will destroy the Delta Eco system, will not address the water issues, and there a better options available to store water. |
| tom wardrope | Pleasanton, CA | 2015-09-01 | The idea of these tunnels is absurd in that they are willing to kill a whole estuary for more water for farmers who raise the wrong type of crops, |
| Glenn Sargent | Janesville, CA | 2015-09-01 | I'm signing because I don't want to see a wonderful wildlife area ruined. You can't grow crops watering with salt water. There has to be another way. |
| Blake Dyer | Tempe, AZ | 2015-09-01 | The Delta is a world class bass fishery and a marvel of nature. We need to protect this irreplaceable resource. |
| Alex Hendricks | West Sacramento, CA | 2015-09-01 | I don't want to lose our water. We haven't had good rain in years, last thing we need to do if give away what water we have left. |
| Kevin Lincomfelt | Galt, CA | 2015-09-01 | Digging tunnels to pump water down south will destroy the delta. The watershed is fine without a huge drought. That said water would still be OK if the morons regulating the reservoirs did a decent job taking care of what we had. |
| Marc Weiting | Queen Creek, AZ | 2015-09-01 | It has been there for years you would ruin a great fishery and there is no need for this |
| Sean Moffett | Vacaville, CA | 2015-09-01 | I'm signing this because I believe the tunnels are unnecessary. |
| Mitchell Filoso | Stockton, CA | 2015-09-01 | I love the delta! I do not want to see it destroyed any further by lies and special interests. |
| Sarah Johnson-Freeman | TX, TX | 2015-09-01 | This plan would be devastating to the ecology and economy and would NOT create any new water. |
| Robert Muraco | Gilroy, CA | 2015-09-01 | It's the right thing to do |
| Thomas Larson | Isleton, CA | 2015-09-01 | I believe this is is done for political gains and has nothing to do with common sense and the realization what this will do to the to the environment |
| Katherine Wiley | Galt, CA | 2015-09-01 | I oppose sending our water to the desert! |
| Tom McGruder | Antioch, CA | 2015-09-01 | I spend a lot of recreational time on the California Delta |
| Austin Bonjour | Templeton, CA | 2015-09-01 | I'm an avid Bass Fisherman and Outdoors man. I'd hate to see the Delta Ruined. |

| Name | Location | Date | Comment |
|--------------------|-----------------|------------|---|
| Bree Diamond | Los Angeles, CA | 2015-09-01 | I'm signing this because I feel this is very wrong . Your going to try and fix a problem with another problem. That's not the way . Your going to effect to many lives ! I was raised on the delta and got to enjoy all that the delta has to offer . With all the wonder agriculture to swimming in the delta as a child. I now live in the Southern California area with kids of my own .. And would love for my children to experience what the delta has to offer. Even living in So Cal I don't think this is the right thing to do .. Your going to be responsible for a lot more , if you make the tunnels happen .. |
| david thompson | gilroy, CA | 2015-09-01 | time to realize that there are too many people living in a desert (SoCal) and that robbing water, is a band aid, not a solution. |
| Jean-Claude Roget | Madera, CA | 2015-09-01 | No more water for the big ag corp |
| steve young | Roseville, CA | 2015-09-01 | they will destroy the delta |
| Michele Hill | Lufkin, TX | 2015-09-01 | The long term ecological health of the Delta, and economic benefits derived from an unpolluted Delta, are far more important than the short term profits to be had by Big Ag. It's long past time for our government to consider the well-being of the majority rather than the bottom line of the few. |
| Kymberly Sparks | Oakley, CA | 2015-09-01 | I'm signing because I oppose the tunnels! |
| Yevgeniy Savitskiy | Danville, CA | 2015-09-01 | I'm signing because this is one of the only areas where we have such a good wildlife and fishery |
| Sharon Chadwell | Galt, CA | 2015-09-01 | The Delta must be saved. |
| Debra Dominguez | Tracy, CA | 2015-09-01 | I strongly oppose the building of the Delta tunnels. This will disrupt the ecosystem. |
| Jimmy Rupe | Galt, CA | 2015-09-01 | This will kill the delta and alot of its wild life. The delta is a bug part of California and it's unfair to kill it because of a lack of planning on southern California's part! That's just stupid |
| Mike Moreno | Salida, CA | 2015-09-01 | We all need to do our part to protect this incredible fishery / estuary. We all need to do our part as sportsman, this only takes a minute. |
| Jordan Collom | Temecula, CA | 2015-09-01 | To save delta bass fishing |
| joyce pylman | clarksburg, CA | 2015-09-01 | The proposed tunnels is a fiasco in every aspect. It will destroy the delta not restore it. |
| Kristen Krepich | Orangevale, CA | 2015-09-01 | This does not fix the problem of water shortages! Look to Australia for examples of ways to live with less water!!! |
| Mike Jones | San Mateo, CA | 2015-09-01 | The Delta should be left alone! |
| PAUL WILLINGHAM | Fresno, CA | 2015-09-01 | This is a huge waste of money and only serves a select few interests. |
| Dennis Smith | Fairfield, CA | 2015-09-01 | I'm opposed to disrupting the already fragile CA Delta system. |
| doua lor | Sacramento, CA | 2015-09-01 | Because I want to save our delta system |
| Marnie Singer | Fremont, CA | 2015-09-01 | I care for the earth. Our ecosystems have the right to evolve and change on their own, without human intervention. |

| Name | Location | Date | Comment |
|--------------------|------------------------|------------|--|
| cindy green | American Canyon, CA | 2015-09-01 | I grew up in the bay area and this was where I learned to fish with my dad and had my first experience with the great outdoors. Until I found Yosemite...I thought the delta was the end of the earth for me! Destroy this and you will be destroying one of the few great natural resources left in California! What did mother nature ever do to you? We need more regulation on population growth and building. Does anyone remember what the south bay looked like before the blight of Silicon valley happened? I have no idea why there are a few very rich people living up in the hills when the rest of California is nothing but an ant farm for the rest of us now? Just sickening...if I can afford to leave I would! Shame on anyone who thinks this delta deal is anything more than another environmental tragedy!! |
| Ashley Land | Sacramento, CA | 2015-09-01 | I've grown up going boating and fishing in the delta and i love the delta. IF you take away the water you take away people's homes, and the little quaint towns will suffer. |
| Kasey Rhyme | Reno, NV | 2015-09-01 | i love bass fishing the delta |
| Bon Gotuaco | San Jose, CA | 2015-09-01 | I am An avid fisherman and value the Delta in its current form |
| taryn mccormack | Wilton, CA | 2015-09-01 | Saving the delta! |
| Lloyd Slaton | Gonzales, CA | 2015-09-01 | Obvious reasons |
| delilah grey | Sacramento, CA | 2015-09-01 | This sht aint coo ! You get money but endanger our planet this needs to stop |
| Eric pickard | Elk Grove, CA | 2015-09-01 | Because it's the right thing to do! |
| Matt Lindsey | Patterson, CA | 2015-09-01 | We already send 2 large canals to SC. We dont neen salt water in the delta. |
| Eddy Quilice | Hayward, CA | 2015-09-01 | I love fishing the delta and went to see my future children enjoy this great body of water that we are so privileged to be able to enjoy when ever we want!!! Do not ruin this great delta! |
| Lauren Dowling | sacramento, CA | 2015-09-01 | This is an extremely ill conceived project which is not a 'water fix,' and whose project managers have ignored the concerns of scientists and environmentalists citing concerns about severely detrimental impacts to the delta ecosystem due to the tunnel project. The public did not vote for this, and as a registered voter I strongly oppose The Delta Tunnels. |
| Faith Alchorn-Selk | Elk Grove, CA | 2015-09-01 | This unsustainable water grab is a folly that will cost untold billions, destroy the elta and solve nothing. California needs t be building water storage infrastructure, something that hasn't happened since Jerry Brown's FATHER was governor... before I was born! |
| Trevor Ensley | Watsonville, CA | 2015-09-01 | We need to stop this because it doesnt make any sence what is it gunna do to benefit us ITS NOT!! If these tunnels go though its gunna ruin the whole ecosistym its gunna kill all the wildlife! And we arnt gunna see one bit of this water its gunna take year for this freahwater to regenerate it seems like a easy fix but in the long run its not worth it its gunna ruin all the companys on the delta and near the delta so there for no no tunnels |
| Alexander luer | San Leandro, CA | 2015-09-01 | I want to save the beautiful Delta and it's wild life |
| Michael Henry | San Francisco, CA | 2015-09-01 | I don't want you to destroy the best drinking and fishing waterways in ca |
| John Cheng | Tracy, CA | 2015-09-01 | Keep the delta the way it is!!! |
| Carl Keller | Hidden Valley Lake, CA | 2015-09-01 | As the owner of Clear Lake Bass Guide this would take money out of my pocket! |

| Name | Location | Date | Comment |
|--------------------|-----------------|------------|---|
| Craig Hanson | Champlin, MN | 2015-09-01 | The delta is a key natural resource for the state of CA. Just look at the length and expense of removing non-functional damns-this too will need to be reversed in the future as the full extent of damage from this delta bypass becomes too obvious too ignore. Focus the money spent on additional storage capacity or creation of freshwater from saltwater. |
| James Ford | Modesto, CA | 2015-09-01 | This will cause a lot of problems for the future of the delta and the amount of water they will start taking from this area. |
| bonnie boney | Pittsburg, CA | 2015-09-01 | Brown is a moron who seems to do anything for wrong money.don't take our farm land...how dare him to tell California's to just shut up |
| James Kanaby | RioVista, CA | 2015-09-01 | The California aqueduct totally screwed up water quality with higher salinity and concentrated chemicals that have killed off the hunting and fishing. The tunnels will double down on the destruction of species by concentrating these chemicals parallel to Hwy 4 which was chemical plants that released strait into the Sacramento river The salinity is up to the Rio Vista bridge where we have caught scate and flounder salt water or bay species! |
| brenda Keen | Sacramento, CA | 2015-09-01 | It is best for the environment and people!!! |
| Mario saucedo | San Jose, CA | 2015-09-01 | I am a fishermen and would love to one day share this water way with my son and his family .. Not to mention other families that depend on the water in this fragile system we all need to pull together and save our Delta |
| Thomas Malech | Morgan Hill, CA | 2015-09-02 | I strongly oppose the tunnel project. |
| Elisa Rodriguez | Oakland, CA | 2015-09-02 | we need better, more sustainable options for California's water needs! Be it educating people on gray water usage and even providing kits and classes, reimbursing whole neighborhoods for replacing lawns with arid gardens, use native plants & trees, and encouraging smart water collection techniques to water municipal buildings' landscape designs, we must all work together long term. |
| Victor meraz | San Leandro, CA | 2015-09-02 | Save the delta ! |
| Rebecca Gaither | Modesto, CA | 2015-09-02 | For the Governor of California Governor Brown does not seem very interested in maintaining California's farm lands. He has shown that he is guided by the Almighty dollar rather than the overall well being of his State. Our farmland is not only important for supplying the population with food but it is also important from an economic stand point. Wake up Governor..our farmland is important to ALL of us (you included) so quit trying to destroy it. Stop listening to your deep pocket lobbyist and start doing your own fact checking. |
| Matthew Villagomez | Santa Clara, CA | 2015-09-02 | Save the delta! |
| Matt Pudge | Lincoln, CA | 2015-09-02 | I strongly feel the water in Nor-Cal should stay here. These tunnels would destroy a great waterway as well as put added strain on it's inhabitants. |
| Ryan Brown | Livermore, CA | 2015-09-02 | The fishing there is some of the best in the USA! The effects will devastate this awesome body of water. |
| Maddie Lopez | Granite Bay, CA | 2015-09-02 | Because i love this planet and FUCK gov brown for even proposing such a bad idea!! |
| Curt Green | Riverbank, CA | 2015-09-02 | I oppose this project. |
| Ruthann McCloskey | Kelseyville, CA | 2015-09-02 | Water is for the people and should be available and free!!! |
| Brian Henrikson | Los Gatos, CA | 2015-09-02 | The coequal goals of both restoring the Delta and increasing infrastructure have been changed to only the latter. The money for tunnels would be better spent on modern infrastructure like urban water reuse. At the very least this project should be taken to the electorate. I am against the tunnel project. |
| Steven Pester | Oakdale, CA | 2015-09-02 | Leave the delta alone and build more resevoirs |

| Name | Location | Date | Comment |
|-------------------|--------------------|------------|--|
| Ben Zeiger | San Carlos, CA | 2015-09-02 | I fish and play in the delta and it would be absolutely devastating for millions of people if it were drained |
| scott anderson | Fremont, CA | 2015-09-02 | I am a bass angler and the delta is my home fishing spot. It would be devastating to lose such a beautiful and valuable resource! |
| Aubrey Lenzi | Reno, NV | 2015-09-02 | I'm signing because my best friend grew up out there in her home and she doesn't want to see it destroyed |
| Dave Lee | San Jose, CA | 2015-09-02 | I love the Delta the way it is! |
| Roberto Peralta | Antioch, CA | 2015-09-02 | It's bringing in salt water where it shouldn't be. It will impact the wildlife as well as the activities people will be able to do. Like being in the water |
| STEPHEN ASKEY | Stockton, CA | 2015-09-02 | I choose not to see the delta and estuary go down the "drain". Greed and money are the governor and wealthy farmers of Kern Co. goal. |
| Denise Schiller | Newark, CA | 2015-09-02 | I want to save the Delta! |
| bill george | Tracy, CA | 2015-09-02 | The tunnels will turn the delta into a brackish estuary |
| Jessie Rodriguez | Lathrop, CA | 2015-09-02 | We need to save our water! |
| Paul Hernandez | Redwood City, CA | 2015-09-02 | Restore the Delta |
| Janice Williams | Galt, CA | 2015-09-02 | Because the tunnel will destroy the delta fishery |
| robert smolke | Lodi, CA | 2015-09-02 | It will ruin the water quality, fishing areas, hunting areas, and hurt agricultural areas |
| eric stafford | Sacramento, CA | 2015-09-02 | We need the water in the Delta not sending it to Southern California. I fish the Delta and believe Governor Brown and his cronies are all corrupt. |
| Chris Hamilton | Oakley, CA | 2015-09-02 | It's suicide for the surrounding land and ecosystem. |
| Donald Smith | Gilroy, CA | 2015-09-02 | California and So. California need to reduce the dependency of Northern California water. Scratch the high speed train and focus on the true needs for California. De-Salinization! |
| karen gorne | Salida, CA | 2015-09-02 | Leave our farm land alone |
| Gary DeZonia | Rancho Cordova, CA | 2015-09-02 | I oppose the delta tunnels! Please help. |
| Cynthia Jenkins | Sacramento, CA | 2015-09-02 | Stop destroying California's natural water resources. This plan would turn the delta into the Colorado river when it reaches the ocean (hint: it doesn't anymore) find a more sustainable solution or the pistachio and almond farms can change their crops. |
| Sharon Brough | Sacramento | 2015-09-02 | The current way of transporting water is fine, plus if tunnels are done, it would mess up the Delta. |
| SUSAN HAYWARD | LODI, CA | 2015-09-02 | I've lived in delta all my life. We need to protect what's ours. Our precious resources!! |
| Barbel Sepulveda | Stockton, CA | 2015-09-02 | I've lived near the Delta most of my life. I care about the ecosystems that will be affected. I don't want to see them harmed. |
| Bob Perry | Vacaville, CA | 2015-09-02 | I oppose the destruction of the California delta |
| Chris Wadsworth | Brentwood, CA | 2015-09-02 | I'm signing cause it's complete bullshit. Leave the delta alone. Find another way |
| morgan swisher | madera, CA | 2015-09-02 | We need to save California from the greed down south. The growth has to stop, there is no 'new' water. What they take hurts something else. |
| Michael Lee | El Sobrante, CA | 2015-09-02 | It has been the land owner's property for more than 30 years, how dare the state want to build on land they do not own.. Very wrong and unamerican |
| Brian Callison | Oakley, CA | 2015-09-02 | Because you're going to ruin the delta!!! |
| Christopher Munoz | Antioch, CA | 2015-09-02 | I do not want to see the ecosystem of the Delta destroyed. |

| Name | Location | Date | Comment |
|-------------------|---------------------|------------|---|
| Tim Goldberg | Windsor, CA | 2015-09-02 | It effects all aspects of one of the top fisheries in California! |
| Michael Johnson | Pleasant Hill, CA | 2015-09-02 | I would like to protect an ecological and economic system that I find myself a part of daily. |
| Robyn Battaglia | Pleasanton, CA | 2015-09-02 | The Delta is too important and too fragile. It needs restoration, not further stress. |
| michael seewald | Del Mar, CA | 2015-09-02 | The delta needs to stay fresh water, it will turn salty without the influx of freshwater that would get pumped out. Save the fishery and thousands of related jobs around the Delta. |
| Bud Laurent | Corvallis, OR | 2015-09-02 | Stop moving water where it doesn't belong; you can't continue to engineer the state out of this drought. |
| Jake Howard | Galt, CA | 2015-09-02 | I love the delta |
| Norma Cartwright | Lebanon, TN | 2015-09-02 | You sold your water to bottlers. You allowed fracking. Your profligate use in agriculture was a mistake. Your fountains and pools outrageous. Don't look to Oregon to bail you out. |
| Jim Frankenfield | Lodi, CA | 2015-09-02 | ITS WRONG |
| David ONeal | Pittsburg, CA | 2015-09-02 | I'm signing because I've grown up with and on the Delta and I'm 51years old now and I'm sick and tired of see the Delta raped of it's water. The decline of it's native and nonnative fisheries from the big Ag corporations that have been taking far more than their share of water for way too long as is. If I was caught killing just .001% of the fish they do at their pump stations I'd never see the light of day again but I guess that's how they can tell the health of the Delta by how many dead they pull out of their filters |
| Michael Moreno | Oakland, CA | 2015-09-02 | I love the delta, with you're proposed plan you will eliminate the possibilities of me and my future family to enjoy this great American sport. All the animals that need the delta will suffer if they don't get full effects of delta. |
| Martin Mayhew | San Diego, CA | 2015-09-02 | We should engineer solutions to capture water runoff, not Delta water |
| George Ly | fremont, CA | 2015-09-02 | Save the delta! |
| Goliath Kanno | Ceres, CA | 2015-09-02 | Save the Delta!!!! dont worry about us save the wild life!!!! |
| Connie Fuller | Cincinnati, OH | 2015-09-02 | The canals will ruin the beautiful Delta! Water grab by big Ag is all greed. Shameful |
| Wayne Braun | shingle springs, CA | 2015-09-02 | I don't we need to send more water south. Let California south and the Gov. build a decell plant. Stop screwing the north for water |
| James Sorensen | Chico, CA | 2015-09-02 | This project is nothing short of a boondoggle. |
| Jim Griffin | Aptos, CA | 2015-09-02 | Moonbeam is ruining our state and sending it down the toilet of Socialism |
| Franchelle Donald | Lodi, CA | 2015-09-02 | I oppose the tunnels. Work on building something down south to capture water there. Leave our Delta alone! |
| Rosy Acri | Sacramento, CA | 2015-09-02 | I oppose the delta tunnels |
| Gary Buck | Galt, CA | 2015-09-02 | I do not want to see the Delta destroyed. The tunnels will do nothing to fix the drought or solve the water issued that California is facing. |
| Austin Padgett | Hayward, CA | 2015-09-02 | This will ruin one of California's greatest resource |
| jeremy zipton | Discovery Bay, CA | 2015-09-02 | we need clean fresh water |
| Joshua Campbell | Oakland, CA | 2015-09-02 | I have lived in Northern California my entire life and will not see our ecosystems destroyed for the sake of money! |
| Tou Herr | Kansas City, KS | 2015-09-02 | Water is precious |

| Name | Location | Date | Comment |
|-------------------|----------------------|------------|--|
| Jewlue Burns | Livermore, CA | 2015-09-02 | Because I believe if you build these tunnels we will destroy the delta and california will lose precious water. Not to mention the impact to the eco system and wildlife that the delta supports. |
| Tom Beyer | Walnut Creek, CA | 2015-09-02 | Tunnels a bad idea. |
| Tracey Ziomek | Oakley, CA | 2015-09-02 | This is not going to make more water! Don't ruin the Delta and let's make long term changes in agriculture that are sustainable. |
| Jonathon Cockey | South Lake Tahoe, CA | 2015-09-02 | Leave our water alone. |
| Micheline Drouin | Antioch, CA | 2015-09-02 | I am signing because I do not believe the tunnels are good for our environment. Our beautiful Delta brings us many things. Such as our drinking water, a place to swim, fish and boat. Why should we pay for salinity processing to have the drinking water we now have. Southern California has this problem already, keep our waterways ours. Let Southern California build those salinity plants that they need for thier water. We the people of Northern California should not sacrafice our good drinking water to appease Gov. Brown. Gov. Brown find another way to make a name for yourself and another way to line your pockets. They have put up a rock barrier(temporary, yeah right)that has already changed the way our Delta flows...jelly fish already..so now if we care to enjoy our Delta for recreation swimming, skiing or fishing we are risking swimming with the sharks. Oh thats right the biggest shark is our own appointed Gov. Brown. Please everyone take the time to sign to help us save our BEAUTIFUL DELTA. #NOTTUNNELS# PLEASE help save our fishing and recreation as well as our drinking water. I am from Antioch , this Beautiful Delta is what has kept my family here in California. |
| Stacey Johnson | Discovery Bay, CA | 2015-09-02 | I'm signing because my family lives by the delt and my father run a small business on the delta I don't think this is fair to the families that have live her in the delta area and people that have business on the delta or near the delta the will devastate those business that are family owned |
| Vanna Turner | Sacramento, CA | 2015-09-02 | I think the tunnels are a TERRIBLE idea. It may benefit some but will HARM so many and so much. Please DONT DO IT!!! |
| John Wells | Tracy, CA | 2015-09-02 | I do not want the Delta to become a salt marsh. |
| Kimberley Jimenez | Antioch, CA | 2015-09-02 | to save the Delta |
| Robert Babo | Brentwood, CA | 2015-09-02 | These tunnels will devastate the California Delta, there will be salt water further up river than ever before.No environmental impact study can predict the amount of devastation they will cause. |
| samuel crockett | Patterson, CA | 2015-09-02 | The tunnels are a very bad idea. It will do nothing to help the drought situation in this state. It will only cost us, the tax payer, a whole lot of money we can not afford! |
| Cory Hinkle | Buckeye, AZ | 2015-09-02 | I want to save our fishery!!! |
| Rob Betsch | Fremont, CA | 2015-09-02 | I value the delta watershed and the proposed tunnels will decimate the delta and farmland |
| david brabec | Kendallville, IN | 2015-09-02 | love the delta |
| Rene Duzac | San Jose, CA | 2015-09-02 | It doesn't make since! Data doesn't add up. Too much money trying to push it through. Governor has been bought. |
| Marla Palazzo | Weaverville, CA | 2015-09-02 | Build water storage solutions instead. |
| Hugo Girol | Burlingame, CA | 2015-09-02 | to help keep the Delta healthy |
| Ted Morrill | Walnut, IA | 2015-09-02 | The delta is ALL I live for u take it only from my cold dead fingers. |
| Antone Andrade | Lodi, CA | 2015-09-02 | I'm a fisherman, and I oppose the government's destruction of the natural habitat and private property. |

| Name | Location | Date | Comment |
|-------------------|--------------------|------------|---|
| wayne allen | oakley, CA | 2015-09-02 | Tunnels will destroy the right error system. Government does not morally have that right especially when the voters have loudly spoken against it. |
| Randall Smith | Manteca, CA | 2015-09-02 | I'm signing because I don't think southern California and Agri-business should get Northern California water and destroy the SJ River Delta. and S.F. Bay. |
| rick yokom | Manteca, CA | 2015-09-02 | Against the tunnels |
| Ryan Enright | Citrus Heights, CA | 2015-09-02 | The proposed Delta tunnel project will be disastrous for our state. The impact of salt intrusion during this drought should be all of the warning we need. What is the point to continue to drain the northern part of the state to create housing and industry in the part of our state that is inhospitable to life. |
| Steve Goldstein | Modesto, CA | 2015-09-02 | This initiative will further erode water resources for our state. |
| wallace pearce | Winters, CA | 2015-09-02 | This is wrong. There are better more effective ways for water problems that digging huge trenches and filling them with pipe that leak and possess a limited capacity life cycle. |
| Paula Davis | Lodi, CA | 2015-09-02 | I've grown up on the delta, learned to fish and water ski here. My family has been recreational fishermen for decades and to loose the San Francisco Delta Bay Region would be criminal, especially when it's being done only for money! |
| Martha Sepulveda | Stockton, CA | 2015-09-02 | I care about our Delta and am strongly opposed to anything that would compromise it's quality. Northern California is getting as little rainfall as Southern California. They need to find some solutions of their own before they take more of our water! |
| Kari Rodes | Stockton, CA | 2015-09-03 | This will ruin the Delta. |
| Chris Coley | Roseville, CA | 2015-09-03 | It's a stupid idea |
| Scott Crawford | San Jose, CA | 2015-09-03 | This is an unnecessary project that will do little to alleviate water shortages. This simply allows more water to be used for the production of non-essential crops |
| David Anderson | Oroville, CA | 2015-09-03 | There would be more harm than good |
| Jacqueline Harris | Modesto, CA | 2015-09-03 | I don't think tunnels are the answer. They would do to much permanent damage to the delta and the environment of the entire area. Not to mention the families that have been living and farming the areas for years. Taking a large portion of the fresh water coming into the delta would do a lot of permanent damage to its ecosystem. |
| rick fehling | liberty, CA | 2015-09-03 | Because it time to use common sense. And quit giving our water up for other to waste. Let them build desalination plants. |
| mary johnson | Stockton, CA | 2015-09-03 | It's unfair.. |
| Tony koregelos | fair oaks, CA | 2015-09-03 | These tunnels are just another political water grab. Saltwater intrusion has killed the marsh and delta, including many species of fish. Put the water back! |
| Irene Valdez | Stockton, CA | 2015-09-03 | I've lived here all my life. The delta is our treasure. |
| Donna Fairchild | Elk Grove, CA | 2015-09-03 | My grandmother raised her family in the Delta, and I have relatives and friends whose homes and livelihood are rooted in the Delta. It would be a tragedy to see these valuable farmlands, home sites, and refuges for wildlife destroyed for "massive underground water export tunnels" that add NOTHING to our water supply. |
| Dean Karagan Sr. | Santa Clara, CA | 2015-09-03 | I fish the Delta and I vote! |
| Jennifer Johnson | Stockton, CA | 2015-09-03 | This is how my Husband now makes his living. |
| Sandra sifford | courtland, CA | 2015-09-03 | Stop the tunnels |

| Name | Location | Date | Comment |
|---------------------|-----------------|------------|--|
| Karen Arhontes | Dublin, CA | 2015-09-03 | We are struggling with our water supply while Southern CA does not have conservation programs in place. Southern CA needs to show some responsibility for the water supply instead of diverting more there. |
| Marna Salazar | Sac, CA | 2015-09-03 | Think of all the delta farmland that will be destroyed and the salty water!! |
| Lalo Flores | Fairfield, CA | 2015-09-03 | Environmental Concerns.....Don't not tamper with such a sensitive ecosystem. |
| ben lee | Escalon, CA | 2015-09-03 | I am a bass fisherman and I do not want the delta bass fishery ruined by this. |
| Spiro Stamos | San Jose, CA | 2015-09-03 | Because it WRONG!!! |
| Gerald Corcoran | Santa Clara, CA | 2015-09-03 | Delta is important... |
| Zach Mayville | Stockton, CA | 2015-09-03 | I'm signing because I want to protect an preserve out delta |
| Thomas Vang | Elk Grove, CA | 2015-09-03 | We need to stop the tunnels from being built. |
| R S | AzuAs, CA | 2015-09-03 | Because enough is enough you greedy money hungry assholes |
| Patricia flanagan | Lodi, CA | 2015-09-03 | I oppose the twin tunnel project |
| aaron girard | Vacaville, CA | 2015-09-03 | Keep my fish in the delta no tunnels needed wait for the rain to come u dicks |
| david urchison | Denair, CA | 2015-09-03 | I have family member that has a small buisness on the delta. And for all those live or work on the delta. |
| Greg Sallee | San Ramon, CA | 2015-09-03 | We need to protect our waters and save our cities and jobs. Don't ruin a beautiful area. It's already started with the "temporary" diversion wall. Let's see how long temporary really is. |
| Christian Ostrander | Turlock, CA | 2015-09-03 | The Delta is one of the most beautiful bodies of water and I'm out there enjoying it twice a week |
| Armand Perez | Lincoln, CA | 2015-09-03 | I dont want to see the tunnels built |
| Mark kirkpatrick | Brentwood, CA | 2015-09-03 | waste of money and detriment to or lands |
| Howard Revel | Brentwood, CA | 2015-09-03 | I want to preserve and enhance the California Delta forever. My parents were farmers, I've lived and fished and hunted here all my life. To see this destroyed would be the biggest environmental tragedy in California history. |
| Joseph Grulich | Petaluma, CA | 2015-09-03 | I'm signing this because of environmental concerns for the delta and the economic concerns for local water users in the state. The Delta is already suffering ecologically from a variety of reasons. It is widely accepted that further reducing the influx of fresh water to the Delta will further harm it and potentially lead to an ecological disaster. That is exactly what these tunnels will do. Our local environment and economy should not need to suffer to accommodate the interests of big agriculture in the southern deserts. |
| Mark Jenkins | Sacramento, CA | 2015-09-03 | These dumb tunnels will NOT save water OR cure the drought! De-Salinization plants are the way to go! |
| Diana McElroy | Brentwood, CA | 2015-09-03 | There are other options like desalination plants- let northern california keep its water for our own use. |
| Chris Perez | Lincoln, CA | 2015-09-03 | This is one of the greatest natural bodies of water on earth! And this should not be changed!!! |
| Michelle Spain | Clarksburg, CA | 2015-09-03 | Our state legs need to figure out another way of "fixing" Cali's water problems... taking water from the Delta makes absolutely no sense. Have you heard of reservoirs? |
| Carolyn Hendrickson | Tracy, CA | 2015-09-03 | This plan will devastate the natural delta and filtration of salt intrusion; So cal needs to develop more conservation methods & use desalinization to serve their growing population, let Cen. California continue to grow the crops to feed our nation |
| jon harrison | Fair Oaks, CA | 2015-09-03 | Don't want California to be a desert! |

| Name | Location | Date | Comment |
|------------------|---------------------|------------|---|
| nancy petersen | Hughson, CA | 2015-09-03 | I'm signing because this is a bad idea, a bad plan, and the results will be disastrous. We need more water storage, not tunnels. |
| Vijay Malhotra | Sacramento, CA | 2015-09-03 | these tunnels are going to be the destruction of the California delta. Also for all the people that depend on the Delta these tunnels will be detrimental. |
| Ellen Albright | Discovery bay, CA | 2015-09-04 | The tunnels will destroy an environmentally diverse Eco system that everyone in Northern California depends on. Save the Delta! No Tunnels! |
| Barry Durham | Stockton, CA | 2015-09-04 | Northern CAs need to protect our water ways and land. The tunnels will destroy our fishery and farm lands |
| tim main | crockett, CA | 2015-09-04 | I live in Crockett. This was where the salt water intrusion started to dissipate, now it's east of Antioch and Rio Vista or farther this year. |
| Darcy Miller | San Mateo, CA | 2015-09-04 | Going on record to oppose any new tunnels being built to divert water from the Delta to Southern California. |
| Lowell King | Vacaville, CA | 2015-09-04 | Bypassing water around delta is the wrong way to do it. Buy & retire old farms with bad soil & retire their water rights. |
| Richard Bothman | Campbell, CA | 2015-09-04 | This is a really lousy idea and we turned down the same proposal 33 years ago. It was a lousy idea then and it is still a bad idea. |
| Sherry Maher | Elgin, AZ | 2015-09-04 | CA is my home state and I don't want to see it destroyed any more than it is already. |
| Jennifer Freitas | Lathrop, CA | 2015-09-04 | My family has the best time boating and enjoying the sloughs of the delta. Tunnels will ruin a family activity that isn't affected by the drought |
| David Dolliver | West Sacramento, CA | 2015-09-04 | Damage will be done and we will be left holding the bag. |
| ken allen | Acampo, CA | 2015-09-04 | reducing the fresh water in the delta will not be a benefit to any wildlife. The aquifers will not withstand salt intrusion and ruin our wells. Further, when thirsty LA and farmers along the pipe line will only need more and more fresh water and so this isn't the final answer to a water problem of the south calif. However It will be a final problem for the delta which is disaster. |
| Timothy Smith | Granite Bay, CA | 2015-09-04 | Northern Ca. Needs water and the Delta. Southern Ca should build desalination plants not twin tunnels! |
| crystal lemos | gilroy, CA | 2015-09-04 | Bad idea |
| Anthony Clift | San Jose, CA | 2015-09-04 | this is ludicrous. Southern CA needs to adopt permanent and strict water conservation efforts. This is a waste of our taxpayer dollars and will harm the Delta. |
| Chris Stevens | Stockton, CA | 2015-09-04 | Shifting delta water to the south without providing for more surface water storage is just rearranging the deck chairs on the Titanic. Let's enact a COMPREHENSIVE plan that increases surface water storage and encourages desalination. Leave the aquifer alone to recover and put a stop to the projects that will lead to increased saline levels in the Delta. |
| Cheryl Bellrose | Rio Vista, CA | 2015-09-04 | I live near the delta and it has over 1000 miles of waterways for boating, etc. Moreover, it is a critical fly over stop for migrating waterfowl. As a retired wildlife ecologist, I can only relate that this area is critical for the survival of not only the waterfowl, but other birds species and wildlife that support the ecology of this area. The current Environmental plan which is currently being reviewed would exclude many remediation issues that are extremely important to sustaining the delta as a viable source for environmental quality. Do not support the tunnels-- the cost is beyond extravagant and only puts more of an economic burden on the state and its citizens so that a few farmers can grow crops in the desert regions of California. |

| Name | Location | Date | Comment |
|----------------------|---------------------|------------|---|
| Justin Raleigh | Pasadena, CA | 2015-09-04 | I love the California delta |
| Chris Craft | Elk Grove, CA | 2015-09-04 | The brackish water will move so far inland after these tunnels are built thst it will ruin our fresh water aquatic species, ruin much of our recreation that depends on fresh water levels in the middle of the state and ruin the ag based economy that is so vital to our nation and who's revenues will be sorely missed is CA. I'm sick of the short sighted nature of this topic. Have a little vision at all, invest in tech based solutions like desalination plants. This will be an archaic solution that will be outdated within a decade. |
| Coez Bradshaw | Orangevale, CA | 2015-09-04 | Governor Moonbeam should not be allowed to use his twin tunnel project to suck NorCal's water supply dry, just so he can send it to SoCal where his major voter supply lives. We're living in dust in Sacramento, so they can water their lawns in LA. And they don't even know or care about our sacrifices, because they're not reported in SoCal anywhere. That means we're not pulling together on this as a State, and NorCal's tired of pulling the whole load. The State population has doubled in the past 40 years and they haven't built a single reservoir! And now Moonbeam wants to build these life-sucking tunnels instead? The exact opposite of what we need? Oh my beautiful State! You're being so mismanaged. |
| David Strickland | Pittsburg, CA | 2015-09-04 | i love our delta |
| Cedric Wong | Folsom, CA | 2015-09-04 | The tunnel project will draw too much water away and make the Delta an estuary with no fresh water. This will kill farming, sporting, and the salmon. |
| Rodney Green | Elk Grove, CA | 2015-09-04 | I'm against the state building the tunnels. |
| Rick Isgrigg | Vacaville, CA | 2015-09-04 | We have salt water in rio vista that is harming the delta this will make it worse all so moonbeam can line his pockets so cal already gets a lot of our water and do nothing but want to take more |
| Mark Moran | Antioch, CA | 2015-09-04 | This will be a disaster to the delta and kill billions of dollars in tourist revenue and natural beauty. |
| Emily Broadhurst | Lodi, CA | 2015-09-04 | I'm signing because I live here and love the beauty of this area of California: the farmland, the wildlife, and the community. The tunnels would ruin this area and the beautiful place I call home. |
| Travis Ladner | Citrus Heights, CA | 2015-09-04 | We need to save the delta from the rich people that want to destroy it. |
| Tony Su | Concord, CA | 2015-09-04 | Stop destroying our natural resources in order to favor a small segment of the population. |
| Heather Fisher | Truckee, CA | 2015-09-04 | I don't believe the delta needs to be fixed for the sake of a few. |
| kyle chong | brentwood, CA | 2015-09-04 | The delta is a oasis for many and a living for others. |
| Tony Garcia | Discovery Bay, CA | 2015-09-04 | This is where I live my family enjoys the outdoors here and the quality of life that we have here on the delta. This should not be a propaganda of politicians. |
| Margaret Fenner | Danville, CA | 2015-09-04 | i care about our Delta. The Tunnels are shortsighted and wrong. |
| dan beuck | Sacramento, CA | 2015-09-04 | Gov. Brown is a idiot and the tunnels are a money grab that should not be. |
| Dan Machek | Hat Creek, CA | 2015-09-04 | This project would have extremely detrimental effects on human health in the Elk Grove area and to the delta ecosystem. Land that has been in families for over a century will be taken and flooded. Jeffersonians Unite! |
| Paul Tidwell | Visalia, CA | 2015-09-04 | I believe in a healthy SF Bay/Delta ecosystem now and forever! |
| Kathy Ward | North Highlands, CA | 2015-09-04 | Don't let N. CA die off cause you want to send our water to the southern region. |
| syantho lathipanya | galt, CA | 2015-09-04 | To save the Delta for locals |
| Brian Phelps | Stockton, CA | 2015-09-04 | Oppose the twin tunnels boondoggle. An environmental mess |
| Michael David Sasson | Oakland, CA | 2015-09-04 | I have children. |

| Name | Location | Date | Comment |
|----------------|-------------------|------------|--|
| Scott Day | San Leandro, CA | 2015-09-04 | These tunnels are not the "Fix". Destroying an Eco system is not the "Fix" Stop ALL water flows from the Delta so it can repair itself and build desalination plants up and down the coast. This is the "Fix". |
| Ronald Hilberg | paso robes, CA | 2015-09-04 | Save the delta from ruin. |
| Elizabeth Lutz | Baltimore, MD | 2015-09-04 | This is a "Butterfly Effect" concern and we are all connected! |
| Phil Machek | Elk Grove, CA | 2015-09-04 | I believe the amount of extraction of fresh water from the Sacramento river would have hugely detrimental effects on the the estuary and San Francisco bay |
| Lance Coletto | Walnut Creek, CA | 2015-09-04 | Taking water from the Delta on such a massive scale was a bad idea in 1982 and it's an even worse idea now. Our goal should be to more efficiently use the water we have: not to take more and continue our wasteful practices. |
| Anna Carroll | Sacramento, CA | 2015-09-04 | the Delta is home to so much wild life and putting giant tunnels in will destroy everything the Delta is about |
| Nick Greinert | Round Rock, TX | 2015-09-04 | Not thinking is what has gotten us into this mess, we need smart solutions to get us out of this. We don't need to destroy nature even more than we already have. |
| Kyle Dempster | Irvine, CA | 2015-09-04 | I'm signing because if California's knew it was a bad idea in the 80's, then the idea is not any better now. Furthermore, build Desaltnazation Plants instead to get water from the ocean! It's the largest water supply in the world, it just needs to be tapped now! |
| bonnie garcia | Discovery Bay, CA | 2015-09-04 | I dont believe the tunnels will solve our water problem. Messing with nature on this large of a scale will be worst for all of us in the long run. Move some of the farms growing roses and grass in a drought to other states if they dont have water that I just drove past in Bakersfield (We are in a drought right??). After all mine is dead in my front yard. And for the lush lawns in SoCal, let those die too. Need more drinking water? Buy some bottled water like I do since the quality of my tap water is undrinkable already and would only get worse as the water table dropped. |
| Peggy Sieber | Lodi, CA | 2015-09-04 | The tunnels are a horribly bad idea and will result in saltwater intrusion which would decimate the wildlife dependent on fresh water, ruin delta farmers and have a negative impact on an environment that has drawn boaters from the valley to the bay to our beautiful delta. Also, why would Brown's PR people have to label this as the opposite of what it actually is, TWIN TUNNELS, in order to give it any chance of passing in a vote?! |
| George Moore | Tracy, CA | 2015-09-04 | The almond industry uses too much water. It is time for nut farmers to switch to a more sustainable product. |
| Laurie Alles | Greeley, CO | 2015-09-04 | The ecology and animals that need this water to survive are more important than the money big ag makes. The priority is saving our planet, not greed. |
| Dina somers | Oakley, CA | 2015-09-04 | i live in the delta.....I support agriculture as well as wildlife preservation. |
| Rich Johnson | Oakland, CA | 2015-09-04 | The tunnels will destroy the Delta ecosystem. |
| sherry weise | Walnut Creek, CA | 2015-09-04 | This is a stupid idea. This will totally upset the ecological balance of the delta, the bay, maybe the state. |
| David Lambert | Escondido, CA | 2015-09-04 | The tunnels are a terrible idea. If and when California gets serious about water issues, there are better ways to address them. |
| Margi Clarke | Berkeley, CA | 2015-09-04 | Change California Ag policy to save our water |
| Marion Moore | Dallas, TX | 2015-09-04 | I grew up in Elk Grove and still have many friends and family in the area that would be negatively effected. |

| Name | Location | Date | Comment |
|------------------------|---------------------|------------|--|
| Gary Thaler | Revere, MA | 2015-09-04 | A massive tunnel project could only further endanger the Delta. This proposal should be discarded now. |
| Linda Carlos | Elk Grove, CA | 2015-09-04 | I wholeheartedly oppose these tunnels that will forever negatively affect the environmental balance of the delta! |
| Carolyn Phinney | Orinda, CA | 2015-09-04 | Use all our recycled water first. |
| Brett Dworaczyk | College Station, TX | 2015-09-04 | This would cause a devastating environmental impact on the San Francisco Bay-Delta area |
| Susanne Furst | Middletown, PA | 2015-09-04 | This is not a fix. It is a diversion. It will not give California more water it just takes water from somewhere viable that needs it and gives it to someone else. Think of a water creating alternative not a water stealing one. |
| Mark Carlos | Sonora, CA | 2015-09-04 | This is a very poor strategy and neither a short-term nor long-term solution; proposal has dire consequences for the short-term and unforeseen domino effects for the long-term. |
| Judi Roggie | Riegelsville, PA | 2015-09-04 | We must protect this unique resource and There are other ways to provide water that would be safer while providing job opportunities. Please pursue these alternatives. |
| Harold Box | Austin, TX | 2015-09-04 | Politics and \$ continue to F up the beauty of our country. Don't! |
| Allyson Fanning | Fresno, CA | 2015-09-04 | I'm signing because, this isn't the same plan as last time, it will destroy what is there. We have messed up the state, let's not totally ruin it. |
| Jane Smith | Sacramento, CA | 2015-09-04 | California's pride, the San Francisco Bay-Delta should not be altered by political means. This natural ecological and native wonder must be left alone. |
| robert spencer | Dixon, CA | 2015-09-04 | i oppose the tunnels |
| Annette Cadosi-Wilson | Healdsburg, CA | 2015-09-04 | I live in Northern California. Southern California is a desert. I believe they should realize that and take steps to limit new housing, encourage desert-living water conservation and restrict agricultural water use in the central valley by planting crops that are more appropriate to the area and dry farming others. |
| Denise Kirchubel | Fairfield, CA | 2015-09-04 | The Delta Tunnel proposal is inane! All around bad idea! |
| LISA ARNOLD-FERNANDEZ | SACRAMENTO, CA | 2015-09-04 | These tunnels will drastically change the beautiful Sacramento Delta. It's an irresponsible use of land and water for big unsustainable agriculture. |
| Judy Mason | Bellevue, WA | 2015-09-04 | No tunnels! |
| Amy Wilson | Walnut Grove, CA | 2015-09-04 | corruption and greed need to stop and we need to start focusing on better solutions, not what's best for our pockets!! |
| Irrepressible Optimist | Oakland, CA | 2015-09-04 | Find another way. |
| Kirsten Ruiz | Carmichael, CA | 2015-09-04 | This is my home. leave what's left of the beautiful surrounding alone! |
| MARGARET A. BERRY | Carmichael, CA | 2015-09-04 | I OPPOSE THIS MULTI-MILLION DOLLAR BOONDOGGLE! |
| Fred Fullerton | Esparto, CA | 2015-09-04 | Too save our Delta and I Fish |
| Phyllis Holliday | San Francisco, CA | 2015-09-04 | I believe it is best to save the San Francisco Bay-Delta and find other ways to find water. |
| Analisa Raccanello | San Francisco, CA | 2015-09-04 | I'm signing because I am concerned about the impact on the ecology of the region, and am interested in supporting projects that create local jobs and enhance water sustainability for California's future. |
| Hollis Burgess | Sacramento, CA | 2015-09-04 | This is just another water grab instead of actually fixing water shortage problems. To transfer fixes nothing! |

| Name | Location | Date | Comment |
|-------------------|---------------------|------------|---|
| Robin Rierdan | Santee, CA | 2015-09-04 | Keep the water in the Sacramento. |
| Patricia Anderson | Grass Valley, CA | 2015-09-04 | It's important! |
| Julia Worthen | Antioch, CA | 2015-09-04 | Save the Delta |
| Bill Caldera | Sonora, CA | 2015-09-04 | This will ruin another body of water that is so valuable to our local economy and the wildlife that live here. Please stop this nonsense |
| John phifer | Rio Vista, CA | 2015-09-04 | To save our Delta and stop Westlands! |
| Judith Kemper | Davis, CA | 2015-09-05 | I revere the San Francisco Bay Delta. It is necessary part of the natural habitat. |
| Lee Ezzes | Highland Park, CA | 2015-09-05 | This is a dangerous and stupid idea. |
| Kathleen Brown | San Francisco, CA | 2015-09-05 | I'm signing because ruining the San Francisco Bay-Delta estuary supports life, human and wild, and an ill-conceived plan like this will destroy too much; it won't even benefit the entrenched powers who want it, not in the long term. |
| Lemaj Plaza | Stockton, CA | 2015-09-05 | The sanjaoquin valley desperately Depends on our delta |
| Stephanie Hart | Antioch, CA | 2015-09-05 | I'm tired of our Delta being threatened so that millions of people can live and farm in a place with limited water resources of their own. You're asking our farmers to compromise their livelihood so that farmers further south can survive, and that is unfair. |
| Larry Imoe | Santa Maria, CA | 2015-09-05 | I oppose spending the money to deplete the Delta. The money should be spent on water conservation projects. |
| Chris Beck | Diamond Springs, CA | 2015-09-05 | Tunnels re-directing water from the Delta would destroy this special resource |
| Dylan Bothman | Scotts Valley, CA | 2015-09-05 | The San Jaoquin River delta is the largest remaining wetlands for native bird and fish species in California. The creation of the delta tunnels is the government bowing to large Agri-business agendas in Bakersfield, etc. More efficient water diversion to Southern California for in-sustainable agriculture is not what California needs! Help protect California's wetlands and defend the idea that government is for the people's interests! |
| William Schaffer | Las Vegas, NV | 2015-09-05 | save the delta |
| Andrew Altamirano | Los Angeles, CA | 2015-09-05 | STOP the GIVE-AWAY of OUR WATER to the Oil and Agriculture Multinational CORPORATIONS!!! |
| Ray Martinez | Santa Clara, CA | 2015-09-05 | strongly opposed to the tunnels! |
| Julan Meng | Santa Clara, CA | 2015-09-05 | strongly opposed to the tunnels! |
| Eric Tjai | Sacramento, CA | 2015-09-05 | Don't destroy the Delta!!! |
| john griffin | Manteca, CA | 2015-09-05 | This is a water grab put the \$2 billion into dams and water storage |
| John Sierra | Oakley, CA | 2015-09-05 | I hope to inspire East Contra Costa residents to be more Eco-centric than Ego-centric, and to speak up for the environment that our lives and well-being ultimately depend on. |
| Susan Warren | Concord, CA | 2015-09-05 | These harmful tunnels must be stopped! |
| Melanie Anadon | Prunedale, CA | 2015-09-05 | i want the Delta saved! No water tunnels! |
| Kate Henke | Berkeley, CA | 2015-09-05 | Delta Tunnels are a bad idea: for environment, for farming, for fishing and for California in general! |
| Trudie Blank | Twin Peaks, CA | 2015-09-05 | Because this is wrong. |

| Name | Location | Date | Comment |
|---|---------------------|------------|--|
| Lewis A, Cuccia | Oakley, CA | 2015-09-05 | This proposal is just wrong, PERIOD! Brown is in the pocket books of big \$\$\$ water moguls who for 60 years have tried to rape the water from the California Delta for personal gain with out regards to the Delta's Eco system. This proposal fixes nothing, other than continuing to stuff the pockets of those like Brown involved with moving and selling the Delta's water for personal gain. |
| anthony valdez | El Cajon, CA | 2015-09-05 | It needs to stop |
| Mark Pollard | Modesto, CA | 2015-09-05 | Its not the right thing to do for the Delta.. It will hurt the Delta system and the life that thrives on it from fish, birds, beavers, geese, ducks and plants |
| Linda Rae Carter | San Francisco, CA | 2015-09-05 | I have enjoyed the tremendous waterways of the Delta and don't want to chance their destruction. |
| Linda Dubnick | Big Bear, CA | 2015-09-05 | I lived by delta country for many years. Do not Risk this |
| Eric Moon | Concord, CA | 2015-09-06 | I oppose the tunnels |
| Allison Marks | Oakland, CA | 2015-09-06 | There will be a major effect on fish and game,business,tourist,residentialsect.I am against this 110% . |
| Frank R. Lopez frlopez@sbcglobal.net | Vacaville, CA | 2015-09-06 | BFO...blinding flash of the obvious. Anybody lining from Martinez east would be severely impacet. Not to mention the people from the Western/Central Delta. Maniacal concept. There are many better options. Dump this whole tunnel thing. It's like a nightmare. |
| Margaret Spatz | Sacramento, CA | 2015-09-06 | The Tunnels will ruin the Delta. Build desalination plants! |
| Ellen Berryhill | Ceres, CA | 2015-09-06 | I believe the current plan only benefits the Southern California water companies. |
| Michael Miloserdoff | Orange, CA | 2015-09-06 | There needs to be a great deal more environmental impact studies done to justify these expensive and potentially threatening projects. In So. Cal., Poseidon Company of San Diego is trying to push thru desalination plants at 700+ million each in many coastal cities, of which it is called "society (long-term) bears the risk, and Wall Street bears the rewards. The head of CA Ocean Conservancy says we have not done enough conservation yet, and I agree. Let's look into new ways of doing things (gov't tax incentives for waterless urinals in commercial properties, for example), before we assume that we need more water redistribution because of 100 year old thinking styles. |
| Kareem A. | Rancho Cordova, CA | 2015-09-06 | It is part of our duty as human beings that we take care id our environment, both for us and our children. Please help us fulfill responsibility. Thank you. |
| zachariah ploeger | Fairfield, CA | 2015-09-06 | im a bass fisherman on the delta and these tunnels will ruin this great fishery |
| Gabriel Eisenman | Sonora, CA | 2015-09-06 | It's plane and simple stop the tunnels and save the delta. The delta is there to enjoy not be destroyed. |
| Vanessa Rodriguez | Miami, FL | 2015-09-06 | H |
| Joan Armer | San Mateo, CA | 2015-09-06 | Where will this leave us??? |
| Ivo Buddeke | Rimrock, AZ | 2015-09-06 | These type of water redistribution would devastate the SF Bay. |
| Cameron Stewart | North Hollywood, CA | 2015-09-06 | Public policy should not be dictated by Agrobusiness corporation, especially when it threatens the environment. We also need legislation that ends the growing of water intensive crops for export. |
| Lynn Cook | Lexington, KY | 2015-09-06 | Recycling is great.. Except when it's the recycling of poor concepts and bad, previously rejected ideas. Drop the Delta Tunnels project. One moderate quake would wipe them out anyway..... |

| Name | Location | Date | Comment |
|-----------------------------|-------------------|------------|---|
| Fred Miller | Stockton, CA | 2015-09-06 | Governor Brown: stop fracking. Oil uses 30%+ and makes all that water poison. Fracking violates every EPA Standard ever passed. Just because Cheney made them exempt, does not justify allowing that much damage to the state. So Cal-build desalination plants. Stop stealing water from the north. It's killing the delta. |
| Karen McKy | Aurora, CO | 2015-09-06 | There are other more sustainable options for the water emergency in CA. We need to be creative and think about the long term impact on all beings. Not just what is best for humans. Humans are only part of the equation. If we upset ecosystems we damage overall health for the adjacent areas to this tunnel project and Earth overall. We need to live in harmony with nature and take only what is needed to support life. Balance, the delicate balance, needs to be maintained. Get more options to create better solutions. Think Macro effect not micro effect. |
| Christine Marley | Bloomfield, IN | 2015-09-06 | Get a grip on reality! Unsustainable agriculture has to stop! |

| Tania Malven | Tucson, AZ | 2015-09-06 | Appalling!!!! |
| Samantha Turner | Knightsen, CA | 2015-09-06 | Do NOT Destroy nor endanger our water, native plants, animals NOR OUR LIVES!!!! STOP THE TUNNELS! |
| John and Martha Stoltenberg | Elkhart Lake, WI | 2015-09-06 | In our opinion, a better solution to southern California's water problems would be to recycle all of southern California's waste water. |
| Meriam Ahmad | San Jose, CA | 2015-09-06 | I'm signing because we need to keep our health safe, our environment safe, and our water safe. |
| dana iscoff | San Francisco, CA | 2015-09-06 | i am strongly against water diversion |
| John Daly | Fair Oaks, CA | 2015-09-06 | Pulling more water out of the Delta is not a solution for Southern Cal to the drought. We need more storage and more innovated methods of desalination and water recovery. |
| Susan Grieder | Los Angeles, CA | 2015-09-06 | I'm signing because destroying our ecosystems for the sake of short term economic gains is foolish and immoral. We need to concentrate on living within our means and using our vast resources of creativity and intellect to come up with long term solutions. |
| Megan Ring | Concord, CA | 2015-09-06 | The delta is the center of the state. If it collapses, we all do. |
| Sarah Me | San Rafael, CA | 2015-09-06 | This plan is bad for the people and the land and will have many negative results. |
| Paul Palla | Greencastle, PA | 2015-09-06 | THIS IS A FOOLISH WASTE OF TAXPAYER MONEY! |

| Name | Location | Date | Comment |
|-----------------------------------|-------------------|------------|---|
| Catherine Heacox | New York, NY | 2015-09-06 | Don't destroy our natural resources for the short money. |
| Lil DeConsuelo Izquierdo-Lopez | Oakland, CA | 2015-09-06 | Is this project viable with the environment, economically and with the residents? |
| Joy Johnsen | Kirkland, WA | 2015-09-06 | The Delta Tunnels will seriously degrade the wetlands of the San Francisco Bay Delta, a nationally-important wetland. The State of California should not provide corporate welfare to agriculture at the permanent cost to the nation. It's time for growers to accept the climate is changing and they cannot grow water-intensive crops in a desert. |
| Craig McCulloch | Sacramento, CA | 2015-09-06 | I am signing because I am deeply concerned about the impact on the delta fishery caused by the tunnels. |
| Robert Martin | El Cajon, CA | 2015-09-06 | We need balanced sustainable solutions |
| Sarah Haavind | Hudson, MA | 2015-09-06 | Ag business is not about healthy eating it is about profits. People and the economy first. Not the 1% |
| Marisa Menicucci | Sunnyvale, CA | 2015-09-06 | I am opposed to corporations having their way with the environment that we all share, with no regard for sustainability. We should not be diverting water that is supposed to support vast natural ecosystems for the purpose of growing water intensive crops, during a drought!, that are then sent overseas. All Californians should be protecting our unique natural geography and its inherent ecosystems - especially our governor! |
| Ron Sullivan | Berkeley, CA | 2015-09-06 | This was a very BAD idea in the 70's, that we, collectively opposed and defeated in 1982, 32 years ago! But it is a 'zombie' coming back in revised, but NO Better of an idea now as it was back then! NO NO NO! |
| Gary Ostenberg | Walnut Creek, CA | 2015-09-06 | Its a water grab for corporate farmers. |
| lisa m | Monroe, NY | 2015-09-06 | Stupid choice. Don't mess with Mother Nature |
| Mary Derbick-Johnson | Elmwood Park, IL | 2015-09-06 | They want to take fresh water from the estuary to grow nuts? Forget it ! Native animals. including humans need it. |
| Jacob Grisham | Laguna Niguel, CA | 2015-09-06 | I fully support this petition because SoCal already receives unsustainable water supplies. Enough! |
| Elizabeth Snyder~Baldonado | Winston-Salem, NC | 2015-09-06 | I'm sick of rich & powerful bullies whose only reason to exist is MONEY. THEY WILL PAVE THE G-DAMN WORLD, IF WE JUST SIT ON OUR A**ES & LET THEM!!!! |
| C. Mead | Glenview, IL | 2015-09-06 | Protect the environment now!!! No Delta Tunnels! |
| Allison Simmons | West babylon, NY | 2015-09-06 | We need to protect our world. |
| Albert Berends | Granite Bay, CA | 2015-09-06 | Nor Cal's delta estuary does not have more water to give to So Cal. Our precious, unique Delta needs more fresh water outflow not less! Once it's destroyed there will be no turning back! Desalinization is the only way So Cal should be able to get more fresh water! |
| Allen Wheeland | Portland, OR | 2015-09-06 | Save the Bay area! |
| Conrad Rogers | Indian Wells, CA | 2015-09-06 | This project will ruin the Delta!! |
| John Belmont | Merriam, KS | 2015-09-06 | The water situation in the SF Bay Area is FAR too delicate to permit such a huge diversion of the Sacramento River. Let the San Juaquin farmers do without that water ... let California and the world do without the agi products that water would support. Get the nuts out of California. |

| Name | Location | Date | Comment |
|---------------------------|----------------------|------------|---|
| Vonis Moore | Lafayette, CA | 2015-09-06 | This plan will add no water. In fact, with climate change and less snow cap, there will be even less water in the Delta. Building the twin tunnels to send water into dryer areas will devastate Northern California farmers. It will destroy the natural beauty of the Delta and cause irreversible environmental harm. A similar plan, the "Peripheral Canal" has been proposed for decades and has been voted down by the people. Forcing such a project through against the will of the people is a crime. This is a wrong-headed solution to California's water problem. |
| Katherine batson-Caldwell | vacaville, CA | 2015-09-06 | The tunnels are NOT conducive to the health of the Calif Bay Delta. Tunnels are an expensive BAND-AID! This is FAR from a permanent solution. |
| D P | Sebastopol, CA | 2015-09-06 | I am sick of corporations and politicians destroying OUR ENVIRONMENT, and wasting our tax dollars on boondoggles. |
| William Duke | Concord, CA | 2015-09-06 | The tunnels will destroy the Delta - one of California's most valuable ecosystems and recreational waterways. There are alternatives to the tunnels, to include conservation and the elimination of for profit agriculture, that will save the Delta and cost less. |
| Penelope Thompson | San Jose, CA | 2015-09-06 | The delta is an important ecosystem. |
| Bartley Deason | Darby, MT | 2015-09-06 | Yet another very expensive "fix" that won't work. |

| Lisa Nguyen | Los Angeles, CA | 2015-09-06 | I want to make sure that our local economy welfare is sustainable. |
| John Self | Natalia, TX | 2015-09-06 | The problems that are created by over-use of available resources will not be justified in the long run or the greater good. |
| Todd Board | Glen Ellen, CA | 2015-09-06 | I'm signing because I want red-leaning central valley farmers who are massively subsidized by north state water to look in the mirror and cut off their own welfare! I want to stop exporting increasingly limited Cal water to the rest of the planet via corporate ag exports. Let's not do yet another sequel to Chinatown, i.e., the Owens Valley water raid. I'm signing because I'm exasperated with SoCal pols washing their cars several times a week! |
| Joan Crist | Hammond, IN | 2015-09-06 | Protest scarce water resources and a unique and precious ecosystem. |
| Barbara Dye | Mequon, WI | 2015-09-06 | The environment is our most important problem now and once we destroy it we can never go back. |
| Theresa Tyler | Brookings, OR | 2015-09-06 | The Bay Delta is one of the most beautiful places in California and it needs to be protected...ergo, it doesn't need tunnels! I am in total opposition to the Delta Tunnels; not only will they make things worse, they will negatively impact people, wildlife, and farmland. |
| Teresa Bryan | Louisville, KY | 2015-09-06 | I'm signing because I oppose short-sighted measures and support environmentally sound ones. Big Ag needs to re-examine its methods and over-reach. We all need to find better alternatives to massive systems overgrowth. |
| Robert Olsen | Bethel Island, CA | 2015-09-06 | Our water quality is getting worse every year. |
| joyce s | high point, NC | 2015-09-06 | ENOUGH with the "Water Grabs"... These are like the Land Grabs of the 19th century. |
| David Scatena | Stockton, CA | 2015-09-06 | I live near and fish & recreate in the Delta. I have seen the steady decline in the Delta since 1998 when they began their increases in water transported south into the aqueducts. These tunnels will only increase the rate of decline |

| Name | Location | Date | Comment |
|------------------|-------------------|------------|---|
| Craig Smith | Gilbert, AZ | 2015-09-06 | I am signing this because the priorities are all wrong. To take fresh potable water to grow products that are not essential to live on while overlooking other projects that directly help thirsty Californians is a travesty. People can survive just fine without the water intensive crops, but they cannot survive without water. |
| Deborah Elliot | Clarksburg, CA | 2015-09-06 | This is the wrong plan and will harm the largest estuary in the west. There are better water plans for California that will meet the needs of everyone rather than pushing the this massive project which will benefit a few. |
| Linda Hall | Discovery Bay, CA | 2015-09-06 | The tunnels will destroy the precious fresh water estuary in California. It will not fix the drought. We need storage and desalination. |
| marie grant | Pittsburg, CA | 2015-09-06 | This is a bad idea, another government boondoggle, a new way to benefit big political contributors at the general public's expense. It is a mistake and not in the best interests of the state of California. |
| Bryan bentley | Tracy, CA | 2015-09-06 | One of the worst plans I've heard . How about charge LA for the water we give them and limit the amount to them by half! Then we would not need to build the tunnels and we would have water. Also LA is extremely wasteful of water and new parks filled with water thirsty plants!? Cut them off. Save our delta. Keep our water here! Also instead of fining the people for infractions of water use since most of us use 80% less water already. .fine cities and parks that leave their water on all day and night letting it flood down the streets! I can go on and on but the people in charge of this issue (Politicians) have their head so far up their own asses they wouldn't be able to hear me anyway. |
| Carlyle Terry | Discovery Bay, CA | 2015-09-06 | I live in the Delta and appreciate its natural beauty. And the tunnels will not solve the water problem it will only increase the volume of water leaving the delta and destroying a natural habitats for many resident species in the delta. And the over all cost of building the tunnels will burden future generations with the debt. Which will probably be 5-10 times the initial cost estimate.. |
| Arlene Forward | Huntington, NY | 2015-09-06 | The reasons are well outlined. |
| Al Ruiz | Discovery Bay, CA | 2015-09-06 | I'm signing this petition because I strongly feel the tunnels plan would be devastating to the ecology and the economy in the Bay-Delta region nor enhance water sustainability for the future. |
| Edward Greene | Los Angeles, CA | 2015-09-06 | Water is so precious. There is a limit, however, to how much can be diverted away from where it replenishes the estuary. I don't know that answer. I am only signing on to raise greater awareness about the delta estuary. The actual amount of diverted water would have to be decided on by biologist and agricultural experts. I don't need to sign a petition when someone has brain surgery either. |
| wendy rosenfeld | n.hollywood, CA | 2015-09-06 | What are you thinking? STOP this NOW! How could you Jerry! |
| Gene Castleberry | Saint Marys, GA | 2015-09-06 | it is the right thing to do. |
| James Hall | Discovery Bay, CA | 2015-09-06 | This is a ridiculous use of funds. This should go to fixing Calif infrastructure (roads) or new tech to bring new water supplies to Ca such as storage and reverse osmosis, not switch and bait Delta water to south valley growers. |
| Don McClure | Half Moon Bay, CA | 2015-09-06 | The Delta Tunnels are a water grab, that is politically motivated, and the cost of implementation is not a good use of tax dollars. |

| Name | Location | Date | Comment |
|---------------------|--------------------------|------------|---|
| NANCY IMMEKEPPEL | Isleton, CA | 2015-09-06 | I oppose the twin tunnel project because water diverted away from the Delta only brings in salt water. This is s farming state and crops cannot be grown with salt water. Also, water rights holders in southern Calif are selling their water rights to other states and to Mexico. We need to keep the water from Northern California IN Northern California to support our growing population and farming. |
| Lynn Beckley | Forest City, IA | 2015-09-06 | Definitely OPPOSE this project |
| Jennifer Jicha | Reno, NV | 2015-09-06 | I'm signing this because this is obviously a bad idea. Why in the world would you put more of the environment in danger to solve a problem. It seems to me that a more permanent solution should be explored. You can't put a bandaid on a bullet wound so why would you do this? |
| Robert Ackerly | Discovery Bay, CA | 2015-09-07 | This latest renamed boondoggle produces not one drop of new water and just continues the theft of our most valuable natural resource by Southern California water barons. The same amount of money could build 75-100 reverse osmosis water plants along the state coastal areas that produce 50,000,000 gallons of drinkable water from the sea per plant! What am I missing? |
| LaVan Bock | Discovery Bay, CA | 2015-09-07 | This project does nothing we are very short of in the first place.hing to bring more water to California. It only redistributes w |
| Donald Turken | Cherry Hills Village, CO | 2015-09-07 | We NEED to learn within our means and STOP manipulating the planet for our own greed. We can take the pain in the meanwhile and expand alternatives rapidly and develop new technologies. We can do it. Now. |
| Raymond Gomberg | Discovery Bay, CA | 2015-09-07 | Experts have shown us that the project Will be more detremtal to the area than Solve a problem as stated by Jerry brown Buddies |
| Jeff Wallace | San Jose, CA | 2015-09-07 | The ecological impact of the tunnels will be irreversable. The farmers in the south are trying to turn desert into orange groves. That will never sustain. If the south wants water, get it from someware that doesn't kill off species and damage salmon reproduction. |
| William Vassar | Discovery Bay, CA | 2015-09-07 | to build the tunnels would be a certain death to the California Delta as we know it today, all of the fresh water wildlife would disappear |
| Nancy Affleck | Elko, NV | 2015-09-07 | Because I left my hart in the Bay Area . |
| Michael Klein | Akron, OH | 2015-09-07 | These tunnels appear to be destructive and unsustainable. |
| Jim Johnson | Isleton, CA | 2015-09-07 | I apposed any plan to take more fresh water out of the Delta water ways. |
| pete morabito | youngstown, OH | 2015-09-07 | Time to place the people ahead of the \$! |
| jeffery moreno | Vallejo, CA | 2015-09-07 | signing this petition because I do not agree with the proposed tunnels |
| Francesca Reitano | Sacramento, CA | 2015-09-07 | I don't believe the California water fix is right for California. Solving one problem by creating another one is insane. |
| Diane and Tom Mader | Walnut Creek, CA | 2015-09-07 | I want to protect our source of water, the environment, and wildlife. |

| Name | Location | Date | Comment |
|-----------------|-------------------|------------|---|
| Ted Gorzny | Idyllwild, CA | 2015-09-07 | We cannot magically create more water by digging tunnels under the delta. The water released into the delta is necessary to keep the delta alive. People have no right to destroy a vital resource like the Sacramento River Delta. If the only way our economy can survive is by growing then our economy is nothing but a cancer on the earth. I choose not to be part of a cancer. There are alternatives. People can live in harmony with the planet that sustains us. We do not have to destroy our home in the name of greed and profits. Greed must be treated like the crime it is. And we need to stop breeding like mindless rodents. Already we have more people than the earth can sustain. We don't have to be a mindless and greedy species. We can only survive by living in balance with the other species on this planet and using resources only as fast as they can be replaced or renewed. If we are honest we know this is true. We will perish if the web of life collapses. So no, don't take more water than the delta needs to survive. Our survival as a species depends on the survival of Earths web of life. We have to stop being a cancer. |
| Katey Migdal | Fonda, NY | 2015-09-07 | I'm signing this because there are far better ways to answer the water crisis. This sounds like a Big Business and corporate greed solution. |
| Doris gentz | Hackettstown, NJ | 2015-09-07 | we need to protect our ecology. |
| Trucia Quistarc | Wichita, KS | 2015-09-07 | Love needs to ascend above money-mind so that wisdom & prudence may create the policies we live by. |
| Bill Pease | Discovery Bay, CA | 2015-09-07 | The Tunnel plan is a giant Boondoggle set up to keep the Democrats in office with all of the union jobs. The union workers must pay union dues. Part of their dues goes to political donations. Also even more important removing the fresh water from the delta so far up north allows the ocean salt water to reach farther into the Delta destroying the natural delta environment. In addition you can not grow crops with salt water. |
| Harlan Moyer | Los Angeles, CA | 2015-09-07 | If we're oversubscribing the water we have got to stop. The weather is unpredictable at best. We can't spend resources we don't have! |
| Cynthia Spencer | Discovery Bay, CA | 2015-09-07 | I'm signing because the delta tunnels will destroy the delta and SF Bay due to diverting most of the clean water coming in to southern California agriculture. The fishing and farming in the delta communities will be virtually destroyed. |
| Lana Terry | Discovery Bay, CA | 2015-09-07 | I'm signing because it is not the will of the people, it will cause environmental damage, increases public health issues and will cause huge economic damage to the delta region. |
| N Kelley Chew | Discovery Bay, CA | 2015-09-07 | I live on the delta. I want it to stay as it is so my grandchildren can enjoy it as much as I do. |
| Lydia Jackson | Columbus, GA | 2015-09-07 | Protect the water e Ways. |
| Patrick Bradley | Rio Vista, CA | 2015-09-07 | This drought has shown us that there is not enough infrastructure to support the current population let alone keep the delta healthy. We don't need tunnels or trains. Who gets the water? North or South? |
| janann lewis | Chandler, AZ | 2015-09-07 | This plan will devastate the natural order of the Delta. Period! |
| Tim Waits | Clarksburg, CA | 2015-09-07 | Help save the Delta |

| Name | Location | Date | Comment |
|--------------------|-------------------|------------|--|
| Liz Cypert | Galt, CA | 2015-09-07 | We are California natives and are so concerned with what will happen to this great area of our. We live and love the Delta for so many reasons. Our family are boaters and fishermen that also enjoy all the produce that this area provides. We are terrified that the government is going to destroy all of this with the tunnels. It just doesn't make sense to us, where will our grapes, tomatoes, pears, asparagus and so much more come from? We'll need to import all of this from somewhere else, this is such a fertile valley. Please don't take all this away from us. |
| Mike Kuhlman | Sacramento, CA | 2015-09-07 | I don't want the Delta ruined!!! |
| Connie Skoog | Oakley, CA | 2015-09-07 | I'm signing this because it does NOTHING to solve CA water problems; the massive amount of money (look at the Bay Bridge overage) could be spent on recycling, building back ground water, tackling old allotment laws that form the foundation of this mess, and so on. The water that "flows out to sea" needs to do that or the environment will be devastated. The Delta is so vulnerable. |
| Kathy Cheer | Santa Cruz, CA | 2015-09-07 | All the arguments against make sense and the article was well written. |
| Gaye Kelly | Petaluma, CA | 2015-09-07 | Because it is just wrong!! |
| Jim DeRuchie | Oakley, CA | 2015-09-07 | I'm sighing because Jerry Brown is lying to the California public. Calling this a "Water Fix" for California when it is nothing more than a very expensive way to send the Delta's freshest water to his large contributors. |
| Elizabeth Cronbach | San Francisco, CA | 2015-09-07 | I want to save the Delta, not destroy it. |
| erino lucchesi | Danville, CA | 2015-09-07 | I spend about 90 days per year in Isleton Ca. |
| rise hancock | Discovery Bay, CA | 2015-09-07 | I have lived on the Delta for over 20 years. We boat, fish, live on the water. The Delta tunnels and associated proposals would turn numerous water communities into mud holes, property values would plummet. We have three highly accredited schools now in Discovery bay which would be adversely affected by a declining population. Destroying a large, growing community to profit a few individuals is not acceptable. |
| christine schmidt | Walnut Creek, CA | 2015-09-07 | After reading about the project and it's affect on the delta eco-system and the cost involved I do not believe it is in the best interests of the people of california to proceed without further public input and a vote! |
| George Wathen | Novato, CA | 2015-09-07 | I support the plan proposed by Solagra: Solar powered desalination in the west delta. |
| JEFFERY FISHER | Oakdale, CA | 2015-09-07 | It's a waste of money in comparison to other measures (ie. desalination plants)... |
| stewart wiley | Ripon, CA | 2015-09-07 | southern calif needs to invest in converting salt water to drinking and lawn watering supply |
| Susan Ludwig | Discovery Bay, CA | 2015-09-07 | I want to stop the water grab and save the Delta |
| Jordan Bodway | Syracuse, NY | 2015-09-07 | As humans of earth, it is our responsibility to be stewards of the land we so dearly rely on. The construction of the delta tunnel for water consumption is a selfish act of ignorance. |
| Renae Bredin | Brea, CA | 2015-09-07 | The tunnels are not a fix, they will destroy ecosystems for generations to come. Stop the madness. |
| Bryan Maynard | Isleton, CA | 2015-09-07 | I don't think it right to steal water from the Sacramento area to give it to the south seems like a bad idea |
| mary mcguire | Concord, CA | 2015-09-07 | This government has taken enough from the people. Leave our water alone. |
| Teresa Rankin | Torrance, CA | 2015-09-07 | I'm sick of policy that solves one problem while creating another and often bigger problem |

| Name | Location | Date | Comment |
|-------------------|--------------------|------------|---|

| Jack Galloway | Modesto, CA | 2015-09-07 | Keep our water. I love to fish the Delta and support the local community. |
| Matt Carlson | Valley Springs, CA | 2015-09-07 | I'm signing because it will ruin echo systems and human health. Stop this project! |
| Leslie Martinez | Lodi, CA | 2015-09-07 | Save On Corrupt Politics; Policies; Politicians, In-Humane Ethics, Standards. |
| Linda Medeiros | Greenbrae, CA | 2015-09-08 | A really bad idea |
| Neva Rowden | Hayward, CA | 2015-09-08 | We should not be supplying water to nut farmers when we are inn a drought! All of us need to conserve n now were going to ship what we do have instead of conserving for the people. |
| James Estrada | Elk Grove, CA | 2015-09-08 | I'm a fisherman |
| Tom Williams | Pittsburg, CA | 2015-09-08 | Because I also lived in Colorado and S. California is already taking water from the and now want more. This needs to stop we are ruining and killing our own planet. |
| Tj Seymour | Antioch, CA | 2015-09-08 | I'm signing because I don't want to see the delta destroyed |
| Martin Mortensen | Cameron Park, CA | 2015-09-08 | Take the water after the delta when it gets to the bay area naturally. Tunnels are un-necessary |
| Jerry Creech | Discovery Bay, CA | 2015-09-08 | Stop these tunnels because it will suck water from the Delta to Southern Cal and cause salt coming into the delta and destroying the balance of nature. Lack of fresh water will have negative effect on San Francisco Bay. I do not know how you can claim eminent domain for the benefit of exports. |
| Mary Lynn H. Lane | Concord, CA | 2015-09-08 | The Delta is a very special place that can not be replaced once destroyed. |
| Earla Kirkwood | Oakland, CA | 2015-09-08 | I'm signing because it is ludicrous to pump the delta dry, to impact not only the environment and the wildlife, but to take the water for Agra business who does little to save water, is just not right. We need to save the Delta, not decimate it. |
| Michael Chen | San Jose, CA | 2015-09-08 | I oppose this disasterous project as it affects the vast wildlife and the eventual destruction of our precious resource |
| Cathy Lazarewicz | Buffalo, NY | 2015-09-08 | I am concerned for my relatives who live near the Bay. Their environment's welfare is their welfare. |
| Rachel Olson | Ventura, CA | 2015-09-08 | I love animals and the environment and feel we should explore other options before doing something that could have MORE of a negative effect on our environment. |
| Lisa Steiger | Palmer, TX | 2015-09-08 | The Tunnels plan would be devastating to the ecology and economy |
| Clare Spensley | San Mateo, CA | 2015-09-08 | The tunnels would destroy the beautiful Sac. DELTA. STOP THE WASTE OF MONEY. Follow the slimy water wasters who are pushing this stupid plan. Push back on any plan that does not create any more water from new dams! |
| Steve Blackwell | Laguna Beach, CA | 2015-09-08 | I am signing because this is just wrong. We need water to stay in rivers and to go into the estuaries. Local projects that support local communities are good but this massive diversion project sounds bad. |
| ROBERT TEAGUE | Valencia, CA | 2015-09-08 | I also own a home in Discovery Bay and am aware of the negative impact the tunnels would have. I am also aware that much of the water that is to be diverted is supposedly going to almond farmers in middle California. Research shows that it takes 1 gallon of water to grow 1 almond. Moreover, the environmental impact of removing fresh water from the Delta and allowing salt water intrusion would be unacceptable. Why doesn't California build de-salinization plants instead of this tunnel project and the high speed train that no one cares about. |

Petition 1 - Restore the Delta (Form 5 generator)

| Name | Location | Date | Comment |
|---------------------------|-------------------|------------|---|
| Mary Foltz | Livermore, CA | 2015-09-08 | Stop the "Peripheral Canal"! This endangers Northern California ecosystems dependent on existing water supplies. We don't need more water greedy trees. Farmers need to adapt to the changing climate and plant accordingly |
| timothy gardner | Rocklin, CA | 2015-09-08 | It seems as if is tilted to the people who have more say than those who don't. |
| Sharon Olsen | La Crescenta, CA | 2015-09-08 | This is ludicrous |
| Jonathan S. VanderWaarden | Bowling Green, OH | 2015-09-08 | It is imperative we protect our environment from industrial Eco rapists' |
| Josho Somine | Occidental, CA | 2015-09-08 | Damaging regional ecologies to avoid systemic water conservation measures is an unsustainable and unacceptable strategy! |
| Anthony Ela Oropeza | Salinas, CA | 2015-09-08 | The project is not ecologically nor economically sound. The diversion of critical water from a magnificent echo system to grow water intensive crops that are exported does not make any sense at all. Please consider what is best for our environment and local economy. Submitted respectfully. |
| Garrett Kunz | Mound, MN | 2015-09-08 | Financial gains need to stop taking president over environmental and public health concerns. |
| Susan Jones cota | Eureka, CA | 2015-09-08 | This is only a band-aid approach , and will do more damage to our environment in the future. This fast fix is no fix. I say noway! |
| John Marshall | Fresno, CA | 2015-09-08 | Obviously against!! Save the delta....reduce salt water intrusion!! |
| ConniePwll Tyler | Berkeley, CA | 2015-09-08 | Just another way for humans to destroy the habitats of the rest of the inhabitants of earth. |
| Captain Anderson | Isleton, CA | 2015-09-08 | Instead of tunnels, there should be permanent barriers at the Benicia Bridge. These would have large gates that could be opened or closed on demand, depending on conditions and during emergencies. This solve ALL of the current and foreseen problems and totally eliminate the need for the Peripheral Tunnels and/or canals. |
| Robert Michel | Alamo, CA | 2015-09-08 | The tunnels are not the answer and a HUGE waste of money. We voted it down 35 years ago - why are we doing it again. Spend the money on desal plants!!! |
| Rachel Davies | Big Sur, CA | 2015-09-08 | environment, public health and economic concerns. |
| B ob Craig | Concord, CA | 2015-09-08 | I'm signing because I live in the East Bay. 20 minutes from the delta. Los Angeles is a water sucking community, and they will learn nothing about conserving if they can steal water from Northern California everytime they run low (I was born in Southern Ca. , by the way). farming is a way of life for many in central Ca. and water is best used there and in the north to prevent us from drying up like L.A.! thanks. |
| Lawrence Thompson | Livermore, CA | 2015-09-08 | This anti-enviroment project is a dreadful example of abuse of power. |
| Gesa Engel | Los Angeles, CA | 2015-09-08 | I hope with all my heart that our Governor is able to act more responsible regarding the interest of the Californian residents. Signing for the Tunnel means turning back to the old, short term and resources wasting habits, which created this disastrous water situation. It would be on time to act visionary, like we, the Californian residents, expect from our Governor! |
| Vincent Vargas | Discovery Bay, CA | 2015-09-08 | Federal & State elected officials have been bought by corporate farm interests who consume 80% of water. It will destroy the Delta & family farms by condemning properties for tunnel right of way. The tunnels do not create more water -- just accelerate the draining of the resource. |
| Laurie Langton | Sonoma, CA | 2015-09-08 | Our bays and waterways are crucial for maintaining habitat and buffers for the coastal areas. |

| Name | Location | Date | Comment |
|------------------|-----------------------|------------|--|
| Tom Michel | Pacific Palisades, CA | 2015-09-08 | I have a home on the Sacramento Delta and I know what these tunnels would do to our precious land- destroy it! |
| Sean Murphy | Saratoga, CA | 2015-09-08 | The proposed tunnel project will not provide any additional water for our ever expanding population. I feel we should invest our time,energy and money in identifying new sources of water. Storm water reclamation and large scale recycling come to mind |
| Liz Anderson | Novato, CA | 2015-09-08 | I'm signing because the Delta is very important to me personally, and to our environment. |
| Edwin Coats Jr | Discovery Bay, CA | 2015-09-08 | To save the Delta, a very special place |
| Larry Dennis | Union City, CA | 2015-09-08 | This is the most egregious, stupid, small-minded action ever attempted by this states' Turd Polishers - DON'T BET YOUR LIVES! |
| Makyla Wilson | Vacaville, CA | 2015-09-08 | I'm signing because I want to save the fish! |
| Michael McCleery | Discovery Bay, CA | 2015-09-08 | If operated within salinity ground rules, the tunnels provide NO additional water to the State. UOP economist, Dr. Michael, has shown that the costs exceed the benefits. No levee failures have been caused by an earthquake, not even a magnitude 7.0 simulated by UCLA. Let's get real and start installing desalination. |
| anita ackerman | corona, CA | 2015-09-08 | Leave it aloneii |
| Jon Jordan | Camarillo, CA | 2015-09-08 | Do not agree with Jerry Browns idea and plan |
| Daniel Sarhad | San Jose, CA | 2015-09-08 | The state should be using the funds toward desalinization rather than building tunnels and pumps. |
| David Veatch | Discovery Bay, CA | 2015-09-08 | I am signing because we live on water and it is recreational for us. These tunnels will bring in more salt water which we do not want. Salt water brings in mammals we do not want. It will affect fishing, skiing and all recreational sports. Please reconsider your actions. |
| Gloria Bram | Garden Grove, CA | 2015-09-08 | Water is a limited resource. Any attempt to divert this particular supply would have devastating effects on the economy & ecology of more than the San Francisco delta area. We told you 33 years ago that we didn't want it. Please don't bring it up again. |
| Thomas Newell | Discovery Bay, CA | 2015-09-09 | We are shocked that the Delta is being treated so poorly. The fish are almost gone, and now the boating and fishing will go the same way. We retired out here from the Bay Area 18 years ago and our property will be worthless and we won't be able to afford to move elsewhere. We used to vote for Gov Brown! So sorry we did now! NO TUNNELS! |
| Mary Ann Hannon | Livermore, CA | 2015-09-09 | I do not support CA agriculture that is as water intensive as almonds and pistachios, especially when they are being grown in an inappropriate area. |
| Gordon Rehm | San Anselmo, CA | 2015-09-09 | Obviously a destructive bad idea for all of CA! |
| Melvin Takahashi | Rocklin, CA | 2015-09-09 | I can't believe that anyone can say that removing more of the delta's water will somehow improve the delta. I know that farmers need water to produce our food but not at the expense of destroying the source of our water to drink, to continue to support our fisheries and all the jobs this fisheries support. I and my son and grand daughters spend many hours fishing in the delta for stripers, sturgeon and salmon and would like to continue. |
| Ed Turman | Discovery Bay, CA | 2015-09-09 | We need to save our back yards which is the Delta |

| Name | Location | Date | Comment |
|-----------------------|-------------------|------------|--|
| Timothy Davis | Livermore, CA | 2015-09-09 | I'm opposed because of the corporate ag business water grab for profits of exported produce. If you think this will satisfy their thirst, think again. Look at the devastating effects they've cause by over pumping from the water tables. As the ground settles, so goes our water bank and when that runs dry, they'll be looking for more from the delta. We've seen it before, over pumping water from the delta caused the salmon population to collapse in 2005-07. Stop the tunnels and the corporate ag business from destroying our livelihood |
| Karen Rogers | Atascadero, CA | 2015-09-09 | Work smarter, not harder to formulate a viable solution to our water crisis* *except it's not a crisis, it's actually California normal! We can do better and once a wild place is destroyed, there's no getting it back. |
| Timothy Crofton | fremont, CA | 2015-09-09 | Don't give away our water! |
| Carolyn Trupti Israel | Santa Cruz, CA | 2015-09-09 | Water is our core, primary resource. Earth, trees, food as well as people die quickly without it, and die forever. Big Ag does NOT use it wisely, safely and should not be able to destroy the majority of our water. Small farms may be our best idea, with wise use of water (permaculture, etc.) |
| Derek Gray | Lafayette, CA | 2015-09-09 | I am signing Because I am Fisherman, love animals and the Delta and would hate to see anymore water pumped out of the Delta |
| Michael Morgan | Turlock, CA | 2015-09-09 | It's a bit confusing to me that Gov. Brown would effect the environment so adversely. When you have a HUGE water supply to the west of SF. All Gov. Brown needs to do is contact the Dept of Navy; they have been conducting the art desalination for years. |
| RL Maiden | Walnut Grove, CA | 2015-09-09 | I live in the Delta. |
| Mavis Brown | Fremont, CA | 2015-09-09 | I'm signing because these tunnels would change the fluid dynamics of the Delta and make it less healthy and leave less fresh water to hold back the salt water from the S.F. Bay. |
| Cheryl Hanks-Hicks | Springfield, OR | 2015-09-09 | Water is everyone's issue. With all the droughts we need to protect water. |
| Nelson Graburn | Berkeley, CA | 2015-09-09 | It is unnecessary and dangerous for wildlife. |
| Tina Simonsen | Herlev, Denmark | 2015-09-09 | I grew up in Sacramento. I cannot imagine California without the delta. We must protect not destroy wildlife! Please don't do this! Act responsibly. |
| Iuann marchillo | glendora, CA | 2015-09-09 | i swear i think brown is mentally ill. he hasnt made any sense since he started his governorship. i oppose this, my family opposes this, so go find something else to do and leave the environment to people who know what they are doing |
| Ted Iijima | Castro Valley, CA | 2015-09-09 | The New tunnels will further ruin the delta ecosystem while doing nothing to conserve water throughout the state. It encourages poor water conservation practices. |
| Lisa Lenchanko | Livermore, CA | 2015-09-09 | So Cal needs to be responsible for their own waters. I was there in May and didn't see efforts of conservation while many in northern and central CA have been doing their part. It also takesaway from allowing fishing in our Delta. I know we are nationally known, if not more and brings business to the local areas. Please do not allow this to happen!!!!!! NO on the tunnels! |
| Dr. gary E. Lewis | Discovery Bay, CA | 2015-09-09 | The Delta Tunnels is a really bad concept. the cost \$51 Billion would be better spent on water storage in southern Cal ifornia. |

| Name | Location | Date | Comment |
|---------------------|----------------------|------------|---|
| Shirley York-Bassel | Oakland, CA | 2015-09-09 | This is just the latest of the same old water grab to supply the southern part of the state. Time to think smarter and find a way that does not destroy valuable water resources as they exist now. How about less pools and smaller homes? and industry requirements on water use that are actually tracked and supported. |
| Ron Stein | Rancho Cucamonga, CA | 2015-09-09 | I 100% fully support doing whatever it takes to RETAIN THE DELTA! |
| Richard Schneider | Oakland, CA | 2015-09-09 | This project would cause unacceptable impacts on the SF Bay - Delta region. It would induce continued, excessive population growth in Southern California as well as facilitate ongoing agricultural impacts on the western side of the San Joaquin Valley where such agriculture is inappropriate and unsustainable. |
| les hulett | Sacramento, CA | 2015-09-09 | more dams should be built instead of draining the delta and destroying a fragile ego system like the delta. How many times has gov brown nose brown gone fishing or hunting? That is the problem with politicians . They could care less about your views. |
| Derrick Bonilla | San Pablo, CA | 2015-09-09 | The negatives outweigh the positives in this situation. We need to preserve the San Francisco Bay-Delta. |
| robert Bailey | Walnut Creek, CA | 2015-09-09 | I am so disappointed in the politics that they would take more fresh water from the delta and send it south. the delta is a major part of my life and I cant believe this is for the better good of the state. Yes, more voters want it because they live south, but it will increase the salinity of the delta. My lawn is gone, we have dryscape land scaping, I dont want a salty delta. |
| Jesse Vann III | McClellan Park, CA | 2015-09-09 | You will be killing the wet lands. |
| Clay Olson | Santa Cruz, CA | 2015-09-09 | In case you don't know: these tunnels will have the capacity to completely remove all the water from the Sacramento River. |
| Leonard Cox | Santa Rosa, CA | 2015-09-09 | The tunnels will kill the Delta! |
| Mike Morris | Newhall, CA | 2015-09-09 | I'm so tired of politicians forcing their agendas on the people of California for personal gain! |
| don phillips | Pinole, CA | 2015-09-09 | I want my voice and the voice of California voters to be heard and listened to. Northern California is doing everything possible to conserve water and save the delta and the middle of the state is sinking 2 inches a month due to mismanagement and the permanent destruction of the fragile aquifers. Please hear our pleas and stop the tunnels, save the delta. |
| ALAN PARENTI | BRENTWOOD, CA | 2015-09-09 | keep our delta and fisheries intact |
| Russ Smith | Grass Valley, CA | 2015-09-09 | Save local farms and fish |
| Maree Martin | Modesto, CA | 2015-09-09 | I'm signing because we need the delta water for the wildlife and environment of the delta region. |
| Patricia Smith | Manteca, CA | 2015-09-09 | I live on an island on Old River |
| Kat Stevens | Fairfax, CA | 2015-09-09 | We need to stop destroying our ecosystem for temporary fixes - it just passes the problem on to the future while giving little incentive to finding a path to long term sustainability. |
| David Lieberenz | Livermore, CA | 2015-09-09 | Gov Brown please stop wreaking the environment. This is not a good long-term solution. |
| Arthur Goodrich | Sebastopol, CA | 2015-09-10 | Need to save the Delta. |
| Patricia Detally | Mount Shasta, CA | 2015-09-10 | It. Will destroy the precious wildlife,, |
| Glenda Park | Danville, CA | 2015-09-10 | Tunnels are an economic & ecological disaster! Let SoCal build a desalination plant to get their own water -- there is plenty of government land along the shore at Camp Pendleton. |

| Name | Location | Date | Comment |
|--------------------------------|-------------------|------------|--|
| Sandra Julee Starkey | Sacramento, CA | 2015-09-10 | This an outrage and a travesty! This is being crammed down the throats of Californians, at huge cost and to the unreparable detriment of the Sacramento Delta and the San Francisco Bay. STOP IT Governor Brown! We don't want this project! |
| Jo Mitchell | Copperopolis, CA | 2015-09-10 | The tunnels will ruin the delta and wildlife |
| Diana Madden | Sunol, CA | 2015-09-10 | i oppose exporting more water, the delta should be restored to promote wildlife and reduce salinity. Central Valley farms need to practice efficient farming methods, I have seen midday, overhead sprinklers in orange groves, this is tragic waste of a resource fish and the sf bay need. |
| Jeanne McCormack | Rio Vista, CA | 2015-09-10 | The "Water Fix" is a corrupt, undemocratic means of helping cronies in the south and ignoring the real water needs of this state. |
| Lori Ward | Sacramento, CA | 2015-09-10 | I'm signing because this tunnel project is an environmental nightmare. |
| Cathy Hamlin | Modesto, CA | 2015-09-10 | Stop the destruction of the environment! Greed is vile... |
| Yolanda Irma Balboa Villanueva | Los Angeles, CA | 2015-09-10 | Amo la vida |
| Rhonda Phillips | Tracy, CA | 2015-09-10 | I love the delta it should be preserved not raped of all its nature. Dont do the tunnels please. |
| Nancy Cotter | Avondale, PA | 2015-09-10 | This is a short-sighted project that only serves a few narrow interests and parties. It does not serve the public nor the fragile environment. It is wrong on every level; it ignores science, current best practices for sustainability, and the fact that taxpayers will be harmed, not helped by this water diversion plan. Benefits will go only to big agribusiness, who already receive water diversions, in order to protect their profits. |
| Mary All | Oakley, CA | 2015-09-10 | Our delta is a fragile ecosystem and the tunnels will not only impact that system they will fuel the demand to SoCal for our precious resource. |
| scott lewis | Antioch, CA | 2015-09-10 | I am signing to express my strong opposition to the Delta Tunnels plan |
| Paul Kelly | Brentwood, CA | 2015-09-10 | I am an avid user of the Delta and see already the damage caused by sending water to S. Cal. |
| Dan Nichols | Los Angeles, CA | 2015-09-10 | Because I'm sick of Governor Brown's destructive and wasteful policies. Enough is enough! |
| Anna Swenson | Clarksburg, CA | 2015-09-10 | The Ca Delta is a precious resource that should not be forsaken by the Governor to support corp AG in Central Calif or for further development. A Comprehensive plan needs to be adopted that focused more of the health of the estuary and less on conveyance south. We need to be sending out surplus water to the Tulare Lake Basin, so farmers in the south will have access to water when THEY need it-not just when it flows. |
| Joseph Rizzi | Benicia, CA | 2015-09-10 | Benicia salinity gates is millions not billions, take months not 15 years to implement and the salinity gate a thousand times more environmentally friendly will supplying CA with trillions of more water and allows more water to be kept in existing reservoirs. |
| David Rossi | Roseville, CA | 2015-09-10 | In my view the mega tunnels is far from any creative thinking on the part of our elected officials. The anticipated capital for the project I believe would be better utilized on California aging infrastructure. |
| Karen Cunningham | Clayton, CA | 2015-09-10 | Thousands of acres of prime farmland as well as wildlife and fish habitat will be destroyed. The CA WATER FIX /TUNNEL PLAN is a mass homicide of the Delta. Once dead cannot be brought back. |
| Ralph Rowland | Bethel Island, CA | 2015-09-10 | I do not want to see the Delta destroyed by this way too costly plan! |

| Name | Location | Date | Comment |
|------------------|---------------------|------------|--|
| Eric Jensen | Discovery Bay, CA | 2015-09-10 | The tunnels produce no more water, are useless in drought and in heavy rain years which = only 4 out of ten years that it works. Desalination works any time and any place you need it and it costs less than the tunnels that can destroy the Delta |
| Elizabeth Merwin | CLarksburg, CA | 2015-09-10 | I'm signing because I think family farms are worth saving, and there are many, many farm families in the delta that depend on the water that is here. |
| Tim Taylor | Discovery Bay, CA | 2015-09-10 | I do not believe that the Tunnels are the right thing, they won't protect the Delta and because the cost of the project is totally unnecessary. |
| Flo Samuels | Hayward, CA | 2015-09-10 | I understand Southern Cals need for water, my son lives there. But once the fish and other affected species are gone, they are gone. We need Government to look at a different approach. |
| Ruth Yamamoto | San Francisco, CA | 2015-09-10 | Desalinate for extra fresh water instead. |
| Ryan Elliot | Courtland, CA | 2015-09-11 | Delta farmer and resident and I f***** hate anything to do with this water grab or any of jerry Browns politics. Don't plant your crops in a glorified desert California. |
| Griffin Orr | Long Beach, CA | 2015-09-11 | We need to stop things like this! |
| Jeremiah George | Manhattan Beach, CA | 2015-09-11 | This is the wrong approach to the water woes of the region. |
| jody mazzarella | bethel island, CA | 2015-09-11 | I do not want to see any destruction of the Delta that this tunnel(s) will do. The fish and ecosystem are dying because of the current water diversion which must be stopped. |
| Dianna Rowland | Walnut Creek, CA | 2015-09-11 | The California Delta is an amazing place! It supports fish, it's and other wildlife. An evaluation of priorities needs to take place! Focus on the environment and stop the nonsense of the tunnels! |
| Connie Stanley | Sunnyvale, CA | 2015-09-11 | I live in the Bay Area. Diverting water away from the Delta will only send Northern California's precious water south to an arid Southern California ruining the Bay in the process. Gov. Brown wants a legacy project? This will give him one. The destruction of one of nature's most delicately balanced ecosystems. |
| Scott Van Tyle | Pacific Grove, CA | 2015-09-11 | It is outrageous that the Brown administration is insisting this is a good idea. It is a disaster in slow motion and will ensure continued species losses and Delta habitat degradation. The sound we hear is the sound of our coveted NorCal environmental issues being flushed down the toilet to ensure green golf courses in SloCal with the usual odd suspects making decietful boatloads of cash. This is a sick joke and must be opposed by all right-thinking sentiments. I hope this achieves zero. |
| ron hubbard | Encinitas, CA | 2015-09-11 | Im signing this petition because there are better ways to keep our water in California |
| kristina laskar | Alderpoint, CA | 2015-09-11 | For ONE: this is not the solution!!!! This has many backlashes that people may not see... The fish, the farms, the land, everything!!! Everything is as is because that is how nature wants it. We need to be innovative here. This is not innovation. This is trying to do something that is already being done and not working in other places... |
| jamie bolt | Bethel Island, CA | 2015-09-11 | It's insane to think that the "taking" of the natural water flows through the historically delicate delta could in any way be a good idea. The ecology of the entire region depends on these flows. The current quantities of water already taken south via the canal are all that can be safely allocated. NOT MORE! |
| Frances Ladd | Downey, CA | 2015-09-11 | I do not believe this is good for the environment |
| Robert Clarke | Encinitas, CA | 2015-09-11 | the available projects to enhance water supply that would not remove more water from the delta. And also supply local jobs. |

| Name | Location | Date | Comment |
|------------------|--------------------|------------|--|
| Mary Handford | Vista, CA | 2015-09-11 | Mr Brown, you know this is wrong. Please stop abusing your power and do something good for the people of this state. |
| Rhiannon Grieved | Burbank, CA | 2015-09-11 | I'm a resident of Southern California, and even though we are experiencing a drought, we shouldn't just take water from somewhere, we can find a better solution |
| Kane Kolbrak | Miranda, CA | 2015-09-11 | To stop the tunnels from ruining our lakes |
| Brian Bothman | Scotts Valley, CA | 2015-09-11 | More dams need to be built. Not tunnels or High (not) Speed Rail |
| Robin Murphy | Clarksburg, CA | 2015-09-11 | There are only two estuaries left. We have to protect it! |
| Eleanor Levine | Los Angeles, CA | 2015-09-11 | I am not in favor of anything that will further ruin our glorious state. |
| Ann Erickson | Monte Rio, CA | 2015-09-11 | I care about the Delta ecosystem. |
| Roy Heavilin | Fremont, CA | 2015-09-11 | This is 'welfare for the rich' program using TAX money to build infrastructure, and diverting water that is need down stream from the intake point for benefit a few For-Profit Agri-businesses. |
| Christian Lemler | Livermore, CA | 2015-09-11 | I'm signing because I oppose the project and the damage to the Delta it would cause |
| Shannon Lewis | Clarksburg, CA | 2015-09-11 | I live in the delta and have researched the inland deltas of which there are only 2 in the world! The other is not in North America ... so I cannot believe that anyone would do anything to jeopardize a natural wonder like this. |
| Juwan Ephrim | Los Angeles, CA | 2015-09-11 | I am against the inconsiderable action that the Governor is planning to do. This idea may be beneficial to the residents of the Gov. but what about the people of which he plans to take such a valuable resource from!? The fact that there's a danger to the environment we are trying to preserve is why I sign this and want to help people realize that this is more dangerous than it seems. |
| Teresa Faught | Lodi, CA | 2015-09-11 | To maintain The health of the Delta Waterway. |
| Kerri Schnetz | Georgetown, CA | 2015-09-11 | We do not need this |
| Kathleen Kessler | Citrus Heights, CA | 2015-09-11 | I oppose the tunnels and believe they will do irreparable damage to the ecosystem in the California Delta. |
| Robert Gray | Pleasanton, CA | 2015-09-11 | This tunnel plan needs to stop because it will be devastating to the Bay-Delta estuary. |
| Sandra Delano | Bethel Island, CA | 2015-09-11 | We need the water here I believe Southers Calif can be creative and get water there |
| Barbara Bice | Citrus Heights, CA | 2015-09-11 | I'm signing because I believe that the San Francisco Bay-Delta's ego system is more important than big AG profits! |
| Rachel Frame | Sacramento, CA | 2015-09-11 | The Delta tunnels will not benefit the Delta it will only benefit Governor Brown and his agenda. The whole project is a waste of time, money, and a precious ecosystem we can't afford to lose. |
| gilbert orozco | Antioch, CA | 2015-09-11 | The Delta is already in trouble....bad idea. |
| Christopher Imm | San Francisco, CA | 2015-09-11 | Don't make these kind of short-sighted and disruptive policy decisions. As Americans, we MUST be more gentle and respectful of our environment, or we will ruin it forever. |
| Linda Snyder | Discovery Bay, CA | 2015-09-12 | Please don't destroy our delta--it is vital to the health of SF Bay and California |
| Susan Gaines | San Pablo, CA | 2015-09-12 | I'm signing because the tunnels will ruin the Delta and SF Bay. There are other solutions such as water storage at Tulare Lake with existing infrastructure. If there is no rain why put in tunnels and take more water from the Delta destroying farmer land that is fertile not to the farmers in a desert. |

| Name | Location | Date | Comment |
|------------------|---------------------|------------|---|
| Wanda Sarkissian | Discovery Bay, CA | 2015-09-12 | I oppose the building of the delta tunnels! |
| Tom Ehmen | Livermore, CA | 2015-09-12 | These proposed tunnels will destroy the delta system. |
| Raymond Thomas | Belen, NM, NM | 2015-09-12 | keep all the liberals in office. perhaps some day the people of California may wake up and find that conservatives may work better for their state to get things done for the citizens. i can only hope that the right thing will be done for the citizens. good luck. |
| Landon Schadel | West Sacramento, CA | 2015-09-12 | I oppose the Delta Tunnel project. |
| David Bekowies | Benicia, CA | 2015-09-12 | I'm signing because we have got to stop making the little people pay for the "liberty" of the powerful few. |
| Brenda Greehling | Madison, WI | 2015-09-12 | I have visited the delta as a tourist. |
| April Ford | Sacramento, CA | 2015-09-12 | I value the lives of all the beings who are not human for whom the Delta waterways are home. |
| Viola Montano | La Puente, CA | 2015-09-12 | I care about animals |
| renee thompson | Arcata, CA | 2015-09-12 | I love the San Francisco Bay as is. Please do not compromise the ecology of the Bay. Healthy fish and migrating waterfowl are more important to me than supporting almond and pistachio farms. Instead invest in urban and rural projects that could enhance water sustainability. Leave the bay and nature alone! |
| Blake Ormsby | Alameda, CA | 2015-09-12 | Don't ruin my delta assholes |
| Mike Oneill | Anchorage, AK | 2015-09-12 | I care about planet friendly and people friendly businesses activities programs every day living |
| Karryl Turney | Los Gatos, CA | 2015-09-12 | The Tunnels would be devastating to the ecology and economy of SF Bay-Delta region. |
| daniel lint | Redding, CA | 2015-09-13 | So, you're going to use taxpayer dollars to destroy the ecosystem, irrigate the desert, and keep palm springs golf courses green. Are you out of your damned minds?! Why don't you all buy the stolen water from nestle and PepsiCo by the bottle, asses! |
| Tim O'Reilly | Stockton, CA | 2015-09-13 | I understand that Gov. Brown wants to protect all of California's water needs but we need the water that our delta provides our farmers, well's and Aquifers to be sure that we can sustain our crops and the jobs that are needed to get them to market, I hate to use the term dog eat dog but that's what it comes down to Mr Governor. I say a hardy and resounding "NO" to the pipeline and I truly believe my friends and neighbors alike will agree with me. |
| Anabel Crouch | Elk Grove, CA | 2015-09-13 | I believe this is the right thing to do. We cannot allow the tunnel project to happen. We have to protect the survival of the Delta. |
| RONALD MILNER | ELK GROVE, CA | 2015-09-13 | I love the delta, i fish every weekend and enjoy the freedom it gives me. The beauty of the delta is incredible. Please don't take this away from me |
| Sara Neal | Antioch, CA | 2015-09-13 | The tunnels will ruin our marine life! |
| Jan Warren | Walnut Creek, CA | 2015-09-14 | The Delta belongs to the people, not the corporations or the Governor. We need to save the Delta not kill it. |
| Gay Wold | Discovery Bay, CA | 2015-09-14 | I am signing because with the tunnels you will ruin the Delta and all that it offers to the waterfowl and fishing industry. Stop stripping the Delta of our recreational arena and the nearby farming lands and allowing the salinity to invade our fresh water. |
| Dale Welin | Discovery Bay, CA | 2015-09-14 | I oppose the tunnel project for all the right reasons, too much money, no gain for water, many issues with the environment, etc. |

| Name | Location | Date | Comment |
|---------------------------|---------------------|------------|---|
| ben lentz | Cottonwood, CA | 2015-09-14 | taking water from the delta has been a bad move in past history and more water taken will be the end of the delta as we know it tell old man brown to get some morals and quit trying to destroy california |
| Robert Range | Pleasanton, CA | 2015-09-14 | This is not needed. It will ruin the eco-system of the Delta. Use the money to build desalinization plants instead. |
| Dawn Gagnon | West Sacramento, CA | 2015-09-14 | This isn't a fix and will cause more damage to our farmlands and eco-system. |
| Aimee Roesel | Juneau, AK | 2015-09-14 | A concerned person. |
| Alice Retzinger | Sacramento, CA | 2015-09-14 | It is well past time for ALL of California to address our water issues - where are the needed reservoirs in Southern California that would save the water THEY get? Where are THEIR restrictions to water waste? Where are THEIR appropriate landscape and watering plans? Where are THEIR solutions to live within what is essentially a desert environment? Every Californian needs to be on board - North & South - ready to do NOW what will provide permanent solutions for living wisely within the local environment. If you live in a desert environment, find solutions that work in your own space without creating desert where none exists now. |
| Daniel Haffner | Orangevale, CA | 2015-09-14 | It is wrong!!!! |
| Candie Davidson-Goldbronn | West Hollywood, CA | 2015-09-15 | I'm signing this because I grew up around the Delta and it is truly amazing place for wildlife. |
| Rebecca Talley | Antioch, CA | 2015-09-15 | I'm signing because I oppose the Delta Tunnels. |
| Luis Romero | Vallejo, CA | 2015-09-15 | We need the water too. |
| rey vargas | stockton, CA | 2015-09-15 | I am signing this petition because its time to say no to big ag and political interests. Their "Riches" mean nothing. This tunnel will destroy an ecosystem, and like a string of dominoes many other systems will fail. Take a lesson from history. You cant fix illness with blood letting, and that's exactly what we have, a very sick nation. |
| Melissa Sweet | Irvine, CA | 2015-09-15 | We remember the Peripheral Canal and this is no different unless it's a worse idea than before. Until development is significantly slowed in California, don't ask us to foot the bill for massive projects or conserve more than the 60% of water use our family has saved. Citizens here voted decades ago to build a world-class water system and have taxed ourselves for decades to pay for it. But new developments get the same water without strict conservation requirements and without the investment in water the rest of us paid for. Enough already! |
| Marion Snow | San Rafael, CA | 2015-09-15 | We need to keep our water here for needs, like fires and drinking. |
| Martha Nulk | Antioch, CA | 2015-09-15 | I live in the Delta and Antioch and the surrounding area not only depends on it for drinking water but for local and central California farmers need the water to grow the food that we all eat. |
| DENISE BELCHER | antioch, CA | 2015-09-15 | I have lived in Antioch for thirty years. The delta is a part of the history of the towns along the water ways. Creates a sustainable habitat for all types of animals, fish, waterfowl as well as others. We have done enough damage to these wildlife sanctuaries. |
| Alfred Perio | Tracy, CA | 2015-09-15 | Eco reasons. Wildlife |
| Tim Sloane | San Francisco, CA | 2015-09-15 | The Tunnels will destroy valuable salmon habitat and wreak havoc on California and Oregon's commercial fisheries |

| Name | Location | Date | Comment |
|-------------------------|-------------------|------------|--|
| Tim Wong | Santa rosa, CA | 2015-09-15 | I strongly oppose the tunnels and the environmental devastation it will cause to the delta ecosystem, and salmon runs . My family depends on the Salmon . I am a commercial fisherman as well as a charter boat captain . I think it is a crime to build these tunnels to supply water to farm in the desert . There is no price you can put on the environment and it should never be sold out. This is a bad idea all around and wrong in so many different ways ! |
| Jeff vizgart | Santa Rosa, CA | 2015-09-15 | Environmental awareness and conservation are what I believe in. |
| Steve Josue | isleton, CA | 2015-09-15 | The Delta is my home and this will be DEVASTATING, all for Jerry Browns fat-cat lobbyists in Big-AG down in Central CA and SOCAL!! Where the HELL are all the protesters now?!?! |
| gretchen tofflemire | Antioch, CA | 2015-09-15 | I live on the Delta and I want to prevent the Delta Ecosystem from being destroyed. |
| leslie sandau | Brentwood, CA | 2015-09-15 | So Cal doesn't need our water and the tunnels will ruin the local eco-systems |
| Mariella De La Quintana | Elk Grove, CA | 2015-09-15 | It's the right thing to do. Save the a Delta. |
| John Pahule | Antioch, CA | 2015-09-15 | Those tunnels would ruin the Delta |
| Susan Wallace | Rocklin, CA | 2015-09-15 | This will destroy the Delta and local communities, hurt native species and - for what? So a few people can make a lot of money growing almond trees |
| Barbara Schmidt | San Andreas, CA | 2015-09-15 | The Delta has been farmed for over a hundred years and continues to be rich farmland. The Tunnels would take water from the richest farm land in the state/country & shipping it south were after a few years the soil turns saline & can't grow most things. |
| Rick Coster | Brentwood, CA | 2015-09-15 | Our lives depend on the delta and what your planning is going to destroy our water supply, the wildlife habitat and our farm land. On top of that spend millions we can't afford. |
| Gregory Healy | Livermore, CA | 2015-09-15 | Big waste of money. |
| Jennifer Tesch-Singh | Pittsburg, CA | 2015-09-15 | I want to save the Delta and stop the tunnels |
| Jeff Chamberlain | Los Osos, CA | 2015-09-15 | This is a classic politically motivated boondoggle of the first magnitude. Let common sense prevail...! |
| Lesle Story | Lodi, CA | 2015-09-15 | This farce has gone on long enough. The Federal government through EIA reports as well state reports from Fish and Game and Wildlife departments have all reported the negative impacts these tunnels will have. Why persist in the face of overwhelming evidence that they are not economically or environmentally viable? |
| Randall Adams | Brentwood, CA | 2015-09-15 | i oppose the Delta Tunnels, they di not solve the water shortage issue, the \$ would be better spent on reclamation/recycling, rebuilding aging water delivery infrastructure, updating building codes to allow re-use if "grey" water for certain applications. Stop giving "Big Ag" business's an unfair share, uphold protections already inplace for this irreplaceable resource. |
| Jason Martin | Discovery Bay, CA | 2015-09-15 | I live and boat on the delta. |

| Name | Location | Date | Comment |
|-----------------------|-------------------|------------|--|
| Toni Quon | San Francisco, CA | 2015-09-15 | I'm a native San Franciscan/ Californian who loves the outdoors and values the health of our Bay Delta system. For years, those to the South and central valley farmers have been trying to find new ways to take more and more of our water. I've heard comments from a farmer saying that any water that reaches the bay is wasted water. Where is it written that land farmers have an absolute right to all the water they want. How about people who fish for a living? They are farmers of the sea/ oceans. Don't they have a right to maintain their livelihood? Brown is proposing this project as a water fix? It really any different than the Peripheral Canal was rejected in the early 80's. The only difference is we don't see the water being taken away from the Delta. Does he think he's outsmarting us with this "stealth" water grab? Enough is enough. Farmers need to find better ways to farm that doesn't use as much water. We need to stop trying to turn arid, desert land into farm land. There isn't an endless supply of water available. Sometimes it seems to me that farmers (big/corporate - not the little guy) feel that if they plant, the water will come. News flash: we never know from one year to the next how much rain/ water we will have so stop acting like we do! |
| Mary Conway | Monterey, CA | 2015-09-15 | I am a fourth generation San Joaquin County raised person who strongly opposes taking Sacramento River water south. I resent the amount of money to be spent by the state to bypass the Delta. The Sacramento River water should go naturally through the Delta and San Francisco Bay to assist with the spawning of our Pacific Salmon that support the fisherman of my current residence, Monterey. Keep the Sacramento River water flowing through the San Francisco Bay and Delta. |
| Douglass Wilhoit | Stockton, CA | 2015-09-15 | No good will come of this " Brown Legacy Builder!" |
| Robert Arata | Sacramento, CA | 2015-09-15 | You are killing the delta... Prime farmland , fish , plants ... Desalt...stop the WESTSIDE farming and water thirsty crops...tunnels just bypass the delta so you can let salt water push into the delta |
| Saul Serna | Stockton, CA | 2015-09-15 | I live on the Delta and will see first hand the impact these tunnels will have on the local environment and wildlife. Alternative solutions need to be researched and considered. |
| Chris Trujillo | Galt, CA | 2015-09-15 | I am against this Southern California water grab. |
| Susan Bernhard | Bethel Island, CA | 2015-09-15 | I oppose ruining SF Bay / Delta water estuary |
| Catharine Leppert | Carmichael, CA | 2015-09-15 | I care |
| Cheryl Jensen | Oakley, CA | 2015-09-15 | I highly oppose the tunnels. This will be devastating to many. |
| Greg bees | Rescue, CA | 2015-09-15 | We need OUR water! This is not a freaking money game jerry brown! Can't wait till your ass is out of office! You are doing nothing but screwing so many good things up! |
| Miguel Velazquez | Stockton, CA | 2015-09-15 | I live in Stockton and want to save our delta water ways |
| Tim and Sheryl Loomis | Santa Cruz, CA | 2015-09-15 | Its the right thing to do. Honorable Gov. Brown, are you out of your friggin mind? |
| Eileen Rodriguez | Theresa, NY | 2015-09-15 | I am back in California where I was born and raised in Contra Costa County. Love the Delta and should not be destroyed by Brown or any other Political Group. |
| Bruce Cameron | Castro Valley, CA | 2015-09-15 | Tunnels are a bad idea and will be detrimental to the Delta. Will only benefit Big Money folks in Southern California. |
| Kevin Burge | Brentwood, CA | 2015-09-16 | this is a waste of \$\$ It will destroy the delta Eco system |
| John Little | Stockton, CA | 2015-09-16 | I want to protect the Delta! |

| Name | Location | Date | Comment |
|----------------------|---------------------|------------|--|
| Ron Fraenkel | San Rafael, CA | 2015-09-16 | I'm worried that the delta as we know it will be ruined. |
| sally cano | West Sacramento, CA | 2015-09-16 | No tunnel. They are bad for the delta |
| John Romero | Isleton, CA | 2015-09-16 | New water sources are needed, NOT redistribution of water from a fragile ecosystem. |
| JONI smith | Oakley, CA | 2015-09-16 | the delta and farmers matter |
| Jacob Pendleton | Sacramento, CA | 2015-09-16 | We need to stop destroying the very ecosystems that allow our species to flourish. |
| Jacqueline Hickerson | Lodi, CA | 2015-09-16 | We will lose the river to cities. |
| Craig Sharrow | San Anselmo, CA | 2015-09-16 | Water should not be diverted for the benefit of a limited number of private interests, including central valley farmers. |
| Jim Aspinwall | Campbell, CA | 2015-09-16 | Haven't the manipulators done enough damage to this State in the name of 'progress', then blamed US for it? |
| alison lemeur | Sacramento, CA | 2015-09-16 | Because I believe that this will be end of an amazing ecosystem which will have devastating consequences for the land, people, environment, animals and life in general. |
| Karen wilhelm | West Sacramento, CA | 2015-09-16 | Tunnels are not the solution to California Water issues is caused by over draft dewatering, wastefully use, lack of enforcement to landscape ordiences and increased population. NO TUNNELS |
| Isaac Choy | Sacramento, CA | 2015-09-16 | We need the water in Northern California. Shipping water to LA is not the answer. |
| Jacob Whittaker | Davis, CA | 2015-09-16 | The Delta is the linchpin in northern California's ecosystem. Take too much water from it, and we'll destroy agriculture, fisheries, and bird populations. |
| Amy Winkler | Galt, CA | 2015-09-16 | The tunnels will directly affect my family. We have grown up on the delta and I now am raising my kids doing the same. This will affect so many small businesses along the delta. |
| James Brink | Stockton, CA | 2015-09-16 | The tunnel will disrupt the delicate balance of our delta. Don't make a mistake that can't be repaired. |
| Michael Hewitt | Stockton, CA | 2015-09-16 | These tunnels are a horrible idea. Our farmers cannot grow crops with salt water, and that is what the Delta will become if Gov. Brown builds these tunnels. Please stop the tunnels |
| Anita Michel | Concord, CA | 2015-09-16 | Because I know the Sacramento Delta system is a vital environmental link for migrating birds, fish species and other creatures. It's resources can be shared, within reason. But it can't be plummeted for the benefit of a few. |
| Hilary Egan | Sacramento, CA | 2015-09-16 | I am a lifelong Sacramento resident and understand the value of the Delta. Such a treasure!! |
| Kelli Anderson | Lodi, CA | 2015-09-16 | I'm signing because if we start leeching water from our delta it will totally change life for the people that live and work there, but also for the love of the animals and other living things that make the delta their home. |
| margaret till | lodi, CA | 2015-09-16 | this will devastate our fisheries. farm lands. |

|------------------|-------------|------------|--|
| fernando freitas | Hughson, CA | 2015-09-16 | <p>I am writing to express my strong opposition to the the Delta Tunnels plan.</p> <p>The Delta Reform Act of 2009, in which the California State Legislature committed to the "coequal goals" of providing a more reliable water supply for California AND protecting and restoring the cultural, recreational, natural resource, and agricultural values of the Delta, cannot be upheld if the Delta Tunnels come to pass.</p> <p>The California Water Fix does not meet the restoration goals of the Delta Reform Act; it is simply a plan to export more water out of the San Francisco Bay-Delta estuary. The Delta Tunnels will also fail to provide more reliable water because the Delta watershed is already oversubscribed by five times in normal water years.</p> <p>My objections to the tunnels are threefold:</p> <p>The California Water Fix does not address the environmental, public health or economic impacts of the proposed Delta tunnels project. Also, the plan ignores alternatives that would save California tax and ratepayers billions of dollars, while investing in the jobs and local water sources that build sustainability.</p> <p>My environmental concerns with the plan are:</p> <ul style="list-style-type: none"> · The impact on wildlife and plant species in the Delta that depend on freshwater include the Delta smelt, chinook salmon, steelhead, San Joaquin kit fox, and tricolored blackbird, protected species already on the brink that will face decimation due to a diminishing food-web. · At sea, even the ESA-listed South Pacific Puget Sound Orca Whales depend on migrating Delta species that will be harmed by less water flowing through the Delta. · The tunnels plan seems to ignore Section 7 of the Endangered Species Act which prohibits federal agency actions that are likely to jeopardize the continued existence of any endangered species or that "result in the destruction or adverse modification of [critical] habitat of [listed] species." <p>My public health concerns with the plan are:</p> <ul style="list-style-type: none"> · The tunnels will cause increased contamination of municipal water and wells for the millions of rural and urban residents living in the five Delta counties. · The tunnels plan fails to model for potential increases of carcinogens and other formation of byproducts that would cause cancer and other serious health effects. · Environmental justice communities, who depend on subsistence fishing, will also face food and health insecurities as a result of increased contaminants, specifically mercury contamination, in fish and wildlife populations. <p>My economic concerns with the plan are:</p> <ul style="list-style-type: none"> · For large metropolitan cities such as Los Angeles and San Jose that depend on export water, water rates and/or property taxes will go up, but they will get no additional water. · No analysis has been done on how the lack of fresh water flows will impact San Francisco Bay tourism and recreation. These industries depend on Delta fresh water flows for their crab and salmon fisheries, wildlife sighting, boating, and their restaurant economy. This industry is worth billions annually. · Salinity intrusion is already impacting the western Delta farms and removing Sacramento River freshwater from the system will make matters worse. Delta farmers cannot irrigate crops with salt water and they certainly cannot plant crops in contaminated soils. The Delta Ag economy, which consists of generations of family farms and farm workers, generates \$5.2 billion for the California economy, annually. · California coastal fishing communities depend on thriving wildlife. This historic industry is worth billions annually, with the salmon industry worth \$1.5 billion annually alone. Thousands of jobs and livelihoods are tied to these industries. · The operation and construction of the tunnels will obstruct and disable navigable waterways for boating, marinas and other types of leisure activities, in addition to creating conditions of low water flow that will foster invasive aquatic species, such as water hyacinth. Poor water quality also creates unsafe recreation. Recreation and tourism in the Delta generate \$750 million annually. <p>Alternatives to Water Exports Ignored</p> <p>Far far less expensive and less environmentally destructive alternatives to the Delta Tunnels were largely ignored. The plan does not seriously consider any alternatives other than new, upstream conveyance. The decision-making process (from the outset) has tilted in favor of increasing water exports from the Delta.</p> <p>Our tax and ratepayer dollars would be much better spent on:</p> <ul style="list-style-type: none"> · More aggressive water efficiency program statewide that would apply to both urban and agricultural users. · Funding water recycling and groundwater recharging projects statewide that would be billions of dollars less expensive for rate payers than constructing a new version of the Peripheral Canal or major new surface storage dams. Meanwhile, these projects move communities towards water sustainability. · Retiring thousands of acres of impaired and pollution generating farmlands in the southern San Joaquin Valley and using those lands for more sustainable and profitable uses, such as solar energy generation. · Improving Delta levees in order to address potential earthquake, flooding, and future sea level rise concerns at a cost between \$2 to \$4 billion and is orders of-magnitude less expensive than major conveyance projects that are currently being contemplated. · Increasing freshwater flows through the Delta to reduce pollutants so ecosystems and wildlife can be restored. · Installing fish screens at the south Delta pumps to reduce the current salvage of marine life. <p>In Summary</p> <p>The Delta has problems that need to be addressed, but the CA Water Fix tunnels are a 20th century idea that won't fix them. It won't produce more water, more reliable supplies, or improved conditions for the environment in the Delta.</p> <p>The new EIR/EIS has not adequately addressed my above stated concerns. That is why I oppose the Delta Tunnels/California Water Fix (Alternative 4A).</p> <p>Reclamation and DWR should prepare and circulate a new Draft EIR/EIS that will include alternatives that reduce water exports and increase Delta flows for consideration by the public and decision-makers. Such alternatives have a far better chance of complying with the Delta Reform Act and the federal Endangered Species and Clean Water Acts. 82</p> |

|--------------------|------------------------|------------|---|
| Tammie Wilson | Sacramento, CA | 2015-09-16 | The tunnels are a boondoggle. |
| maureen roche | petrolia, CA | 2015-09-16 | We all need clean water as humans, not Big Ag of Westlund , nor any waterhogs that should be in eastern 2/3rds of US ! No Delta tunnels , No toxic Fracking of what little water a 500 year drought gives us. |
| Joan Wilhoit | Stockton, CA | 2015-09-16 | I don't want the delta destroyed! |
| Jay Raj Narayan | Sacramento, CA | 2015-09-16 | I oppose the tunnel projects. |
| Heinz Dullinger | Redwood Valley, CA | 2015-09-16 | Opposing tunnels and water export to the south. Save the Delta Estuary |
| Christine Rich | Sacramento, CA | 2015-09-16 | The true reasons for the tunnels has not been disclosed and I fear it will lead to the privatization of water which I hold as a sovereign right for all of Earth's inhabitants. |
| Beverly Minor | Concord, CA | 2015-09-16 | I oppose moving water from the delta. It is a fishery nursery, home for water fowl and keeps our farmers going. |
| John Parker | sacramento, CA | 2015-09-16 | Jerry Brown, you have no right to destroy the environment and kill animals. This is the worst kind of crime against our earth and for what, greed. Your reason of protecting Sacramento from flooding is a complete joke. Come on, we are not that stupid. |
| Mike Honey | Antioch, CA | 2015-09-16 | I'm a Delta kid and these tunnels will ruin our beloved Delta. |
| Irene Gillooly | Guerneville, CA | 2015-09-16 | This is highway robbery of public property and essential assets. Stop it again, stop it now! |
| Aaron Gonzales | Merced, CA | 2015-09-16 | Governor Brown is a fascist and needs to be recalled and his projects ended |
| Christine Bernard | Sacramento, CA | 2015-09-16 | I do not want the Sacramento Delta to become the 21st century equivalent of the Owen's Valley debacle. |
| Barry Ricks | Hidden Valley Lake, CA | 2015-09-16 | I believe that the Delta and the Bay will be harmed by this And northern Californias wild life will suffer greatly too . Plus it will never be enough . if they got all the water they think they need tomorrow they will start making plans for thinking else and want even more . FIND A BETTER WAY |
| Dava Serbantes | Tracy, CA | 2015-09-16 | I'm signing because the Delta Tunnels make absolutely NO sense! We need more reservoirs not this ridiculous plan. |
| Cameron King | Stockton, CA | 2015-09-16 | I grew up on The Delta. This is my home. |
| Michael Fields | Oakley, CA | 2015-09-16 | I live next to the delta. My kids where born and raised on the water! This is where our family retreats to to get away from video games and the city. We fish, wakeboard, ski, jet ski, tube , and joy ride the beautiful delta. Please do not take this from my family and local economy!! |
| Molly Hooper | San Francisco, CA | 2015-09-16 | I'm strongly opposed to redirecting water from the Delta and endangering the health of the local ecology -- fish and wildlife -/ and the local economy. There are better ways for the south to increase its water supply. |
| Michael Grady | Rancho Cordova, CA | 2015-09-16 | Because this is ridiculous. We don't have enough water for our delta and farmers. And when we do, is exported as it is! I can't even imagine what it would be like if they had the ability to give (sell) more away. Southern California needs to look into de- salination plants, not count on water from the North even more! |
| Deanna Wargowski | Napa, CA | 2015-09-16 | We need to support the use of gray water systems and stop building huge, destructive infrastructure that destroys our natural environment. |
| Katherine Caldwell | Vacaville, CA | 2015-09-16 | Once you KILL the Delta it will not come back. The Delta should be an eco sanctuary not a ruined salt flat. |

| Name | Location | Date | Comment |
|--------------------|---------------------|------------|--|
| Daniel Harris | Courtland, CA | 2015-09-16 | I'm signing simply because I believe it is INSANE waste energy moving water from a fertile agricultural region to supply water to corporate farms on unsustainable desert soils. SAVE CALIFORNIA'S UNDERGROUND AQUIFERS! I signed. |
| susan figgatt | Rio Vista, CA | 2015-09-16 | The delta is sick. Needs our help. Leave it be.....NO TUNNELS |
| Diana Burns | Tracy, CA | 2015-09-16 | Our family has enjoyed the recreational opportunities the Delta provides for over 30 years. Our children were practically raised in our ski boat. Not to mention the ecological and economical impacts that stealing our water and sending it to Southern California would create. It's a bad plan and it needs to STOP!! With our system in place and so many aspects of our lives depend on it, who in their right mind would want to destroy it??? |
| Maximilienne Ewalt | San Francisco, CA | 2015-09-16 | This project will destroy the largest fresh water estuary on the US west coast. And it will do nothing to alleviate the drought. The diverted water will go to farmers growing water thirsty crops in the naturally dry Central Valley while the State government, namely Jerry Brown uses eminent domain to force the Delta's local farmers out. The plan is a disgrace and must be stopped. |
| Jonathan Gonzalez | Stockton, CA | 2015-09-16 | It's time for Americans, especially Californians to start taking back control of our land. |
| tim daw | Oakland, CA | 2015-09-16 | You can't fix the Delta by draining it. |
| Dena Kirtley | West Sacramento, CA | 2015-09-17 | SAVE CALIFORNIA'S UNDERGROUND AQUIFERS! I |
| Laure Jandar | France | 2015-09-17 | Because it's totally abnormal to think that the tunnel is most for exports that for California people! |
| Emily Balestrini | Roseville, CA | 2015-09-17 | I disagree with the governor on this one: the tunnels will be disastrous on every front. Please do not. |
| David Bagby | Belmont, CA | 2015-09-17 | I use the delta for recreation and Even the recent changes pushed by the CA Governor are a disaster (Blocking a slough caused rip currents elsewhere. Apparently political idiot in Sacramento have never heard the old saying "you can't hold back the tide"). |
| George Spatz | Sacramento, CA | 2015-09-17 | The peripheral tunnels will only destroy the Sacramento River and the Delta. This will displace hundreds of residence Andrew and many existing farms in the Delta itself. This project will not increase the water supply to the westlands corporate farmer or SoCal water users. It's another waste of taxpayer money. |
| Priscilla Carrillo | San Jose, CA | 2015-09-17 | I do not want any tunnels built in California just not right. Going to take away our farm land. |
| Hilary Boswell | Stockton, CA | 2015-09-17 | I am signing this because- it would affect greatly our valley farmers!! Who feed the world! Why would we take away from the men and women who work to feed us?!? |
| Shirley Wilson | Concord, CA | 2015-09-17 | The Delta is nearby and a beautiful place for recreation and just stopping to enjoy nature. Please don't destroy this! |
| Kelly Dauksch | Oakley, CA | 2015-09-17 | Government is out of control and they need to be stopped from robbing the people. |
| Janeane Armstrong | Sacramento, CA | 2015-09-17 | I'm signing because we need to take care of our resources! This is destruction and it needs to stop! |
| Maria Lopez | Vacaville, CA | 2015-09-17 | The tunnels will allow the salt water from the sea to come in to the rivers and destroy all of them marine life that we have in the rivers |
| eric jensen | mather, CA | 2015-09-17 | bad idea |

| Name | Location | Date | Comment |
|-------------------|--------------------|------------|--|
| Patricia MacEwen | Stockton, CA | 2015-09-17 | The tunnels add no water whatsoever to the state's supply. We need more water, not less, and the only way to do that is reclamation and desalination. |
| Autumn umphress | Rio Vista, CA | 2015-09-17 | I live in the DELTA! |
| Samantha Small | Stockton, CA | 2015-09-17 | I am a born and raised Stockton resident & these tunnels are a concern. |
| Eric Mourelatos | Discovery Bay, CA | 2015-09-17 | I live on the delta, have swam, fished, ate the best farm produce, my entire adult life and want to protect this treasure for my grandchildren . I voted against the canal in the eighties and thought that it was finished. This can't be legal. Its the canal just under ground! |
| Wendy Scribner | Hidden Springs, ID | 2015-09-17 | This is nuts. The Delta has some of the richest farm land in the world. Jerry Brown is paying back is money men for their support. This does not benefit the people of California ..it only supports Jerry Brown's friends. |
| Sandra Johnson | Concord, CA | 2015-09-17 | It was wrong in 1982 and it's wrong now. We need our water here. |
| Nancy Pitts | Antioch, CA | 2015-09-17 | We need to preserve the Delta and all the fish!! Find another way or place! Preserve this part of California water ways and life and the people.mwecarecdoing all we can to save water! Is Los Angeles doing the same.....oh I forgot to mention one ther very important thing.....our farmers need the water!! To you like wine, fruit and vegetables grown from this part of California.mwe don't need more precarious imports and we need to keep thelaborveconomy busy right here in this part of our California!!! Stop worrying about the rich part of Californis.....they can survive without us....we need it more and glues what, we have every right to preserve our Delta !!! |
| Mike MacBride | Sacramento, CA | 2015-09-17 | those tunnels would ruin the delta. |
| Elizabeth Johnson | Stockton, CA | 2015-09-17 | I'm signing this petition because I know that building the tunnel is not a good use of resource nor is it good for the resources. We must take a much broader look at what is good for California and especially the delicate ecology of a Delta. I oppose the building of the Tunnels. |
| Wendy Gilfoy | Brentwood, CA | 2015-09-17 | This project is too invasive on so many levels. It will adversely affect the environment . It will intrude on people's personal property. And it will cost the taxpayers too much money. |
| Steve Moreno | Woodland, CA | 2015-09-17 | I'm signing this petition because destroying the Delta will ruin the state. |
| Omar Aoay | Merced, CA | 2015-09-17 | I oppose the delta tunnels |
| Susan Abeldt | Folsom, CA | 2015-09-17 | I do not agree with the planned tunnel proposal. |
| Bickramjit Singh | San Leandro, CA | 2015-09-17 | I love the delta and we need the delta |
| Alan Cook | Stockton, CA | 2015-09-17 | I do not want to see the beauty of the Ta destroyed. We need to find other ways to get water to southern Ca |
| Joseph Medina | Pleasant Hill, CA | 2015-09-17 | The amount of disregard to our current drought situation is astonishing. I worked in southern California at the beginning of the year and everywhere I looked residential or Comercial there seemed to be no effort in conserving water. |
| Nic Levy | Redwood City, CA | 2015-09-17 | Taking water from the Delta will harm the local ecology on land and the water. We don't need to create more imbalances for the profit of a few. |
| Richard Smith | Fairfield, CA | 2015-09-17 | I have lived in Fairfield my whole life, I would hate to see it destroyed. |
| Tracy Hamett | Oakley, CA | 2015-09-17 | This and the bullet train are the biggest most ridiculous boondoggles of California government and we are the laughing stock of the country! Not proud to say I am from California! |

| Name | Location | Date | Comment |
|------------------|--------------------------|------------|--|
| Renee Baldocchi | San Rafael, CA | 2015-09-17 | The Delta is an important agricultural asset to Northern California. Why should LA get the benefit of our great foresight and water planning. LA needs to get their act together and start thinking about water solutions without draining Northern California's water systems. Also-has anybody noticed that Northern California is also suffering deeply from drought, fires, etc.?!?! Do not drain Northern California's water system. It would be a disaster for not only humans but all of the wild life (who don't get to vote!) |
| elizabeth jensen | Aberdeen, United Kingdom | 2015-09-17 | Because I care more about delta wildlife having the environment necessary to thrive rather than southern californians having water for their pools and lawns. Southern California has the poorest water management and respect for resources around! |
| pauline seales | Santa Cruz, CA | 2015-09-17 | this will be bad for the delta and many species. It will help continue fracking and industrial ag - Both of which should be banned |
| Mike Longo | Oakley, CA | 2015-09-17 | Mike W. Longo |
| Barry Scott | Stockton, CA | 2015-09-17 | Our past water projects resulted in unsustainable growth that cannot survive the current drought. Stop this madness, leave our water alone. |
| Shelley Brown | Sacramento, CA | 2015-09-17 | This project is ridiculously expensive & environmentally irresponsible. |
| Juli Jensen | Sacramento, CA | 2015-09-17 | I am opposed to a water management plan that robs from and destroys the agriculture in one part of the state to support uses in another part of the state. |
| May Yang | Sacramento, CA | 2015-09-17 | I'm signing because I care!!! |
| mike mueller | clyde, CA | 2015-09-17 | L.A. sucks (our water) |
| Terrie Smail | Vallejo, CA | 2015-09-17 | I don't want anymore of our water deviated to So. Cal. It is killing our environment. Build desalination plants not tunnels from No. Cal we need our water! |
| Candy Kelp | Isleton, CA | 2015-09-17 | The tunnels will destroy the Delta and our business. |
| Carole Thomas | Sacramento, CA | 2015-09-17 | I believe that these tunnels will destroy the ecosystem, the local farmers ability to sustain crops and just be a mess to our way of life in general here in northern CA. Now if there were not a drought to begin with. The priorities are backward, it would make more sense for us to have Southern CA send us some of their water, as they're more abundant in rainfall lately! |
| Ken Smith | Roseville, CA | 2015-09-17 | Money should be spent on more dams and desalination plants. |
| Robert Taylor | Forest City, IA | 2015-09-17 | Jerry Brown only cares about money \$\$ Not the future of Northern California Farmers and Residents that depend on the Delta to survive |
| Edgar Wilhite | Roseville, CA | 2015-09-17 | I am opposed to the delta tunnels and the communists in the Sacramento Legislature. They are flat out anti California and America. |
| Keith Lott | Hawthorne, CA | 2015-09-17 | Its the right thing to do |
| Robert Cushman | Lotus, CA | 2015-09-17 | This is an absurd way to address this problem. |
| marla morang | concord, CA | 2015-09-17 | The delta needs to be left alone to support wild life. |
| Stephanie Dunham | Oakley, CA | 2015-09-18 | I'm a northern California resident who frequents the Delta. Southern California is already wrecking the eco system in this area. Tunneling more there would only make things worse for this entire region. |
| Barbara Dinsmore | Bethel Island, CA | 2015-09-18 | I've lived here my entire life enjoying the Delta. Now I want my first Grandson to enjoy it too!!! I signed a petition in the seventies when I was 6 yrs old and I'm going to keep signing them until you stop this nonsense!!! |
| Andrew Spencer | Discovery Bay, CA | 2015-09-18 | There is much better ways to get more water down south. This is horrible for the delta, and bay. It's just a way to make money for the construction companies. |

| Name | Location | Date | Comment |
|------------------|-------------------|------------|---|
| Heather Fogg | Manteca, CA | 2015-09-18 | This is NOT the legacy you want to leave when you leave office. It will be a legacy of complete and utter failure that wreaks environmental destruction. You talk of climate change and saving our environment and then talk out of the other side of your mouth when it comes to the Delta. Do the right thing; do the moral thing. STOP the tunnels. |
| Russ Lester | Winters, CA | 2015-09-18 | 1) it won't work to generate any new water 2) it's too expensive 3) it won't increase reliability 4) it'll destroy the Delta 5) there are cheaper/better options |
| Linda St. John | Menifee, CA | 2015-09-18 | This will not fix our state's water problems. |
| Donald Mueller | Stockton, CA | 2015-09-18 | This has to be stopped. Total devastation of our delta. |
| Dan Shapiro | Riverside, CA | 2015-09-18 | This is so wrong! Look for the greatest good, this is not it! |
| Shane Strahs | Burbank, CA | 2015-09-18 | We need to save the delicate ecosystem of the CA delta |
| Sandra Bergst | Orangevale, CA | 2015-09-18 | I oppose the tunnels. |
| Claudia cantwell | Brentwood, CA | 2015-09-18 | I oppose the Delta Tunnels |
| Bruce Cunningham | San Diego, CA | 2015-09-18 | We should work on increasing our water supplies rather than removing the ever more limited resources of the delta region. |
| Tiffany O'Neill | Montclair, NJ | 2015-09-18 | I'm a Californian from the San Joaquin Valley and object to the short-sighted tactics that only benefit Big Ag. |
| Mary Barrett | Dana Point, CA | 2015-09-18 | this is where I grew up. Where my family lives. There are more environmentally friendly methods to utilize. |
| Mary Gustafson | Discovery Bay, CA | 2015-09-18 | i live on the Delta and I want it undisputed! I paid and still buy a lot of money to live where I play!! |
| David Garrett | Ceres, CA | 2015-09-18 | Nature at it's finest and most useful, it needs to be saved!!! |
| John Weed | Carmel, CA | 2015-09-18 | As a lifelong Californian, it would be heartbreaking to see the loss or extreme degradation of this natural wonder. Saltwater intrusion up the Sacramento River, incomprehensible amount of freshwater siphoned off for water intensive crops in the San Joaquin Delta, and enabling continued water waste in Southern California isn't worth it. That and the fact that some estimates have the tunnels costing more than \$50 billion. No tunnels! |
| Roger Jeong | Palo Alto, CA | 2015-09-18 | This will not save the delta. In fact it will just destroy it with no added benefit to anybody except the largest water hogs in SoCal. |
| jeff bodmer | Isleton, CA | 2015-09-18 | stop the tunnels! |
| Sally Joaquin | Oakley, CA | 2015-09-18 | SO CAL needs to build dams and retain the water that falls from the sky instead of taking the water from up here where the farmers and people need that water. Don't destroy our DELTA!!!! |
| John Wersted | Elk Grove, CA | 2015-09-18 | Bad move Gov. Brown. No tunnels with my tax dollars! |
| Trudy Duisenberg | Chico, CA | 2015-09-18 | I am signing as I am against massive transfer of water from Northern California to the South. We will be destroyed by this action. |
| kristen rowland | antioch, CA | 2015-09-18 | I'm signing this because I live on the Delta and see the beautiful animals that would be hurt by the tunnels, I know the farmers who will be directly effected, the shock waves the tunnels will have. There is a better way! Governor Brown I remember you taking away paper bags because they were harmful for the environment and replacing them with plastic, now years later you see the effects that has had on the environment and you're banning plastic bags, similar situation think things through!!!! |

Petition 1 - Restore the Delta (Form 5 generator)

| Name | Location | Date | Comment |
|-------------------------|--------------------|------------|---|
| Christine Rainville | Rancho Cordova, CA | 2015-09-18 | I'm signing this because the Jerry Brown Administration has lost its collective minds. It seems to be an ego trip by the Governor, a trip I don't want to be on. |
| Ann Deussenberry | Vallejo, CA | 2015-09-19 | The tunnels will not increase water storage, they will damage the delta ecosystem and worsen salt intrusion. The damage cannot be mitigated. Find a better solution. |
| Kristopher Canete | Stockton, CA | 2015-09-19 | I love the delta |
| Daniel Hadsall | Stockton, CA | 2015-09-19 | I'm signing because I'm concerned that the construction will have substantial environmental impacts on the Delta. |
| Richard Cantu | Stockton, CA | 2015-09-19 | i am signing because the tunnels are destructive towards the delta, cannot sustain greedy Southern Californian's Department of Water and Power and should advocate controlled growth in our desert communities. |
| Roxanne M Martin Martin | Manteca, CA | 2015-09-19 | If this goes thru....our delta will be no more....all of the wildlife will die....I remember when my older sister took me with her and her friends to apose the California aqueduct.... Enough is enough....we need to cut off the supply to the California aqueduct as well.....let them find their own water down there....the San Joaquin and Stanislaus counties supply 85% of The U.S. food....enough is enough.....split the State into two |
| Aldeen Ferrante | Martinez, CA | 2015-09-19 | The Governor is out of his mind fooling with "Mother Nature" and the magnificent Northern California waterways. Please signup and help save our area. |
| Nancy Smith | Stockton, CA | 2015-09-20 | We need to conserve and protect, not eliminate and destroy!!! |
| Michelle Moreira | Stockton, CA | 2015-09-20 | I want to save our water. |
| Barbara Parsons | Sonoma, CA | 2015-09-20 | I care about the Delta! |
| Anne Jones | Stockton, CA | 2015-09-20 | I love my water ways and I think it is very destructive to allow such a project to take the heart of our livelihood away. There has to be another solution for southern CA. This is not it! |
| betty mcherry | Antioch, CA | 2015-09-20 | We need water more than apples.. Damn it... |
| Kimberly Stritt | Oakley, CA | 2015-09-21 | The tunnels will destroy the Delta. Diverting water to So Cal is not the answer. More infrastructure (Reservoirs) is needed. Honest politicians would be a great place to start. Stop whoring our resources. Grow a conscious and honor a moral code. The greed of those chasing \$\$\$\$ will destroy the Delta. |
| Dave Pursley | Antioch, CA | 2015-09-21 | My city water supply (Antioch) sources from the Delta. These tunnels WON'T CREATE any new water, but it WILL divert OUTRAGEOUS an amount of water to Southern California. This will cause San Francisco Bay Water to back up the Delta increasing salinity levels, resulting in even POORER water quality than we already experience. This needs to be STOPPED NOW! |
| Cheryl Keller | Lincoln, CA | 2015-09-21 | I want to protect the water and our northern California beauty. This is a theft of our natural beauty and resources by Governor Jerry Brown. He is not doing right by the people. His fix as usual is to line the pockets of Southern California Business. Once any man changes the natural landscape it can never return to its original beauty. I stand up against Jerry Brown in destroying the environment and stealing from Northern California. Someone should remind him that he is Governor for the entire state. |
| David emery | Menlo Park, CA | 2015-09-21 | Gov. Brown, Have a REAL water conservation plan, not just band-aids. |

| Name | Location | Date | Comment |
|--------------------|--------------------|------------|--|
| Julia Gammon | Seattle, WA | 2015-09-21 | Love of water, fish, life- Nature! |
| Sherry Meddick | Silverado, CA | 2015-09-21 | I'm solidly against the tunnels. I don't believe taxpayers should subsidize ag, large or small. Furthermore, why should we subsidize in billions of dollar an industry that makes up only 2% of our state's GDP? It's environmentally atrocious and wrong. Stop it! |
| Brian Panzer | Antioch, CA | 2015-09-21 | I'm signing this petition because I live in a city that gets it's water from the delta. If this TREMEDOUSLY STUPID bill goes through, it would negatively impact our drinking water in such a way to make it almost un-treatable! |
| GUILLERMO RUIZ | Hayward, CA | 2015-09-21 | a mess |
| Thayne Belasco | Stockton, CA | 2015-09-22 | This is an atrocity and a slap in the face to we in Northern California! Nothing but selfishness and greed coming from Big Corporate Agriculture from Southern California! I'm tired of it and there should be a criminal investigation and criminal charges against Governor Jerry Takeabribe Brown! |
| Beverly Dal Porto | Olivehurst, CA | 2015-09-22 | The delta tunnels are a horrible idea and will cause irreparable damage to the delta! |
| Nanette Solem | Bethel Island, CA | 2015-09-22 | Southern California needs to stop being so water greedy. We aren't rich but we are human. Someone has to grow all their fancy food. |
| Miguel Fresquez | Citrus Heights, CA | 2015-09-22 | I'm signing because we need the water up here in its original area for our wildlife an fisheries period stop sending water to a desert |
| tina meraz | Stockton, CA | 2015-09-22 | I believe this would be detrimental to our wild life. We contribute enough. |
| andrew castellanos | Auburn, CA | 2015-09-22 | I am a Adovate, volunteer for Friends of the River and care about our environments worldwide. |
| mark stebbins | stockton, CA | 2015-09-22 | PRESERVE OUR DELTA !!!!! |
| Elin Shogren | Sebastopol, CA | 2015-09-22 | I'm signing because I do not feel that it right to drain the Delta to ship water to Southern California. The fisheries and wildlife habitat of so many species needs to be protected and the water preserved for agriculture. Southern Cal chose to not build water storage facilities over expanding housing - poor decision then - do not destroy the Delta because of the lack of planning in the south. |
| Jeff Torchia | Discovery Bay, CA | 2015-09-22 | Build reservoirs! Plan for normal draughts. Salt water moving upstream will do irreparable damage. Maybe watch Chinatown Mr Brown ! |
| Shawn Snell | Bethel Island, CA | 2015-09-22 | surrounded by the delta |
| Joan Benavidez | Stockton, CA | 2015-09-22 | I'm signing because I feel the tunnels will destroy the Delta. Our communities around the Delta are already hurting because of drought. Our rich farmland feeds the world, we need the water. Our water is in danger of becoming unusable if too much salt from sea. Fishing and fowl will suffer, humans will suffer. No amount of money is worth those tunnels. |
| Susan Wilson | Sacramento, CA | 2015-09-22 | The Sacramento River provides fresh water to the entire delta region south of Sacramento, and keeps the salt water from flowing into the estuary. There are many different species of wildlife that depend on the river and the entire delta region for survival. In addition, the river and delta provide water to local farmers who have farmed the region for over a century. The construction alone would destroy habitat for thousands of migratory birds, who may never return to the area, and destroy precious farmland held by families who have relied on the river for generations. Moreover, in years of low rainfall, there is less water flowing down the river and siphoning it away from the delta region would utterly destroy this beautiful natural resource. The system is fragile and it should NOT be tampered with!! Anyone who values the environment and understands ecology would be opposed to this horribly destructive project. |

|-------------------|-------------------|------------|---|
| Luis Silva | Santa Clara, CA | 2015-09-22 | Save our delta! |
| Marc Jensen | Gilroy, CA | 2015-09-23 | Save the delta |
| Ronald Felton | Monterey, CA | 2015-09-23 | stop the money grabbers. Please stop killing the Delta. |
| Grant Koury | Mountain View, CA | 2015-09-23 | I don't believe what gov. Brown is doing is in the publics interest. In fact I believe it's for his interests and his associates only. |
| Sim Risso | Stockton, CA | 2015-09-23 | The tunnels make no sense ecologically or environmentally. It's going to ruin a whole region and ecosystem to support billionaire farmers who are growing water-intensive crops in the desert, most of which are being exported overseas. It was stupid to build farms there in the first place. Let's not keep an unsustainable endeavor going and ruin a region in the process. |
| Richard Schramm | Elk Grove, CA | 2015-09-23 | It is a giant waste of tax dollars. It creates NO NEW WATER STORAGE, and that is just plain stupid! |
| Trinidad Carmona | Stockton, CA | 2015-09-23 | I believe the delta is an important resurce we have to conserve |
| JoAnne McIntire | Grass Valley, CA | 2015-09-23 | Having been raised in the Delta, I am very aware of the many issues, most importantly salt water intrusion and the loss of habitats due to this and it's affects on farming. A tunnel or any other type system that drains water from the Delta will be a massive fail. The only solution to help the Delta is draining off less water. |
| mike richards | Brentwood, CA | 2015-09-23 | I am against the tunnels. It will destroy the delta. |
| Judith Eshom | Sacramento, CA | 2015-09-23 | Southern California has bought enough water rights...they need to come to terms with the fact that they have outgrown their resources and look for alternative measures. Desalinization, more reservoirs, moratoriums on building UNLESS the plans include gray waters usage for landscaping. We are raping our land and limiting our sustainable future. This plan has no benefits for No. California and the rest of the country could be impacted by loss of agricultural lands. |
| Jerrica Descovich | Concord, CA | 2015-09-23 | The delta's water needs to be left alone. Transferring the water out of there will hurt the lives depending on the delta for their well being. This includes humans and non humans. It will alter the salinity of the entire delta allowing invasive species to thrive- which in turn will kill the key indicator species, the delta smelt an already endangered fish along with all the other delta native species. |
| Keith Ostrom | Bethel Island, CA | 2015-09-23 | this is another problem. No water means no food. So southern Cal needs to build desalination plants if they want to irrigate their desert for green lawns and drink water too. |
| Jennifer Scott | Lebanon, OR | 2015-09-23 | Save my childhood memories This is crazy the water belongs there |
| Erik Zechlin | Folsom, CA | 2015-09-23 | I believe the construction of tunnels that will divert water from the San Francisco Bay delta will be detrimental to the Delta eco system. |
| emil Brodston | Lodi, CA | 2015-09-23 | Tunnels are not the answer to the problem. The research has already been done, and that's what it shows wake up. |
| John PENAFLO | Stockton, CA | 2015-09-23 | I don't want our Delta waterways touched. In a time where more awareness is made in preserving natural resources, it doesn't make any sense. |
| Amanda Blosser | Sacramento, CA | 2015-09-23 | I don't want the Delta to be siphoned off to the highest bidder. |
| Taleah Cherry | Sacramento, CA | 2015-09-23 | Its the right thing to do |

| Name | Location | Date | Comment |
|----------------------|-------------------|------------|--|
| Earl Price | oakland, CA | 2015-09-23 | Beccause these large water districts do not take precedence over state welfare. No more Owens River Valleys. At the sametime Big Ag's interests are different then those of the people of California. This needs to stop |
| Holly Neber | San Francisco, CA | 2015-09-23 | I'm signing because I love the Delta. |
| Andrew Pattisson | Mountain View, CA | 2015-09-23 | My family has enjoyed all the Delta offers its vast community for 50 years. |
| FANCHON BOYETT | Altadena, CA | 2015-09-23 | I'm SICK of corporate america always getting its way and ruining everything without a single thought for anything or anyone else other then themselves and their investors. We have to stop them! Oh and that jerry brown is the biggest jerk who has no business being in charge. Yet another awful thing he's going to do before he leaves office. What a scumbag! WE support the state, NOT the big corporations-they don't pay any taxes and only give bribes to the politicians. What a SCAM! |
| Andrea Rios | Stockton, CA | 2015-09-23 | It's appalling to sit back and watch greedy persons of unimaginable wealth take over our resources. |
| Jessica Leitch | Menlo Park, CA | 2015-09-23 | I care a great deal about the families, and their generations of farming /land ownership, in the Delta |
| John Ahearne | San Francisco, CA | 2015-09-23 | There are better alternatives than destroying an already over burdened ecosystem. |
| Tim Sawyer | Tracy, CA | 2015-09-23 | I want my kids & grand kids to be able to enjoy Fishing, Boating, & Hunting, and to just enjoy the beauty of the outdoors which is becoming extinct. |
| Lisabeth Azevedo | Walnut Grove, CA | 2015-09-24 | I don't agree with governor brown. he doesn't know what hes talking about. |
| Deanne Smith | Fairfield, CA | 2015-09-24 | I do not want to see another Owen's Valley. Leave the Delta alone!! |
| Luc Drouin | Cerritos, CA | 2015-09-24 | We need to find a better solution to fixing this drought and water problem. Ruining a habitat is not good at all. For earth and for the people. |
| James bedgood | Discovery Bay, CA | 2015-09-24 | gov brown is trying to destroy California's natural wildlife. |
| Mike Hansen | Stockton, CA | 2015-09-25 | taking water from one area of the state and giving it to another is not sustainable and a terrible idea |
| Liz Haemmel | Concord, CA | 2015-09-25 | Why do we allow fracking in the Delta ? We don't have enough water in this state for that! Fracking can cause earthquakes and levees to fail! |
| James Bane | Watsonville, CA | 2015-09-25 | I don't want to see a beautiful part of our planet destroyed for the benefit of rich farmers or politicians. |
| john barry | Vacaville, CA | 2015-09-25 | The tunnels do nothing to support the fish and wild life of the delta |
| Eric mays | Elk Grove, CA | 2015-09-25 | im so furious with the way politicians rape the land to make a buck. There is no long term, sustainable thinking. It should be illegal to farm the wetlands farm land. |
| Nadine Peyrucain | Martinez, CA | 2015-09-25 | Stop using drinking water for refining petroleum and fracking --the there won't be a need for shipping yet more water (that we don't have) down south. Less expensive to revamp old water deals. No more water to commercial bottlers, no more growing crops that require high amounts of water---all of this is common sense. Stop giving away our water to corporations. |
| Patrick L Von Behren | Pleasant Hill, CA | 2015-09-25 | I oppose the Delta Tunnels. |
| George Perry | Rio Vista, CA | 2015-09-25 | I don't want the twin tunnels built, destroying all the Delta and the habitat therein. |
| sherry martinez | Modesto, CA | 2015-09-25 | The Stanislaus does not need to loose any more water.If you havent heard Jerry Brown we are in a drought.Our farmers need water for their crops. |
| josh palmer | Cottonwood, CA | 2015-09-25 | Jerry Brown is gay. And also very misled. |

| Name | Location | Date | Comment |
|-----------------|------------------|------------|--|
| Marcus Pun | Oakland, CA | 2015-09-25 | The two tunnels project will increase salinity levels in the Delta, destroy what's left of the fisheries and what little freshwater flows there are left into the SF Bay. |
| Jake Jenzn | Washington, DC | 2015-09-25 | Basta al destrucción! |
| Rod Kirk | San Jose, CA | 2015-09-25 | The SF Bay Delta is a natural resource that plays an important part for the natural state of the ecology. the Delta Tunnels would be another step is destroying what is naturally necessary for a healthy state. Please do what is right. The Delta Tunnels are no good. |
| Larry Hamilton | Lodi, CA | 2015-09-25 | The Delta is my HOME and my LIFE. |
| Sam Yee | Wilton, CA | 2015-09-25 | Robing Peter to pay Paul is not a solution to the increasing our water supply, we have a ocean of water right next to us. Some leadership & innovation will help us to tap that ocean forever. An endless supply of water & lots of renewable solar wind & wave energy right where you need it. Leave our water alone, Fish in the Delta are just the Canary in the Coal Mine. |
| luann king | sacramento, CA | 2015-09-25 | we need to stop these tunnels they will ruin the environment |
| Rachael Long | Zamora, CA | 2015-09-25 | Oppose shipping water south at the expense of fish and delta salinity |
| Arie Hope | Stockton, CA | 2015-09-25 | The Delta is already in bad shape. Removing water from upstream will only make it worse. |
| Martha Swaim | Sacramento, CA | 2015-09-25 | Instead of tunnels to nowhere, make a tunnel of the peripheral canal by shielding it from evaporation with solar panels. |
| Brian Azeltine | Oakley, CA | 2015-09-25 | The tunnels are a terrible idea, with untold repercussions that haven't been researched, and won't be researched. |
| Mariana Vega | Brentwood, CA | 2015-09-25 | I live less than half a mile away from the Delta. This is my backyard! This plan is flawed and will not solve the water crisis. It will simply divert our water and create new problems. |
| Daniel Woodward | Sacramento, CA | 2015-09-25 | It is fundamentally wrong to do this. The tunnels will continue to destroy the natural resources that we have. Money should be spent on making what we have more efficient and in renewable sources. |
| Tom Beyer | Walnut Creek, CA | 2015-09-25 | I am a recreational angler that utilizes the Delta on a regular basis with my family and friends and don't want to see it drained to benefit a few billionaire farmers. |
| Jeane Wasserman | Brentwood, CA | 2015-09-25 | Will ruin our delta and the life in it! |
| Brett Griffin | Lodi, CA | 2015-09-25 | The natural eco system of the Delta must not be tampered with. The need to build and maintain a water retention system throughout the state is at hand. Build reservoirs, don't drain the Delta !!! |
| Charles Oliver | Milpitas, CA | 2015-09-25 | To save natural habitat |
| Craig Joseph | Oakley, CA | 2015-09-25 | I oppose poor decisions |
| Gil Walker | Woodland, CA | 2015-09-25 | I don't want the Delta impacted by less water and the construction will also affect the sensitive ecology. |
| Dennis Everett | Roseville, CA | 2015-09-25 | I fish therefore I am |
| Lawrence Horn | Walnut Grove, CA | 2015-09-25 | I believe that the Delta Tunnels will do significant damage to the Sacramento/San Joaquin Delta. The project will lead to over pumping and increases salinization of the waters in the delta causing irreparable damage to farms and water quality. |

| Name | Location | Date | Comment |
|-----------------|--------------------|------------|---|
| Ray Rhead | Tracy, CA | 2015-09-25 | I'm 46 years old and have enjoyed the delta since I learned to water ski at 6 years old. Through the years I've witnessed a continued deterioration of the delta on the Tracy side. Your 60 billion dollar plan at my expense does not create anymore water to flush this toilet bowl nor create more water for the survivability of the delta. Instead you wish to rob the vital resource to the delta and keeps it flushing to give to some crop land that supports selling almonds to another country. How could such wise people make these water deals when we are actually in a drought. Inferiates me when elected officials circumvents the good will of the citizens and environment in the name of greed. |
| Mark Alexander | Millbrae, CA | 2015-09-25 | it's counter-intuitive for a supposed environmentalist like Gov Brown to be promoting a project with such disastrous environmental consequences as this "tunnel" project. |
| Ryan Rollins | Fairfield, CA | 2015-09-25 | Don't drain the Delta! |
| Ruby Boden | Alameda, CA | 2015-09-25 | Gov Brown is either motivated by money or is completely insane and needs to be removed from the office of Governor of California immediately as his tunnels would surely destroy all the wildlife that live in the Delta |
| Devon Eilers | Placerville, CA | 2015-09-25 | I'm signing this petition because the Delta is a critical habitat for wildlife. It's depletion will have a terrible impact on migratory fish and birds, which in turn will have consequences around the world. Southern California needs to find a way to cut their water use to sustainable levels, instead of taking it away from other people and animals! |
| Vic Howard | Exeter, CA | 2015-09-25 | Nobody is entitled to take another areas natural resources |
| Michael Gray | Bay Point, CA | 2015-09-25 | I grew up with the delta. It reminds me of the song "Old man river". This is apart of the habitat of the SF Bay Area. Even though it's not a national park water way, it should be. |
| Ariel Rice | Morgan Hill, CA | 2015-09-25 | I care about our state's natural ecosystems! |
| Mary Rios | Conifer, CO | 2015-09-25 | Save the Delta |
| Justin Isley | Lodi, CA | 2015-09-25 | It's a complete waste of our tax payers money. Build a damn desalination plant and have endless water |
| Sandra McMullan | Danville, CA | 2015-09-25 | I have been enjoying the Delata for over 44 years, it's a uniquely special place. Water skiing and fishing are two important reasons to protect our Delta. Hands off. |
| Rachel Olson | Citrus Heights, CA | 2015-09-25 | leave the water alone, shut down the water parks or something else |
| Julia gorgone | Oakland, CA | 2015-09-25 | I don't want to see our delta wildlife hurt by human unsustainability. |
| Hazel Camarillo | Stockton, CA | 2015-09-25 | It will ruin the ecology and affect the Valley's agriculture!! |
| Diana Rubalcaba | Oakley, CA | 2015-09-26 | I'm signing to save the Delta environment and protect our recources. |
| David Manske | Elk Grove, CA | 2015-09-26 | I want to preserve the Delta for the agriculture that feeds the country.. |
| Roger Goldston | Brentwood, CA | 2015-09-26 | I'm signing because fish this delta. |
| Rick Rinehart | FAIRFIELD, CA | 2015-09-26 | I grew up on Delta farmland. I love to fish. I love the marshes and natural wildlife in our delta. |
| Lorraine Mutone | Richmond, VA | 2015-09-26 | I have friends and family in this part of the country and although I live on the other side of the country preserving nature is the right thing to do. |
| Lance Clifton | Rocklin, CA | 2015-09-26 | This is not a smart idea. I cannot believe our governor is really trying to push this through |
| Maria Strock | Antioch, CA | 2015-09-26 | Stop killing our Eco Systems |

| Name | Location | Date | Comment |
|--------------------|---------------------|------------|---|
| Michael mccullough | Valley Springs, CA | 2015-09-26 | These tunnels are not logical they would ruin our Delta. You would have to be a lunatic to endorse something like this initiative |
| Lisa Brock | Elk Grove, CA | 2015-09-26 | it will destroy the Delta, the fishing, the local farmers! It will only help the corporate farmers who send their produce overseas and the Southern California residents who waste the water down the streets! |
| Tyler Cajigas | Sacramento, CA | 2015-09-26 | I am passionate Bass angler that participates in catch and release. I love fishing the Delta, as it ranks in the nations top 10 for Bass fisheries. Anymore water taken from this estuary could be detrimental to not only the estuary itself, but also the economy that the small cities around the delta get from all the tournament anglers and seasonal anglers that visit. |
| Sheila honey | Antioch, CA | 2015-09-26 | I've lived by the Dekra most of my life. We need to preserve this beautiful and vital waterway for future generations. |
| Ben Villanueva | Beaverton, OR | 2015-09-26 | Fisheries and watersheds are to be protected before any residential and agricultural water solutions are proposed. |
| Jerry Brannon | Livermore, CA | 2015-09-26 | The tunnels will kill our delta and devastate our fisheries |
| Bryce Giordanengo | Livermore, CA | 2015-09-26 | The government is a complete joke and this can't happen |
| Meng Lor | Sacramento, CA | 2015-09-26 | Water is a sign of health of not just us beings, it's also about the games that million people enjoy. I feel the need to sign this because the statement seems awfully true. |
| Dawn Miller | West Sacramento, CA | 2015-09-26 | I live on the Sacramento river. We must preserve our environment and this rare asset. This project is unconscionable and a waste of funds. |
| Angela Rohde | Rio Linda, CA | 2015-09-26 | It needs to be stopped |
| Brandon Wagner | Stockton, CA | 2015-09-26 | We need to protect the delta environment and delta farming. Southern California has already dried up Owens lake! Find another source for Southern California's water needs! |
| Gerald Ng | San Ramon, CA | 2015-09-26 | We are being sold out for greed by our state officials who do not listen to their constituents. They are not listening to common sense approaches to resolve the water issues |
| George Diaz | Woodbridge, CA | 2015-09-26 | I oppose the tunnels |
| Miguel Santuario | San Francisco, CA | 2015-09-26 | We need to protect our ecosystem. |
| Laureen cordova | Glendale, CA | 2015-09-26 | We've done enogh damage to the earth and to marine life. Let it go. Leave it be. Instead, Let's produce a project that will eliminate pollution |
| Tim Roe | Longview, WA | 2015-09-26 | My boat is on the delta in Stockton ca and I don't want the delta to change |
| Travis Drewek | Redding, CA | 2015-09-26 | Because I love nor cal. |
| Zena C Solano | Stockton, CA | 2015-09-26 | I oppose Delta tunneling greatly. And want my signature to be considered and counted with the many others who care to help save Delta water ways for future generations. |
| Thomas Plowman | Santa Cruz, CA | 2015-09-26 | I grew up in the delta. California leadership has never looked towards the future, only their bank accounts. Hoping they will realize this is huge mistake that will raise taxes on an already over taxed state. |
| heidi peterson | Stockton, CA | 2015-09-26 | no no no! doesn't fix anything |
| Marie Knowled | Vacaville, CA | 2015-09-26 | I'm signing because these tunnels are a detriment to the environment and a financial burden to the citizens of California |
| Todd Carter | Watsonville, CA | 2015-09-26 | We live here! YOU CAN'T KEEP DESTROYING OUR ENVIRONMENT! |

| Name | Location | Date | Comment |
|-----------------------|-------------------|------------|--|
| JUDY CALLOPY | STOCKTON, CA | 2015-09-26 | I believe these proposed tunnels will destroy the Delta environment. There are other solutions for the southern part of the state that don't involve our destruction. |
| Steven A. Smith Smith | Bethel Island, CA | 2015-09-26 | I have been living in Contra Costa County my entire life of 54 yrs. I have been boating-fishing-enjoying the Delta since the age of 3, I currently live in a waterfront home and own two boats, I have been watching our Delta being slowly destroyed since the late 60's, starting with the PG & G release of boiling water in Pittsburg and seeing thousands of dead fish floating by our boat, to watching the removal of dead fish caught up in the pumps near Clifton Forebay, (approx. 1,250,000) every year. My friend caught a Leopard Shark off Antioch Public fishing pier in July, 2015. And the latest problem is, we have been seeing Jelly Fish drifting by our dock in Bethel Island. This drought is causing salt water intrusion to move farther up our rivers every day, I know, I see it. I honestly do not feel ANYONE has ANY IDEA what irreversible damage it will cause to our Delta IF 30% MORE FRESH WATER IS TAKEN FROM IT! I hope my children don't have to look back and say..."I remember before, when the Delta was alive, it wasn't a overgrown, lifeless, salt marsh, and there was fresh water we used to swim in there, catch fish with our dad, what a waste, and why? It was for nothing but GREED, PURE GREED! Mankind's fate, selfish greed, never caring about cause and effect to even their own children? Who are these people who have no soul, no pride, no respect, no responsibility? These are the ones who should be brought to trial for what they have already done, likewise what they continue to do! Please, tell me I am wrong, and this is not happening? Steven Smith |
| Jennifer Ball | Pacifica, CA | 2015-09-26 | I care about land like it is our children. |
| Catherine Senior | Bethel Island, CA | 2015-09-26 | I oppose the tunnels. Take the money and build a desalination plant! Northern California delta will be heavily impacted by taking the fresh water and allowing salt water into the area. |
| jim wilson | Lodi, CA | 2015-09-26 | I have lived on the delta at tower park for 25 years and love every bit of it and the people here are the best friends you'll ever know. The tunnels can;t make me move. |
| Melinda Manning | Napa, CA | 2015-09-26 | Find another way to supply the rest of the state with water! Leave Northern California water alone! Bad enough the is the aquatic sending water south! They do not conserve water they are sucking us dry! |
| Aaron Martinez | Stevinson, CA | 2015-09-26 | Northern California has a right to it's own water. |
| Shelly Keller | Sacramento, CA | 2015-09-26 | I'm signing because the BDCP/California Water Fix will kilt Delta and the San francisco Bay so some greedy corporate farmers can have water, while our wildlife get NONE and Northern Californians get NONE. |
| Jewell Warren | Sacramento, CA | 2015-09-27 | Northern California is becoming a desert because of all the water that is being sent to the south. The tunnels will destroy an entire ecosystem. Build desalination stations along the coast. The Pacific Ocean is an immense resource. |
| Denise Putnam | Modesto, CA | 2015-09-27 | Save the Delta!!! |
| Michael Bagnod | Oakley, CA | 2015-09-27 | I believe the tunnels will be a detriment to the area. |
| Liz Derobertis | Petaluma, CA | 2015-09-27 | i grew up on the Delta, spent many days/nights there with family and friends. It's needed for so many livelihoods, the people on the Delta don't have much to survive off of and eliminating the water is essentially eliminating them and the many generations that follow. This is not a solution. |

| Name | Location | Date | Comment |
|--------------------|-------------------------|------------|--|
| Barbara Adams | Modesto, CA | 2015-09-27 | I am signing this because I am tired of our government sending the delta water to other places. We have more use of it since we farm and this farming feeds millions of people nationwide! Stop Jerry Brown! |
| allan roff | Sacramento, CA | 2015-09-27 | This is a complete waste of money this is just a big money grab for the Southern California water district who can't manage their own problems they just keep building and building and by paying off a few people they can just take it from somebody else they can't managing their own problems |
| Kaaren Maines | West Point, CA | 2015-09-27 | I am against Gov. Browns tunnel project. |
| Garrett Strickland | Citrus Heights, CA | 2015-09-27 | Because if these tunnels go in they will dramatically impact the deltas eco system |
| Darlene vote | stockton, CA | 2015-09-27 | Too costly, at this time, and we don't even have enough water to take care of ourselves at this time. WTF |
| Steven Ponte | Stockton, CA | 2015-09-27 | I'm signing because the future of the Delta belongs to our valley's children, not big AG or any other entity not invested in our city/county/regions best interest. |
| Richard Wilpitz | San Francisco, CA | 2015-09-27 | We do not need another big engineering water project. We need some social engineering to use water wisely and in harmony with nature |
| Bonnie mcGuire | Sunnyvale, CA | 2015-09-27 | i believe this plan will destroy the California Delta |
| Carl Schenker | Stockton, CA | 2015-09-27 | The Tunnels will destroy the Delta and AG farmlands. |
| Ron Zigelhofer | Camino, CA | 2015-09-27 | The "Twin Tunnels" are the biggest boondoggle in California water history. |
| Janet Barone | San Jose, CA | 2015-09-27 | This is the worst thing they can do to the Delta. Don't the government officials have any sense or are they just puppets for the moneyed grabbers. I thought this was settled the lat time we voted against the canal. How maney times do we have to tell them no by our vote? |
| Bill Waterson | Turlock, CA | 2015-09-27 | Nature has done a great job with the Delta. Let us not harm it! |
| Pamela Coburn | Lodi, CA | 2015-09-27 | Northern/central California is vital and productive, too. We need our own water! Lots of us are citing Democrats, too, not just GOP. I want to continue to be proud of the Democratic Party. Help us! |
| Raul Delarosa | SF, CA | 2015-09-27 | I'm opposed to destroying the Delta. What we NEED is rain. |
| charles dawson | Escalon, CA | 2015-09-27 | I am a farmer, do not want our water exported south. Let's build some storage, not just shuffle what water we have around. |
| Faye Inoue | Stockton, CA | 2015-09-27 | The Delta tunnels need to be stopped. Agriculture in the central valley of California is more important than green lawns in Beverly Hills! |
| Kristian Du Vall | Rio Linda, CA | 2015-09-27 | This insidious plan is far fetched from working. I have fished the rivers and Delta for over 30 years. Shame on you Jerry Brown. |
| Rosalie Yacoub | Sacramento, CA | 2015-09-27 | The State pulled out the only reason to support this project: funding for the much needed restoration projects that would improve the ecosystem in the Delta and upstreams. Now it is a hollow, water-robbing shell. |
| Kevin McCauley | Citrus Heights, CA | 2015-09-27 | I believe this project isn't environmentally sound nor cost effective...spend that time and money on water desalination plants and well/ dam projects instead. |
| Jessica Chavez | Antioch, CA | 2015-09-27 | I live here on this beautiful place called the delta! We love it here and do not want our ecosystem ruined! |
| Lori Laino | South San Francisco, CA | 2015-09-27 | I don't agree with destroying the Delta. |
| Irene Kovacs | Rio Vista, CA | 2015-09-27 | The Tunnels are the wrong solution. |
| Meredith Dean | Brentwood, CA | 2015-09-27 | I am signing because the Delta Tunnels do not solve anything. They would create bigger problems by devastating the ecology of our beautiful region. |

| Name | Location | Date | Comment |
|---------------------|---------------------|------------|---|
| Megan Escudero | Mesa, AZ | 2015-09-27 | I oppose the tunnels, it will NOT solve the problem. |
| Rick Selfa | Stockton, CA | 2015-09-27 | This is our water to sustain the Delta. The first Governor Brown took our water thru the Delta - Mendota and California Aquaduct. Pleas don't let this happen again. This is our home. |
| Linda Johnson | Lodi, CA | 2015-09-27 | I live on the Delta and don't want it destroyed by these tunnels! |
| Diana OBrien | Isleton, CA | 2015-09-28 | I live in the Delta!!! No Tunnels!!! |
| Susan Conrad | Oakland, CA | 2015-09-28 | The SF Bay Delta is a rare ecological treasure, and these tunnels would destroy it beyond repair. We have an ethical and moral responsibility to protect this rare, beautiful, and ecologically rich area, |
| Deborah Gregson | Greensboro, NC | 2015-09-28 | The Delta and SF Bay are struggling as it is. You don't need to mess it up with some hair brained idea that will steal people's homes, waste tax money and benefit no one. Use sense and fix the problems that exist. (Can you say Oakland Bay Bridge?) |
| Amy Murry | Fruita, CO | 2015-09-28 | The San Francisco Bay-Delta is the largest and most unique estuary on the Pacific Coast of the Americas. Fresh, clean, water supports the largest nursery for California fisheries, the largest Pacific Coast fly over stop for migrating waterfowl, more than 500,000 acres of California prime farmland, and an urban community that is home to over 4 million people. Gov. Brown has proposed massive underground water export tunnels now called the "California Water Fix" though it is essentially the same project as the peripheral canal, which California voters rejected in 1982 by a 62.7% majority. The tunnels could grab the Sacramento River, which is the main supply of fresh water in the Delta and San Francisco Bay estuary. About 30 percent of water exported from the Delta goes to cities. But Big Ag on the southwest side of the San Joaquin Valley get about 70 percent of Delta water, which mostly goes to grow water intensive almonds and pistachios on unsustainable desert soils for lucrative overseas exports. The Tunnels plan would be devastating to the ecology and economy of the San Francisco Bay-Delta region. The plan also ignores shovel-ready urban and rural projects that would create local jobs and enhance water sustainability for the future. The Delta Tunnels will also fail to provide a more reliable water because the Delta watershed is already oversubscribed by five times in normal water years. |
| Robert Anderson | El Dorado Hills, CA | 2015-09-28 | Keep the water in the Delta were it belongs. Why should I "the taxpayer" pay for this? |
| Robert Hauck | Sacramento, CA | 2015-09-28 | I do not want to see our delta destroyed. |
| Nancy Peterson | Alameda, CA | 2015-09-28 | I don't want the destruction of a crucial part of our state's ecology. |
| Robert Madden | San Pedro, CA | 2015-09-28 | I appose this project it will destroy a wetlands delta. |
| Krystal Trejo | Sacramento, CA | 2015-09-28 | I don't feel this is a solution to our issue at this time. |
| allen crostic | Garden Grove, CA | 2015-09-28 | We don't need tunnels , we need better water management in California. Ca.needs above ground projects from water sources that are not so destructive to the delta or any environment. Stop the cronie capitalism Jerry Brown this just like his crazy Train ! follow the money |
| Marilyn Marco | Oakland, CA | 2015-09-28 | In these dire times of water shortage, this is a short sighted proposition that does not protect the Bay Area. We cannot afford to divert any more water nor polute the water we have. |
| Marilyn Reineman | Stockton, CA | 2015-09-28 | These tunnels will destroy northern California and displace millions of people. |
| Christopher LaPoint | San Rafael, CA | 2015-09-28 | Legislature is scapegoating the real problem. Selling most of the fresh water is the real problem. Stop the aqueduct and nut farmers first!!! |

| Name | Location | Date | Comment |
|------------------|---------------------|------------|---|
| James Fritz | Los Gatos, CA | 2015-09-28 | The tunnel project will be terrible environmental disaster for the California Delta. |
| James Gayhart | Anderson, CA | 2015-09-28 | I think thatcc i shood stand up fore what I believe in |
| FRANK LASITER | Oakdale, CA | 2015-09-28 | TUNNEL MAKES NO SENSE. |
| Karen Conerly | Stockton, CA | 2015-09-28 | I |
| KEVIN PENFOLD | Soulsbyville, CA | 2015-09-28 | WE NEED THE DELTA TO STAY HERE AND STAY ALIVE!!!!!!!!!!!!!! |
| Matt Garibaldi | Stockton, CA | 2015-09-28 | Please do not ruin our delta by allowing these tunnels! |
| Regina Reyes | Sacramento, CA | 2015-09-29 | I'm signing because I am concerned about our water supply and the environmental impact this project. |
| Jerry Urban | Modesto, CA | 2015-09-29 | This a water grab by the mega farmers in the Bakersfield area and the rich politically influential folks in LA. It makes no sense for the delta and it's declining economy system. It the power of big money over doing what is right for the delta and the folks that rely on it. |
| Matt Garibaldi | Lodi, CA | 2015-09-29 | I like to sign petitions |
| Donald Jepson | Modesto, CA | 2015-09-29 | I'm signing because the tunnel system will damage the delta system and further endanger fish and wild life. |
| Lincoln Blakely | Manteca, CA | 2015-09-29 | Put it up for a vote, Northern CA, only |
| Carol Colin | Santa Cruz, CA | 2015-09-29 | I am against Fracking and we need to save our water. |
| Tim Martinez | Stockton, CA | 2015-09-29 | because this doesn't solve the problem. we need more water storage and this will destroy the Delta!! |
| Dale Kayser | Sacramento, CA | 2015-09-29 | Don't screw with Mother Nature! |
| Daniel Salzman | San Diego, CA | 2015-09-29 | I do not want to see the delta destroyed like Owens valley, mono lake, and every other water grab project has done. |
| Christine Coyner | Stockton, CA | 2015-09-29 | This politically motivated engineering project will undermine the fragile, environmentally unique inland delta as well as remove more land from agriculture as well. It is an unmitigated environmental travesty. I like Gov. Brown but he is WRONG on this issue. We don't have the engineering capability to insure that it will be done correctly--just look at the Bay Bridge and the problems with the bolts as an example. We need to restore the Delta not destroy it. |
| Dave Hemphill | Valley Springs, CA | 2015-09-29 | I believe that this action would kill the delta habitat. This is a diverse and exceptional area that needs to be protected. Every year, the Delta is becoming more and more saline. |
| Suzanne Carter | Tracy, CA | 2015-09-29 | We want to keep the Delta a natural habitat for the wildlife that has lived there forever. |
| Sam Romero | Stockton, CA | 2015-09-29 | We need fresh water !! |
| Regina Prado | Forest City, IA | 2015-09-29 | The delta is low on water already.We need every drop. |
| Ron Fili | North Highlands, CA | 2015-09-29 | Noooo NEED to ruin the California Delta!!! For the greed of people!!!! |
| Dana Shokes | Sacramento, CA | 2015-09-29 | I live here. |
| Eric Alicia | Sacramento, CA | 2015-09-29 | I love the delta and dont want it ro be destroyed |
| William Heinle | Arnold, CA | 2015-09-29 | I work at a water treatment plant and that water is much need in our own area |
| dan james | Sonora, CA | 2015-09-29 | its going to destroy the delta fisheries and the recreational waters |

| Name | Location | Date | Comment |
|------------------|-------------------|------------|--|
| Michael Seaman | Arden Arcade, CA | 2015-09-29 | The tunnels will ruin the Sacramento/San Joaquin/SF Bay delta ecosystem and do irreparable harm to the local Delta economy for the primary benefit of a small group of beneficiaries (e.g. Corporate Welfare Queens like the Resnicks, Big Oil frackers like Chevron and sleazy water purveyors like Westlands) who privately profit from subsidized public water. The public will be stuck with an enormous long-term bill (\$60B or more) without any real change in the overall water supply, yet the public has not been given the opportunity to vote on the project (perhaps because the proponents recall all too well that the public soundly rejected the Peripheral Canal referendum). |
| Steve Conger | Lockeford, CA | 2015-09-29 | The loss of fish species is not acceptable |
| Susan Hoster | Discovery Bay, CA | 2015-09-29 | I'm signing this because we need reservoirs not tunnels to favor the almond growers and So Cal. |
| Karyn Wolfe | Marina, CA | 2015-09-29 | Our water solutions need to be with the ecology first in mind; as humans, we must tailor our actions to the needs of the earth. Our attention needs to go to changing our water requirements by farmers; investing in decentralized water catchment and storage; stopping our ridiculous practices of sending stormwater out to the ocean; building in water re-use, cisterns, and greywater systems throughout the state. We are a DRY state; we need to face reality and build our lifestyles around this fact, not live a pipe dream of lush, green ridiculous lawns and pools that make a mockery of our water future. Rebuild the water table, etc. Invasive projects like the tunnel are a waste of money and further devastating to the land. |
| Carol Thornton | Berkeley, CA | 2015-09-29 | I'm signing this petition because this project is bad for all Californians. |
| Corinne Hamer | Carmichael, CA | 2015-09-29 | Northern California water supply is too erratic. Supplying water in flood years doesn't help in drought years. Supplying water in flood years creates dependency on the water that can't be sustained in drought years. Don't create even more dependencies. |
| Barbara Leary | Folsom, CA | 2015-09-29 | The tunnels are an expensive, devastating plan which will permanently damage the Northern California landscape and economy. |
| Dawn Gulick | Rio Vista, CA | 2015-09-29 | I live in the beautiful CA Delta and do not want it to be destroyed! |
| Karen Franscioni | Birds Landing, CA | 2015-09-29 | The California Delta is one of the most beautiful places in California. It is home to a variety of wild life. Please do not take away this home to many, human and creature alike. There must be other solutions! |
| Kathy Olson | Rio Vista, CA | 2015-09-30 | I want to stop the tunnels. |
| Richard Olson | Rio Vista, CA | 2015-09-30 | Stop the Delta tunnels. All the experts agree it will harm the Delta. The High Speed Railway and now this????? |
| Sally Trestrail | Sutter Creek, CA | 2015-09-30 | I'm signing because I think the idea of these massive tunnels is just wrong. There are alternatives...and my son-in-law farms in the Delta. His family has farmed in the Stockton area since the 1920's. Due to the current drought, salinity is becoming a problem already. The tunnels, I believe will only make it worse. What a shame it would be to ruin the largest fresh water estuary on the pacific coast. The "farmers" that are requesting this water are growing crops that are unsustainable in the desert areas they are using. I urge you to find another solution. |
| Steve Lawler | Discovery Bay, CA | 2015-09-30 | This pursuit is a travesty to our state. Stop this madness |
| john gentz | Concord, CA | 2015-09-30 | I kiteboard fish and live for the delta. |
| Angela Kingshill | Sacramento, CA | 2015-09-30 | Water cannot and should not be bought. NO ONE should have water rights. Who's going to speak for the water? Protect our natural resources! |

| Name | Location | Date | Comment |
|----------------------|-------------------|------------|--|
| Matthew Marden | Grass Valley, CA | 2015-09-30 | The tunnel"plan is the height of stupidity, short sighted hubris. We should stabilize our population and cease urban development. Ther will never be enough water to satiate the thirst of the horrible mess in desert southern California. |
| Claire Matthews | Pacifica, CA | 2015-09-30 | I want to preserve the delta, and put my taxes towards fixing the water systems we already have in place and make them efficient. |
| William Kutzer | Wilton, CA | 2015-09-30 | The tunnels will be a disaster for what is a beautiful ecosystem that took eons to develop. It is a shame in today's world where everyone is so concerned about the environment UNTIL it is self-serving. Then, all of a sudden, to hell with the environment.....SAD DEAL!! |
| Janine Seaton | Discovery Bay, CA | 2015-09-30 | I am concerned about the future of our water ways and water quality. |
| Lorraine Wolf | Rio Vista, CA | 2015-09-30 | I live on this delta |
| Patricia Dinkelspiel | San Rafael, CA | 2015-09-30 | The delta is a fragile Eco-ststem that will not survive if tunnels are constructed!!!! |
| Cheryl Hitchcock | Stockton, CA | 2015-09-30 | i want to save our Delta, not destroy it. |
| Taleb Jenkins | Oakland, CA | 2015-09-30 | We need to preserve the Delta region |
| Tammy slivar | Oak View, CA | 2015-09-30 | I am signing because my entire family lives up there and u do not believe redistributing the water is the answer. I think this has to so with greed and politics. |
| Elizabeth Bernheim | LA, CA | 2015-09-30 | Because we do not want to the delta die! |
| David Gloski | Bethel Island, CA | 2015-09-30 | Tunnels are going to ruin the Delta and they are not a long term fix. Financial charges for water rights and desalinization are the keys to a long term solution. |
| Robin Durston | Sacramento, CA | 2015-09-30 | I love the Delta |
| Alfred Alys | Petaluma, CA | 2015-09-30 | Special interest greed cannot and should not be subsidized by tax payers |
| mikhail tsargorodsky | Discovery Bay, CA | 2015-09-30 | I am signing this petition because this plan doesn't make sense from economic, environmental, or public health points of view. Although it does have big economic stimulus for it's proponents, not for the public |
| David Cowell | Grass Valley, CA | 2015-09-30 | The tunnels would destroy my spiritual home. I go there to repair my soul from the insanity of our civilization. |
| Steve Christie | Discovery Bay, CA | 2015-09-30 | Because i feel the tunnels serve no purpose in californias conservation of water. |
| Dan Ketchpel | Camarillo, CA | 2015-09-30 | I'm signing because I very much enjoy the Delta and think the money should be spent on desal plants instead which would actually produce more fresh water, not just ATTEMPT to redistribute what little we have. The tunnels will only benefit the big Ag companies and why Dictator Brown is trying so hard to push them through. |
| Teri Olsson | TwainHarte, CA | 2015-09-30 | Opposed because of the devastation to the environment that it would cause |
| Laura Polden | San Jose, CA | 2015-09-30 | It's my favorite place in the world. |
| Gregory Barnes | Bethel Island, CA | 2015-09-30 | The issue is mismanagement in the creation of paper water. Our I trusted servants are making irreversible decisions effecting precious natural resources. |
| Gina Gloski | Shirley, MA | 2015-09-30 | I live in the Delta and care about our region. |

| Name | Location | Date | Comment |
|----------------------|-----------------|------------|--|
| Gayle Marta | Yuba City, CA | 2015-09-30 | I'm signing because the Delta is already in a fragile state. Good water and water levels are essential to sustaining and improving the condition of the Delta. Putting in destructive tunnels and shipping more water out of the Delta will not in any way help to repair the Delta. As stated in this letter, there are much more cost effective ways to deal with our water needs than taking more water from the Delta! |
| Josh Kaneko | Berkeley, CA | 2015-09-30 | I strongly oppose the destruction of the fisheries in the Bay Delta estuary system. |
| Kristin Skliba | Costa Mesa, CA | 2015-09-30 | I do not want to see the Delta community destroyed. |
| Dorothy Dale Dorothy | Rio Vista, CA | 2015-09-30 | SAVE OUR TUNNELS |
| Helene d'Esterhazy | Huntsville, AL | 2015-09-30 | To save the Delta! |
| Mr Ganymede | Oakland, CA | 2015-09-30 | This project is a swindle. It is a snow-job preying on people's fear and ignorance of the real issues. This is the wrong direction! We need real solutions, not corporate deceptions! |
| Victor Shaw | Brentwood, CA | 2015-09-30 | California as a state itself hardly has enough water already. If you look back in history, every successful city was by a natural running water supply. So why would we have the majority of our population living in a desert? Second, why don't we build tunnels connecting the east coast with the west coast instead. States with floods and an excess amount of water that would be dumped into the ocean could be tunneled to other states in a drought. It's a win win for everyone. The flooding state has less property damage and the state in need of water is no longer in dispute with cutting water off to the farmers and shorting this land from food. Also why grow plants that need the most water in a state with the least amount of it? |
| David Perkins | Murphys, CA | 2015-09-30 | I want the health of the delta preserved for perpetuity.... |
| Greg Peterson | Fairfield, CA | 2015-09-30 | This is a bad plan drafted by greedy corporate interests in Southern California. It will destroy the ecosystem of the Delta. |
| Jacque Peterson | Los Altos, CA | 2015-09-30 | It is necessary for the delta and those farmers and all of Northern California to be able to survive to NOT build those tunnels and take our water down south. |
| Lindsay Del Carlo | Santa Cruz,, CA | 2015-09-30 | This plan for the tunnels, from what I read, seems altogether devastating to the environment. |
| Janet Peterson | Folsom, CA | 2015-09-30 | Diverting our Delta water will effect not only our Northern Calif water supply, it will have a tremendous economic and environmental impact on Northern Calif. Diverting Northern California's water is NOT the answer to Southern California's water issues!! Janet Peterson Folsom CA |
| Sharon Marriott | livermore, CA | 2015-09-30 | The tunnels are the peripheral canal 2015. We voted overwhelming NO then and still say NO to a project we do not need, want or can afford. NO NO NO |
| Philip Harris | Vacaville, CA | 2015-09-30 | This whole idea is completely nuts!!!! |
| Steve Novak | Vacaville, CA | 2015-09-30 | The tunnels will ruin the ecosystem of the Sacramento Delta. Let southern Ca. get water from the Colorado river. |
| Leslie Harper | Nevada City, CA | 2015-09-30 | The Delta is our unique and precious natural water conservation system. It works perfectly the way Nature designed it. This tunnel proposal is expensive, destructive, and unneeded. The Delta ecosystem is fragile and essential to all other ecosystems; all is interconnected. |
| Lisa Lozano | Oakley, CA | 2015-09-30 | I want to do anything I can to save our beautiful Delta the fish and our lifestyle. Jerry Brown doesn't care about No Cali. Leave our Delta alone ! |

| Name | Location | Date | Comment |
|-------------------|---------------------|------------|--|
| Terence Bantilan | San Jose, CA | 2015-09-30 | The Delta is the most unique habitat on the West Coast of North America! You can easily destroy it but it can never be recreated! |
| LeRoy Baratone | San Lorenzo, CA | 2015-09-30 | Just stop it, any idiot even knows that desalination is how future water should be done for low water resource areas. Jerry B moonbeam drop this crap. My hometown is on the delta and over the years I have seen how far up the sea and river combine has progressed |
| geneva elliot | San Luis Obispo, CA | 2015-09-30 | These tunnels will decimate my hometown and family farm. |
| Chris Lee | Oakley, CA | 2015-09-30 | I want to save our GREATEST natural resource ... WATER!! |
| Felicia Hurtado | Stockton, CA | 2015-09-30 | I am a long time resident of San Joaquin County. I am against the tunnels! This is my home please stop the Delta tunnels! |
| Tyler Gloski | Milpitas, CA | 2015-09-30 | The Delta is a beautiful place and deserves to be preserved for future generations to enjoy rather than be sacrificed as only a temporary solution to the water needs of the mega growers and Los Angeles. |
| Gregory Lambert | Los Angeles, CA | 2015-09-30 | I care about supporting an existing healthy environment and don't believe it should be wrecked to support unsustainable living |
| Jeff Soo Hoo | Walnut Creek, CA | 2015-09-30 | Save our fishery |
| mike hall | brentwood, CA | 2015-09-30 | Can't improve the health of the Delta by pumping the water out of it! It needs fresh water flows to keep the saltwater out of it to protect our Delta farms plus our drinking water and our fisheries. Jerry Brown SUCKS!! |
| Julio acosta | Modesto, CA | 2015-09-30 | im signing because I don't like the idea of taking private lands away, destruction of the ecology of the delta and further taking of water for the southern part of California. We should invest the money in desalination projects instead |
| Tom Page | Grass Valley, CA | 2015-09-30 | I care for California's ecosystem and fisheries. |
| John Crawford | Oakley, CA | 2015-09-30 | Because I believe the tunnels will destroy the ecosystem in Delta. Keep our fresh water here! |
| Michael Feiock | San Ramon, CA | 2015-09-30 | I have a boat on the Delta and want to preserve that wonderful waterway. |
| Megan Peterson | Stockton, CA | 2015-09-30 | The Delta is our home, our livelihood, and our way of life and diverting it would be devastating to us. |
| Kathleen Green | Courtland, CA | 2015-09-30 | It breaks my heart the thought of the Governor destroying something as beautiful and important as the Delta. I live here. The pear orchard that surrounds my home has been in the family since the 1850's. The Delta provides food, the Gov. eats, jobs and so much more. Don't destroy our Delta, Governor. |
| Jonathan Márquez | Anaheim, CA | 2015-10-01 | I love my native state of California :) |
| tiffany mcfarland | Oakley, CA | 2015-10-01 | We need to keep our water here |
| seth rodgers | San Francisco, CA | 2015-10-01 | sending water south while there isn't enough to maintain the bay seems a bad idea, let alone spending this much money to do it |

| Name | Location | Date | Comment |
|----------------------|--------------------|------------|--|
| Jessica Denning | carmichael, CA | 2015-10-01 | <p>Why send this water south, where there is no drain - to ruin their soil and water - while losing the richest farmland in California, the Delta, once called the Serengeti of the West. What the heck? Does Northern California look like it has water to spare? We are down to 5% of our fog days. We are putting in desert landscaping, and we are in the heaviest drought in history.</p> <p>Now could be the time for banning fracking, with its incredible water waste, for changing regulations to allow use of grey water and advanced composting toilets.</p> <p>Whatever happened to Governor Moonbeam? We want back a governor of the people again, not a servant of industrial ag and big business.</p> <p>Your legacy will be the destruction of our fisheries. Your legacy will be turning California into a desert.</p> <p>Please stop the tunnels. Please restore common sense. Please restore our faith in government.</p> |
| Diana Frey | Stockton, CA | 2015-10-01 | it won't come back, |
| David May | Stockton, CA | 2015-10-01 | I'm opposed to the destruction of Northern California resources and water tunnels. |
| sean de hart | rancho cordova, CA | 2015-10-01 | i love to fish and am an avid boater. |
| James Stanley | Los Angeles, CA | 2015-10-01 | It's time we brought some intelligence to the water table. Grow almonds and rice where there is a surplus of water Not in the deserts |
| Genevieve Giblin | Benicia, CA | 2015-10-01 | I care about our environment and the future for our children..... |
| Darrell Amaral | Livermore, CA | 2015-10-01 | Not good for the environment ,exporting more water is not the answer. |
| Joel Lambel | Sacramento, CA | 2015-10-01 | Governor Brown has been bought and sold by Southern California billionaires. This is why, as a Democrat I voted against him last election. The tunnels would simply destroy the Delta and Northern California. I don't know who bought him, but he cannot get his way |
| Leslie Purl | Douglas City, CA | 2015-10-01 | <p>I live on the Trinity River and we cannot afford to give anymore water away!</p> <p>Our fish are dying along with our wildlife! We survive on this water to drink and to live. Our Native American neighbors cannot survive without this water and the fish that sustain their lives. This is not recreational! This is survival! Stop the theft of OUR natural resources! We respect our land, others should as well, instead of raping the land for profit and personal gain.</p> |
| Carol Yeaman-Sanchez | Paso Robles, CA | 2015-10-01 | I love the Delta and don't want to see it destroyed! |
| Mike Wright | Corning, CA | 2015-10-01 | I oppose this project |
| Lisa Finato | Folsom, CA | 2015-10-01 | We enjoy the delta for fishing and recreation. |
| Glenna Mote | Richmond, CA | 2015-10-01 | Our water is needed here. Restore the delta |
| Timothy Green | Oceanside, CA | 2015-10-01 | the tunnels are going to destroy a beautiful part of California. Plus it's going to Rain a lot this year and everyone will chill out. |
| Mark Engell | Murphys, CA | 2015-10-01 | Stealing water from another area that is already in a severe drought does not do anything good at all. Instead of twin tunnels, and/or a bullet train, isn't it time to capture more water for a growing population? |
| Kenneth Stites | Roseville, CA | 2015-10-01 | We need more water storage not more misuse of the water we have. |
| Patrick Carney | Novato, CA | 2015-10-01 | ..because I'm thinking of the long-term welfare of THE ecosystem, not our ecosystem. |
| Ralph Rast | Orangevale, CA | 2015-10-01 | The new tunnels will unbalance the delta. |

| Name | Location | Date | Comment |
|-----------------------------|--------------------|------------|---|
| Tasha Santos | Antelope, CA | 2015-10-01 | I grew up on those rivers and the wildlife and preservation that would be lost is unbelievable. I am an outdoors person who provides for my family and fishing and hunting is one of my favorite hobbies. Also why send water to s.cal so they can keep their green lawns,pretty fountains and pools. We need ro preserve our wildlife here and our supply. I can go on and on but this is by far one of the dumbest ideas from brown. We have lost enough wildlife from all the wineries. We need to preserve and conserve bottom line !!!!! |
| Nicolás Izquierdo Rodríguez | Spain | 2015-10-01 | Such harm to the environment and to the economy of so many families is unacceptable. Any of these reasons is good in off to sign the petition |
| Rev. Fred Weidmann | Walnut Creek, CA | 2015-10-01 | I am a faith leader and we are called to enjoy and be good stewards of the great creation with which, and within which, we live. Destroying an ecosystem which provides so much support, naturally, to so many other ecosystems and which itself such a wonderful environment for residence, agriculture, recreation, etc. makes no sense. Quite the opposite--we need to protect the Delta so that it continues to be the wonderful, and supportive, environment it is. |
| Warren Page | Oakland, CA | 2015-10-01 | The Delta is an irreplaceable resource. |
| angela wehman | Antelope, CA | 2015-10-01 | We must protect our dwindling natural environment. Do not create these tunnels. |
| Suzanne Anderson | Oroville, CA | 2015-10-01 | We need to keep our water as organic as possible for our fish!! |
| Jesus Yao | Stockton, CA | 2015-10-01 | Save the delta |
| Alwilda Lucero | Courtland, CA | 2015-10-01 | I live on the sacramento river...if they go ahead with this...we would have to move, imminent domain because we're smack where one of the intakes would be !!! |
| erika heinz | Sacramento, CA | 2015-10-01 | We're already in drought. We need to preserve not waste. What about the animals that depend on the source as well? |
| Lauren Roland | San Jose, CA | 2015-10-01 | We've done enough damage, obviously, or we wouldn't be in this predicament. Let's try doing something positive and progressive. This isn't it. |
| Garrett knapp | stockton, CA | 2015-10-01 | I oppose the tunnels! |
| Eric Rivera | Oakley, CA | 2015-10-01 | Its bullshit |
| Cameron Sly | La Mirada, CA | 2015-10-01 | I'm signing because I value the delta fishery as it is today. Please don't destroy it. |
| Morgan Larry Peters | Los Angeles, CA | 2015-10-02 | We have to protect our environment. |
| Katie Lopez | Brentwood, CA | 2015-10-02 | The tunnel is a horrible idea. I wish our government would start listening to the people that live here and not the \$ down south! |
| Peggy Stith | Napa, CA | 2015-10-02 | We need to preserve our waterways and our ecosystem. Remember the 100's of Dams or was it 1000's of dams we put in now we realize what a mistake it was and it's costing \$\$\$\$\$ to remove them leaving the destruction behind. LEAVE OUR WATERWAY ALONE!!! |
| James Blacke | Alghero, Italy | 2015-10-02 | @Sasha Grey reported OK |
| Marsha Owen | Discovery Bay, CA | 2015-10-02 | I live on the water in the Sacramento delta. We NEED to protect our delta water ways from political decision makers. |
| knute stevenson | Bethel Island, CA | 2015-10-02 | This is my home. This is a bad use of so much money. |
| Thomas Trainor | Rancho Cordova, CA | 2015-10-02 | Completely oppose the tunnels |
| Barbara Burr | Davis, CA | 2015-10-02 | The Tunnels plan does not sucessfully address issues of ecology, economy, public opinion, or provide a sustainable answer to our immediate and future water distribution needs. Don't do it! |

| Name | Location | Date | Comment |
|-------------------|---------------------|------------|--|
| David Shephard | Rio Vista, CA | 2015-10-02 | The Tunnel Project is the biggest abuse of democratic principals for private gain I have ever heard of or even imagined. |
| Greg De Line | San Luis Obispo, CA | 2015-10-02 | I am against anymore taxes and messing with the ecology of the Delta1 |
| beverly choate | campbell, CA | 2015-10-02 | i cannot sign because my computer is old |
| Jody Brewer | Stockton, CA | 2015-10-02 | There absolutely shouldn't be Delta Tunnels!!! |
| JAMES LAMBERT | San Ramon, CA | 2015-10-03 | I FISH THE DELTA AND DON'T WANT TO SEE IT DESTROYED. |
| Jeff Leo | Campbell, CA | 2015-10-03 | I'm upset with our California politicians with to push this proposal through without public support. SHAME on them. |
| Mary Estrella | Los Gatos, CA | 2015-10-03 | Bad decisions where there is no benefit and that will not fix the california drought. |
| Larry Garibaldi | Discovery Bay, CA | 2015-10-03 | I'm signing this petition, as I feel it is the most blatant abuse of political power, without any concern in causing further destruction to an already very fragile ecosystem. Economic value does not equate, to the water resources planned to create and especially to it's usage source. A high price to pay to send valuable needed local and environmental water south, while leaving behind reduced water flows and warming waters causing harmful contaminants, algae blooms and salinity. It will be a delta system that we will never want to fish in or have our children swim in ever again! The last I heard, was that our ocean levels are rising and our fresh water levels are depleting. Shouldn't our efforts and costs be toward desalination, rather than further depleting our already fragile fresh water ecosystems!! |
| sean pereira | Miami, FL | 2015-10-03 | Cuz most of man made stuff ends up becoming a bigger issue let nature work her self. Like man build homes in middel of nowhere good for work n bluh bluh bluh now those homes need water so man makes sumthing and never thinks in thru all the way so nope screw them and stop wasteing your only water on dumbness like nuclear power plants and oil. |
| Steven Owen | Discovery Bay, CA | 2015-10-03 | I fear for the ecological impact. Additionally, the tunnels would make my home uninhabitable along with thousands of other tax paying native Californians who have made the delta our home. |
| Charles Seaton | Oakdale, CA | 2015-10-03 | This will destroy the Delta and its ecosystem. Let the south build desalination plants. |
| Ed Erestain | San Ramon, CA | 2015-10-03 | I agree to the objections and like the counter proposals. |
| John Caulfield | Elk Grove, CA | 2015-10-03 | The Tunnels will ruin the environment as we know it |
| emily goldhahn | West Sacramento, CA | 2015-10-05 | I object to this use of resources when what ca really needs is to learn to conserve. |
| Diane Wurzel | Walnut Creek, CA | 2015-10-05 | it would destroy our beautiful delta lands and water ways.People play and fish thereon a daily basis |
| Constance Jackson | Santa Maria, CA | 2015-10-05 | The Chunnels will destroy the ecosystem. Stop this rape of the Delta |
| Dave Lyghtle | Modesto, CA | 2015-10-05 | I'm signing because diverting more water from the Sacramento River means the state will increase unimpaired flows on the Stanislaus, Tuolumne and Merced rivers to make up for it ... harming our farmers and devastating our economy. The Twin Tunnels are a terrible idea on many fronts. |

| Name | Location | Date | Comment |
|---------------------|------------------------|------------|---|
| Randall Sharenbrock | Stockton, CA | 2015-10-05 | The "Water Fix" will destroy the Delta. It creates more problems than anything it "fixes." It is not cost effective. There are better ways to "fix" our water issues that are far less expensive. The fact that Californians are not being allowed to vote on this issue is a disgrace. Shame on you Governor Brown and any elected officials who support this project. |
| Richard Mueller | Galena Park, TX | 2015-10-05 | I'm thirsty |

Please stop the tunnels!! |
| Paige Chamberlain | Los Osos, CA | 2015-10-05 | I love the Delta and I want to see it's water protected to ensure the current habitat for wildlife. |
| Sheree Cox | Stockton, CA | 2015-10-05 | It should not happen. It will ruin our economy in the Valley to say the least |
| Emily Pearson | Meadow Vista, CA | 2015-10-05 | We need water storage and desalination plants! Not high speed rail and tunnels! |
| Rich Riley | Stockton, CA | 2015-10-05 | Because we need to protect our farmers and make sure that the water is not piped south. If we pump too much water, the salt water will come further up the delta ruining farming on the delta. |
| Mal Domser | Stockton, CA | 2015-10-06 | There will be less future water, these tunnels do not supply the needed water. This money is better spent managing what little water we will be receiving to the betterment of our citizens. |
| jolene guizar | El Sobrante, CA | 2015-10-06 | I'm signing this petition because I want to preserve the delta. |
| Kathleen Roddy | Stockton, CA | 2015-10-06 | Save Our Delta, save our farm land stop the corruption. We can't eat or drink dirt. |
| Darlene Wise | Montebello, CA | 2015-10-06 | Spending billions on destroying fish, habitat, and one of California's greatest resources is just plain stupid. Instead the government should be spending that money on building new reservoirs in Central and Southern California to store water. |
| Manuel Garcia | Pasadena, CA | 2015-10-06 | This project represents a misguided attempt at solving the state's water issues. It is simply not sustainable and will exacerbate the current problems afflicting the ecosystem and hydrologic conditions of the Delta. Farmers need to stop growing cash crops that are water intensive and politicians need to stop caving in to agricultural lobbyists. This project is motivated by pure greed. |
| Nina Guizar | richmond, CA | 2015-10-06 | The future of our delicate eco systems depends on our deltas! Save the delta!!! |
| Bob Lane | Stockton, CA | 2015-10-06 | This is another Governor Brown ridiculous idea just like the train to nowhere. Save Our Delta, Stop The Tunnels |
| Marga Star | Eindhoven, Netherlands | 2015-10-06 | Oppose the Delta Tunnels. |
| Tiffany Gomes | Lodi, CA | 2015-10-06 | I'm signing this petition because the "California Water Fix" is bad news for the environment, business, farmers, and our state as a whole. |
| mia smith | Australia | 2015-10-06 | Why not? |
| Renee Olson | Stockton, CA | 2015-10-06 | Please help me stop this. Thank you. |
| Joe Paulus | Modesto, CA | 2015-10-06 | Waste of money, added destruction of an ecosystem that's already damaged, salt water intrusion will become even worse, it's unnecessary, and also why pull more water out than we already are if we're not getting any water added to the ecosystem due to this chronic drought. |

|-----------------------|----------------------|------------|---|
| Michael Norton | Stockton, CA | 2015-10-07 | This plan is ill-conceived and a panic band-aid attempt. It potentially destroys the delta and San Francisco Bay. There are other far less expensive and damaging alternatives that have been ignored instead of exhausted. It is a major infrastructure overhaul that should be subject to a vote of the people. |
| David Beaudry | Palo Alto, CA | 2015-10-07 | I sailboard at Sherman Island in the Delta and would like reasonably clean water!! |
| Mark Zimmerman | Lodi, CA | 2015-10-07 | The tunnels will destroy the Delta, where I live. |
| Iryna Shevchenko | Stockton, CA | 2015-10-07 | Don't ruin the ecology of the region. |
| Joanne Werneke | Antelope, CA | 2015-10-07 | This is not a solution but a water grab that will destroy the delta. |
| Solomon David | Stockton, CA | 2015-10-07 | Why risk agricultural growth significant homes to wildlife in the delta and safety of Northern California to temporarily fix Southern California you're willing to jeopardize half of the state to prolong Socal's water problem that's just going to dig us all into a deeper hole and put northern ca in a bigger hole at that wake up |
| Mike Liddiard | Stockton, CA | 2015-10-07 | This project will harm the whole Delta System! |
| Steven Malcoun | Stockton, CA | 2015-10-07 | The delta will be destroyed. The Westside and LA need to supply their own water. This is Owen Valley deja vu |
| Castronovo Castronovo | Jackson, CA | 2015-10-07 | Fresh water conservation is important. |
| Erik Rogind | Emerald Hills, CA | 2015-10-07 | Save the Delta |
| Larry Cates | Oakley, CA | 2015-10-08 | my life is on this river and jerry brown and his money hungry friends are stilling the peoples river |
| james kietzke | stockton, CA | 2015-10-08 | I oppose this tunnel it will ruin OUR life style and surroundings |
| Andrew Rishwain | Los Angeles, CA | 2015-10-08 | The government doesn't own water, water comes from nature, they have no claim over it |
| Cynthia ho | Santa Rosa, CA | 2015-10-08 | THIS IS NOT WHAT NEEDS DONE FIRST & FOR MOST |
| Mike Emmons | Oakley, CA | 2015-10-08 | We need to put a stop to these Tunnels once & for all this will devastate live as we know it, & Delta Wildlife |
| Ashley Adami | Stockton, CA | 2015-10-08 | I live in Stockton, California, born and raised and I believe Browns "California Water Fix" will do more damage than good, therefore I do not support his project. |
| jP Holland | Westlake Village, CA | 2015-10-08 | This would have a negative impact on an already delicate ecosystem. |
| Nicole Olson | Stockton, CA | 2015-10-08 | It's a waste |
| Lawrence Danos | Hayward, CA | 2015-10-08 | I'm signing because I don't want to see any more harm done to SF Bay and Delta. |
| MARK STILLIANS | Paso Robles, CA | 2015-10-09 | I can't and won't support Delta Tunnel projects if pushed forward with insight into how damaged central california rivers are already. There is clearly no feasible way to relocate water by any additional means, when considering the devastating impact on existing Endangered/Threatened fish species. Don't move with this project. I hope California residents unit to stop this mistake before it happens. |

The tunnels will effect the Eco system of the Delta, make water not healthy for swimming and ultimately decrease the value of my home. We need to build plants in No. CA To convert salter water to drinking water- like San Diego. Please do not create a monster of a system here, just to send water South. |
| meghan warren-loosier | Pittsburgh, PA | 2015-10-09 | So many other options to conserve water. IE meat industry has biggest footprint in every variety of measurable environmental footprints. Less is more. |
| jon Stephens | Pittsburg, CA | 2015-10-09 | i live on the delta. this is a terrible idea. |
| Dave Kroske | Discovery Bay, CA | 2015-10-09 | I live in Discovery Bay on the water. The Twin Tunnels would have a severe negative impact on the delta water. Literally my back yard would warm up turn green with algea and close to stagnate with the lack of adequate flushing of water from the Sacramento river. The Twin Tunnels are a giveaway to huge agribusiness. HEVEN FORBID they be required to conserve with mandatory drip and under ground irrigation AND actually pay a fair market price for the water they consume. It is a complete farce, that the 80% users of water are not required to conserve. Oh, but wait, they DO own the legislature and the executive branch! !! |
| Greg Anderson | San Francisco, CA | 2015-10-09 | California voters already voted against this project. |
| Brian Elliott | Discovery Bay, CA | 2015-10-09 | I have lived on the Delta for over 30 years and don't want to see it ruined by taking more much needed water |
| Carol Foote | Rio Vista, CA | 2015-10-09 | The ecology of the Bay-Delta waterways is irreplaceable and connected to the vitality and balance of more than we currently understand. This kind of a mass destruction of a whole ecosystem in foolish, irresponsible, and unacceptable. Time for more imaginative solutions than plunder. |
| Robert Henry | Modesto, CA | 2015-10-09 | The Delta Tunnels will end up destroying the Calif. Delta system as we know it. |
| Oleg Milman | San Jose, CA | 2015-10-09 | I'm signing because I windsurf and fish the Delta and the Bay, and highly concerned about the negative side of the Delta Tunnels development. |
| Jack Ollila | Cupertino, CA | 2015-10-10 | We need to save the Delta |

| Name | Location | Date | Comment |
|------------|------------------|------------|--|
| Alana King | Walnut creek, CA | 2015-10-10 | <p>am writing to express my strong opposition to the Delta Tunnels plan.</p> <p>The Delta Reform Act of 2009, in which the California State Legislature committed to the "coequal goals" of providing a more reliable water supply for California AND protecting and restoring the cultural, recreational, natural resource, and agricultural values of the Delta, cannot be upheld if the Delta Tunnels come to pass.</p> <p>The California Water Fix does not meet the restoration goals of the Delta Reform Act; it is simply a plan to export more water out of the San Francisco Bay-Delta estuary. The Delta Tunnels will also fail to provide more reliable water because the Delta watershed is already oversubscribed by five times in normal water years.</p> <p>My objections to the tunnels are threefold:</p> <p>The California Water Fix does not address the environmental, public health or economic impacts of the proposed Delta tunnels project. Also, the plan ignores alternatives that would save California tax and ratepayers billions of dollars, while investing in the jobs and local water sources that build sustainability.</p> <p>My environmental concerns with the plan are:</p> <ul style="list-style-type: none"> · The impact on wildlife and plant species in the Delta that depend on freshwater include the Delta smelt, chinook salmon, steelhead, San Joaquin kit fox, and tricolored blackbird, protected species already on the brink that will face decimation due to a diminishing food-web. · At sea, even the ESA-listed South Pacific Puget Sound Orca Whales depend on migrating Delta species that will be harmed by less water flowing through the Delta. · The tunnels plan seems to ignore Section 7 of the Endangered Species Act which prohibits federal agency actions that are likely to jeopardize the continued existence of any endangered species or that "result in the destruction or adverse modification of [critical] habitat of [listed] species." <p>My public health concerns with the plan are:</p> <ul style="list-style-type: none"> · The tunnels will cause increased contamination of municipal water and wells for the millions of rural and urban residents living in the five Delta counties. · The tunnels plan fails to model for potential increases of carcinogens and other formation of byproducts that would cause cancer and other serious health effects. · Environmental justice communities, who depend on subsistence fishing, will also face food and health insecurities as a result of increased contaminants, specifically mercury contamination, in fish and wildlife populations. <p>My economic concerns with the plan are:</p> <ul style="list-style-type: none"> · For large metropolitan cities such as Los Angeles and San Jose that depend on export water, water rates and/or property taxes will go up, but they will get no additional water. · No analysis has been done on how the lack of fresh water flows will impact San Francisco Bay tourism and recreation. These industries depend on Delta fresh water flows for their crab and salmon fisheries, wildlife sighting, boating, and their restaurant economy. This industry is worth billions annually. · Salinity intrusion is already impacting the western Delta farms and removing Sacramento River freshwater from the system will make matters worse. Delta farmers cannot irrigate crops with salt water and they certainly cannot plant crops in contaminated soils. The Delta Ag economy, which consists of generations of family farms and farm workers, generates \$5.2 billion for the California economy, annually. · California coastal fishing communities depend on thriving wildlife. This historic industry is worth billions annually, with the salmon industry worth \$1.5 billion annually alone. Thousands of jobs and livelihoods are tied to these industries. · The operation and construction of the tunnels will obstruct and disable navigable waterways for boating, marinas and other types of leisure activities, in addition to creating conditions of low water flow that will foster invasive aquatic species, such as water hyacinth. Poor water quality also creates unsafe recreation. Recreation and tourism in the Delta generate \$750 million annually. <p>Alternatives to Water Exports Ignored</p> <p>Far far less expensive and less environmentally destructive alternatives to the Delta Tunnels were largely ignored. The plan does not seriously consider any alternatives other than new, upstream conveyance. The decision-making process (from the outset) has tilted in favor of increasing water exports from the Delta.</p> <p>Our tax and ratepayer dollars would be much better spent on:</p> <ul style="list-style-type: none"> · More aggressive water efficiency program statewide that would apply to both urban and agricultural users. · Funding water recycling and groundwater recharging projects statewide that would be billions of dollars less expensive for rate payers than constructing a new version of the Peripheral Canal or major new surface storage dams. Meanwhile, these |

| Frank Breckenridge | Lodi, CA | 2015-10-10 | I'm signing this because I am opposed to "welfare" programs for rich corporations who are the only entities that will benefit from this destructive, unnecessary project. |
| Katie Valdivia | Redding, CA | 2015-10-10 | The Delta Tunnels are a terrible idea. My dad used to tell me to use my common sense when I was a kid, and that's what I hope you do. You don't need to have an environmental impact report to see this is one of the worst, most self serving ideas this century that will cause irreparable damage to the delta, harming not only animal species but also people. |
| Rosmary Bartsch | Livermore, CA | 2015-10-10 | This project is an environmental disaster and huge waste of taxpayer dollars. |
| Ethan Ting | Sacramento, CA | 2015-10-10 | How about spending money on fixing all the old flawed pipes that are leaking thus wasting water throughout California? |
| Nancy Hopple | Tracy, CA | 2015-10-10 | the tunnels will destroy the environment and the economy for much of northern California. This is a grab for water by southern California that is not necessary. |
| Richard Campbell | Auburn, CA | 2015-10-11 | I do not want the tunnels. It will be a disaster to the fishing industry. |
| Ronald Bass | Antioch, CA | 2015-10-11 | The estuary is at risk, we need to protect our natural resources. |
| Keith Jones | Springfield, MO | 2015-10-11 | Because I don't believe that this is the best solution to this problem. |
| Silva Harr | Concord, CA | 2015-10-11 | This MUST be defeated if our bay is to survive as a healthy system, not a CESSPOOL. |
| Amanda womble | San Diego, CA | 2015-10-11 | As a farmer I see a lot of misuse and waste of water and an alarming loss of the topsoil in the conventional farming practices applied in the San Joaquin Valley. I believe the San Joaquin Valley is not a desert wasteland that we should throw more water at. Farmers need to learn new sustainable methods of farming and the state as a whole could do way more to conserve water in lieu of diverting water away from an already taxed ecosystem like the Delta. Please educate farmers on sustainable methods of farming instead of wasting what little water we have. |
| Linda Kingsbury | Sunnyvale, CA | 2015-10-11 | I water ski on the Delta! |
| Linda Acton | Stockton, CA | 2015-10-11 | This is 16 Billion dollars that will not prove to be worth the expense. There are other plans, such as desalination that are more effective for less money. |
| Janice Reinarts | Antelope, CA | 2015-10-11 | I oppose the tunnels, instead desalination plants should be built and more dams & water storage should be built. |
| Pat Tirone | Stockton, CA | 2015-10-11 | our water is LIFE! Don't ruin it more than it already is! |
| Anne Findlay | Lemoore, CA | 2015-10-11 | I live near Stockton and have enjoyed recreational boating (sculling) on the Delta. Spending time on the Delta made we want to stay and invest in the Stockton community. If the tunnels impacted the quality of and/or access to the Delta waterways, I and many others would have little incentive to continue living and investing in these communities. How is it even fathomable to go ahead with the tunnel plans? |
| hue simpson | mountain view, CA | 2015-10-12 | This is fiscally, environmentally, and scientifically irresponsible of the governor to be pushing this. thank you. |

| Name | Location | Date | Comment |
|---------------------------|---|------------|---|
| Fredrick Ohlrich | San Francisco, CA | 2015-10-12 | Independent analysis shows an environmental disaster to an incredible natural resource. State officials are ramrodding this project through, ignoring facts and public opinion. This project represents is public policy at its worst. Stop the tunnels! |
| arnold keller | West Sacramento, CA | 2015-10-12 | This is an insane project! |
| Bill Washburn | Morgan Hill, CA | 2015-10-12 | There is no water to share and, if there were, the cost is too high. |
| Margaret Foley | Lodi, CA | 2015-10-12 | I'm signing this petition because I oppose these tunnels and Governor Brown's efforts to ram them through. This will destroy northern California and the Delta. |
| Jeff Stoops | Hayward, CA | 2015-10-12 | We in the Bay Area are tired of supporting southern Ca. with water to support their life style.... |
| Gwen Cauthren | Santa Rosa, CA | 2015-10-12 | I spend a lot of time doing water sports on the delta, have for about 40 years. I don't want to see the delta ruined. |
| Paul Carufel | Mountain View, CA | 2015-10-12 | The tunnels would destroy the SF Bay and the wildlife in the northern half of the state. |
| glenn morris | Stockton, CA | 2015-10-12 | the tunnels will destroy our delta |
| Patricia Sanders | Pittsburg, CA | 2015-10-12 | I do not want the tunnels. I do not want the Bay and the Delta to be degraded any more. |
| Frana Price | San Francisco, CA | 2015-10-12 | I want to save the CA Delta, one of the most beautiful spots in CA. No tunnels!!!! |
| Debbie Phulps | Sacramento, CA | 2015-10-12 | Project is plain impracticable; AND since it does not "create" water, it does not solve the overall problem. What we need is storage for those rainy days. Sacrificing the Delta should not be an option. The plan(s) as they stand will destroy the Delta; AND that price is to great to pay, let alone the amount of money which will be spent in this pork project. We all need to remember who was on what side when election time comes around and stand AGAINST the Tunnels when we cast our ballot. The Tunnels: It's the Governor's peripheral canal in sheep's clothing. |
| Douglas farrell | Sacramento, CA | 2015-10-12 | as a life long sacramenten I don't believe this is the right approach to Southern California water issues. It will only further destroy our delta and bay fragile ecosystems. |
| Carl Erway | West Sacramento, CA | 2015-10-13 | It would be a disastrous outcome for the delta and the eco system if this is allowed to happen. Stop the tunnels! |
| christopher long-callahan | San Francisco, CA | 2015-10-13 | Disappropriating water that jeopardizes the ecosystem and native species in the estuary to benefit a few large ag companies is absurd. This benefits a few and leaves the locals around the estuary, those who enjoy the fisheries and taxpayers as losers. Just think about it |
| Bobby Bryant | Susanville, United States Minor Outlying Islands | 2015-10-13 | I disagree with the tunnels. |
| Lou Pimentel | Orinda, CA | 2015-10-13 | It's the right thing to do. |
| Meredith Faszer | Hayward, CA | 2015-10-13 | It'll destroy the area and it costs too much! |
| Jason Gallardo | Modesto, CA | 2015-10-13 | This is not a fix, Nor a solution. Wake up Mr. Governor. |
| Susan Sullivan | Oakley, CA | 2015-10-13 | I'm signing because I want our California Delta preserved. I don't want water diverted to So Cal. I don't want the water right near my home to be salt water. I don't want politicians to ignore our flora & fauna & farmers or anyone to lose their land because of imminent domain claims. |
| May Chao | Stockton, CA | 2015-10-13 | We need this water. |
| Debbie Kester | Stockton, CA | 2015-10-13 | I'm opposed to the tunnels to ship water to Southern California |

| Name | Location | Date | Comment |
|------------------------|---------------------|------------|---|
| Julie Blood | Sacramento, CA | 2015-10-13 | I do not believe in sending more water to Southern California for irrigation of desert lands at the expense of wrecking the ecosystem of the Sacramento-San Joaquin Delta. It's bad enough that it would do harm to our fish and wildlife in regular rainy years, but in drought years it would be catastrophic. |
| Katherine Jones | Los Gatos, CA | 2015-10-13 | I love the Delta ! |
| Lucas Stuart-Chilcote | Antioch, CA | 2015-10-13 | I am signing because our Delta has to be saved from the salty sea water. There will be a hard road to reverse the effects of this on the ecosystem. What happens to the farms and cities that get their freshwater from the Delta and the water begins to have salt content? Revise the proposal and REALIZE natural desalination plants in southern California is the answer; the zip codes there have the money for that. If there is an energy dispute, cover the Perifial Canal with solar panels...evaporation.... |
| Ruben Razo | Patterson, CA | 2015-10-13 | I'm signing this petition to help the delta. |
| Stephen Pritchard | Lodi, CA | 2015-10-13 | I grew up on the delta and want my kids to enjoy the same things I did. I believe the tunnels will destroy the fishing and outdoor life we have now. |
| Robert Russell | Modesto, CA | 2015-10-13 | I am a regular fisherman and I know the truth to what the tunnels are for and the damage they'll cause. It's all about politician greed who don't care how badly this will damage the ecosystem even after experts have told them so they say they are right and the scientist are wrong. I will not stand for this. This is what is wrong with this country gov brown builds a idiotic bullet train when the money could have been spent in a million better uses, such as desalination plants. Or education helping poor communities. |
| Gaylen Barber | Stockton, CA | 2015-10-13 | I'm trying to preserve the SF Bay and Delta. STOP THE TUNNELS! |
| Juanalene Doronila | Oakley, CA | 2015-10-13 | We need to save our delta and help keep the environment healthy for our future generations! |
| Desiree McMillen | Oakley, CA | 2015-10-13 | Is it not obvious that this would change the ENTIRE ecosystem of a huge part of California water ways? And what about our farmers, agriculture and economy in central California? Get it together and stop trying to take the easy way out. |
| Manuel Porky Hernandez | Stockton, CA | 2015-10-13 | I love the delta |
| Elaine rodriguez | Stockton, CA | 2015-10-13 | Don't take away our tunnels!! |
| Thomas Marshall | Stockton, CA | 2015-10-13 | It will kill the delta |
| Gary Holsey | Yuba City, CA | 2015-10-13 | It is a poor use of funds that is nit nessary. Build de sal plants down south |
| Deborah Gonzales | Galt, CA | 2015-10-13 | This is the wrong thing to do. The cost to our Delta habitats, wild life, and tax players is too much! |
| taylor posey | Sacramento, CA | 2015-10-13 | Im a fisherman |
| Lanny Simpson | Stockton, CA | 2015-10-13 | I don't believe you can take water from a damaged estuary and heal it. |
| Sara Turner | Carmichael, CA | 2015-10-13 | I'm signing because this is crazy and needs to be prevented. |
| Teresa Mason | Discovery Bay, CA | 2015-10-13 | I live on the water & the water is already extremely green from lack of flow. Taking more water away will even make it worse. Please stop! |
| Brandon Zine | Elverta, CA | 2015-10-13 | I'm singing this petition so California doesn't make a mistake and ruin the delta as we know it the Sacramento River will never be able to sustain the volume of water the tunnels will take out |
| kathi norgon | North Highlands, CA | 2015-10-13 | California is being ruined. Let us keep this unique space just as it is. |
| Elena Gallegos | West Sacramento, CA | 2015-10-13 | Tunneling altering natural rivers in such a way is detrimental to the eco-system. |
| Vance Miller | Oakdale, CA | 2015-10-13 | This is not right! Please stop the tunnels! |

| Name | Location | Date | Comment |
|-----------------------|------------------------|------------|---|
| DONNA HARRIS | Lodi, CA | 2015-10-13 | i do not want the tunnels!!! |
| Chao Yag | Sacramento, CA | 2015-10-13 | I am a fisherman ! Save my Fish |
| Ida Clair | Elk Grove, CA | 2015-10-13 | We need to protect our natural resources!! |
| Juan Rodriguez | Stockton, CA | 2015-10-13 | Fresh water is better than salt water to grow crops it also cost money to build a plant to convert salt water into fresh |
| mark minchuk | West Sacramento, CA | 2015-10-13 | Im signing because I am a 14 year old fisherman, and I would like to stop the delta tunnels so I can save the fish, and we are in a drought anyways. |
| David Rudolph | Concord, CA | 2015-10-13 | I am a former California resident and fished the Delta most of my life. what Moon beam Brown wants to do is criminal. |
| Pat Vigil | Tracy, CA | 2015-10-13 | because I am a concerned california resident who lives fishing in the delta |
| Konstandinos Hiesadas | Palm Beach Gardens, FL | 2015-10-13 | I grew up living on the Delta since early 1980's |
| Michelle Mitchell | Paso Robles, CA | 2015-10-13 | I grew up in the Sacramento Delta. It is a unique area of our state, beautiful to behold. Diverting water away from the Delta with this tunnel scheme will be bad for the environment, bad for fish and wilflife, and bad for the citizens who live there or those who travel there for recreation. |
| Lisa Graham | Discovery Bay, CA | 2015-10-13 | I live on the Delta, I fish, and want to protect the fragile, diverse ecosystem. |
| Richard Wagner | Stockton, CA | 2015-10-13 | I'm signing because the tunnels will cause more damage to the delta fishing. Which effects my pay check! |
| Patricia Martin | Santa Cruz, CA | 2015-10-13 | I want to save our fish and farms. I have saved water and want what's available to keep the San Francisco Bay and Delta areas as healthy as possible! |
| Nina Thiel | Stockton, CA | 2015-10-13 | I don't want to see the Sacramento River and the Delta destroyed. |
| sandra gibbs | Dixon, CA | 2015-10-13 | we need to save the delta!! |
| Ingrid Trujillo | Elk Grove, CA | 2015-10-13 | With a drought and tunnels the river will go dry. No to tunnels |
| salvatore Cogliano jr | Dobbins, CA | 2015-10-13 | I fish |
| Pamela Lygren | Sacramento, CA | 2015-10-13 | This is plain wrong; thre is nothing positive except for Southern CA which has not exercised responsible land use planning and planned accordingly for water use. |
| Carol Luksich | San Jose, CA | 2015-10-13 | Don't destroy the ecosystem of the delta to send water down south. The damage that is done may not be repairable. Time to build more water storage and more storage down south. I was just in Bakersfield and they all have green lawns....how come northern california is doing their best to conserve but southern cal isn't (or at least parts I've seen). There are more ways to conserve... EVERYONE should have to conserve equally! Are there any water storage projects that can be developed in Southern California? |
| Evelyn Bennett | Stockton, CA | 2015-10-13 | I live on the delta. It's my life, my love, my recreation, my peace. My kids, my grandkids all come here. We need to stand and support our water ways. |
| sharon perry | Lockeford, CA | 2015-10-13 | Stop the tunnels! |
| Rebecca M Petty | Sacramento, CA | 2015-10-13 | I love the delta. |
| Adam Townsend | Rocklin, CA | 2015-10-13 | I don't want the delta to be destroyed. |
| Nancy Waitley | Lodi, CA | 2015-10-13 | I have asthma the air will be unbearable/unbreathable. Please do not dig the earth, pollute the air. |
| Scott Gleba | Walnut Grove, CA | 2015-10-13 | Bad for everyone |
| joshua drake | Stockton, CA | 2015-10-13 | I don't want to only fish for salmon and steelhead. Also my orchards needs water. |

| Name | Location | Date | Comment |
|----------------------|---------------------|------------|---|
| Cody Amrhein | Sacramento, CA | 2015-10-13 | Creating tunnels will destroy the river habitat and drain it of water we cannot afford to lose. |
| Daniel Larkey | Stockton, CA | 2015-10-13 | Wildlife |
| Aaron Bogue | Sacramento, CA | 2015-10-13 | I fish the delta area as often as possible and for quite awhile now. I would hate to see the ecosystem change before my kids can enjoy. |
| Melody Matthews | Stockton, CA | 2015-10-13 | Follow the money.....going to So Cal for no other reason...no conservation efforts for the Delta...our estuaries, fisheries, keeping the Delta free of salt water and our Northern Cal. Drink inking water. A bad deal for NorCal. |
| tung nguyen | Sacramento, CA | 2015-10-13 | I care for the delta been fishing with my parents there for decades and want same for my children |
| CarolAnn Donato | Brentwood, CA | 2015-10-13 | I am tired of down South getting more water than they need. All their pools are full and their lawns are green. |
| John Richardson | Rio Linda, CA | 2015-10-13 | I'm signing because I use these waters regularly. I've grown up loving being on the water and will continue to boat, fish, and enjoy these waters for ever; hopeful my kids do as well |
| Ryan Lutton | West Sacramento, CA | 2015-10-13 | Horrible plan, waste of water and money that will destroy our delta and ecosystem. |
| Felicia Flick | Foresthill, CA | 2015-10-13 | Fuck Jerry Brown that's why |
| Stephen Olson | Stockton, CA | 2015-10-13 | Preserve our waterways!!! |
| Michael Fisher | Carmichael, CA | 2015-10-13 | I believe the tunnels are the wrong answer |
| Russell Stevens | West Sacramento, CA | 2015-10-13 | SoCal was historically mostly desert so maybe they should embrace their past. The water needs to stay up north. |
| Catherine Lau | Tracy, CA | 2015-10-13 | I strongly oppose this |
| Sue Powers | Patterson, CA | 2015-10-13 | My family farms along the Delta!! |
| D morris | Stockton, CA | 2015-10-13 | We need our water here in northern CA! We need to protect our waterways, our fish and other wildlife who live and depend on our Delta. We need the enjoyment and jobs created by our boating and recreational industries. The ripple effect will be positive or negative depending on the outcome of this. Stop the tunnels!! |
| Kay Ecker | Stockton, CA | 2015-10-13 | i feel that this is s drastic and dangerous option to our water shortage. |
| Jeffrey Rubalcaba | Sacramento, CA | 2015-10-13 | We need to preserve the delta for the future |
| Richard Cuffman | Napa, CA | 2015-10-13 | keep the water ways clean of garbage |
| Doug lima | Corning, CA | 2015-10-13 | I have very big passion for both fishing and waterfowling |
| Merle Hymas | Discovery Bay, CA | 2015-10-13 | The tunnels are a bad idea. Build reservoirs down south |
| C.A. Asuncion-Heppes | San Jose, CA | 2015-10-13 | Northern California already sends water southward via canals. Draining more water from northern California affects our farmlands and our wildlife. Stop draining our water!! |
| Mario Novoa | Hercules, CA | 2015-10-13 | I think this would destroy the ecological environment and its also bad for the economy of the delta area. |
| Edward Varner | Rocklin, CA | 2015-10-13 | It's just wrong |
| Logan Wolfe | Lincoln, CA | 2015-10-13 | I oppose the tunnels because of the irreversible damage it would cause to the Chinook runs of northern California |
| Leslie Olson | Kelseyville, CA | 2015-10-13 | This proposal is not a fix, it's a water grab. Please propose a fix that focus on conservation and storage not diversion. |

| Name | Location | Date | Comment |
|--------------------|---------------------|------------|--|
| Megan Bartolomei | willits, CA | 2015-10-13 | Native wildlife will be damaged if not ruined for good. The fishery would be changed dramatically for the worse. Tax payers dollars would be in my opinion WASTED! |
| Roger Johnson | Stockton, CA | 2015-10-13 | These tunnels make zero economic sense. They would ONLY benefit the L.A. area and destroy our beloved delta. |
| Carol Pecoraro | Lampe,, MO | 2015-10-13 | It is a waste of money, help feed the poor and homeless, quit wasting tax payers money. |
| Robery Bonslett | Elk Grove, CA | 2015-10-13 | I don't believe the 'tunnels' are a workable solution. |
| Sergey Romanyuk | Rancho Cordova, CA | 2015-10-13 | Time to stop destroying our deltas ecosystems |
| mathew Campbell | Orangevale, CA | 2015-10-13 | I don't want to see more destruction of the delta for large business. |
| Ronda Mesaris | Antioch, CA | 2015-10-13 | Stop tunnels |
| tom savage | Diamond Springs, CA | 2015-10-13 | I oppose the tunnels and taking of the delta water for corporate gain. It's not aware shortage but management issue. The water we have with current infrastructure needs to be better managed for people, crops, and wildlife. |
| nicholas bolton | antelope, CA | 2015-10-13 | Pipeline train east coast |
| Pat Rauch | Langford, SD | 2015-10-13 | I'm signing because I used to live there, and also have family there. Use the ocean, with desilination forms. |
| Tai Wong | Modesto, CA | 2015-10-13 | Opposing this is the right thing to do on multiple fronts. We need water desalination plants rather than taking water from the valley to send elsewhere. Ask Gov. Brown to fix his thinking rather than pipe water from the valley. |
| Megan E Rafferty | Linden, CA | 2015-10-13 | My family farms. |
| Philip Beghtel | Stockton, CA | 2015-10-13 | It's a no brainer!! Keep our water here!! The Delta is very important to our eco system and local communities. |
| Shirley Simons | Rio Vista, CA | 2015-10-13 | The twin tunnels will destroy The Delta, the largest estuary in the United States. |
| Barbara Misleh | Sacramento, CA | 2015-10-13 | I want the tunnels stopped before damage is done! |
| Shanel McSherry | Citrus Heights, CA | 2015-10-13 | I am against the tunnels |
| Francesca Lorenzon | Italy | 2015-10-13 | In Malta they extract water from the sea. Who is interested do the same and pay... |
| Karl Splaine | Brentwood, CA | 2015-10-13 | I rely on safe drinking water for my family. The tunnels will degrade my water quality. I spend a lot of time on the delta fishing and boating. The tunnels will degrade both experiences for me and my family in the future. If farmers in the south want to grow in the desert, they should fund their own water supply via reverse osmosis sourced from the Pacific Ocean. Enough of this corporate greed and dirty paid politicians! |
| Susan Pace | Redding, CA | 2015-10-13 | I want my voice to be heard. |
| rebecca crump | Oakland, CA | 2015-10-13 | I stand with the people, the delta and the salmon. |
| Samuel Perez Jr | Winters, CA | 2015-10-13 | This would devistate the deltas Eco-system. |
| Silvia Novoa | San Bruno, CA | 2015-10-13 | Is Insane and unfair for us!! |
| Amado Vargas | Fresno, CA | 2015-10-13 | Save the delta |
| Matt Swenson | Sacramento, CA | 2015-10-13 | We need to find alternative means of sourcing water to California. This is a drastic measure to fix an issue that will not cure the problem, only to spend millions of dollars and do it all over again in the neat future. |

| Name | Location | Date | Comment |
|----------------------|-------------------|------------|---|
| pedro rangel | Sacramento, CA | 2015-10-13 | That water is beautiful I fish there I have bbq around there and take my family there there's just no other place I rather relax beside the river I've been Fishing there for about 5 years now not as a sport but to relax and enjoy the view if it's gone it's going to be tragic |
| Brian Slayton | McKinleyville, CA | 2015-10-13 | I want to protect our fish and waterways. Big Ag should not get our water! |
| Michael Wasilchin | Fairfield, CA | 2015-10-13 | I'm signing this because the California delta is one of my favorite places to go and throw a line in. |
| Susan Shaw | Concord, CA | 2015-10-13 | It is wrong to relocate water to a desert community. The community should relocate to the wetland. Relocating the water destroys the ecology on the land left behind. The delta economy would be devastated. The tax payers in Nor Cal should never have to pay for the rape of their resources to placate the greed of the So Cal politicians and businessmen. |
| Erica Ivey | Elk Grove, CA | 2015-10-13 | I'm signing because I have a brain cell or two. Anyone with a brain cell can see that the tunnels are NOT the answer to the water issues here in California. This is political rubbish at its best (well, worst). We all see right through this plan. Our delta ecosystem is so fragile to begin with, that the tunnels will equate to pulling out the bottom pieces of a Jenga tower. This is WRONG. |
| Ed Marchese | Stockton, CA | 2015-10-13 | The Bay and Delta need to be protected, and the farmers need fresh water to irrigate vital crops for the world. The salt water will definitely enter further into the Delta restricting irrigation. |
| Tina Starling | Pioneer, CA | 2015-10-13 | I want to keep government and their so-called "research" from destroying my state! |
| Brian Gorban | Sacramento, CA | 2015-10-13 | This tunnel idea is the worse of many ideas out there as it's FAR MORE costly than the other ideas, produces NO NEW water, has strong opposition from many water experts, etc...ridiculous idea and STOP IT! |
| Brandon Bailry | Fairfield, CA | 2015-10-13 | California water allocations shouldn't be about money. |
| Christine Clausen | Los Angeles, CA | 2015-10-13 | I grew up here.. Please do not destroy this serene environment for our generation, and generations to come.. |
| Crystal Konrady | Torrance, CA | 2015-10-13 | I am human |
| Jeffery Haws | Tracy, CA | 2015-10-13 | This must be stopped! |
| Ronald Kassner | Manteca, CA | 2015-10-13 | I am opposed to the delta tunnels taking our water. |
| Danielle Villalpando | Gilroy, CA | 2015-10-13 | The valley needs water to keep producing crops for all of America. The animals of the valley need this water too. We drained the valley of water when it was settled and have had nothing but sought problems ever since. |
| Samantha Perry | Sunnyvale, CA | 2015-10-13 | I have a voice and a duty to protect our water supply. |
| Richard Beebe | Tracy, CA | 2015-10-13 | I am NO fan of this "new" water-grab scheme to shuttle water to the California southland. Los Angeles has done an remarkable job of dealing with limiting its own water thirst over the past years. The scheme puts in dire jeopardy the water quality, with an increase in salinity of the Delta estuary system. Only the water shuttled away will be "fresh" water. Just say NO! |
| Sandra Magallon | Vallejo, CA | 2015-10-13 | The tunnels will destroy the eco-environment in the Delta. Leave nature alone!! |

| Name | Location | Date | Comment |
|------------------------|---------------------|------------|--|
| Rosa McGuire | Stockton, CA | 2015-10-13 | I'm signing because we need to protect our wetlands, our farmlands and our environment. |
| Bea Riley | Rio Vista, CA | 2015-10-13 | water is not a commodity, it belongs to everyone |
| Melody Bold | Delhi, CA | 2015-10-13 | We need to keep our water where we can use it...use the money to build desalination plants in the south instead. |
| mary arnaiz | acampo, CA | 2015-10-13 | It's not good for our delta! |
| Mark Araldi | Sacramento, CA | 2015-10-13 | No TUNNELS!!! |
| Shaun Loveseth | Sacramento, CA | 2015-10-13 | It's not right! That is not the legacy I am going to leave for my children. It would destroy the delta forever. Just so I and can be green in SOCAL. |
| Melissa Guindon | Stockton, CA | 2015-10-13 | I'm signing this petition because I oppose building these canals. |
| Klint Schroeder | Yuba City, CA | 2015-10-13 | California has enough water issues why create more!!! |
| Janice Vick | Rio Vista, CA | 2015-10-13 | The Delta is essential to the California economy as well as the fish, wildlife, farmers and cities that depend on it to remain whole. |
| Lori Unger | Stockton, CA | 2015-10-13 | I'm signing because I don't want the Delta depleted!! Let Southern California fix their problems without destroying Northern California!! |
| John Krueg | Lodi, CA | 2015-10-13 | These tunnels will destroy natural habitat and let salt water far up into the Delta making the water useless for Farming. |
| Steve Ramiro | Vacaville, CA | 2015-10-13 | It would be disastrous to the Delta, the lakes and the S.F. bay estuary. There are many better solutions one being invest in building salt water/fresh water conversion plants along the coast and the infrastructure to pump it inland for water needs. |
| Sara Gomez | Rio Vista, CA | 2015-10-13 | I do not want our delta water sent to southern California |
| Willis jones | Santa Rosa, CA | 2015-10-13 | it just not a good idea. The river and Delta are too vulnerable as is. Leave them alone. |
| Dr. Thomas Bertram PhD | Madison, CA | 2015-10-13 | This is a big ecological mistake. This decision is 100% political |
| Daniel Thiel | Stockton, CA | 2015-10-13 | I believe the tunnels are a short term solution that will ultimately destroy Northern California river towns, by prolonging the destruction of Southern Californian urban areas, where water is scarce. |
| Jeffrey Albrecht | West Sacramento, CA | 2015-10-13 | There are better options. |
| Roxie Skull | Sacramento, CA | 2015-10-13 | I dont want our delta destroyed and all the wildlife that will perish in the process |
| Byron pickle | arcata, CA | 2015-10-13 | The health of the wetlands is paramount, for a healthy bay. I'm a fisherman, save our salmon! |
| alain kelder | Livermore, CA | 2015-10-13 | I'm signing because the proposal doesn't address the water shortage and endangers an important estuary! |
| Frank Acojido | Walnut Creek, CA | 2015-10-13 | Stop this plan which is a con! |
| Ramon Medina | Oakley, CA | 2015-10-13 | I want the delta thrive for generations to enjoy the beauty, the wild life, the fishing, and the recreational boating. Don't ruin what Mother Nature has give us |
| Katherine Simpson | Hood, CA | 2015-10-13 | I believe this plan will most certainly wreak havoc on the ecology/economy of the Delta system and SF Bay. |
| Jason Dib | Stockton, CA | 2015-10-13 | I live by the delta |
| William Clark | Concord, CA | 2015-10-13 | I oppose the Delta Connells |
| Skore Sartuche Jr. | Visalia, CA | 2015-10-13 | California Native |
| David Stickney | Lafayette, CA | 2015-10-13 | I love the delta and the small farming communities it supports. The tunnels will destroy that...and for what? Poorly managed agribusiness and Real Estate development? No Tunnels! |

Petition 1 - Restore the Delta (Form 5 generator)

| Name | Location | Date | Comment |
|------------------|----------------|------------|--|
| Hanna Belyea | Torrance, CA | 2015-10-13 | I'm signing because I want to save the ecosystem in the delta. These tunnels will not solve anything! |
| Heidi Lane | San Jose, CA | 2015-10-13 | it's time to handle the problem correctly - not by damaging another resource! |
| Linda Liu | Pleasanton, CA | 2015-10-13 | My friends and family have lived there for over 200 years, farming and caring for the land. To put their history, their livelihood, their future in jeopardy is unconscionable. Besides that, the wildlife that live there will be harmed and they are already stressed with the drought we have experienced. Please do not go through with the tunnels. |
| Beverly Deal | Stockton, CA | 2015-10-13 | We dont need tunnels |
| Chris Morris | San Jose, CA | 2015-10-13 | This keep coming up every few years. The people of Cslifornia voted this down as a canal, so it comes back as a tunnel! Not no, but hell no!! |
| Charles Larson | Sacramento, CA | 2015-10-13 | It will destroy the natural habitat and estuaries of native species. |
| Justin Scharlack | Sacramento, CA | 2015-10-13 | You don't need to take water from our delta's. This is pointless, it's just for politics who are money hungry bastards. |
| Albert Dondero | Linden, CA | 2015-10-13 | I think the tunnels will do more harm than good. We should be looking at more storage options and not |
| Marykate Olson | Stockton, CA | 2015-10-13 | I live near the Delta and have for my entire life. I don't want salt water in the Delta. I want plants and animals to continue living in this area. |
| Michelle Baird | Brentwood, CA | 2015-10-13 | I'm signing because The Delta needs to be protected not destroyed |
| Mason Gallegos | Brentwood, CA | 2015-10-13 | Big bass |
| mary martinez | reno, NV | 2015-10-13 | To save the delta!!!!!!!!!! |
| Serena Robertson | Sacramento, CA | 2015-10-13 | nothing good comes from destroying natural resources, animal habitat, and clean water supplies. The impact is of a huge magnitude and not a real solution. |
| Ethan Worthley | Fresno, CA | 2015-10-13 | Im signing to save the preciouese wildlife of califronia |
| Anne Karcher | Brentwood, CA | 2015-10-13 | The Delta is an irreplaceable resource to Northern California: we can't afford to further damage it. |
| Jared Lambert | Sacramento, CA | 2015-10-13 | This will destroy and allow salt water to come further into the freshwater rivers. |
| Richard Hunt | Clarksburg, CA | 2015-10-13 | This Delta needs to be protected from private enterprise. The Delta environmentally belongs in Northern California. |
| George Parrino | Stockton, CA | 2015-10-13 | This project does not assist with the drought issues of an inadequate water supply. In addition, the damage to the Delta Ecosystem will be so severe that it could ruin it forever. |
| Leland Quillici | Sacramento, CA | 2015-10-13 | As a lifetime steward of the Delta, I will not in any way support the proposal for water export tunnels. |
| Mark Miller | Tracy, CA | 2015-10-13 | Profit is not the only consideration. Populations should be limited in areas of the state that lack water. Growth should occur where sufficient water is available to support it. |
| David Storm | Sacramento, CA | 2015-10-13 | To preserve the Delta |
| Victoria Smith | Lodi, CA | 2015-10-13 | I'm signing because life will cease to thrive in this area if the Delta is destroyed. |

| Name | Location | Date | Comment |
|-------------------|--------------------|------------|--|
| Kim Stewart | Lafayette, CA | 2015-10-13 | I oppose the Tunnel project. It does not positively serve Northern California and the proposed project would potentially damage the Delta and it's diverse and vital environment. Effort should be focused on water storage in Southern California - legislation should require Southern California to take responsibility for their emmence water use - take care of themselves and don't steal water from the northern half of the fabulous state of California |
| steven vanzandt | Citrus Heights, CA | 2015-10-13 | I oppose the delta tunnels |
| Barry Bookman | Benicia, CA | 2015-10-13 | I don't want to divert more water to an arid land. We need the water here. The health of the Delta depends on the water. |
| sherita estes | La Grange, CA | 2015-10-13 | They need to leave the natural land and water alone. The farmers (we the people rural and city) NEED the water for the produce and animals to feed ourselves. The drought has threatened that. The Gov. and his friends will never go hungry because they have money. We have more and more homeless and hungry in this state every day. And less and less money to pay for it. Water IS OUR MOST PRECIOUS COMMODITY. |
| Ross Olson | Vacaville, CA | 2015-10-13 | We need to stop ruining the freshwater habitats of animals and be responsible and allow our grandchildren and beyond enjoy these beautiful areas and in doing this try to slow the salt water intrusion that is sure to intensify |
| Burtovoy Burtovoy | Elk Grove, CA | 2015-10-13 | No Tunnels you will destroy the Delta |
| Jodi Repstad | Lafayette, CA | 2015-10-14 | This is not an appropriate solution!!! DO NOT BUILD THESE |
| John abdilla | Discovery Bay, CA | 2015-10-14 | I love the delta and want it to be around for future generations. |
| Amanda beghtel | Stockton, CA | 2015-10-14 | I'm signing because I love the delta and want my children to be able to experience it as well! |
| Rise Revis | Vacaville, CA | 2015-10-14 | The Delta is like my backyard- I swim, kayak, boat ,fish and the farming around it feeds America. SoCal does not get anymore of this valuable water. We also need the habitats it provides in the delta and bay |
| Jesse Morales | Galt, CA | 2015-10-14 | SAVE THE DELTA! STOP THE TUNNELS! I grew up fishing, swimming and boating all over the delta. |
| Greg Settles | Sacramento, CA | 2015-10-14 | I love the fishery here I. The delta I would hate to see it change. I would like my kids to experience what I got to |
| Michelle fanucchi | Antioch, CA | 2015-10-14 | saving the delta where I live |
| L Filbrun | Modesto, CA | 2015-10-14 | This is not the fix we need to solve water problems in the states southern region. The money that would be spent on the tunnels should be spent on a proper sustainable infrustructure that captures and stores water during heavier precipitation to be used during dry years. Tunnels only rob peter to pay Paul. With NorCal being peter. |
| Ann Puntch | Silver Spring, MD | 2015-10-14 | this proposal is awful |
| Jeannine DeWald | Royal Oaks, CA | 2015-10-14 | The SF Delta is unique in all the world. De-watering it would be a crime against humanity. |
| Rachael Miller | Marysville, CA | 2015-10-14 | We already have water problems; no need to make more. Southern California needs to start working on using or storing their own water and conserving water better. |
| David Hong | Elk Grove, CA | 2015-10-14 | I grew up in the delta and live 30 mins away from the sacramento river. To see the fish decline is heartbreaking. To have to tell my kids how it used to be is heartbreaking. Stop the tunnels! |
| Nancy Shelton | Vacaville, CA | 2015-10-14 | I'm concerned about environmental issues. Our delta needs to be restored. |

Petition 1 - Restore the Delta (Form 5 generator)

| Name | Location | Date | Comment |
|----------------------|--------------------|------------|--|
| Kathy Slater | Sacramento, CA | 2015-10-14 | Sending our water and building tunnels is not a smart decision for our state. Let So. Cal. learn to save and budget their own water. It makes no sense to destroy No. California. |
| Debra Allard | Modesto, CA | 2015-10-14 | Debra K Allard |
| Steven Bahnsen | Battle Ground, WA | 2015-10-14 | Fresh water is a nesesity for the Delta to continue as the country's bread basket. |
| John Ballou | Fairfield, CA | 2015-10-14 | the delta salinity has risen plenty we are destroying are farm lands |
| Carol de Sa Campos | Escalon, CA | 2015-10-14 | Robbing Peter to pay Paul has never been a solution. No new water is created by this. Impoverishing one to enrich another is not just. |
| Anthony Mata | Sacramento, CA | 2015-10-14 | I pay my taxes and this is not what I want it used for. Old man brown needs to step back and realize what a bad idea this is. |
| Michael Johnson | Rio Vista, CA | 2015-10-14 | I think the tunnels will cause considerable deterioration of the delta environment. The environmental impact study could not determine the effect on the most important species in the delta. |
| Nicholas D'Amato | Carmichael, CA | 2015-10-14 | Because I fish the Delta |
| David Shelton | Vacaville, CA | 2015-10-14 | The tunnels are a sin against nature, make no sense, will ruin the estuary, and are too expensive. Find alternatives, of which I can think of a dozen. |
| Shelley Cowley | Elk Grove, CA | 2015-10-14 | I grew up in he delta as my father was a farmer. These tunnels will destroy the nature habitat. |
| Stacey Byrne | San Diego, CA | 2015-10-14 | Save the Delta! These tunnels will destroy the fragile eco system and do irreversible harm. |
| darik pearson | Sutter, CA | 2015-10-14 | We need to keep our water! ! |
| Jeremiah Samson | Chico, CA | 2015-10-14 | Northern California shouldn't suffer because Southern California's doesn't know how to sustain their own water usage. |
| Elena Tomasetti | Red Bluff, CA | 2015-10-14 | I'm signing because this is our water and has been for years. Don't mess with our fish. |
| Judith Lucero | Oakland, CA | 2015-10-14 | destroying the Delta and its wetlands is not an option. |
| Karen Jones | Middleton, ID | 2015-10-14 | I love the delta |
| Alannah Long | Rio Linda, CA | 2015-10-14 | Save the delta! |
| Lorrie Freitas | Modesto, CA | 2015-10-14 | Concerned it will be detrimental to the Delta eco system. |
| linda rollins | Oakland, CA | 2015-10-14 | Gov Brown; Who sold the Kern Water Bank to Paramount farms, POM, and the fat corporate farmer couple Stewart and Linda Resnick? Give us back the Kern Water Bank. It belongs to Caifornians, not greedy Republican capitalists!!!! No to the tunnels!!!!!!!!!! Stop giving our water to greedy corporations. |
| Will Pier | Sonoma, CA | 2015-10-14 | 20% to 25% of the water pumped south is lost to evaporation. Cover the 2 Canals with photo voltaic materials and there will be no need for the tunnels. |
| dennis Osborne | Rodeo, CA | 2015-10-14 | Appreciate the delta and would prefer more fresh water for the anadromous fish. |
| Tami Kine | Citrus Heights, CA | 2015-10-14 | I'm signing because I don't want to see our precious Delta waterways messed with. I fish this region a lot and support our wildlife preservation and our farming communities. This will in fact disrupt the natural cycles of all life depending on it's currant environment. We spend a ridiculous amount of money on things that destroys instead of supports our own local resources. |
| Shanneen Kirkpatrick | Monterey, CA | 2015-10-14 | I can about our planet and my future children. |

| Name | Location | Date | Comment |
|------------------|---------------------|------------|--|
| Lori Welsh | Jamestown, CA | 2015-10-14 | Too expensive. Destroys wildland. Harmful to the Delta. Takes away much needed farmland. NO On the Delta Tunnels! |
| Isaiah Cummings | Sligo, Ireland | 2015-10-14 | Im from sacramento. And i dont want the delta to be messed with |
| Chris Carnevale | Citrus heights, CA | 2015-10-14 | I want to protect the fish in our system an stop the progression of this HORRIBLE DESTRUCTIVE PLAN..... We need to keep OUR water local. Southern California needs to find their own way to produce water. |
| Dan Sozzi | El Dorado Hills, CA | 2015-10-14 | I'm a conservationist who believes the Delta needs to be protected and the tunnels will destroy the delta. |
| Susie Durham | Camp Connell, CA | 2015-10-14 | Fishing is part of our food source for the winter. |
| Christine Miller | Marysville, CA | 2015-10-14 | Im against this because it will kill the delta |
| Treese Swanson | Oakley, CA | 2015-10-14 | I believe the tunnels are a detriment |
| julie roehm | San Jose, CA | 2015-10-14 | The Delta needs to be left alone. It is a volatile thing to mess with the water, as we have seen in this drought. Now El Nino is coming in 2015-2016. Tunnels will destroy the Delta levees |
| Joseph Messmer | Corning, CA | 2015-10-14 | We have to protect our wildlife. |
| Michelle Burcham | Lockeford, CA | 2015-10-14 | We need to preserve the Delta not destroy it. |
| Billy Her | Stockton, CA | 2015-10-14 | I'm signing because going fishing in the delta is a thing I do when I have free time. Plus, Stockton wouldn't be the same without its levee. |

| Ruth Dresher-Brown | Wilton, Canada | 2015-10-14 | <p>I am writing to express my strong opposition to the the Delta Tunnels plan.</p> <p>The Delta Reform Act of 2009, in which the California State Legislature committed to the "coequal goals" of providing a more reliable water supply for California AND protecting and restoring the cultural, recreational, natural resource, and agricultural values of the Delta, cannot be upheld if the Delta Tunnels come to pass.</p> <p>The California Water Fix does not meet the restoration goals of the Delta Reform Act; it is simply a plan to export more water out of the San Francisco Bay-Delta estuary. The Delta Tunnels will also fail to provide more reliable water because the Delta watershed is already oversubscribed by five times in normal water years.</p> <p>My objections to the tunnels are threefold:</p> <p>The California Water Fix does not address the environmental, public health or economic impacts of the proposed Delta tunnels project. Also, the plan ignores alternatives that would save California tax and ratepayers billions of dollars, while investing in the jobs and local water sources that build sustainability.</p> <p>My environmental concerns with the plan are:</p> <ul style="list-style-type: none"> · The impact on wildlife and plant species in the Delta that depend on freshwater include the Delta smelt, chinook salmon, steelhead, San Joaquin kit fox, and tricolored blackbird, protected species already on the brink that will face decimation due to a diminishing food-web. · At sea, even the ESA-listed South Pacific Puget Sound Orca Whales depend on migrating Delta species that will be harmed by less water flowing through the Delta. · The tunnels plan seems to ignore Section 7 of the Endangered Species Act which prohibits federal agency actions that are likely to jeopardize the continued existence of any endangered species or that "result in the destruction or adverse modification of [critical] habitat of [listed] species." <p>My public health concerns with the plan are:</p> <ul style="list-style-type: none"> · The tunnels will cause increased contamination of municipal water and wells for the millions of rural and urban residents living in the five Delta counties. · The tunnels plan fails to model for potential increases of carcinogens and other formation of byproducts that would cause cancer and other serious health effects. · Environmental justice communities, who depend on subsistence fishing, will also face food and health insecurities as a result of increased contaminants, specifically mercury contamination, in fish and wildlife populations. <p>My economic concerns with the plan are:</p> <ul style="list-style-type: none"> · For large metropolitan cities such as Los Angeles and San Jose that depend on export water, water rates and/or property taxes will go up, but they will get no additional water. · No analysis has been done on how the lack of fresh water flows will impact San Francisco Bay tourism and recreation. These industries depend on Delta fresh water flows for their crab and salmon fisheries, wildlife sighting, boating, and their restaurant economy. This industry is worth billions annually. · Salinity intrusion is already impacting the western Delta farms and removing Sacramento River freshwater from the system will make matters worse. Delta farmers cannot irrigate crops with salt water and they certainly cannot plant crops in contaminated soils. The Delta Ag economy, which consists of generations of family farms and farm workers, generates \$5.2 billion for the California economy, annually. · California coastal fishing communities depend on thriving wildlife. This historic industry is worth billions annually, with the salmon industry worth \$1.5 billion annually alone. Thousands of jobs and livelihoods are tied to these industries. · The operation and construction of the tunnels will obstruct and disable navigable waterways for boating, marinas and other types of leisure activities, in addition to creating conditions of low water flow that will foster invasive aquatic species, such as water hyacinth. Poor water quality also creates unsafe recreation. Recreation and tourism in the Delta generate \$750 million annually. <p>Alternatives to Water Exports Ignored</p> <p>Far far less expensive and less environmentally destructive alternatives to the Delta Tunnels were largely ignored. The plan does not seriously consider any alternatives other than new, upstream conveyance. The decision-making process (from the outset) has tilted in favor of increasing water exports from the Delta.</p> <p>Our tax and ratepayer dollars would be much better spent on:</p> <ul style="list-style-type: none"> · More aggressive water efficiency program statewide that would apply to both urban and agricultural users. · Funding water recycling and groundwater recharging projects statewide that would be billions of dollars less expensive for |

| Sheri Battle | Sacramento, CA | 2015-10-14 | Our unique estuary must be protected, if nothing else but for the food production it provides! |
| Debbie Harden | Stockton, CA | 2015-10-14 | Economic concern |
| Chiara Macciardi | Stockton, CA | 2015-10-14 | No Tunnel. .. |
| Scott Mckenzie | Sacramento, CA | 2015-10-14 | It's a joke, and a waste of money and valuable resources. Zero new water created and this bill has been misleading the California people from the start. Changing the name of the project every time people realize whats really going on. No on the tunnels. |
| Toni O'Neal | Rio Vista, CA | 2015-10-14 | The delta has been my home for a long time. The beauty and necessity of this area is beyond reproach. Without it this area will not thrive as it has for so long. |
| Lynn Holliday | Sacramento, CA | 2015-10-14 | You must be crazy to think is a reasonable idea? There are better options out there, that don't destroy an entire estuary!!! |
| Christopher Tipton | Stockton, CA | 2015-10-14 | Im fighting because I grew up fishing the Delta with my grandfather and I'm hoping I could do the same thing with my grandkids |
| Shawn Caton | Walnut Grove, CA | 2015-10-14 | Please fuck off with the tunnels and tax that nestle ass |
| Donald Wolfe | Stockton, CA | 2015-10-14 | I love the delta |
| LeeAnnA Borba | Tracy, CA | 2015-10-14 | I love fishing the delta and want to keep the fish to be able to keep fishing there!!! It's my peaceful family time on my days off!! |
| Rhonda Soderfelt | Stockton, CA | 2015-10-14 | Please stop the City Of Stockton from using water from its treatment facility on Eight Mile Road. It's making the people that are in that district sick. Blistering skin, ear infections, rashes hair falling out, nauseous, burning skin. From the fertilizer nitrates. Herbicides and pesticide. Please someone from the EPA Come and test the water. It smells and so dose our laundry. Undrinkable. And you want to send this poison water to other communities. Some one Please come and help! We're at the mercy of the water director who is unwilling to do anything. He is arrogant when speaking on the phone. We got a letter from the City Of Stockton to inform us that Our water system recently violated a drinking water standard. From April 18th to January 17th 1013 that their systems exceeded the standard or maximum contaminate level for total Trihalomethane and that it could cause problems with the liver, kidney's our central nervous systems and may have an increased risk of getting cancer. The water plant east of Stockton received to violations already this year. Please can some reading this please come help us here in the City of Stockton! Our water comes straight from the delta Eight miles from my home here in Stockton! And now your going to send this poison to the Bay area? Criminal! Fix the water pollution in the Delta. Making us sicker every day! |

| Robert Marrone | Lafayette, CA | 2015-10-14 | We MUST protect the health of the San Francisco Delta and Bay systems!! |
| Douglas Witmore | Livermore, CA | 2015-10-14 | I am offended by Govenor Brown's and Water Board's effort to ramrod the creation of the TwinTunnels into existance. The twin tunnels are a waste of the money. The voters who approved the Water bond in fall of 2014 wanted more effective and productive use of California water resources. They did not approve the twin tunnel construction. |
| James Baker | Riverbank, CA | 2015-10-14 | I'm signing this because I don't think it needs to be any easier for southern California to steal our water. We need above ground water storage and we need it now! |
| Gina Gonzalez | Truckee, CA | 2015-10-14 | Governor Brown's choice (not We The People) is unsustainable |
| Brian Gardner | Lodi, CA | 2015-10-14 | Avid kayaker, boater and fisherman. |
| Cyprus Sommer | Stockton, CA | 2015-10-14 | We need the water for farming. |
| Janie Ward-Franklin | Rocklin, CA | 2015-10-14 | To save our fram land and our waterfowl. |
| Michael Monschein | Oakdale, CA | 2015-10-14 | It's absolutely wrong we need reservoirs & watershed not water going down south when we don't have water here in Norhern and central California |
| Rich Schmitt | Yuba City, CA | 2015-10-14 | The delta would be destroyed! |
| Wade Sherman | Stockton, CA | 2015-10-14 | The wetlands must be protected |
| Kado Norng | Tracy, CA | 2015-10-14 | I fish these waters my whole life and enjoy being out in the delta so taking that away would hurt not only the fish but the environment. |
| Melissa Hammack | Antioch, CA | 2015-10-14 | This will destroyed the Delta wildlife and salt water will be pushed into the Delta. If you destroy one part of the ecosystem it will affect everything else. I grew up enjoying these waters let's leave them for all the generations after me. |
| Robert Schlick | Stockton, CA | 2015-10-14 | Please SAVE the DELTA. I ride a mountain Bike on the canals. Please save this Resource!!!! |
| Denise Mason | Citrus Heights, CA | 2015-10-14 | I oppose massive underground water export tunnels now called the "California Water Fix" though it is essentially the same project as the peripheral canal, which California voters rejected in 1982 by a 62.7% majority. |
| Robert Schlick | Stockton, CA | 2015-10-14 | We have already Destroyed the Delta for Farming.. Let us Please Preserve what is left, Without the Tunnels Please!!!!!!! |

| Name | Location | Date | Comment |
|-------------------|------------------|------------|--|
| Joyce Catching | Elk Grove, CA | 2015-10-14 | I'm tired of sending water to Southern California. They simply misuse & abuse it. |
| Wesley Adams | Modesto, CA | 2015-10-14 | Build more dams, don't destroy the delta! Our current water storage was not built for today's population. |
| Taryn Casaleggio | Sacramento, CA | 2015-10-14 | Please keep our water where it naturally exists. Build a pipeline from east to west, but don't destroy the precious ecology of our state by removing water from where it's always been. |
| Doug Muraki | Sacramento, CA | 2015-10-14 | I strongly oppose the tunnels! |
| Kathleen Kalberer | Modesto, CA | 2015-10-14 | I believe that southern California needs to manage their resources better instead of taking from another part of the state. |
| Tyler Urban | Arcata, CA | 2015-10-14 | The entire delta system is already heavily overdrawn and has demonstrated the drastic and damaging effects of these prior siphoning projects to many species of native wildlife. This tunnel plan is another catastrophic yet obvious attempt to repeat the same historical problems and to add to their magnitude of damage. This "fix" does not fix anything, but it will break everything. |
| Gloria Pohan | Antioch, CA | 2015-10-14 | I love the unique beauty of our delta and support common sense solutions to problems, not this reckless, short sighted idea. |
| Eric pene | Isleton, CA | 2015-10-14 | I live and use the delta daily |
| aubrae clough | Lathrop, CA | 2015-10-14 | I believe the tunnels will damage the delta and the surrounding farmlands and waterways. |
| Tyeteanna woods | Stockton, CA | 2015-10-14 | Our region is hurting enough as is |
| Mary Chaney | Riverbank, CA | 2015-10-14 | I'm signing this because we need all the water we can get we are in a major drought we need our water supply!!!! |
| Randy Brunmeier | Linden, CA | 2015-10-14 | You are going to destroy the Delta and it's wildlife |
| Shannon Wilhite | Eugene, OR | 2015-10-14 | This is ridiculous, when will you learn band-aids don't fix the problem they are just a cover up. This project is a band-aid of mass destruction! |
| Andre Zweers | Petaluma, CA | 2015-10-14 | I want the water to stay where it belongs! |
| Michael masuda | Sacramento, CA | 2015-10-14 | Save the delta. No tunnels! |
| Luis Estrada | Stockton, CA | 2015-10-14 | I want the delta to be restored I don't want no tunnels it's cheaper to restore than to built tunnels. NO ON TUNNELS |
| sharon vargas | Waterford, CA | 2015-10-14 | I care. |
| Alison Rhea | Newport, RI | 2015-10-14 | Stockton is my home town, and I care. |
| Leslie Chappell | Sonora, CA | 2015-10-15 | Big Agribusiness is forcing their way with the state Dems to get water they don't need - if they don't have the water they need then they can't grow those crops. This is all at the expense of a rich and natural habitat for fish, animals and the livelihood of families and businesses in the delta and surrounding areas. It comes with a huge price tag - all at the expense of the CA tax payers who get no say in the approval of the tunnels. |
| Ann Holmes | Philadelphia, PA | 2015-10-15 | The delta tunnels are not a solution to California's water crisis. The tunnels only forestall the problem and divert money and energy away from real changes in water policy and practice. |
| Minh Bui | Fresno, CA | 2015-10-15 | The government is stupid and should let the PEOPLE decide. |
| Michelle Zepeda | Walnut Grove, CA | 2015-10-15 | I live and work on the delta, I am third generation on Andrus Island. |
| John Fonzi | Stockton, CA | 2015-10-15 | There are enter solutions than the twin tunnels. Desalination and recycled water solutions would be less expensive and equally or more effective. |
| Joan Ellis | Sacramento, CA | 2015-10-15 | Surely we shouldn't destroy an estuary. |

| Name | Location | Date | Comment |
|---------------------|----------------------|------------|--|
| Charles Byrd | stockton, CA | 2015-10-15 | I am not about to let them take the delta away from the surrounding community's. |
| ken boquist | Sacramento, CA | 2015-10-15 | Bad for our delta , bad for the valley , we can't support so cal |
| Richard Fisher | Modesto, CA | 2015-10-15 | We need the water in Northern Ca |
| Bryant Pitner | Dixon, CA | 2015-10-15 | We need a state of the art green energy hydro electric power plant at the Auburn dam site. Name it after Jerry Brown and build it. |
| Jared Amos | Woodbridge, CA | 2015-10-15 | To protect our reservoirs and waterways in Northern California. |
| Kimberly Gasaway | Brentwood, CA | 2015-10-15 | I live in the delta area and work in the urban city thus part of both water areas affected. |
| Bill Dillard | Stockton, CA | 2015-10-15 | I'm apposed to the tunnel plan. Your plan is going to create more problems than solutions. Stop the tunnels Now!!!! |
| Ann Marie Avansino | Manteca, CA | 2015-10-15 | The tunnels are bad for the state economically, agriculturally, and environmentally. |
| Akram Ahmad | Merced, CA | 2015-10-15 | we don't need the tunnels |
| steven ng | san francisco, CA | 2015-10-15 | I believe in reserving the tunnel. |
| pedro avalos | stockton, CA | 2015-10-15 | Will destroy the fauna |
| matthew hemminger | modesto, CA | 2015-10-15 | It's stupid and a waste of tax dollars |
| Brooke Jensen | San Francisco, CA | 2015-10-15 | Not a well thought out solution. |
| cynthia faultner | Stockton, CA | 2015-10-15 | stop the tunnels!!! |
| Nancy Hill-Moldoch | Galt, CA | 2015-10-15 | You will ruin the Delta. Screw the exports. |
| Stephanie Vigil | Manteca, CA | 2015-10-15 | I am signing this because it is a waste of our tax dollars in an already shitty economy, and this will distroy the Delta. No tunnels!!!! |
| Payden Martin | Sacramento, CA | 2015-10-15 | you cannot drink dirt! |
| PJ Santos-Eisenberg | Kensington, CA | 2015-10-15 | I am a Native Californian and the "idea" will destroy the delta, just like the Salton Sea was first created, then destroyed. There must be another option, use it! |
| Victoria Flenner | Stockton, CA | 2015-10-15 | No on the delta tunnels |
| Doug Clough | lathrop, CA | 2015-10-15 | I do not feel that this is the "Fix" for our water woes. |
| Peter Johnson | Modesto, CA | 2015-10-15 | Bobby Barrack taught me about the Delta while hanging out on the Bayou. |
| Jacy Castellana | Huntington Beach, CA | 2015-10-15 | I'm signing because I am an undergrad student studying botany and ecology and I believe this operation will devastate what's left of our beautiful state. |
| Barbara Velasco | Fresno, CA | 2015-10-15 | I don't believe it will help and it will cause contamination |
| Jesse Jewell | Roseville, CA | 2015-10-15 | I want to keep my country's natural landscape. |
| jon miller | westchester, CA | 2015-10-15 | I'm signing because the new tunnels will damage the Delta ecological system, the main supply of water for the SanFran area, and because the water can 100 percent be used in a better way than growing and selling almonds and nuts overseas for a profit. You are the one who realized California is in a drought Brown! You made California cut back 30 percent and we did better Brown! Stop trying to get rich quick and actually think about other people for once in your pathetic life. |
| Stacey Fite | Truckee, CA | 2015-10-15 | Why would anyone do such a thing? Please leave the delta alone, we do not need to build a tunnel! What we need is to continue conserving water as a state. |
| Jackson Craft | Sacramento, CA | 2015-10-15 | It is the right thing to do |

| Name | Location | Date | Comment |
|---------------------|----------------------------|------------|---|
| Jerry South | Sonora, CA | 2015-10-15 | Health and environmental concerns. |
| Amanda Corvello | Antioch, CA | 2015-10-15 | I think the delta should be left in it's natural state. When man intercedes, it never turns out well. Make the farmers collect rain for drought years to keep them in business. |
| Virginia Monaghan | Galt, CA | 2015-10-15 | I don't want to see our delta destroyed to provide water for LA! |
| Caroline Lester | Whitstable, United Kingdom | 2015-10-15 | I strongly oppose the scheme |
| Tricia Lopez | Wilton, CA | 2015-10-15 | We need our water here! Don't give it awsy until there is an excess we can spare! |
| sheila winslow | north highlands, CA | 2015-10-15 | I believe this will harm our environment and the farmers ability to continue to provide food for our country |
| Ellen Behrens | Somerton, AZ | 2015-10-15 | Northern California gives Southern California enough water already. And this is just too much. |
| Nick Lynch | Granite Bay, CA | 2015-10-15 | I don't want the delta to be destroyed |
| Lynn Read | Davis, CA | 2015-10-15 | I am signing because the entire concept is wrong, wrong, WRONG!!!! |
| Elena Gonzalez | Acampo, CA | 2015-10-15 | I support our local farmers and I like visiting our delta water |
| jeremy davis | Santa Cruz, CA | 2015-10-15 | I love fish & they love me |
| Steven Harvey | Live Oak, CA | 2015-10-15 | I oppose the tunnels. |
| Rhonda Montgomery | Stockton, CA | 2015-10-15 | We need to keep our water here locally. Its a waste of taxpayers money to build these tunnels. |
| Linda Rapaport | Stockton, CA | 2015-10-15 | It's a bad idea! |
| Caroline Blasingame | Concord, CA | 2015-10-15 | I think the tunnels are a terrible plan! |
| Tracy Jackson | Acampo, CA | 2015-10-15 | save our delta |
| Jami Mandich | Stockton, CA | 2015-10-15 | <p>I just moved from Stockton,CA to Utah last year and I plan on moving back in a couple of years. Lived across the street from the Smith Canal for most of my life. Swam in and fished the Delta all my life.</p> <p>Taking water from this part of the state will only create major problems in the future. The ground is already sinking in the farming areas due to ground water use for crops.</p> <p>Desalination is the way to go to provide the water we need in the rest of the state. NO TUNNELS! SAVE THE DELTA!</p> |
| Israel Swanner | Stockton, CA | 2015-10-15 | <p>This kind of project should be positively voted for by the People, not legislated into existence by politicians who don't even reside in the affected area.</p> <p>Furthermore, it's absolute madness to affect the flow of the Delta, which feeds one of the biggest and most economically significant farming communities in the NATION (San Joaquin Valley) just to benefit a small group of cash crop growers (LA-area but growers) in an area that shouldn't be farmed in the first place.</p> |
| Craig Tanner | Benicia, CA | 2015-10-15 | I love the delta and the outdoors activities it provides |
| Glen Lublin | Visalia, CA | 2015-10-15 | The delta is one of the only treasures we have left . |
| Blane Cx | Tracy, CA | 2015-10-15 | The outdoors needs to stay the way it always has been! Don't mess with our water!!! |
| Steve Victor | Lathrop, CA | 2015-10-15 | I love the delta. Leave it alone |

| Name | Location | Date | Comment |
|--------------------|-------------------|------------|---|
| Daniel Blankenship | Rocklin, CA | 2015-10-15 | Recreational sports are a huge money maker, fishing in general we pay a lot of money each year to fish, not to mention all the revenue you would lose by adding these tunnels, no more tournaments on the delta to bring money which no buddy buys fuel in the local area nobody pays for places to spend the night so on and so on. It's a trickle affect. Not to mention our kids future I have 3 and I take them out there all the time to catch striper, bass and panfish there plentiful and they love it which in turn when they grow they will spend there money on a license and fuel and everything they need to go fish at there favorite spot which helps the state and local economy! |
| Lance Cowley | Lincoln, CA | 2015-10-15 | jerry brown is an idiot and LA needs to quit destroying the north state! |
| Gerald Johnston | San Francisco, CA | 2015-10-15 | We should not mess with our delicate eco system |
| Angelique Grijalva | Fair Oaks, CA | 2015-10-15 | The tunnels will destroy the delta |
| Ryan Benson | Redding, CA | 2015-10-15 | These tunnels will ruin the state environmentally....especially fish die offs.... |
| Matthew Benson | Redding, CA | 2015-10-15 | I want to. |
| Blake Estrada | Yuba City, CA | 2015-10-15 | I |
| Bob Selsor | Linden, CA | 2015-10-15 | Idea is totally off base . BS |
| Kirk Anderson | Manteca, CA | 2015-10-15 | I work in agriculture throughout the delta and I'm a fisherman. |
| Jesse Vang | sacramento, CA | 2015-10-15 | I know this will destroy the Delta's environment. We can't keep on destroying our homeland just for economic purposes. We can't let history keep on happening again and again. I'd love to bring my future kids out to see the delta but if this were to happen I know i will never get to show our future generation this beautiful environment. |
| kate buckner | Ripon, CA | 2015-10-15 | I want the tunnel plan to stop. Protect our mother earth. |
| Jeffrey Dimaoala | Antioch, CA | 2015-10-15 | I live here and I love the natural wildlife of the place. This project would destroy the fragile ecosystem without providing anything productive for our area |
| Evelyn Ledesma | Elk Grove, CA | 2015-10-15 | The Delta is home wildlife and farm land. Don't destroy this beautiful land |
| Phillip dutra | Antioch, CA | 2015-10-15 | the delta is a public waterway not a money pit for the govt. stop ruining our delta |
| James Breckinridge | Oakley, CA | 2015-10-15 | To protect the Delta |
| Clayton Galassi | Watsonville, CA | 2015-10-15 | I fish the delta all the time and I want to keep fishing it! |
| Matt Vahle | Folsom, CA | 2015-10-15 | This is horrible for the environment; and it is all about money and control.. Dams and irrigation of the delta are hurting it. |
| trent yee | Brentwood, CA | 2015-10-15 | bass fishing |
| nathan obermiller | dixon, CA | 2015-10-15 | This plan is not sustainable. Plans to develop sustainable solutions like benefits for reduction of use and grey water systems in residential and commercial spaces should be primary focus of funding. |
| Patti Crowder | Stockton, CA | 2015-10-15 | We need the water HERE! Farmers don't have water, you don't have food |
| Ben Rualo | Martinez, CA | 2015-10-15 | I oppose the delta tunnels because it will lead to the destruction of the delta. |
| Tim Stroshane | Albany, CA | 2015-10-15 | By saving the Delta from the Tunnels we save California from the Tunnels as well! |
| Chris Smith | Stockton, CA | 2015-10-15 | I'm a concerned fisherman |
| Archie Mares | Concord, CA | 2015-10-15 | Wrong solution for southern california |
| Chue Xiong | Berkeley, CA | 2015-10-15 | There had to be a better solution than these tunnels. |
| Chris Miklavcic | Phoenix, AZ | 2015-10-15 | This is hurting one of the best fishing spots in this country if this bill is passed |

Petition 1 - Restore the Delta (Form 5 generator)

| Name | Location | Date | Comment |
|----------------------|---------------------|------------|--|
| Jeane Johnson | Goleta, CA | 2015-10-15 | We own property on Steamboat Slough. We don't want the tunnels to make changes to the surrounding environment! |
| Barbara Bartel | Estacada, OR | 2015-10-15 | I'm signing because I believe in a river's inherent right to run free. Additionally I don't believe that this project is environmentally sound or economically responsible. |
| Julie Williams | Sacramento, CA | 2015-10-15 | I don't believe this is the right approach to solving the conflicting needs of habitat and secure water supply. Let's work on desalinization technology. |
| Derryck Heimsoth | Modesto, CA | 2015-10-15 | I love the delta and want my kids to enjoy it too |
| Deny Serrano | Elk Grove, CA | 2015-10-15 | I've enjoyed the beauty and recreation of the delta for 40 years and don't want to see it ruined. The estuary and delta need to be preserved as part of the native California environment and habitat for fish and animals. |
| Dan Wells | Chico, CA | 2015-10-15 | I do not believe in the cause of this bill. |
| Natalie Stewart | Sacramento, CA | 2015-10-15 | We spend a lot of time at the delta, we don't want it ruined. |
| Dante Lopez | Stockton, CA | 2015-10-15 | STOP THE TUNNELS!! |
| Rick Fulton | San Carlos, CA | 2015-10-15 | I like protecting our ecosystem. |
| Daniel Watson | Sacramento, CA | 2015-10-15 | I care about the Delta |
| Beth Pelandini | Chico, CA | 2015-10-15 | I oppose these tunnels! Save our wildlife and our water! |
| Karen Purdy | Pollock Pines, CA | 2015-10-15 | I am a recreational boater, but more importantly, I like to eat fish and crops grown by our California delta farmers. Oh yeah - I also like to drink water that is not salty or brackish. |
| John Ball | Galt, CA | 2015-10-15 | The tunnels will be a shameful destruction of one of California's finest natural resources. State government needs to stop the "use it 'till it's gone" attitude. State officials need to stop the bullying and use lawful procedures for such a monument undertaking. |
| larry fishman | oakland, CA | 2015-10-15 | the tunnels will have a devastating environmental impact in many ways! |
| Jason Misenhimer | Concord, CA | 2015-10-15 | I love the delta and want it to remain the way it is and do not want it to turn into a salt pit without fresh water killing everything for all generations to come. |
| gregory mccann | San Mateo, CA | 2015-10-15 | I read the concerns and agree, the Delta Tunnels are very destructive, and there are better solutions! |
| Kara stamey | Sacramento, CA | 2015-10-15 | I believe the tunnels will destroy the delta. And I believe there is some sort of special interest and money to be made if it is pushed through. It is not for the good of all people in the state, only a select few. |
| richard losh | Hilo, HI | 2015-10-15 | i was born and raised on the delta and I cannot fathom the destruction that will occur to our beautiful river and its inhabitants |
| Catherine Ceccarelli | Hood, CA | 2015-10-15 | Tunnels are not the solution |
| Michelle Beas | Stockton, CA | 2015-10-15 | We are in a drought and we need Delta's water to stay in Northern California! |
| Walter Van Hoy | West Sacramento, CA | 2015-10-15 | I'm signing this because the delta needs the water to save the fish which is a huge industry in California and to keep the salt water from ruining our farm lands. |
| Eric Peshlakai | Mesa, AZ | 2015-10-15 | From one fishing community to another. These can impact a life of adventures. Water is life! |
| Sandra klein | Half Moon Bay, CA | 2015-10-15 | i oppose this project. Cut off the water hogs in LA and shut off the golf courses.... |
| Rene Rodriguez | Stockton, CA | 2015-10-15 | Because i want protect my environment |
| Todd Hamamoto | San Leandro, CA | 2015-10-16 | I care. |

| Name | Location | Date | Comment |
|-----------------------|---------------------|------------|--|
| Charles Jackson | manteca, CA | 2015-10-16 | I am signing this petition first and foremost because I believe that water is important to the very livelihood of everyone involved in the Central Valley. I don't feel like a water should be stolen from the citizens of this county and sold to the highest bidder. I also feel that the government needs to stay in its place in no severe representatives of the citizens of this county and of this state and they should do what they are directed to do by the citizens who put them in office. So with that being said I feel that the Delta tunnels should not be built will not be built and we should deal with those people who are in charge that want to have these built despite our protest they should be dealt with accordingly as well ie removed from office he never voted for again I eat stop being career politicians and be regular citizens just like the rest of us. |
| Robert Vuorenma | Alameda, CA | 2015-10-16 | I bass fish the delta |
| Charles Peak | San Martin, CA | 2015-10-16 | I love the Delta as is. |
| Keith Brown | Stockton, CA | 2015-10-16 | I want to stop the tunnels...its our natural water..and i love the fish in it... SAVE OUR DELTA! |
| Annette Wright | Stockton, CA | 2015-10-16 | I am against the tunnels. |
| Patrick Pickerell | Pleasanton, CA | 2015-10-16 | I am against the tunnels. You cannot grow flowers in the desert. You will kill the delta and San Francisco bay. |
| Wally Smith | Kentfield, CA | 2015-10-16 | He removal of largemouth, smallmouth or striped bass has no positive effect on the initiative and a significantly negative effect on outdoorsman and the millions of much needed dollars they infuse into this budget challenged community. |
| Thomas Howard | Murrieta, CA | 2015-10-16 | Because to many Eco system have already been damage. |
| Nancy Laughlin | Livermore, CA | 2015-10-16 | I'm signing because I value the rich farmland and wildlife of the Delta. They are more important than the tunnels. Water can be shipped in other ways. The farmland and wildlife can't simply move elsewhere. |
| Jerry Gaya | Concord, CA | 2015-10-16 | Save the delta |
| Doris Pabis | Folsom, CA | 2015-10-16 | The tunnels make no sense. |
| Kathleen Garner | Roseville, CA | 2015-10-16 | Kathleen Garner |
| Rodney Brown | Sacramento, CA | 2015-10-16 | we need our water for many reasons! |
| Angelica Gutierrez | Elk Grove, CA | 2015-10-16 | I want to save the Delta. |
| Sean gettmann | West Sacramento, CA | 2015-10-16 | I moved to the region for freshwater access for skiing and fishing. With climate change means that the snow pack won't be consistent and the delta region can no longer support the central and so cal water requirements. I do believe in a sustainable solution...desalinization. Yes, it's expensive, but wil force the population to value and respect water usage. While so cal is green and lush, my lawn is dead and I'm tearing it out with a drought tolerant landscape. |
| Thomas Gorrie | Livermore, CA | 2015-10-16 | I strongly apposition the tunnels! |
| gerardo peredia | Stockton, CA | 2015-10-16 | I love the delta and fishing and trying too save wildlife. |
| Jene L. McCovey | Arcata, CA | 2015-10-16 | The tunnels will be taking water from Sacramento R. to San Joaquin R. and mess the fish's natural honing system where by they template to the natal streams they were born into. They know where to return to and where to spawn in as adults. |
| Alan Ernesto Phillips | Redding, CA | 2015-10-16 | Our Indigenous tribes share vast wisdom that does not agree with these tunnels. Our Indigenous People have lost so much of the land, watershed and fisheries they sustained for thousands of years. Follow the plight and wisdom of the Winnemem Wintu tribe to learn about the decimation of what's left of their culture and sacred sites as a direct result of these tunnels and the Shasta Dam raise... |

| Name | Location | Date | Comment |
|---------------------------|---|------------|---|
| ML Martinez | Walnut Creek, CA | 2015-10-16 | Voted no on the peripheral canal and this is just another version of it. |
| Karl Corkhill | Australia | 2015-10-16 | A unique area of California. I travel halfway round the world to visit the Delta and experience this great part of NorCal. |
| Rick McComb | Miramonte, CA | 2015-10-16 | I am very concerned with the loss of natural habitat that would occur not only for aquatic life but for birds as well. |
| Michael Bryant | Antioch, CA | 2015-10-16 | Most politics are bullshit, especially the ones dealing with the Delta tunnels! You people must not fish or hunt, God help you! |
| John Smith | Lethbridge, Canada | 2015-10-16 | I oppose the current plan for the underground water export tunnels! |
| Greg McCleary | San Jose, CA | 2015-10-16 | Water needs to be managed more equitably and responsibly. |
| MaryAbigail Kane-Berghash | Sacramento, CA | 2015-10-16 | I am opposed to even a gallon of our precious Delta Water being sent south. We need to have water for our farms and recreation and wild life. Spend the money and effort to De-salinate ocean water. LEAVE OUR DELTA ALONE. |
| Karen Jacques | Sacramento, CA | 2015-10-16 | The tunnels won't create any more water, but they will cause terrible environmental destruction. I want a healthy Delta and healthy native species, including salmon, and the tunnels will cause significant deterioration of the Delta, including loss of salmon and other species and significant deterioration in water quality. They are also unjust in that they will destroy the livelihood of Delta farmers by leaving them without water or taking their land through eminent domain. I want a sustainable water policy for California. I do not want a water grab by Big Ag, and the tunnels are nothing but a water grab. |
| Cheryl Lawrence | San Jose, CA | 2015-10-16 | Northern California's waters have been taken again and again to support unattainable growth in Southern California and central California. Isn't it clear that we don't want a peripheral canal? |
| Brian Joergensen | Livermore, CA | 2015-10-16 | To save the delta |
| Michael Frost | San Carlos, CA | 2015-10-16 | I'm signing because the monetary cost, environmental cost, and opportunity cost of the Tunnels are all too great. |
| Grace McHugh | Oakland, CA | 2015-10-16 | Stop messing with Mother Nature!! |
| Alan Clark | Santa Clara, CA | 2015-10-16 | This will ruin the delta towns and poison the farmland, kill the freshwater fish. |
| Nancy Houghton | Tracy, CA | 2015-10-16 | I live on the delta and understand the irreparable damage these tunnels will do. Not willing to pay that price. |
| Nancy Pickering | Vernal, United States Minor Outlying Islands | 2015-10-16 | Gov. Brown is an idiot and destroyer of the Great State of California. |
| Joseph Domish | Utica, MI | 2015-10-16 | These tunnels will be a waste of California taxpayer money, and the drought won't be solved by throwing money at it. |
| Brad Frankland | Sacramento, CA | 2015-10-16 | This is a disaster for the delta, fish, wildlife, and people living there too. |
| Ron Crawford | Discovery Bay, CA | 2015-10-16 | The California Delta ecosystem has been steadily declining for years because of over pumping and salinity incursion. Taking fresh water from the upper Sacramento River will further decrease the flows of fresh water flushing out the south Delta and potentially increasing salinity. |
| Michelaina Johnson | Berkeley, CA | 2015-10-16 | The water already is nonexistent, so why would you try to take more? |
| Rick Jones | Pleasanton, CA | 2015-10-16 | This project will ruin the environment in so many ways. |
| Barbara Flaherty | Wallace, CA | 2015-10-16 | Opposed to taking water from the delta due to environmental issues. |
| Eugene Shumway | Horseheads, NY | 2015-10-16 | I fish the delta every year when I visit my brother in law. This would affect me also. |
| Joyce Jones | Pleasanton, CA | 2015-10-16 | Stop ruining our environment! |

| Name | Location | Date | Comment |
|---------------------|-----------------------------------|------------|---|
| Carol MacKay | Ojai, CA | 2015-10-16 | I am concerned about the health of the Delta and oppose the tunnels as a waste of resources and a further degradation this valuable watershed. There are sustainable alternatives which need to be implemented instead. |
| Erik Smitt | Sacramento, CA | 2015-10-16 | I oppose the tunnels. |
| Florence Drury | Stockton, CA | 2015-10-16 | I and all my neighbors would be affected ! |
| Brian Kay | Las Vegas, NV | 2015-10-16 | Go Brown obviously has an investment in this and doesn't care about what damage it will do. More big business ruining our country. When will the madness stop? |
| Jarrold Rounsaville | Citrus Heights, CA | 2015-10-16 | It's not their water to begin with |
| Donna Caldeira | Lohrville, IA | 2015-10-16 | The Delta is where I was born and raised one of the most beautiful places to live and a very large supplier of food a very meaningful rich heritage for many wonderful people |
| HALLECK WILSON | Pleasanton, CA | 2015-10-16 | Removing water from the San Francisco delta, whether by a Peripheral canal which voters already rejected, or by underground tunnels, will adversely impact the fishing and farming industry of northern California, merely to benefit agribusiness in southern part of the state. State government should look to benefit the entire state. |
| Kathleen Boyd | Roseville, CA | 2015-10-16 | We don't need the tunnels |
| Rachelle Rivera | Stockton, CA | 2015-10-16 | We need to restore the Delta, not DESTROY it!!!! |
| Kurt Landisman | San Francisco, CA | 2015-10-16 | STOP messing with Mother Nature! |
| Sandra Waterhouse | Walnut Grove, CA | 2015-10-16 | I live in the Delta and this would totally ruin the environment and our life. |
| Bethi Carver Gibb | Bethel Island, CA | 2015-10-16 | I want a Safety And Shane delta And california |
| Terisa Chevreaux | Auburn, CA | 2015-10-16 | I'm signing because I voted against this same idea back in 1982 and it's still a bad idea. This short-sighted plan won't create any new water supplies. It will just drain the water and will create an environmental disaster and destroy the Delta and San Francisco Bay. |
| Rosalind O'Brien | Orangevale, CA | 2015-10-16 | The Delta cannot be sacrificed for selfish and for profit only reasons; it's nature at its best and offers so much.DON'T DO IT!!! |
| george azevedo | Desert Hot Springs, CA | 2015-10-16 | There has to be laws to stop the destruction to our California wetlands. The delta is the heart, sole and kidneys of the California water system and the tunnel project is doing major bypass surgery by a bunch of bafoons! |
| Bob DalPorto | Stockton, CA | 2015-10-16 | This will destroy the Delta estuary . |
| Skyler Horn | Elk Grove, CA | 2015-10-16 | SAVE THE DELTA |
| Barbara Scott | Stockton, CA | 2015-10-16 | For the amount of money spent and to be spent on the tunnels we could build and maintain desalination plants up and down the coast and relieve some of the drought concerns before we worry about how to ship non existent water to wealthy supporters in the South. |
| Julia Couzens | Clarksburg, CA | 2015-10-16 | this is a totally unsustainable project that will negatively impact ALL the west coast watershed. |
| Collin Ramcharan | San Fernando, Trinidad and Tobago | 2015-10-16 | because my best friend signed this petition |
| Ivy Robinson | Rio Vista, CA | 2015-10-17 | we need the water here in the Delta to help our farmers and ranchers survive |

| Name | Location | Date | Comment |
|------------------|-----------------------------------|------------|--|
| April Guarascio | Discovery Bay, CA | 2015-10-17 | Our water ways are already not flowing well. We have invasive weed problems in the water ways. Fishing and boating would be greatly diminished due to lack of water flow. The Delta where I live would let more salt water intrude up river farther than normal. Our land absorbs the salt. Things don't grow. The tunnels would destroy our precious eco system. Tunnels would not help anyone but big business. Not anyone who lives near or on river. Lives would drastically change for millions of Californians! Please do more intense study's before any changes allowed to Delta. |
| Gordon Cervo | Stockton, CA | 2015-10-17 | Its a waste of taxpayers money.Let Southern Ca. get their water from the ocean. |
| David Smith | Lodi, CA | 2015-10-17 | I'm signing because I've seen the damage being caused. |
| Jeremiah Rudder | Petaluma, CA | 2015-10-17 | I enjoy fishing and hunting on the bay delta. |
| Dina Dianus | Antioch, CA | 2015-10-17 | I'm signing because I grew up here in the Delta and don't want to see it destroyed. |
| Laura Brooke | Stockton, CA | 2015-10-17 | How can we explain ruining the earth to our future families? |
| Georgette Neale | West Sacramento, CA | 2015-10-17 | I'm signing this petition because there are more ecologically-sound solutions to dealing with drought conditions in California. It is unethical to divert water from the Sacramento River and other watersheds that feed the Northern California Delta and the San Francisco Bay Estuary. If these bizarre tunnels were built they would diminish water to the estuary. Taking water from northern CA to supply southern CA's water consumption. In order to mitigate for the significant environmental impacts to the Sacramento River, the Delta, and the SF Bay estuary, we need water and wetlands--which we WON'T HAVE because we've tunneled the water 300 miles to the South! This is poor environmental management of our precious natural resources. Southern CA is a semi-arid and arid/desert environment, and it can no longer sustain uncontrolled urban growth in its cities and towns. It's poor land-use planning to build and develop homes and businesses in arid environment areas that don't have an adequate water supply. Therefore, I vigorously oppose a twin-tunnel "solution" to Ssouthern CA's water problems. We have to develop de-salinization plants instead and continue our good water conservation efforts. Thank you! |
| esi khalili | kerman, Iran, Islamic Republic of | 2015-10-17 | I like |
| Belinda Arthurs | West Sacramento, CA | 2015-10-17 | The waste of resources for dubious outcome. The destruction of land and waters. |
| Gene Bigler | Stockton, CA | 2015-10-17 | I'm signing because of the failure to fully consider the interests of the people in the Delta region. |
| Philip Brechtel | Lathrop, CA | 2015-10-17 | the delta means a lot to me and the rest of Northern California. Please don't take it away. |
| Benjamin Beasley | Oakland, CA | 2015-10-17 | I like fishing, I think fisherman should have open access to the waters because they pay the taxes for its upkeep and tax dollars should go toward fish culture and biological solutions to the issue. |
| Phil Nanni | West Sacramento, CA | 2015-10-17 | It's bad for the state, & the cost is ridiculous. |
| Frederick Flinn | Newcastle, CA | 2015-10-18 | Taking water out of the delta will not save the delta |
| William Bradshaw | Discovery Bay, CA | 2015-10-18 | Need fresh h2o in the delta |
| Katina Conn | Betterton, MD | 2015-10-18 | The tunnels are only good for a small number of people who live far from the ecological disaster their construction will cause. |

Petition 1 - Restore the Delta (Form 5 generator)

| Name | Location | Date | Comment |
|------------------------|---------------------|------------|---|
| Kelly Witt | El Dorado Hills, CA | 2015-10-18 | We need to keep our RESOURCES here in Northern CA. Let's break up this State and make it two individual states...right above that city called Bakersfield. We can elect a our own Governor...Mr. Brown. |
| Amanda aanerud | Stockton, CA | 2015-10-18 | Because it is wrong to take our water and send it to so cal |
| barbara Perez | Hood, CA | 2015-10-18 | They will be taking my life long home. .. |
| Cherryl Thomas | Livermore, CA | 2015-10-18 | We send enough water to southern California. they have green lawns, wash their cars, etc., while Northern Calif. goes dry. Our farmers in No. Cal need water from the Delta. We need to stop Gov. Brown's greedy madness! |
| Michael Mojher | Manteca, CA | 2015-10-18 | I grew up in Rio Vista. From age 10 I had my own boat and over the years cruised many miles through the Delta. It is a special estuary that must be preserved. |
| Tyler Meuchel | Sacramento, CA | 2015-10-18 | I want to protect the California delta for my kids to enjoy. The tunnels have too many lasting negative effects in terms of the habitat and wildlife. |
| Brian collard | Sacramento, CA | 2015-10-18 | we boat and fish in the delta and need to stop causing environmental damage, less government. |
| David Hurley | Stockton, CA | 2015-10-18 | I'm signing because the Delta is a precious resource that belongs to all Californians - not just a handful of wealthy agribusiness owners in the south valley farming for profit on impaired lands |
| Louise Aiello | Martinez, CA | 2015-10-18 | The Delta is one of the most precious resources on our planet, not just in Bay Area. if we really want to address the drought and water issues, wr need to impose a building ban on entire state. |
| William Harrison | Martinez, CA | 2015-10-18 | The delta is too important to lose! The tunnels will destroy it. |
| john pierce | San Jose, CA | 2015-10-19 | I have property near Walnut grove, Ca |
| ANDREA COON | Stockton, CA | 2015-10-19 | I want the Delta to stay the way it is, not be ruined by politicians that could care less about our environment here around the Delta. |
| Karen Zehnder | Courtland, CA | 2015-10-19 | I still cannot believe that we have enough water to be carried by 2-- 40' diameter tunnels and that it would ever be so valuable to destroy this amazing Delta landscape! |
| Jacqueline Ann Machado | Rio Vista, CA | 2015-10-19 | I'm against the tunnels because it is a waste of money and because I believe it will harm the Delta irreparably. |
| Michael Hughes | San Francisco, CA | 2015-10-19 | I am a fisherman and I think that the Delta Tunnels are a bad idea for wildlife in the delta. |
| George Walker | Vacaville, CA | 2015-10-19 | You can not continue to pump water south to water a desert. stop building single fmaily homes in that desert |
| Pascual Negrone | Dixon, CA | 2015-10-19 | I don't want the delta degraded and destroyed. |
| TIM NOXON | Lincoln, CA | 2015-10-19 | This "project" is being RAMMED down or up us. It is politically motivated and payback for political contributions. It will benefit a few with the majority losing on this deal. The environment will suffer. Recreational opportunities and the fishing industry will suffer. From what I understand, we can't even vote. Untrustworthy politicians are making the decision for us??? This is not right. I am against this project. Shame on the few who stand to benefit promoting this project. |
| Ty Tadano | Davis, CA | 2015-10-19 | I'm signing because the fiscal costs far exceed the benefit. I also think the environmental impacts are too large. |
| Bernard Clancy II | Fairfield, CA | 2015-10-19 | We need more reservoirs to store additional water not steel delta water and destroy the estuary and bay. |

| Name | Location | Date | Comment |
|--|--------------------|------------|--|
| Aaaa Dddd | Indianapolis, IN | 2015-10-19 | I am against taking more water and sending it to so. cal. to fill there pools and water there golf coarces |
| Joann Meays | Stockton, CA | 2015-10-19 | it is the right thing to do |
| Barbara Lee barbarajlee@frontiernet.net | Rio Vista, CA | 2015-10-19 | We need more storage, not depletion of existing waterways. |
| Warren Foster | Sacramento, CA | 2015-10-19 | Taking more water from the Delta does not fix the Delta, it will destroy it! |
| Michael Honea | Lodi, CA | 2015-10-19 | I appose the the Delta Tunnels! |
| SALLY O'CONNOR | Stockton, CA | 2015-10-19 | I object to the tunnels because this so called "fix" ignores alternatives and does NOT meet the restoration goals in the Delta Reform Act. We must protect our environment, natural resources and agriculture in the Delta. |
| Vicki Nannizzi | Lodi, CA | 2015-10-19 | This is bull! Taking water from Northern CA and spending tons of money doing so. Do not do this. |
| Mary Ellen Gursoy | Bethel Island, CA | 2015-10-19 | We need to save our Delta waters |
| Tammie Niskern | Stockton, CA | 2015-10-19 | The tunnels are only to be used so that LA can steal our water. All politicians consider Souther California the most important part of this state, because that is where the monied support is. |
| Roy Howell | San Rafael, CA | 2015-10-19 | The Delta Tunnels will further destroy the already fragile Delta ecosystem |
| Paul Batchelder | Gualala, CA | 2015-10-19 | Tunneling will totally disrupt the delta for big A....no way should they be moving water to the area Southwest of 5, it is not meant to be irrigated.. |
| Charles Tripp | Los Gatos, CA | 2015-10-19 | These tunnels are a giveaway to S.Cal, and a disaster for our water. |
| Brendon Goldberg | Valley Springs, CA | 2015-10-19 | Brown is an idiot and hates the environment. |
| Mike Munnelly | Lafayette, CA | 2015-10-19 | I'm signing because I care about other creatures--those that can't vote or speak out-- who's existence depends on Delta water flowing naturally as it has for millennia. |
| William Ryan | Saint Helena, CA | 2015-10-19 | we must stop this insane proposal to steal water from the North and give it to the South - at a discount. |
| Joseph Klaker | Marysville, CA | 2015-10-19 | I am signing because I want to protect the delta and fisheries and the delta way of life. |
| Kathleen Workman | Stockton, CA | 2015-10-20 | im opposed to the tunnels. Save our Delta |
| Valerie Akcam | Walnut Creek, CA | 2015-10-20 | We need to focus on water consumption, not diverting more water for trivial use at the detriment of the environment. |
| Chandra Nelson-Robak | Walnut Creek, CA | 2015-10-20 | My water tastes horrible and is making our family feel sick. We want to go back to our old river water source and not the algae infested lake we are forced to drink from due to drought and sending our water south! |
| Michael Cooling | Rescue, CA | 2015-10-20 | Greedy politicians keep selling NorCal water to line their pockets. They aren't solving the drought, they're creating more problems. |
| CHERYL SCHMIDT | Lafayette, CA | 2015-10-20 | The Delta should be left alone otherwise it will be detrimentally effected and the people of California along with it. This is a long standing issue, since the 1960's, I believe. I was against it then and am still against it. This is a VERY BAD IDEA. |
| jennifer humphrey | Rio Linda, CA | 2015-10-20 | This is just another bad idea. It will ruin our delta. Focus on makeing water storages and alternat water holding sites. |

| Name | Location | Date | Comment |
|--------------------|--------------------|------------|---|
| Kyle brothers | Stockton, CA | 2015-10-20 | No tunnels, they will never work. |
| Andrea Targos | Folsom, CA | 2015-10-20 | There are alternative solutions that are less expensive and far less environmentally destructive. |
| Rod Millard | Sacramento, CA | 2015-10-20 | its a boondoggle.. |
| Phillip Ody | Sunnyvale, CA | 2015-10-20 | I'm signing because I am a recreational fisherman and I do not want the Bay and Delta waterways negatively impacted by the Tunnels or other projects. |
| Robert Cummings | Manteca, CA | 2015-10-20 | Save the Delta waterway. |
| Alyson Moore | Isleton, CA | 2015-10-20 | Because I live on the Delta. You have nothing better to do but ruin quote...The Delta? Put your time and money into crime and homeless. REALLY, what will you gain from this? Not your job for long anyways. |
| russell Rosario | Truckee, CA | 2015-10-20 | A waste of money and detrimental to the health of the delta. |
| Lora Trincherro | Islamorada, FL | 2015-10-20 | You will destroy our Delta, rivers, streams and estuaries. This is just plain wrong. |
| theodore guthrie | Valley Springs, CA | 2015-10-20 | Our water feed the world. You can't water with salt water. |
| mark miller | sacramento, CA | 2015-10-20 | I'm signing because I don't think the tunnels are a good solution to California's water problems. |
| John DeMilta | eastchester, NY | 2015-10-20 | It's wrong |
| Lynn Chastain | Carmichael, CA | 2015-10-20 | We can't let Jerry Brown and friends destroy the delta. . If Jerry wants to lay pipe he can start with the boat part of I-5 downtown Sac. They rebuilt the cement walls and road surface but the pipes are rotting more each day . By the way how's that new Bay Bridge working out ? |
| Will McKnight | Rio Vista, CA | 2015-10-20 | The state needs o build more water capture areas in s. Cal for s. Cal |
| Charlotte Garcelon | Fullerton, CA | 2015-10-20 | The Delta is important for so many reasons. It needs to be protected. The CA Delta brings life to humans & wildlife alike! |
| Kevin Dornbush | Stockton, CA | 2015-10-20 | I'm signing this petition so that the already strained CA Delta has a chance at recovery and sustainability. We really should concentrate more on the Water Hyacinth problem before it chokes all the life out. |
| Robert MELROSE | STOCKTON, CA | 2015-10-20 | I live in the San Joaquin Valley and this action will destroy our farmlands forever. This cannot be allowed to happen. |
| diana almendariz | Sacramento, CA | 2015-10-20 | We need to save this natural system of clean water. We need to save it to show how it works naturally making it an example to recreate, duplicate then restore. The water tunnels will drain the watershed that ususly flows thru the Sacramento/San juan Valley. We should be bringing to for ward the drainage of the biggest Lake West of the Mississippi- Tule Lake. What happened to it? It was totally drained because of the mismanagement of water. |
| Joseph Garcia | Fairfield, CA | 2015-10-20 | This action will devastate the delta forever, stop it know! |
| Julie Slater | el cerrito, CA | 2015-10-20 | I want the Delta protected |
| Anne Sconberg | San Jose, CA | 2015-10-20 | I believe this is a HUGE mistake, both form an environmental and a fiscal POV. |
| Catha Heinz | carpinteria, CA | 2015-10-20 | Don't screw with Mother Nature , hands off the Delta ! |
| Adam Nicholson | Fairbanks, AK | 2015-10-20 | Having grown up and lived in the Sacramento valley I know the ecological importance of the delta. I fished in these waters, hunted waterfowl on them, and ate food grown from its soil. It is unethical to destroy one environment in order to allow another unsustainable environment to continue sucking resources from the rest of the state (los Angeles and its surrounding areas) |

| Name | Location | Date | Comment |
|----------------------|-----------------------|------------|---|
| Shirley Sanders | Modesto, CA | 2015-10-20 | I'm signing because I think it is wrong to take water from the Nor Cal farmers to send south so they can grow produce to export. We are in a drought and the farmers here in Nor Cal needs this water! Jerry (moonbeam) Brown, thinks he can ram this down our throats! Follow the money people! Who financially wins and who ecologically loses? |
| Fran Pepoon | Roseville, CA | 2015-10-20 | It's more critical to stop over-building and over-population, and create sustainable models for both residential and business communities. |
| Lani Schoenthaler | PITTSBURG, CA | 2015-10-20 | I grew up on the delta and purchase a water front home on the delta! |
| lance german | Carmichael, CA | 2015-10-20 | Because it is destroying the public commons and nature for private gain. |
| Patricia z martin | Bethel Island, CA | 2015-10-20 | I live in the delta and don't want the nature destroyed! |
| Tracy Huddleson | Bainbridge Island, WA | 2015-10-20 | Unrestricted growth in Southern California is no reason to rape the ecosystems of Northern California. Owens Valley II must not happen. |
| Jude Hudson | Sacramento, CA | 2015-10-20 | I oppose the Delta tunnels for environmental, public health and economic reasons. Governor Brown is wrong about the need for these tunnels and what they would theoretically achieve. |
| Nadine Dunker | Modesto, CA | 2015-10-20 | We need our water in Northern CA to stay here |
| Loren Rhodes | Antioch, CA | 2015-10-20 | Our planet is our home and the delta is our immediate home. The destruction the tunnels will cause in an effort to make money will be irreparable. |
| RON GARCIA | Concord, CA | 2015-10-20 | the tunnels would not benefit the citizens of California and would harm the delta |
| Rich Silverman | Manteca, CA | 2015-10-20 | I believe the tunnels are just wrong and do not fix our water We need more storage facilities, NOW. |
| bill douglas | MODESTO, CA | 2015-10-20 | this would destroy the delta fishery !!! |
| Dale Shafer | Vacaville, CA | 2015-10-20 | Stop the tunnels and save the Delta. The Delta infrastructure is too sensitive to have its water shipped away!! |
| Shanks Donald | Sacramento, CA | 2015-10-20 | These tunnels will destroy the Delta in so many ways that far out way the small benefits they will provide |
| Bill Wilcox | Walnut Creek, CA | 2015-10-20 | The tunnels are a horrendous idea... we opposed them in 1986 and should oppose them forever! Some things know the name of progress should never happen. This is one of them! There are other ways to combat the droughts California has every so often. |
| Mariano Cisneros | Elk Grove, CA | 2015-10-20 | These extreme proposals are not the solution to southern California's water needs. |
| Michael Joachim | Oakley, CA | 2015-10-21 | Because these tunnels are a joke. |
| Keith jones | San Jose, CA | 2015-10-21 | because this needs to be addressed!!!! |
| Garrett Leyerly | Rio Vista, CA | 2015-10-21 | I like to fish in the delta for freshwater fish. Not saltwater. |
| Chris Sanchez | Sacramento, CA | 2015-10-21 | We most stop these tunnels. Preserve the Delta. Let the dummies who choose to live in the DESERT build desalination plants and pay for their water!!! Leave ours alone. |
| Alita Ashcraft-Moore | Linden, CA | 2015-10-21 | We love our Delta waterways and so do the wildlife that live there. I want these waters to remain for my grandchildren and their children, etc. |
| Cleve Curry | Oakdale, CA | 2015-10-21 | Because I am a Delta fisherman |
| debbie curry | Oakdale, CA | 2015-10-21 | I cherish fishing in our Delta |
| kerin gould | davis, CA | 2015-10-21 | ...because we don't need another way to siphon water off - we need a way to restore the groundwater. The Central Valley is sinking 2 inches per month for lack of water, which means it will be unable to refill. Just STOP! |

| Name | Location | Date | Comment |
|---------------------------------|---------------------|------------|--|
| Dominic Calabrese | Byron, CA | 2015-10-21 | I am an organic farmer, fisherman, and conservationist, the tunnels are a bad idea. |
| Barry Pollan | Sacramento, CA | 2015-10-21 | This is just wrong and greedy! I'm so disappointed in Gov Brown for doing this! He's been great until this action! |
| Dan Ditlevsen | Brentwood, CA | 2015-10-21 | Stop the tunnels!!!!!! |
| donald gonzales | Knights Landing, CA | 2015-10-21 | I care |
| Nicole Haller-Wilson | Napa, CA | 2015-10-21 | I'm signing because the delta and an Francisco estuaries are an incredibly important part of our state and ecosystem. Save the estuaries! No to the tunnels!! |
| Randy Ludwig | Brentwood, CA | 2015-10-21 | The twin tunnel water fix project is not the only option. It is the worst option. |
| william phillips | lathrop, CA | 2015-10-21 | I'm tired of the southern part of the state stealing water from us while they refuse to build dams to store rain water to use for watering their grass while our lawns have died in our efforts to conserve water. They think they are entitled to the water from our rivers enough is enough. Stop the theft before we in northern California live in a desert also |
| Gary parseghian | Oakley, CA | 2015-10-21 | salt water is already intruding it's killing trees bushes the water is not safe to drink for the livestock .taking more water from the environment will completely destroyed ecological and financially |
| Elizabeth Holly Cardwell-Scalia | Santa Clara, CA | 2015-10-21 | I oppose the Delta Tunnels! |
| Kristeen Klein | Santa Rosa, CA | 2015-10-21 | The CA Delta is crucial for both our environment and people as well as the farmland. Please do not ruin it! |
| lynette dillard | Stockton, CA | 2015-10-21 | I want the tunnels stopped now |
| Lea Crichton | Rougemont, NC | 2015-10-21 | It's tme to think of something on this earth other than greed. |
| antonio ruiz | Sacramento, CA | 2015-10-21 | This will devistate the Natural and Cultural Resouces that will negatively be impacted by this project. The area of this proposed project is sensitive to many Native American Tribes within the area. I say NO to the Tunnels! Save our water, save our Salmon! |
| Tina Tom | La Mesa, CA | 2015-10-21 | I am signing to preserve the last deltas we have in the states. |
| Kathy Klein | Australia | 2015-10-21 | My brothers ashes are scattered over a beach at the Delta, it is the most beautiful place on earth to me, I grew up water skiing and camping there as a child |
| Joseph Martin | Sunnyvale, CA | 2015-10-21 | Not a good idea, it will ruin the delta |
| Robert Grossi | Vallejo, CA | 2015-10-21 | We need to protect the Delta |
| Colin Miller | Oakland, CA | 2015-10-21 | We should not bow to the corporate agribusinesses that are sucking our aquifers dry and poisoning our sacred waterways and communities with petrochemicals. We have more sustainable ways of dealing with the water crisis that strengthen community resilience and guarantee the human right to water. |
| Kathi Patterson | Lindsborg, KS | 2015-10-21 | I have cousins living in California, who have told me about their opposition to these tunnels. One of them is an engineer knowledgeable about water conservation. And, as i understand it, water will be diverted from fresh water drinking sources in order to irrigate crops growing on arid and inappropriate soil. |
| Khoi Tran | San Jose, CA | 2015-10-21 | I am a fisherman and I care about our diminishing fish population |

| Name | Location | Date | Comment |
|-----------------|-------------------|------------|---|
| Diana Shelton | Martinsville, IN | 2015-10-21 | Doesn't California have enough problems without the corporate bigwigs exploiting them to death? Seriously, the people who live on the Delta are perfectly fine without the tunnels. |
| Leslie Bader | Auburn, CA | 2015-10-21 | The delta is home to many wildlife and sailors |
| Roland Cavanagh | Napa, CA | 2015-10-21 | I watched the peripheral canals cause salt intrusion. This would be even worse. Stop trying to live on and farm the desert. |
| mark laurenzi | Galt, CA | 2015-10-21 | Destroying one economy to benefit another is unacceptable. Science shows conclusive evidence that the environmental damage done to the delta by the over diversion of flows impacts the pacific ocean as well |
| Loren Cattolico | Walnut Creek, CA | 2015-10-21 | The tunnels will ruin the delta |
| Franci Lucero | Martinez, CA | 2015-10-21 | Gov. Brown, You are upsetting the natural river life that has been here for thousands of years maybe millions. Please do not upset the eco system! |
| David Eckhardt | Ceres, CA | 2015-10-21 | Save the delta! |
| Tamar Hurwitz | San Francisco, CA | 2015-10-21 | I love the Delta! |
| Robert Sanjuan | Sacramento, CA | 2015-10-21 | I'm signing because of the negative impact this will have to the delta Eco systems and all the different fisheries; I also feel that this is being pushed by special interest groups for their own selfish personal gains! |
| Chris Overzet | Brentwood, CA | 2015-10-21 | I grew up on the Delta and want my kids to enjoy it too. |
| Hunt conrad | Healdsburg, CA | 2015-10-21 | I am signing because this is a terrible idea with no scientific backing and will only destroy the delta and all those that live near it |
| Chris Moss | Fresno, CA | 2015-10-21 | Im signing because doing damage to an ecosystem to help another damaged ecosystem does not solve anything! Please DO NOT build these tunnels. I (WE) do not want them! |
| Chuck lombard | Vacaville, CA | 2015-10-21 | I fish and boat on the Delta and I want my grandchildren and their children to be able to do the same. |
| Randel Lane | Cloverdale, CA | 2015-10-21 | I am signing because I strongly oppose diverting water for unsustainable causes! Each locale needs to learn to live with the resources directly available to them. Also, the ecology of the Delta needs to be protected for the good of the people and wildlife that are in direct contact with the area. |
| Louis Wertz | San Francisco, CA | 2015-10-21 | The only ly real California Water Fix is the restoration of California's degraded ecosystems and investment in resilient, water-smart agriculture. Industrial or great infrastructure "fixes" just push the problem down the line at massive taxpayer expense. |
| Fritz Wisor | Santa Rosa, CA | 2015-10-21 | Taking more freshwater out of this system will continue to erode the ecosystem in the delta. The latest budgets have slashed the restoration funds in order to bring the price down. It's a lose - lose for everyone except the downstate utilities. |
| Margie Lafferty | Kihei, HI | 2015-10-21 | Water is not a political tool |
| Scott Miller | Dillon Beach, CA | 2015-10-21 | A tunnel isn't much different from a canal. Growing alfalfa and rice in the desert is wasteful and stupid, even if you have been doing it since your grandpa was a baby. |
| Marcia Wertz | San Francisco, CA | 2015-10-21 | I care about California! |
| Harry Gao | San Ramon, CA | 2015-10-21 | I am signing because it will reduce the water in Delta, which already threaten the survival of fishes like Salmon and Delta Smelt |
| Zac Walters | Modesto, CA | 2015-10-21 | BECAUSE WE NEED TO SAVE THE DELTA!!!! |

| Name | Location | Date | Comment |
|-------------------|-------------------------|------------|---|
| Jeff Ishikawa | Fremont, CA | 2015-10-21 | I am an avid California fisherman, and am signing this petition to stop the further destruction of the SF Bay Delta environment by water-grabbing Ag and SoCal interests - who don't care or realize of the irreversible effects of such a large-scale plan. |
| KARL DE | Rio Vista, CA | 2015-10-21 | To all of you that care - I live on the delta and I assure you we can not afford to divert any more water, if we do it's cutting our own throats! |
| Ronald Wagle | Pleasanton, CA | 2015-10-21 | Tunnels will ruin the Delta |
| Chris Palmarini | Chico, CA | 2015-10-21 | Enough is enough! The tunnels are not the answer to our water issues, and cost waaaaay too much! |
| Virrina Rackley | Antioch, CA | 2015-10-21 | I am tired of the water grab, that will destroy the Deltas ecosystem. |
| craig shotwell | Jackson, CA | 2015-10-21 | This such and important issue to our future. |
| Jacqueline Pelton | Vacaville, CA | 2015-10-21 | I am opposed because of the absurdity of the plan. Southern California is classified as a desert climate - no residential lawns, heavily restricted golf course usage-residential water restricted by number of persons in a household with meters that will stop the flow when the limit is reached regardless of the resident's ability to pay high costs, restricting the amount of water to agri-businesses in the San Joaquin Valley on land that was classified as marginal years ago by UC Davis and could only be farmed by using large amounts of water. Will money will out over common sense? |
| Peter Marks | Lodi, CA | 2015-10-21 | This project does not create one gallon of water, costs are out of line let alone the overrun cost factor, environmentally the project is unsound, the SF / Delta Bay region will never recover if the project goes forward. The monies projected for the project are better spent on alternative water development and creation, such as reservoirs and desalination. California needs to create & store water not move it from one location to another. |
| pat coffey | Rancho Cordova, CA | 2015-10-21 | This idea is not in the best interests of California. There are more practical ways of dealing with water shortages. And sending more water south for the agri business is not one of them. |
| Mark Kralj | Stockton, CA | 2015-10-21 | This is a total waste of our tax dollars! We need the Delta to keep SF Bay healthy. Fix the levees to protect our homes. |
| Rosemarya Gamblin | Lodi, CA | 2015-10-21 | I am signing this petition because the Delta needs more fresh water, not less, to preserve fisheries and Delta farming. The unintended consequences of this project will be huge. Think of Louisiana's eroding wetlands after the Mississippi River project in the 1930s. |
| Eric Lee | Atwater, CA | 2015-10-21 | I believe in saving our Delta |
| Angelo Cuanang | South San Francisco, CA | 2015-10-21 | i am opposed to the construction of the delta tunnels |
| Jeanne Mello | Stockton, CA | 2015-10-21 | I'm signing because draining the largest estuary on the west coast and sending its water south does not fix California's water woes. This plan will destroy fisheries, farms and recreation in the Delta |
| Alan Tribuzio | Stockton, CA | 2015-10-21 | I Love OUR PLANET!!! |
| John Gilles | Alameda, CA | 2015-10-21 | I'm signing because the canal does nothing to heal and restore the delta environment and instead provides a water transport infrastructure to deliver water to known water wasters in the southern and central parts of the state. Give the water back to nature and restore the largest estuary on the Pacific Coast. |
| Dave Buddenbaum | Chico, CA | 2015-10-21 | With not enough water for the North state as it is, these tunnels would deplete our Sacramento River and Delta water system of the much needed water to maintain an already struggling environment. NO Tunnels! |

| Name | Location | Date | Comment |
|------------------|-------------------|------------|--|
| Gregory Upton | Camino, CA | 2015-10-21 | Don't do it!!! We've already messed up the environment beyond comprehension, let's restore the delta & salmon runs, not support big ag! |
| Elizabeth Claman | Richmond, CA | 2015-10-21 | The negative consequences of this plan would be profound and far reaching. Please take time to fully understand the complexity of the Delta estuary! |
| Shannon Taylor | Gilroy, CA | 2015-10-21 | I strongly oppose the tunnels. |
| Timothy Becker | Stockton, CA | 2015-10-21 | I want to protect the D |
| susan Carlotti | Salida, CA | 2015-10-21 | I love the delta and do not want to see it destroyed so a few can profit. Leave our beautiful waterways alone. |
| David Jaykins Sr | Sacramento, CA | 2015-10-21 | The tunnels will destroy the delta. Please don't mess with mother nature on this one! It will be irreversible! |
| Diane Allen | Sacramento, CA | 2015-10-21 | I oppose the California Water Fix, it is a waste of money and it would destroy our Delta. Diane |
| Kitty Quayle | Somerset, CA | 2015-10-22 | The tunnels are a horrible idea, an environmental nightmare put forward by greedy, shortsighted individuals who choose to live in a desert, then complain about the lack of water there. Build some desalinization plants in SoCal and leave NorCal's water in NorCal. |
| Fran connick | Vacaville, CA | 2015-10-22 | as a long time Northern Californian I feel this will be a disaster to our delta. We are sinking we need our water table filled not sent south. |
| Mirra Morrison | Fremont, CA | 2015-10-22 | <p>I am opposed Governor Brown's effort to push for a so-called fix to California's water problems.</p> <p>Not surprisingly when the California legislature passed the Peripheral Canal bill in 1980, it was the same Gov. Brown who signed the Peripheral Canal bill into law.</p> <p>Despite this several weeks later the legislature put Prop. 8, (a proposed amendment to the California State Constitution that would protect the Delta and rivers of the north coast) on the ballot. In November 1980 voters approved this measure.</p> <p>In 1982 canal supporters were successful in getting Prop. 9 on this ballot; this measure would have allowed the construction of a canal and other water diversion facilities. Fortunately for the people of California the voters soundly defeated this measure</p> <p>Jerry Brown in a June 2010 campaign speech to technology executives acknowledged that he would probably some new mistakes but affirmed that he would not repeat the old ones.(Sacramento Bee, 9/12/10)</p> <p>Unfortunately the governor isn't keeping this campaign promise. He is unfortunately probably making the worst mistake of his political career.</p> |
| Brad Lua | Clayton, CA | 2015-10-22 | This will destroy our Delta, nothing more then a water grab for Southern California |
| Zack Stender | San Francisco, CA | 2015-10-22 | We have already destroyed the majority of the natural surroundings in the Bay Area. We need to save what precious little we have left. |
| Donna Armanino | Fremont, CA | 2015-10-22 | Don't destroy the Delta! |
| Donna Vallee | Isleton, CA | 2015-10-22 | I live on the Delta, on a boat on the Delta, and I have followed all the info on the tunnels, it is a very short sighted and short lasting fix, and it will destroy this region that I love. |

| Name | Location | Date | Comment |
|-------------------|---------------------|------------|--|
| Gene vick | Rio Vista, CA | 2015-10-22 | Brown's tunnel will kill the Delta. |
| Joshua Citrak | San Francisco, CA | 2015-10-22 | I'm signing because Salmon, Steelhead, trout and all other species depend on cold, clean water need a voice. |
| Liddicoat June | Vacaville, CA | 2015-10-22 | Tunnels will destroy agriculture, eco system, way of life in Northern Calif. Tunnels are so unfair for Northern Calif. |
| Kathleen Gonzalez | Middletown, CA | 2015-10-22 | I'm sick and tired of people screwing with the natural environment! |
| Gladwyn d'Souza | Belmont, CA | 2015-10-22 | Stop stealing water and gumming up the works for the locals |
| Andrea Bugli | Riccione, Italy | 2015-10-22 | why i'm follow Sasha Grey :)) |
| Barbara Coleman | Galt, CA | 2015-10-22 | I'm signing this petition because our population cannot survive on saltwater and the governor doesn't care about the people or environment of Northern California. |
| Liz Johnson | Sacramento, CA | 2015-10-22 | Why can't we use all that money to invest in water storage in Southern California? |
| Monica Fabila | Elk Grove, CA | 2015-10-22 | Save our beautiful wildlife and agriculture-this is where I was born and choose to live my entire life! NO TUNNELS |
| Garrett Hayes | Livermore, CA | 2015-10-22 | These tunnels are a horrible idea. |
| Martin Hess | North Highlands, CA | 2015-10-22 | I oppose the tunnels. |
| Frank Tellez | Murrieta, CA | 2015-10-22 | I love the CA Delta and the fish species she holds. If we eradicate the Delta and turn it into water tunnels, it be the most asinine thing that CA has ever thought of. There has got to be another way instead of resorting to something like this. Restore and save our beautiful Delta! |
| desiree holmes | Lahaina, HI | 2015-10-22 | Because i care, CA bay area is where i'm from. |
| Ronald White | Moreno Valley, CA | 2015-10-22 | We need to find another way instead of destroying one of California's most beloved fisheries |
| phillip reyes | Marysville, CA | 2015-10-22 | It is scientific fact that every time water is taken from an area where it is plentiful to service the needs of a desert area, where it is not, TWO DESERTS result. The tunnels are not the answer to this problem humans have created in their stubborn resistance to nature. |
| Todd storm | Davis, CA | 2015-10-22 | it will cause more damage to the ecosystem. And that could be iraversable! |
| George Pugh | Stockton, CA | 2015-10-22 | Farmers can't raise crops using salt water,cattle can't drink salt water. |
| David Curry | Sacramento, CA | 2015-10-22 | Oppose the tunnel |
| Deborah Miller | North Highlands, CA | 2015-10-22 | I don't want the tunnels to happen! |
| Terry Coupe | Woodland Hills, CA | 2015-10-22 | I care about the Bay Area and Delta. |
| kathy bunton | antioch, CA | 2015-10-22 | I oppose the tunnels and want to protect the Delta! |
| Mark LaBelle | San Anselmo, CA | 2015-10-22 | Bad idea,, not right that So Cal should take Nor Cal water , enough is enough |
| Alex Tran | San Jose, CA | 2015-10-22 | I love the delta and all the wildlife there that has evolutonized with the are over the years. |
| Ann Schickenberg | Sacramento, CA | 2015-10-22 | I'm signing because I believe redirecting water would harm the environment, water supply for drinking, and local population's economy. Please do not take water to give to over-thirsty crops, like almond trees, that are inappropriate to plant in the region. |
| Carol Olney | Jackson, CA | 2015-10-22 | I'm signing because I am TOTALLY opposed to the twin tunnels. They definitely should NOT be built - period. |

|-------------------|--------------------|------------|--|
| Mark Rauenzahn | San Diego, CA | 2015-10-22 | Last time we had an El Niño during a drought they shipped excess rain water from lakes right into the ocean. Northern California did not send any excess water down unless there was a Financial gain involved with a sale. How is this expensive project affordable to the government? Politicians make Water Big Business. It has nothing to do with helping the California drought. They simply want to control more of the entire states water. They control our food our water and our fuel. Less water for Farmers In California = More power the government has on our food supply. The more control they have = The more power they have. Sure is odd how I can travel to AZ and get gas for \$1.99 a gallon and \$2.14 in NV on same day it cost \$3.25 in CA.. CA population is growing. We have to reduce our use of daily water. Ironically now they are trying to raise the cost of Water in cities that use is down! Wake up California! |
| Arthur Rowe | Sacramento, CA | 2015-10-22 | I live in Northern California and this plan is criminal. Why is it that Southern California is always making plans for Northern California. Where are all the environmental pushers when it comes to the destruction of the Delta? |
| Jacob Phillips | Concord, CA | 2015-10-22 | We cannot afford to kill the remaining environment. Invest in schools not tunnels!!! |
| Delfino Rangel | Sacramento, CA | 2015-10-22 | Tunnels are a horrible idea meant to obfuscate--that more conventional storage needs to be created |
| andrew seagraves | Antioch, CA | 2015-10-22 | Bad policy, bad science... |
| Ana Sanchez | Antioch, CA | 2015-10-22 | I don't agree the tunnels are not a solution but as bigger problem down the road. |
| Claudia See | Redding, CA | 2015-10-22 | So. Cal. already gets a huge amount of water from Nor. Cal. They need to look into more ways to conserve. |
| Melody Barrett | Valley Springs, CA | 2015-10-22 | I want the Delta to be repaired, not suffer further devastation. I want salmon to be able to swim up the rivers with the ability for their fry to return to the ocean. I want our water to take care of Northern California's farm needs and the needs of our own populace. You are having our people conserve water and go without while Southern Californians are not conserving water. Someone in Bel Air, Calif used 11.8 million gallons of water in one year and this was just one property with a private home. Why are they not being made to conserve and the people in our area are made to do without? This needs to be repaired. No to the tunnels that will further rape the Delta watershed. Melody Barrett |
| David Hancock | Fair Oaks, CA | 2015-10-22 | We need to preserve what little wildlife we have left! |
| Loretta Preston | Sacramento, CA | 2015-10-22 | We don't want the tunnels! |
| Brian Masterson | Antelope, CA | 2015-10-22 | Northern California's rain belongs to Northern California |
| cala remick | Santa Cruz, CA | 2015-10-22 | I believe in preserving natural habitat and animals lives. |
| Christopher Hayes | Woodbridge, CA | 2015-10-22 | Northern California needs OUR water we feed America |
| Adella Logan | Oakley, CA | 2015-10-22 | I live in this area and know first hand what irreversible damage this will cause to our already endangered Delta! |
| Rachel Masin | Stockton, CA | 2015-10-22 | I worry about my children not having the Delta like it was when I was growing up in Stockton. |
| Carl Kruse | Poway, CA | 2015-10-22 | Just a stupid, stupid idea. |
| Elisa Moberly | Lodi, CA | 2015-10-22 | The Delta is crucial to the people and farmland of California. Diverting water through the tunnels will destroy the Delta, not preserve it. |
| Joseph Long | Los Angeles, CA | 2015-10-22 | I support NorCal and the Delta. Save the fish! |

|----------------|-------------|------------|--|
| david valverde | Oakdale, CA | 2015-10-23 | <p>I am writing to express my strong opposition to the Delta Tunnels plan.</p> <p>The Delta Reform Act of 2009, in which the California State Legislature committed to the "coequal goals" of providing a more reliable water supply for California AND protecting and restoring the cultural, recreational, natural resource, and agricultural values of the Delta, cannot be upheld if the Delta Tunnels come to pass.</p> <p>The California Water Fix does not meet the restoration goals of the Delta Reform Act; it is simply a plan to export more water out of the San Francisco Bay-Delta estuary. The Delta Tunnels will also fail to provide more reliable water because the Delta watershed is already oversubscribed by five times in normal water years.</p> <p>My objections to the tunnels are threefold:</p> <p>The California Water Fix does not address the environmental, public health or economic impacts of the proposed Delta tunnels project. Also, the plan ignores alternatives that would save California tax and ratepayers billions of dollars, while investing in the jobs and local water sources that build sustainability.</p> <p>My environmental concerns with the plan are:</p> <ul style="list-style-type: none"> · The impact on wildlife and plant species in the Delta that depend on freshwater include the Delta smelt, chinook salmon, steelhead, San Joaquin kit fox, and tricolored blackbird, protected species already on the brink that will face decimation due to a diminishing food-web. · At sea, even the ESA-listed South Pacific Puget Sound Orca Whales depend on migrating Delta species that will be harmed by less water flowing through the Delta. · The tunnels plan seems to ignore Section 7 of the Endangered Species Act which prohibits federal agency actions that are likely to jeopardize the continued existence of any endangered species or that "result in the destruction or adverse modification of [critical] habitat of [listed] species." <p>My public health concerns with the plan are:</p> <ul style="list-style-type: none"> · The tunnels will cause increased contamination of municipal water and wells for the millions of rural and urban residents living in the five Delta counties. · The tunnels plan fails to model for potential increases of carcinogens and other formation of byproducts that would cause cancer and other serious health effects. · Environmental justice communities, who depend on subsistence fishing, will also face food and health insecurities as a result of increased contaminants, specifically mercury contamination, in fish and wildlife populations. <p>My economic concerns with the plan are:</p> <ul style="list-style-type: none"> · For large metropolitan cities such as Los Angeles and San Jose that depend on export water, water rates and/or property taxes will go up, but they will get no additional water. · No analysis has been done on how the lack of fresh water flows will impact San Francisco Bay tourism and recreation. These industries depend on Delta fresh water flows for their crab and salmon fisheries, wildlife sighting, boating, and their restaurant economy. This industry is worth billions annually. · Salinity intrusion is already impacting the western Delta farms and removing Sacramento River freshwater from the system will make matters worse. Delta farmers cannot irrigate crops with salt water and they certainly cannot plant crops in contaminated soils. The Delta Ag economy, which consists of generations of family farms and farm workers, generates \$5.2 billion for the California economy, annually. · California coastal fishing communities depend on thriving wildlife. This historic industry is worth billions annually, with the salmon industry worth \$1.5 billion annually alone. Thousands of jobs and livelihoods are tied to these industries. · The operation and construction of the tunnels will obstruct and disable navigable waterways for boating, marinas and other types of leisure activities, in addition to creating conditions of low water flow that will foster invasive aquatic species, such as water hyacinth. Poor water quality also creates unsafe recreation. Recreation and tourism in the Delta generate \$750 million annually. <p>Alternatives to Water Exports Ignored</p> <p>Far far less expensive and less environmentally destructive alternatives to the Delta Tunnels were largely ignored. The plan does not seriously consider any alternatives other than new, upstream conveyance. The decision-making process (from the outset) has tilted in favor of increasing water exports from the Delta.</p> <p>Our tax and ratepayer dollars would be much better spent on:</p> <ul style="list-style-type: none"> · More aggressive water efficiency program statewide that would apply to both urban and agricultural users. · Funding water recycling and groundwater recharging projects statewide that would be billions of dollars less expensive for rate payers than constructing a new version of the Peripheral Canal or major new surface storage dams. Meanwhile, these |

| Mary Flynn | Waterford, CA | 2015-10-23 | This won't help the water situation & I'm tired |
| Judy Gale | Antioch, CA | 2015-10-23 | I live near the Delta and I want to protect it |
| Pamela Osburn | Yuba City, CA | 2015-10-23 | I want to save the San Francisco Bay Delta estuary. |
| CJ Burkett | Chico, CA | 2015-10-23 | This is deceit at the highest levels of State government--allow this kind of an expenditure in the Billions without citizens being able to decide. This will not solve water issues but continue the outright thievery of water contractors and politicians of the most valuable resource in the state. |
| Dayle Daniels | Stockton, CA | 2015-10-23 | I Oppose the Tunnels! |
| daniel alvarado | stockton, CA | 2015-10-23 | we must protect our water ways |
| Aliece Drake | Stockton, CA | 2015-10-23 | This will be a HUGE disaster for all! It must be stopped |
| Marnie Constantino | Manteca, CA | 2015-10-23 | The Central Valley has unique soil; prime agricultural land. I've watched much of it being paved over the years. Subtract the two canals already in use and back-pumping water. The delta is critical to the ecosystem and economic stability. Please review Mr. Hildebrand's notes and reconsider devastating our region. |
| Salvador Magana | Stockton, CA | 2015-10-23 | No TunnellIt will destroy a lot of the nature fishing habitat and I believe our kids have the right to fish on the Delta before it gets destroy sincerely Salvador Magana |
| monica Ballou | fairfield, CA | 2015-10-23 | I believe we need to keep our water where it is. |
| William Lawrence | Antioch, CA | 2015-10-23 | Our delta is an important delicate ecosystem and what has been done with the canal is already too much. |
| Jeff Weber | Brentwood, CA | 2015-10-23 | Delta water shouldn't be used to grow cotton in the desert. |
| Sharon Ryals Tamm | Berkeley, CA | 2015-10-23 | This is one of the most important delta's in the world and nutures the life of the ocean. Restore don't destroy. |
| erik castillo | San Anselmo, CA | 2015-10-23 | it wil be detrimental, environmental, public healthh, and economic concerns |
| Phillip Alvarado | Weed, CA | 2015-10-23 | I love the Delta !! |
| joshua priest | Morgan Hill, CA | 2015-10-23 | We dont have enough water for us here in the bay and you want to export more stol building in places that cannot support its population |
| Cleo Lane-Bailey | Fort Bragg, CA | 2015-10-23 | I am signing because this project will effect not only our environment, but also many peoples lively hoods, not to mention the astronomical cost. |
| amanda foreman | stockton, CA | 2015-10-23 | It's a waste of money! It's going to damage our environment! It's not going to fix our water problem! |
| Edwin Wager | Stockton, CA | 2015-10-23 | I value the contribution the Sacramento/San Joaquin Delta makes to the quality of life for all inhabitants of the State of California. If we reduce the flow of fresh water to this sensitive region we risk destruction of an irreplaceable resource. |
| William Moore | Vacaville, CA | 2015-10-23 | The delta tunnels will kill northern California completely and ruin unknown lives and families. Why send millions of dollars worth of water to irrigate almonds that are shipped to China, then processed, to only buy them back at a higher rate? This is a moral decision that I hope millions of dollars make your children smarter than you and make you sleep well at night. |
| david atkinson | Vacaville, CA | 2015-10-23 | Stop the tunnels leave our shit alone |
| Kathleey Garcia | Sacramento, CA | 2015-10-23 | This would be an irreversable destruction of the environment and the place in which I live.....Stop this foolish idea!! |

| Name | Location | Date | Comment |
|----------------------|---------------------|------------|---|
| Desiree Flores | Stockton, CA | 2015-10-23 | I'm signing because I am born and raised in San Joaquin County, and we need to strengthen our levees and restore and let the Delta recover from the damage caused by neglect. It needs to rejuvenate, not reroute. Our water should stay home! Help us save and protect our Delta! |
| joseph tomlinson | Citrus Heights, CA | 2015-10-23 | I want to see the decline of the California delta ecosystem (caused by water exports to central california farms)stop. |
| LEO RODRIGUEZ | Sacramento, CA | 2015-10-23 | I hate the Tunnel idea |
| Ricky Garcia | Stockton, CA | 2015-10-23 | I love fishing the Delta and need to protect the habitat. |
| Steven Anderson | Turlock, CA | 2015-10-23 | The tunnels are wrong. The state is going to increase flows from the Tuolumne, Stanislaus, and Merced rivers. The excuse is for the fish, but this is nothing more than an LA water grab. Leaving the Central Valley without its water. Shame on anybody who supports this! |
| Krishlan Fitzsimmons | Tracy, CA | 2015-10-23 | i oppose the delta tunnels. They will harm our delta ecosystem and will cost too much money. Fix broken water systems down south that are wasting the water we have. Don't just give them more and more water that we don't really have as they will just keep wasting it by not fixing the old outdated broken water systems. |
| Mary Jones | Stockton, CA | 2015-10-23 | The tunnels are a very bad idea. An environmental nightmare. |
| Dan Durst | Stockton, CA | 2015-10-23 | I oppose the tunnels |
| Torri Bergstrom | Oakdale, CA | 2015-10-23 | Colorado River, Delta Canal, Calif Aquaduct, now Gov Brown wants to give them the Sacramento River, to grow almonds for China????? Money grubbing. Haven't we given southern calif enough fish? For crying out loud, teach them to fish!! We know they have deep canyons that fire trucks can't access. We know they got more rain during their last storm than we got all of last year. BUILD DAMS IN THEIR DOMAIN!! My area already has little water pressure due to the celebrity backed Trinitas. I guess selling Almonds to China is more lucrative than any other agriculture our own residents are making a living on. In a few years, we will HAVE to import our own food. My own fruit & nut trees are not going to die because of your greed, matter of fact, my garden will be bigger this year because produce costs will be going sky high if Gov Brown gets his "Good Ole Boy" way. Way to take care of the people who thought you would watch out for OUR rights!! With the Stanislaus River in my back yard, yes, I see all the good money the buricrats have dumped into keeping salmon alive, and man can you really screw up an economic system!!! We really have no rights, I don't know why I even vote. Torri Bergstrom |
| LYNDA HADLEY | Stockton, CA | 2015-10-23 | We need to update & capitalize on our existing water storage system rather than destroy the eco-system that is California's most precious resource with underground tunnels. |
| Richard Pelton | Vacaville, CA | 2015-10-23 | Because...I think the only "for sure" solution to California's water problems is through "Desalination plants" which can be turned on and off when needed. |
| Kari Glenn | El Dorado Hills, CA | 2015-10-23 | I believe this is a really bad decision for our environment. I use the Delta and do not want to pay taxes for this! |

| Name | Location | Date | Comment |
|-------------------|-------------------|------------|---|
| Tracy Graves | Acampo, CA | 2015-10-23 | This is an irresponsible project that is promoting continued unsustainable use of land to keep CA producing products that are inappropriate for climate. Put this money into permaculture, really be a leader in the world. Or if you choose to stay with conventional farming at least choose more appropriate crops, like hemp. |
| Evan Steiner | Discovery Bay, CA | 2015-10-23 | I do not believe this is the way to fix California's water issue. Leave the Delta alone. Jerry Brown and his father Pat Brown have done so much to ruin this states water supply. Allow for sustainable and sensible farming in the central valley. Stop padding your pockets with our delta water. |
| Ronda Kogler | Rio Vista, CA | 2015-10-23 | I'm signing because I live in the Delta and want it to remain the fresh water haven it is - for people, fish and fowl. Please do not divert water from the Sacramento River to desert in the middle of the state!! |
| Stephen Nitz | San Rafael, CA | 2015-10-23 | As a Bay Area native, I'm outraged that our governor is allowing this to occur. Tell Big Ag to find a more viable source for their water. Only when the Delta ecology is irreversibly damaged will he realize that you can't eat or drink money. This proposal is ridiculous. |
| Paul Cox | Stockton, CA | 2015-10-23 | The Delta and the San Francisco Bay estuary needs to be protected for future generations. |
| Bernard Auger | Carmichael, CA | 2015-10-23 | This is wrong! |
| Stephen Herrera | Stockton, CA | 2015-10-23 | I enjoy the delta, and would like future generations to have the same opportunity... |
| Melaine Hennessey | Palo Alto, CA | 2015-10-23 | The tunnels are not well thought out. |

|----------------|-------------|------------|---|
| KATHLEEN STARK | JACKSON, CA | 2015-10-23 | <p data-bbox="768 153 1190 174">Subject: Oppose the Delta Tunnels/California Water Fix (Alternative 4A)</p> <p data-bbox="768 205 1206 226">I am writing to express my strong opposition to the the Delta Tunnels plan.</p> <p data-bbox="768 258 1503 331">The Delta Reform Act of 2009, in which the California State Legislature committed to the "coequal goals" of providing a more reliable water supply for California AND protecting and restoring the cultural, recreational, natural resource, and agricultural values of the Delta, cannot be upheld if the Delta Tunnels come to pass.</p> <p data-bbox="768 363 1503 436">The California Water Fix does not meet the restoration goals of the Delta Reform Act; it is simply a plan to export more water out of the San Francisco Bay-Delta estuary. The Delta Tunnels will also fail to provide more reliable water because the Delta watershed is already oversubscribed by five times in normal water years.</p> <p data-bbox="768 468 1019 489">My objections to the tunnels are threefold:</p> <p data-bbox="768 520 1515 594">The California Water Fix does not address the environmental, public health or economic impacts of the proposed Delta tunnels project. Also, the plan ignores alternatives that would save California tax and ratepayers billions of dollars, while investing in the jobs and local water sources that build sustainability.</p> <p data-bbox="768 625 1040 646">My environmental concerns with the plan are:</p> <ul data-bbox="768 678 1515 930" style="list-style-type: none"> <li data-bbox="768 678 1515 751">· The impact on wildlife and plant species in the Delta that depend on freshwater include the Delta smelt, chinook salmon, steelhead, San Joaquin kit fox, and tricolored blackbird, protected species already on the brink that will face decimation due to a diminishing food-web. <li data-bbox="768 783 1515 825">· At sea, even the ESA-listed South Pacific Puget Sound Orca Whales depend on migrating Delta species that will be harmed by less water flowing through the Delta. <li data-bbox="768 856 1515 930">· The tunnels plan seems to ignore Section 7 of the Endangered Species Act which prohibits federal agency actions that are likely to jeopardize the continued existence of any endangered species or that "result in the destruction or adverse modification of [critical] habitat of [listed] species." <p data-bbox="768 961 1029 982">My public health concerns with the plan are:</p> <ul data-bbox="768 1014 1515 1213" style="list-style-type: none"> <li data-bbox="768 1014 1515 1056">· The tunnels will cause increased contamination of municipal water and wells for the millions of rural and urban residents living in the five Delta counties. <li data-bbox="768 1087 1515 1129">· The tunnels plan fails to model for potential increases of carcinogens and other formation of byproducts that would cause cancer and other serious health effects. <li data-bbox="768 1161 1515 1213">· Environmental justice communities, who depend on subsistence fishing, will also face food and health insecurities as a result of increased contaminants, specifically mercury contamination, in fish and wildlife populations. <p data-bbox="768 1245 1013 1266">My economic concerns with the plan are:</p> <ul data-bbox="768 1297 1515 1780" style="list-style-type: none"> <li data-bbox="768 1297 1515 1339">· For large metropolitan cities such as Los Angeles and San Jose that depend on export water, water rates and/or property taxes will go up, but they will get no additional water. <li data-bbox="768 1371 1515 1444">· No analysis has been done on how the lack of fresh water flows will impact San Francisco Bay tourism and recreation. These industries depend on Delta fresh water flows for their crab and salmon fisheries, wildlife sighting, boating, and their restaurant economy. This industry is worth billions annually. <li data-bbox="768 1476 1515 1570">· Salinity intrusion is already impacting the western Delta farms and removing Sacramento River freshwater from the system will make matters worse. Delta farmers cannot irrigate crops with salt water and they certainly cannot plant crops in contaminated soils. The Delta Ag economy, which consists of generations of family farms and farm workers, generates \$5.2 billion for the California economy, annually. <li data-bbox="768 1602 1515 1644">· California coastal fishing communities depend on thriving wildlife. This historic industry is worth billions annually, with the salmon industry worth \$1.5 billion annually alone. Thousands of jobs and livelihoods are tied to these industries. <li data-bbox="768 1675 1515 1780">· The operation and construction of the tunnels will obstruct and disable navigable waterways for boating, marinas and other types of leisure activities, in addition to creating conditions of low water flow that will foster invasive aquatic species, such as water hyacinth. Poor water quality also creates unsafe recreation. Recreation and tourism in the Delta generate \$750 million annually. <p data-bbox="768 1812 992 1833">Alternatives to Water Exports Ignored</p> <p data-bbox="768 1864 1498 1938">Far far less expensive and less environmentally destructive alternatives to the Delta Tunnels were largely ignored. The plan does not seriously consider any alternatives other than new, upstream conveyance. The decision-making process (from the outset) has tilted in favor of increasing water exports from the Delta.</p> <p data-bbox="768 1969 1133 1990">Our tax and ratepayer dollars would be much better spent on:</p> <ul data-bbox="768 2022 1433 2043" style="list-style-type: none"> <li data-bbox="768 2022 1433 2043">· More aggressive water efficiency program statewide that would apply to both urban and agricultural users.151 |

|--------------------|-------------------|------------|--|
| Carol Lee | alderpoint, CA | 2015-10-23 | This is a critical area to be preserved. Come up w. solutions that make sense, considering our environment FIRST. |
| Rafael Rolon | Stockton, CA | 2015-10-23 | I'm signing because there is not enough good evidence to proceed with this action. |
| Debra Newell | Stockton, CA | 2015-10-23 | I strongly feel that the twin tunnels are a big mistake |
| Lisa Cooperman | Stockton, CA | 2015-10-23 | The Delta needs our help, not more harm. |
| Rachel Johnson | Los Altos, CA | 2015-10-23 | Changing point of diversion does nothing. This will decimate our salmon populations |
| phillip mannor | Stockton, CA | 2015-10-23 | I hate having local interests meddled with by career politicians who have no interest in the betterment of the community. I support a healthy delta ecosystem |
| Cayton Dodero | Lodi, CA | 2015-10-23 | I'm signing because I want to help save the Delta! |
| Cate Murphy | Sloughhouse, CA | 2015-10-23 | The ground subsidence in the Central Valley is already alarming. We do not need another boondoggle like the canal that siphons water to Southern California. |
| taylor terfehr | courtland, CA | 2015-10-23 | The delta is my home□□ |
| Richard LaFayette | Oakley, CA | 2015-10-23 | I'm against it. |
| Brodie Hilp | Danville, CA | 2015-10-23 | I want to keep the delta safe, and I want clean water in Northern California. |
| Michael Reyes | Spring Valley, CA | 2015-10-23 | i'm signing because out of all the things that people could be doing to help california, they decide to destroy it. We are already in a horrible drought, there are still wildfires that can start and still do. We don't have a lot of water left but with the water that we do have is home to many species of fish, crab and other life. We can't let them do this to our home or theirs. |
| Heiley Cox | Vacaville, CA | 2015-10-23 | I'm signing this because my children live in Rio Vista and the tunnels are disrupting their hometown stop the tunnels |
| Mark Libby | San Antonio, TX | 2015-10-23 | I am from N California and will be back and want it to be like it was when i was there!! Great fishing and hunting leave the water were it is!! They built in a Desert o well!!! |
| Kuenlen Kim | Auburn, CA | 2015-10-23 | This isn't the way to deal with California's water shortage. Conservation is the way! |
| Sharon Morrow | Lincoln, CA | 2015-10-23 | I was raised in the Delta and do not want to see it distroyed! |
| Tammy Blythe | Elk Grove, CA | 2015-10-23 | Save our Delta! |
| abdul haq | Sacramento, CA | 2015-10-24 | i love the delta and it has been a part of my life growing up |
| Michael Haro | Modesto, CA | 2015-10-24 | This is a dumb idea, we can't give away water "WE" dont have! |
| Barbara Huddleston | Fairfield, CA | 2015-10-24 | This will devastate communities and divert wildlife from the area. |
| john bothof | Rio Vista, CA | 2015-10-24 | The tunnels are crazy,they are not the answer ,all it will do is ruin the fish,like salmon for the most part.It would take years and why to much tax dollars.The gov should be looking more at building resevors which would do alot more good. |
| Gary Walker | Discovery Bay, CA | 2015-10-24 | Appalled at the thought of our elected officials damaging our lifestyle, environment, and farming. |
| Sara Abarca | Lodi, CA | 2015-10-24 | This will directly effect myself and my family. |
| Norman Ruddick | Oakley, CA | 2015-10-24 | This ill conceived madness needs to be stopped. This plan produces not one more drop of water, but destroys habitat and lives. |

| Name | Location | Date | Comment |
|------------------------|-------------------|------------|---|
| Greg Gallegos | Antioch, CA | 2015-10-24 | I've worked on a delta floating laboratory testing water samples. Every time the water gets diverted from natural flow the water quality in the delta region declines measurably. I am against sending any more water out from it's natural course. |
| Sandra Cioppa | Moraga, CA | 2015-10-24 | WE NEED THE WATER RIGHT HERE AT HOME? |
| Charles Hunter | Discovery Bay, CA | 2015-10-24 | This does nothing to relieve the water crisis but will destroy the delta |
| Craig Hanson | San Francisco, CA | 2015-10-24 | I don't want to see the Delta and our natural resources destroyed. |
| David Hansen | Doyle, CA | 2015-10-24 | We continue to lose our fishing rights and the delta fish are disappearing. |
| Christine M. Schroeder | Pittsburg, CA | 2015-10-24 | These tunnels will destroy our Delta environment, harm our economy and wreck the ecology system we all depend on. |
| Jamie Fox | Martinez, CA | 2015-10-24 | John Muir would sign. |
| Susan Schlueter | Sacramento, CA | 2015-10-24 | It would be a travesty to destroy the Delta in this manner. |
| Ray Thompson | Auburn, CA | 2015-10-24 | I'm opposed to the twin tunnel concept to much money to benefit a few and we need more storage |
| Lisa Carr | Vacaville, CA | 2015-10-24 | I have been enjoying the Delta for 41 years. The wildlife and farming benefits should be enough reason to save the Delta. |
| Joseph Young | Stockton, CA | 2015-10-24 | I'm singing because I live in the Central Valley as well as work in agriculture, why is it that we have to give up our water while LA isn't on any water restriction programs?!? |
| David Piller | Flagstaff, AZ | 2015-10-24 | Mega projects such as the tunnels are not the solution to California's water woes and is likely to create worse environmental problems than it appears to solve |
| George Cothran | Stockton, CA | 2015-10-24 | I don't want the Delta damaged by the intrusion of more salt water from the bay. It is a naturally made eco-system that should be protected and Not Raped! |
| Kathy Fagan | Rio Vista, CA | 2015-10-24 | I live in the Delta and this "plan" will cause significant salt water intrusion into my immediate area and will ruin the water supply for MY home, and for thousands just like me. |
| James Paiva | Roseville, CA | 2015-10-24 | It ridiculous to do the underwater tunnel! LA can build a desalination plant already! |
| Clint Johanson | Oakdale, CA | 2015-10-24 | The tunnels will destroy the delta. Spend the money on restoring levees and fixing what we already have. |
| William Bradley | Stockton, CA | 2015-10-24 | Because I don't want Jerry's tunnels to dry or turn the Delta into a brackish water shed with less water flow affecting the farmers and wildlife |
| Daniel McGinnis | Concord, CA | 2015-10-24 | The people and wildlife need to preserve what little part of the Delta that remains rather than costly and short sited water transfers |
| Laura Beaver | Danville, CA | 2015-10-24 | I care about our environment for the long haul |
| Kenneth Connelly | Antioch, CA | 2015-10-24 | Stop the tunnels this is not good for the San Francisco Bay-Delta. |
| Claire Mailhiot | San Ramon, CA | 2015-10-24 | The unintended and unforeseen consequences of such a massive project may not be realized until generations have passed and then it will be too late. Consider Mono Lake or the Florida Everglades. In the long run, humans cannot outsmart nature. |
| Penny Smith | Brentwood, CA | 2015-10-24 | We are tired of being robbed of our natural delta. Leave it alone to thrive on it's own. Stupid people. |
| Jared Marchildon | Emeryville, CA | 2015-10-24 | This is a stupid plan that ignores the underlying causes of the drought...namely the industrial growth society killing the planet through climate change. |
| Paula Coombs | Elk Grove, CA | 2015-10-24 | i love the Delta and this would change it in a way that we will regret. |

Petition 1 - Restore the Delta (Form 5 generator)

| Name | Location | Date | Comment |
|---------------------|--|------------|---|
| Bonnie Lewis | Cazadero, CA | 2015-10-24 | Please do not go through with these tunnels. When it is so obvious as to the damage these tunnels would create, why? |
| Wendy Robbins-Vogel | Yountville, CA | 2015-10-24 | The old peripheral canal - rearing its ugly head! Stop! (Isn't the Central Valley sinking due to water greed???) |
| Phyllis Berger | Stockton, CA | 2015-10-24 | I want to keep the balance in the central California ecosystem |
| Barbara Farhner | Walnut Creek, United States Minor Outlying Islands | 2015-10-24 | We need better sustainable ways to provide water to farmers without devastating the ecology of the Delta. We need to stop WASTING water and STOP polluting water with animal waste and chemicals. NO TUNNELS PLEASE. |
| Thelia Mc. Gregor | Red Bluff, CA | 2015-10-24 | I want the Delta to be the way it was.....and use the waterways! |
| Lauren Kennedy | Chico, CA | 2015-10-24 | California is my home. And my family's home. And home to all of the flora and fauna I grew up with and care deeply about. I don't want to be the last generation to know California as a beautiful home. I have worked in agriculture, communities, and sustainability for 10+ years, and I cannot support the costs, logic, or risks of this plan. |
| LINDA KIMBALL | Santa Rosa, CA | 2015-10-24 | Tunnels are not the way to FIX California's drought and sustainable water problems. Don't do it! |
| Ryan Nowacki | Fremont, CA | 2015-10-24 | You can't ship water down a tunnel when the lake that holds it is dry. We need more reservoirs not tunnels. |
| kersten jordanmaree | Oxnard, CA | 2015-10-24 | this is not going to help the environment! We also need to stop fracking!! |
| Justin Brice | Arcata, CA | 2015-10-24 | I'm signing because we need to protect the natural environments that we depend on. Farming in California needs to adapt or move! Farmers can not drain the rivers dry! I come from a farming community in Nicolaus. I realize that climate change is going to have major effects on agriculture and we need to plan for 7 generations into the future. Our shortsightedness is what has gotten us into this mess! (along with greed for money and power) As the climate changes we need to prepare for extreme weather events and fund research into better alternatives to soil farming. |
| Amy Stephens | Arcata, CA | 2015-10-24 | pleasr invest in water conservation efforts over destroying such a beautiful well loved place |
| Marina Faconti | Antioch, CA | 2015-10-24 | I oppose the delta tunnels. Not a good idea, hurts the delta! |
| kerry pay | martinez, CA | 2015-10-24 | We "need" fish just as we "need" water to drink. Don't destroy one species to profit another! |
| Sandra Peterson | Danville, CA | 2015-10-24 | I think the twin tunnel plan will be a huge expense to our environment and our budget. We don't need to destroy the Delta ecosystem to send water to southern CA. Let's conserve what we have and let innovators develop new ways to desalinate our abundant sea water that will be rising with climate change. |
| Sue Cutter | Citrus Heights, CA | 2015-10-24 | It makes no sense to just move water around. We should be planning for water storage. So. Cal has gotten a lot of water lately but there are no storage areas. Build dams instead. |
| cynthia zaval | dixon, CA | 2015-10-24 | I do not support the tunnels! |
| Wes Rhea | Stockton, CA | 2015-10-24 | The tunnels will kill the delta. |
| Jay Risso | Brentwood, CA | 2015-10-24 | The delta is the greatest bass fishery in the US and the tunnels will ruin it. |
| Teresa Gemignani | Roseville, CA | 2015-10-25 | The river and our delta will be ruined by these tunnels. |
| Sharon Marchetti | Antioch, CA | 2015-10-25 | I care about the Delta |

| Name | Location | Date | Comment |
|-----------------|--------------------|------------|---|
| Kelly Favero | Galt, CA | 2015-10-25 | I believe what the Governor is doing is wrong for so many already stated obvious reasons and is refusing to yry any alternate possibilities. |
| Grace Paolini | Lafayette, CA | 2015-10-25 | I do not want tunnels to be built around/under the delta! It will destroy the entire ecosystem. It is a terrible idea and a waste of money! No!!!! |
| Karen Rosenthal | Knightsen, CA | 2015-10-25 | Don't take the beautiful California Delta from the people who love it, nor the Egrets, the Great Blue Heron, the Otters, the Striper, the Large and Small Mouth Bass, the Catfish, the Salmon, and more. We are tired of losing our water supply to supply water to areas of California that are desert, and should never be built upon in the first place. Don't take our Delta Away! |
| Kathleen Riley | Knightsen, CA | 2015-10-25 | I've lived next to the Delta all my life. When I was a child we were fighting the taking all of our water to send to LA, and killing off our wildlife. Let LA get it's own water. Don't kill our Delta. |
| TANYA Souza | Garden Grove, CA | 2015-10-25 | I care about Discovery Bay! |
| Robin Bougeja | Aptos, CA | 2015-10-25 | I am signing because this is an environmental disaster in the making, and I'm also concerned about the impact this would have on the economy in this region. I am opposed to these Delta Tunnels! |
| Brian Beard | Antioch, CA | 2015-10-25 | This is a ridiculous plan thats why |
| JOHN PLINSKI | Lodi, CA | 2015-10-25 | I grew up on the delta and have seen its decline for decades. I'M SAD TO SEE our leadership further destroying are great delta system. |
| Erin Renshaw | Emeryville, CA | 2015-10-25 | I love the delta. I grew up there |
| Tina Holt | Herald, CA | 2015-10-25 | My family has a thriving business in the Delta and the Tunnels would kill that. The loss of a lifelong recreation industry would be decimated and those elders who rely on the earnings would suffed undo hardships. |
| Judy Glenn | Cathedral City, CA | 2015-10-25 | oppose exporting nuts when in a drought! We need to protect the water we have. |
| james gay | Oakley, CA | 2015-10-25 | I have watched the organizations and our government over the years destroy our state fisheries and propagate the farmlands of the south that really are desert regions...when will it stop..we do not have unlimited resources or water..northern calif needs what we have left ..stop the tunnels ,its just a water grab conduit for the people that want to make money..large farms....stop the tunnels nonsense its just an underground canal,that we voted on and stopped once before.. |
| Wes Rule | Stockton, CA | 2015-10-25 | This is a VERY BAD IDEA |
| Nicole Chan | Davis, CA | 2015-10-25 | Preserve the delta habitat. |
| Mabel Chan | Pacifica, CA | 2015-10-25 | Preserve our San Francisco Bay-Delta region ecology and economy! |
| Jorge Gonzalez | San Jose, CA | 2015-10-25 | I would hate to seat the delta destroyed and the wild life lost |
| Scott Nho | Benicia, CA | 2015-10-25 | I am signing because I believe that that water belongs to the California Delta Residents, and is not to farmers who will take our water to grow their farms for export purposes. |
| Kaden Wilsbee | Creston, Canada | 2015-10-25 | I'm signing, because I want to save our water source, and to preserve our water for the animals habitat. We don't want to endanger the animals living, and depending on the delta water. |
| Jaimie Bakas | Petaluma, CA | 2015-10-25 | I want to preserve our water and environment as well as the people's lives who depend on the delta |
| rich petersen | Manteca, CA | 2015-10-25 | Need to save the Delta |

| Name | Location | Date | Comment |
|-----------------|--------------------|------------|---|
| Dee Simmons | Concord, CA | 2015-10-26 | <p>I am signing because:</p> <ul style="list-style-type: none"> -The National Academy of Sciences has already stated that the Delta water supply is overdrawn for the health of the Delta. - . The Sacramento Delta is the largest estuary in North and South America on the West Coast and the largest estuary in the United States West of the Mississippi. It is the fountain of life -- equivalent to Mesopotamia or the Amazon-- for species habitat. The Delta must be protected. - The Greater Bay Area threw away over a trillion gallons of treated wastewater last year, which could have been recycled and reused for Agriculture. The shortfall in the Central Valley was 2.1 trillion, according to UC Davis. This "new" water should be pumped to locations where farmers can use it. Recycled water is high in nitrogen and phosphorus and is neutral pH, so it is better for Ag than potable or raw water. - The Delta Tunnels are predicted to damage the economies of the 5 surrounding counties, creating negative economic effects. |
| Sol Nho | Benicia, CA | 2015-10-26 | I am signing this petition because I believe that pumping all of our Delta water down south will destroy fragile ecosystem. |
| Jane Chin | Concord, CA | 2015-10-26 | It is foolishness to deplete the Delta water, to subsidize the even more dessert south. We need to develop programs for conservation/reuse and learn to live in the semi-arid land CA is. |
| Jessica McAuley | Stockton, CA | 2015-10-26 | The Delta is my home. |
| Vaughn Willett | Sunol, CA | 2015-10-26 | The Delta ecosystem needs to be protected and restored. Stop the tunnels. |
| John Fink | Brentwood, CA | 2015-10-26 | THIS IS A STUPID IDEA!!! |
| Kathryn Norman | Salinas, CA | 2015-10-26 | There are more effecient ways to come up with water supply for California and effecting the ecosystem of thousands of water life in the Delta is NOT the smartest way to go. It is the least effective and "easy way out" decision for California to do. Put your brains together and figure out game plans that will help not only California but other states that go into droughts in the future years. Instead of tunneling from the Delta, build tunnels that connects the west coast to the east coast and use their rainfall that goes to waste!!!! |
| ELLIS GOLDBERG | DANVILLE, CA | 2015-10-26 | The proposed tunnels are insane. |
| Linda Panattoni | Sacramento, CA | 2015-10-26 | I am against the tunnels |
| katie fogg | Manteca, CA | 2015-10-26 | I'm signing because the Delta is far too important to our lives and environment to let it get destroyed. |
| Jack Norlyn | Davis, CA | 2015-10-26 | The Tunnels will harm the fish and increase the salinization of the Delta farm land. |
| Linda Carl | Fair Oaks, CA | 2015-10-26 | I oppose the Delta Tunnels! They will destroy the Delta, and waste taxpayer money that could be better spent on other projects. The state can't even control the water hyacinths in Delta waterways. How are they going to handle maintenance on underground Tunnels? |
| Kurt Tremont | Pembroke Pines, FL | 2015-10-26 | My brother lives in the area and says it's important. |
| James Kelly | So. Lake Tahoe, CA | 2015-10-26 | The tunnels idea is dumb science, just like forced vaccination. |
| Ron Nass | San Rafael, CA | 2015-10-26 | This is insane to divert our water and destroy the delta and our fishery. |
| ELMER CEDER | Fairfield, CA | 2015-10-26 | NEED THE NORMAL DETLTA FRESHWATER FLUSHING . NO WATER DEVIATION SOUTH |
| Kenneth Sobon | Paradise, CA | 2015-10-26 | We must protect our environment. |

Petition 1 - Restore the Delta (Form 5 generator)

| Name | Location | Date | Comment |
|-------------------|----------------------|------------|---|
| Steve Boyle | Merced, CA | 2015-10-26 | The Delta is a magnificent, special place, and the tunnels and more exportation of water to S. Ca. will be devastating to this environment. |
| Jon Deasy | San Francisco, CA | 2015-10-26 | What is left of the Delta needs to be conserved. |
| Michael Weybret | Lodi, CA | 2015-10-26 | I support and will defend nature. We cannot continue our trend of permanently destroying nature to fix a temporary problem. |
| William E Poole | San Francisco, CA | 2015-10-26 | The "son of the peripheral canal" tunnels will claim water needed for fish, wildlife, and the health of San Francisco Bay and send it to irrigate water-hungry export crops in the San Joaquin Valley. |
| Cody Goonan | Lodi, CA | 2015-10-26 | I love the delta and want to help it, for everyone. |
| Desiree Vazquez | Costa Mesa, CA | 2015-10-26 | I care about my home |
| Omid Torabian | Carmichael, CA | 2015-10-26 | This project is too expensive and not needed. Will destroy the environment. |
| Marni Farr | Galt, CA | 2015-10-26 | I grew up on the Delta and don't want it destroyed. |
| Shaun Freeman | Stockton, CA | 2015-10-26 | To protect our waterways for today and our children's tomorrow |
| Stephen Tyack | Lodi, CA | 2015-10-26 | California Water Fix is not the answer to the water issues in the state. |
| Brien Brennan | Red Bluff, CA | 2015-10-26 | I love life in all its glorious forms and this project would be disastrous for all remaining life in the formerly fecund Delta. |
| Shelby White | Lodi, CA | 2015-10-26 | This will destroy our state. |
| margaret tadano | vacaville, CA | 2015-10-26 | This is stupid. There is no more water. There are no water saving projects for past 30 years. We built catchment basins to prevent flood damage only. |
| Kristofer Johnson | San Ramon, CA | 2015-10-26 | I oppose the delta tunnels and believe in saving the Delta. |
| Theodore Nho | Benicia, CA | 2015-10-26 | The Delta has a very sensitive ecosystem. Please stop pumping our water out of the delta |
| Daniel Lee | Alameda, CA | 2015-10-26 | The Delta tunnels will ruin fishing, farming in the delta, delta communities, and San Francisco bay area wildlife. |
| Diane Griffiths | Dublin, CA | 2015-10-26 | The tunnels are a bad idea. |
| Lucy-Ann Trump | Discovery Bay, CA | 2015-10-26 | I love the delta and all the naturall beauty that exists here. |
| Sharon Rodriguez | Cedar Rapids, IA | 2015-10-26 | Even though I now live in Iowa, the Delta will always be my home. It is a truly unique place. The tunnels would destroy one of the most beautiful places on earth. |
| Sonia McNabb | Fremont, CA | 2015-10-26 | I'm signing this petition because I'm a concerned citizen that uses the delta for recreation with my family and also use the delta to tournament fish and us fishermen spend millions of dollars in the communities around the delta. |
| Jay Chagnon | Vallejo, CA | 2015-10-26 | Big money grab at our expense! No! |
| john roe | danville, CA | 2015-10-26 | This project would ruin the Delta and all of the associated industrial work that rely of it. |
| Arleigh Nave | Antioch, CA | 2015-10-26 | Moving what little water sustains the bay and delta is not a fix. It creates no NEW water. It only diverts water to areas that should be conserving their own ground water. there should be plans to build damn where water could collect once we have rain. Or Desalination plants could be built to provide fresh water to southern California at SoCals expense. |
| justin bieber | sheff, LA | 2015-10-26 | I sincerely believe that removing fresh water from the delta will turn it into a salt marsh and ruin the farmland and wildlife habitat. |
| Bryson Burns | Huntington Beach, CA | 2015-10-26 | This issue needs to be dealt with! My friend spoke about it in class last week and I am taking action. |

|-------------------|---------------------|------------|--|
| Halsey Errecart | San Francisco, CA | 2015-10-26 | The delta is one of my favorite places to ride motorcycles, the delta tunnels will drastically alter the landscape and beauty of the area. |
| Tina Williams | Manteca, CA | 2015-10-26 | I care about our Delta waters and our California Fisheries. I oppose! please save our Deltas. |
| Ray Warthen | Bethel Island, CA | 2015-10-26 | This is not good for the Delta, the environment, and most of all, it is a waste of taxpayer money - instead of spending the money on a permanent solution to fix our water problem. |
| Chris Di Maggio | Discovery Bay, CA | 2015-10-26 | Jerry Brown is an idiot and I actually care about CAs water issues not just bribe money. |
| Esther Rojas | West Sacramento, CA | 2015-10-26 | I'm concerned about our Delta and the negative impact on the Bay Area. |
| Arthur L Glattke | Modesto, CA | 2015-10-26 | I Believe this Delta Tunnel deal is one of THE WORST ideas in the History of California !!! |
| Jon Sanders | Rocklin, CA | 2015-10-26 | I love the fishery that the delta provides.!!! |
| Patricia Wilcoxon | Stockton, CA | 2015-10-26 | I am against our water going to S. Ca. So they can wash there cars fill there pools and waste water that we need here for our farmers. |
| Jason Riddle | Waddell, AZ | 2015-10-26 | Don't destroy the Delta |
| Scott Graham | Brevard, NC | 2015-10-26 | Greed has never solved problems, only made them worse. |
| Judy Kelley | Los Angeles, CA | 2015-10-26 | We cannot send more water south! We need the water we have left. |
| Athina Polis | Sam Marino, CA | 2015-10-26 | Tunnels are not the solution, we should restore the delta |
| John Swaim | San Diego, CA | 2015-10-26 | I hate inside deals. |
| Rachel Maricich | Escalon, CA | 2015-10-26 | Because the Delta's natural water flows should not be diverted around the Delta. |
| Mike ramage | Stockton, CA | 2015-10-26 | The delta is a great wetland the needs protection, not to be drained for profit. |
| Samantha Leyva | Hobbs, NM | 2015-10-26 | I was born and raised in California right on the Delta |
| Arielle Suarez | Pittsburg, CA | 2015-10-26 | I'm signing because we must protect our current delta habitat. |
| Jeff Gillenkirk | Sn Francisco, CA | 2015-10-26 | Besides its importance as an estuary, the Delta has a vital -- and fragile -- human ecology of ranchers, farmers, artists, scientists and good souls who have lived on the land for generations. Don't Drain the Delta! |
| Lisa Booker | Belmont, CA | 2015-10-26 | California is my home and I want to protect it. |
| Dianna Munro | Sacramento, CA | 2015-10-27 | Stop the madness! |
| Wendy Bishop | Tracy, CA | 2015-10-27 | Too much climate and environmental change/damage; too much wildlife dying; Southern California needs to pay for desalinization plants to make the Pacific Ocean their water supply, or move North to where the water is instead of taking the water away from its normal path.and ruining the ecosystem a Northern/Central Valley farm enterprises. |
| Maria L Patterson | Manteca, CA | 2015-10-27 | We need to protect our environment |
| Joe Rubino | Tracy, CA | 2015-10-27 | I am signing because the Delta Tunnels is a horrific plan. Jerry couldn't get his peripheral canal during his first, legal terms as governor and now has tried to trick us into his peripheral canal/Delta tunnel project. Makes me wonder what is in it for him for this to go through - certainly that benefits California residents! Besides, when we suffer droughts, what water is there to send to LA??? |
| Robert Leonard | Grass Valley, CA | 2015-10-27 | I oppose the tunnel project |
| Craig DuBord | Montgomery, TX | 2015-10-27 | The natural eco system and mother earth needsto come before the profit of greedy capitist. Period. |
| Virginia Wilson | Napa, CA | 2015-10-27 | It is impossible, impractical and life threatening |

| Name | Location | Date | Comment |
|--------------------|---------------------|------------|--|
| Maureen Thompson | Soledad, CA | 2015-10-27 | I am signing because I am concerned that we are sacrificing one group's water and livelihood for another...please look again at the research and reconsider please |
| Roger di Fate | Discovery Bay, CA | 2015-10-27 | I live on the Delta. The twin tunnels is the worst option for the Delta and California. NO Tunnels |
| gerald staat | Stockton, CA | 2015-10-27 | Its the right thing to do.. I've seen the decline in the delta..nothing is being done to save and restore it..brown is just waiting for it too fail during the next big water year so he can say see we need the tunnels.. You can fool the fools brown I see what your doing... |
| James Vollmer | San Leandro, CA | 2015-10-27 | The tunnels are a waste of \$ and don't fix the problem. |
| Russ Daniels | Lodi, CA | 2015-10-27 | The tunnels have not been proven to solve the problem of getting water to other areas without sacrificing the delta region itself. Your can't help another area while destroying another! It just doesn't make sense. |
| Ellie Wooten | Shingle Springs, CA | 2015-10-27 | The Central Valley is already suffering due to the way water is channeled, |
| Victor Clutter | Modesto, CA | 2015-10-27 | To stop the tunnels!!!!!! |
| Pedro Dupree | Los Angeles, CA | 2015-10-27 | I am signing this because i promote sustainable california |
| Paul Maysonave | Peaceful, CA | 2015-10-27 | I'm from the valley - this is a reactionary endeavor... |
| Brooke Bullard | Tracy, CA | 2015-10-27 | I'm signing because I STRONGLY oppose this plan that would devastate our local ecology!!! |
| James Reid | Knightsen, CA | 2015-10-27 | Jim Reid |
| Bobby Baller | Manteca, CA | 2015-10-27 | Our Water Belongs 2 Us, Northern California Needs 2 Be Better Protected 4 A Sustainable Future□* |
| matias Salinas | La Habra, CA | 2015-10-27 | We should continue water cut backs at home and business. More cut backs on irrigation for landscaping |
| Elaine Clark | Ripon, CA | 2015-10-27 | I've been following this and the work of former SJ County CAO, Manuel Lopez's efforts to prevent this very thing from happening! It's maddedning that people would blindly follow this plan without understanding how it will cripple our valley! |
| Holly Hartman | Brentwood, CA | 2015-10-27 | The Delta is an important region and is necessary for ecological and biological balance in California. |
| Antonio Garcia | Stockton, CA | 2015-10-27 | My community in Stockton, CA would be affected by the construction of these tunnels. With California's highly resourceful government I believe this state could find an alternate solution. |
| Nancy Mendoza | Ontario, CA | 2015-10-27 | We need to conserve the water we have and explore other options. |
| Diana Yows | Stockton, CA | 2015-10-27 | Keep the water where it's suppose to be. Let Mother Earth choose its course. Stop using so much water to factory farm animals and then there might be enough left for all of us to use. |
| Joanne Dale | Sebastopol, CA | 2015-10-27 | I'm signing this petition because I believe diverting huge amounts of water through the tunnels will be very damaging to the ecology of the Delta. |
| stephani Brandstad | Linden, CA | 2015-10-27 | I farm ground in the islands and am worried about salt water intrusion |

| Name | Location | Date | Comment |
|--------------------|---------------------|------------|--|
| Christine Koerwitz | West Sacramento, CA | 2015-10-27 | <p>I've grown up and lived in an area of the delta and have many close friends and families that live up and down the Sac Delta areas. I am shocked that this legislation is even on the table. I don't see an upside except profitability to the agricultural industry in those areas south of us that could use more water to sell more of their almonds, etc. The effects to the wildlife alone are devastating should the Ca Water Fix be approved.</p> <p>I strongly oppose the Delta tunnels plan per the California water fix (alternative 4A).</p> |
| Steve Dial | Stockton, CA | 2015-10-27 | The tunnels do not increase water or even capture and store up stream water. It certainly will lead to the destruction of the Delta. |
| Earl Quattlebaum | Stockton, CA | 2015-10-27 | The tunnels are not the answer |
| Lowell Buchanan | Los Gatos, CA | 2015-10-27 | I don't think this is right to send the water to Southern ca. |
| dalia lopez | Courtland, CA | 2015-10-27 | I'm signing because this is part of me. This is home, building the tunnels will ruin that for me and many others. |
| Juan Orellana | Concord, CA | 2015-10-27 | No!! |
| Kirk Fisher | Discovery Bay, CA | 2015-10-27 | The Delta Tunnels are a disgrace to the natural environment of California. The Delta consists of over 1000 miles of navigable waterways, used mostly for farming and recreational activities year around. The Delta Tunnels will without a doubt, effectively destroy this thriving estuary. For those of us that love the Delta, it's unimaginable a Delta that would be anything but fresh water, let alone the devastating effect the tunnels will have on fifth-generation Delta farmers. |
| Ted Bestolarides | Stockton, CA | 2015-10-27 | Due to water shortages I feel that the Governor has no right to start such an expensive project and feel that Southern CA has no right to our water. I would recommend that our liberal Governor consider having Southern California build and pay for a desalination plant off the LA shore line and they can pay for and get all that water from the ocean rather than from our fragile delta. |
| Scott Barrett | Woodland, CA | 2015-10-27 | I love the delta. This is the dumbest idea EVER. Build a desalination plant!!!!!! |
| Chuck Lavington | Irvine, CA | 2015-10-27 | ruin the Delta |
| Mathew Duran | Manteca, CA | 2015-10-27 | I'm signing this because I do not want to send the valley's water to SoCal. I enjoy the delta. |
| SHARON BENSCH | Acampo, CA | 2015-10-27 | I am signing because the state needs to build reservoirs for the entire state to provide water supply for all areas and needs. To allow water to run into the ocean without any way to capture it makes no sense. Digging tunnels through the earthquake faults and taking water from the sensitive Delta area when our area needs water as well to maintain our cities and farming. |
| Harold Hammons | Antioch, CA | 2015-10-27 | The tunnels will ruin the delta. And this should never happen. |
| Michael Pearson | San Jose, CA | 2015-10-27 | we shouldn't be stripping established water rights and ruining our resources and environments to supply industry with up to 40 percent of wasted resources in a place it does not belong. They dump nearly 40 percent of the crops they grow with precious water in the Central Valley. |
| Adam Nieves | Oakley, CA | 2015-10-27 | I love the delta |
| William Lewis | Stockton, CA | 2015-10-27 | <p>My family & I use the delta water ways at least 200 days per year for fishing & hunting. Also the quality of the delta would be in danger if more water restrictions are imposed.</p> <p>We already do not have good flow of tides because of the delta aqueduct that is sending water to the south end of California.</p> <p>Thanks</p> |

|---------------------|------------------|------------|--|
| dan ewell | Stockton, CA | 2015-10-27 | WATER IS A NATURAL RESOURCE AND SHOULD NOT BE BOUGHT OR SOLD AS A COMMODITY. THE REAL ISSUE IS RECYCLING WATER, WATER STORAGE AND ASKING THE SOUTHERN CALIFORNIANS TO STOP BUYING WATER AND INVEST IN DESALINIZATION UNITS. WHO IS GOING TO SAVE OUR FOUNDATIONS AND HOUSES HERE IN NORTHERN CALIFORNIA BECAUSE OUR WATER TABLES ARE SHRINKING. ACCORDING TO THE US GEOLOGICAL SURVEY THIS IS THE WORST DROUGHT FOR CALIFORNIA IN 1200 YEARS. HMMMM! SOUNDS LIKE SOMEONE IS TRYING TO TURN A PROFIT OUT OF A DISASTER. |
| Amy McCuan | Oakley, CA | 2015-10-27 | I'm signing because I have lived on the Delta my entire life it is a beautiful eco system that is delicate and beautiful and YOU will destroy it with these useless tunnels! Who is paying my you off Gov. Brown to do this to Northern CA? This will NOT fix the water problem ! Let SoCal buy water from other states if they need more water taking it from us is WRONG! You will destroy No. California! |
| Julia Wilson | Vista, CA | 2015-10-27 | i grew up in San Joaquin Co and know the value and need for water to remain there |
| Schmierer Sr Gordon | Lodi, CA | 2015-10-27 | The Delta and Jan Joaquin Valley need the water so don't send it South. |
| debra chase | williams, CA | 2015-10-27 | What Governor Brown has planned is not a solution. |
| Kenneth Herold | Stockton, CA | 2015-10-27 | The tunnel is just wrong!! |
| joan cefalu | Lathrop, CA | 2015-10-27 | because it is the right thing to do. the twin tunnels is giving all our water to the south. we need it for the valley and the farm land and rivers |
| Jeffrey Withers | Stockton, CA | 2015-10-27 | The tunnels are a bad idea |
| Joseph Slaton | Elk Grove, CA | 2015-10-27 | I do not agree with taking water from our delta to send it down south! Just build a plant to make saltwater into fresh water off shore and leave our delta alone |
| Sara Bell | Oakley, CA | 2015-10-27 | Natural waterways should not be disturbed. |
| justin martin | Brentwood, CA | 2015-10-27 | I'm a delta born and grown river rat and don't want too see more problems in our waterways like the mitten crabs caused. |
| Vanessa Rodriguez | French Camp, CA | 2015-10-27 | I want to save the Delta...Stop the tunnels! |
| Craig Thacker | Rio Vista, CA | 2015-10-27 | I care. |
| Heather Rizzo | Manteca, CA | 2015-10-27 | save the delta!!!! |
| sandy huber | Elk Grove, CA | 2015-10-27 | I'm signing because I am a fourth generation San Joaquin Valley farming family. |
| Jorge monarrez | Modesto, CA | 2015-10-27 | I love to fish and this would kill the habitat. |
| Cheyene Kutch | Stockton, CA | 2015-10-27 | I'm signing because my family owns property on the delta and have for generations, the tunnels would ruin their farming and livelihood. It's not right to take what isn't yours, maybe someday our government will learn that notion and concentrate on fixing our economy, crime and corruption in the system. |
| Joyce Berube | Squaw Valley, CA | 2015-10-27 | THE PLAN IS FAULTY ~ REWRITE THE EIRs AND STEP BACK & REWORK...!! |
| Nathaniel Kutch | Modesto, CA | 2015-10-27 | It will affect my family's business, are lively hood and our children's future!! Don't give away what we need to survive! |
| Josephine Guidera | Sacramento, CA | 2015-10-27 | I believe the better answer is building more storage facilities, especially in S. California where all the rain they get goes down the concrete channel that used to be the LA River and out to sea. |
| Sarah Stewart | Antioch, CA | 2015-10-27 | I love the delta I love my home ... This will be deadly |

| Name | Location | Date | Comment |
|-------------------------|--------------------|------------|---|
| Gayle Watkins | Linden, CA | 2015-10-27 | The Delta region is already struggling in terms of ecology and salinity. This project would devastate this very unique region. |
| Katie Begell | Oakley, CA | 2015-10-27 | The Delta is a resource that is something special. Efforts should be made to preserve the waterways for the local communities they support and funds should be spent to better protect its barriers & levee roads. |
| Cole Hinkle | Lodi, CA | 2015-10-27 | i oppose the delta tunnels, building these tunnels will further deteriorate the Eco system |
| karen danner | Valley Springs, CA | 2015-10-27 | I believe there can be another solution to the water issue without depriving one part of the state to supply the other. Consider desalination. |
| Jackie Sinigaglia | Oakdale, CA | 2015-10-27 | I want to preserve our delta. |
| DOUGLAS EVANS | SACRAMENTO, CA | 2015-10-27 | I'm signing because as a life long California resident I do not want to see further encroachment no the natural delta water shed. |
| Brian Welch | Santa Clara, CA | 2015-10-27 | I want the Delta left the hell alone. It's bad enough PG&E stores gas underneath it, which ought to be stopped as well. |
| Alex Wheeler | Pensacola, FL | 2015-10-27 | I'm a 6th generation pear farmer, and I support the Delta. |
| Daniel Klug | Galt, CA | 2015-10-27 | I am signing because the tunnels will not provide more water and will destroy an already fragile ecology in the Delta. |
| Karen Mann | Discovery Bay, CA | 2015-10-27 | I am signing because I don't want the Delta damaged with the rape planned by the tunnels to this pristine area. Desal plants in the ocean are the way to go!! |
| Rochelle Hall | Clarksburg, CA | 2015-10-27 | We do not need the tunnels. |
| Michael Heintz | Livermore, CA | 2015-10-27 | I fish for salmon, steelhead and striped bass in the delta and want to make sure we do what we can to preserve the delta and its wildlife so that my kids and grandkids can enjoy the delta as I have. We can do more to protect this fragile ecosystem on which so much depends. I can't see how taking more water will make things better. In my lifetime I have watched the fisheries collapse to the point they are at now, which is a sad thing indeed. |
| Michael & Coralee Downs | Walnut Grove, CA | 2015-10-27 | There are so many better options that would cost less and actually provide additional water for California, and improve the Delta levees. |
| Susan Gordon | Stockton, CA | 2015-10-27 | I do not agree with the building of underground tunnels |
| Pat Borison | Discovery Bay, CA | 2015-10-27 | There are better alternatives to the tunnels |
| Yvonne Wood | Lodi, CA | 2015-10-27 | I am signing because my life depends on the California water project being defeated. I get all my water from the Delta, to live and grow food. |
| tom rafanan | Dixon, CA | 2015-10-27 | The tunnels will do nothing for drought relief. Will only benefit and is solely designed for small number of wealthy water grabbers at our expense and the detriment of our fisheries. |
| Susan Bowers | Stockton, CA | 2015-10-27 | The plan to steal the water from Northern California has been opposed multiple times, due to the devastation it will cause to the fragile Delta Ecosystem and the billions of dollars that will be lost from farming, water recreation and marinas, restaurants, tourism and jobs!!!! This must be stopped at all costs. Destroying the delta will completely destroy the Stockton economy! Sign this petition now and stop Jerry Brown and this initiative at all costs! |
| Bryce Harvey | Stockton, CA | 2015-10-27 | It's pretty simple think of the ecosystem!!!! |

| Name | Location | Date | Comment |
|-------------------|---------------------|------------|--|
| Matthew albers | Sacramento, CA | 2015-10-27 | The delta waters are not only an ecological blessing, but it is also a fun playground for me and my family. Destroying this sensitive area in order to fulfill your costly campaign promises is both ethically irresponsible and generally negligent as a steward of the earth. This is all about money and power with very little regard for the resources, both living and fluid. This is going to destroy the balance of nature and line the already deep pockets of those who don't have enough sense to realize that building a farm in the of a desert is just plain dumb. |
| Ted harrison | Stockton, CA | 2015-10-27 | CA water Fix is a big Lie! |
| Florina Cruz | Merced, CA | 2015-10-27 | The delta is all we have left in the valley...how dare our criminal politicians do this to our childrens waterways...how dare them! |
| danielle pokert | Lodi, CA | 2015-10-27 | The delta is an imprortant water way in sustaining our local farms. I don't want to see the habiatat change for the fish and wildlife. |
| nevin sandstrom | Sacramento, CA | 2015-10-27 | I am one of many owners who have farm land and who grew up on the delta water ways. The tunnels will directly impact my familys farming along with our water rights. Please stop the tunnels. |
| tomas Nieto | Manteca, CA | 2015-10-27 | #FishyFishay #SaveTheDelta #StopTheTunnles #StopTheCanal |
| Mariel Morison | Blue Lake, CA | 2015-10-27 | We need the delta to remain as it is rather that being devastated to fatten the wallets of corporate agriculture. |
| Carlos Aviles | Tracy, CA | 2015-10-27 | I'm signing this petition because I would hate to see the delta be drained out just so it can be sent elsewhere |
| Claudia Macdonald | Discovery Bay, CA | 2015-10-27 | This project is evil, corrupt and money laundering. Taking from taxpayers who don't want or approve it to give to Jerry Browns cronies..follow the money. we will be devastated forever |
| Michael Hair | Modesto, CA | 2015-10-27 | You can't rob this ecosystem for the use of the wealthy. How about a real solution. Pipeline from the mighty Mississippi. All stated from here to that could get on board and benefit from that water source that isn't even close to drying up. |
| ekjot kaur | Davis, CA | 2015-10-27 | Because I support |
| Mark Takaro | Berkeley, CA | 2015-10-27 | This is a crucial issue for the future health of the Delta and the San Francisco Bay estuary. |
| John English | Pleasant Hill, CA | 2015-10-27 | I opposed the peripheral canal and I oppose the peripheral tunnels. The will most definitely harm drinking water quality in the SF Bay Area and cause irreparable damage to the Delta. |
| Maggie sor | Suisun City, CA | 2015-10-27 | Restore our delta |
| Luis LaO | North Highlands, CA | 2015-10-27 | We are in just as much need as them. |
| kevin howard | moffett field, CA | 2015-10-27 | i do not want tunnels. |
| Theresa Fuqua | Stockton, CA | 2015-10-27 | i oppose the tunnels stop giving our water away/ who will give us water when we have none left? |
| Darren Dean | Lodi, CA | 2015-10-27 | I'm a local who doesn't agree |
| Kris Huff | Stockton, CA | 2015-10-27 | I know the negative outcome this will have |
| Brad Fisher | elk grove, CA | 2015-10-27 | Save the delta |
| Jackie Hill | Citrus Heights, CA | 2015-10-27 | The tunnels will cause more damage than good. |
| Shirley L. Silva | Rio Vista, CA | 2015-10-27 | We need to stand together and stop this and by signing this petition I hope we will be able to stop this. NO TUNNELS! |
| Alexandria Flores | Clovis, CA | 2015-10-27 | I don't want the delta to disappear. |

| Name | Location | Date | Comment |
|------------------|---------------------|-------------|---|
| Gavin Peterson | Vacaville, CA | 2015-10-27 | We need to preserve our water ways and the wildlife that depend on it |
| Max Benigno | Sherman Oaks, CA | 2015-10-27 | I believe that what they are doing is wrong and unethical. |
| Ronald Riker | Vallejo, CA | 2015-10-27 | We need to protect our delta waterways and the species that exist in it |
| Eddie Gapasangra | Rocklin, CA | 2015-10-27 | No tunnel in the delta |
| William Lindsey | West Sacramento, CA | 2015-10-27 | Taking more water from the Delta is a crime. No scientific or engineering study produced by Governor Brown is valid over the will of the people in this area. |
| Robert Schwenke | Discovery Bay, CA | 2015-10-27 | I'm signing this because this will destroy the northern California waterways andd eco system completely soley for the profit of a few. |
| Ryan Carter | Oakland, CA | 2015-10-27 | I support the petition |
| Peggy Wagner | Stockton, CA | 2015-10-27 | I have always been against the tunnels from the beginning |
| Karl Engdahl | Walnut Creek, CA | 2015-10-27 | I want to protect the Delta and the Bay , what part of having a Great White Shark in the Bay don't you get ? |

| Name | Location | Date | Comment |
|----------------|-------------|------------|---|
| Richard Girard | Antioch, CA | 2015-10-27 | <p>Subject: Oppose the Delta Tunnels/California Water Fix (Alternative 4A)</p> <p>I am writing to express my strong opposition to the Delta Tunnels plan.</p> <p>The Delta Reform Act of 2009, in which the California State Legislature committed to the "coequal goals" of providing a more reliable water supply for California AND protecting and restoring the cultural, recreational, natural resource, and agricultural values of the Delta, cannot be upheld if the Delta Tunnels come to pass.</p> <p>The California Water Fix does not meet the restoration goals of the Delta Reform Act; it is simply a plan to export more water out of the San Francisco Bay-Delta estuary. The Delta Tunnels will also fail to provide more reliable water because the Delta watershed is already oversubscribed by five times in normal water years.</p> <p>My objections to the tunnels are threefold:</p> <p>The California Water Fix does not address the environmental, public health or economic impacts of the proposed Delta tunnels project. Also, the plan ignores alternatives that would save California tax and ratepayers billions of dollars, while investing in the jobs and local water sources that build sustainability.</p> <p>My environmental concerns with the plan are:</p> <ul style="list-style-type: none"> · The impact on wildlife and plant species in the Delta that depend on freshwater include the Delta smelt, chinook salmon, steelhead, San Joaquin kit fox, and tricolored blackbird, protected species already on the brink that will face decimation due to a diminishing food-web. · At sea, even the ESA-listed South Pacific Puget Sound Orca Whales depend on migrating Delta species that will be harmed by less water flowing through the Delta. · The tunnels plan seems to ignore Section 7 of the Endangered Species Act which prohibits federal agency actions that are likely to jeopardize the continued existence of any endangered species or that "result in the destruction or adverse modification of [critical] habitat of [listed] species." <p>My public health concerns with the plan are:</p> <ul style="list-style-type: none"> · The tunnels will cause increased contamination of municipal water and wells for the millions of rural and urban residents living in the five Delta counties. · The tunnels plan fails to model for potential increases of carcinogens and other formation of byproducts that would cause cancer and other serious health effects. · Environmental justice communities, who depend on subsistence fishing, will also face food and health insecurities as a result of increased contaminants, specifically mercury contamination, in fish and wildlife populations. <p>My economic concerns with the plan are:</p> <ul style="list-style-type: none"> · For large metropolitan cities such as Los Angeles and San Jose that depend on export water, water rates and/or property taxes will go up, but they will get no additional water. · No analysis has been done on how the lack of fresh water flows will impact San Francisco Bay tourism and recreation. These industries depend on Delta fresh water flows for their crab and salmon fisheries, wildlife sighting, boating, and their restaurant economy. This industry is worth billions annually. · Salinity intrusion is already impacting the western Delta farms and removing Sacramento River freshwater from the system will make matters worse. Delta farmers cannot irrigate crops with salt water and they certainly cannot plant crops in contaminated soils. The Delta Ag economy, which consists of generations of family farms and farm workers, generates \$5.2 billion for the California economy, annually. · California coastal fishing communities depend on thriving wildlife. This historic industry is worth billions annually, with the salmon industry worth \$1.5 billion annually alone. Thousands of jobs and livelihoods are tied to these industries. · The operation and construction of the tunnels will obstruct and disable navigable waterways for boating, marinas and other types of leisure activities, in addition to creating conditions of low water flow that will foster invasive aquatic species, such as water hyacinth. Poor water quality also creates unsafe recreation. Recreation and tourism in the Delta generate \$750 million annually. <p>Alternatives to Water Exports Ignored</p> <p>Far far less expensive and less environmentally destructive alternatives to the Delta Tunnels were largely ignored. The plan does not seriously consider any alternatives other than new, upstream conveyance. The decision-making process (from the outset) has tilted in favor of increasing water exports from the Delta.</p> <p>Our tax and ratepayer dollars would be much better spent on:</p> <ul style="list-style-type: none"> · More aggressive water efficiency program statewide that would apply to both urban and agricultural users. |

| Lorri Kenny | Lodi, CA | 2015-10-27 | Leave our waterways alone! No pipes, no tunnels! |
| Donald Greer | Morgan Hill, CA | 2015-10-27 | I fish and I vote |
| Jessica Wilson | New York, NY | 2015-10-27 | Not only is this a very important local issue, but this is part of a larger environmental issue. We need to stop destroying the remaining natural ecosystems in this country and on this planet. California should be a leader on this issue, not a part of the problem. |
| Debra Medlock | fall river mills, CA | 2015-10-27 | This is a huge misuse of public funds in which a resource is taken from one group of people and given to another. |
| MANUEL CHAVEZ | Stockton, CA | 2015-10-27 | The loss of water would drastically change the delta farming industries around mg region and the thought of watching something as spectacular as the delta slowly disappear seems disatrouse. |
| Lisa Spencer | Redding, CA | 2015-10-27 | Leave the Delta alone there needs to be another solution. |
| Jeremy Brummitt | Los Angeles, CA | 2015-10-27 | The Bay Delta tunnels will ruin on of the last estuaries in California and the US, home to thousands of endangered and dying bird species |
| Robert tamayo | Stockton, CA | 2015-10-27 | I used to live on the delta and something like this would kill me inside |
| Nancy Shaffer | Vacaville, CA | 2015-10-27 | There is something incongruent when the SF Chronicle one day reports on the joy for restoration of wetlands in the North Bay and on another day reports on the mechanics of the harebrained scheme of constructing two tunnels that will destroy the ecological balance of the delta. |
| Orrin Dolan | Galt, CA | 2015-10-27 | The 60 Billion spent for this debacle will not create any additional water. Show me any river that has been improved by siphoning water out any sending it to interests who want to farm the desesert for personal profit! |
| Sean Chambers | Felton, CA | 2015-10-27 | I know this is a terrible idea based on all the research done from various sources. Whom all say the same thing this is a very bad idea. Except the people lining your pockets Mr. Brown. They think it is a great idea. Corrupt is what you are Gov. Brown. were before and still now. |
| Antony Wilson | Stockton, CA | 2015-10-27 | Antony Wilson |
| Catherine Schmiedt | Sacramento, CA | 2015-10-27 | I'm from the San Joaquin valley, I love our precious Delta and having worked with many scientists in the Delta on Aquatic Weed eradication, I know these tunnels would destroy this delicate and unique habitat. The water is already so low. I see river otter road kill because the water is too saline and they jump out to escape. I see yellow patches in farming fields because the salinity is too high and killing the land. These tunnels are the worst kind of solution, not well thought through and backed by wealthy people with swimming pools to fill down south! |
| Sherry Camero | Stockton, CA | 2015-10-27 | Opposition of the tunnels!! |
| grace doyle | stockton, CA | 2015-10-27 | I believe in the delta, in having natural water ways and having a sustainable environment. What is ours, our communities shouldn't be taken away and destroyed it should be embraced and cherished! |
| Wes McManus | Modesto, CA | 2015-10-27 | Wes McManus |
| Ron Sherry | Galt, CA | 2015-10-27 | Stop draining Northern California. |
| Paul Blauvelt | San Carlos, CA | 2015-10-27 | It's ridiculous |
| Monica Giannini | Rio Vista, CA | 2015-10-27 | The Delta is our way of life. Diverting water will drastically change the way we live. |

|---------------------|-------------------|------------|--|
| Bruce Campbell | Los Angeles, CA | 2015-10-28 | It was bad enough to propose tunnels to deprive the ecologically essential Delta of freshwater, but now to cut back on how much acreage would be restored is a real slap in the face all but wasteful chemical agribusiness in the western San Joaquin Valley. |
| Carol Beck | Seattle, WA | 2015-10-28 | I support the Delta as a special area plus a very productive farm area. Moving water to another part of the valley merely ruins a different farming and fishing area. |
| greg goddard | san francisco, CA | 2015-10-28 | I want to save the salmon |
| Osha Meserve | Sacramento, CA | 2015-10-28 | Too many reasons to list! |
| David Loeb | Berkeley, CA | 2015-10-28 | I don't want to waste billions of dollars on a project that will devastate the San Francisco Bay-Sacramento River Estuary without increasing the state's water supply. |
| Dave Doubledee | Oakdale, CA | 2015-10-28 | Pumping has already caused major damage to the Delta system over the years..... these tunnels will be the nail in the coffin! |
| Bob Neuman | Chevy Chase, MD | 2015-10-28 | I worked with Jerry Waldie to stop the diversion of the Delta in the 60's and 70's. Stop the tunnels. |
| Sandra Ashburn | Livermore, CA | 2015-10-28 | I believe in the importance of the Delta waters and fish and birds |
| Larrie Cain | Herald, CA | 2015-10-28 | larrie cain |
| David Waterbury | San Carlos, CA | 2015-10-28 | We really don't need this. |
| Paul Clauss | Sacramento, CA | 2015-10-28 | Once again, the elected officials are doing whatever they want because most of the people in this state are too busy playing with their phones !!! |
| Bob Longmore | San Jose, CA | 2015-10-28 | This will literally destroy the delta ecosystem. Its a total waste of taxpayer \$\$\$\$ |
| Gayle Browne | Oakley, CA | 2015-10-28 | I'm signing this petition because our Delta recedes more every year and I've watched it the salt water go further inland over the past 35 years |
| Joseph Kelleher | Mill Valley, CA | 2015-10-28 | the Delta should be protected and left alone. |
| Sheila Sheldon | Lodi, CA | 2015-10-28 | I live and work on the delta and the tunnels make no sense. |
| David Jackson | Stockton, CA | 2015-10-28 | Tunnels do not make water. This is just a multi-billion dollar boondoggle designed to fleece taxpayers out of billions. Build water desalination plants with that money and you will actually make water. Build those tunnels and you will destroy the Delta, wildlife, jobs, and the local economy. |
| Carol Thomas | Lodi, CA | 2015-10-28 | lim signing because I am opposed to the Delta Tunnels and the environmental impact that it will have on the Delta, its' wildlife, and the agricultural land surrounding the area. |
| Jim Billings | San Francisco, CA | 2015-10-28 | Just like all previous projects to ship one of our most precious resources to Southern California, this is a terrible idea. It's bad economics! It's bad environmentally. And it's bad for public health! I urge you to oppose this wrong-headed plan. Thank you! |
| Karen Smith | Elk Grove, CA | 2015-10-28 | This does not solve anything but creates more problems. Sit down, re-think....is this the kind of legacy the Brown admin wants to leave behind. |
| Steven Kost | Stockton, CA | 2015-10-28 | Storage and desal r the answer. |
| Kim Hanks | Sacramento, CA | 2015-10-28 | Instead of destroying the lovely delta estuary, build reservoirs in central and southern California. Then they won't need to drain northern California dry. |
| Jeffrey Kaszubinski | Discovery Bay, CA | 2015-10-28 | Tunnels built at a ridiculous cost, degrading NorCal's one of a kind estuary to bow to big agriculture down south without adding any new water to our supply is not reasonable. It is insane. |

|------------------|---------------------|------------|---|
| linda hunt | berkeley, CA | 2015-10-28 | There are better ways to spend our money on water preservation and distribution! |
| Robert Tiff | Redwood City, CA | 2015-10-28 | I have enjoyed the delta all my life, since a child. I want to preserve it for my children and theirs. |
| david rebollar | Antioch, CA | 2015-10-28 | I'm signing because this will completely destroy the sport fishing industry. I have fished the delta all my life and now my kids fish the delta as well. We would be devastated if this were to pass! |
| Lindberg James | Oakland, CA | 2015-10-28 | The water needs to stay where it native to. Make more reserviors where they are needed. |
| Mary McTaggart | Clarksburg, CA | 2015-10-28 | I grew up in the North Delta not 2 miles from the site of the northernmost proposed intake for the Tunnels and I have lived at that location again for the past 13 years. We Deltans knew from the beginning the BDCP was a water grab pretending to be a habitat plan. At least the CA Water Fix is more honest, but that doesn't mean it will work. Taking water "more reliably" (for whom?) from an estuary can never make it healthier, and jeopardizing long-time Delta farmers' water and lands to benefit areas where irrigation has a much shorter history just seems unreasonable. |
| Douglas Junghans | clayton, CA | 2015-10-28 | This is a crock and I believe a waste of money. Let's spend the money on new dams and reservoirs. Cutting down on the amount of almond growing may help too |
| Erin Mathias | Knightsen, CA | 2015-10-28 | The water grab needs to stop the delta is not a water source for SoCal |
| Chris Freeman | Fair Oaks, CA | 2015-10-28 | Destroying the delta to make a few richer is wrong! |
| Kevin Prosch | Placerville, CA | 2015-10-28 | I am signing because I do not agree with building the tunnels. I use the delta for fishing and recreation. I have been following the development of the proposal and think there are better alternatives to CA's water problems. |
| David Brown | Elk Grove, CA | 2015-10-28 | The governor's plan is absurdly expensive. The money could be better used to provide desalination plants for the local water needs instead of further ruining the delta. |

| Darlene Berendt | Stockton, CA | 2015-10-28 | We need to keep our water here. |
| Stephen Logan | Berkeley, CA | 2015-10-28 | That's an expensive, bad idea. |
| janet curtis | reno, NV | 2015-10-28 | we reached goal. will you stop this insane raping of all our lands? |
| Lisa Starratt | Walnut Creek, CA | 2015-10-28 | I grew up on the Delta and we cannot allow it to be ruined to keep giving our water to SoCal.... which by the way is not even rationing by allowing their lawns to die. |
| Ronald Harris | Modesto, CA | 2015-10-28 | 1. Destructive to the environment. 2. Stealing water from agriculture and fisheries. 3. Southern California should store and manage their own rainfall and stop relying on Northern California. |
| Pamela Zuppo | San Francisco, CA | 2015-10-28 | The Delta Tunnels not only are environmental irresponsible, the project is also fiscally irresponsible. Who does the corrupt Jerry Brown owe this time to sell out the state? Brown needs to go.... |
| Jessica Phillips | Discovery Bay, CA | 2015-10-28 | The Delta water ways are my home. |
| robert dix | shingle springs, CA | 2015-10-28 | We give enough of our resources away. Eventually the water gets there in the same place for free. |

| Andrew Gray | Fresno, CA | 2015-10-28 | I want to help preserve our natural waterways. |
| Ben Tsutaoka | San Mateo, CA | 2015-10-28 | The tunnels will decimate the Delta wildlife! |
| Teri Conrad | Pismo Beach, CA | 2015-10-28 | I don't want the tunnels and want to protect our environment and save the Delta. |
| Shannon Devine | San Francisco, CA | 2015-10-28 | It's not going to be rational water conservation. It's unsustainable, it's a big boondocks to make money. It will kill the delta and marshlands master plan. |
| Don Marsh | Sutter Creek, CA | 2015-10-28 | I'm signing because I don't believe damaging such a valuable resource as the delta to grow almond trees in a desert makes no sense. |
| Ron Walley | Pleasanton, CA | 2015-10-28 | I oppose these tunnels. |
| Gunnar Woodyard | Pacifica, CA | 2015-10-28 | I opposed the Peripheral Canal. I am aware, as a fisherman, how much the Delta and SFBay has already been changed by mismanagement. I have seen and heard too many examples of what (how many?) years have done to the fishing populations and habitat. And now you want to build a mechanism that'll put huge pressure on an already fragile ecosystem. Sorry, I oppose this crime completely. |
| Tony Carrasco | Kingsburg, CA | 2015-10-28 | Signing this for my grandchildrens CHILDREN !!! |
| Phillip Shipley | Sacramento, CA | 2015-10-28 | I'm signing because I believe the "California Water Fix" project is a threat to the health of the delta. I also disagree with supplying water to large ag customers for their benefit over the health of the delta. |
| Mary Peinado | Antioch, CA | 2015-10-28 | These 60 Billion dollar tunnels will destroy CA Delta economy, fisheries and lifestyle while raising water rates for So Cal municipal users to accommodate billionaire corporate Ag growing unsustainable crops that are largely exported! |
| Teresa normington | Stockton, CA | 2015-10-28 | southern California is wasting what little water we have! |
| John berard | Yuba City, CA | 2015-10-28 | Im signing this because it is the right thing to do, citizens need water to survive and this whole thing is a huge waste of money and drains more water from citizens, NO. |
| Kathryn Reed | Fremont, CA | 2015-10-28 | I love the recreation and habitat if the Delta and do not want it tapped out. CA should be more sustainable with its water. Keep it local where it belongs. We dont even have enough here. |
| Jake Champion | Manteca, CA | 2015-10-28 | I feel the tunnels would hurt out local economy as well as take water away from us. |
| Steve Santucci | Hayward, CA | 2015-10-28 | The tunnels will further increase the salinity in the Delta and will decrease the flushing needed for a healthy Delta |
| Roger Kelly | Stockton, CA | 2015-10-28 | I LIVE ON THE WATER IN STOCKTON THE DELTA IS BEATIFUL THE TUNNELS WILL DESTROY IT |
| Clayton Dahl | San Mateo, CA | 2015-10-28 | I don't want the delta changed. |
| Teresa Smanio | Courtland, CA | 2015-10-28 | This water grab would irreparably damage the Delta. It is more detrimental than helpful in addressing CA water issues. A project this costly that adversely impacts so many individuals should not go forward without allowing Californians to vote on it. |
| james parson | West Sacramento, CA | 2015-10-28 | we need our water up here in the north they need to build a desalination plant in the south to get there water from the ocean |
| Debra Chan | Courtland, CA | 2015-10-28 | This is where I live and work and do good for humankind |

| Name | Location | Date | Comment |
|----------------------|-------------------------|------------|---|
| Thomas Kiechle | Point Reyes Station, CA | 2015-10-28 | Bad buisness and ecologically destructive. Do the train instead, or set up desalinization systems, times are changing, weather is changing. The delta tunnels project is perhaps too expensive for the low yeld during draught years. Look back to the destruction of Tular Lake. That used to be a great asset to California. Now it's all gone. Please be careful with the ecological ramifications of the Delt Tunnel Project. |
| Martin Amaral | San Ramon, CA | 2015-10-28 | I love striper fishing in The Delta! |
| Michael Mutto | Alta, CA | 2015-10-28 | jerry Brown will otherwise sell us out |
| Gabrielle Dacruz | Stockton, CA | 2015-10-28 | I'm signing because I grew up on the delta, and I plan on my children, and my children's children doing the same. |
| Eva Ferreira | Stkn, CA | 2015-10-28 | the Delta is not for sale stop messing with our natural resources this Delta is a big part of the economic growth it provides jobs to longshoremen here in Stockton as well as others. This is a bad bad idea just say no use some common sense! |
| Sisto Buriel | Stockton, CA | 2015-10-28 | This is an unnecessary use of resources and money. Not to mention the impact it will have on the environment. |
| Danielle Cushman | Discovery Bay, CA | 2015-10-28 | I live on the Delta in Discovery Bay. I am concerned if the environmental impact it will cause as well as the repercussions it will have on home and property values that still have not recovered from the crash a few years ago. More families will have to walk away from homes and business if the Delta is harmed from The tunnels. So. Cal can build desalination plants and underground catch basins to capture water for Their use. With the amount If rain they have had this year it would have been a great idea. |
| Cary Anderson | Olivehurst, CA | 2015-10-28 | These tunnels are a bad idea. Period. Taking ever more water from the North of the State to feed developers and Corporate farmers in the southern central valley will only make the North Drier, and deprive the Delta of water it needs to stay a living eco-system, it will NOT relieve the thirst of the greedy developers and ag giants of the south. |
| Julian Lopez | lodi, CA | 2015-10-28 | We should not be diverting water from the delta, we don't even have any water !!!! |
| Ellen Walley | Tulare, CA | 2015-10-28 | This is going to destroy Northern and Central California. There has to come a time when the State Governer thinks about what's best for the people and the State, Southern California needs to setup tanks to do desalination of the saltwater to meet their needs, a much cheaper idea and leave things alone that work. |
| Michael Perone | Saratoga, CA | 2015-10-28 | Like wakeboarding |
| Mike McHugh | Trinity Center, CA | 2015-10-28 | Enough is enough. No more water should flow to the south of the Delta. And the Delta must be preserved. |
| Robert Beckwith | Discovery Bay, CA | 2015-10-28 | I believe it's an environmental catastrophe, it benefits few, it's too costly and it puts small delta farmers out of business. |
| Christopher Estrella | Tracy, CA | 2015-10-28 | I Love fishing the delta with my kids and friends. |
| Katherine Cullar | Oakley, CA | 2015-10-28 | It's not okay to destroy our river and the life in it to send water elsewhere. This a short-sighted plan that will cause an environmental nightmare. Not only that, those of us whose city water comes from the Delta will suffer. There simply isn't enoughenough. |

| Name | Location | Date | Comment |
|--------------------|---------------------|------------|--|
| Elzy Richmond | Empire, CA | 2015-10-28 | I'm signing because the delta is California's #1 water source for agriculture as well as a huge ecosystem for a variety of birds, reptiles, fish. The delta is a huge tourist attraction as well as one of California's best sport fishing locating. Being an agriculturist as well as an outdoorsman has taught me the importance of California waterways. We need to keep the Delta "The Delta" and not the "Twin Tunnels". |

| Lindsay Johnson | Brentwood, CA | 2015-10-28 | I want to protect the delta that I grew up living next to. |
| Brent Gilbert | Brentwood, CA | 2015-10-28 | I farmed 300 acres and still hold leased acreage in the Delta and rely on fresh water for livestock and crops. We were successful in defeating the Peripheral Canal. If the peripheral canals are built, the State will back away from assisting with funding for levee upgrades as they will claim that non project levees (unlike state and federal funded levees) are no longer critical to sustaining the quality of water exported to the South. Eventually the non project levee owner/Rec Districts will no longer afford to maintain their levees and the DWR will move, once again, to purchase cheap delta farm land for false "restoration". The delta will become an inland saline or at best brackish inland bay unfit for farming, fish or recreation. |
| Kimber Scott | Brentwood, CA | 2015-10-28 | this is a beautiful resource and I want to preserve it for my children |
| David Shephard | Rio Vista, CA | 2015-10-28 | The tunnels are a gross misuse of public funds for predominantly private benefit. And will result in both ecological damage and economic damage to the Delta region. |
| Rosemary Everett | Cupertino, CA | 2015-10-28 | Delta water needs to be shared equitably. |
| Barbra Paris | Oakley, Canada | 2015-10-28 | We didn't want it then we don't want it now. |
| catherine thornton | Stockton, CA | 2015-10-28 | I oppose the tunnels - bad for the valley |
| Susan Cate | Tracy, CA | 2015-10-28 | The Tunnels will desimate the Delta and the farm lands of northern California. |
| cameo maldonado | Stockton, CA | 2015-10-28 | I signing to save the environment, the farmers, and the cities that depend on that water already. Get your water some where else. |

| Richard Snyder | Discovery Bay, CA | 2015-10-28 | I believe that hurting the ecology of the Delta and its recreational, farming, and fish/animals to grow almonds in places where they weren't meant to grow is just plain wrong. |
| Craig Paterson | Fairfield, CA | 2015-10-28 | The tunnels will harm the Delta and supply corporations with water... but the land that will be irrigated with that water should have never been planted in the first place. |
| Debra Pastrana | Sacramento, CA | 2015-10-28 | I love the Delta! Please don't ruin it by digging it up and adding tunnels... we are already in a horrible drought and now you wanna send our water else where? Doesn't make any sense.. |
| Michael Greene | Sacramento, CA | 2015-10-28 | Southern CA (LA) needs to find other ways to meet its water demand. |
| Gabriel Donofrio | Fairfield, CA | 2015-10-28 | I am signing because I am worried that this project may be a "knee-jerk" reaction to the current drought conditions. I am also concerned about our water shortage, but I am more concerned of the permanent impact that these tunnels will have on our coastal wildlife, and the extra taxes that will be generated on the already overtaxed population of California. |

|----------------------|-------------------------------|------------|--|
| Mike Murphy | San Francisco, CA | 2015-10-28 | <p>Jack Nicholson already made this movie (Chinatown). That one didn't end so well.</p> <p>The Delta Tunnels proposal is an environmental train wreck. Save the sustainababble. The fix is in for this fix for Big Ag. Money would be better spent helping family farms--that is helping families who work the land, who care enough to maintain its life-giving properties.</p> |
| Barbara Mauz | Los Angeles, CA | 2015-10-28 | <p>Gov. Brown's proposed three 35' Diameter Northern CA Water Diverting Tunnels would be destructive of the Endangered Salmon along with other Endangered Fish and Birds and also be destructive of Bay Delta Farmers -- it is a BAD proposal that needs to get stopped.</p> <p>Sincerely, Barbara Mauz 2506 Corinth Ave. Los Angeles, CA 90064</p> |
| Jane Hyett | West Sacramento, CA | 2015-10-28 | We done want the tunnels!!! |
| Milanka Schneiderman | Antioch, CA | 2015-10-28 | This will destroy the Delta. |
| Evangelina Martinez | Oakland, CA | 2015-10-28 | I'm signing because it's the right thing to do |
| Julie Hernandez | Concord, CA | 2015-10-28 | <p>This is not a logical or environmentally course of action.</p> <p>Water needs to be u disturbed instead of further upsetting the ecosystem.</p> <p>This is an opportunity to be forward thinking and understand that we must stop disrupting the nature of things.</p> |
| Nick Beyer | Discovery Bay, CA | 2015-10-28 | I'm signing because if these are allowed to be built the east bay could have the same fate as Owens Valley. Which was destroyed by greedy water mismanagement. |
| John Frehse | Mineral, CA | 2015-10-28 | Taking more water from the north to give to the south will not help the Delta. |
| Linda Roach | Stockton, CA | 2015-10-28 | This cannot be allowed. We voted and said NO. Show the powers , people come first. Leave the Delta alone. |
| Michael Szkodzinski | Lodi, CA | 2015-10-28 | I am a fisherman and see first hand how this insane plan by Govenor Brown will not help but destroy an already fragile Eco-system. |
| Tashone Rice | Redding, CA | 2015-10-28 | I'm signing this because I disagree with sending already sparce water to a historically dry region which is sent for WATER INTENSIVE agriculture. |
| David R Turnbeaugh | Stockton, CA | 2015-10-28 | I am not for the tunnels. No! |
| nando aidos | Salvaterra de Magos, Portugal | 2015-10-28 | Because it is enough! It is obvious, from other mega projects, that just sucking up water wherever it flows is disastrous in the long run. I do not want to see another Colorado River running dry into Mexico. In this case, the Sacramento running dry into the Bay. |
| Dan Monte | San Anselmo, CA | 2015-10-28 | I'm signing because Meg Whitman promised to divert water from delta by an executive order during her election. I remember what happened in 2002 when such an order caused a fish kill in the 10s of thousands on the Klamath. |
| Scott Anderson | Escalon, CA | 2015-10-28 | The tunnels are a terrible idea. You can not water with salt water. |
| Jenny Ludwig | Danville, CA | 2015-10-28 | I'm a Discovery Bay home owner. |
| Sharon Kirkpatrick | Davis, CA | 2015-10-28 | It would be a better idea to have the people/communities/local governments learn how to USE LESS WATER. Climate change and rising sea levels will be a big enough challenge for the Delta to adapt to. Sandhills cranes have been using THAT island for millennia, they do not change their ways easily. The idea that you can have them use a new area is absurd, they are not genetically wired that way. Please work out an alternative or 5! |

|---------------------|----------------------|------------|--|
| Kim Revel | Brentwood, CA | 2015-10-28 | We have to save the integrity of the delta. Find another way! |
| Barbara Evans | Stockton, CA | 2015-10-28 | There are better solutions for water usage in Southern California |
| Deanna Armstrong | Concord, CA | 2015-10-28 | Im trying to save our delta |
| S Beatie | Corte Madera, CA | 2015-10-28 | Other methods must be addressed before we take a chance on ruining this valuable ecosystem in our delta. I'm surprised at Gov Brown as he has made many good decisions, this is a bad one. |
| Jonathan Frost | Brentwood, CA | 2015-10-28 | I like to fish, and am sick of the farmers and shit hole LA taking northern California water with zero regard for its effect. |
| kevin weatherington | West Sacramento, CA | 2015-10-28 | This plan is an insane waste of money and our natural resource, not to mention the devastating effect it will have on the delta |
| Susan Wilson | Sacramento, CA | 2015-10-28 | We're Delta sailors and see firsthand how the tunnels would devastate river life! |
| Wynelda Deaver | Lockeford, CA | 2015-10-28 | It's the right thing to do. |
| Helen Bednarczyk | New Smyrna Beach, FL | 2015-10-28 | This has to be one of the most insane ideas I've ever heard of! Save the estuaries, you bureaucratic morons! And stop trying to grow lush green lawns in your climate! |
| Nancy Dondero | Linden, CA | 2015-10-28 | Tunnels. are not creating new water |
| Kalloch Fox | Oakland, CA | 2015-10-28 | Diverting more water from an already damaged delta will be murderous to salmonids. |
| Michael Baty | Stockton, CA | 2015-10-28 | Our environment and water don't need to go south for any reason. |
| Andrew Wallace | Clarksburg, CA | 2015-10-28 | I oppose the tunnels. |
| Jamie Menasco | Martinez, CA | 2015-10-28 | Naturally functioning watersheds are superior to manmade infrastructure. Bring back a properly functioning Delta instead! |
| Tim Pressey | Lodi, CA | 2015-10-28 | The delta needs restorations not exploitations |
| Steven Felten | Lodi, CA | 2015-10-28 | This will destroy California's largest fisheries, salt intrusion will be a larger problem, ground water, lots of farm land will become unfarmable. Gov. Brown should be telling his meg farm friends at the south end of the valley to stop farming ground that has no water to begin with. You know what is next - LA. LA has destroyed more lakes, reservoirs , and rivers, so we are next if the tunnels are not stopped. This will destroy northern California as we know it. The only people that will benefit will be the mega farms at the south end of the valley and LA. We will pay for it with no benefit to you and northern California. I demand that you Gov. Brown stop wasting our tax money on this totally wrong tunnel nightmare and put your effort and our money into more storage that all of California can benefit from. STOP THE TUNNELS. |
| Kari McNickle | Stockton, CA | 2015-10-28 | I'm signing because I don't believe the BDCP is a true solution to our water issues. You can't transport water that doesn't exist. In addition, I have serious concerns about the environmental and political impact on the delta region. |
| Gayle Vaughan | Benicia, CA | 2015-10-28 | Theses tunnels would be an economic, environmental, and agricultural disaster for all of California. |
| craig bradshaw | martinez, CA | 2015-10-28 | the water tunnels are a taxpayer boondoggle that won't help make it rain in no. california |
| Chapin Fowler | Lockeford, CA | 2015-10-28 | Im sigi g this because i have a miklion farmer friends who will sell thier land if this gors through. |
| Dylan matthews | Stockton, CA | 2015-10-28 | I feel like it |
| Gary Wood | San Francisco, CA | 2015-10-28 | It's a bad idea to the health of our Delta waters. |

| Name | Location | Date | Comment |
|---------------------|--------------------|------------|---|
| Peter Wilson | Pleasant Hill, CA | 2015-10-28 | This is nothing more than a water rip off by the agencies that take water out of the Delta. |
| Bob Burt | Carmichael, CA | 2015-10-28 | I'm a Delta fisherman. Am against southwest valley agriculture |
| juan padilla | Stockton, CA | 2015-10-28 | Water should stay here |
| Robin Maida | Santa Barbara, CA | 2015-10-28 | We've had more than enough investment in California water projects from congressional members private funds. That is what got us into this mess now we must suffer the consequences of our choices. Investing in more water projects is unintuitive. |
| Rachel Linderson | Denver, CO | 2015-10-28 | We need to save our waterways, once depleted, there is no saving them. |
| Christine Cookson | Bethel Island, CA | 2015-10-28 | I want to save the Delta. I live in the Delta and it's magnificent, it would destroy the marine life and force salt water into the delta along with predators such as sharks |
| Jon Holzapfel | Sonoma, CA | 2015-10-28 | I've seen first hand agriculture in the Central Valley and all they care about is economic sustainability. They are feircely against environmentalist or any environmental policies that cut into there profit margins. Delta farmers started farming in the delta over 100 years ago and chose the area do to the adaqueute water supply. If too much water is diverted this will be detrimental to the delta, surrounding farmers, and wildlife at the cost of the big greedy ag and oil in the Central Valley. |
| Ben Silva | Lincoln, CA | 2015-10-28 | I grew up fishing here and I want my kids to have a passion for fishing here like I do |
| George Postlethwait | Placerville, CA | 2015-10-28 | It's just plain WRONG!!! |
| Lee mowery | Millbrae, CA | 2015-10-28 | I'm tired of bureaucratic destruction corruption and thieving and abuse of California |
| Nelson Kaiser | Chico, CA | 2015-10-28 | This was a bad idea the first time. |
| Brian Ferdani | Chico, CA | 2015-10-28 | Why not bulbils the tunnels into Oregon? That's where the water is! |
| Diana Wood | Sacramento, CA | 2015-10-28 | I am strongly opposed to the Delta tunnel project for multiple reasons. Why are we further destroying the Delta for the benefit of corporate ag in the Valley who already demonstrate their unwillingness to adapt to the carrying capacity of the land & water they already have?? |
| Oscar Calderon | Hayward, CA | 2015-10-28 | i love delta play . thank you |
| marilyn castilaw | Lincoln, CA | 2015-10-28 | There has been been so much environmental damage with our curren system, it only makes it worse. This is a bad idea because water is Here for a reason - and we need it. We are the food capital of the world. Stop messing with nature and bad medicine |
| Anthony Kozicky | Rancho Cordova, CA | 2015-10-28 | I oppose the tunnels. They are bad for California. |
| Brianna Mitchell | Roseville, CA | 2015-10-28 | I am strongly against the Delta tunnels. Our water needs to remain here for small, local farms. Our water is way too precious of a resource to ship off. |

| Name | Location | Date | Comment |
|-----------------|---------------------|------------|---|
| Mary Petrosky | San Mateo, CA | 2015-10-28 | I oppose the tunnel project for numerous reasons, including: it has no provisions to protect habitat for endangered salmon and smelt and more than 50 other imperiled species; the tunnels would destroy the food and habitat availability for migratory birds and terrestrial species that depend on the Delta ecosystem to survive; and the tunnels would divert water away from the sustainable, multi-generational farms of the Delta. Most importantly, every scientific panel, ranging from the Independent Delta Science Board to the National Academy of Sciences, has criticized the flawed "science" behind the twin tunnel plan. |
| Denise Hester | Martinez, CA | 2015-10-28 | Save the Delta(; divide the State of Califor is; S. Cal needs to stop taking our water and using it for their swimming pools and expanding their population. |
| Donald McClain | Clarksburg, CA | 2015-10-28 | I live in the Delta and don't wish to see it destroyed |
| Daniel Greeson | Pleasant Hill, CA | 2015-10-28 | Water needs to stay here in Northern California. |
| Justin Shockley | Carmichael, CA | 2015-10-28 | This will harm residents and farmers in the Sacramento region as well as hurt our environment |
| Alex Vega | Stockton, CA | 2015-10-28 | I'm signing because I care about my state and the delta. It's not right what Mr. Brown is trying to do to northern CA |
| Sarah Coflin | Clayton, CA | 2015-10-28 | This is insane |
| Stan Grant | Turlock, CA | 2015-10-28 | I am signing because I believe the Delta is a unique, beautiful, and productive environment that provides enormous natural, ecological, agricultural, aesthetic, and recreational value to our society, and that the construction and operation of the tunnels would irreparably harm the Delta ecosystem and substantially diminish its value to society. |
| Dylan Sjostrom | Simi Valley, CA | 2015-10-28 | Im signing because i believe in this cause to save the delta |
| April Padilla | Antioch, CA | 2015-10-28 | destroying the Delta is not the way to solve California's water problems. |
| anna ialeggio | oakland, CA | 2015-10-28 | I'm signing this petition because the tunnels project is self-serving, short-sighted, and completely unnecessary. |
| Erik Hillstrom | Lodi, CA | 2015-10-28 | This is not the best plan you can come up with. Stop being lazy and selfish. |
| Emily Hudson | West Sacramento, CA | 2015-10-28 | Because we need to keep the delta the way it is and not hurt one of our #1 economies which is agriculture and save the family farms. |
| John Ryan | San Jose, CA | 2015-10-28 | Southern California doesn't need to grow more |
| Gerald Hunt | San Jose, CA | 2015-10-28 | The Shasta Lake resources at not an adequate reservoir for the San Francisco Bay's needs for fresh water to hold back ocean salt water intrusions and to stabilize the geological infrastructure of the Bay. The money can be better spent on collecting and recycling grey water as well as collecting rain water run-off. |
| Carol Perkins | Durham, CA | 2015-10-28 | I live in the Sacramento River watershed and strongly oppose the California Water Fix, the Governor's latest plan to drain the vitality from the NorthState. Our homes, businesses, farms, and wildlands depend on healthy groundwater, creeks, and streams. In fact, ALL of California depends on the water that flows from the headwaters of California through the Sacramento River Valley. No Twin Tunnels! |
| Patricia Strait | Antioch, CA | 2015-10-28 | The Tunnels plan would be devastating to the ecology and economy of the San Francisco Bay-Delta region. |

| Name | Location | Date | Comment |
|-----------------------|----------------------|------------|---|
| Cody Luksic Luksic | Chico, CA | 2015-10-28 | I am a local from the Northstate and have seen how much it has dried up in the last 10 yrs, we grow so much rice and almonds and other food for the rest of the world, these tunnels would be the end of life as we know it to the northstate while we are already in a terrible state of decay and drought, these tunnels are the last thing we need! |
| Angela gabri | West Sacramento, CA | 2015-10-28 | this is a waste of so much money for all the wrong reasons. |
| Lisa meyer | Petaluma, CA | 2015-10-28 | We only have so much nature left. We need to change our minds to preserve at all costs |
| mary jo nightingale | grass valley, CA | 2015-10-28 | I don't want to see our Estuary die. |
| allen williamson | Livermore, CA | 2015-10-28 | I'm signing because this is a terrible idea for local environment and citizens that need this water. Let Los Angeles deal with their issues with their resources not ours |
| George March | Stockton, CA | 2015-10-28 | I oppose these tunnels because they will destroy our Delta estuary and the farmland that produces our food and helps to feed the world. |
| Richard Dal Porto Jr. | Stockton, CA | 2015-10-28 | I'm signing because I don't think we should destroy a beautiful estuary, like the Stockton Delta, so we can send water to Southern California. The idea is too expensive and won't solve California's problem as long as the drought conditions exist. Building more dams in Southern CA would be a better idea to store what limited rain falls during this or future droughts. |
| Robin Mesa | Stockton, CA | 2015-10-28 | We need water to grow America's food! |
| Ed Bingham | San Francisco, CA | 2015-10-28 | salmon |
| Mac McCullough | Modesto, CA | 2015-10-28 | I oppose SB-1894 & HR-2998 as they are short sighted!! |
| Jessica Grady-Benson | Claremont, CA | 2015-10-28 | I'm inspired by the work Ryan and Restore the Delta are taking on. Stopping water privatization and the destruction of water ecosystems is essential for a more just and ecologically stable future. |
| Mardy Beggs-Cassin | Lodi, CA | 2015-10-28 | Agriculture is vital to California but one part of California should not be saved at the expense of another's livelihood. Dams and water storage can be made and then water can be transported. So much water is wasted without the proper storage now. And shipping water south will only kill the delta and the farmers here. There must be a better way where we all can live in California together And not at the expense of one over the other. |
| Christopher Moreno | Pittsburg, CA | 2015-10-28 | The Delta is a cherished and highly utilized body of water by the surrounding citizens we don't need to disrupt the delta to feed another region. That region needs to be self sustaining just as we are hear. |
| mike waltz | chico, CA | 2015-10-28 | Leave the delta alone. Tell southern California almond growers to plant hemp. |
| Scott MacIntyre | Antioch, CA | 2015-10-28 | I love the delta & we can't destroy it for 1 person |
| Reginald Jean-Gilles | Sacramento, CA | 2015-10-28 | Not a good idea for the environment and the farmers with property going back several generations. |
| Patrick McEnerney | Galt, CA | 2015-10-28 | tunnels will destroy northern California agriculture and wildlife habitat |
| Marilyn Torres | Isleton, CA | 2015-10-28 | I'm singing this because common sense tells you this is a very bad project. |
| Michael Bennett | Lodi, CA | 2015-10-28 | The train to nowhere is just stupid. The twin tunnels are stupid and dangerous to our Delta and families and farms in Northern California. Why not spend the water districts money developing NEW water. I don't trust state government to only fill them part of the time. They are vampire pipes that will drain the delta anytime they want to. |
| Ryan Ward | Huntington Beach, CA | 2015-10-28 | I don't support increased State water to agriculture. |

| Name | Location | Date | Comment |
|-------------------------|---------------------|------------|--|
| Shannon Gibson | Highlands Ranch, CO | 2015-10-28 | Stop the delta |
| sheryon stone | Cave Junction, OR | 2015-10-28 | This is absolutely ridiculous. Jerry Brown must understand this is NOT A FIX |
| Paul Hughes | Clarksburg, CA | 2015-10-28 | The Delta is already starved for fresh water, and the Delta Tunnels will further degrade the Delta ecosystem. The Delta needs help, but tunnels are NOT the answer. |
| Christina Garcia Garcia | Tracy, CA | 2015-10-28 | Quite messing with our waterways!! Haven't we & the land suffered enough?! |
| cynthia natali | lodi, CA | 2015-10-28 | Let the Delta alone. Its here for a reason. |
| Joseph Pappalardo | Sacramento, CA | 2015-10-28 | it is the right thing to do |
| Sandy Miller-George | Paradise, CA | 2015-10-28 | I'm concerned about the impact that the mass removal of water from the delta would have on the local environment and the Pacific Flyway. Please don't waste our tax dollars ruining our state! |
| Demetrio Papadopulos | hayfork, CA | 2015-10-28 | Water at to stay were it belong how much do we have to give up. |
| TERRY Mulligan | Hood, CA | 2015-10-28 | I want to help save the delta- |
| Matthew Martinez | Stockton, CA | 2015-10-28 | I do not want to ruin the delta |
| Colin Schoell | Goleta, CA | 2015-10-28 | Water is already scarce and this won't help. |
| Terry Jenkins | Shingle Springs, CA | 2015-10-28 | I have fished the Delta over 60 years and have seen first had the devastation of sending more water south |
| Mike Bassi | Pinole, CA | 2015-10-28 | I am signing this petition as I am strongly opposed to the twin tunnels. The last decade has been proof enough that there is not enough water to export out of the delta as experienced with decimated fish populations and the delta turning into a swamp due to a lack of natural flows of water from existing pumping conditions. During the last decade we have also witnessed increased pumping and exporting of delta water that shows, the more water is exported the fish populations have decreased. There is a direct correlation. There is also scientific proof that no more than 30% of the water currently being taken from the Delta/Sacramento is all that should be taken under normal years of snow pack to allow for any kind of sustainability of our delta echo system. Why In the world would we want to build billion dollar tunnels knowing that there is not enough water in normal years to export. I am opposed to the twin tunnels. Other alternatives are available and our politicians are not paying attention to what the people are demanding. Thanks for listening Mike Bassi, Pinole, Ca. |
| David Kurko | Oakland, CA | 2015-10-28 | This is a bad idea for fish, wildlife, delta farmers, drinking water, boaters etc, etc, etc. |
| Victoria Thompson | Citrus Heights, CA | 2015-10-28 | To many politicians interfering with the natural order |
| Brandon Boyd | Marysville, CA | 2015-10-28 | I oppose the Delta Tunnels. |
| carl schmid Schmid | Davis, CA | 2015-10-28 | There are more cost effective, environmentally sound alternatives to this destructive plan. |
| Carol Berry | Clarksburg, CA | 2015-10-28 | This plan will not solve California's water deficit, and will destroy valuable and productive farm business in the Sacramento Delta. |
| Connie Arnold | Elk Grove, CA | 2015-10-28 | Friends of the River have studied the damage to the Delta that will come if this project of two twin tunnels moves forward, and I oppose this project on the damage it will cause to the Delta ecosystem and all Californians. |
| Sara Sweetser | Pleasant Hill, CA | 2015-10-28 | The tunnels will destroy the Delta and not add water to the system. I live in the Delta and it will take away my good drinking water. |
| Roger Berry | Sacramento, CA | 2015-10-28 | The water transfer scheme will destroy the Delta, it habitat and is communities. |
| Patricia Coulombe | Pleasanton, CA | 2015-10-28 | I'm sorry because I totally disagree with what the state is doing to the California Delta. |

| Name | Location | Date | Comment |
|---------------------|-----------------------|------------|---|
| Patricia Cole | Sacramento, CA | 2015-10-28 | I have attended hearing and studied the materials. I believe this is a very bad idea. As a native California, I am opposed to this harmful, destructive, greedy proposition. |
| Mark Anderson | Discovery Bay, CA | 2015-10-28 | The tunnels will not generate or store new water. It is only increasing the consumption of the limited water supply. Spend the money on water production solutions. Cut water usage in Southern California and invest in solutions to get SoCal water. |
| Anthony Busuttil | Rio Vista, CA | 2015-10-28 | It's a dumb stupid plan. Simply put |
| Michael Machado | Linden, CA | 2015-10-28 | The Governor is wrong and acting against existing law regarding common pool, water quality and surplus water |
| Sean McClerkin | Lodi, CA | 2015-10-28 | I'm signing to keep fresh water in Northern California and to prevent the significant and inevitable increase in salinity to the bay's and delta if the tunnels are built. To me, this is not about the smelt. It is not about an environmentalist agenda. It is about the entire fishery. It's is not about greedy farmers. It's about sustaining our fresh water supply to keep those farmers in business. |
| David P Doyle Doyle | Discovery Bay, CA | 2015-10-28 | I don't want the Delta destroyed and the water shipped south |
| Adrienne Carpenter | San Francisco, CA | 2015-10-28 | I visit the Delta multiple times a year and I would hate to see any changes take place in this beautiful landscape. Not to mention all the people who will be affected first hand by destroying their land. |
| David Paulsen | Walnut Grove, CA | 2015-10-28 | I do not want tunnels built without ALL proper environmental issues addressed and followed. If they cannot meet all requirements then the tunnels must not be forced upon us by a one sided administration without proper representation and the ability to vote on it. |
| Tony Arcado | Vacaville, CA | 2015-10-28 | This is a bad plan that will not address the new, chronic drought that California is undergoing. It will cost billions of dollars and not work. |
| John Hoffman | Discovery Bay, CA | 2015-10-28 | I'm signing because every authentic scientific study has proven that the diversion of delta waters will destroy the San Joaquin/Sacramento River deltas as well as the San Francisco Bay wetlands. Why does the Governor think he knows more than the NOAA and other scientific body's? |
| Lorna Olagaray | Thornton, CA | 2015-10-28 | The tunnels will provide no additional water, unlike other proven strategies; is an unconscionable waste of our money and resources, and along with unforeseen consequences, will definitely harm Agriculture and Wildlife and Human habitat in a way that may never be remedied. Furthermore, the manner in which the project is being shoved down our throats regardless of mass objections borders on criminal neglect of our elected officials' duty to work in the best interests of all citizens. |
| Peter Duncan | Discovery Bay, CA | 2015-10-28 | This project will cause massive environmental damage to the South Delta wildlife including migratory birds and native fish. The sludge from the digging the tunnels will be create greenhouse gasses and foul smells as the organic peat soil decomposes releasing greenhouse gasses like methane. |
| Scott Miller | Belvedere Tiburon, CA | 2015-10-28 | No new tunnels!!!!!!!!!!!! |
| Gayle Falt | Rio Vista, CA | 2015-10-28 | I Object to installing Tunnels to send water to Southern California because we don't have enough water here In Northern California. |
| Marianne Olguin | Hayward, CA | 2015-10-28 | Save the water fowl and preserve natural events. |
| John Gray | Concord, CA | 2015-10-28 | I apposed the tunnels because they will destroy the delta and our farmland. |
| Curtis Hayes | Livermore, CA | 2015-10-28 | I am a property owner in the Delta. I believe these tunnels will destroy the Delta. Big Ag needs to change their farming practices to use less water. |
| tim lamoreaux | Discovery Bay, CA | 2015-10-29 | we appose the tunnels. |

| Name | Location | Date | Comment |
|--------------------|-------------------|------------|---|
| James Cook | Elko, NV | 2015-10-29 | project will destroy the Delta as we know it. |
| Prof. Emanuel Gale | Sacramento, CA | 2015-10-29 | THE GOVERNOR'S PROPOSAL DOESN'T SOLVE THE WATER PROBLEM. BETTER SOLUTION IS DESALINATION OF THE !!!!!!! |
| Kenneth Fritz | Orangevale, CA | 2015-10-29 | The Delta matters and when the diversions are in and The Delta is ruined, we'll never be able to get it back. |
| Charles Green | Redding, CA | 2015-10-29 | We must stop brown |
| jody mazzarella | Bethel Island, CA | 2015-10-29 | I oppose the tunnels because it will destroy the entire ecosystem of the Delta as we know it. You need to do a complete study of the Delta not this rushed idea that is trying to be shoved down our throats. The science is wrong! |
| Richard Williams | Hayward, CA | 2015-10-29 | I oppose the plan to build the delta tunnels. This plan does not create nor does it store water. It only support special interest groups at tax payer expense. It is also alarmingly destructive to the delta Eco system. No tunnels! |
| Joseph Leonhard | Denver, CO | 2015-10-29 | Leave some water in the delta! Stop the environmental degradation! |
| Marcelino Azevedo | Woodland, CA | 2015-10-29 | Don't screw up the delta. |
| Daniel Gougherty | Elk Grove, CA | 2015-10-29 | We must preserve the Delta! |
| Barbara Cooper | Inglewood, CA | 2015-10-29 | I believe natural habitat should stay as natural as possible. |
| Dennis Park | Discovery Bay, CA | 2015-10-29 | I'm against the senseless waste in proceeding with the tunnels. |
| Shannon Negron | Antioch, CA | 2015-10-29 | I love the delta and want my kids to grow up on the delta. It is the best things for family's. We need camping, boating and fishing in our life's. |
| KURT SIEBERT | Lodi, CA | 2015-10-29 | Reduced water flows through the delta will destroy the ecosystem, the fisheries, and will allow salt water intrusion; contaminating the fertile delta farmland unproductive. It will destroy the farming industry in the delta. The cost overruns of the bay bridge illustrate how government intentionally underestimates costs. This project will be a waste of tax payer funds. The funds might be better spent on reservoirs. |
| Michael Lu | Anaheim, CA | 2015-10-29 | I love the Delta! |
| Dan Smith | Benicia, CA | 2015-10-29 | I think the diversion of fresh water through these tunnels could be catastrophic for the estuary. |
| Larry Nelson | Rio Vista, CA | 2015-10-29 | Let's find better ways of sharing precious California water than the "robbing Peter to pay Paul" fix which the "Delta Tunnels" represents |
| Ryan Hodgson | Discovery Bay, CA | 2015-10-29 | I'm signing because I oppose the Delta Tunnels. |
| James Gibbs | Isleton, CA | 2015-10-29 | I am deeply concerned about the health of the ecosystem of the delta. The tunnels will further impact the flow in the delta from Clarksburg to SF. The lack of flows due to the drought are already effecting the health of the delta --the tunnels would only exacerbate the problem. |
| Roger Trump | Discovery Bay, CA | 2015-10-29 | The tunnel proposal is being rushed through without full discussion of other option |

| Name | Location | Date | Comment |
|--------------------------|-------------------|------------|--|
| Alan Bargman M. D | Discovery Bay, CA | 2015-10-29 | BDCP is a fix, it will fix the bank accounts of the mega agribusiness almond growers and commercial real estate developers in Southern California who contribute to Gov. Brown and Senator Feinstein. Sucking so much water out of the Delta will destroy the water quality, kill protected endangered species, ruin the Delta's economy, and endanger the health of the millions of people who swim in and boat on the beautiful water of the Delta. You must not let soCal interests do to the California Delta what they did to the Owens River and its valley. The hundred pages of the revised EIR are only meant to obfuscate the truly destructive nature of the FIX. Why did you move the river sampling point from a Delta source at Three Mile Slough to outside the Delta at Emmaton. Why do you use the Latin name <i>Microcystis</i> rather than the common name toxic blue green algae. And why do you make it so hard to find data on the volumes of water taken by the two thirty five foot tunnels. |
| Andrew Paul Gutierrez | Kensington, CA | 2015-10-29 | There is only so much water, and to transport it south is the height of ecological stupidity. |
| Carol Raner | Chico, CA | 2015-10-29 | We need to protect our state's wildlife! |
| Sid Plummer | Stockton, CA | 2015-10-29 | I'm signing because there are better solutions. So save the Delta system for future generations. |
| Matt Earp | Discovery Bay, CA | 2015-10-29 | I live on the water and it's going to ruin all Fish and wildlife with disturbing their natural habitats that millions of fish and wildlife depend on for their conservation Please rethink this horrible idea and make the south steal water from their own area Depleting one area to ruin another makes no sense , almond growers are not more important than a Eco system that will die so we ca eat an almonds |
| William Buttrey | Monrovia, CA | 2015-10-29 | Destruction of habitat is horribly short-sighted. |
| Paul O'Neill | Modesto, CA | 2015-10-29 | This project would be a disaster for our estuaries and goes against the environmental progress we stand for as a state & as a party. |
| Cristal Bogard | Sacramento, CA | 2015-10-29 | I am a friend of the river, and feel we need holistic restoration, not further fragmentation |
| Nick Koenig | Lodi, CA | 2015-10-29 | I live near the delta and it will affect us all in a negative way! Stop the tunnels! Or we will get the EPA involved! |
| Christopher Plexico | Vallejo, CA | 2015-10-29 | This is a crazy plan to make a profit on water. Water that is needed to sustain the bay area s echo |
| Sondra Schnee | Discovery Bay, CA | 2015-10-29 | I want to stop the tunnels! |
| Pete Ruegg | Antioch, CA | 2015-10-29 | Those \$ need to be directed to much needed infrastructure improvements/repairs. |
| Tamara Halthon | Antioch, CA | 2015-10-29 | I am signing to protect future generations. So they will know the beauty of the estuary within the delta. So future students who study the Delta will become inspired to further their education in marine and scientific research they can help all mankind. Please for the sake of our youth do not ruin thier futures. |
| Jennifer Miltzer-Kopperl | Sacramento, CA | 2015-10-29 | Love the Delta--want to see it preserved. |
| Karen Clark | Walnut Creek, CA | 2015-10-29 | I'm signing because as a longtime resident of Northern CA and past supporter of Jerry Brown, I know there are alternatives to building the tunnels! We must consider the local residents and farmers, not cater to Big Ag. Our water table is sinking and the solution is not supporting the development of more almond orchards to ship their product overseas. We must have more conservation mainly by the large Ag growers - they should not be able to use unlimited amounts of our water! |

| Name | Location | Date | Comment |
|---------------------------|-------------------|------------|---|
| Verla Chaddick | Rio Vista, CA | 2015-10-29 | The tunnels are an attack on the eco system of the delta. |
| Art Un | Lafayette, CA | 2015-10-29 | It's a water steal. |
| Liz Roman | Walnut Grove, CA | 2015-10-29 | The tunnels will destroy our estuary! |
| Chris van Loben Sels | Oakland, CA | 2015-10-29 | The Delta is important. The tunnels are not needed, they are just the latest water grab. |
| Sandra Ferreira | Walnut Grove, CA | 2015-10-29 | The tunnels will totally destroy the Delta, and it work create any more water. The only solution is to find ways to create more water storage, As farmers in the Delta we will be doomed by this action. |
| Jerrie Giovannoni | Clements, CA | 2015-10-29 | It is a stupid idea |
| William Schmidt | Bethel Island, CA | 2015-10-29 | This is a very bad plan for the delta. I live on the Delta, NO TUNNELS |
| Terri Ray | Oakley, CA | 2015-10-29 | I dont want the tunnels |
| Rhonda Welch | Wheatland, CA | 2015-10-29 | I'm opposed to the tunnels |
| Cheryl Maslin | Alameda, CA | 2015-10-29 | It is more important to preserve wetlands BEFORE taking anything away from them. |
| James Dahlberg | Birds Landing, CA | 2015-10-29 | The tunnels are one of the worst ideas the Governor has tried to force down California's throat! ! |
| DEAN STARKEY | Kokomo, IN | 2015-10-29 | The Delta is beautiful keep it that way. |
| David Kelley | Sonora, CA | 2015-10-29 | I signing this because you don't fool with Mother Nature period |
| Alyxa Ray | Oakley, CA | 2015-10-29 | Me and my family use the delta year round. We like to boat, swim, hunt, and fish. |
| Mary Centoni | Brentwood, CA | 2015-10-29 | the tunnels are a TERRIBLE idea |
| Francisco Ferreyra | Oxnard, CA | 2015-10-29 | These tunnels will hurt biodiversity and are a bad idea for California! |
| Karolyn and Galen EASTHAM | Discovery Bay, CA | 2015-10-29 | Tunnels are not the answer...to transport water we do not have to water hungry crops & Southern California golf courses! Preserve our Delta...there IS only one & it's precious! |
| David Lanier | Brentwood, CA | 2015-10-29 | I am an avid Delta boater and I see the current ecological crisis happening. The twin tunnels will further destroy what should be left alone. |
| Andrea Ledesma | Elk Grove, CA | 2015-10-29 | Save the Delta! |
| Marvin Barnes | Oakley, CA | 2015-10-29 | We do not need to damage the Delta for water, it is not the answer, What we do need is increased storage, Build more dams, Yes it is that simple! |
| Russell Grindle | Fairfield, CA | 2015-10-29 | I'm signing this petition because these proposed tunnels will do nothing to provide more water to California but will contribute to the destruction of the Bay and Delta through increased saltwater intrusion. This project is a boondoggle. |
| Kent Snyder | Pacifica, CA | 2015-10-29 | I was against the peripheral canal that not only robbed fresh water from cleaning out the bay, but also sucked up fish fry in the pumps destroying some and flush other fish fingerlings South. |
| Krisie Babcock | Long Beach, CA | 2015-10-29 | I am signing this because the Delta and its little towns help me to balance living in an urban area. They are special and unique. They are valuable and important. Please do not destroy them. There has to be a better way. |
| Kkim Walker | Carmichael, CA | 2015-10-29 | I believe the tunnels to be a dangerous plan - dangerous to the Delta ecosystem. |
| Nancy Watrous | Discovery Bay, CA | 2015-10-29 | I'm against the tunnels. This will only benefit our government. |

| Name | Location | Date | Comment |
|------------------------|-------------------|------------|---|
| Diane Lee Lewis-Darrah | Weaverville, CA | 2015-10-29 | This is just another water grab. Hello people the lakes are already dry. Have you looked at the price of salmon lately. And you wonder why people want to split the state. Govner brown needs to remove his head from the place the sun never shines. He sucks worse then the first time he was govner! |
| janessa white | Galt, CA | 2015-10-29 | Because this tunnel project is an absolute false. It will do terrible damage to the area it's supposed to be built in. From toxic waste shipped to dump on near by towns to decimation of small local family farms. For what? The corporate farms in the southern deserts of CA? Gross greed! |
| Cindy Van Hook | Byron, CA | 2015-10-29 | I don't want to tunnels built. |
| kelly sueksdorf | Danville, CA | 2015-10-29 | I do not want to send more water to So. Ca. It is not sustainable and it threatens the bay delta Eco system. The tunnels are the wrong solution. |
| Dwight Merrill | Albany, CA | 2015-10-29 | As our petition states, there is are better ways such as recycling coupled with a brine line to the ocean to prevent salting up of the central valley |
| Marijanne Nichols | Lodi, CA | 2015-10-29 | i don't want our water to go the S CA area where folks think nothing of wasting water |
| Kamaryn James | Brentwood, CA | 2015-10-29 | Farmers should grow where water already naturally exists! We need this water too, and we moved where the water is/should be. Plain & simple. |
| Sherry Stanley | Walnut Grove, CA | 2015-10-29 | It's an ill advised plan that will devastate the Delta's fragile ecosystem and hurt the families, farmers, and businesses in the region. It would be a tragedy to ruin the beautiful California Delta! |
| Brian Cico | Modesto, CA | 2015-10-29 | I oppose the tunnels |
| Judith Kirk | Redwood City, CA | 2015-10-29 | We got to vote down the Peripheral Canal; we don't get to vote on the tunnels, and they are even worse. |
| robert Terris | Suisun City, CA | 2015-10-29 | Because depleting the Delta water and rerouting to water will not only harm the Delta and the Greater San Francisco Bay Area. Probably will just increase harm to the entire CA. Ecology. |
| Jason Arther | Antioch, CA | 2015-10-29 | This is not a good move. It will ruin way to much. |
| Victoria Gilmour | San Pablo, CA | 2015-10-29 | The tunnels will destroy the delta, it's enviroment and send salt water all the way up to Sacramento. Why does Gov Brown want to destroy the wonderful river system in No. Cal by sending our water to So Cal??? |
| Joseph Vargas | San Francisco, CA | 2015-10-29 | Because I'm against big agro business always trying to exploit our national resources and hurting us and the environment in the process ! |
| Pat Meyer | Brentwood, CA | 2015-10-29 | This is not the way to solve California's water issues. |
| Deborah Trevino | Brentwood, CA | 2015-10-29 | I live on the delta and want to preserve what I grew up knowing! |
| Suzanne G. Steinwert | Folsom, CA | 2015-10-29 | This is a bad plan,. It taking out water and going south with the water rites. Poor planning. |
| Kenneth McKee | Santa Cruz, CA | 2015-10-29 | this is a fundamentally bad idea and a terrible waste of taxpayer dollars |
| Brenda Armitage | Dixon, CA | 2015-10-29 | To protect and preserve the Delta! |
| Chris Braun | San Francisco, CA | 2015-10-29 | I oppose this |
| Susan Silva | Discovery Bay, CA | 2015-10-29 | I oppose the delta tunnels |

| Name | Location | Date | Comment |
|---------------------|-------------------|------------|---|
| Barbara Shelby | New Haven, IN | 2015-10-29 | I am signing because draining the water is a bad idea. It's a short-sighted quick fix that will destroy the ecosystem of that area. California needs to look to within its borders to rearrange its info structures to allow the rain to drain into the ground instead of running off into concrete drains. If these issues would have been met head on back in the 70's when people first complained about the poor drainage systems, too much land was paved over, perhaps California would not be in this fix. But you cant destroy all the surrounding ecosystems as a last ditch effort. |
| Cameron Taylor | El Cajon, CA | 2015-10-29 | It's environmentally irresponsible to build these tunnels. |
| carlos agurto | Antioch, CA | 2015-10-29 | The delta is home , its peace, its were we live. |
| Janis Asrat | Mountain view, CA | 2015-10-29 | I want to protect our estuaries and our water. |
| Denise Kearney | Isleton, CA | 2015-10-29 | Tunnels will kill the Delta! |
| Tom Kent | Discovery Bay, CA | 2015-10-29 | I live on the water and want to preserve the Delta for future generations. This destructive action will even harm the San Francisco bay as it will no longer flush it out properly. The cost alone will bankrupt the state. If the dollars should be spent at all, it should be on desalination in the LA area . |
| marcos cortes | Concord, CA | 2015-10-29 | I feel the need that we still need are local wild life and are one water ecosystem |
| Craig Hubbard | Stockton, CA | 2015-10-29 | The Delta is important to all of the state and the tunnels will ruin it. |
| John Santin | Elk Grove, CA | 2015-10-29 | I live near the north delta and my passion is spending time on the islands and water of the delta. Our wildlife, recreation economy will take a serious hit if the tunnels are built. There are much more economical and less environmentally impacting options. |
| Matt Theis | Turlock, CA | 2015-10-29 | We need more storage and not stealing water from one region and giving it to another. |
| Stephen Navarro | Lincoln, CA | 2015-10-29 | I oppose the Delta Tunnels! |
| Douglas McColm | Davis, CA | 2015-10-29 | I'm opposed to the tunnels! |
| Kari Quintana | Campbell, CA | 2015-10-29 | I believe the tunnels are not worth the damage! |
| Sandra McWilliams | Rio Vista, CA | 2015-10-29 | Save the delta please |
| Rosalinda Martinez | Woodland, CA | 2015-10-29 | It won't improve the delta on which we all depend. |
| Bonnie Juelson | Sonora, CA | 2015-10-29 | Keep the Delta alive!! Stop the Tunnels!!!! |
| Ruben Machado | Watsonville, CA | 2015-10-29 | Humans have already done enough damage to this earth! Build your salt water purifying machines or wait for rain !! Leave the deltas and estuaries to what they are now and not harm it worse ! |
| Jake Hammeken | Lodi, CA | 2015-10-29 | This is my mother fucking delta and where is everyone else when we need help! |
| Judith Lamare | SACRAMENTO, CA | 2015-10-29 | To protect wildlife and encourage more innovative, small scale solutions to water distribution and conservation |
| Lissa Coleman | Redwood City, CA | 2015-10-29 | The same reason to reject the Peripheral Canal project is yet more urgent now with the drought and empty aquifers. |
| Monique Gibbs | Discovery Bay, CA | 2015-10-29 | Monique Gibbs |
| Anna Davis | Benicia, CA | 2015-10-29 | The delta needs its water! |
| Renee Poirier-Pound | Concord, CA | 2015-10-29 | These tunnels will destroy the Delta and for what? So southern California can keep their lawns green? I'm sure the cost will be astronomical and it does nothing to bring new water sources into CA! How about a tunnel from CANADA, they have TONS of water! |

| Name | Location | Date | Comment |
|-------------------|--------------------|------------|--|
| James Kaschmitter | Pleasanton, CA | 2015-10-29 | I oppose the destruction of California's unique Delta system by Jerry Brown in order to enable run-away population growth in a drought stricken state. |
| Julia Hartford | Oakley, CA | 2015-10-29 | I'm signing because the tunnels will ruin the delta! |
| sara hiromoto | Novato, CA | 2015-10-29 | Everyone of us will be effected in some way by the tunnel proposal. |
| John Delgado | San Martin, CA | 2015-10-29 | As a concerned Californian, Water and the environment is an important factor why I live here. The changes in our natural water sources and increasing the farming in arid land that should not be farmed is changing the balance in our water and our environment. I support looking at solutions that will solve problems and not add problems. |
| SUSAN STEFUN | RANCHO CORDOVA, CA | 2015-10-29 | I think the tunnels would be a giant boondoggle that will destroy the Delta, besides costing an obscenely large amount. Deciding on mitigation after the damage is done because nobody knows what to do now, and don't want to admit to the likely costs, could mean the Delta would never recover. |
| John Delgado | San Martin, CA | 2015-10-29 | The continuing siphoning of Northern waters for the Central Valley and Southern California does not solve the water problem for all Californians. More creative approaches and factors that affect our environment must be considered and undertaken to solve the water shortage on the long term. |
| Aletha Damacion | Rancho Cordova, CA | 2015-10-29 | Northern California can not afford this damage to our Delta and habitats. |
| Dorothy Sreel | Fairfield, CA | 2015-10-29 | I am concerned about the amount of water and its quality if the tunnels move our Bay water to the South. They have had many inches of rain last month while Northern California did not. Where is all their rainwater? Make their rainwater serve the Southern CA need for water. Do not remove ours through the tunnels. |
| BRUCE MCKARLEY | Orangevale, CA | 2015-10-29 | The government is by the people & for the people. We government tries to destroy our homeland like a bully we must take peaceful action protest. |

|---------------|-------------|------------|---|
| Brandon Combs | Antioch, CA | 2015-10-29 | <p>I am writing to express my strong opposition to the the Delta Tunnels plan.</p> <p>The Delta Reform Act of 2009, in which the California State Legislature committed to the "coequal goals" of providing a more reliable water supply for California AND protecting and restoring the cultural, recreational, natural resource, and agricultural values of the Delta, cannot be upheld if the Delta Tunnels come to pass.</p> <p>The California Water Fix does not meet the restoration goals of the Delta Reform Act; it is simply a plan to export more water out of the San Francisco Bay-Delta estuary. The Delta Tunnels will also fail to provide more reliable water because the Delta watershed is already oversubscribed by five times in normal water years.</p> <p>My objections to the tunnels are threefold:</p> <p>The California Water Fix does not address the environmental, public health or economic impacts of the proposed Delta tunnels project. Also, the plan ignores alternatives that would save California tax and ratepayers billions of dollars, while investing in the jobs and local water sources that build sustainability.</p> <p>My environmental concerns with the plan are:</p> <ul style="list-style-type: none"> · The impact on wildlife and plant species in the Delta that depend on freshwater include the Delta smelt, chinook salmon, steelhead, San Joaquin kit fox, and tricolored blackbird, protected species already on the brink that will face decimation due to a diminishing food-web. · At sea, even the ESA-listed South Pacific Puget Sound Orca Whales depend on migrating Delta species that will be harmed by less water flowing through the Delta. · The tunnels plan seems to ignore Section 7 of the Endangered Species Act which prohibits federal agency actions that are likely to jeopardize the continued existence of any endangered species or that "result in the destruction or adverse modification of [critical] habitat of [listed] species." <p>My public health concerns with the plan are:</p> <ul style="list-style-type: none"> · The tunnels will cause increased contamination of municipal water and wells for the millions of rural and urban residents living in the five Delta counties. · The tunnels plan fails to model for potential increases of carcinogens and other formation of byproducts that would cause cancer and other serious health effects. · Environmental justice communities, who depend on subsistence fishing, will also face food and health insecurities as a result of increased contaminants, specifically mercury contamination, in fish and wildlife populations. <p>My economic concerns with the plan are:</p> <ul style="list-style-type: none"> · For large metropolitan cities such as Los Angeles and San Jose that depend on export water, water rates and/or property taxes will go up, but they will get no additional water. · No analysis has been done on how the lack of fresh water flows will impact San Francisco Bay tourism and recreation. These industries depend on Delta fresh water flows for their crab and salmon fisheries, wildlife sighting, boating, and their restaurant economy. This industry is worth billions annually. · Salinity intrusion is already impacting the western Delta farms and removing Sacramento River freshwater from the system will make matters worse. Delta farmers cannot irrigate crops with salt water and they certainly cannot plant crops in contaminated soils. The Delta Ag economy, which consists of generations of family farms and farm workers, generates \$5.2 billion for the California economy, annually. · California coastal fishing communities depend on thriving wildlife. This historic industry is worth billions annually, with the salmon industry worth \$1.5 billion annually alone. Thousands of jobs and livelihoods are tied to these industries. · The operation and construction of the tunnels will obstruct and disable navigable waterways for boating, marinas and other types of leisure activities, in addition to creating conditions of low water flow that will foster invasive aquatic species, such as water hyacinth. Poor water quality also creates unsafe recreation. Recreation and tourism in the Delta generate \$750 million annually. <p>Alternatives to Water Exports Ignored</p> <p>Far far less expensive and less environmentally destructive alternatives to the Delta Tunnels were largely ignored. The plan does not seriously consider any alternatives other than new, upstream conveyance. The decision-making process (from the outset) has tilted in favor of increasing water exports from the Delta.</p> <p>Our tax and ratepayer dollars would be much better spent on:</p> <ul style="list-style-type: none"> · More aggressive water efficiency program statewide that would apply to both urban and agricultural users. · Funding water recycling and groundwater recharging projects statewide that would be billions of dollars less expensive for rate payers than constructing a new version of the Peripheral Canal or major new surface storage dams. Meanwhile, these projects move communities towards water sustainability. · Retiring thousands of acres of impaired and pollution generating farmlands in the southern San Joaquin Valley and using those lands for more sustainable and profitable uses, such as solar energy generation. · Improving Delta levees in order to address potential earthquake, flooding, and future sea level rise concerns at a cost between \$2 to \$4 billion and is orders of-magnitude less expensive than major conveyance projects that are currently being contemplated. · Increasing freshwater flows through the Delta to reduce pollutants so ecosystems and wildlife can be restored. · Installing fish screens at the south Delta pumps to reduce the current salvage of marine life. <p>In Summary</p> <p>The Delta has problems that need to be addressed, but the CA Water Fix tunnels are a 20th century idea that won't fix them. It won't produce more water, more reliable supplies, or improved conditions for the environment in the Delta.</p> <p>The new EIR/EIS has not adequately addressed my above stated concerns. That is why I oppose the Delta Tunnels/California Water Fix (Alternative 4A).</p> <p>Reclamation and DWR should prepare and circulate a new Draft EIR/EIS that will include alternatives that reduce water exports and increase Delta flows for consideration by the public and decision-makers. Such alternatives have a far better chance of complying with the Delta Reform Act and the federal Endangered Species and Clean Water Acts.</p> |

|-------------------|--------------------|------------|--|
| Manson Wong | Fremont, CA | 2015-10-29 | I don't think it is a good idea to create tunnels to ship water over long distance without understanding the consequence of environmental impact. This huge project is also very expensive and will have significant impact to the state budget. I believe that we need to get the consensus of California voters with the detail of the environmental, economical, and public health impact fully revealed. |
| Gina Schmidt | Monterey, CA | 2015-10-29 | Tunneling the Delta and diverting water is not a sustainable choice. The Delta is a thriving ecosystem which can't take the burden of maintaining itself with less water. The habitat and animals will suffer. This is not the answer to the problem, and will cause more harm to an already strained and fragile Delta. |
| Stacie Sherman | Orangevale, CA | 2015-10-29 | Humans are not the only creatures that need water. |
| Rosalie Mead | Citrus Heights, CA | 2015-10-29 | It's important to preserve our environment. It sustains life. May I suggest desalination? SF is foggy. Look into water harvesting technology. |
| John Maniz | Oakley, CA | 2015-10-29 | I care about the Delta and want it preserved! |
| Julie Edul | Sacramento, CA | 2015-10-29 | We can come up with a more cost effective, less pervasive intrusion into our Delta eco system! |
| Molly Mulligan | Irvine, CA | 2015-10-29 | I grew up there and want to preserve its natural beauty |
| Sandra Eldridge | Palm Desert, CA | 2015-10-29 | I believe the Delta must be saved. This isn't going to happen with this type of legislation! |
| Walter Rosa | Citrus Heights, CA | 2015-10-29 | Love of the delta |
| William Alldredge | Stockton, CA | 2015-10-29 | I'm in favor for the delta region to survive. |
| Eric Smith | Linden, CA | 2015-10-29 | This will have vast negative effects on the delta and our area. |
| Kathleen Stevans | Pittsburgh, PA | 2015-10-29 | I'm signing because we need to stop screwing with nature!! |
| Valerie Whitworth | Winters, CA | 2015-10-29 | I am signing because I do not see any use in moving water to the south where there are no reservoirs and they let the rain water run into the sea instead of catching it. Southern California groups say that they can recycle water appropriately if there is a will. With northern waters freely given there is no will. Lets toughen up the south and show them they can do it. |

| Robert Mariano | Livermore, CA | 2015-10-29 | <p>The California Water Fix does not address the environmental, public health or economic impacts of the proposed Delta tunnels project. Also, the plan ignores alternatives that would save California tax and ratepayers billions of dollars, while investing in the jobs and local water sources that build sustainability.</p> <p>The impact on wildlife and plant species in the Delta that depend on freshwater include the Delta smelt, chinook salmon, steelhead, San Joaquin kit fox, and tricolored blackbird, protected species already on the brink that will face decimation due to a diminishing food-web. The tunnels plan fails to model for potential increases of carcinogens and other formation of byproducts that would cause cancer and other serious health effects. No analysis has been done on how the lack of fresh water flows will impact San Francisco Bay tourism and recreation. These industries depend on Delta fresh water flows for their crab and salmon fisheries, wildlife sighting, boating, and their restaurant economy. This industry is worth billions annually. The operation and construction of the tunnels will obstruct and disable navigable waterways for boating, marinas and other types of leisure activities, in addition to creating conditions of low water flow that will foster invasive aquatic species, such as water hyacinth. Poor water quality also creates unsafe recreation. Recreation and tourism in the Delta generate \$750 million annually.</p> <p>Far far less expensive and less environmentally destructive alternatives to the Delta Tunnels were largely ignored. The plan does not seriously consider any alternatives other than new, upstream conveyance. The decision-making process (from the outset) has tilted in favor of increasing water exports from the Delta.</p> |
| Christine Rich | Sacramento, CA | 2015-10-29 | I support the preservation of the rich farmland surrounding the Delta and the preservation of the Delta as a watershed. The many estuaries are an invaluable resource to the beauty and preservation of the state of California. We need to focus in conservation for the next 100 years and allowing the tunnels to be built so folks can grow crops in the desert or sell the water for profit is a poor excuse for this project. If the Farmers in Kern county want a dam, then they should build a dam, in Kern county. |
| Richard Carr | Stockton, CA | 2015-10-29 | I believe the tunnel project will be environmentally and economically damaging to the Delta region as well as being significantly more costly than projected. Restore the Delta don't destroy it. And look at alternative ways to address state water issues. |
| Heather Martinez | Antioch, CA | 2015-10-29 | I love my home! |
| Elizabeth Trumbull | Antioch, CA | 2015-10-29 | We need to save our waterways because we need our fresh water. The governor is doing a lot of changes behind our backs. |
| LOIS THOMPSON HICKS | San Martin, CA | 2015-10-29 | I SEE THE AQUA DUCT FULL EVERY TIME WE DRIVE BY...BUT AT THE SAME TIME ..I SEE FIELDS OF FARMERS BARE AND DRY OR NO CROPS AT ALL..FARM LAND SOLD TO DEVELOPERS...WHO IS GOING TO GROW OUR FOOD IN THE FUTURE FOR OUR KIDS AND GRANDS IF WE LET THE GOVERNMENT KEEP TAKING OUR WATER... |
| Jessica Weber | Watsonville, CA | 2015-10-29 | It is a waist of money and going to ruin the delta. |
| steve tragoutsis | San Mateo, CA | 2015-10-29 | Our habitat is very important to me |
| Stacey Viola | Vacaville, CA | 2015-10-29 | To many reason . I'm a boat. You can't send all are water south. They waste more water. There a desert with lawns |
| Reva Flexer | Benicia, CA | 2015-10-29 | This is a disaster for the Delta ecosystem. We cannot play God and expect it to be an innocuous change. |

| Name | Location | Date | Comment |
|------------------|-------------------|------------|--|
| Ethan Derby | San Jose, CA | 2015-10-29 | I grew up on the Delta. This plan to provide tunnels will only hurt the the Delta. The only way nature survives is by running it's own course. Everytime man steps in we ruin in despite good/bad intentions. |
| Sally Tankersley | Lodi, CA | 2015-10-29 | I'm signing because I believe these tunnels will distroy our delta. Salt water will intrude and ruin farming in this area. |
| Despina Schrader | Yuba City, CA | 2015-10-29 | Something should just be left a lone. |
| Doug Jones | Livermore, CA | 2015-10-29 | The tunnels will ruin the delta. The State will not protect the delta once the tunnel are built |
| Mary Watkins | Discovery Bay, CA | 2015-10-29 | Live in Discovery Bay on the Delta. |
| Ava Simpson | Stockton, CA | 2015-10-29 | As a kayaker I have become more aware of the importance of our precious Delta water. |
| Susan Noble | Sparks, NV | 2015-10-29 | I am so sick of Souther Cal sucking water from everybody. The should not allow growth that can not be supported by local water. Leave the SF Bay-Delta alone!!! |
| Thomas Leeper | Discovery Bay, CA | 2015-10-29 | This is a very bad idea that will destroy the delta and bay. |
| Rebecca Cothran | Rescue, CA | 2015-10-29 | The tunnels are bad for all Californians. It will kill the delta and make the land useless. So Cal Can make a new agreement with Arizona and get water from them like the did befor. |
| Lisa Shaw | Escalon, CA | 2015-10-29 | I am signing this petition because I strongly oppose the twin tunnels. The fragile Delta cannot afford to have so much water funneled off to go down south. Salt levels are already an issue in the Delta waterways. Siphoning off more water will surely have devastating affects on the Delta, farmers, and communities. I vote NO to the tunnels!!! |
| Laura Hamilton | Saratoga, CA | 2015-10-29 | As an ecologist, I see far too many problems with this project. We can find a better alternative. |
| William Odum | Oakley, CA | 2015-10-29 | We need our water to sustain the delta. |
| Pete Vaughan | Benicia, CA | 2015-10-29 | The tunnels are a threat to Northern California agriculture and fishing |
| Gissel Castano | Goleta, CA | 2015-10-29 | I care about the planet. We NEED a sustainable environment and this certainly points us the opposite direction. |
| tony fino | Bell Gardens, CA | 2015-10-29 | I Love earth |
| Lee Ann Glatt | Modesto, CA | 2015-10-29 | This is a very bad idea |
| Minnie Fry | Napa, CA | 2015-10-29 | I live there and it is not right! |
| Daniel Moore | Stockton, CA | 2015-10-29 | The tunnel project is an extraordinarily large and expensive project which solves no problem and creates many. The project is also destructive and discriminatory to Northern California. Why is that ok? |
| Mike Higgins | Lodi, CA | 2015-10-29 | Im signing this petition because of the potential environmental and economic impacts to Northern California |
| David Wilson | Sacramento, CA | 2015-10-29 | I don't want the Delta to be destroyed! |
| Grant Fraser | Auburn, CA | 2015-10-29 | I agree that the tunnels should NOT be built. |
| Barbara DuMont | Oakley, CA | 2015-10-29 | I am against this because of the damage that will happen to the Delta. By the way I am totally disgusted with the attempt to go around the decision of the people. We already said NO to the cancel. |
| Norma Peterson | Stockton, CA | 2015-10-29 | This is insane. It will destroy the resources for life for not only California, but have other far reaching consequences. Must be stopped. Remember what happened with Owens Valley Water! |

| Name | Location | Date | Comment |
|------------------|-----------------------------|------------|--|
| David Delano | Bethel Island, CA | 2015-10-29 | The Tunnels is just a water grab by West Side Farmers and Metropolitan Water District |
| Jan Saale | Discovery Bay, CA | 2015-10-29 | tunnels will cause salt water incursion by reducing fresh water flush |
| Ryan Dunne | Santa Cruz, CA | 2015-10-29 | Stop destroying the environment and diverting water to southern California. This project does not or provide the claimed environmental benefit. The delta is already impacted enough without diverting freshwater. This project is a waste of money. Southern California should learn to conserve water like the rest of California before the entire state pays to divert more water. No tunnels. |
| John Lasiter Jr | Stockton, CA | 2015-10-29 | I oppose the transport of our Sacramento River water to La. The money could be better spent expanding their water storage. On a recent trip, no one there seems to be conserving water, they don't even seem to know we are in a fourth year drought. Why destroy a healthy eco system in central Ca. for SoCal, who don't even seem to conserve? They have all the money and available land to expand their storage capacity! LEAVE THE SACRAMENTO RIVER SYSTEM ALONE!!!!!!!!!!!! |
| Cheryl Davison | Lower Lake, CA | 2015-10-29 | I think there are less destructive ways for the LA area to get water. They need to stop depending on the northern California water, which is not in good shape to begin with, and develop better means in their own area. Desalination or water recovery (maybe some of the water that's being dumped back into the ocean for no good reason) |
| Dean Hansen | Rio Vista, CA | 2015-10-29 | It's bad for the Delta there are better ways to get water to the south. |
| Kerry Martin | Fair Oaks, CA | 2015-10-29 | We need more water storage and desalination plants. Moving a limited resource from one place to another does nothing to increase the amount of water available |
| Marilyn Tovar | Stockton, CA | 2015-10-29 | The water in the delta supports the fish and birds. It also supplies the farming industry. |
| Don Updegraff | Clarksburg, CA | 2015-10-29 | Any further action to reduce water flowing through the Delta further damages the quality of water, land, and life of all living things in the Delta. |
| Doug Vallery | North York, Ontario, Canada | 2015-10-29 | The #WaterFix is no fix at all - it makes absolutely no economic or environmental sense. |
| Keegan Nazari | Chico, CA | 2015-10-29 | At this stage in the game ag needs to reform its farming and water usage. Why do we need to grow things for other countries. What happens in couple years when we have no water left? |
| karen Ries | Stockton, CA | 2015-10-29 | We are desperate! |
| David Warner | Lodi, CA | 2015-10-29 | The southland needs to lower the levels of their reservoirs, so when it rains all the runoff doesn't go into the ocean! |
| Argyl Dickson | Tracy, CA | 2015-10-29 | I want to protect the water sources for the Stockton and San Joaquin County area. The Delta is a natural resource that should be protected. Destroying one part of the state to support another is irrational and should not even be considered. |
| Tatiana Garcia | Stockton, CA | 2015-10-29 | I am signing this because I think it is n |
| Cindy Flores | Stockton, CA | 2015-10-29 | Cindy flores |
| Lorenzo Gonzalez | Ripon, CA | 2015-10-29 | I oppose the Twin Tunnels, because I want to keep water for the Delta for our many water uses including our agricultural needs. |
| Jim SAMUELS | Redding, CA | 2015-10-29 | Save the Sacramento, Mc Cloud and Pitt rivers. LA doesn't need more water just less people |

| Name | Location | Date | Comment |
|-------------------|-------------------|------------|--|
| Vinny DiNicola | Discovery Bay, CA | 2015-10-29 | To protect the Delta and our fresh water from irresponsible and nonsensical profiteering, using more of our Delta water to grow water intensive almonds and pistachios on unsustainable desert soils. |
| sally small | Orinda, CA | 2015-10-29 | This is a waste of taxpayers money. It does not add any additional water. |
| Connor Evans | Playa del Rey, CA | 2015-10-29 | <p>Because we need to invest in local infrastructure to capture rainwater and to reuse and refilled or are wastewater. This is especially true in light of L Nino, we will get more rain this winter then we have seen in a long time and we should be trying to capture as much as possible. We should retire the acidified to soils on which almonds are produced and replace those areas with massive solar farms, which would be more profitable and help California transition away from the fossil fuel's that are trying to be frocked in the central valley with water from the two proposed tunnels.</p> <p>We should invest in the levees that protect the San Joaquin River Delta from saltwater inundation! As climate disruption continues and C levels rise, we must protect this massive freshwater supply from the oceans.</p> |
| Meraldine Aurelio | Stockton, CA | 2015-10-29 | I'm signing because I oppose to the Delta Tunnels plan. |
| Dylan Glave | Mill Valley, CA | 2015-10-29 | Because the absurd use of water and land in meat production needs to publicized and minimized |
| Ernest Tomasi III | Stockton, CA | 2015-10-29 | I love life |
| Maureen Maguire | Petaluma, CA | 2015-10-29 | Remember Owens Valley. Delta tunnels are worse than that with zero gain to life and living. |
| Kim Moore | Redding, CA | 2015-10-29 | <p>I am opposed, this is a bad deal all the way around.</p> <p>Gov Brown shoul focus on shutting down the current/ongoing Cliamte Engineering operations in our skies which have caused these droughts.</p> <p>You can't expect Californians to watch out skies being filled with Aerosol GeoEngineering pushing storm systems north and south of us, meanwhile blaming "us" for climate change.</p> <p>It's BS, we the people will no longer tollerate these issues or sit quite allowing them to happen.</p> |
| Jon Dolan | Visalia, CA | 2015-10-29 | I care |
| Claudia Skelton | Oakland, CA | 2015-10-29 | I am opposing the tunnels because the same political entities who have exerted enough clout to get this project this far, will have the clout to turn the delta into a waste land. We cannot turn our backs on the delta. |
| Dane Henas | Sacramento, CA | 2015-10-29 | The Delta needs more freshwater flows, not more diversions. The tunnels would be the nail in the coffin for this magnificent estuary that's already struggling due to excess pumping. |
| M Bishop | Martinez, CA | 2015-10-29 | With climate change, there are no guarantees that there will be enough water for both central and Southern California. The governor should be looking at options that allow the southern part of the state to be self sufficient, whether it's with desalination or purified gray water. |
| Susan Ballew | Sacramento, CA | 2015-10-29 | The Delta is a unique, precious and fragile resource. The tunnels would destroy a significant portion of this natural resource. The Delta MUST be protected -- it can never be replaced. |
| Patrick Conner | Lathrop, CA | 2015-10-29 | I live next to the water you want to steal and I fish and recreate on this water you want to steal it is not good to steal.Govenor Brown back off our water. |

| Name | Location | Date | Comment |
|-------------------|---------------------|------------|--|

| Brittney Farrand | El Dorado Hills, CA | 2015-10-29 | I don't believe this is the correct way to address the problem, and I believe it will do irreversible damage to our delta's ecosystem. |
| Alee Xiong | Elk Grove, CA | 2015-10-29 | I want to save the Delta and preserve the fishery for the future. |
| Ken Brunskill | Fremont, CA | 2015-10-29 | I care about the Delta, and the species that depend on historical quality of water. |
| Maurice Sciaroni | Valley Springs, CA | 2015-10-29 | I believe the tunnels will destroy the delta |
| kurt Hasenpusch | SAN ANDREAS, CA | 2015-10-29 | What they are trying to do is not in the best interest of the people of California |

| Kathryn Cairns | Walnut Grove, CA | 2015-10-29 | I am signing because I live in the Delta and I know what kind of damage this will do to the area |
| Jennifer Nolan | Sacramento, CA | 2015-10-29 | I c |
| Glen Pritchett | Magalia, CA | 2015-10-29 | I am opposed to the twin tunnels. Too expensive, won't solve the problem & risks the health of the Delta. |
| Rene Duncan | Grass Valley, CA | 2015-10-29 | We need the delta!! |
| Susan Darst | Davis, CA | 2015-10-29 | The tunnels will destroy the delta. |
| Suzanne Hofmann | Courtland, CA | 2015-10-29 | There is no water to send, look to other alternatives |
| Trevor Simpson | Discovery Bay, CA | 2015-10-29 | This is a bad plan which does nothing to add to our water reserves, we need new reservoirs to store water during wet years, expanded recycled water programs, and a serious commitment to desalinization |
| Daniel McKenzie | Oakley, CA | 2015-10-29 | This is not a fix for the Delta, it's a death nail. I oppose the tunnels and the ensuing damage and harm that will come from their construction. I believe this is a water grab and not something with the Delta's best interests in mind. |
| Diego Sandoval | Stockton, CA | 2015-10-29 | i can |
| Natalie Gutierrez | Manteca, CA | 2015-10-29 | I'm signing because I care about the water in my county. |
| Bryan Morales | Stockton, CA | 2015-10-29 | because i can |
| Carlos Servin | Stockton, CA | 2015-10-29 | i do not want the tunnels |
| David Keeler | Los Angeles, CA | 2015-10-29 | The tunnels make no sense. We are in a drought and are delta is dieing fight before our eyes. There is no way that stealing our water will help our water ways. |
| Patrick Tachella | Fresno, CA | 2015-10-29 | My families home may be in the path of the tunnels. The tunnels will not increase the supply of fresh water for California. We need reservoirs not Tunnels! |
| Mark Newitt | Sacramento, CA | 2015-10-29 | This is a really ludicrous idea!! Talk about building a better mouse trap. You can't improve this ecosystem with tunnels. As one with a degree in Environmental Studies, this makes no sense. |
| Patricia M Byrne | Lodi, CA | 2015-10-29 | I oppose the tunnels |
| Angela DiNicola | Discovery Bay, CA | 2015-10-29 | I am signing because I am opposed to the Delta Tunnels because the benefits do not match the cost. According to Dr. Jeff Michael, University of the Pacific, the estimated benefits for the project drop by \$10 billion without regulatory assurance for water deliveries so that costs EXCEED benefits by at least \$8 billion. The costs will be born by farmers and urban ratepayers. Since there is no added water, urban ratepayers obtain no benefit. |

| Name | Location | Date | Comment |
|---------------------|---------------------|------------|---|
| Paul Galas | Newman, CA | 2015-10-29 | I oppose the Delta Tunnels/California Water Fix (Alternative 4A) because it benefits big Business and not the masses at the expense of the tax payers, environment and public health. |
| Christine Finnie | Boulder Creek, CA | 2015-10-29 | This is an expensive project that we don't need, won't solve the upstream pollution problems--but will actually worsen them--will perpetuate unsustainable ag practices, and decimate the delta habitat and ecology. We have better solutions available. Let's use them instead. |
| John Notman | Stockton, CA | 2015-10-29 | Grew up on the Delta, still use it every year in my backyard. |
| Dewayne Bonham | Oakland, CA | 2015-10-29 | The tunel construction would jeopardize a very special ecosystem that is biologically and economically critical to the surrounding region. The water interests from the south have proven they they would sacrifice anything to get more water. Currently, they are pumping their aquifers dry that supply their cities. Would they care at all about a place 100 miles or more away? |
| Cernera Ralph | Discovery Bay, CA | 2015-10-29 | I am signing this petition as a strong opponent of the Delta Tunnels water grab. I live in Discovery Bay and bought my home here for FRESH water boating and fear the impact on my lifestyle & property values will be grave. The California Water Fix does not address the environmental, public health or economic impacts of the proposed Delta tunnels project. Also, the plan ignores alternatives that would save California tax and ratepayers billions of dollars, while investing in the jobs and local water sources that build sustainability. |
| Cheryl Fuller | West Sacramento, CA | 2015-10-29 | STOP THE TUNNELS !!!!! |
| Jim Corsini | Lucerne, CA | 2015-10-29 | I have a home on the delta and do not want to see it devastated by Brown's Water Grab. |
| KRISTEN MARTIN | CLARKSBURG, CA | 2015-10-29 | THE TUNNELS WILL NEITHER FIX NOR ERADICATE THE WATER PROBLEMS FOR CALIFORNIA; THEY WILL ONLY EXACERBATE THEM! |
| PHILLIP RAIMONDI | Sacramento, CA | 2015-10-29 | I am signing because more Southern California development and more agribusiness at the expense of losing the delta is not the right thing to do. |
| Donald Dal Porto | Cathedral City, CA | 2015-10-29 | We lived in the Delta for 17 years. I feel that this plan would only harm the area by not allowing enough water to keep the salt water from intruding and increase the pollution due lack of water to dilute any harmful agents in the water. The potential costs are enormous and will only add to the already burdensome tax rate. |
| Deborah provost | Stockton, CA | 2015-10-29 | I don't want tunnels! |
| Janet Vollan-Minium | Sacramento, CA | 2015-10-29 | this has to stop NOW! |
| karrie hebert | Discovery Bay, CA | 2015-10-29 | I oppose the tunnels. Cost to much, it will destroy the delta, and destroy the farming in Northern California. NO on TUNNELS |
| Amber Jamieson | McKinleyville, CA | 2015-10-29 | Building the tunnels won't create more water, it will just create a larger demand for water. Our North Coast rivers are experiencing a very bad drought, and are barley able to support habitat for fish. We cant afford to export any more! |
| Nallely Figueroa | Sacramento, CA | 2015-10-29 | I grew up in the delta and have noticed the recent changes that the climate has taken on our agriculture. If the tunnels are built then what will happen to our agriculture we will have to start importing. Creating higher unemployment rate in California. |
| michelle Tarantino | Brentwood, CA | 2015-10-29 | this project is awful for California!!!! |
| Earleen P.. Clark | Sacramento, CA | 2015-10-29 | I'm signing because I want to save the San Francisco Bay-Delta from the damage that will be caused to it by the proposed tunnels. Also, our farm is in the above-referenced delta and will be adversely affected by the proposed tunnels. Please do not build the tunnels! |

| Name | Location | Date | Comment |
|---------------------|---------------------|------------|---|
| Diane Jay | Newbury Park, CA | 2015-10-29 | I object to the Delta tunnels because of the risks to environment. Surely, there are better ways to cope with California drought. Why not move forward on the other water projects? You will help relieve draught and furnish much needed employment, too. |
| Roger Stevenson | Arnold, CA | 2015-10-29 | I boat and fish the Delta and don't believe this already fragile ecosystem can loose the water proposed for the diversion tunnels without devastating consequences to fish and salinity to fresh water! |
| Rick Cossano | Lafayette, CA | 2015-10-29 | I am on a second home in discovery Bay and use the Delta weekly |
| Cheryl Davis-Holman | Victor, CA | 2015-10-29 | I'm signing because this this not a good thing for our part of California between the farmers that are struggling for water to grow food and fish that are using the waterways |
| Marli Heininger | Ventura, CA | 2015-10-29 | In 2015 I voted against propositions that sold private bonds at tax payers expense to build more water infrastructure for our state because the options explored like Dams and delta tunnels are NOT the best option for California. We are in this drought because Industry has taken advantage of resources for way too long without any compensation or responsibility in the matter, and we cannot change the face of our state forever because of a temporary problem that is not caused locally. Please don't damage our state anymore. |
| Susan Harrison | Sacramento, CA | 2015-10-29 | Thou shalt not steal |
| Marc Norton | Zamora, CA | 2015-10-29 | I care about the environment and especially the fisheries. This plan, if implemented, will be viewed by historians down the line as a catastrophe. |
| Ruth Morgan | Sacramento, CA | 2015-10-29 | I'm opposed to this waste of money and water and I feel like what the people say has no effect. But I will try! |
| Morgan Phillips | Sacramento, CA | 2015-10-29 | Want to save the Delta. |
| Cherie Archibeque | Lodi, CA | 2015-10-29 | I oppose the delta tunnels. |
| Joy Freeman | Lodi, CA | 2015-10-29 | NO TUNNELS! the Central Valley needs our water to support the farmers and wine growers in the valley! Without water in the Central Valley our crops and vineyards will perish! |
| Kelly Craig | Antioch, CA | 2015-10-29 | I want to stop the tunnels |
| Chris Dempsey | Corte Madeira, CA | 2015-10-29 | I oppose the delta tunnels and will fight it based on endangered species and economic cost |
| arlene greene | Clarksburg, CA | 2015-10-29 | The delta should be protected and remain the beautiful sanctuary it is! |
| Lowell Ashbaugh | Davis, CA | 2015-10-29 | This plan is fundamentally unfair, too costly, would not provide either water reliability or enhance/protect the Delta, and does not consider less costly and more environmentally responsible alternatives. |
| Lynn Halsted | Orangevale, CA | 2015-10-29 | I oppose the tunnels |
| Bia Riaz | West Sacramento, CA | 2015-10-29 | The tunnels will not create more water. They are expensive and destructive. We have to protect our natural resources instead of being pressured by corporations and private interests looking to profit from the tunnels. |
| Carol McPherson | Peoria, AZ | 2015-10-29 | I'm signing due to environmental, public health, and economic concerns. |
| Dennis Turner | Klamath, CA | 2015-10-29 | Those people need to do a better job with the water they have, not get more to waste more. |
| Roger VerMulm | Stockton, CA | 2015-10-30 | I opposed the Peripheral Canal scheme put forth under Brown 1 and I oppose this one for the same reason. It's nothing but an LA/Owens Valley water theft plot. At least it's in the open so we can at least make an effort to stop it. |
| Tom Gomes | Granite Bay, CA | 2015-10-30 | I'm totally against it |

| Name | Location | Date | Comment |
|---------------------------|-------------------|------------|---|
| Carol Hovorka | Redwood City, CA | 2015-10-30 | We don't have enough water right now. I don't want to see the delta become saltwater. I believe the farmers need what little water we have to grow crops... We had so little water the samon couldn't even get down the river, we had to truck the samon down the river so they could get to the ocean. Now how do we benefit by building tunnels?? |
| sean lundy | Eureka, CA | 2015-10-30 | Love the rivers this will hurt |
| Peggy Traverso | Aptos, CA | 2015-10-30 | this plan is flawed in so many ways & most of all, it threatens the integrity of the Delta & our way of life for those who live along it. |
| Cormac Martinez del Rio | Laramie, WY | 2015-10-30 | Enough water is already being diverted. As the climate changes and California becomes drier, these tunnels will do even more damage. Instead, we need to transition away from unsustainable, water intensive crops to a more sound food source. The economy depends on it! |
| marquess lewis | Livermore, CA | 2015-10-30 | oppose |

| Pamela Fiore | Seal Beach, CA | 2015-10-30 | Protect the delta estuary! |
| Marilee SCHOLL | Vacaville, CA | 2015-10-30 | Grew up in the Delta, learned early that SoCal agribusiness will grab whatever they can get (USDA subsidies, Sierra river water, etc. from NoCal. These interests & the construction companies that hope to overrun project budgets & create a GREAT BIG BOONDOGGLE are the only interests that favor this project (except for the politicians sponsored by these interests)! |
| Ellen Espinosa | Stockton, CA | 2015-10-30 | I don't want to ruin the delta. |
| Sharon j Harvey | Pittsburg, CA | 2015-10-30 | The tunnels will destroy the waterways of the beautiful California delta, which are rare and harbor precious wild life and numerous fish species, recreational boating (as originally designed to provide)... |
| Reuben Francis Novero | Stockton, CA | 2015-10-30 | This plan to divert water from the Sacramento River will decimate the Delta ecosystem for the benefit of big agribusiness. |
| Karen Huss | Stockton, CA | 2015-10-30 | Karen Huss |
| Robin Sprague-Abbott | Stockton, CA | 2015-10-30 | This has always sounded like a short-sighted Wile Coyote/Acme solution to the water problem in California. Use that money to build desalinization plants, or tell people they need to conserve. |
| Sharon Buck | Stockton, CA | 2015-10-30 | It's the right thing to do! |
| Robert Sherman | Brentwood, CA | 2015-10-30 | The tunnels are a boondoggle! The Delta is already being destroyed with the existing demands of its water. |
| Elmer Muller | Stockton, CA | 2015-10-30 | I live and farm in the Delta. |
| Gary galster | Sacramento, CA | 2015-10-30 | this concept is absurdly shortsighted and doesn't address the problem of over population in a desert. So Cal needs to desalinate. |
| Teri Schroeder | Stockton, CA | 2015-10-30 | Governor Brown wants to take water from one county to the other. This is a natural source, let the people that built a city in the desert find another water source. |
| Julia Landreth | Alameda, CA | 2015-10-30 | The environment is important to me and to the future of our world. |
| Mark Baldwin | San Jose, CA | 2015-10-30 | Protecting the ecology of the delta cannot be squashed by political gain and greed. These politicians lack of public awareness and support is disgraceful. |
| Graham and Charlyn Connor | Elk Grove, CA | 2015-10-30 | We live in the North Delta where we have farmed for 6 generations and see our way of life threatened without choice through the democratic process. |

| Lawrence Reindl | San Leandro, CA | 2015-10-30 | I want to see the delta remain as is. |
| Michael werlein | Merced, CA | 2015-10-30 | Seriously a waist of money. Mrs Fienstiens old man is already rich enough. |
| Zolton Zorzi | North Highlands, CA | 2015-10-30 | It's a waste of my tax money an more importantly it will destroy the delta ,also southern Cali is getting more rain than we are they should build a man made lake to store all that extra water. |
| melody barros | clearlake, CA | 2015-10-30 | Imposing these tunnels interferes with the dynamics of many eco systems. It's time we appreciate, that what is and refrain from interfering with nature. Please use your innovations to work in favor of our planet. |
| Erich Coulter | Arcata, CA | 2015-10-30 | so-cal doesn't deserve more water |
| James Williams | San Francisco, CA | 2015-10-30 | I'm signing this petition because I believe that the large water districts should get more water via our tax dollars for their profit without paying their share. I have been fishing the SF bay and delta since the early 1960's and I have seen the decline in not only the environment, but the fish and wildlife as well. They have been pumping water for decades and they do not need more than what they are getting now. We are in a drought, everyone is being asked to cut back, what make the southern water districts, private and public, special? Destroying the SF Bay-Delta estuary for money does not make sense to me. they have been asking for more water every year and it will not stop no matter how much they get. |
| Susan Burns | Chico, CA | 2015-10-30 | You will regret this Gov Brown, don't do it. |
| Susan Butler | Antioch, CA | 2015-10-30 | I'm signing because I live next to the delta. The delta is where I enjoy going for my wellbeing. It is the nature, and the stillness that I crave, my sanity. |
| Kim Stadlander | Pollock Pines, CA | 2015-10-30 | The tunnels will destroy the fragile delta and livelihood of many. Figure out a different solution. Save our delta waters!!!! |
| JoAnne Weston | Stockton, CA | 2015-10-30 | I oppose the tunnels. |
| Chris parks | Yuba City, CA | 2015-10-30 | I own a fishing tackle company Outlaw Fishing co We fish these waters and stand behind this action to stop the tunnels 100%. It will harm the fish that migrate up the delta to rivers for spawning includeing White sturgeon, green sturgeon, steelhead, chinook salmon, silver salmon, American shad and so on. |
| Carol Glusovich | Cambria, CA | 2015-10-30 | I want to save the Delta. 5th generation Californian / Raised in Stockton |
| Lina Braunstein | Sacramento, CA | 2015-10-30 | Stop the tunnels! The financial cost is high, a \$62 billion of which the tax payers will be responsible for without a vote. The project will take 20 years to complete and provides no new water. The environment, wild life and people are already feeling the effects of a lack of and degradation of our water quality. And there are suggestions for more immediate ways to address the seriousness of our water issues. Please, stop this insane idea before it creates an environmental and financial disaster for California. |
| Alyson Collier | Sacramento, CA | 2015-10-30 | Better, more ecologically sound plans have been proposed. The tunnels will devastate an area containing some of the richest farm land in the world. Turning freshwater habitat into salt marsh is not an act of restoration. |
| Shana Meacham | Sacramento, CA | 2015-10-30 | Too much collateral damage. I would be in favor of water restrictions before taking on such a huge project. Our current water usage is unsustainable. Period. |
| Don Gerkenmeyer | Ventura, CA | 2015-10-30 | Just don't do it.. bad idea, bad timing, not fair to the residents, or the delta itself. |

| Name | Location | Date | Comment |
|------------------|--------------------|------------|--|
| Randall Riley | San Ramon, CA | 2015-10-30 | The tunnels will totally ruin and kill the Delta worse than Clifton Court Forebay and the water export out of the Delta does now. There is now way the Tunnels will help the Delta. Instead it is a power water grab by people & businesses that do not care about the impact to this precious resource. |
| David Becerril | Palermo, CA | 2015-10-30 | I love our waters I love the delta!!! |
| Heidi Kitchens | Yuba City, CA | 2015-10-30 | I'm a 4th generation delta girl! See the email?! Duh!!!! No tunnels!!! |
| David Snavelly | San Jose, CA | 2015-10-30 | This is wrong. |
| Marian Shelby | Fresno, CA | 2015-10-30 | I don't want the tunnels. |
| William Durston | Rancho Cordova, CA | 2015-10-30 | It's inherently absurd to argue that diverting huge amounts of the natural flow of water into the delta will improve the ecology of the delta. |
| Philip Salter | San Francisco, CA | 2015-10-30 | I am signing this petition because I feel VERY STRONGLY about maintaining the well being of the Sacramento River, adjoining Delta, Carquinez Straits and San Francisco Bay... EVERY life form in these and around these bodies of water rely heavily on them for a vast number of reasons. I fear and believe throwing ANY of these very fragile ecosystems out of balance, even in a minor way, could have SEVERE negative consequences for ALL life in these areas, and beyond. We as humans have the ability to solve problems in many ways, wildlife have far greater limitations, and I do not want to be part of the destruction of any of the many species at risk by the proposed Tunnels/California Water Fix. There are better options for us. |
| Ellen Precissi | Stockton, CA | 2015-10-30 | i live in Stockton and our Delta is a part of my life. I row with the Stockton Rowing Club and it means so much to me to be able to enjoy nature right here. The Delta is an integral part of our economy also. California can do better than this tunnel plan - both for ecology and economically. Stop the tunnels- please don't submit to this myopic failure of an idea. |
| Jeremiah Lewis | Alameda, CA | 2015-10-30 | hay que proteger la bahía y el sistema de agua |
| hayashida harvey | Bath, ME | 2015-10-30 | I oppose the shipping of more fresh water to Southern California. I believe that what has happened to the San Joaquin river will occur with the Sacramento River if the Delta Tunnels are built. |
| Mary D'Agostino | Kentfield ca, CA | 2015-10-30 | I am signing to stop the ca water fix which has. I regard for the SF bay estuary ecosystem. It will not solve the water problem and destroy a true gem of our country. |
| Hardy Wronske | Los Angeles, CA | 2015-10-30 | An increase in supply isn't the correct solution. Reductions in demand are the solution. I oppose the tunnels. |
| John Minnehan | Lodi, CA | 2015-10-30 | I strongly oppose the water tunnels/Cal Water Fix. The State of California has not adequately explained why these tunnels are needed and why Californians should agree to a proposal which essentially sells the Sacramento River to a few water districts which will profit enormously from a natural resource which belongs to all Californians. And why should we agree to this monstrous building project that will ruin the largest inland estuary in North America and inclusive wildlife habitat, recreational areas, local farms, ground water and burden California taxpayers for generations and will further deplete our water supply in a state that drought has become the norm. We need to maintain our present water distribution system with better science and regulation. The Cal Water Fix is not a fix, but it is a huge blunder of enormous proportion. We cannot afford to keep entertaining this foolish idea by the State of California. We have much more pressing and important matters to deal with. Let's fix our schools, roads, environment, and other infrastructure. |

|----------------------|-------------------------|------------|---|
| Deena crete | Durham, CA | 2015-10-30 | I don't want to sacrifice the health of the ecosystem of the Sacramento San Juaquin Delta for the sake of rich farmers getting richer or the overpopulation of Southern California. The wildlife and waterways should not be given up or raped for the benefit of ANYONE, period. |
| Bill Easton | Plymouth, CA | 2015-10-30 | I want to save one of the world's great estuaries. |
| Christopher Irvine | Portland, OR | 2015-10-30 | The delta is more important than big agri and developers. |
| Lee Woodland | Sacramento, CA | 2015-10-30 | It's an enormous expense without producing a single drop of new water and further degrades the delta |
| margarita altamirano | Sacramento, CA | 2015-10-30 | I oppose siphoning water from the Delta to support housing and farming development in southern California. Water has its limits, and they've been reached. |
| joe dorsey | San Francisco, CA | 2015-10-30 | The bay Delta is a natural preserve that needs to be preserved. |
| John Hood | Chico, CA | 2015-10-30 | Please dont ruin the delta and send northern California's south |
| Elizabeth Peters | Rio Vista, CA | 2015-10-30 | I'm signing because the proposed delta tunnels are an excessively expensive fix to supply the south with more water. Instead of taking delta water and ruining the natural environment, there should be more push on recycling wastewater, which is a more renewable and environmentally-friendly approach. |
| larry Ancheta | Stockton, CA | 2015-10-30 | We need to preserve our natural wildlife within the delta for our children and generations to come. |
| Scott Oblizalo | Carmichael, CA | 2015-10-30 | I don't support institutionalized oppression of the environment |
| Victoria Reeder | Oakland, CA | 2015-10-30 | Our water is scarce and precious, and the species that really on it can't survive with the tunnels. |
| Glenn Fukumoto | Los Osos, CA | 2015-10-30 | I am opposed to this Tunnel Plan of yours. You've already seen that the majority of California voters oppose this too. What gives you the right to continue on with this plan? |
| Linda Kohal | Pittsburg, CA | 2015-10-30 | I want the Delta to remain the same for us that live in the Bay Area |
| Mike Allen | South San Francisco, CA | 2015-10-30 | You tried this years ago It was called peripheral canal. Save the Delta not kill it. Too much water goes south now. No water saving going on in SoCal. Stop building swimming pools |
| C. T. Weber | Sacramento, CA | 2015-10-30 | Because it's the correct thing to do. |
| stacy brundin | Crescent City, CA | 2015-10-30 | NO dipping! Don't kill California! |
| David Richardson | San Francisco, CA | 2015-10-30 | This is the largest natural estuary on the west coast and, as such, must be protected. The effects of these tunnels, not to mention the impact of the long term construction. Would be irreparably devastating. A vad idea we will never recover from. |
| George Reeves | Stockton, CA | 2015-10-30 | I live in Stockton. I use the Delta to recreate and escape stupidity of Republican controlled Stockton for a while. |
| Robert Mazalewski | San Diego, CA | 2015-10-30 | the project is environmentally unsound and the real costs proposed do not address the ultimate cost, both environmentally and financially. |
| Deborah Livaudais | Antioch, CA | 2015-10-30 | I don't want to see the Delta dry up. |
| Victor Rosasco | Stockton, CA | 2015-10-30 | This tunnel project does not benefit Californians at large - just a small group of corporate farms and water agencies. No water transfer project that affects Delta Flows should be completed until water allocation rights are figured out so that the Delta can stop being degraded. |
| Robert Fussell | Vacaville, CA | 2015-10-30 | I feel the Delta Tunnels will ruin whats left of the delta. There are way better ideas out there to spend all that money. |

| Name | Location | Date | Comment |
|-------------------|-----------------------|------------|---|
| Diane Vigil | Stockton, CA | 2015-10-30 | The tunnels will destroy the San Joaquin Valley way of life and its economy. |
| Jamie Hart | Fairfield, CA | 2015-10-30 | I work in Rio Vista at a county park along the delta. The delta tunnels will destroy the wildlife and the ecosystem that we have worked so hard to preserve and protect. How do you choose to support one ecosystem over another? Gov. Brown, you should be ashamed of yourself. |
| Gregory Pruden | Sacramento, CA | 2015-10-30 | This project does not, on the whole, benefit Californians and its economy - it actually harms us all. |
| Veda Hart | Fairfield, CA | 2015-10-30 | My wife works in Rio Vista and helps support and maintain the delta ecosystem. Everything she's done to support the wildlife up until this point will be for nothing. Stop the tunnels and stop this madness. |
| Annette Hendricks | Modesto, CA | 2015-10-30 | Please explain to me why this is even being entertained. Sounds like nonsense to me. |
| C GilbertCG | Belvedere-Tiburon, CA | 2015-10-30 | This makes no common sense. We are spending an enormous amount on a high speed train. Why not invest in a regional solution which would change farming methods, add large water storage tanks for future droughts, look at regional pipelines from areas that regularly experience floods (better than oil pipelines). Let's not destroy the Northern California water system for bad farming practices and golf courses. |
| Bethallyn Black | Yes, CA | 2015-10-30 | The twin tunnels are going to be an environmental disaster for the Bay Area. I oppose! Removing fresh water from the system will allow salt water to intrude far inland, destroying farmland and contaminating drinking water sources. Another BAD idea. |
| Kathy Lopez | Manteca, CA | 2015-10-30 | Katherine K Lopez Manteca, CA 95336 |
| Jill Jackson | Brentwood, CA | 2015-10-30 | Don't destroy our Delta. |
| Rebecca Leyser | Albany, CA | 2015-10-30 | I believe that this will lead to a further crumbling of the fragile Eco system of the water system. PLEASE do not allow this to happen. |
| Darryl Foreman | Larkspur, CA | 2015-10-30 | I am concerned about the impact the tunnels will have on the Delta during construction as well as when they are put into use. |
| Everett Watrous | Stockton, CA | 2015-10-30 | I'm signing because I grew up on the SF Bay Delta. Boating, fishing, summers camping on Bethel Island and cruising the delta, winters at willow berm or korths. This is such an integral part of our identity as Northern Californians that to see it all wiped away by deceit, lies, and greed absolutely kills me and destroys my faith in government. |
| John Hamilton | Lodi, CA | 2015-10-30 | This political move will only kick the can down the road for a few more years. It will also change and potentially kill an existing "natural" ecosystem. |
| Chris Guptill | Altadena, CA | 2015-10-30 | Tunnels = Stupid expenditure/delta degradation. Reservoirs = better H2O management, less cost. |
| DOREEN DIEHL | Roseville, CA | 2015-10-30 | I'm opposed to projects that involve man-made engineering of our natural environment. |
| Steve Larsen | Mountain View, CA | 2015-10-30 | This solution serves only a few, let us try for a better one. |
| David L. Williams | Hercules, CA | 2015-10-30 | I believe we should have an Extraction Tax for All Resources in California, minerals. Oil. etc. I was also sued for Water Rights by L A Power ☐ |
| Linda Culpepper | Livermore, CA | 2015-10-30 | I'm signing because I believe it will ruin the Delta. |
| John Parker | Lucerne, CA | 2015-10-30 | I was involved in stopping the Peripheral Canal project back in the 70's for the same reasons. This is the same project, but underground. |

| Name | Location | Date | Comment |
|-------------------|------------------|------------|---|
| Curtis Joseph | Stockton, CA | 2015-10-30 | Because our lively hood and Delta needs to be left ALONE !!!!!!! |
| Dany Huynh | Lodi, CA | 2015-10-30 | i fish in the delta and I don't things to effect the fishing right now. |
| Tamara Chacon | Arcadia, CA | 2015-10-30 | Water is vital to life, it is one of our most important issues. We can't take it from other places or use it wastefully and expect everything to be okay. We need to conserve and share what we already have, not dig giant tunnels. |
| Sarah Vigil | Stockton, CA | 2015-10-30 | I want to protect the delta and feel money should be spent on water storage which would benefit all of Ca, instead of moving our water to SoCal. |
| william ridings | Lafayette, CA | 2015-10-30 | there is already way too much water being diverted from the delta system. we need to farm smarter in the san Joaquin valley. no more cows, alfalfa, cotton and other water intensive agriculture that has no reason to be in California. |
| Lois Campers | Rodeo, CA | 2015-10-30 | It's a waste of money |
| Carol Gant | Manteca, CA | 2015-10-30 | I am a life-long central Californian and have loved the ecology of our Delta area for my whole life. I think the twin canals will devastate the delta without solving the water problem in this state. I love California, awl of it! |
| roger hahn | Stockton, CA | 2015-10-30 | This is an outrage!!! By diverting this much needed water to a group of people that excel at wasting this precious resource. Our way of life here depends on this water staying where it is. Not only will this diversion kill an entire ecosystem it will also decimate an entire industry known as our food source, FARMING!!!! Where will the food come from??? This is a multi billion dollar industry just within San Joaquin County. This will effect more counties than that. Recreation in the area will be ruined. A multi million dollar industry. Why is it that we, in Northern California are bust cutting back, drastically, our water use and the people in Southern California are not!?!?!?!? Why are we not forcing the water wasters to live by the same rules the farmers south of this county are forced to live by?? Let them suffer the cost that our food producers are saddled with. Just so the can have their pretty lawns, and have the water running down the city gutter systems. Desalinization works. Put the money into the technology instead of a train that takes us down their faster!!!! Ridiculous!!!!!! |
| Etsuko Stone | Sacramento, CA | 2015-10-30 | diverting water from SF Bay Delta to San Joaquin Valley Delta will cause the disastrous impact to the CA |
| Patricia Valdez | Sacramento, CA | 2015-10-30 | It seems like we are slow learners. Most of these solutions make a lot of money for a few people and then over time when nature overtakes the project we have to remediate because "YOU CAN'T FOOL MOTHER NATURE" Save our money and our delta stop the tunnel project. |
| Michael Rosauer | Mill Valley, CA | 2015-10-30 | This proposed water diversion from the delta is as wasteful as it is destructive to critical delta habitat. |
| RENE DEL RIO | Stockton, CA | 2015-10-30 | I oppose the delta tunnelinf |
| Mike Bohn | San Clemente, CA | 2015-10-30 | Mike Bohn |
| Paula Bettencourt | Cupertino, CA | 2015-10-30 | I am opposed to the project. I am very concerned about water quality, impact on fish and wildlife as well as availability of water for Delta water users in the Delta should the project proceed. |
| Jason Larson | Redding, CA | 2015-10-30 | This is a crime against our waterways. |
| clifford monroe | San Jose, CA | 2015-10-30 | keep Northern water in the North! Save fresh water in the Delta. |
| SAM GLASSER | Sacramento, CA | 2015-10-30 | TUNNELS ARE A VERY BAD IDEA!!!!!! |
| Lydia Swagerty | Walnut Creek, CA | 2015-10-30 | Let's get back to nature, not tunnel it |
| Larry Alger | Fontana, CA | 2015-10-30 | The Sacramento Delta needs the water to remain healthy |

| Name | Location | Date | Comment |
|-----------------------------|---------------------|------------|--|
| Jesse Wilson | Antioch, CA | 2015-10-30 | I like it when people don't have to drink salt water and the fish can live. |
| Debra Greene | Ripon, CA | 2015-10-30 | This is another waste of money and a power grab for bonehead brown. But more importantly it suppresses the water rights of the central valley |
| Cheryl Pincus | Lafayette, CA | 2015-10-30 | The tunnels will upset the balance of nature. A Delta is important to the balance of the bay and rivers and the environment. |
| Gail Bakewell | Carmichael, CA | 2015-10-30 | This is outrageous -- lack of drinking water for San Joaquin, etc. |
| Joy Salazar | West Sacramento, CA | 2015-10-30 | We need to keep the water up North, for all our producing fruit trees and crops. |
| camile whitmore | Oakley, CA | 2015-10-30 | I believe that the tunnels would have tragic effects on the ecosystem of the California Delta waterways. I believe that the consequences far outweigh the benefits |
| Rev. Amy Zucker Morgenstern | San Francisco, CA | 2015-10-30 | the Tunnels plan is bad for the environment, bad for the economy, bad for human health. Please restore the Delta instead! |
| Mitchell Alsey | Roseville, CA | 2015-10-30 | I believe California's natural water resources such as marshes, estuary's, delta's or canals and any naturally inhabiting animal's environment is crucial to the restoration of our beautiful historic state. Invading naturally occurring ecosystems for water and agriculture is counter-productive to California's best interest when we have been in such a large draut now for years. Now is the time to promote proper water usage and hold people accountable for one's water use. Starting from the top with government funded agencies. Lead by positive example and not be fueled monetary interest! I love the state of California and having always been a citizen of Sacramento. This would thoroughly affect our communities and natural existing wildlife preserves. RESTORE THE DELTA!!! |
| Dr. Ronald Forbes | Lodi, CA | 2015-10-30 | Gov. Brow's "Water Fix" will destroy the Delta |
| Gene Gascon | Stockton, CA | 2015-10-30 | This is a BAD idea gov! |
| Gay Ann Conway | Stockton, CA | 2015-10-30 | I have lived in the SJ valley most of my life. The Tunnels will destroy the fresh water supply, farming and habitat that will be unrepairable. Why would this be something any man would ever do? |
| Terri Williams | San Francisco, CA | 2015-10-30 | It is unforgiving to spend a ton of money to move water from part of the state to the other to essentially and eventually create a lack of water in the north, which is what you are trying to solve in the south - makes no sense to me. shifting from one place to the other, at a high cost, to create the same situation in the place you are shifting the water from |
| Lorraine Sanchez | Rio Vista, CA | 2015-10-30 | We don't need to destroy the Delta on the whim of someone who continually can be bought by big So. Cal money. |
| Gayle Salter | Lincoln, CA | 2015-10-30 | I'm signing this petition because the Tunnels idea has never been a good one! I am especially concerned on how this will affect the Delta, the almond growers and the rice fields. I wholeheartedly agree with everything this petition says. PLEASE stop the Delta Tunnels project!! |
| Julie Duckworth Iljas | Discovery Bay, CA | 2015-10-30 | Ridiculous idea... |
| Michael Eisler | San Francisco, CA | 2015-10-30 | Tunnels are wrong...horrible outdated water policy |
| cameron baxter | San Francisco, CA | 2015-10-30 | because I care abotu the health of the delta and the ocean and the entire food chain. |
| Susan Seymour | Wrentham, MA | 2015-10-30 | I'm a part owner of the above property on Steamboat Slough whose water flow will be directly affected by these outflow tunnels. |
| Sheridan Pauker | San Francisco, CA | 2015-10-30 | We need to save our Delta, endangered species and Northern California's water and habitat! |

Petition 1 - Restore the Delta (Form 5 generator)

| Name | Location | Date | Comment |
|----------------------|-------------------|------------|---|
| Dennis Taber-Padilla | Stockton, CA | 2015-10-30 | As an avid fishermen I oppose this project to the fullest extent |
| William Cuevas | San Francisco, CA | 2015-10-30 | water conservation/reduction is key to southern california's water issues. the watersheds of northern california, our fisheries and wildlife are vital to our health and economy |
| Sergio Basto | Whittier, CA | 2015-10-30 | We cannot band-aid the problem and disrupt more and more ecosystem |
| William Tyson | Sacramento, CA | 2015-10-30 | California has technology to manage and increase water supply that does not impact the environment in such a permanent manner as the tunnel project does. |
| Jack Abercrombie | Mount Aukum, CA | 2015-10-30 | Hey you politicians, Stop Re-routing the water from the Sacramento San Francisco Delta. Leave the water alone, RE-ROUTE THE PEOPLE, NOT THE WATER !!! If people decide to live where there is no water, they have obviously made their decision to live without water. Quit wasting our money (taxes) and stealing the water from the bay area delta. |
| Julia Schardt | Stockton, CA | 2015-10-30 | I am signing this petition because it is evident that not all concerns and considerations have been taken seriously by those advocating this ill-considered plan. The delicate balance of our Delta is being undermined by interests ignoring the long term impact of the tunnels. And where is the vetting process for the economic feasibility? There are safer and more effective plans to deal with our water issues that have been researched and analyzed. Come on, Governor Brown. Do the right thing. |
| Shanti Warlick | Foresthill, CA | 2015-10-30 | As a California Indian, this is a further attempt at the completion of a genocide that has never ceased. Now it wears a cape of degrees from higher education and uses bigger words in tandem with it's old friend, legislation, but remains the same foe. |
| Doanld Geranen | Sunnyvale, CA | 2015-10-30 | I'm signing this petition because I oppose Governor Browns poorly thought out water grab which will cause the possible extinction of Delta Smelt, Chinook Salmon and other species that depend on cold flowing water in the Delta. |
| Kristi Price | Oroville, CA | 2015-10-30 | Because I am opposed to the peripheral tunnel it is wrong! |
| Jay Marks | Brentwood, CA | 2015-10-30 | Stop the Tunnels! |
| Norman Robb | Palo Alto, CA | 2015-10-30 | Fisherman/conservation |
| Richard Guerrero | Elk Grove, CA | 2015-10-30 | The tunnels will add no extra drop of water, yet will destroy habitats and communities. |
| Susan George | Lodi, CA | 2015-10-30 | De-Salination Plants should be explored in Southern Calif. |
| Michael Castillo | Stockton, CA | 2015-10-30 | I live in the Central Valley of California and as an outdoorsman I highly oppose these changes to the Delta. We need the Delta like California needs water. |
| Brittany Beech | Danville, CA | 2015-10-30 | SAVE MARSHLANDS! LA is a Desert, They shouldn't even exist if they can't sustain themselves! Save water for Agriculture! |
| Diana Gay | Oakley, CA | 2015-10-30 | NO TUNNELS!!!! |
| Sabrina Catlin | Fairfield, CA | 2015-10-30 | We need a sane and comprehensive water plan that service ALL of California, not just LA county and southern Calif. This isn't it. Keep trying! |
| Harris Jr Myles | Stockton, CA | 2015-10-30 | I am a resident and business owner. Tunnels will absolutely devastate this community. Tunnels are not a viable option for the challenges we face as a State with regards to water. |
| Debra K Lemburg | Willows, CA | 2015-10-30 | I oppose the tunnels strongly! |
| Gloria Merk | Sacramento, CA | 2015-10-30 | I am strongly opposed because of its impact on agribusiness and the environment. Gloria Merk, Sacramento |
