Part 3 of 9: SPECIAL USE CATEGORIES

This part of the form is intended for the reporting of information regarding special use categories, related to certain beneficial uses reported in Part 2 of the form, that have additional reporting requirements.

Cannabis Cultivation

C1. Are you using any water diverted under this right for the [cultivation of cannabis](#)?

Yes No

The total water use and total extent of any irrigated areas for all beneficial uses associated with this water right should be reported in Part 2 of this form. Click to confirm that all water use and beneficial uses associated with this water right are reported Part 2 of this form before proceeding.

C2. Provide the [total amount of water used under this water right](#) for cannabis cultivation during the 12-month reporting period:

Part 5 of 9: AMOUNT OF WATER DIVERTED AND USED

6. **Note:** Please report only the amounts diverted and used **under this supplemental statement only**. Do not report water diverted under other water rights, groundwater, or water supplied or purchased from others.

If you have an amount in gallons, use this tool to convert gallons to acre-feet:

3000000 Gallons

3000000 Gallons = 9.206662 Acre-Feet

6a. Type of diversion

- Water was only diverted from a stream and used immediately (Direct Diversion Only)
- Water was only diverted/collected from a stream to a storage reservoir to be used later (Diversion to Storage Only)
- Water was both directly diverted and diverted to storage
- No water was diverted

6b. Instructions for below: Water that is directly diverted (i.e. directly pumped from stream and applied to land) should *only* be reported in Column I (Amount Directly Diverted). Water that is diverted/collected to on-stream or off-stream storage/reservoir should *only* be reported in Column II (Amount diverted or collected to storage). Column III should reflect the total amount of water used (The amount used can include both directly diverted water and water diverted or collected to storage). It should be noted that depending on how water was diverted (Directly diverted or collected/diverted to storage) the appropriate column should be filled out, **NOT** both. If water was both directly diverted and collected/diverted to storage then the amounts need to be separated and applied to the appropriate column and box.

Enter numerals only (no commas or letters)
