

State Water Resources Control Board

JUN 28 2013

Tim Hemstreet, P.E.
Klamath Licensing Manager
PacifiCorp Energy
825 NE Multnomah, Suite 1500
Portland, OR 97232

Dear Mr. Hemstreet:

RESPONSE TO PACIFICORP'S SCHEDULE AND WORK PLAN FOR UPDATING KLAMATH
HYDROELECTRIC PROJECT WATER QUALITY CERTIFICATION APPLICATION

Thank you for your June 13, 2013 letter, which provides the *Klamath Hydroelectric Settlement Agreement (KHSA) Implementation Report* (Annual Report), and a proposed schedule for updating PacifiCorp's 401 water quality certification application.

I appreciate PacifiCorp's initiative in contacting the State Water Resources Control Board to propose a process for updating the Klamath Hydroelectric Project's (KHP) water quality certification application. I've forwarded your letter and the Annual Report to staff in the Division of Water Rights' Water Quality Certification Program for further review and follow up. Staff is reviewing the information provided and will discuss the proposed schedule and work plan to determine a path forward.

Please contact Mr. Parker Thaler, KHP Project Manager, at pthaler@waterboards.ca.gov or (916) 341-5321, to schedule a meeting to discuss PacifiCorp's proposed schedule and work plan. I would like this meeting to be scheduled prior to July 31, 2013.

Sincerely,

Felicia Marcus
Board Chair
