

ATTACHMENT A – SITE PHOTOGRAPHS

Photo 1.
Photo taken looking east at the
Upper Pond proposed for use.

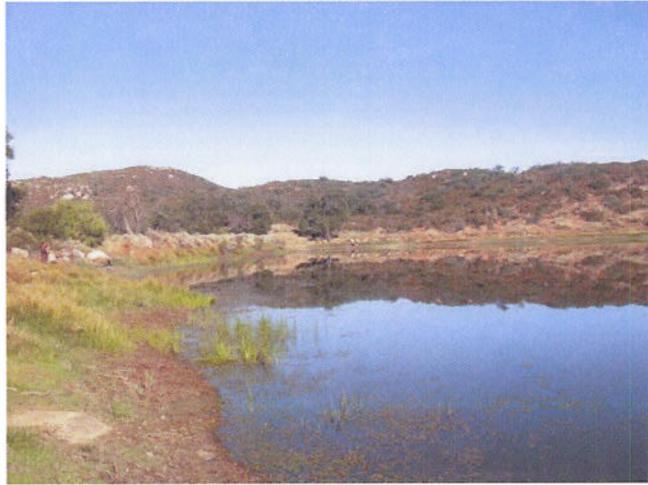

Photo 2.
Photo taken looking west at the
Upper Pond proposed for use.

Photo 3.
Photo taken looking southeast at
the Lower Pond proposed for use.

Photo 4.

Photo taken looking southwest at the Lower Pond proposed for use.

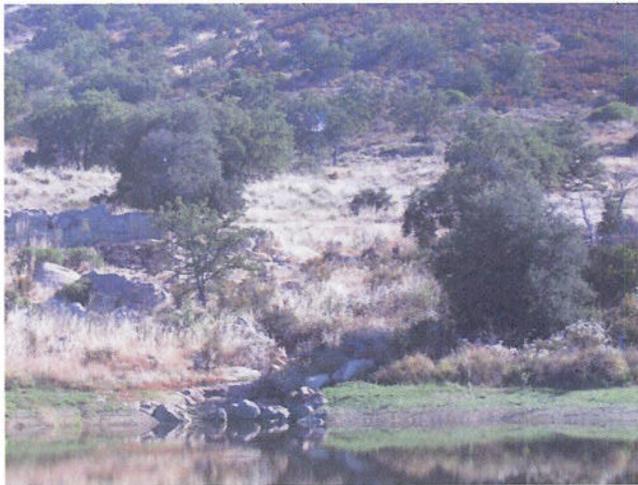

Photo 5.

Photo taken looking northeast from Upper Pond towards Bell Bluff Truck Trail. This area is the proposed route for the 8" HDPE pipe that would connect the Upper Pond to the 8" HDPE line on Bell Bluff Truck Trail that would lead to the Suncrest Substation.

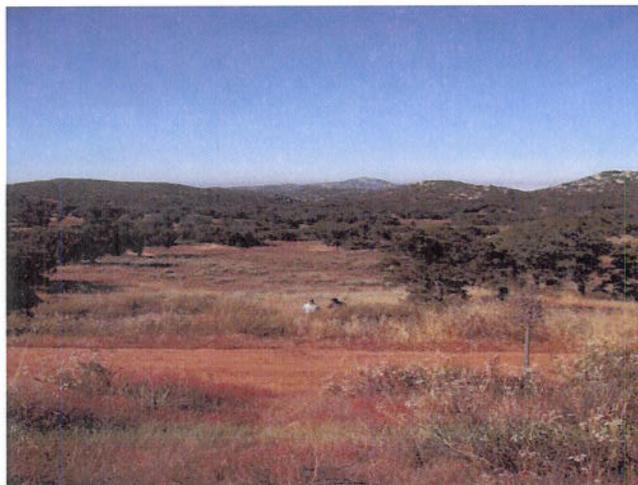

Photo 6.

Photo taken looking southwest in the direction of the Upper Pond with Bell Bluff Truck Trail in the foreground. This area is the proposed route for the 8" HDPE pipe that would connect the Upper Pond to the 8" HDPE line on Bell Bluff Truck Trail that would lead to the Suncrest Substation. Note the non-native grassland interspersed with flat-topped buckwheat along proposed route (behind the people in the photograph).

Photo 7.

Photo taken looking north along the proposed disturbed ATV route to be utilized for the highline (surface install) of the 8" HDPE pipe coming from the Lower Pond leading to Bell Bluff Truck Trail, where it will intersect with the 8" HDPE mainline leading to the Suncrest Substation.

Photo 8.

Photo taken looking south along the proposed disturbed ATV route to be utilized for the highline (surface install) of the 8" HDPE pipe coming from the Lower Pond leading to Bell Bluff Truck Trail, where it will intersect with the 8" HDPE mainline leading to the Suncrest Substation.

Photo 9.

Photo taken of the spillway located at the Lower Pond.

	<p>Photo 10.</p> <p>Photo taken of Salt cedar (<i>Tamarix spp.</i>) located at Lower Pond near the spillway. This invasive species is proposed for removal.</p>
	<p>Photo 11.</p> <p>Photo taken of potential Relocation Pond 1.</p>
	<p>Photo 12.</p> <p>Photo taken of potential Relocation Pond 2.</p>
