**Subject: Conaway Preservation Group Petition for Change Involving  
Water Transfer under License 5487B (Application 12073B)**

Dear Ms. Evoy:

On behalf of Conaway Preservation Group (CPG), enclosed are the following documents relative to a Petition for Change Involving Water Transfer under CPG's License 5487B (Application 12073B):

1. Petition for Change Involving Water Transfers Form with Attachment (one original and one copy).
2. Environmental Information Form with Attachment (one original and one copy).
3. Check in the amount of \$4,397.00 to cover the Petition fees.
4. Check in the amount of \$850 to cover the fee for the Department of Fish and Wildlife.

CPG is petitioning to temporarily add points of diversion and a place of use to its License 5487B in order to transfer up to a total of 8,000 AF to the San Luis & Delta-Mendota Water Authority (Authority) by groundwater substitution. As you are aware, time is of the essence to process this Petition for the implementation of the water transfer to the Authority; and we appreciate your attention to this Petition.

Please call if you have any questions or require additional information.

Sincerely,  
MBK ENGINEERS

Darren Cordova

PETITION FOR CHANGE INVOLVING WATER TRANSFERS

Separate petitions are required for each water right. Mark all areas that apply to your proposed change(s). Incomplete forms may not be accepted. Location and area information must be provided on maps in accordance with established requirements. (Cal. Code Regs., tit. 23, § 715 et seq.) Provide attachments if necessary.

- Point of Diversion, Point of Rediversion, Place of Use, Purpose of Use, Temporary Urgency, Temporary Change, Long-term Transfer, Instream Flow Dedication

Application 12073B Permit 7234B License 5487B Statement

I (we) hereby petition for change(s) noted above and described as follows:

Point of Diversion or Rediversion - Provide source name and identify points using both Public Land Survey System descriptions to 1/4-1/4 level and California Coordinate System (NAD 83).

Present: See Attachment No. 1
Proposed: See Attachment No. 1

Place of Use - Identify area using Public Land Survey System descriptions to 1/4-1/4 level; for irrigation, list number of acres irrigated.

Present: See Attachment No. 1
Proposed: See Attachment No. 1

Purpose of Use

Present: Irrigation and Incidental Fish and Wildlife Enhancement.
Proposed: No Change Requested.

Instream Flow Dedication - Provide source name and identify points using both Public Land Survey System descriptions to 1/4-1/4 level and California Coordinate System (NAD 83).

Upstream Location:
Downstream Location:

Table with 12 columns for months (Jan-Dec) and rows for flow quantities (cubic feet per second or gallons per day).

Will the dedicated flow be diverted for consumptive use at a downstream location? Yes No
If yes, provide the source name, location coordinates, and the quantities of flow that will be diverted from the stream.

Proposed New User(s)

Provide the names, addresses, and phone numbers for all proposed new user(s) of the water right.

San Luis & Delta-Mendota Water Authority
Frances Mizuno
P.O. Box 2157
Los Banos, CA 93635
(209) 832-6200

**Amount of Water to be Transferred**

Up to 8,000 acre-feet will be transferred. If the basis of right is direct diversion, the average rate of diversion for the maximum 30-day period of use is up to 165.25 cubic feet per second or million gallons per day.

**General Information** – Provide the following information, if applicable to your proposed change(s).

Have you attached an analysis which documents that the amount of water to be transferred or exchanged would have been consumptively used or stored in the absence of the proposed temporary change or long-term transfer?  Yes  No

Have you attached an analysis of any changes to streamflow, water quality, timing of diversion or use, return flows, or effects on legal users from the proposed temporary change or long-term transfer?  Yes  No

Have you attached an analysis that shows the proposed temporary change or long-term transfer will not unreasonably affect fish, wildlife, or other instream beneficial uses?  Yes  No

I (we) have access to the proposed point of diversion or control the proposed place of use by virtue of:  
 ownership  lease  verbal agreement  written agreement

If by lease or agreement, state name and address of person(s) from whom access has been obtained.

Not Applicable.

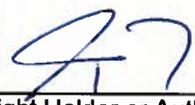

Give name and address of any person(s) taking water from the stream between the present point of diversion or rediversion and the proposed point of diversion or rediversion, as well as any other person(s) known to you who may be affected by the proposed change.

See Attachment No. 1

**All Right Holders Must Sign Below:** I (we) declare under penalty of perjury that this involves only the amount of water which would have been consumptively used or stored in the absence of the proposed temporary change, and that the above is true and correct to the best of my (our) knowledge and belief.

Dated MAY 6, 2013 at SACRAMENTO, CA

**Attachment No. 1**  
**to Petition for Change Involving Water Transfers**  
**License 5487B (Application 12073B)**  
**held by Conaway Preservation Group**

**PURPOSE OF PETITION**

The purpose of this Petition for Change Involving Water Transfers (Petition) is to: (1) add the Central Valley Project's (CVP) CW "Bill" Jones Pumping Plant and the State Water Project's (SWP) Harvey O. Banks Pumping Plant as points of diversion, and (2) add the service area of the CVP as an additional place of use under Conaway Preservation Group's (CPG) License 5487B (Application 12073B). This petition is being filed to facilitate a temporary transfer of up to 8,000 acre-feet (AF) of surface water from CPG, which will be made available by groundwater substitution, to the San Luis & Delta-Mendota Water Authority (Authority) in order to provide an additional water supply for irrigation. Groundwater substitution involves the use of groundwater pumped to produce crops upon CPG in exchange for a like amount of surface water that will remain instream for diversion, less assumed losses, at the proposed additional points of diversion. Absent the proposed temporary transfer, CPG would divert the entire quantity of surface water proposed for transfer from the Sacramento River pursuant to its water right and its Sacramento River Settlement Contract with the U.S. Bureau of Reclamation (Reclamation).

**POINT OF DIVERSION OR REDIVERSION**

**POINT OF DIVERSION**

***Present Point of Diversion:***

No change in the present point of diversion is proposed. CPG's authorized point of diversion under License 5487B is listed below:

By California Coordinate System of 1983, Zone 2, North 2,008,400 feet and East 6,667,100 feet, being within SE ¼ of SW ¼ of Section 27, T10N, R3E, MDB&M.

***Proposed Additional Points of Diversion:***

No change in the present point of diversion is proposed. CPG proposes to add the following points of diversion:

**CW "Bill" Jones Pumping Plant**

N 2,121,505 ft., E 6,255,368 ft., California Coordinate System Zone 3, NAD 83, being within the NE ¼ of SW ¼ of Projected Section 29, T1S, R4E, MDB&M. This proposed

additional point of diversion is identified on maps filed with the Division of Water Rights (Division) under Application 5626.

**Banks Pumping Plant via the Clifton Court Forebay**

N 2,126,440 ft., E 6,256,425 ft., California Coordinate System Zone 3, NAD 83, being within the NW ¼ of SE ¼ of Projected Section 20, T1S, R4E, MDB&M. This proposed additional point of diversion is identified on maps filed with the Division under Application 5630.

**POINTS OF REDIVERSION**

***Present Points of Rediversion:***

No change in the present points of rediversion is proposed. CPG's authorized points of rediversion under License 5487B are listed below:

**Point of Rediversion No. 1:**

By California Coordinate System of 1983, Zone 2, North 1,997,410 feet and East 6,656,940 feet, being within NE ¼ of NW ¼ of Section 8, T9N, R3E, MDB&M.

**Point of Rediversion No. 2:**

By California Coordinate System of 1983, Zone 2, North 1,997,830 feet and East 6,650,590 feet, being within SW ¼ of SW ¼ of Section 6, T9N, R3E, MDB&M.

***Proposed Additional Points of Rediversion:***

No change in the present points of rediversion is proposed; and no additional points of rediversion are proposed.

**PLACE OF USE**

***Present:***

The present place of use is 17,628.32 net acres within a gross acreage of 18,998 acres within T9N, R2E; T9N, R3E; T10N, R2E and T10N, R3E, MDB&M, as shown on a map dated November, 1947 filed with the Division.

***Proposed:***

No change in the present place of use is proposed. CPG proposes to add the service area of the CVP as an additional place of use in order to facilitate the temporary water transfer. The service area of the CVP is shown on Map 214-208 – 12581 on file with the Division under Application 5626.

**GENERAL INFORMATION**

Surface water will be made available for transfer from CPG's groundwater substitution program, consistent with the Draft Technical Information for Preparing Water Transfer Proposals, dated February 2013 (Draft Technical Information) published by the Department of Water Resources (DWR) and U.S. Bureau of Reclamation (Reclamation). The Draft Technical Information has been developed to address the concerns of DWR and Reclamation relative to the potential impacts that water transfers may have on other legal users, instream beneficial uses, and the overall economy and environment. CPG is submitting a proposal to DWR and Reclamation for a water transfer to the Authority during 2013, which includes detailed information relative to historical groundwater pumping, groundwater well characteristics, groundwater monitoring and reporting elements, and associated maps. DWR and Reclamation will conduct an extensive review of these documents in order to ensure that the quantity of water proposed to be made available by CPG meets the relevant criteria to demonstrate a reduction in surface water use will occur as a result of the proposed temporary transfer. In addition, it is our understanding that Reclamation has addressed potential concerns with the U.S. Fish and Wildlife Service (USFWS). Absent the proposed temporary transfer to the Authority, groundwater would not be pumped by CPG for its groundwater substitution program to make surface water available for the Authority; thus, CPG would have diverted surface water to meet its irrigation demands. The crops produced within CPG and the associated irrigation practices would occur with or without the proposed temporary water transfer.

Only wells which have been approved by DWR and Reclamation will be used for the proposed temporary transfer. In accordance with Water Code Section 1745.10, CPG does not believe the proposed transfer to the Authority by groundwater substitution will result in an overdraft of the underlying groundwater basin. As a condition of participation in the proposed temporary transfer, CPG has developed groundwater monitoring, reporting, and mitigation plans to ensure the proposed transfer does not result in any unreasonable and adverse impacts to the groundwater basin or third parties.

The boundaries of CPG are within Reclamation District No. 2035 (RD 2035), which completed and adopted a groundwater management plan (GMP) in 1995 under Water Code Section 10753. The GMP was updated in October 2009 and relies on data from a network of groundwater monitoring wells constructed to monitor groundwater levels within RD 2035. Groundwater elevation data for DWR's Monitoring Well No. 10N03E32E001M, which is

located within the boundaries of CPG near Interstate 5, shows that during 1963 through 2011, groundwater elevations have fluctuated seasonally each year with greater fluctuations during drier periods. However, these data also show that groundwater elevations have remained relatively stable during this 49-year period. In addition, near the headquarters of CPG is a multi-completion continuous groundwater monitoring well (DWR Well Nos. 09N03E08C001M to -004M) installed in 1992 to further assist in documenting groundwater elevations. The monitoring results obtained from DWR for this groundwater well also indicate that groundwater elevations have fluctuated seasonally each year since 1992 with greater fluctuations during drier periods.

As a result of this proposed temporary transfer, the flow in the Sacramento River downstream of CPG's present point of diversion will increase by up to 8,000 AF during the period of the transfer over what would have occurred absent the proposed transfer. The increased flow in the Sacramento River to the proposed additional points of diversion will be a small percentage of the total flow and will be water that would be diverted by CPG absent this proposed transfer. CPG's reduced diversions will provide additional flows during critical periods of the year, up to a maximum of approximately 100 cfs assuming the groundwater wells proposed to participate in the water transfer are operating simultaneously. Therefore, there will be no injury to other legal water users, water quality, or return flows; in fact, these increased flows may provide benefits for fisheries and wildlife and may result in a positive effect to the water users between the present point of diversion and the proposed additional points of diversion.

See files of the State Water Resources Control Board for more information regarding other legal water users, which may include the Delta water users, the CVP, the SWP, and the Cities of Sacramento and West Sacramento. The Department of Fish and Wildlife (DFW) and the Central Valley Regional Water Quality Control Board (CVRWQCB) were contacted in order to discuss the proposed temporary water transfer; and no comments were provided at this time. Copies of this petition have been provided to Lauren Mulloy (916-358-2909) of DFW and Ken Landau (916-464-4726) of the CVRWQCB.

## ENVIRONMENTAL INFORMATION FOR PETITIONS

This form is required for all petitions.

Before the State Water Resources Control Board (State Water Board) can approve a petition, the State Water Board must consider the information contained in an environmental document prepared in compliance with the California Environmental Quality Act (CEQA). This form is not a CEQA document. If a CEQA document has not yet been prepared, a determination must be made of who is responsible for its preparation. As the petitioner, you are responsible for all costs associated with the environmental evaluation and preparation of the required CEQA documents. Please answer the following questions to the best of your ability and submit any studies that have been conducted regarding the environmental evaluation of your project. If you need more space to completely answer the questions, please number and attach additional sheets.

### DESCRIPTION OF PROPOSED CHANGES OR WORK REMAINING TO BE COMPLETED

For a petition for change, provide a description of the proposed changes to your project including, but not limited to, type of construction activity, structures existing or to be built, area to be graded or excavated, increase in water diversion and use (up to the amount authorized by the permit), changes in land use, and project operational changes, including changes in how the water will be used. For a petition for extension of time, provide a description of what work has been completed and what remains to be done. Include in your description any of the above elements that will occur during the requested extension period.

See Attachment No. 1

Insert the attachment number here, if applicable:

1

**Coordination with Regional Water Quality Control Board**

For change petitions only, you must request consultation with the Regional Water Quality Control Board regarding the potential effects of your proposed change on water quality and other instream beneficial uses. (Cal. Code Regs., tit. 23, § 794.) In order to determine the appropriate office for consultation, see: [http://www.waterboards.ca.gov/waterboards\\_map.shtml](http://www.waterboards.ca.gov/waterboards_map.shtml). Provide the date you submitted your request for consultation here, then provide the following information.

Date of Request

April 30, 2013

Will your project, during construction or operation, (1) generate waste or wastewater containing such things as sewage, industrial chemicals, metals, or agricultural chemicals, or (2) cause erosion, turbidity or sedimentation?

Yes  No

Will a waste discharge permit be required for the project?

Yes  No

If necessary, provide additional information below:

Ken Landau (916-464-4726) of the Central Valley Regional Water Quality Control Board was contacted in order to discuss the proposed temporary water transfer; and no comments were provided at this time. A copy of this petition has been provided to Mr. Landau concurrently with the submittal of this petition to the Division of Water Rights.

Insert the attachment number here, if applicable:

**Local Permits**

For temporary transfers only, you must contact the board of supervisors for the county(ies) both for where you currently store or use water and where you propose to transfer the water. (Wat. Code § 1726.) Provide the date you submitted your request for consultation here.

Date of Contact

May 6, 2013

For change petitions only, you should contact your local planning or public works department and provide the information below.

Person Contacted:

Date of Contact:

Department:

Phone Number:

County Zoning Designation:

Are any county permits required for your project? If yes, indicate type below.

Yes  No

Grading Permit  Use Permit  Watercourse  Obstruction Permit

Change of Zoning  General Plan Change  Other (explain below)

If applicable, have you obtained any of the permits listed above? If yes, provide copies.

Yes  No

If necessary, provide additional information below:

Not Applicable.

Insert the attachment number here, if applicable:

## Federal and State Permits

Check any additional agencies that may require permits or other approvals for your project:

- Regional Water Quality Control Board     Department of Fish and Game  
 Dept of Water Resources, Division of Safety of Dams     California Coastal Commission  
 State Reclamation Board     U.S. Army Corps of Engineers     U.S. Forest Service  
 Bureau of Land Management     Federal Energy Regulatory Commission  
 Natural Resources Conservation Service

Have you obtained any of the permits listed above? If yes, provide copies.     Yes     No

For each agency from which a permit is required, provide the following information:

Agency	Permit Type	Person(s) Contacted	Contact Date	Phone Number
Not Applicable.				

If necessary, provide additional information below:

Not Applicable.

Insert the attachment number here, if applicable:

## Construction or Grading Activity

Does the project involve any construction or grading-related activity that has significantly altered or would significantly alter the bed, bank or riparian habitat of any stream or lake?     Yes     No

If necessary, provide additional information below:

Not Applicable.

Insert the attachment number here, if applicable:

**Archeology**

Has an archeological report been prepared for this project? If yes, provide a copy.  Yes  No

Will another public agency be preparing an archeological report?  Yes  No

Do you know of any archeological or historic sites in the area? If yes, explain below.  Yes  No

If necessary, provide additional information below:

Not Applicable.

Insert the attachment number here, if applicable:

**Photographs** See Attachment No. 1

For all petitions other than time extensions, attach complete sets of color photographs, clearly dated and labeled, showing the vegetation that exists at the following three locations:

- Along the stream channel immediately downstream from each point of diversion
- Along the stream channel immediately upstream from each point of diversion
- At the place where water subject to this water right will be used

**Maps** See Attachment No. 1

For all petitions other than time extensions, attach maps labeled in accordance with the regulations showing all applicable features, both present and proposed, including but not limited to: point of diversion, point of rediversion, distribution of storage reservoirs, point of discharge of treated wastewater, place of use, and location of instream flow dedication reach. (Cal. Code Regs., tit. 23, §§ 715 et seq., 794.)

Pursuant to California Code of Regulations, title 23, section 794, petitions for change submitted without maps may not be accepted.

**All Water Right Holders Must Sign This Form:**

I (we) hereby certify that the statements I (we) have furnished above and in the attachments are complete to the best of my (our) ability and that the facts, statements, and information presented are true and correct to the best of my (our) knowledge. Dated MAY 6, 2013 at SACRAMENTO, CA.

**NOTE:**

- Petitions for Change may not be accepted unless you include proof that a copy of the petition was served on the Department of Fish and Game. (Cal. Code Regs., tit. 23, § 794.)
- Petitions for Temporary Transfer may not be accepted unless you include proof that a copy of the petition was served on the Department of Fish and Game and the board of supervisors for the county(ies) where you currently store or use water and the county(ies) where you propose to transfer the water. (Wat. Code § 1726.)

**Attachment No. 1**  
**to Environmental Information for**  
**Petition for Change Involving Water Transfers**  
**License 5487B (Application 12073B)**  
**held by Conaway Preservation Group**

DESCRIPTION OF PROPOSED CHANGES

Conaway Preservation Group (CPG) is petitioning to temporarily add points of diversion and a place of use to the water right identified above in order to transfer up to 8,000 AF to the San Luis & Delta-Mendota Water Authority (Authority) by groundwater substitution. The Central Valley Project's (CVP) CW "Bill" Jones Pumping Plant and the State Water Project's (SWP) Banks Pumping Plant are proposed to be added as points of diversion. In addition, the service area of the CVP is proposed to be added as a place of use. These proposed additions would authorize the transfer of water to the Authority during July through September 2013. There is no change to the existing point of diversion, points of rediversion, place of use, or purposes of use.

The quantity of water to be made available by groundwater substitution involves the use of groundwater pumped upon overlying lands in exchange for a like amount of surface water that will remain instream for diversion, less assumed losses, at the proposed additional points of diversion. Absent the proposed temporary transfer, CPG would have diverted up to 8,000 AF of surface water from the Sacramento River pursuant to its water right and Sacramento River Settlement Contract with the U.S. Bureau of Reclamation (Reclamation). For this reason, the proposed temporary transfer does not involve any construction or other physical changes to CPG's facilities.

Petitions for temporary transfer of water pursuant to Water Code Section 1725 are exempt from CEQA. Reclamation is preparing an Environmental Assessment (EA) for water transfers during 2013, which includes CPG's proposed temporary transfer, pursuant to the requirements under the National Environmental Policy Act (NEPA). Following Reclamation's completion of the EA, a copy will be available upon request.

PHOTOGRAPHS

The present and proposed points of diversion include existing facilities that are well known and documented with the Division of Water Rights (Division). In addition, the present and proposed places of use are also well known and documented with the Division. Therefore, for these reasons, photographs of the present and proposed points of diversion and places of use are not included.

MAPS

The present point of diversion, points of rediversion, and place of use are shown on a map filed with the Division for License 5487B. The proposed additional points of diversion for

Conaway Preservation Group License 5487B  
Attachment to Environmental Information Form

the CVP's CW "Bill" Jones Pumping Plant and the SWP's Harvey O. Banks Pumping Plant are shown on maps filed with the Division for Applications 5626 and 5630, respectively. The proposed additional place of use is the CVP service area, as shown on Map 214-208 – 12581 on file with the Division under Application 5626.
