

2016 CCWD Agreement/1968 Agreement Compare:

- *Term:* (**Sec. 1.2**) Agreement Lasts either:
 - For the life of the CWF Project; or,
 - 20 years if the CWF Project not built

Antioch's extension ends in **2028** about the time the WaterFix Project is predicted to become operational.

- *Amount of Water:* (**Sec. 3.6**) Intertie into the CWF Project to provide between 2,000 to 50,000 af per year depending on water year type (either new interconnection or else through the EBMUD's Freeport Intake intertie to CCWD's Los Vaqueros Pipeline).

Antioch has no guaranteed amount of water.

- *Quality of Water:* **30 mg/L** Chloride. (**Sec. 3.4**)

Antioch's agreement is based on 250 parts per million Chloride.

- *Cost to CCWD:* Nearly cost free for facilities construction. (**Sec. 3.1**)

Antioch's 1968 agreement pays only one-third costs of replacement water.

- *Release of Liability:* The Release applies only to WaterFix Project (**5.1**). No release as to future projects (**5.5**). Completely waives the present Release of Liability in the CCWD 1967 Agreement.

Antioch agreement contains release of liability.
