<b>Additional Remarks</b>
Irrigated acreage was not available in time for this report, so 2015 number is used as placeholder. Municipal populations served data not collected by Reclamation. Reclamation does not collect annual data on water conservation, reclamation, or conjunctive use. Reclamation has made an effort this year to report only Central Valley Project consumptive diversions under direct diversions (excluding bypasses to meet downstream requirements). Consumptive diversions downstream of the American River-Sacramento River confluence are reported under Trinity and Shasta permits before drawing on Folsom permits. All withdrawals from storage are reported, regardless of use. Measurement data requested from field staff, but not received in time for this report. Report will be amended when data obtained.
