Additional Remarks	

All data is preliminary and subject to change. Reclamation does not collect annual data on municipal populations or industrial use. Reclamation has made an effort this year to report only Central Valley Project consumptive diversions under direct diversions (excluding bypasses to meet downstream requirements). Consumptive diversions downstream of the American River-Sacramento River confluence are reported under Trinity and Shasta permits before drawing on Folsom permits. All withdrawals from storage are reported, regardless of use. Reclamation does not collection information on conservation and recycling, but does offer grants to encourage these activities. Measurement data requested from field staff, but not received in time for this report. Report will be amended when data obtained.
