

The screenshot shows the website for the California State Water Resources Control Board. The browser address bar displays www.waterboards.ca.gov/water_issues/programs/tmdl/integrated2012.shtml. The page header includes the CalEPA logo and navigation links such as Home, About Us, Public Notices, Board Info, Board Decisions, Water Issues, Publications/Forms, and Press Room. A search bar is located in the top right corner.

The main content area is titled "Impaired Water Bodies" and includes a breadcrumb trail: Home » Water Issues » Programs » Tmdl. A sub-header reads: "Click on the '2012' bar to expand and retract the information." Below this, a tabbed interface shows "2012 Integrated Report Approval Documents" as the active tab. The main text explains that listing a water body as impaired is governed by the [Water Quality Control Policy for developing California's Clean Water Act Section 303\(d\) Listing Policy](#). It states that the State and Regional Water Boards assess water quality data for California's waters every two years to determine if they contain pollutants at levels that exceed protective water quality criteria and standards. This biennial assessment is required under Section 303(d) of the [Federal Clean Water Act](#). A note indicates: "Please allow time for the information below to appear. Tabs will be available to navigate to various topics."

A section titled "Final 2012 California Integrated Report (Clean Water Act Section 303(d) List / 305(b) Report)" features a navigation bar with tabs for "2012 Integrated Report", "Map", "303(d) List", "Admin. Record", "Data Download", and "Contact Us". The "2012 Integrated Report" tab is selected, displaying the following content:

STATE WATER BOARD STAFF PROPOSED 2012 CALIFORNIA INTEGRATED REPORT (CLEAN WATER ACT SECTION 303(d) LIST / 305(b) REPORT)

For the current listing cycle, the State Water Board has combined its 303(d) List and the 305(b) Report into the proposed 2012 California Integrated Report. Only the 303(d) List portion of the proposed 2012 California Integrated Report requires approval by the State Water Board and U.S. EPA.

The 303(d) List is a compilation of the 303(d) lists from the Regional Water Quality Control Boards (Regional Water Boards) for the N (Region 1), Lahontan (Region 6), and Colorado River (Region 7) regions. The 303(d) List also includes State Water Board staff recommendations for additions, deletions, or changes to the 303(d) Lists from those three regions.

After approval of the 303(d) List portion of the California Integrated Report by the State Water Board, the complete California Integrated Report will be submitted to U.S. EPA. U.S. EPA partially approved the 303(d) List portion of the California Integrated Report on June 26, 2015. U.S. EPA added Topaz Lake to the California 303(d) List prior to final approval on July 30, 2015. The 305(b) portion of the California Integrated Report requires no approval by the State Water Board or U.S. EPA.

- [Public Notice](#)
On December 15, 2014, the public is invited to comment on the proposed federal Clean Water Act (CWA) section 303(d) list of quality limited segments (303(d) List) portion of the 2012 California Integrated Report. The State Water Board will consider the 303(d) List at its March 3, 2015 public meeting. [The public meeting was postponed to April 8, 2015.]
