Subject: Amendatory Contract No. 14-06-200-5082A Between the United States and Placer County Water Agency Providing for Project Water Service From the American River Division - Central Valley Project, California

Dear Board Members:

Enclosed is an executed original of the subject amendatory contract for your records. This contract provides for project water service from the American River Division and is effective March 1, 2002, through December 31, 2011. Reclamation appreciates the effort that has been expended by the Placer County Water Agency and its representatives relative to this contract.

If you have any questions, please contact Cecil Lesley at 916-989-7221 (TDD 919-989-7285).

Sincerely,

A handwritten signature in black ink, appearing to read "Kirk Rodgers", followed by a horizontal line.

Central Valley Project, California

AMENDATORY CONTRACT BETWEEN THE UNITED STATES
AND
PLACER COUNTY WATER AGENCY
PROVIDING FOR PROJECT WATER SERVICE
FROM THE AMERICAN RIVER DIVISION

THIS CONTRACT, made this 26th day of February, 2002, in pursuance generally of the Act of June 17, 1902 (32 Stat. 388), and acts amendatory or supplementary thereto, including, but not limited to, the Acts of August 26, 1937 (50 Stat. 844), as amended and supplemented, August 4, 1939 (53 Stat. 1187), as amended and supplemented, July 2, 1956 (70 Stat. 483), June 21, 1963 (77 Stat. 68), October 12, 1982 (96 Stat. 1262), October 27, 1986 (100 Stat. 3050), as amended, and Title XXXIV of the Act of October 30, 1992 (106 Stat. 4706), all collectively hereinafter referred to as Federal Reclamation law, between THE UNITED STATES OF AMERICA, hereinafter referred to as the United States, and PLACER COUNTY WATER AGENCY, hereinafter referred to as the Contractor, a public agency of the State of California, duly organized, existing, and acting pursuant to the laws thereof, with its principal place of business in California;

WITNESSETH, That:

EXPLANATORY RECITALS

[1st] WHEREAS, the United States has constructed and is operating the Central Valley Project, California, for diversion, storage, carriage, distribution and beneficial use, for flood control,

irrigation, municipal, domestic, industrial, fish and wildlife mitigation, protection and restoration,
generation and distribution of electric energy, salinity control, navigation and other beneficial uses, of
waters of the Sacramento River, the American River, the Trinity River, and the San Joaquin River
and their tributaries; and

[2nd] WHEREAS, the United States constructed Folsom Dam and Reservoir, hereinafter
collectively referred to as the American River Division facilities, which will be used in part for the
furnishing of water to the Contractor pursuant to the terms of this Contract; and

[3rd] WHEREAS, the rights to Project Water were acquired by the United States pursuant to
California law for operation of the Project; and

[3.1] WHEREAS, the Auburn Dam and Reservoir proposed to be constructed by the United
States as a Unit of the Central Valley Project has to date, not been constructed; and

[4th] WHEREAS, the Contractor and the United States entered into Contract
No. 14-06-200-5082A dated September 18, 1970, as amended, hereinafter referred to as the Existing
Contract, which established terms for the delivery to the Contractor of Central Valley Project Water
from the American River Division from September 18, 1970, through December 31, 2011; and

[4.1] WHEREAS, Contract No. 14-06-200-5082A, as amended, provides the Contractor an
entitlement of up to 117,000 acre-feet annually of Central Valley Project Water delivered at Auburn
Reservoir or at some other mutually agreeable location; and

[4.2] WHEREAS, Contract No. 14-06-200-5082A, as amended, also recognizes that the
Contractor acquired the right to divert, store, and distribute water from the American River pursuant
to permits issued by the California State Water Rights Board which is now called the State Water
Resources Control Board (SWRCB); and

[5th] Omitted; and

[6th] Omitted; and

[6.1] Omitted; and

[7th] WHEREAS, the United States has completed the Programmatic Environmental Impact Statement (PEIS) required under the CVPIA, and all other appropriate environmental review necessary to provide for amendment of the Existing Contract; and

[8th] WHEREAS, the Contractor has requested the amendment of the Existing Contract, pursuant to the terms of the Existing Contract, Federal Reclamation law, and the laws of the State of California, for water service from the Central Valley Project; and

[9th] WHEREAS, the United States has determined that the Contractor has fulfilled all of its obligations under the Existing Contract; and

[10th] WHEREAS, the Contracting Officer has determined that the Contractor has the capability to fully utilize for reasonable and beneficial use, or shown projected future reasonable and beneficial use for, the quantity of Project Water to be made available to it pursuant to this Contract; and

[11th] WHEREAS, water obtained from the Central Valley Project has been relied upon by urban areas within California for more than fifty (50) years, and is considered by the Contractor as an essential portion of its water supply; and

[12th] WHEREAS, the economies of regions within the Central Valley Project, including the Contractor's, depend upon the continued availability of water, including water service from the Central Valley Project; and

[13th] WHEREAS, the Secretary intends through coordination, cooperation, and partnerships to pursue measures to improve water supply, water quality, and reliability of the Project for all Project purposes; and

[14th] WHEREAS, the mutual goals of the United States and the Contractor include: to provide for reliable Central Valley Project Water supplies; to control costs of those supplies; to achieve repayment of the Central Valley Project as required by law; to guard reasonably against Central Valley Project Water shortages; to achieve a reasonable balance among competing demands for use of Central Valley Project Water; and to comply with all applicable environmental statutes, all consistent with the legal obligations of the United States relative to the Central Valley Project; and

[15th] WHEREAS, the parties intend by this Contract to develop a more cooperative relationship in order to achieve their mutual goals; and

[15.1] WHEREAS, the Contractor is a signatory to the Water Forum Agreement, which has the co-equal objectives to (1) provide a reliable and safe water supply for the Sacramento region's economic health and planned development through the year 2030, and (2) preserve the fishery, wildlife, recreational, and aesthetic values of the lower American River; and

[15.2] WHEREAS, the Contracting Officer is in support of the co-equal objectives of the Water Forum Agreement and intends to work cooperatively with the Contractor to investigate actions that they could take to implement the objectives of the Water Forum Agreement, which, if agreed to, would be the subject of a separate agreement between them; and

[16th] WHEREAS, the United States and the Contractor are willing to enter into this Amendatory Contract pursuant to Federal Reclamation law on the terms and conditions set forth below;

[17th] WHEREAS, the contract between the United States and the Contractor dated

February 20, 1963, relating to the operation of the Contractor's Middle Fork American River Project Reservoirs is still in full force and effect and is not affected by the terms and conditions of this Contract.

NOW, THEREFORE, in consideration of the mutual and dependent covenants herein contained, it is hereby mutually agreed by the parties hereto as follows:

DEFINITIONS

1. When used herein unless otherwise distinctly expressed, or manifestly incompatible with the intent of the parties as expressed in this Contract, the term:

(a) "Calendar Year" shall mean the period January 1 through December 31, both dates inclusive;

(b) "Charges" shall mean the payments required by Federal Reclamation law in addition to the Rates and Tiered Pricing Components specified in this Contract as determined annually by the Contracting Officer pursuant to this Contract;

(c) "Condition of Shortage" shall mean a condition respecting the Project during any Year such that the Contracting Officer is unable to deliver sufficient water to meet the Contract Total;

(d) "Contracting Officer" shall mean the Secretary of the Interior's duly authorized representative acting pursuant to this Contract or applicable Reclamation law or regulation;

(e) "Contract Total" shall mean the maximum amount of water to which the Contractor is entitled under subdivision (a) of Article 3 of this Contract;

(f) "Contractor's Service Area" shall mean the area to which the Contractor is permitted to provide Project Water under this Contract as described in Exhibit "A" attached hereto, which may be modified from time to time in accordance with Article 35 of this Contract without amendment of this Contract;

(g) "CVPIA" shall mean the Central Valley Project Improvement Act, Title XXXIV of the Act of October 30, 1992 (106 Stat. 4706);

(g.1) "Diversion Water" shall mean American River water to which the Contractor has acquired rights thereto under Permit Nos. 13855, 13856, 13857, and 13858 issued by the California State Water Rights Board, now referred to as the State Water Resources Control Board;

(h) "Eligible Lands" shall mean all lands to which Irrigation Water may be delivered in accordance with Section 204 of the Reclamation Reform Act of October 12, 1982 (96 Stat. 1263), as amended, hereinafter referred to as RRA;

(i) "Excess Lands" shall mean all lands in excess of the limitations contained in Section 204 of the RRA, other than those lands exempt from acreage limitation under Federal Reclamation law;

(j) "Full Cost Rate" shall mean that water rate described in Sections 205(a)(3) or 202(3) of the RRA, whichever is applicable;

(k) "Ineligible Lands" shall mean all lands to which Irrigation Water may not be delivered in accordance with Section 204 of the RRA;

(l) "Irrigation Full Cost Water Rate" shall have the same meaning as "full cost" as that term is used in paragraph (3) of Section 202 of the RRA;

1. (m) "Irrigation Water" shall mean water made available from the Project that is
138 used primarily in the production of agricultural crops or livestock, including domestic use incidental
139 thereto, and watering of livestock;

140 (n) "Landholder" shall mean a party that directly or indirectly owns or leases
141 nonexempt land, as provided in 43 CFR 426.2;

142 (o) "Municipal and Industrial (M&I) Water" shall mean Project Water, other than
143 Irrigation Water, made available to the Contractor. M&I Water shall include water used for human
144 use and purposes such as the watering of landscaping or pasture for animals (e.g., horses) which are
145 kept for personal enjoyment or water delivered to land holdings operated in units of less than five (5)
146 acres unless the Contractor establishes to the satisfaction of the Contracting Officer that the use of
147 water delivered to any such landholding is a use described in subdivision (m) of this Article;

1 (p) "M&I Full Cost Water Rate" shall mean the annual rate, which, as determined
149 by the Contracting Officer, shall amortize the expenditures for construction allocable to Project M&I
150 facilities in service, including, O&M deficits funded, less payments, over such periods as may be
151 required under Federal Reclamation law with interest accruing from the dates such costs were first
152 incurred plus the applicable rate for the O&M of such Project facilities. Interest rates used in the
153 calculation of the M&I Full Cost Rate shall comply with the Interest Rate methodology contained in
154 Section 202 (3) (B) and (C) of the RRA, as amended. O&M charges required under Federal
155 Reclamation law shall be collected in addition to the M&I Full Cost Water Rate;

156 (q) "Operation and Maintenance" or "O&M" shall mean normal and reasonable
157 care, control, operation, repair, replacement (other than Capital replacement), and maintenance of
158 Project facilities;

159 (r) Omitted;

(s) "Project" shall mean the Central Valley Project owned by the United States and managed by the Department of the Interior, Bureau of Reclamation;

(t) "Project Contractors" shall mean all parties who have water service contracts for Project Water from the Project with the United States pursuant to Federal Reclamation law;

(u) "Project Water" shall mean all water that is developed, diverted, stored, or delivered by the Secretary in accordance with the statutes authorizing the Project and in accordance with the terms and conditions of water rights acquired pursuant to California law;

(v) "Rates" shall mean the payments determined annually by the Contracting Officer in accordance with the then current applicable water ratesetting policies for the Project, as described in subdivision (a) of Article 7 of this Contract;

(w) "Recent Historic Average" shall mean the most recent five (5)-year average of the final forecast of Water Made Available to the Contractor pursuant to this Contract or its preceding contract(s);

(x) "Secretary" shall mean the Secretary of the Interior, a duly appointed successor, or an authorized representative acting pursuant to any authority of the Secretary and through any agency of the Department of the Interior;

(y) "Tiered Pricing Component" shall be the incremental amount to be paid for each acre-foot of Water Delivered as described in subdivision (j) of Article 7 of this Contract;

(z) "Water Delivered" or "Delivered Water" shall mean Project Water diverted for use by the Contractor at the point(s) of delivery approved by the Contracting Officer;

(aa) "Water Made Available" shall mean the estimated amount of Project Water that can be delivered to the Contractor for the upcoming Year as declared by the Contracting Officer, pursuant to subdivision (a) of Article 4 of this Contract;

(bb) "Water Scheduled" shall mean Project Water made available to the Contractor for which times and quantities for delivery have been established by the Contractor and Contracting

Officer, pursuant to subdivision (b) of Article 4 of this Contract; and

(cc) "Year" shall mean the period from and including March 1 of each Calendar Year through the last day of February of the following Calendar Year.

TERM OF CONTRACT

2. (a) This Contract shall be effective March 1, 2002, through December 31, 2011.

In the event the Contractor wishes to renew the Contract beyond December 31, 2011, the Contractor shall submit a request for renewal in writing to the Contracting Officer no later than two (2) years prior to the date this Contract expires. The renewal of this Contract insofar as it pertains to the furnishing of Irrigation Water to the Contractor shall be governed by subdivision (b) of this Article, and the renewal of this Contract insofar as it pertains to the furnishing of M&I Water to the Contractor shall be governed by subdivision (c) of this Article.

(b) (1) Under terms and conditions of a renewal contract that are mutually agreeable to the parties hereto, and upon a determination by the Contracting Officer that at the time of contract renewal the conditions set forth in subdivision (b)(2) of this Article are met, and subject to Federal and State law, this Contract, insofar as it pertains to the furnishing of Irrigation Water to the Contractor, shall be renewed for a period of twenty-five (25) years.

(2) The conditions which must be met for this Contract to be renewed are:
(i) the Contractor has prepared a water conservation plan that has been determined by the Contracting Officer in accordance with Article 26 of this Contract to meet the conservation and efficiency criteria for evaluating such plans established under Federal law; (ii) the Contractor is implementing an

effective water conservation and efficiency program based on the Contractor's water conservation plan as required by Article 26 of this Contract; (iii) the Contractor is operating and maintaining all water measuring devices and implementing all water measurement methods as approved by the Contracting Officer pursuant to Article 6 of this Contract; (iv) the Contractor has reasonably and beneficially used the Project Water supplies made available to it and, based on projected demands, is reasonably anticipated and expects fully to utilize for reasonable and beneficial use the quantity of Project Water to be made available to it pursuant to such renewal; (v) the Contractor is complying with all terms and conditions of this Contract; and (vi) the Contractor has the physical and legal ability to deliver Project Water.

(3) The terms and conditions of the renewal contract described in subdivision (b)(1) of this Article and any subsequent renewal contracts shall be developed consistent with the parties' respective legal rights and obligations, and in consideration of all relevant facts and circumstances, as those circumstances exist at the time of renewal, including, without limitation, the Contractor's need for continued delivery of Project Water; environmental conditions affected by implementation of the Contract to be renewed, and specifically changes in those conditions that occurred during the life of the Contract to be renewed; the Secretary's progress toward achieving the purposes of the CVPIA as set out in Section 3402 and in implementing the specific provisions of the CVPIA; and current and anticipated economic circumstances of the region served by the Contractor.

(c) This Contract, insofar as it pertains to the furnishing of M&I Water to the Contractor, shall be renewed for a period of twenty-five (25) years and thereafter shall be renewed for successive periods of up to forty years (40) each, which periods shall be consistent with the then-existing Reclamation-wide policy, under terms and conditions mutually agreeable to the parties and

consistent with Federal and State law. The present Reclamation-wide policy, dated March 20, 2000, provides that the term of such contracts shall be no more than twenty-five (25) years each, subject to a variance to allow a longer term in appropriate circumstances. The Contractor shall be afforded the opportunity to comment to the Contracting Officer on the proposed adoption and application of any revised Reclamation-wide policy applicable to the delivery of Project M&I Water that would limit the term of any subsequent renewal contract with the Contractor for the furnishing of M&I Water to less than twenty-five (25) years.

(d) The Contracting Officer anticipates that by December 31, 2024, all authorized Project construction expected to occur will have occurred, and on that basis the Contracting Officer agrees by that date to allocate all costs that are properly assignable to the Contractor, and agrees further that, at any time after such allocation is made, and subject to satisfaction of the conditions set out in this subdivision of this Article, this Contract shall, at the request of the Contractor, be converted to a contract under subsection (c)(1) of Section 9, of the Reclamation Project Act of 1939, subject to applicable Federal law and under stated terms and conditions mutually agreeable to the Contractor and the Contracting Officer. A condition for such conversion to occur shall be a determination by the Contracting Officer that, account being taken of the amount credited to return by the Contractor as provided for under Reclamation law, the remaining amount of construction costs assignable for ultimate return by the Contractor can probably be repaid to the United States within the term of a contract under said subsection 9(c)(1). If the remaining amount of costs that are properly assignable to the Contractor cannot be determined by December 31, 2024, the Contracting Officer shall notify the Contractor, and provide the reason(s) why such a determination could not be made. Further, the Contracting Officer shall make such a determination as soon thereafter as possible so as

to permit, upon request of the Contractor and satisfaction of the conditions set out above, conversion
to a contract under said subsection 9(c)(1). In the event such determination of costs has not been
made at a time which allows conversion of this Contract during the term of this Contract or the
Contractor has not requested conversion of this Contract within such term, the parties shall
incorporate in any subsequent renewal contract as described in subdivision (c) of this Article a
provision that carries forth in substantially identical terms the provisions of this subdivision (d). In
the event the Contracting Officer is able to make a determination of the remaining amount of costs
that are properly assignable to the Contractor before December 31, 2024, the Contracting Officer
shall do so at the earliest time the Contracting Officer has such ability.

WATER TO BE MADE AVAILABLE AND DELIVERED TO THE CONTRACTOR

3. (a) During each Year, consistent with all applicable State water rights, permits,
and licenses, Federal law, and subject to the provisions set forth in Articles 11 and 12 of this
Contract, the Contracting Officer shall make available for delivery to the Contractor 35,000 acre-feet
of Irrigation Water and/or M&I Water. The quantity of Water Delivered to the Contractor in
accordance with this subdivision shall be scheduled and paid for pursuant to the provisions of
Articles 4 and 7 of this Contract.

(1) The Contracting Officer recognizes that the Contractor has a right to
Diversion Water from the American River in the amount of 120,000 acre-feet in any Year said water
is available. Said Diversion Water is in addition to the Project Water made available pursuant to this
Contract. The quantities of Diversion Water to which the Contractor is entitled and which are not
taken or otherwise disposed of by the Contractor during that Year shall become the property of the
United States.

(2) The quantity of Diversion Water specified in subdivision (a)(1) of this Article is contingent upon the right of the Contractor to continue to take said quantity of water annually pursuant to California law. In the event that under such law the Contractor's right to take Diversion Water is less than the amount specified in subdivision (a)(1) above, the amount of Diversion Water which the Contracting Officer will recognize under this Amendatory Contract shall be reduced accordingly.

(b) Because the capacity of the Central Valley Project to deliver Project Water has been constrained in recent years and may be constrained in the future due to many factors including hydrologic conditions and implementation of Federal and State laws, the likelihood of the Contractor actually receiving the amount of Water set out in subdivision (a) of this Article in any given Year is uncertain. The Contracting Officer's most recent modeling referenced in the PEIS projected that the Contract Total set forth in this Contract will not be available to the Contractor in many years. During the most recent five (5) years, the Recent Historic Average of Water Made Available to the Contractor was 31,000 acre-feet. Nothing in subdivision (b) of this Article shall affect the rights and obligations of the parties under any provision of this Contract.

(c) The Contractor shall utilize the Project Water in accordance with all applicable legal requirements.

(d) The Contractor shall make reasonable and beneficial use of all Project Water or other water furnished pursuant to this Contract. Groundwater recharge programs, groundwater banking programs, surface water storage programs, and other similar programs utilizing Project Water or other water furnished pursuant to this Contract conducted within the Contractor's Service Area which are consistent with applicable State law and result in use consistent with Reclamation law

will be allowed; Provided, That any direct recharge program(s) is (are) described in the Contractor's Water Conservation Plan submitted pursuant to Article 26 of this Contract; groundwater, Provided, further, That such Water Conservation Plan demonstrates sufficient lawful uses exist in the Contractor's Service Area so that using a long-term average, the quantity of Delivered Water is demonstrated to be reasonable for such uses and in compliance with Reclamation Law. Groundwater recharge programs, groundwater banking programs, surface water storage programs, and other similar programs utilizing Project Water or other water furnished pursuant to this Contract conducted outside the Contractor's Service Area may be permitted upon written approval of the Contracting Officer, which approval will be based upon environmental documentation, Project Water rights, and Project operational concerns. The Contracting Officer will address such concerns in regulations, policies, or guidelines.

(e) The Contractor shall comply with requirements applicable to the Contractor in biological opinion(s) prepared as a result of a consultation regarding the execution of this Contract undertaken pursuant to Section 7 of the Endangered Species Act of 1973, as amended, that are within the Contractor's legal authority to implement. The Contractor shall comply with the limitations or requirements imposed by environmental documentation applicable to the Contractor and within its legal authority to implement. Nothing herein shall be construed to prevent the Contractor from challenging or seeking judicial relief in a court of competent jurisdiction with respect to any biological opinion or other environmental documentation referred to in this Article.

(f) Following the declaration of Water Made Available under Article 4 of this Contract, the Contracting Officer will make a determination whether Project Water, or other water available to the Project, can be made available to the Contractor in addition to the Contract Total

under Article 3 of this Contract during the Year without adversely impacting other Project

Contractors. At the request of the Contractor, the Contracting Officer will consult with the

Contractor prior to making such a determination. If the Contracting Officer determines that Project

Water, or other water available to the Project, can be made available to the Contractor, the

Contracting Officer will announce the availability of such water and shall so notify the Contractor as

soon as practical. The Contracting Officer will thereafter meet with the Contractor and other Project

Contractors capable of taking such water to determine the most equitable and efficient allocation of

such water. If the Contractor requests the delivery of any quantity of such water, the Contracting

Officer shall make such water available to the Contractor in accordance with applicable statutes,

regulations, guidelines, and policies.

(g) The Contractor may request permission to reschedule for use during the

subsequent Year some or all of the Water Made Available to the Contractor during the current Year

referred to as "carryover." The Contractor may request permission to use during the current Year a

quantity of Project Water which may be made available by the United States to the Contractor during

the subsequent Year referred to as "preuse." The Contracting Officer's written approval may permit

such uses in accordance with applicable statutes, regulations, guidelines, and policies.

(h) The Contractor's right pursuant to Federal Reclamation law and applicable

State law to the reasonable and beneficial use of Water Delivered pursuant to this Contract during the

term thereof and any subsequent renewal contracts, as described in Article 2 of this Contract, during

the terms thereof shall not be disturbed so long as the Contractor shall fulfill all of its obligations

under this Contract and any renewals thereof. Nothing in the preceding sentence shall affect the

Contracting Officer's ability to impose shortages under Article 11 or subdivision (b) of Article 12 of this Contract or applicable provisions of any subsequent renewal contracts.

(i) Project Water furnished to the Contractor pursuant to this Contract may be delivered for purposes other than those described in subdivision (o) of Article 1 of this Contract upon written approval by the Contracting Officer in accordance with the terms and conditions of such approval.

(j) Omitted.

(k) The Contracting Officer shall make reasonable efforts to protect the water rights necessary for the Project and to provide the water available under this Contract. The Contracting Officer shall not object to participation by the Contractor, in the capacity and to the extent permitted by law, in administrative proceedings related to the Project Water rights; Provided, however, That the Contracting Officer retains the right to object to the substance of the Contractor's position in such a proceeding.

TIME FOR DELIVERY OF WATER

(4) (a) On or about February 20 of each Calendar Year, the Contracting Officer shall announce the Contracting Officer's expected declaration of the Water Made Available. The declaration will be updated monthly, and more frequently if necessary, based on then-current operational and hydrologic conditions and a new declaration with changes, if any, to the Water Made Available will be made. The Contracting Officer shall provide forecasts of Project operations and the basis of the estimate, with relevant supporting information, upon the written request of the Contractor. Concurrently with the declaration of the Water Made Available, the Contracting Officer

shall provide the Contractor with the updated Recent Historic Average. The declaration of Project operations will be expressed in terms of both Water Made Available and the Recent Historic Average.

(b) On or before each March 1 and at such other times as necessary, the Contractor shall submit to the Contracting Officer a written schedule, satisfactory to the Contracting Officer, showing the monthly quantities of Project Water to be delivered by the United States to the Contractor pursuant to this Contract for the Year commencing on such March 1. The Contracting Officer shall use all reasonable means to deliver Project Water according to the approved schedule for the Year commencing on such March 1.

(c) The Contractor shall not schedule Project Water in excess of the quantity of Project Water the Contractor intends to put to reasonable and beneficial use within the Contractor's Service Area or to sell, transfer, or exchange pursuant to Article 9 of this Contract during any Year.

(d) Subject to the conditions set forth in subdivision (a) of Article 3 of this Contract, the United States shall deliver Project Water to the Contractor in accordance with the initial schedule submitted by the Contractor pursuant to subdivision (b) of this Article, or any written revision(s), satisfactory to the Contracting Officer, thereto submitted within a reasonable time prior to the date(s) on which the requested change(s) is/are to be implemented.

POINT OF DIVERSION AND RESPONSIBILITY FOR DISTRIBUTION OF WATER

5. (a) Project Water scheduled pursuant to subdivision (b) of Article 4 of this Contract shall be delivered to the Contractor at Folsom Dam and any additional point or points of delivery either on Project facilities or another location or locations mutually agreed to in writing by the Contracting Officer and the Contractor.

(b) The parties hereby acknowledge execution of the Stipulated Agreement dated September 8, 1998, recognizing the agreement by the United States, Bureau of Reclamation, subject

380 to certain conditions, to dismiss protests to the Contractor's petition to expand the place of use under
381 the Contractor's water right permits.

382 (c) The Contractor shall deliver Irrigation Water in accordance with any applicable
383 land classification provisions of Federal Reclamation law and the associated regulations. The
384 Contractor shall not deliver Project Water to land outside the Contractor's Service Area unless
385 approved in advance by the Contracting Officer.

386 (d) All Water Delivered to the Contractor pursuant to this Contract shall be
387 measured and recorded with equipment furnished, installed, operated, and maintained by the United
388 States, or other appropriate entity as designated by the Contracting Officer (hereafter "other
389 appropriate entity") at the point or points of delivery established pursuant to subdivision (a) of this
390 Article. Upon the request of either party to this Contract, the Contracting Officer shall investigate, or
1 cause to be investigated, the accuracy of such measurements and shall take any necessary steps to
392 adjust any errors appearing therein. For any period of time when accurate measurements have not
393 been made, the Contracting Officer shall consult with the Contractor prior to making a final
394 determination of the quantity delivered for that period of time.

395 (e) The Contracting Officer shall not be responsible for the control, carriage,
396 handling, use, disposal, or distribution of Project Water Delivered to the Contractor pursuant to this
397 Contract beyond the delivery points specified in subdivision (a) of this Article. The Contractor shall
398 indemnify the United States, its officers, employees, agents, and assigns on account of damage or
399 claim of damage of any nature whatsoever for which there is legal responsibility, including property
400 damage, personal injury, or death arising out of or connected with the control, carriage, handling, use,
401 disposal, or distribution of such Project Water beyond such delivery points, except for any damage or

claim arising out of: (i) acts or omissions of the Contracting Officer or any of its officers, employees,
agents, or assigns with the intent of creating the situation resulting in any damage or claim; (ii) willful
misconduct of the Contracting Officer or any of its officers, employees, agents, or assigns; (iii)
negligence of the Contracting Officer or any of its officers, employees, agents, or assigns; or (iv)
damage or claims resulting from a malfunction of facilities owned and/or operated by the United
States.

MEASUREMENT OF WATER WITHIN THE SERVICE AREA

6. (a) By (6 months after execution), the Contractor shall ensure that, unless the
Contractor establishes an alternative measurement program satisfactory to the Contracting Officer, all
surface water delivered by the Contractor for irrigation purposes within the Contractor's Service Area
is measured at each agricultural turnout and such water delivered by the Contractor for municipal and
industrial purposes is measured at each municipal and industrial service connection. The water
measuring devices or water measuring methods of comparable effectiveness must be acceptable to the
Contracting Officer. The Contractor shall be responsible for installing, operating, and maintaining
and repairing all such measuring devices and implementing all such water measuring methods at no
cost to the United States. The Contractor shall use the information obtained from such water
measuring devices or water measuring methods to ensure its proper management of the water, to bill
water users for water delivered by the Contractor; and, if applicable, to record water delivered for
municipal and industrial purposes by customer class as defined in the Contractor's water conservation
plan provided for in Article 26 of this Contract. Nothing herein contained, however, shall preclude
the Contractor from establishing and collecting any charges, assessments, or other revenues

authorized by California law. The Contractor shall include a summary of all its annual surface water deliveries in the annual report described in subdivision (c) of Article 26.

(b) To the extent the information has not otherwise been provided, upon execution of this Contract, the Contractor shall provide to the Contracting Officer a written report describing the measurement devices or water measuring methods being used or to be used to implement subdivision (a) of this Article and identifying the agricultural turnouts and municipal and industrial service connections or alternative measurement programs approved by the Contracting Officer, at which such measurement devices or water measuring methods are being used, and, if applicable, identifying the locations at which such devices and/or methods are not yet being used including a time schedule for implementation at such locations. The Contracting Officer shall advise the Contractor in writing within sixty (60) days as to the adequacy of, and necessary modifications, if any, of the measuring devices or water measuring methods identified in the Contractor's report and if the Contracting Officer does not respond in such time, they shall be deemed adequate. If the Contracting Officer notifies the Contractor that the measuring devices or methods are inadequate, the parties shall within sixty (60) days following the Contracting Officer's response, commence to negotiate in good faith how, and the earliest practicable date by which, the Contractor shall modify said measuring devices and/or measuring methods as required by the Contracting Officer to ensure compliance with subdivision (a) of this Article.

(c) All new surface water delivery systems installed for the delivery of Water Made Available under this Contract within the Contractor's Service Area after the effective date of this Contract shall also comply with the measurement provisions described in subdivision (a) of this Article.

(d) The Contractor shall inform the Contracting Officer and the State of California in writing by April 30 of each Year of the monthly volume of surface water delivered within the Contractor's Service Area during the previous Year.

(e) The Contractor shall inform the Contracting Officer on or before the twentieth (20th) calendar day of each month of the quantity of Irrigation and M&I Water taken during the preceding month.

RATES AND METHOD OF PAYMENT FOR WATER

7. (a) The Contractor shall pay the United States as provided in this Article for all Delivered Water at Rates, Charges, and the Tiered Pricing Component established in accordance with: (i) the Secretary's ratesetting policy for Irrigation Water adopted in 1988 and the Secretary's then-existing ratesetting policy for M&I Water. Such ratesetting policies shall be amended, modified, or superseded only through a public notice and comment procedure; (ii) applicable Reclamation law and associated rules and regulations, or policies; and (iii) other applicable provisions of this Contract. Payments shall be made by cash transaction, wire, or any other mechanism as may be agreed to in writing by the Contractor and the Contracting Officer. The Rates, Charges, and Tiered Pricing Components applicable to the Contractor upon execution of this Contract are set forth in Exhibit "B," as may be revised annually.

(b) The Contracting Officer shall notify the Contractor of the Rates, Charges, and Tiered Pricing Components as follows:

(1) Prior to July 1 of each Calendar Year, the Contracting Officer shall provide the Contractor an estimate of the Charges for Project Water that will be applied to the period October 1, of the current Calendar Year, through September 30, of the following Calendar Year, and

the basis for such estimate. The Contractor shall be allowed not less than two (2) months to review and comment on such estimates. On or before September 15 of each Calendar Year, the Contracting Officer shall notify the Contractor in writing of the Charges to be in effect during the period October 1 of the current Calendar Year, through September 30, of the following Calendar Year, and such notification shall revise Exhibit "B."

(2) Prior to October 1 of each Calendar Year, the Contracting Officer shall make available to the Contractor an estimate of the Rates and Tiered Pricing Components for Project Water for the following Year and the computations and cost allocations upon which those Rates are based. The Contractor shall be allowed not less than two (2) months to review and comment on such computations and cost allocations. By December 31 of each Calendar Year, the Contracting Officer shall provide the Contractor with the final Rates and Tiered Pricing Components to be in effect for the upcoming Year, and such notification shall revise Exhibit "B."

(c) At the time the Contractor submits the initial schedule for the delivery of Project Water for each Year pursuant to subdivision (b) of Article 4 of this Contract, the Contractor shall make an advance payment to the United States equal to the total amount payable pursuant to the applicable Rate(s) set under subdivision (a) of this Article, for the Project Water scheduled to be delivered pursuant to this Contract during the first two (2) calendar months of the Year. Before the end of the first month and before the end of each calendar month thereafter, the Contractor shall make an advance payment to the United States, at the Rate(s) set under subdivision (a) of this Article, for the Water Scheduled to be delivered pursuant to this Contract during the second month immediately following. Adjustments between advance payments for Water Scheduled and payments at Rates due for Water Delivered shall be made before the end of the following month; Provided, That any revised

schedule submitted by the Contractor pursuant to Article 4 of this Contract which increases the
490 amount of Water Delivered pursuant to this Contract during any month shall be accompanied with
491 appropriate advance payment, at the Rates then in effect, to assure that Project Water is not delivered
492 to the Contractor in advance of such payment. In any month in which the quantity of Water
493 Delivered to the Contractor pursuant to this Contract equals the quantity of Water Scheduled and paid
494 for by the Contractor, no additional Project Water shall be delivered to the Contractor unless and until
495 an advance payment at the Rates then in effect for such additional Project Water is made. Final
496 adjustment between the advance payments for the Water Scheduled and payments for the quantities
497 of Water Delivered during each Year pursuant to this Contract shall be made as soon as practicable
498 but no later than April 30th of the following Year, or sixty (60) days after the delivery of Project
499 Water carried over under subdivision (g) of Article 3 of this Contract if such water is not delivered by
the last day of February.

501 (d) The Contractor shall also make a payment in addition to the Rate(s) in
502 subdivision (c) of this Article to the United States for Water Delivered, at the Charges and the
503 appropriate Tiered Pricing Component then in effect, before the end of the month following the
504 month of delivery; Provided, That the Contractor may be granted an exception from the Tiered
505 Pricing Component pursuant to subdivision (j)(2) of this Article. The payments shall be consistent
506 with the quantities of M&I Water Delivered as shown in the water delivery report for the subject
507 month prepared by the Contracting Officer. The water delivery report shall be deemed a bill for the
508 payment of Charges and the applicable Tiered Pricing Component for Water Delivered. Adjustment
509 for overpayment or underpayment of Charges shall be made through the adjustment of payments due

to the United States for Charges for the next month. Any amount to be paid for past due payment of Charges and the Tiered Pricing Component shall be computed pursuant to Article 20 of this Contract.

(e) The Contractor shall pay for any Water Delivered under subdivision (d), (f), or (g) of Article 3 of this Contract as determined by the Contracting Officer pursuant to applicable statutes, associated regulations, any applicable provisions of guidelines or ratesetting policies; Provided, That the Rate for Water Delivered under subdivision (d) of Article 3 of this Contract shall be no more than the otherwise applicable Rate for M&I Water under subdivision (a) of this Article.

(f) Payments to be made by the Contractor to the United States under this Contract may be paid from any revenues available to the Contractor.

(g) All revenues received by the United States from the Contractor relating to the delivery of Project Water or the delivery of non-project water through Project facilities shall be allocated and applied in accordance with Federal Reclamation law and the associated rules or regulations, and the then current Project ratesetting policy for M&I Water.

(h) The Contracting Officer shall keep its accounts pertaining to the administration of the financial terms and conditions of its long-term contracts, in accordance with applicable Federal standards, so as to reflect the application of Project costs and revenues. The Contracting Officer shall, each Year upon request of the Contractor, provide to the Contractor a detailed accounting of all Project and Contractor expense allocations, the disposition of all Project and Contractor revenues, and a summary of all water delivery information. The Contracting Officer and the Contractor shall enter into good faith negotiations to resolve any discrepancies or disputes relating to accountings, reports, or information.

(i) The parties acknowledge and agree that the efficient administration of this Contract is their mutual goal. Recognizing that experience has demonstrated that mechanisms, policies, and procedures used for establishing Rates, Charges, and Tiered Pricing Components, and/or for making and allocating payments, other than those set forth in this Article may be in the mutual best interest of the parties, it is expressly agreed that the parties may enter into agreements to modify the mechanisms, policies, and procedures for any of those purposes while this Contract is in effect without amending this Contract.

(j) (1) Beginning at such time as deliveries of Project Water in a Year exceed eighty (80%) percent of the Contract Total, then before the end of the month following the month of delivery the Contractor shall make an additional payment to the United States equal to the applicable Tiered Pricing Component. The Tiered Pricing Component for the amount of Water Delivered in excess of eighty (80%) percent of the Contract Total, but less than or equal to ninety (90%) percent of the Contract Total, shall equal one-half of the difference between the Rate established under subdivision (a) of this Article and the M&I Full Cost Water Rate. The Tiered Pricing Component for the amount of Water Delivered which exceeds ninety (90%) percent of the Contract Total shall equal the difference between (i) the Rate established under subdivision (a) of this Article and (ii) the M&I Full Cost Water Rate.

(2) Subject to the Contracting Officer's written approval, the Contractor may request and receive an exemption from such Tiered Pricing Components for Project Water delivered to produce a crop which the Contracting Officer determines will provide significant and quantifiable habitat values for waterfowl in fields where the water is used and the crops are produced; Provided, That the exemption from the Tiered Pricing Components for Irrigation Water shall apply only if such habitat values can be assured consistent with the purpose of CVPIA through binding agreements executed with or approved by the Contracting Officer prior to use of such water.

555 (3) For purposes of determining the applicability of the Tiered Pricing
556 Components pursuant to this Article, Water Delivered shall include Project Water that the Contractor
557 transfers to others but shall not include Project Water transferred and delivered to the Contractor.

558 (k) For the term of this Contract, Rates under the respective ratesetting policies
559 will be established to recover only reimbursable "operation and maintenance" (including any deficits)
560 and capital costs of the Project, as those terms are used in the then-current Project ratesetting policies,
561 and interest, where appropriate, except in instances where a minimum Rate is applicable in
562 accordance with the relevant Project ratesetting policy. Changes of significance in practices which
563 implement the Contracting Officer's ratesetting policies will not be implemented until the
564 Contracting Officer has provided the Contractor an opportunity to discuss the nature, need, and
565 impact of the proposed change.

566 (l) Except as provided in subsections 3405(a)(1)(B) and 3405(f) of the CVPIA,
567 the Rates for Project Water transferred by the Contractor shall be the Contractor's Rates adjusted
568 upward or downward in accordance with the then-applicable CVP Ratesetting Policy to reflect the
569 changed costs, if any, incurred by the Contracting Officer in the delivery of the transferred Project
570 Water to the transferee's point of delivery.

571 (m) Pursuant to the Act of October 27, 1986 (100 Stat 3050), the Contracting
572 Officer is authorized to adjust determinations of ability to pay every five (5) years.

573 NON-INTEREST BEARING OPERATION AND MAINTENANCE DEFICITS

574 8. The Contractor and the Contracting Officer concur that, as of the effective date of this
575 Contract, the Contractor has no non-interest bearing operation and maintenance deficits and shall
576 have no further liability therefor.

SALES, TRANSFERS, OR EXCHANGES OF WATER

9. (a) The right to receive Project Water provided for in this Contract may be sold, transferred, or exchanged to others for reasonable and beneficial uses within the State of California if such sale, transfer, or exchange is authorized by applicable Federal and State laws, and applicable guidelines or regulations then in effect. No sale, transfer, or exchange of Project Water under this Contract may take place without the prior written approval of the Contracting Officer, except as provided for in subdivision (b) of this Article, and no such sales, transfers, or exchanges shall be approved absent compliance with appropriate environmental documentation including but not limited to the National Environmental Policy Act and the Endangered Species Act. Such environmental documentation should include, as appropriate, an analysis of groundwater impacts and economic and social effects, including environmental justice, of the proposed water transfers on both the transferor and transferee.

(b) In order to facilitate efficient water management by means of water transfers of the type historically carried out, among Project Contractors located within the same geographical area, by means of water transfers and to allow the Contractor to participate in an accelerated water transfer program during the term of this Contract, the Contracting Officer shall prepare, as appropriate, necessary environmental documentation including, but not limited to, the National Environmental Policy Act and the Endangered Species Act analyzing annual transfers within such geographical areas and the Contracting Officer shall determine whether such transfers comply with applicable law. Following the completion of the environmental documentation, such transfers addressed in such documentation shall be conducted with advance notice to the Contracting Officer, but shall not require prior written approval by the Contracting Officer. Such environmental

documentation and the Contracting Officer's compliance determination shall be reviewed every five (5) years and updated, as necessary, prior to the expiration of the then-existing five (5)-year period.

All subsequent environmental documentation shall include an alternative to evaluate not less than the quantity of Project Water historically transferred within the same geographical area.

(c) For a water transfer to qualify under subdivision (b) of this Article, such water transfer must: (i) be for irrigation purposes for lands irrigated within the previous three (3) years, or to be delivered to established wildlife refuges, groundwater basins or for municipal and industrial use or for fish and wildlife purposes; (ii) occur within a single Year; (iii) occur between a willing seller and a willing buyer; (iv) convey water through existing Project facilities with no new construction or modifications to Project facilities and be between existing Project Contractors and/or the Contractor and the United States, Department of the Interior; and (v) comply with all applicable Federal, State, and local or tribal laws and requirements imposed for protection of the environment and Indian Trust Assets, as defined under Federal law. Such water transfers must not lead to land conversion.

(d) Solely for the purpose of determining whether Section 3405(a)(1)(M) of the CVPIA applies to the Contractor as a transferor or transferee of Project Water, the Contracting Officer acknowledges that the Contractor is within a county, watershed, or other area of origin, as those terms are utilized under California law, of water that constitutes the natural flow of the American River and its tributaries above the confluence of the American and Sacramento Rivers.

APPLICATION OF PAYMENTS AND ADJUSTMENTS

10. (a) The amount of any overpayment by the Contractor of the Contractor's O&M, Capital, and deficit (if any) obligations for the Year shall be applied first to any current liabilities of the Contractor arising out of this Contract then due and payable. Overpayments of more than

One Thousand Dollars (\$1,000) shall be refunded at the Contractor's request. In lieu of a refund, any amount of such overpayment at the option of the Contractor, may be credited against amounts to become due to the United States by the Contractor. With respect to overpayment, such refund or adjustment shall constitute the sole remedy of the Contractor or anyone having or claiming to have the right to the use of any of the Project Water supply provided for herein. All credits and refunds of overpayments shall be made within thirty (30) days of the Contracting Officer obtaining direction as to how to credit or refund such overpayment in response to the notice to the Contractor that it has finalized the accounts for the Year in which the overpayment was made.

(b) All advances for miscellaneous costs incurred for work requested by the Contractor pursuant to Article 25 of this Contract shall be adjusted to reflect the actual costs when the work has been completed. If the advances exceed the actual costs incurred, the difference will be refunded to the Contractor. If the actual costs exceed the Contractor's advances, the Contractor will be billed for the additional costs pursuant to Article 25 of this Contract.

TEMPORARY REDUCTIONS--RETURN FLOWS

11. (a) Subject to: (i) the authorized purposes and priorities of the Project and the requirements of Federal law and (ii) the obligations of the United States under existing contracts, or renewals thereof, providing for water deliveries from the Project, the Contracting Officer shall make all reasonable efforts to optimize Project Water deliveries to the Contractor as provided in this Contract.

(b) The Contracting Officer may temporarily discontinue or reduce the quantity of Water Delivered to the Contractor as herein provided for the purposes of investigation, inspection, maintenance, repair, or replacement of any of the Project facilities or any part thereof necessary for

the delivery of Project Water to the Contractor, but so far as feasible the Contracting Officer will give
644 the Contractor due notice in advance of such temporary discontinuance or reduction, except in case of
645 emergency, in which case no notice need be given; Provided, That the United States shall use its best
646 efforts to avoid any discontinuance or reduction in such service. Upon resumption of service after
647 such reduction or discontinuance, and if requested by the Contractor, the United States will, if
648 possible, deliver the quantity of Project Water which would have been delivered hereunder in the
649 absence of such discontinuance or reduction.

650 (c) The United States reserves the right to all seepage and return flow water
651 derived from Water Delivered to the Contractor hereunder which escapes or is discharged beyond the
652 Contractor's Service Area; Provided, That this shall not be construed as claiming for the United States
653 any right as seepage or return flow being put to reasonable and beneficial use pursuant to this
654 Contract within the Contractor's Service Area by the Contractor or those claiming by, through, or
655 under the Contractor.

656 CONSTRAINTS ON THE AVAILABILITY OF WATER

657 12. (a) In its operation of the Project, the Contracting Officer will use all reasonable
658 means to guard against a Condition of Shortage in the quantity of water to be made available to the
659 Contractor pursuant to this Contract. In the event the Contracting Officer determines that a Condition
660 of Shortage appears probable, the Contracting Officer will notify the Contractor of said determination
661 as soon as practicable.

662 (b) If there is a Condition of Shortage because of errors in physical operations of
663 the Project, drought, other physical causes beyond the control of the Contracting Officer or actions
664 taken by the Contracting Officer to meet legal obligations then, except as provided in subdivision (a)

of Article 18 of this Contract, no liability shall accrue against the United States or any of its officers,
agents, or employees for any damage, direct or indirect, arising therefrom.

(c) Project Water furnished under this Amendatory Contract, and any renewals thereof, will be allocated in accordance with the then-existing Project M&I Water Shortage Policy. Such policy shall be amended, modified, or superseded only through a public notice and comment procedure.

UNAVOIDABLE GROUNDWATER PERCOLATION

13. To the extent applicable, the Contractor shall not be deemed to have delivered Irrigation Water to Excess Lands or Ineligible Lands within the meaning of this Contract if such lands are irrigated with groundwater that reaches the underground strata as an unavoidable result of the delivery of Irrigation Water by the Contractor to Eligible Lands.

RULES AND REGULATIONS

14. The parties agree that the delivery of Irrigation Water or use of Federal facilities pursuant to this Contract is subject to Federal Reclamation law, including but not limited to, the Reclamation Reform Act of 1982 (43 U.S.C. 390aa et seq.), as amended and supplemented, and the rules and regulations promulgated by the Secretary of the Interior under Federal Reclamation law.

WATER AND AIR POLLUTION CONTROL

15. The Contractor, in carrying out this Contract, shall comply with all applicable water and air pollution laws and regulations of the United States and the State of California, and shall obtain all required permits or licenses from the appropriate Federal, State, or local authorities.

QUALITY OF WATER

16. (a) Project facilities used to deliver Project Water to the Contractor pursuant to this Contract shall be operated and maintained to enable the United States to deliver Project Water to the Contractor in accordance with the water quality standards specified in subsection 2(b) of the Act

of August 26, 1937 (50 Stat. 850), as added by Section 101 of the Act of October 27, 1986 (100 Stat. 3050), or other existing Federal laws. The United States is under no obligation to construct or furnish water treatment facilities to maintain or to improve the quality of Water Delivered to the Contractor pursuant to this Contract. The United States does not warrant the quality of Water Delivered to the Contractor pursuant to this Contract.

(b) The Operation and Maintenance of Project facilities shall be performed in such manner as is practicable to maintain the quality of raw water made available through such facilities at the highest level reasonably attainable as determined by the Contracting Officer. The Contractor shall be responsible for compliance with all State and Federal water quality standards applicable to surface and subsurface agricultural drainage discharges, if any, generated through the use of Federal or Contractor facilities or Project Water provided by the Contractor within the Contractor's Service Area.

WATER ACQUIRED BY THE CONTRACTOR
OTHER THAN FROM THE UNITED STATES

17. (a) Water or water rights now owned or hereafter acquired by the Contractor other than from the United States and Irrigation Water furnished pursuant to the terms of this Contract may be simultaneously transported through the same distribution facilities of the Contractor subject to the following: (i) if the facilities utilized for commingling Irrigation Water and were constructed without funds made available pursuant to Federal Reclamation law, the provisions of Federal Reclamation law will be applicable only to the Landholders of lands which receive Irrigation Water; (ii) the eligibility of land to receive Irrigation Water must be established through the certification requirements as specified in the Acreage Limitation Rules and Regulations (43 CFR Part 426); (iii) the water requirements of Eligible Lands within the Contractor's Service Area can be

established and the quantity of Irrigation Water to be utilized is less than or equal to the quantity
713 necessary to irrigate such Eligible Lands; and (iv) if the facilities utilized for commingling Irrigation
714 Water and are/were constructed with funds made available pursuant to Federal Reclamation law, the
715 Contractor will be subject to the acreage limitation provisions of Federal Reclamation law, unless the
716 Contractor pays to the United States the incremental fee described in 43 CFR 426.15. In determining
717 the incremental fee, the Contracting Officer will calculate annually the cost to the Federal Government,
718 including interest of storing or delivering, which for purposes of this Contract shall be determined as
719 follows: The quotient shall be the unpaid distribution system costs divided by the total irrigable
720 acreage within the Contractor's Service Area. The incremental fee per acre is the mathematical result
721 of such quotient times the interest rate determined using Section 202 (3) of the Act of October 12, 1982
722 (96 Stat. 1263). Such incremental fee will be charged to each acre of excess or full cost land within the
723 Contractor's Service Area that receives through Federally financed or constructed facilities. The
724 incremental fee calculation methodology will continue during the term of this Contract absent the
725 promulgation of a contrary Reclamation-wide rule, regulation, or policy adopted after the Contractor
726 has been afforded the opportunity to review and comment on the proposed rule, regulation, or policy.
727 If such rule, regulation, or policy is adopted it shall supersede this provision.

728 (b) Water or water rights now owned or hereafter acquired by the Contractor, other
729 than from the United States or adverse to the Project or its contractors (i.e., non-project water) may be
730 stored, conveyed, and/or diverted through Project facilities, subject to the completion of appropriate
731 environmental documentation, with the approval of the Contracting Officer and the execution of any
732 contract determined by the Contracting Officer to be necessary, consistent with the following
733 provisions:

(1) The Contractor may introduce non-project water into Project facilities and deliver said water to lands within the Contractor's Service Area, including Ineligible Lands, subject to payment to the United States of an appropriate rate as determined by the CVP Ratesetting Policy and the Reclamation Reform Act of 1982, each as amended, modified, or superseded from time to time. In addition, if electrical power is required to pump non-project water through the facilities, the Contractor shall be responsible for obtaining the necessary power and paying the necessary charges therefor.

(2) Delivery of such non-project water in and through Project facilities shall only be allowed to the extent such deliveries do not: (i) interfere with other Project purposes as determined by the Contracting Officer; (ii) reduce the quantity or quality of water available to other Project water service contractors; (iii) interfere with the delivery of contractual water entitlements to any other Project water service contractors; or (iv) interfere with the physical maintenance of the Project facilities; Provided, that nothing in this Article is intended to limit the United States' obligation to pass the Contractor's Diversion Water through Project storage facilities to the extent required under the applicable provisions of California law.

(3) The United States shall not be responsible for control, care, or distribution of the non-project water before it is introduced into or after it is delivered from the Project facilities. The Contractor hereby releases and agrees to defend and indemnify the United States and their respective officers, agents, and employees, from any claim for damage to persons or property, direct or indirect, resulting from Contractor's diversion or extraction of non-project water from any source.

(4) Diversion of such non-project water into Project facilities shall be consistent with all applicable laws, and if involving groundwater, consistent with any groundwater management plan applicable to the Contractor for the area from which it was extracted.

(5) After Project purposes are met, as determined by the Contracting Officer, the United States and the Contractor shall share priority to utilize the remaining capacity of the facilities declared to be available by the Contracting Officer for conveyance and transportation of non-project water prior to any such remaining capacity being made available to non-Project contractors.

OPINIONS AND DETERMINATIONS

18. (a) Where the terms of this Contract provide for actions to be based upon the opinion or determination of either party to this Contract, said terms shall not be construed as permitting such action to be predicated upon arbitrary, capricious, or unreasonable opinions or determinations. Both parties, notwithstanding any other provisions of this Contract, expressly reserve the right to seek relief from and appropriate adjustment for any such arbitrary, capricious, or unreasonable opinion or determination. Each opinion or determination by either party shall be provided in a timely manner. Nothing in subdivision (a) of Article 18 of this Contract is intended to or shall affect or alter the standard of judicial review applicable under Federal law to any opinion or determination implementing a specific provision of Federal law embodied in statute or regulation.

(b) The Contracting Officer shall have the right to make determinations necessary to administer this Contract that are consistent with the provisions of this Contract, the laws of the United States and of the State of California, and the rules and regulations promulgated by the Secretary of the Interior. Such determinations shall be made in consultation with the Contractor to the extent reasonably practicable.

COORDINATION AND COOPERATION

19. (a) In order to further their mutual goals and objectives, the Contracting Officer and the Contractor shall communicate, coordinate, and cooperate with each other, and with other affected Project Contractors, in order to improve the operation and management of the Project. The communication, coordination, and cooperation regarding operations and management shall include, but not be limited to, any action which will or may materially affect the quantity or quality of Project Water supply, the allocation of Project Water supply, and Project financial matters including, but not limited to, budget issues. The communication, coordination, and cooperation provided for hereunder shall extend to all provisions of this Contract. Each party shall retain exclusive decision making authority for all actions, opinion, and determinations to be made by the respective party.

(b) Within one hundred twenty (120) days following the effective date of this Contract, the Contractor, other affected Project Contractors, and the Contracting Officer shall arrange to meet with interested Project Contractors to develop a mutually agreeable, written Project-wide process, which may be amended as necessary separate and apart from this Contract. The goal of this process shall be to provide, to the extent practicable, the means of mutual communication and interaction regarding significant decisions concerning Project operation and management on a real-time basis.

(c) In light of the factors referred to in subdivision (b) of Article 3 of this Contract, it is the intent of the Secretary to improve water supply reliability. To carry out this intent:

(1) The Contracting Officer will, at the request of the Contractor, assist in the development of integrated resource management plans for the Contractor. Further, the Contracting Officer will, as appropriate, seek authorizations for implementation of partnerships to improve water supply, water quality, and reliability.

(2) The Secretary will, as appropriate, pursue program and project implementation and authorization in coordination with Project Contractors to improve the water supply, water quality, and reliability of the Project for all Project purposes.

(3) The Secretary will coordinate with Project Contractors and the State of California to seek improved water resource management.

(4) The Secretary will coordinate actions of agencies within the Department of the Interior that may impact the availability of water for Project purposes.

(5) The Contracting Officer shall periodically, but not less than annually, hold division level meetings to discuss Project operations, division level water management activities, and other issues as appropriate.

(d) Without limiting the contractual obligations of the Contracting Officer hereunder, nothing in this Contract shall be construed to limit or constrain the Contracting Officer's ability to communicate, coordinate, and cooperate with the Contractor or other interested stakeholders or to make decisions in a timely fashion as needed to protect health, safety, or physical integrity of structures or facilities. Nothing in this Article shall be construed to limit or constrain the Contracting Officer's ability to comply with applicable laws.

CHARGES FOR DELINQUENT PAYMENTS

20. (a) The Contractor shall be subject to interest, administrative, and penalty charges on delinquent installments or payments. When a payment is not received by the due date, the Contractor shall pay an interest charge for each day the payment is delinquent beyond the due date. When a payment becomes sixty (60) days delinquent, the Contractor shall pay an administrative charge to cover additional costs of billing and processing the delinquent payment. When a payment is delinquent ninety (90) days or more, the Contractor shall pay an additional penalty charge of six (6%) percent per year for each day the payment is delinquent beyond the due date. Further, the Contractor shall pay any fees incurred for debt collection services associated with a delinquent payment.

(b) The interest charge rate shall be the greater of the rate prescribed quarterly in the Federal Register by the Department of the Treasury for application to overdue payments, or the interest rate of one-half of one (0.5%) percent per month prescribed by Section 6 of the Reclamation Project Act of 1939 (Public Law 76-260). The interest charge rate shall be determined as of the due date and remain fixed for the duration of the delinquent period.

(c) When a partial payment on a delinquent account is received, the amount received shall be applied, first to the penalty, second to the administrative charges, third to the accrued interest, and finally to the overdue payment.

EQUAL OPPORTUNITY

21. During the performance of this Contract, the Contractor agrees as follows:

(a) The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The Contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to, the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination, rates of payment or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Contracting Officer setting forth the provisions of this nondiscrimination clause.

(b) The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without discrimination because of race, color, religion, sex, or national origin.

(c) The Contractor will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the Contracting Officer, advising the said labor union or workers' representative of the Contractor's commitments under Section 202 of Executive Order 11246 of September 24, 1965, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(d) The Contractor will comply with all provisions of Executive Order No. 11246 of September 24, 1965, as amended, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(e) The Contractor will furnish all information and reports required by said amended Executive Order and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to its books, records, and accounts by the Contracting Officer and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

862 (f) In the event of the Contractor's noncompliance with the nondiscrimination
863 clauses of this Contract or with any of the said rules, regulations, or orders, this Contract may be
864 canceled, terminated, or suspended, in whole or in part, and the Contractor may be declared ineligible
865 for further Government contracts in accordance with procedures authorized in said amended Executive
866 Order, and such other sanctions may be imposed and remedies invoked as provided in said Executive
Order, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

867 (g) The Contractor will include the provisions of paragraphs (a) through (g) in every
868 subcontract or purchase order unless exempted by the rules, regulations, or orders of the Secretary of
869 Labor issued pursuant to Section 204 of said amended Executive Order, so that such provisions will be
870 binding upon each subcontractor or vendor. The Contractor will take such action with respect to any
871 subcontract or purchase order as may be directed by the Secretary of Labor as a means of enforcing
872 such provisions, including sanctions for noncompliance: Provided, however, That in the event the
873 Contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a
874 result of such direction, the Contractor may request the United States to enter into such litigation to
875 protect the interests of the United States.

876 GENERAL OBLIGATION--BENEFITS CONDITIONED UPON PAYMENT

877 22. (a) The obligation of the Contractor to pay the United States as provided in this
878 Contract is a general obligation of the Contractor notwithstanding the manner in which the obligation
879 may be distributed among the Contractor's water users and notwithstanding the default of individual
880 water users in their obligations to the Contractor.

881 (b) The payment of charges becoming due hereunder is a condition precedent to
882 receiving benefits under this Contract. The United States shall not make water available to the
883 Contractor through Project facilities during any period in which the Contractor may be in arrears in the
884 advance payment of water rates due the United States. The Contractor shall not furnish water made
885 available pursuant to this Contract for lands or parties which are in arrears in the advance payment of
886 water rates levied or established by the Contractor.

887 (c) With respect to subdivision (b) of this Article, the Contractor shall have no
888 obligation to require advance payment for water rates which it levies.

889 COMPLIANCE WITH CIVIL RIGHTS LAWS AND REGULATIONS

890 23. (a) The Contractor shall comply with Title VI of the Civil Rights Act of 1964 (42
891 U.S.C. 2000d), Section 504 of the Rehabilitation Act of 1975 (P.L. 93-112, as amended), the Age
892 Discrimination Act of 1975 (42 U.S.C. 6101, et seq.) and any other applicable civil rights laws, as well
893 as with their respective implementing regulations and guidelines imposed by the U.S. Department of
894 the Interior and/or Bureau of Reclamation.

(b) These statutes require that no person in the United States shall, on the grounds of race, color, national origin, handicap, or age, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity receiving financial assistance from the Bureau of Reclamation. By executing this Contract, the Contractor agrees to immediately take any measures necessary to implement this obligation, including permitting officials of the United States to inspect premises, programs, and documents.

(c) The Contractor makes this agreement in consideration of and for the purpose of obtaining any and all Federal grants, loans, contracts, property discounts, or other Federal financial assistance extended after the date hereof to the Contractor by the Bureau of Reclamation, including installment payments after such date on account of arrangements for Federal financial assistance which were approved before such date. The Contractor recognizes and agrees that such Federal assistance will be extended in reliance on the representations and agreements made in this Article, and that the United States reserves the right to seek judicial enforcement thereof.

PRIVACY ACT COMPLIANCE

24. (a) The Contractor shall comply with the Privacy Act of 1974 (5 U.S.C. 552a) (the Act) and the Department of the Interior rules and regulations under the Act (43 CFR 2.45 et seq.) in maintaining Landholder acreage certification and reporting records, required to be submitted to the Contractor for compliance with Sections 206 and 228 of the Reclamation Reform Act of 1982 (96 Stat. 1266), and pursuant to 43 CFR 426.18.

(b) With respect to the application and administration of the criminal penalty provisions of the Act (5 U.S.C. 552a(i)), the Contractor and the Contractor's employees responsible for maintaining the certification and reporting records referenced in (a) above are considered to be employees of the Department of the Interior. See 5 U.S.C. 552a(m).

(c) The Contracting Officer or a designated representative shall provide the Contractor with current copies of the Interior Department Privacy Act regulations and the Bureau of Reclamation Federal Register Privacy Act System of Records Notice (Acreage Limitation--Interior, Reclamation-31) which govern the maintenance, safeguarding, and disclosure of information contained in the Landholder's certification and reporting records.

(d) The Contracting Officer shall designate a full-time employee of the Bureau of Reclamation to be the System Manager who shall be responsible for making decisions on denials pursuant to 43 CFR 2.61 and 2.64 amendment requests pursuant to 43 CFR 2.72. The Contractor is authorized to grant requests by individuals for access to their own records.

(e) The Contractor shall forward promptly to the System Manager each proposed denial of access under 43 CFR 2.64; and each request for amendment of records filed under 43 CFR 2.71; notify the requester accordingly of such referral; and provide the System Manager with information and records necessary to prepare an appropriate response to the requester. These requirements do not apply to individuals seeking access to their own certification and reporting forms

filed with the Contractor pursuant to 43 CFR 426.18, unless the requester elects to cite the Privacy Act as a basis for the request.

934 CONTRACTOR TO PAY CERTAIN MISCELLANEOUS COSTS

935 25. In addition to all other payments to be made by the Contractor pursuant to this Contract,
936 the Contractor shall pay to the United States, within sixty (60) days after receipt of a bill and detailed
937 statement submitted by the Contracting Officer to the Contractor for such specific items of direct cost
938 incurred by the United States for work requested by the Contractor associated with this Contract plus
939 indirect costs in accordance with applicable Bureau of Reclamation policies and procedures. All such
940 amounts referred to in this Article shall not exceed the amount agreed to in writing in advance by the
941 Contractor. This Article shall not apply to costs for routine contract administration.

942 WATER CONSERVATION

943 26. (a) Prior to the delivery of water provided from or conveyed through Federally
944 constructed or Federally financed facilities pursuant to this Contract, the Contractor shall be
945 implementing an effective water conservation and efficiency program based on the Contractor's water
946 conservation plan that has been determined by the Contracting Officer to meet the conservation and
947 efficiency criteria for evaluating water conservation plans established under Federal law. The water
948 conservation and efficiency program shall contain definite water conservation objectives, appropriate
949 economically feasible water conservation measures, and time schedules for meeting those objectives.
950 Continued Project Water delivery pursuant to this Contract shall be contingent upon the Contractor's
951 continued implementation of such water conservation program. In the event the Contractor's water
952 conservation plan or any revised water conservation plan completed pursuant to subdivision (d) of
953 Article 26 of this Contract have not yet been determined by the Contracting Officer to meet such
954 criteria, due to circumstances which the Contracting Officer determines are beyond the control of the

Contractor, water deliveries shall be made under this Contract so long as the Contractor diligently works with the Contracting Officer to obtain such determination at the earliest practicable date, and thereafter the Contractor immediately begins implementing its water conservation and efficiency program in accordance with the time schedules therein.

(b) Should the amount of M&I Water delivered pursuant to subdivision (a) of Article 3 of this Contract equal or exceed two thousand (2,000) acre-feet per Year, the Contractor shall implement the Best Management Practices identified by the time frames issued by the California Urban Water Conservation Council for such M&I Water unless any such practice is determined by the Contracting Officer to be inappropriate for the Contractor.

(c) The Contractor shall submit to the Contracting Officer a report on the status of its implementation of the water conservation plan on the reporting dates specified in the then existing conservation and efficiency criteria established under Federal law.

(d) At five (5)-year intervals, the Contractor shall revise its water conservation plan to reflect the then current conservation and efficiency criteria for evaluating water conservation plans established under Federal law and submit such revised water management plan to the Contracting Officer for review and evaluation. The Contracting Officer will then determine if the water conservation plan meets Reclamation's then current conservation and efficiency criteria for evaluating water conservation plans established under Federal law.

(e) If the Contractor is engaged in direct groundwater recharge, such activity shall be described in the Contractor's water conservation plan. Such Water Conservation Plan shall demonstrate sufficient lawful uses exist in the Contractor's Service Area so that using a long-term average, the quantity of Delivered Water is demonstrated to be reasonable for such uses and in compliance with Reclamation Law.

EXISTING OR ACQUIRED WATER OR WATER RIGHTS

27. Except as specifically provided in Article 17 of this Contract, the provisions of this Contract shall not be applicable to or affect non-project water or water rights now owned or hereafter acquired by the Contractor or any user of such water within the Contractor's Service Area. Any such water shall not be considered Project Water under this Contract. In addition, this Contract shall not be construed as limiting or curtailing any rights which the Contractor or any water user within the Contractor's Service Area acquires or has available under any other contract pursuant to Federal Reclamation law.

OPERATION AND MAINTENANCE BY NON-FEDERAL ENTITY

28. Omitted.

CONTINGENT ON APPROPRIATION OR ALLOTMENT OF FUNDS

29. The expenditure or advance of any money or the performance of any obligation of the United States under this Contract shall be contingent upon appropriation or allotment of funds. Absence of appropriation or allotment of funds shall not relieve the Contractor from any obligations under this Contract. No liability shall accrue to the United States in case funds are not appropriated or allotted.

BOOKS, RECORDS, AND REPORTS

30. (a) The Contractor shall establish and maintain accounts and other books and records pertaining to administration of the terms and conditions of this Contract, including: the Contractor's financial transactions, water supply data, and Project land and right-of-way agreements; the water users' land-use (crop census), land ownership, land-leasing and water use data; and other matters that the Contracting Officer may require. Reports thereon shall be furnished to the Contracting Officer in such form and on such date or dates as the Contracting Officer may require. Subject to applicable Federal laws and regulations, each party to this Contract shall have the right during office hours to examine and make copies of the other party's books and records relating to matters covered by this Contract.

(b) Notwithstanding the provisions of subdivision (a) of this Article, no books, records, or other information shall be requested from the Contractor by the Contracting Officer unless such books, records, or information are reasonably related to the administration or performance of this Contract. Any such request shall allow the Contractor a reasonable period of time within which to provide the requested books, records, or information.

(c) Omitted.

ASSIGNMENT LIMITED--SUCCESSORS AND ASSIGNS OBLIGATED

31. (a) The provisions of this Contract shall apply to and bind the successors and assigns of the parties hereto, but no assignment or transfer of this Contract or any right or interest therein shall be valid until approved in writing by the Contracting Officer.

(b) The assignment of any right or interest in this Contract by either party shall not interfere with the rights or obligations of the other party to this Contract absent the written concurrence of said other party.

(c) The Contracting Officer shall not unreasonably condition or withhold approval of any proposed assignment.

SEVERABILITY

32. In the event that a person or entity who is neither (i) a party to a Project contract, nor (ii) a person or entity that receives Project Water from a party to a Project contract, nor (iii) an association or other form of organization whose primary function is to represent parties to Project contracts, brings an action in a court of competent jurisdiction challenging the legality or enforceability of a provision included in this Contract and said person, entity, association, or organization obtains a final court decision holding that such provision is legally invalid or unenforceable and the Contractor has not intervened in that lawsuit in support of the plaintiff(s), the parties to this Contract shall use their best

1 efforts to (i) within thirty (30) days of the date of such final court decision identify by mutual
1028 agreement the provisions in this Contract which must be revised and (ii) within three (3) months
1029 thereafter promptly agree on the appropriate revision(s). The time periods specified above may be
1030 extended by mutual agreement of the parties. Pending the completion of the actions designated above,
1031 to the extent it can do so without violating any applicable provisions of law, the United States shall
1032 continue to make the quantities of Project Water specified in this Contract available to the Contractor
1033 pursuant to the provisions of this Contract which were not found to be legally invalid or unenforceable
1034 in the final court decision.

1035 RESOLUTION OF DISPUTES

1036 33. Should any dispute arise concerning any provisions of this Contract, or the parties'
1037 rights and obligations thereunder, the parties shall meet and confer in an attempt to resolve the dispute.
8 Prior to the Contractor commencing any legal action, or the Contracting Officer referring any matter to
1039 Department of Justice, the party shall provide to the other party thirty (30) days' written notice of the
1040 intent to take such action; Provided, That such notice shall not be required where a delay in
1041 commencing an action would prejudice the interests of the party that intends to file suit. During the
1042 thirty (30)-day notice period, the Contractor and the Contracting Officer shall meet and confer in an
1043 attempt to resolve the dispute. Except as specifically provided, nothing herein is intended to waive or
1044 abridge any right or remedy that the Contractor or the United States may have.

1045 OFFICIALS NOT TO BENEFIT

1046 34. No Member of or Delegate to Congress, Resident Commissioner, or official of the
1047 Contractor shall benefit from this Contract other than as a water user or landowner in the same manner
1048 as other water users or landowners.

1
1050
1051
1052
CHANGES IN CONTRACTOR'S SERVICE AREA

1050 35. (a) While this Contract is in effect, no change may be made in the Contractor's
1051 Service Area or boundaries, by inclusion or exclusion of lands, dissolution, consolidation, merger, or
1052 otherwise, except upon the Contracting Officer's written consent.

1053 (b) Within thirty (30) days of receipt of a request for such a change, the Contracting
1054 Officer will notify the Contractor of any additional information required by the Contracting Officer for
1055 processing said request, and both parties will meet to establish a mutually agreeable schedule for
1056 timely completion of the process. Such process will analyze whether the proposed change is likely to:
1057 (i) result in the use of Project Water contrary to the terms of this Contract; (ii) impair the ability of the
1058 Contractor to pay for Project Water furnished under this Contract or to pay for any Federally
1059 constructed facilities for which the Contractor is responsible; and (iii) have an impact on any Project
1060 Water rights applications, permits, or licenses. In addition, the Contracting Officer shall comply with
1061 the National Environmental Policy Act and the Endangered Species Act. The Contractor will be
1062 responsible for all costs incurred by the Contracting Officer in this process, and such costs will be paid
1063 in accordance with Article 25 of this Contract.

1064 FEDERAL LAWS

1065 36. By entering into this Contract, the Contractor does not waive its rights to contest the
1066 validity or application in connection with the performance of the terms and conditions of this Contract
1067 of any Federal law or regulation; Provided, That the Contractor agrees to comply with the terms and
1068 conditions of this Contract unless and until relief from application of such Federal law or regulation to
1069 the implementing provision of the Contract is granted by a court of competent jurisdiction.

1070 NOTICES

1071 37. Any notice, demand, or request authorized or required by this Contract shall be deemed
1072 to have been given, on behalf of the Contractor, when mailed, postage prepaid, or delivered to the Area

Manager, Bureau of Reclamation, 7794 Folsom Dam Road, Folsom, California 95630-1799, and on behalf of the United States, when mailed, postage prepaid, or delivered to the Board of Directors of the Placer County Water Agency, P.O. Box 6570, Auburn, California 95604. The designation of the addressee or the address may be changed by notice given in the same manner as provided in this Article for other notices.

CONFIRMATION OF CONTRACT

38. The Contractor, after the execution of this Contract, shall promptly seek to secure a decree of a court of competent jurisdiction of the State of California, confirming the execution of this Contract. The Contractor shall furnish the United States a certified copy of the final decree, the validation proceedings, and all pertinent supporting records of the court approving and confirming this Contract, and decreeing and adjudging it to be lawful, valid, and binding on the Contractor.

IN WITNESS WHEREOF, the parties hereto have executed this Contract as of the day and year first above written.
