

# Exhibit RTD-61

## Testimony of Ixtzel Reynoso

# I live in the North Delta....

Sunset at a neighboring field

Swimming in the delta

A view taken from my front yard

Margaret Kaplan from  
the Clarksburg Library

Delta High School (above) and  
the adjacent slough

Mrs. Rodriguez's  
inspirational  
classroom door

“I would have to cut down my classes in order to work, they would expect me to work in order to provide for my siblings”-Angelica

Angelica with her three younger siblings

“Everything my family does, everything I want to do is heavily reliant on water” –Julian Jimenez

“Right now I do custom bailing in the Delta”  
–Julian Jimenez

“Nos quedaríamos en la calle” –Jose Pozas

“We would be out on the street” –Jose Pozas

Personally agriculture created a building block for my family to grow from, my grandfather, my aunts, uncles and my parents all worked in the fields.

Grandfather and farm owner David Elliot

The family home in Rose  
orchard

their jobs in agriculture provided a  
me for my father's family of ten,  
s created by the healthy flows of  
the Delta

My father now has been a  
teacher for 21 years.

The environmental justice community will lose it's livelihood if the flows of the Delta are compromised.  
I owe my current life to the flow of the Delta.
