Central Valley Project, California

CONTRACT BETWEEN THE UNITED STATES AND
CARTER MUTUAL WATER COMPANY,
DIVERTER OF WATER FROM SACRAMENTO RIVER SOURCES,
SETTLING WATER RIGHTS DISPUTES AND
PROVIDING FOR PROJECT WATER

THIS CONTRACT, hereinafter referred to as "Settlement Contract," is entered into by THE UNITED STATES OF AMERICA, hereinafter referred to as the United States, made this 31st day of March, 2005, pursuant to the applicable authority granted to it generally in the Act of June 17, 1902 (32 Stat. 388), and acts amendatory or supplementary thereto, including, but not limited to, the Acts of August 26, 1937 (50 Stat. 844), as amended and supplemented, August 4, 1939 (53 Stat. 1187), as amended and supplemented, including, but not limited to, Sections 9 and 14 thereto, July 2, 1956 (70 Stat. 483), June 21, 1963 (77 Stat. 68), October 12, 1982 (96 Stat. 1263), October 27, 1986 (100 Stat. 3050), as amended, and Title XXXIV of the Act of October 30, 1992 (106 Stat. 4706), all collectively hereinafter referred to as Federal Reclamation law, and CARTER MUTUAL WATER COMPANY, hereinafter referred to as the Contractor, a corporation, acting pursuant to Sections 12003 and 12004 of the California Water Code, with its principal place of business in California;

WITNESSETH, that:

EXPLANATORY RECITALS

[1st] WHEREAS, the United States has constructed and is operating the Central Valley Project, California, for multiple purposes pursuant to its statutory authority; and

[2nd] WHEREAS, the Contractor has rights to divert, is diverting, and will continue to divert for reasonable beneficial use, water from the natural flow of the Sacramento River and tributaries thereto, that would have been flowing therein if the Central Valley Project were not in existence;

[3rd] WHEREAS, the construction and operation of the integrated and coordinated Central Valley Project has changed and will further change the regimen of the Sacramento, American, San Joaquin, and Trinity Rivers and the Sacramento-San Joaquin Delta from unregulated flow to regulated flow; and

[4th] WHEREAS, the United States has rights to divert, is diverting, and will continue to divert waters from said Rivers and said Delta in connection with the operation of said Central Valley Project; and

[5th] WHEREAS, the Contractor and the United States had a dispute over the respective rights of the parties to divert and use water from the regulated flow of the Sacramento River which threatened to result in litigation, and as a means to settle that dispute entered into Contract No. 14-06-200-2401A, as revised, hereinafter referred to as the Existing Contract, which established terms for the delivery to the Contractor of Central Valley Project Water, and the quantities of Base Supply the United States and the Contractor agreed may be diverted by the Contractor from the Sacramento River pursuant to such contract; and

[5.1] WHEREAS, the Contractor's shareholders entered into Sacramento River Contract Nos. 14-06-200-2042A, and 14-06-200-4617A, and the Contractor desires to merge

48 Contract Nos. 14-06-200-2401A, 14-06-200-2042A, and 14-06-200-4617A into a single contract
49 identified as Contract No. 14-06-200-2401A-R-1; and

50 [6th] WHEREAS, the United States and the Contractor disagree with respect to the
51 authority of the United States to change the quantities of Base Supply and/or Project Water
52 specified as available for diversion in this Settlement Contract from the quantities specified in
53 the Existing Contract, and other issues related thereto. That dispute was the subject of litigation
54 in a lawsuit entitled *Glenn-Colusa Irrigation District, et al. v. United States, et al.* [Civ. No. S-
55 01-1816 GEB/JFM (E.D. Cal.)], but that litigation was dismissed, without prejudice, pursuant to
56 a stipulation of dismissal filed by the parties thereto on August 29, 2002. Notwithstanding that
57 dismissal, the Contractor and the United States enter into this Settlement Contract to renew the
58 Existing Contract, pursuant to the terms of the Existing Contract, Federal Reclamation law, and
59 the laws of the State of California; and

60 [7th] WHEREAS, to assure the Contractor of the enjoyment and use of the regulated
61 flow of the said Rivers and the Delta, and to provide for the economical operation of the Central
62 Valley Project by, and the reimbursement to, the United States for expenditures made for said
63 Project.

64 NOW, THEREFORE, in consideration of the performance of the herein contained
65 provisions, conditions, and covenants, it is agreed as follows:

66 DEFINITIONS

67 1. When used herein, unless otherwise expressed or incompatible with the intent
68 hereof, the term:

69 (a) "Base Supply" shall mean the quantity of Surface Water established in
70 Articles 3 and 5 which may be diverted by the Contractor from the Sacramento River each month

during the period April through October of each Year without payment to the United States for such quantities diverted;

(b) "Basin-Wide Water Management Plan" shall mean the mutually agreeable Sacramento River Basinwide Water Management Plan, dated October 11, 2004, developed by Glenn-Colusa Irrigation District, Maxwell Irrigation District, Natomas Central Mutual Water Company, Pelger Mutual Water Company, Princeton-Codora-Glenn Irrigation District, Provident Irrigation District, Reclamation District 108, Sutter Mutual Water Company, Anderson-Cottonwood Irrigation District, Meridian Farms Water Company, Reclamation District 1004, and the U.S. Bureau of Reclamation;

(c) "Charges" shall mean the payments for Project Water that the Contractor is required to pay to the United States in addition to the "Rates" specified in this Settlement Contract. The Contracting Officer will, on an annual basis, determine the extent of these Charges. The type and amount of each Charge shall be specified in Exhibit D;

(d) "Contract Total" shall mean the sum of the Base Supply and Project Water available for diversion by the Contractor for the period April 1 through October 31;

(e) "Critical Year" shall mean any Year in which either of the following eventualities exists:

(1) The forecasted full natural inflow to Shasta Lake for the current Water Year, as such forecast is made by the United States on or before February 15 and reviewed as frequently thereafter as conditions and information warrant, is equal to or less than 3.2 million acre-feet; or

(2) The total accumulated actual deficiencies below 4 million acre-feet in the immediately prior Water Year or series of successive prior Water Years each of which had

94 inflows of less than 4 million acre-feet, together with the forecasted deficiency for the current
95 Water Year, exceed 800,000 acre-feet.

96 For the purpose of determining a Critical Year, the computation of inflow to
97 Shasta Lake shall be performed in a manner that considers the extent of upstream development
98 above Shasta Lake during the year in question, and shall be used as the full natural flow to
99 Shasta Lake. In the event that major construction has occurred or occurs above Shasta Lake after
100 September 1, 1963, and which has materially altered or alters the regimen of the stream systems
101 contributing to Shasta Lake, the computed inflow to Shasta Lake used to define a Critical Year
102 will be adjusted to eliminate the effect of such material alterations. After consultation with the
103 State of California, the National Weather Service, and other recognized forecasting agencies, the
104 Contracting Officer will select the forecast to be used and will make the details of it available to
105 the Contractor. The same forecasts used by the United States for the operation of the Project
106 shall be used to make the forecasts hereunder;

107 (f) "CVPIA" shall mean the Central Valley Project Improvement Act, Title
108 XXXIV of the Act of October 30, 1992 (106 Stat. 4706);

109 (g) "Eligible Lands" shall mean all lands to which Project Water may be
110 delivered in accordance with Section 204 of the Reclamation Reform Act of October 12, 1982
111 (96 Stat. 1263), as amended, hereinafter referred to as RRA;

112 (h) "Excess Lands" shall mean all lands in excess of the limitations contained
113 in Section 204 of the RRA, other than those lands exempt from acreage limitation under Federal
114 Reclamation law;

115 (i) "Full Cost Rate" shall mean that water rate described in Sections 205(a)(3)
116 or 202(3) of the RRA, whichever is applicable;

117 (j) "Ineligible Lands" shall mean all lands to which Project Water may not be
118 delivered in accordance with Section 204 of the RRA;

119 (k) "Landholder" shall mean a party that directly or indirectly owns or leases
120 nonexempt land, as provided in 43 CFR 426.2;

121 (l) "Project" shall mean the Central Valley Project owned by the United
122 States and managed by the Department of the Interior, Bureau of Reclamation;

123 (m) "Project Water" shall mean all Surface Water diverted or scheduled to be
124 diverted each month during the period April through October of each Year by the Contractor
125 from the Sacramento River which is in excess of the Base Supply. The United States recognizes
126 the right of the Contractor to make arrangements for acquisition of water from projects of others
127 than the United States for delivery through the Sacramento River and tributaries subject to
128 written agreement between Contractor and the United States as to identification of such water
129 which water when so identified shall not be deemed Project Water under this Settlement
130 Contract;

131 (n) "Rates" shall mean the payments for Project Water determined annually
132 by the Contracting Officer in accordance with the then current applicable water ratesetting
133 policies for the Project, as described in subdivision (a) of Article 8 of this Settlement Contract;

134 (o) "Secretary" or "Contracting Officer" shall mean the Secretary of the
135 Interior, a duly appointed successor, or an authorized representative acting pursuant to any
136 authority of the Secretary and through any agency of the Department of the Interior;

137 (p) "Surface Water" shall mean only those waters that are considered as
138 surface water under California law;

139 (q) "Water Year" shall mean the period commencing with October 1 of one
140 year and extending through September 30 of the next; and

141 (r) "Year" shall mean a calendar year.

142 TERM OF SETTLEMENT CONTRACT

143 2. (a) This Settlement Contract shall become effective April 1, 2005, and shall
144 remain in effect until and including March 31, 2045; Provided, that under terms and conditions
145 mutually agreeable to the parties hereto, renewals may be made for successive periods not to
146 exceed 40 years each. The terms and conditions of each renewal shall be agreed upon not later
147 than one year prior to the expiration of the then existing Settlement Contract.

148 (b) With respect to Project Water and the portions of this Settlement Contract
149 pertaining thereto, upon written request by the Contractor of the Secretary made not later than
150 one year prior to the expiration of this Settlement Contract, whenever, account being taken of the
151 amount then credited to the costs of construction of water supply works, the remaining amount of
152 construction costs of water supply work which is properly assignable for ultimate return by the
153 Contractor as established by the Secretary of the Interior pursuant to (3) of Section 1 of Public
154 Law 643 (70 Stat. 483), probably can be repaid to the United States within the term of a contract
155 under subsection 9(d) of the 1939 Reclamation Project Act (53 Stat. 1187), the relevant portions
156 of this Settlement Contract may be converted to a contract under said subsection 9(d) upon terms
157 and conditions mutually agreeable to the United States and the Contractor. The Secretary shall
158 make a determination ten years after the date of execution of this Settlement Contract, and every
159 five years thereafter, of whether a conversion to a contract under said subsection 9(d) can be
160 accomplished pursuant to Public Law 643. Notwithstanding any provision of this Settlement
161 Contract, the Contractor reserves and shall have all rights and benefits under Public Law 643.

WATER TO BE FURNISHED TO CONTRACTOR

3. (a) Subject to the conditions, limitations, and provisions hereinafter expressed, the Contractor is hereby entitled and authorized to divert from the Sacramento River at the locations shown in Exhibit A, for beneficial use within the area delineated on Exhibit B, (both Exhibits are attached hereto and made a part hereof), the Contract Total designated in Exhibit A, or any revision thereof, in accordance with the monthly operating schedule required by Article 3(c) of this Settlement Contract. The quantity of any water diverted under this Settlement Contract from the Sacramento River, during the period April through October, for use on any lands delineated on Exhibit B, by the owner of such lands or otherwise shall constitute a part of the Contract Total as shown on Exhibit A and shall be subject to all the provisions of this Settlement Contract relating to such Contract Total as if such diversion were made by the Contractor.

(b) The Contractor may have acquired rights to divert water from the Sacramento River during the period April through October, that were obtained after the date of execution of the Existing Contract, or the Contractor may acquire such rights in the future. All diversions made from the Sacramento River, pursuant to such rights, during the period April through October, shall not be considered a part of the quantity of Base Supply and Project Water specified in Exhibit A; Provided, that the quantities diverted pursuant to the above rights shall be identified on the schedule submitted pursuant to Article 3(c) below, and shall not be substituted for any Base Supply or Project Water; Provided, further, that any such identified quantities of other acquired rights may be diverted by the Contractor before incurring any fee pursuant to Article 3(c)(1), below.

184 (c) Before April 1 and before the first day of each month thereafter when a
185 revision is needed, the Contractor shall submit a written schedule to the Contracting Officer
186 indicating the Contract Total to be diverted by the Contractor during each month under this
187 Settlement Contract. The United States shall furnish water to the Contractor in accordance with
188 the monthly operating schedule or any revisions thereof. However, the United States recognizes
189 the need of the Contractor to change from time to time its monthly diversions of water from the
190 quantities shown in Exhibit A; the Contractor may make such changes, provided:

191 (1) that for the quantity of Base Supply diverted in excess of the
192 monthly quantity shown in Exhibit A, and as may be reduced in accordance with Article 5(a),
193 during June, July, August, September, or October of any Water Year, the Contractor shall be
194 charged a rescheduling fee equal to 50 percent of the sum of the storage operations and
195 maintenance rate and the storage capital rate components of the Project ratesetting policy.

196 (2) that in no event shall the total quantity scheduled for diversion by
197 the Contractor from the Sacramento River:

198 (i) During the period April through October exceed the
199 aggregate of the Contract Total for that period shown in Exhibit A or any revision
200 thereof;

201 (ii) During the period July through September exceed the
202 aggregate of the Contract Total for that period shown in Exhibit A or any revision
203 thereof.

204 (d) In the event conditions warrant, the Contracting Officer reserves the right
205 to require the Contractor to submit, at least 72 hours prior to the beginning of each weekly
206 period, its estimate of daily diversion requirements for each such period from the Sacramento

207 River; Provided, however, that changes during any such period may be made upon the giving of
208 72 hours' notice thereof to the Contracting Officer.

209 (e) No sale, transfer, exchange, or other disposal of any of the Contract Total
210 designated in Exhibit A or the right to the use thereof for use on land other than that shown on
211 Exhibit B shall be made by the Contractor without first obtaining the written consent of the
212 Contracting Officer. Such consent will not be unreasonably withheld and a decision will be
213 rendered in a timely manner. For short-term actions that will occur within one year or less, the
214 decision will be rendered within 30 days after receipt of a complete written proposal. For long-
215 term actions that will occur in a period longer than one year, the decision will be rendered within
216 90 days after receipt of a complete written proposal. For a proposal to be deemed complete by
217 the Contracting Officer, it must comply with all provisions required by State and Federal law,
218 including information sufficient to enable the Contracting Officer to comply with the National
219 Environmental Policy Act, the Endangered Species Act, and applicable rules or regulations then
220 in effect; Provided, that such consent does not authorize the use of Federal facilities to facilitate
221 or effectuate the sale, transfer, exchange, or other disposal of Base Supply. Such use of Federal
222 facilities will be the subject of a separate agreement to be entered into between the Contractor
223 and Reclamation.

224 (f) For the purpose of determining whether Section 3405(a)(1)(M) of the
225 CVPIA applies to the Contractor as a transferor or transferee of Project Water, the Contracting
226 Officer acknowledges that the Contractor is within a county, watershed, or other area of origin,
227 as those terms are utilized under California law.

228 (g) Nothing herein contained shall prevent the Contractor from diverting
229 water during the months of November through March for beneficial use on the land shown on
230 Exhibit B or elsewhere to the extent authorized under the laws of the State of California.

231 (h) The United States assumes no responsibility for and neither it nor its
232 officers, agents, or employees shall have any liability for or on account of:

233 (1) The quality of water to be diverted by the Contractor;

234 (2) The control, carriage, handling, use, disposal, or distribution of
235 water diverted by the Contractor outside the facilities constructed and then being operated and
236 maintained by or on behalf of the United States;

237 (3) Claims of damage of any nature whatsoever, including but not
238 limited to, property loss or damage, personal injury, or death arising out of or connected with the
239 control, carriage, handling, use, disposal, or distribution of said water outside of the hereinabove
240 referred to facilities; and

241 (4) Any damage whether direct or indirect arising out of or in any
242 manner caused by a shortage of water whether such shortage be on account of errors in
243 operation, drought, or unavoidable causes.

244 (i) In addition to the provisions of subdivision (h) of Article 3 of this
245 Contract, if there is a shortage of Project Water because of actions taken by the Contracting
246 Officer to meet legal obligations then, except as provided in subdivision (a) of Article 30 of this
247 Contract, no liability shall accrue against the United States or any of its officers, agents, or
248 employees for any damage, direct or indirect, arising therefrom.

249 RETURN FLOW

250 4. Nothing herein shall be construed as an abandonment or a relinquishment by the
251 United States of any right it may have to the use of waste, seepage, and return flow water derived
252 from water diverted by the Contractor hereunder and which escapes or is discharged beyond the
253 boundaries of the lands shown on Exhibit B; Provided, that this shall not be construed as
254 claiming for the United States any right to such water which is recovered by the Contractor
255 pursuant to California law from within the boundaries of the lands shown on Exhibit B, and
256 which is being used pursuant to this Settlement Contract for surface irrigation or underground
257 storage for the benefit of the lands shown on Exhibit B by the Contractor.

258 CONSTRAINTS ON THE AVAILABILITY OF WATER

259 5. (a) In a Critical Year, the Contractor's Base Supply and Project Water agreed
260 to be diverted during the period April through October of the Year in which the principal portion
261 of the Critical Year occurs and, each monthly quantity of said period shall be reduced by
262 25 percent.

263 (b) The amount of any overpayment by the Contractor shall, at its option, be
264 refunded or credited upon amounts to become due to the United States from the Contractor under
265 the provisions hereof in the ensuing Year. To the extent of such deficiency such adjustment of
266 overpayment shall constitute the sole remedy of the Contractor.

267 INTEGRATED WATER MANAGEMENT AND PARTNERSHIPS

268 6. The Contractor and United States desire to work together to maximize the
269 reasonable beneficial use of water for their mutual benefit. As a consequence, the United States
270 and the Contractor will work in partnership and with others within the Sacramento Valley,
271 including other contractors, to facilitate the better integration within the Sacramento Valley of all

water supplies including, but not limited to, the better management and integration of surface water and groundwater, the development and better utilization of surface water storage, the effective utilization of waste, seepage and return flow water, and other operational and management options that may be identified in the future.

USE OF WATER FURNISHED TO CONTRACTOR

7. (a) Project Water furnished to the Contractor pursuant to this Settlement Contract shall not be delivered or furnished by the Contractor for any purposes other than agricultural purposes without the written consent of the Contracting Officer. For purposes of this Settlement Contract, "agricultural purposes" includes, but is not restricted to, the irrigation of crops, the watering of livestock, incidental domestic use including related landscape irrigation, and underground water replenishment.

(b) The Contractor shall comply with requirements applicable to the Contractor in biological opinion(s) prepared as a result of a consultation regarding the execution of this Settlement Contract undertaken pursuant to Section 7 of the Endangered Species Act of 1973, as amended, that are within the Contractor's legal authority to implement. The Existing Contract, which evidences in excess of 40 years of diversions, for agricultural uses, of the quantities of water provided for in Article 3, and the underlying water rights of the Contractor will be considered in developing an appropriate base-line for the Biological Assessment prepared pursuant to the Endangered Species Act, and in any other needed environmental review.

Nothing herein shall be construed to prevent the Contractor from challenging or seeking judicial relief in a court of competent jurisdiction with respect to any biological opinion or other environmental documentation referred to in this Article.

RATE AND METHOD OF PAYMENT FOR WATER

8. (a) The Contractor shall make payments to the United States as provided in this Article for all Project Water shown in Exhibit A as follows:

(1) 75 percent of the amount shown as Project Water shall be paid for by the Contractor in each Year; and in addition

(2) the Contractor shall pay for Project Water actually diverted in excess of 75 percent of the amount shown as Project Water.

Such payments shall be at Rates and Charges established in accordance with: (i) the Secretary's then-current ratesetting policies for the Project; and (ii) applicable Reclamation law and associated rules and regulations, or policies; Provided, that if the Contractor desires to use Project Water for other than agricultural purposes the Rates and Charges set forth above will be adjusted by the Contracting Officer to the applicable Rates and Charges for such purposes. The Rates and Charges applicable to the Contractor upon execution of this Settlement Contract are set forth in Exhibit D, as may be revised annually. The Secretary's ratesetting policies for the Project shall be amended, modified, or superseded only through a public notice and comment procedure. The Contracting Officer shall adjust the amount of Project Water for which payment is required to the extent of any reduction in diversions of Project Water made in accordance with the water conservation provisions of Article 29(e).

(b) The Contracting Officer shall notify the Contractor of the Rates and Charges as follows:

(1) Prior to July 1 of each Year, the Contracting Officer shall provide the Contractor an estimate of the Charges for Project Water that will be applied to the period October 1, of the current Year, through September 30, of the following Year, and the basis for

such estimate. The Contractor shall be allowed not less than two months to review and comment on such estimates. On or before September 15 of each Year, the Contracting Officer shall notify the Contractor in writing of the Charges to be in effect during the period October 1 of the current Year, through September 30, of the following Year, and such notification shall revise Exhibit D.

(2) Prior to October 1 of each Year, the Contracting Officer shall make available to the Contractor an estimate of the Rates for Project Water for the following Year and the computations and cost allocations upon which those Rates are based. The Contractor shall be allowed not less than two months to review and comment on such computations and cost allocations. By December 31 of each Year, the Contracting Officer shall provide the Contractor with the final Rates to be in effect for the upcoming Year, and such notification shall revise Exhibit D.

(c) The Contractor shall pay the United States for Project Water in the following manner:

(1) With respect to Rates, prior to May 1 of each Year, the Contractor shall pay the United States one-half the total amount payable pursuant to subdivision (a) of this Article and the remainder shall be paid prior to July 1 or such later date or dates as may be specified by the United States in a written notice to the Contractor; Provided, however, that if at any time during the Year the amount of Project Water diverted by the Contractor shall equal the amount for which payment has been made, the Contractor shall pay for the remaining amount of such water as shown in Exhibit A in advance of any further diversion of Project Water.

(2) With respect to Charges, the Contractor shall also make a payment to the United States, in addition to the Rate(s) in subdivision (c)(1) of this Article, at the Charges then in effect, before the end of the month following the month of delivery or transfer. The

340 payments shall be consistent with the quantities of Project Water delivered or transferred.
341 Adjustment for overpayment or underpayment of Charges shall be made through the adjustment
342 of payments due to the United States for Charges for the next month. Any amount to be paid for
343 past due payment of Charges shall be computed pursuant to Article 13 of this Settlement
344 Contract.

345 (d) Payments to be made by the Contractor to the United States under this
346 Settlement Contract may be paid from any revenues available to the Contractor. All revenues
347 received by the United States from the Contractor relating to the delivery of Project Water or the
348 delivery of non-Project Water through Project facilities shall be allocated and applied in
349 accordance with Federal Reclamation law and the associated rules or regulations, and the then
350 current Project ratesetting policies for irrigation water.

351 (e) The Contracting Officer shall keep its accounts pertaining to the
352 administration of the financial terms and conditions of its long-term water service and Settlement
353 Contracts, in accordance with applicable Federal standards, so as to reflect the application of
354 Project costs and revenues. The Contracting Officer shall, each Year upon request of the
355 Contractor, provide to the Contractor a detailed accounting of all Project and Contractor expense
356 allocations, the disposition of all Project and Contractor revenues, and a summary of all water
357 delivery information. The Contracting Officer and the Contractor shall enter into good faith
358 negotiations to resolve any discrepancies or disputes relating to accountings, reports, or
359 information.

360 (f) The parties acknowledge and agree that the efficient administration of this
361 Settlement Contract is their mutual goal. Recognizing that experience has demonstrated that
362 mechanisms, policies, and procedures used for establishing Rates and Charges and/or for making

and allocating payments, other than those set forth in this Article may be in the mutual best interest of the parties, it is expressly agreed that the parties may enter into agreements to modify the mechanisms, policies, and procedures for any of those purposes while this Settlement Contract is in effect without amendment of this Settlement Contract.

(g) For the term of this Settlement Contract, Rates under the respective ratesetting policies for the Project will be established to recover only reimbursable operation and maintenance (including any deficits) and capital costs of the Project, as those terms are used in the then current Project ratesetting policies, and interest, where appropriate, except in instances where a minimum Rate is applicable in accordance with the relevant Project ratesetting policy. Proposed changes of significance in practices which implement the ratesetting policies for the Project will not be implemented until the Contracting Officer has provided the Contractor an opportunity to discuss the nature, need, and impact of the proposed change. The Contractor retains all rights to challenge the validity of Rates and Charges imposed pursuant to this Settlement Contract, including but not limited to operation and maintenance expenses and operation and maintenance deficits, in an appropriate administrative or judicial proceeding.

(h) Except as provided in subsection 3405(a)(1)(B) of the CVPIA, the Rates for Project Water transferred, exchanged, or otherwise disposed of, by the Contractor shall be the Contractor's Rates adjusted upward or downward to reflect the changed costs of delivery (if any) of the transferred, exchanged, or otherwise disposed of Project Water to the transferee's point of delivery in accordance with the then-current ratesetting policies for the Project. Except as provided in subsection 3407(d)(2)(A) of the CVPIA, the Charges for Project Water transferred, exchanged, or otherwise disposed of, by the Contractor shall be the Contractor's Charges specified in Exhibit D. If the Contractor is receiving lower Rates and Charges because of

386 inability to pay and is transferring, exchanging, or otherwise disposing of Project Water to
387 another entity whose Rates and Charges are not adjusted due to inability to pay, the Rates and
388 Charges for transferred, exchanged, or otherwise disposed of Project Water shall be the
389 Contractor's Rates and Charges unadjusted for ability to pay.

390 (i) Pursuant to the Act of October 27, 1986 (100 Stat. 3050), the Contracting
391 Officer is authorized to adjust determinations of ability to pay every five years.

392 (j) Each payment to be made pursuant to subdivisions (a) and (c) of this
393 Article shall be made at the office of the Bureau of Reclamation, MP Region: Mid-Pacific,
394 P.O. Box 894242, Los Angeles, CA 90189-4242, or at such other place as the United States may
395 designate in a written notice to the said Contractor. Payments shall be made by cash transaction,
396 wire, or any other mechanism as may be agreed to in writing by the Contractor and the
397 Contracting Officer. In the event there should be a default in the payment of the amount due, the
398 delinquent payment provisions of Article 13 shall apply. The Contractor shall not be relieved of
399 the whole or any part of its said obligation by, on account of, or notwithstanding, as the case may
400 be:

401 (1) Its failure, refusal, or neglect to divert 75 percent of the quantity of
402 Project Water shown on Exhibit A;

403 (2) The default in payment to it by any water user of assessments,
404 tolls, or other charges levied by or owing to said Contractor;

405 (3) Any judicial determination that any assessment, toll, or other
406 charge referred to in subsection 8(c)(2) of this Settlement Contract is irregular, void, or
407 ineffectual; or

(4) Any injunctive process enjoining or restraining the Contractor from making or collecting any such assessment, toll, or other charge referred to in subsection 8(c)(2) of this Settlement Contract.

AGREEMENT ON WATER QUANTITIES

9. (a) During the term of this Settlement Contract and any renewals thereof:

(1) It shall constitute full agreement as between the United States and the Contractor as to the quantities of water and the allocation thereof between Base Supply and Project Water which may be diverted by the Contractor from the Sacramento River for beneficial use on the land shown on Exhibit B from April 1 through October 31, which said diversion, use, and allocation shall not be disturbed so long as the Contractor shall fulfill all of its obligations hereunder;

(2) Neither party shall claim any right against the other in conflict with the provisions of Article 9(a)(1) hereof.

(b) Nothing herein contained is intended to or does limit rights of the Contractor against others than the United States or of the United States against any person other than the Contractor; Provided, however, that in the event the Contractor, the United States, or any other person shall become a party to a general adjudication of rights to the use of water of the Sacramento River system, this Settlement Contract shall not jeopardize the rights or position of either party hereto or of any other person and the rights of all such persons in respect to the use of such water shall be determined in such proceedings the same as if this Settlement Contract had not been entered into, and if final judgment in any such general adjudication shall determine that the rights of the parties hereto are different from the rights as assumed herein, the parties shall negotiate an amendment to give effect to such judgment. In the event the parties are unable

431 to agree on an appropriate amendment they shall, within 60 days of determining that there is an
432 impasse, employ the services of a neutral mediator, experienced in resolving water rights
433 disputes, to assist in resolving the impasse. The cost of the mediation will be shared equally. A
434 failure to reach agreement on an amendment within 60 days of the end of mediation will cause
435 the immediate termination of this Settlement Contract.

436 (c) In the event that the California State Water Resources Control Board or a
437 court of competent jurisdiction issues a final decision or order modifying the terms and
438 conditions of the water rights of either party to this Settlement Contract in order to impose Bay-
439 Delta water quality obligations, the Contractor and the United States shall promptly meet to
440 determine whether or not to modify any of the terms of this Settlement Contract to comply with
441 the final decision or order, including, but not limited to, the applicability of the rescheduling
442 charge in Article 3(c)(1) of this Settlement Contract. If within 60 days of the date of the issuance
443 of the final decision or order the parties are not able to reach agreement regarding either the need
444 to modify this Settlement Contract or the manner in which this Settlement Contract is to be
445 modified, the parties shall promptly retain a neutral mediator, experienced in resolving water
446 right disputes, to assist the parties in resolving their dispute. The cost of the mediator shall be
447 shared equally. In the event that either of the parties to this Settlement Contract determines that
448 the parties will not be able to develop mutually-agreeable modification(s) to this Settlement
449 Contract even with the assistance of a mediator, either of the parties to this Settlement Contract
450 may attempt to resolve the impasse by seeking appropriate judicial relief including, but not
451 limited to, filing a general adjudication of the rights to the use of water in the Sacramento River
452 system. The foregoing provisions of this sub-article shall only apply to the incremental
453 obligations contained within a final decision or order of the State Water Resources Control

Board that reflects a modification to the obligations imposed in State Water Resources Control Board Revised Water Rights Decision 1641 dated March 15, 2000, and its associated 1995 Water Quality Control Plan which, taken together, will be considered the baseline for the application of the provisions of this sub-article.

(d) In the event this Settlement Contract terminates, the rights of the parties to thereafter divert and use water shall exist as if this Settlement Contract had not been entered into; and the fact that as a compromise settlement of a controversy as to the respective rights of the parties to divert and use water and the yield of such rights during the term hereof, this Settlement Contract places a limit on the Contract Total to be diverted annually by the Contractor during the Settlement Contract term and segregates it into Base Supply and Project Water shall not jeopardize the rights or position of either party with respect to its water rights or the yield thereof at all times after the Settlement Contract terminates. It is further agreed that the Contractor at all times will first use water to the use of which it is entitled by virtue of its own water rights, and neither the provisions of this Settlement Contract, action taken thereunder, nor payments made thereunder to the United States by the Contractor shall be construed as an admission that any part of the water used by the Contractor during the term of this Settlement Contract was in fact water to which it would not have been entitled under water rights owned by it nor shall receipt of payments thereunder by the United States from the Contractor be construed as an admission that any part of the water used by the Contractor during the term of this Settlement Contract was in fact water to which it would have been entitled under water rights owned by it.

MEASUREMENT OF WATER

10. (a) All water diverted by the Contractor from the Sacramento River will be diverted at the existing point or points of diversion shown on Exhibit A or at such other points as may be mutually agreed upon in writing by the Contracting Officer and the Contractor.

(b) All water diverted from the Sacramento River pursuant to this Settlement Contract will be measured or caused to be measured by the United States at each point of diversion with existing equipment or equipment to be installed, operated, and maintained by the United States, and/or others, under contract with and at the option of the United States. The equipment and methods used to make such measurement shall be in accordance with sound engineering practices. Upon request of the Contractor, the accuracy of such measurements will be investigated by the Contracting Officer and any errors appearing therein will be corrected.

(c) The right of ingress to and egress from all points of diversion is hereby granted to all authorized employees of the United States. The Contractor also hereby grants to the United States the right to install, operate, maintain, and replace such equipment on diversion or carriage facilities at each point of diversion as the Contracting Officer deems necessary.

(d) The Contractor shall not modify, alter, remove, or replace diversion facilities or do any other act which would alter the effectiveness or accuracy of the measuring equipment installed by the United States or its representatives unless and until the Contracting Officer has been notified with due diligence and has been given an opportunity to modify such measuring equipment in such manner as may be necessary or appropriate. In the event of an emergency the Contractor shall notify the United States within a reasonable time thereafter as to the existence of the emergency and the nature and extent of such modification, alteration, removal, or replacement of diversion facilities.

(e) The Contractor shall pay the United States for the costs to repair, relocate, or replace measurement equipment when the Contractor modifies, alters, removes, or replaces diversion or carriage facilities.

(f) Contractor and Contracting Officer shall develop a mutually agreeable surface water delivery water measurement program which shall be implemented by the Contractor, and such measurement program shall be consistent with the conservation and efficiency criteria for evaluating water conservation plans as provided in Article 29(a).

(g) All new surface water delivery systems installed within the lands delineated on Exhibit B after the effective date of this Settlement Contract shall also comply with the measurement provisions described in this Article.

RULES AND REGULATIONS

11. The parties agree that the delivery of Project Water for irrigation use or use of Federal facilities pursuant to this Settlement Contract is subject to Federal Reclamation law, including but not limited to, the Reclamation Reform Act of 1982 (43 U.S.C. 390aa et seq.), as amended and supplemented, and the rules and regulations promulgated by the Secretary of the Interior under Federal Reclamation law.

GENERAL OBLIGATION--BENEFITS CONDITIONED UPON PAYMENT

12. (a) The obligation of the Contractor to pay the United States as provided in this Settlement Contract is a general obligation of the Contractor notwithstanding the manner in which the obligation may be distributed among the Contractor's water users and notwithstanding the default of individual water users in their obligations to the Contractor.

(b) The payment of Charges becoming due hereunder is a condition precedent to receiving benefits under this Settlement Contract. The United States shall not make water available to the Contractor through Project facilities during any period in which the Contractor may be in arrears in the advance payment of water Rates due the United States. The Contractor shall not furnish water made available pursuant to this Settlement Contract for lands or parties which are in arrears in the advance payment of water rates levied or established by the Contractor.

(c) With respect to subdivision (b) of this Article, the Contractor shall have no obligation to require advance payment for water Rates which it levies.

CHARGES FOR DELINQUENT PAYMENTS

13. (a) The Contractor shall be subject to interest, administrative and penalty charges on delinquent installments or payments. When a payment is not received by the due date, the Contractor shall pay an interest charge for each day the payment is delinquent beyond the due date. When a payment becomes 60 days delinquent, the Contractor shall pay an administrative charge to cover additional costs of billing and processing the delinquent payment. When a payment is delinquent 90 days or more, the Contractor shall pay an additional penalty charge of six percent per year for each day the payment is delinquent beyond the due date. Further, the Contractor shall pay any fees incurred for debt collection services associated with a delinquent payment.

(b) The interest charge rate shall be the greater of the rate prescribed quarterly in the Federal Register by the Department of the Treasury for application to overdue payments, or the interest rate of one-half of one percent per month prescribed by Section 6 of the Reclamation Project Act of 1939 (Public Law 76-260). The interest charge rate shall be determined as of the due date and remain fixed for the duration of the delinquent period.

(c) When a partial payment on a delinquent account is received, the amount received shall be applied, first to the penalty, second to the administrative charges, third to the accrued interest, and finally to the overdue payment.

QUALITY OF WATER

14. The operation and maintenance of Project facilities shall be performed in such manner as is practicable to maintain the quality of raw water made available through such facilities at the highest level reasonably attainable as determined by the Contracting Officer. The United States does not warrant the quality of water and is under no obligation to construct or furnish water treatment facilities to maintain or better the quality of water.

WATER AND AIR POLLUTION CONTROL

15. The Contractor, in carrying out this Settlement Contract, shall comply with all applicable water and air pollution laws and regulations of the United States and the State of

554 California, and shall obtain all required permits or licenses from the appropriate Federal, State,
555 or local authorities.

556 EQUAL OPPORTUNITY

557 16. During the performance of this Settlement Contract, the Contractor agrees as
558 follows:

559 (a) The Contractor will not discriminate against any employee or applicant for
560 employment because of race, color, religion, sex, or national origin. The Contractor will take
561 affirmative action to ensure that applicants are employed, and that employees are treated during
562 employment, without regard to their race, color, religion, sex, or national origin. Such action
563 shall include, but not be limited to, the following: Employment, upgrading, demotion, or
564 transfer; recruitment or recruitment advertising; layoff or termination, rates of payment or other
565 forms of compensation; and selection for training, including apprenticeship. The Contractor
566 agrees to post in conspicuous places, available to employees and applicants for employment,
567 notices to be provided by the Contracting Officer setting forth the provisions of this
568 nondiscrimination clause.

569 (b) The Contractor will, in all solicitations or advertisements for employees
570 placed by or on behalf of the Contractor, state that all qualified applicants will receive
571 consideration for employment without discrimination because of race, color, religion, sex, or
572 national origin.

573 (c) The Contractor will send to each labor union or representative of workers
574 with which it has a collective bargaining agreement or other contract or understanding, a notice,
575 to be provided by the Contracting Officer, advising the said labor union or workers'
576 representative of the Contractor's commitments under Section 202 of Executive Order No. 11246
577 of September 24, 1965, as amended, and shall post copies of the notice in conspicuous places
578 available to employees and applicants for employment.

579 (d) The Contractor will comply with all provisions of Executive Order No.
580 11246 of September 24, 1965, as amended, and of the rules, regulations, and relevant orders of
581 the Secretary of Labor.

582 (e) The Contractor will furnish all information and reports required by said
583 amended Executive Order and by the rules, regulations, and orders of the Secretary of Labor, or
584 pursuant thereto, and will permit access to its books, records, and accounts by the Contracting
585 Officer and the Secretary of Labor for purposes of investigation to ascertain compliance with
586 such rules, regulations, and orders.

587 (f) In the event of the Contractor's noncompliance with the nondiscrimination
588 clauses of this Settlement Contract or with any of the said rules, regulations, or orders, this
589 Settlement Contract may be canceled, terminated, or suspended, in whole or in part, and the
590 Contractor may be declared ineligible for further Government contracts in accordance with

591 procedures authorized in said amended Executive Order, and such other sanctions may be
 592 imposed and remedies invoked as provided in said Executive Order, or by rule, regulation, or
 593 order of the Secretary of Labor, or as otherwise provided by law.

594 (g) The Contractor will include the provisions of paragraphs (a) through (g) in
 595 every subcontract or purchase order unless exempted by the rules, regulations, or orders of the
 596 Secretary of Labor issued pursuant to Section 204 of said amended Executive Order, so that such
 597 provisions will be binding upon each subcontractor or vendor. The Contractor will take such
 598 action with respect to any subcontract or purchase order as may be directed by the Secretary of
 599 Labor as a means of enforcing such provisions, including sanctions for noncompliance:
 600 Provided, however, that in the event the Contractor becomes involved in, or is threatened with,
 601 litigation with a subcontractor or vendor as a result of such direction, the Contractor may request
 602 the United States to enter into such litigation to protect the interests of the United States.

603 COMPLIANCE WITH CIVIL RIGHTS LAWS AND REGULATIONS

604 17. (a) The Contractor shall comply with Title VI of the Civil Rights Act of 1964
 605 (42 U.S.C. 2000d), Section 504 of the Rehabilitation Act of 1975 (P.L. 93-112, as amended), the
 606 Age Discrimination Act of 1975 (42 U.S.C. 6101, et seq.) and any other applicable civil rights
 607 laws, as well as with their respective implementing regulations and guidelines imposed by the
 608 U.S. Department of the Interior and/or Bureau of Reclamation.

609 (b) These statutes require that no person in the United States shall, on the
 610 grounds of race, color, national origin, handicap, or age, be excluded from participation in, be
 611 denied the benefits of, or be otherwise subjected to discrimination under any program or activity
 612 receiving financial assistance from the Bureau of Reclamation. By executing this Settlement
 613 Contract, the Contractor agrees to immediately take any measures necessary to implement this
 614 obligation, including permitting officials of the United States to inspect premises, programs, and
 615 documents.

616 (c) The Contractor makes this agreement in consideration of and for the
 617 purpose of obtaining any and all Federal grants, loans, contracts, property discounts, or other
 618 Federal financial assistance extended after the date hereof to the Contractor by the Bureau of
 619 Reclamation, including installment payments after such date on account of arrangements for
 620 Federal financial assistance which were approved before such date. The Contractor recognizes
 621 and agrees that such Federal assistance will be extended in reliance on the representations and
 622 agreements made in this Article, and that the United States reserves the right to seek judicial
 623 enforcement thereof.

624 MINGLING OF CONTRACTOR'S PROJECT AND NON-PROJECT WATER

625 18. (a) Project Water must of necessity be transported by the Contractor to its
 626 water users by means of the same works and channels used for the transport of its non-Project
 627 Water including Base Supply. Notwithstanding such mingling of water, the provisions of

628 Article 11 hereof shall be applicable only to Project Water, and such mingling of water shall not
629 in any manner subject to the provisions of Article 11 hereof the Contractor's non-Project Water
630 including Base Supply.

631 (b) If required in accordance with subdivision (c) of this Article, the
632 Contractor shall install and maintain such measuring equipment and distribution facilities and
633 maintain such records as may be necessary to determine the amounts of water delivered to
634 Excess Lands served by the Contractor. The Contractor shall not within any month deliver to
635 Ineligible Lands water in excess of the non-Project Water, including Base Supply, for that
636 month. The Contracting Officer or authorized representative shall have the right at all
637 reasonable times to inspect such records and measuring equipment.

638 (c) The Contractor will not be considered in violation of the requirement that
639 Project Water be delivered only to Eligible Lands during any month of the irrigation season that
640 the water requirement for beneficial use on Eligible Lands for that month is equal to or in excess
641 of the Project Water for that month as shown on Exhibit A or any revision thereof pursuant to
642 subdivision (c) of Article 3. The water requirement for beneficial use on Eligible Lands will be
643 determined by multiplying:

644 (1) the number of irrigable acres of the particular types of crops grown
645 in that year on the acreage designated as eligible by

646 (2) the Unit Duties as set forth in Exhibit C attached hereto and made
647 a part hereof, or by such other Unit Duties mutually agreed upon by the Contractor and the
648 Contracting Officer. In order to make the computation of the water requirement for Eligible
649 Lands, on April 1 of each Year and concurrently with its order for water for the irrigation season,
650 the Contractor shall designate the acreage of and type of crops to be grown on its Eligible Lands

651 that irrigation season. During any month the water requirement as above determined for crops
652 growing on Eligible Lands during such month is equal to or in excess of the Project Water for
653 that month as provided herein the Contractor shall not be required to measure the water delivered
654 to Excess Lands. Any month the said water requirement is less than the amount of Project Water
655 as provided herein, the Contractor will be required to measure water delivered to excess land in
656 accordance with subdivision (b) hereof.

657 BOOKS, RECORDS, AND REPORTS

658 19. The Contractor shall establish and maintain accounts and other books and records
659 pertaining to administration of the terms and conditions of this Settlement Contract, including:
660 the Contractor's financial transactions, water supply data, and Project land and right-of-way
661 agreements; the water users' land-use (crop census), land ownership, land-leasing and water use
662 data; and other matters that the Contracting Officer may require. Reports thereon shall be
663 furnished to the Contracting Officer in such form and on such date or dates as the Contracting
664 Officer may require. Subject to applicable Federal laws and regulations, each party to this
665 Settlement Contract shall have the right during office hours to examine and make copies of each
666 other's books and official records relating to matters covered by this Settlement Contract.

667 CHANGE OF PLACE OF USE OR ORGANIZATION

668 20. (a) Unless the written consent of the United States is first obtained no change
669 shall be made in the place of water use shown on Exhibit B.

670 (b) While this Settlement Contract is in effect, no change shall be made in the
671 area of the Contractor as shown on its Exhibit B, by inclusion, exclusion, annexation, or
672 detachment of lands, by dissolution, consolidation, or merger or otherwise, except upon the
673 Contracting Officer's written consent thereto. Such consent will not be unreasonably withheld
674 and a decision will be provided in a timely manner.

675 (c) In the event lands are annexed to or detached from the area of the
676 Contractor, as provided herein, the quantity of Project Water to be diverted may be increased or

677 decreased, as may be appropriate, pursuant to a supplemental agreement to be executed in
678 respect thereto.

679 CONSOLIDATION OF CONTRACTING ENTITIES

680 21. Consolidation of Contractors may be approved by the Contracting Officer
681 provided: (i) the Contracting Officer approves the form and organization of the resulting entity
682 and the utilization by it of the Contract Total; and (ii) the obligations of the Contractors are
683 assumed by such entity.

684 No such consolidation shall be valid unless and until approved by the Contracting
685 Officer.

686 NOTICES

687 22. Any notice, demand, or request authorized or required by this Settlement Contract
688 shall be deemed to have been given, on behalf of the Contractor, when mailed, postage prepaid,
689 or delivered to the Area Manager, Northern California Area Office, Bureau of Reclamation,
690 16349 Shasta Dam Boulevard, Shasta Lake, California 96019, and on behalf of the United
691 States, when mailed, postage prepaid, or delivered to the Board of Directors of the Carter Mutual
692 Water Company, 4746 River Road, Colusa, California 95932-4200. The designation of the
693 addressee or the address may be changed by notice given in the same manner as provided in this
694 Article for other notices.

695 ASSIGNMENT LIMITED--SUCCESSORS AND ASSIGNS OBLIGATED

696
697 23. (a) The provisions of this Settlement Contract shall apply to and bind the
698 successors and assigns of the parties hereto, but no assignment or transfer of this Settlement
699 Contract or any right or interest therein shall be valid until approved in writing by the
700 Contracting Officer.

701 (b) The assignment of any right or interest in this Settlement Contract by
702 either party shall not interfere with the rights or obligations of the other party to this Settlement
703 Contract absent the written concurrence of said other party.

704 (c) The Contracting Officer shall not unreasonably condition or withhold his
705 approval of any proposed assignment.

706

OFFICIALS NOT TO BENEFIT

707 24. (a) No Member of or Delegate to Congress, Resident Commissioner, or
708 official of the Contractor shall benefit from this Settlement Contract other than as a water user or
709 landowner in the same manner as other water users or landowners.

710 (b) No officer or member of the governing board of the Contractor shall
711 receive any benefit that may arise by reason of this Settlement Contract other than as a
712 landowner within the Contractor's Service Area and in the same manner as other landowners
713 within the said service area.

714

CONTINGENT UPON APPROPRIATION OR ALLOTMENT OF FUNDS

715 25. The expenditure or advance of any money or the performance of any obligation of
716 the United States under this Settlement Contract shall be contingent upon appropriation or
717 allotment of funds. Absence of appropriation or allotment of funds shall not relieve the
718 Contractor from any obligations under this Settlement Contract. No liability shall accrue to the
719 United States in case funds are not appropriated or allotted.

720

CONFIRMATION OF SETTLEMENT CONTRACT

721 26. The Contractor, after the execution of this Settlement Contract, shall promptly
722 seek to secure a decree of a court of competent jurisdiction of the State of California, if
723 appropriate, confirming the execution of this Settlement Contract. The Contractor shall furnish
724 the United States a certified copy of the final decree, the validation proceedings, and all pertinent
725 supporting records of the court approving and confirming this Settlement Contract, and
726 decreeing and adjudging it to be lawful, valid, and binding on the Contractor. This Settlement
727 Contract shall not be binding on the United States until such final decree has been secured.

728

UNAVOIDABLE GROUNDWATER PERCOLATION

729 27. To the extent applicable, the Contractor shall not be deemed to have delivered
730 Project Water to Excess Lands or Ineligible Lands if such lands are irrigated with groundwater
731 that reaches the underground strata as an unavoidable result of the delivery of Project Water by
732 the Contractor to Eligible Lands.

733

PRIVACY ACT COMPLIANCE

734 28. (a) The Contractor shall comply with the Privacy Act of 1974 (5 U.S.C. 552a)
735 (the Act) and the Department of the Interior rules and regulations under the Act (43 CFR 2.45 et
736 seq.) in maintaining Landholder acreage certification and reporting records, required to be

737 submitted to the Contractor for compliance with Sections 206 and 228 of the Reclamation
738 Reform Act of 1982 (96 Stat. 1266), and pursuant to 43 CFR 426.18.

739 (b) With respect to the application and administration of the criminal penalty
740 provisions of the Act (5 U.S.C. 552a(i)), the Contractor and the Contractor's employees
741 responsible for maintaining the certification and reporting records referenced in (a) above are
742 considered to be employees of the Department of the Interior. See 5 U.S.C. 552a(m).

743 (c) The Contracting Officer or a designated representative shall provide the
744 Contractor with current copies of the Interior Department Privacy Act regulations and the Bureau
745 of Reclamation Federal Register Privacy Act System of Records Notice (Acreage Limitation--
746 Interior, Reclamation-31) which govern the maintenance, safeguarding, and disclosure of
747 information contained in the Landholder's certification and reporting records.

748 (d) The Contracting Officer shall designate a full-time employee of the
749 Bureau of Reclamation to be the System Manager who shall be responsible for making decisions
750 on denials pursuant to 43 CFR 2.61 and 2.64 amendment requests pursuant to 43 CFR 2.72. The
751 Contractor is authorized to grant requests by individuals for access to their own records.

752 (e) The Contractor shall forward promptly to the System Manager each
753 proposed denial of access under 43 CFR 2.64; and each request for amendment of records filed
754 under 43 CFR 2.71; notify the requester accordingly of such referral; and provide the System
755 Manager with information and records necessary to prepare an appropriate response to the
756 requester. These requirements do not apply to individuals seeking access to their own
757 certification and reporting forms filed with the Contractor pursuant to 43 CFR 426.18, unless the
758 requester elects to cite the Privacy Act as a basis for the request.

759 WATER CONSERVATION

760 29. (a) Prior to the diversion of Project Water, the Contractor shall be
761 implementing an effective water conservation and efficiency program based on the Basin-Wide
762 Water Management Plan and/or Contractor's water conservation plan that has been determined
763 by the Contracting Officer to meet the conservation and efficiency criteria for evaluating water
764 conservation plans established under Federal law. The water conservation and efficiency
765 program shall contain definite water conservation objectives, appropriate economically feasible
766 water conservation measures, and time schedules for meeting those objectives. Continued
767 diversion of Project Water pursuant to this Settlement Contract shall be contingent upon the
768 Contractor's continued implementation of such water conservation program. In the event the

Contractor's water conservation plan or any revised water conservation plan completed pursuant to subdivision (c) of Article 29 of this Settlement Contract have not yet been determined by the Contracting Officer to meet such criteria, due to circumstances which the Contracting Officer determines are beyond the control of the Contractor, Project Water deliveries shall be made under this Settlement Contract so long as the Contractor diligently works with the Contracting Officer to obtain such determination at the earliest practicable date, and thereafter the Contractor immediately begins implementing its water conservation and efficiency program in accordance with the time schedules therein.

(b) The Contractor shall submit to the Contracting Officer a report on the status of its implementation of the water conservation plan on the reporting dates specified in the then existing conservation and efficiency criteria established under Federal law.

(c) At five-year intervals, the Contractor shall revise its water conservation plan to reflect the then current conservation and efficiency criteria for evaluating water conservation plans established under Federal law and submit such revised water management plan to the Contracting Officer for review and evaluation. The Contracting Officer will then determine if the water conservation plan meets Reclamation's then current conservation and efficiency criteria for evaluating water conservation plans established under Federal law.

(d) If the Contractor is engaged in direct groundwater recharge, such activity shall be described in the Contractor's water conservation plan.

(e) In order to provide incentives for water conservation, the Contractor may reduce the amount of Project Water for which payment is required under Article 8(a) in accordance with the provisions of this Article 29(e).

(1) On or before February 15 of any Water Year, the Contractor may file with Reclamation an offer to reduce Project Water use, hereinafter referred to as Offer. The Offer shall specify the maximum quantity of Project Water to be diverted by the Contractor for each month that Project Water is available for that Water Year under this Settlement Contract. The Contracting Officer shall provide the Contractor with a decision, in writing, to the Offer on or before March 15 of that Water Year. The dates specified in this Article 29(e)(1) can be changed if mutually agreed to, in writing, by the Contractor and Contracting Officer.

(2) If Reclamation accepts the Offer, the Contractor's payment obligation under Article 8(a)(1) shall be reduced to the maximum quantity of Project Water to be diverted by the Contractor as specified in the Offer. The Contractor shall not divert Project Water in excess of the quantities set forth in the Offer; Provided, however, if the Contractor's diversions of Project Water exceed the quantities set forth in the Offer, the Contractor shall pay to Reclamation the applicable Rates and Charges plus an amount equal to the applicable Rates and Charges, unadjusted for ability to pay, for each acre-foot of Project Water diverted in excess of the quantities set forth in the Offer.

(3) If Reclamation decides not to accept the Offer, the Contractor's payment obligation will remain as specified in Article 8(a)(1).

(4) The provisions of this Article 29(e) shall be in addition to and shall not affect the provisions of Article 3(e) pertaining to the sale, transfer, exchange, or other disposal of the Contract Total designated in Exhibit A.

OPINIONS AND DETERMINATIONS

30. (a) Where the terms of this Settlement Contract provide for actions to be based upon the opinion or determination of either party to this Settlement Contract, said terms

shall not be construed as permitting such action to be predicated upon arbitrary, capricious, or unreasonable opinions or determinations. Both parties, notwithstanding any other provisions of this Settlement Contract, expressly reserve the right to seek relief from and appropriate adjustment for any such arbitrary, capricious, or unreasonable opinion or determination. Each opinion or determination by either party shall be provided in a timely manner. Nothing in subdivision (a) of Article 30 of this Settlement Contract is intended to or shall affect or alter the standard of judicial review applicable under Federal law to any opinion or determination implementing a specific provision of Federal law embodied in statute or regulation.

(b) The Contracting Officer shall have the right to make determinations necessary to administer this Settlement Contract that are consistent with the provisions of this Settlement Contract, the laws of the United States and of the State of California, and the rules and regulations promulgated by the Secretary of the Interior. Such determinations shall be made in consultation with the Contractor to the extent reasonably practicable.

CONTRACTOR TO PAY CERTAIN MISCELLANEOUS COSTS

31. (a) In addition to all other payments to be made by the Contractor pursuant to this Settlement Contract, the Contractor shall pay to the United States, within 60 days after receipt of a bill and detailed statement submitted by the Contracting Officer to the Contractor for such specific items of direct cost incurred by the United States for work requested by the Contractor associated with this Settlement Contract plus indirect costs in accordance with applicable Bureau of Reclamation policies and procedures. All such amounts referred to in this Article shall not exceed the amount agreed to in writing in advance by the Contractor. This Article shall not apply to costs for routine contract administration.

836 (b) All advances for miscellaneous costs incurred for work requested by the
837 Contractor pursuant to Article 31 of this Settlement Contract shall be adjusted to reflect the
838 actual costs when the work has been completed. If the advances exceed the actual costs incurred,
839 the difference will be refunded to the Contractor. If the actual costs exceed the Contractor's
840 advances, the Contractor will be billed for the additional costs pursuant to Article 31 of this
841 Settlement Contract.

842 WAIVER OF DEFAULT

843 32. The waiver by either party to this Settlement Contract as to any default shall not
844 be construed as a waiver of any other default or as authority of the other party to continue such
845 default or to make, do, or perform, or not to make, do, or perform, as the case may be, any act or
846 thing which would constitute a default.

847 IN WITNESS WHEREOF, the parties hereto have executed this Settlement Contract
848 as of the day and year first hereinabove written.

CARTER MUTUAL WATER COMPANY

SPECIAL MEETING OF THE BOARD OF DIRECTORS AND SHAREHOLDERS

Colusa, California
Friday, March 4, 2005

MINUTES

The meeting was called to order by President Jane Foster Carter on March 4, 2005 at 9:00 a.m.

Roll call: Present: Jane Carter (sole shareholder)
Ben Carter
Absent: Ann Carter

The President announced that the meeting was called to approve a change in the Long-term Renewal Contract No.14-06-200-2401A-R-1 between the United States and the Carter Mutual Water Company, (Company) Diverter of Water from Sacramento River Sources, Settling Water Rights Disputes and providing for Project Water – Central Valley Project, California.

The change to the long-term renewal contract proposed by the United States is stated in the addition to Article 3, subdivision (i) of the new contract, which provides that the United States shall have no liability in the event of a shortage of Project Water arising from actions taken by the Contracting Officer to meet legal obligations.

After discussion, it was moved by Director Ben Carter to approve the contract with this addition and authorize the officers of the Carter Mutual Water Company to execute the three original contracts and forward them to the Regional Director of the Mid-Pacific Region of the Bureau of Reclamation for final execution.

Second by Director Jane Carter; Motion approved, all ayes.

The meeting was adjourned at 10:30 a.m.

JANE FOSTER CARTER, President

BENJAMIN F. CARTER, Secretary
